   a. be a New Zealand citizen or permanent resident of New Zealand
   b. have completed Year 12 at a New Zealand secondary school or its equivalent at least one calendar year prior to applying for entry
   or
   (i) in special circumstances be eligible for Special Admission to the University.

*Note: This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Arts.*
**Duration and Total Points Value**

2 A student enrolled in the certificate must follow a programme of the equivalent of two full-time semesters and pass courses to the value of 120 points. In exceptional circumstances part-time enrolment may be approved.

**Structure and Content**

3 A student enrolled for this certificate must complete the requirements as listed in the Tertiary Foundation Certificate Schedule.

4 The programme for each student requires the approval of the Coordinator of the Certificate.

5 A student enrolled in this certificate must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

6 A student who fails a course may, with the permission of the Coordinator of the Certificate, sit a subsequent examination for that course providing that:
   a the student has achieved an average grade of C+ in the courses taken for this Certificate
   and
   b achieved a grade of not less than D for the course in question.

7 The subsequent examination must be undertaken within two weeks of the notification of results to students.

8 A student may re-sit a maximum of 15 points towards completion of the Tertiary Foundation Certificate.

**Variations**

9 a A student who achieves a Grade Point Average of 7.0 in the first 60 points of this certificate may enrol in a Stage I course in their second semester, with the approval of the Coordinator of the Certificate.

   b Credit may be granted toward a Bachelors degree at this University for the Stage I course completed under Regulation 9a.

10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

11 These regulations and/or schedule have been amended with effect from 1 January 2024.

---

**Tertiary Foundation Certificate (TFC) Schedule**

**Requirement:**

- **Arts**
  - At least 30 points from TFCACENG 93F, TFCENG 91F, 92F, TFCEWRIT 94F
  - 30 points from TFCMATHS 89F–94F
  - 60 points from TFCARTS 92F, TFCBIO 91F, 92F, TFCBUS 92F, TFCCAI 92F, TFCCHM 91F, 92F, TFCENG 91F, 92F, TFCEWRIT 94F, TFCHEM 91F, 92F, TFCMAORI 10F, TFCPHYS 91F, 92F, TFCSTATS 92F

- **Education and Social Work**
  - at least 30 points from TFCACENG 93F, TFCENG 91F, 92F, TFCEWRIT 94F
  - 30 points from TFCMATHS 90F–94F
  - up to 45 points from TFCEDUC 13F, 14F, 16F, TFCMAORI 10F
  - 15 points from TFCARTS 92F, TFCMAORI 10F, TFCPHYS 91F, 92F, TFCSTATS 92F

- **Engineering**
  - 15 points from TFCACENG 93F, TFCENG 91F, 92F, TFCEWRIT 94F
  - 30 points from TFCMATHS 90F–94F
  - a further 60 points from TFCBIO 91F, 92F, TFCHEM 91F, 92F, TFCENG 91F, 92F, TFCMAORI 10F, TFCPHYS 91F, 92F, TFCSTATS 92F

- **Science**
  - 15 points from TFCACENG 93F, TFCENG 91F, 92F, TFCEWRIT 94F
  - 30 points from TFCMATHS 90F–94F
  - 30 points from TFCBIO 91F, 92F, TFCHEM 91F, 92F, TFCENG 91F, 92F, TFCMAORI 10F, TFCPHYS 91F, 92F
  - 45 points from TFCBIO 91F, 92F, TFCHEM 91F, 92F, TFCENG 91F, 92F, TFCMAORI 10F, TFCPHYS 91F, 92F, TFCSTATS 92F
Diploma in Global Studies – DipGlobalSt

The regulations for this diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this diploma, a student must have:
   a been enrolled in the Degree of Bachelor of Global Studies, or a conjoint programme that includes the Bachelor of Global Studies as a component degree, at this University
   and
   b passed at least 120 points for that degree
   and
   c been recommended for admission by the Dean or nominee.

Total Points Value

2 A student admitted to this diploma must pass courses with a total value of 120 points.

Structure and Content

3 Of the 120 points required for this diploma, 60 points must be from courses listed in the Bachelor of Global Studies Schedule.

4 A student must complete the the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations

5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement

6 These regulations came into force on 1 January 2021.

Postgraduate Certificate in Artificial Intelligence – PGCertAI

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this postgraduate certificate, a student must have completed:
   either
   a the requirements for the Degree of Bachelor of Advanced Science (Honours), Bachelor of Engineering or Bachelor of Engineering (Honours) from this University with a Grade Point Average of 4.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b the requirements for the Degree of Bachelor of Science or other relevant Bachelors Degree from this University with a Grade Point Average of 4.0 or higher in 75 points above Stage II, or the equivalent as approved by the Programme Director.

Note: Whether a degree is considered relevant will depend on the courses passed. Degrees or subjects in applied science, bioengineering, computer science, data science, electrical engineering, electronic engineering, engineering science, information technology, mechatronics, science, software engineering or technology may be considered relevant.

Duration and Total Points Value

2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content

5 A student enrolled for this degree must complete the requirements as listed in the Postgraduate Certificate in Artificial Intelligence Schedule.
6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances the Programme Director may approve a personal programme which does not conform to these regulations.

Commencement
8 These regulations came into force on 1 January 2024.

---

### Postgraduate Certificate in Artificial Intelligence (PGCertAI) Schedule

**Requirement:**
- 60 points: COMPSCI 712–714, INFOSYS 703

---

### Postgraduate Certificate in Disaster Management – PGCertDisMgt

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**
1 In order to be admitted to this postgraduate certificate, a student needs to have:
   a. been enrolled in the Degree of Master of Disaster Management
   b. passed at least 30 points for that degree
   c. been recommended for admission by the Dean or nominee.

**Duration and Total Points Value**
2 A student admitted to this postgraduate certificate must:
   a. pass courses with a total value of 60 points
   b. complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

**Structure and Content**
4 Of the 60 points required for this postgraduate certificate, a student must pass:
   a. 15 points from DISMGT 701, 703
   b. 45 points from courses listed in the Master of Disaster Management Schedule, excluding DISMGT 704.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Variations**
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**
7 These regulations have been amended with effect from 1 January 2018.

---

### Postgraduate Certificate in Energy – PGCertEnergy

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**
1 In order to be admitted to this postgraduate certificate, a student needs to have:
   a. been enrolled in the Degree of Master of Energy
   b. passed at least 30 points for that degree
c been recommended for admission by the Dean or nominee.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
a pass courses with a total value of 60 points and
b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 Of the 60 points required for this postgraduate certificate, a student must pass:
a 30 points: ENERGY 721, 722 and
b 30 points from courses listed in the Master of Energy Schedule or other approved 600 and 700 level courses, excluding ENERGY 785, 786, 794 and 795.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2017.

Postgraduate Certificate in Heritage Conservation – PGCertHerCons

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student needs to have:
a been enrolled in the Degree of Master of Heritage Conservation and
b passed at least 30 points for that degree and
c been recommended for admission by the Dean or nominee.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
a pass courses with a total value of 60 points and
b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements for one of the specialisations listed in the Postgraduate Certificate in Heritage Conservation Schedule.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
6 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
7 These regulations and/or schedule have been amended with effect from 1 January 2024.
Postgraduate Certificate in Heritage Conservation (PGCertHerCons) Schedule

Specialisations available:

**Built Heritage**

Requirement:
- 45 points: HERCONS 700, 702, 703
- 15 points from a 700 level course approved by the Head of School of Architecture and Planning

**Museums and Cultural Heritage**

Requirement:
- 45 points: MUSEUMS 702, 704
- 15 points from ANTHRO 708, 742, 756, ARTHIST 703, 706, 719, 730, 731, 734, COMPLIT 705, 709, ENGLISH 718, HERCONS 700, 701, HISTORY 705, 712, MĀORI 741

---

**Postgraduate Certificate in Mathematical Modelling – PGCertMathModel**

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1. In order to be admitted to this postgraduate certificate, a student must have completed the requirements for:
   - **either**
     - (a) a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
     - or
     - (b) a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative.

2. Students must have completed 15 points from COMPSCI 130, ENGGEN 131, MATHS 162, and 15 points from ENGSCI 311, 313, 314, MATHS 361, or the equivalent as approved by the Programme Director.

3. In exceptional circumstances the Programme Director may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1a.

**Notes:**

(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts or Bachelor of Science.

(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelors of Arts (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours).

(iii) A relevant subject may include analytics, applied mathematics, artificial intelligence, computer science, data science, engineering, information systems, information technology, machine learning, mathematics, operations research, physics, statistics or technology.

(iv) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

**Duration and Total Points Value**

4. A student admitted to this postgraduate certificate must:
   - (a) pass courses with a total value of 60 points
   - and
   - (b) complete within the time limit specified in the General Regulations – Postgraduate Certificates.

5. The total enrolment for this postgraduate certificate must not exceed 90 points.

**Structure and Content**

6. A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Mathematical Modelling Schedule.

7. A student who has previously passed any course or courses the same as, or similar to, the courses required for this postgraduate certificate must substitute an alternative course or courses as approved by the Programme Director or nominee.

8. Courses selected for this qualification are subject to the confirmation of the Programme Director.
9 With the prior approval of the Programme Director or nominee, up to 15 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

10 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
11 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
12 These regulations came into force on 1 January 2022.

Postgraduate Certificate in Operations Research and Analytics – PGCertORAn

The regulations for this postgraduate certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate certificate, a student must have completed the requirements for:
   either
   a a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

Notes:
(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts, Bachelor of Commerce or Bachelor of Science.
(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelors of Arts (Honours), Bachelor of Commerce (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours).
(iii) A relevant subject may be analytics, artificial intelligence, computer science, data science, economics, engineering, information systems, information technology, machine learning, management science, mathematics, operations research, operations and supply chain management, statistics or technology.

Duration and Total Points Value
2 A student admitted to this postgraduate certificate must:
   a pass courses with a total value of 60 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Certificates.

3 The total enrolment for this postgraduate certificate must not exceed 90 points.

Structure and Content
4 A student enrolled for this postgraduate certificate must complete the requirements as listed in the Postgraduate Certificate in Operations Research and Analytics Schedule.

5 A student who has previously passed any course or courses the same as, or similar to, the courses required for this postgraduate certificate must substitute an alternative course or courses as approved by the Head of Department or nominee.

6 Courses selected for this qualification are subject to the confirmation of the Head of Department.
7 With the prior approval of the Head of Department or nominee, up to 15 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

8 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
9 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
10 These regulations came into force on 1 January 2021.

Postgraduate Diploma in Bioscience Enterprise – PGDipBioEnt

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1. In order to be admitted to this postgraduate diploma, a student must have completed the requirements for the Degree of Bachelor of Engineering (Honours), Bachelor of Advanced Science (Honours) or Bachelor of Science
in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

2 A student who has not completed the requirements for one of the degrees listed in Regulation 1 but who, for that degree, has:
   a no more than 15 points left to complete and
   b achieved a Grade Point Average of 3.0 or higher in 75 points above Stage II may, with the approval of the Programme Director, be admitted to this postgraduate diploma. The requirements for the qualifying degree must be completed within 12 months of initial enrolment for the Postgraduate Diploma in Bioscience Enterprise. Should these requirements not be completed within this period, enrolment in further courses for the Postgraduate Diploma in Bioscience Enterprise will not be permitted until they have been completed. The Postgraduate Diploma in Bioscience Enterprise will not be awarded until the requirements for the qualifying degree have been completed.

Notes:
(i) A relevant subject may be bioinformatics, biological sciences, biomedical engineering, biomedical science, biotechnology, food science, medical devices and technologies, medicinal chemistry, pharmacology or physiology.
(ii) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
3 A student enrolled for this postgraduate diploma must:
   a pass courses with a total value of 120 points and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

4 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
5 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Bioscience Enterprise Schedule.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Distinction
8 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Amendment
9 These regulations and/or schedule have been amended with effect from 1 January 2023.

Postgraduate Diploma in Energy – PGDipEnergy

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student needs to have:
   a been enrolled in the Degree of Master of Energy and
b passed at least 30 points for that degree
and
c been recommended for admission by the Dean or nominee.

Duration and Total Points Value
2 A student admitted to this postgraduate diploma must:
a pass courses with a total value of 120 points
and
b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 Of the 120 points required for this postgraduate diploma, a student must pass:
a 30 points: ENERGY 721, 722
b at least 60 points from courses listed in the Master of Energy Schedule, excluding ENERGY 785, 786, 794 and 795
c up to 30 points of approved 600 and 700 level courses.

5 A student admitted to this programme must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

Distinction
6 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
8 These regulations have been amended with effect from 1 January 2018.

Postgraduate Diploma in Global Studies – PGDipGlobalSt
The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed a Bachelors degree with a relevant major from this University with a Grade Point Average of 3.5 or higher in 60 points above Stage II, or the equivalent as approved by Senate or its representative.

Note: Relevant majors may include anthropology, communication, development studies, economics, environmental science, gender studies, geography, history, indigenous studies, law, linguistics, philosophy, political science, psychology or sociology.

Duration and Total Points Value
2 A student enrolled for this postgraduate diploma must:
a pass courses with a total value of 120 points
and
b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
4 Of the 120 points required for this postgraduate diploma, a student must pass:
a 90 points: GLOBAL 700-702
and
b a further 30 points from courses listed in the Master of Global Studies Schedule, excluding GLOBAL 793.

5 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
Distinction
6 This postgraduate diploma may be awarded with Distinction or Merit as specified in the General Regulations – Postgraduate Diplomas.

Variations
7 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Commencement
8 These regulations came into force on 1 January 2022.

Postgraduate Diploma in Mathematical Modelling – PGDipMathModel
The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for:
   either
   a a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative
   or
   b a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative.
2 Students must have completed 15 points from COMPSCI 130, ENNGEN 131, MATHS 162, and 15 points from ENGSCI 311, 313, 314, MATHS 361, or the equivalent as approved by the Programme Director.
3 In exceptional circumstances the Programme Director may approve the admission of a student who has at least three years of extensive, relevant, practical, professional or scholarly experience deemed equivalent to the requirements in Regulation 1a.

Notes:
(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts or Bachelor of Science.
(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelor of Arts (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours).
(iii) A relevant subject may include analytics, applied mathematics, artificial intelligence, computer science, data science, engineering, information systems, information technology, machine learning, mathematics, operations research, physics, statistics or technology.
(iv) This is a limited entry programme as per the Limitation of Entry Statute 1991 and selection criteria apply. Selection criteria are available from the Faculty of Science.

Duration and Total Points Value
4 A student admitted to this postgraduate diploma must:
   a pass courses with a total value of 120 points
   and
   b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.
5 The total enrolment for this postgraduate diploma must not exceed 160 points.

Structure and Content
6 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Mathematical Modelling Schedule.

7 A student who has previously passed any course or courses the same as, or similar to, the courses required for this qualification must substitute an alternative course or courses as approved by the Programme Director or nominee.

8 Courses selected for this qualification are subject to the confirmation of the Programme Director or nominee.

9 With the prior approval of the Head of Department or nominee, up to 30 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.
10 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Distinction**

11 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

**Variations**

12 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

13 These regulations and schedule have been amended with effect from 1 January 2022.

**Postgraduate Diploma in Operations Research and Analytics – PGDipORAn**

The regulations for this postgraduate diploma are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

**Admission**

1 In order to be admitted to this postgraduate diploma, a student must have completed the requirements for:

either

a a relevant Bachelors Honours degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 120 points above Stage III, or the equivalent as approved by Senate or its representative

or

b a relevant Bachelors degree in a relevant subject from this University with a Grade Point Average of 3.0 or higher in 75 points above Stage II, or the equivalent as approved by Senate or its representative.

**Notes:**

(i) A relevant Bachelors degree may include the Degree of Bachelor of Arts, Bachelor of Commerce or Bachelor of Science.

(ii) A relevant Bachelors Honours degree may include the Degree of Bachelor of Advanced Science (Honours), Bachelor of Arts (Honours), Bachelor of Commerce (Honours), Bachelor of Engineering (Honours) or Bachelor of Science (Honours).

(iii) A relevant subject may be analytics, artificial intelligence, computer science, data science, economics, engineering, information systems, information technology, management science, machine learning, mathematics, operations research, operations and supply chain management, statistics or technology.

**Duration and Total Points Value**

2 A student admitted to this postgraduate diploma must:

a pass courses with a total value of 120 points

and

b complete within the time limit specified in the General Regulations – Postgraduate Diplomas.

3 The total enrolment for this postgraduate diploma must not exceed 160 points.

**Structure and Content**

4 A student enrolled for this postgraduate diploma must complete the requirements as listed in the Postgraduate Diploma in Operations Research and Analytics Schedule.

5 A student who has previously passed any course or courses the same as, or similar to, the courses required for this qualification must substitute an alternative course or courses as approved by the Head of Department or nominee.
6 Courses selected for this qualification are subject to the confirmation of the Head of Department or nominee.

7 With the prior approval of the Head of Department or nominee, up to 30 points may be replaced by other appropriate 600 and 700 level courses offered at this or another university.

8 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Distinction**

9 This postgraduate diploma may be awarded with Distinction or Merit in accordance with the General Regulations – Postgraduate Diplomas.

**Variations**

10 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

**Amendment**

11 These regulations and/or schedule have been amended with effect from 1 January 2021.

---

**Postgraduate Diploma in Operations Research and Analytics (PGDipORAn) Schedule**

** Requirement:**
- at least 60 points from ENGSCI 760–763, 765, 768, STATS 720, 723, 724, 783

</tbody>
</table>
2 Except as otherwise specified in these regulations, each student’s programme is to be governed by the regulations for each of the component degrees.

3 Only when all the requirements for both component degrees have been satisfied may the two degrees be conferred upon the student.

Admission

4 Admission to a conjoint degree programme may be at initial enrolment, or after the student has passed or been credited with not more than 270 points for either component degree, but the student must not have graduated in either of the component degrees.

5 a A student seeking admission to a conjoint degree programme must gain admission to each of the component degrees

and

b achieve a standard equivalent to a Grade Point Average of at least 3.9, except for the Bachelor of Advanced Science (Honours) and the Bachelor of Engineering (Honours) which require a Grade Point Average of at least 5.5 in the previous year of full-time study.

Continuation

6 In order to continue in a conjoint degree programme, a student needs to achieve a Grade Point Average of at least 3.5 each year, except for the Bachelor of Engineering (Honours) conjoint degrees which require a GPA of 4.0 each year, and Bachelor of Advanced Science (Honours) conjoint degrees which require a Grade Point Average of 5.0 each year.

7 A student who has been discontinued from a conjoint degree programme due to the continuation requirement specified in Regulation 6 may re-apply for admission under these regulations. To be eligible for readmission:

a the student must have achieved a Grade Point Average of at least 3.5, 4.0 for the Bachelor of Engineering (Honours) or 5.0 for the Bachelor of Advanced Science (Honours), in the most recent 120 points of study towards one or more of the component degrees following the student’s discontinuation. In exceptional circumstances the required Grade Point Average may be waived by Senate or its representative. If a student has fewer than 120 points to complete then they may apply for readmission immediately.

b neither of the component degrees can have been awarded.

8 A student must state the reasons for re-admission, and include evidence where applicable. Where such application is made, the Deans or nominees of the respective faculties may:

a permit the student to be readmitted to the conjoint degree programme

b permit the student to be readmitted under specific conditions

c decline readmission.

9 A student may be readmitted to a conjoint degree programme once, other than in exceptional circumstances approved by Senate or its representative.

Approval

10 As a condition of approval, a student may be required to include in a conjoint programme:

a a specified major subject or specialisation

b specified elective courses.

Total Points Value

11 The total points required for each conjoint degree programme is stated in the Conjoint Degree Schedule and includes the General Education requirement, where applicable.

Academic Integrity

12 All students must pass the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

General Education

13 All students enrolled in a conjoint degree programme, except students enrolled in a BE(Hons)/LLB and BE(Hons)/LLB(Hons), must pass 15 points from courses listed in either the General Education Open Schedule or either of the General Education Faculty Schedules approved for the component degrees for the conjoint degree programme.

General Education Exemptions

14 a A student is exempted from the requirement to pass a course offered in the General Education Schedule who has:

either
(i) completed an undergraduate degree at a tertiary institution
or
(ii) commenced study for their degree at a tertiary institution before 1 January 2006
or
(iii) completed a minimum of 50 points of study towards this degree in one semester at an overseas
institution, either through an overseas exchange programme or through prior approval under the
Credit Regulations.

b A student who has been admitted to either component degree of a conjoint degree programme who has
completed 120 points or more of degree-level study at another tertiary institution is exempted from the
General Education requirement for the conjoint degree.

c A student who has been exempted from the General Education requirement must substitute 15 points from
courses available for the component degrees.

Suspension
15 A student may in any year totally suspend study for both component degrees of a conjoint degree programme.

Additional Component Degrees/Diplomas
16 a If a student has satisfied the requirements of one (but not both) of the component degrees and would be
eligible to have that degree conferred, the relevant Dean may approve the suspension of enrolment for
the conjoint degree programme to allow the student to enrol for a relevant honours or Masters degree
or diploma. In that case the total number of points passed must satisfy the regulations specified for that
postgraduate programme.

b With the approval of the relevant Deans, a student who suspends their study in a conjoint degree programme
to pursue a graduate programme may subsequently complete the conjoint degree programme provided they
have not graduated with either of the component degrees in the meantime.

Graduation
17 Graduation in one component of the conjoint degree constitutes a discontinuation of the conjoint degree
programme.

18 A student must graduate in both components of the conjoint degree in one or more ceremonies in the same
graduation period.

Variations
19 In exceptional circumstances Senate or its representative may approve a personal programme which does not
conform to these regulations.

Amendment
20 These regulations and/or schedule have been amended with effect from 1 January 2024.

The specific requirements for each conjoint degree programme can be found in the Conjoint Degree Schedule and the
Conjoint Component Requirements Schedule.

Conjoint Degree Schedule

Bachelor of Advanced Science (Honours)/Bachelor of Commerce –
BAdvSci(Hons)/BCom
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
      and
   b 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
      and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of
Communication – BAdvSci(Hons)/BC
1 A student must pass courses with a total value of 660 points, including:
Bachelor of Advanced Science (Honours)/Bachelor of Design – BAdvSci(Hons)/BDes
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule.

Bachelor of Advanced Science (Honours)/Bachelor of Engineering (Honours) – BAdvSci(Hons)/BE(Hons)
1 A student must pass courses with a total value of 810 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.
2 A student must complete SCIGEN 201 or 201G, or another course approved by the BE(Hons) Programme Director
   as being equivalent to ENNGEN 303.

Bachelor of Advanced Science (Honours)/Bachelor of Fine Arts – BAdvSci(Hons)/BFA
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Global Studies – BAdvSci(Hons)/BGlobalSt
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Health Sciences – BAdvSci(Hons)/BHSc
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Laws – BAdvSci(Hons)/LLB
1 A student must pass courses with a total value of 795 points, including:
Bachelor of Advanced Science (Honours)/Bachelor of Laws (Honours) – BAdvSci(Hons)/LLB(Hons)
1 A student must pass courses with a total value of 855 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Advanced Science (Honours)/Bachelor of Music – BAdvSci(Hons)/BMus
1 A student must pass courses with a total value of 660 points, including:
   a 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Nursing – BAdvSci(Hons)/BNurs
1 A student must pass courses with a total value of 690 points, including:
   a 375 points required for the BAdvSci(Hons) component, including:
      (i) 60 points: BIOSCI 107, CHEM 110, MEDSCI 142, PSYCH 108
      (ii) at least 270 points above Stage I, including at least 195 points above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule
      (iv) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
      (v) the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
      (vi) the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule and
   b 285 points as listed in the BNurs component in the Conjoint Component Requirements Schedule and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Advanced Science (Honours)/Bachelor of Property – BAdvSci(Hons)/BProp
1 A student must pass courses with a total value of 660 points, including:
   a 375 points from courses listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule, including:
      (i) STATS 101
      (ii) at least 270 points above Stage I, including at least 195 points above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule
      (iv) at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
      (v) the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
      (vi) the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule and
   b 255 points required for the BProp component, including:
      (i) 165 points: BUSINESS 114, 115, PROPERTY 102, 211, 221, 231, 241, 251, 261, 271, 281
      and
      (ii) at least 90 points from PROPERTY 300, 311–384
   c a further 15 points from courses available for any programme at this University.
Bachelor of Arts/Bachelor of Advanced Science (Honours) – BA/BAdvSci(Hons)

1 A student must pass courses with a total value of 660 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 375 points as listed in the BAdvSci(Hons) component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Commerce – BA/BCom

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

2 For the BA/BCom conjoint degree programme, a student may not major in both Employment Relations and Organisation Studies in the BA component, and Management in the BCom component.

Bachelor of Arts/Bachelor of Communication – BA/BC

1 Of the 540 points required for the BA/BC conjoint degrees combination, a student must pass:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

2 A student is not permitted to take the Communication major for the BA component.

Bachelor of Arts/Bachelor of Design – BA/BDes

1 A student must pass courses with a total value of 540 points, including
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Engineering (Honours) – BA/BE(Hons)

1 Of the 690 points required for the BA/BE(Hons) conjoint degree programme, a student must pass:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

2 A student must complete SCIGEN 201 or 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

Bachelor of Arts/Bachelor of Fine Arts – BA/BFA

1 A student must pass courses with a total value of 540 points, including
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Arts/Bachelor of Fine Arts (Honours) – BA/BFA(Hons)  
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule and
   b 390 points required for the BFA(Hons) component, including:
      (i) Part I: 90 points: FINEARTS 101–104
      (ii) Part II: 90 points: FINEARTS 204, and 207 or 208, and 209 or 212
      (iii) Part III: 90 points: FINEARTS 305, and 308 or 309, and 310 or 311
      (iv) Part IV: 120 points: FINEARTS 790 and
   c a further 15 points from courses available for any programme at this University. 
Note: Any student who achieves a grade in FINEARTS 790 that is not of Honours standard will be awarded the Degree of Bachelor of Arts/Bachelor of Fine Arts. In that case the courses already passed for, or credited to, the Degrees of Bachelor of Arts/Bachelor of Fine Arts (Honours) will be reassigned to the Degrees of Bachelor of Arts/Bachelor of Fine Arts.

Bachelor of Arts/Bachelor of Global Studies – BA/BGlobalSt  
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Health Sciences – BA/BHSc  
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Arts/Bachelor of Laws – BA/LLB  
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Arts/Bachelor of Laws (Honours) – BA/LLB(Hons)  
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Arts/Bachelor of Music – BA/BMus  
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule and
   c a further 15 points from courses available for any programme at this University.

2 The BA component of the conjoint BA/BMus combination is not to include more than 30 points from the subject Music.
Bachelor of Arts/Bachelor of Science – BA/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BA component in the Conjoint Component Requirements Schedule
      and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
      and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Design – BCom/BDes
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
      and
   b 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
      and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Engineering (Honours) – BCom/BE(Hons)
1 A student must pass courses with a total value of 690 points, including:
   a 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 90 points: BUSINESS 111, 112 or 113, 114, 115, 202, INFOSYS 110
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which
            at least 45 points must be at Stage III in each major
      and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

2 A student must complete BUSINESS 111 and either 112 or 113, or SCIGEN 201G, or another course approved by the
   BE(Hons) Programme Director as being equivalent to ENGGEN 303.

Bachelor of Commerce/Bachelor of Fine Arts – BCom/BFA
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
      and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
      and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Global Studies – BCom/BGlobalSt
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
      and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
      and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Health Sciences – BCom/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
      and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
      and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Commerce/Bachelor of Laws – BCom/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 105 points: BUSINESS 111, 112 or 113, 114, 115, 202, INFOSYS 110, STATS 100 or 108
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which
           at least 45 points must be at Stage III in each major
      (v) A student may not include any of the courses in the subject Commercial Law
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Commerce/Bachelor of Laws (Honours) – BCom/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points from courses listed in the Bachelor of Commerce Schedule, including:
      (i) 105 points: BUSINESS 111, 112 or 113, 114, 115, 202, INFOSYS 110, STATS 100 or 108
      (ii) 15 points from BUSINESS 350–353
      (iii) at least 135 points above Stage I including at least 75 points above Stage II
      (iv) the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which
           at least 45 points must be at Stage III in each major
      (v) A student may not include any of the courses in the subject Commercial Law
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Commerce/Bachelor of Music – BCom/BMus

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Property – BCom/BProp

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   b 255 points required for the BProp component, including:
      (i) 150 points: PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
      (iv) 30 points from PROPERTY 300, 311–351, 370–385 or another course listed in the BCom Schedule
   c a further 15 points from courses available for any programme at this University.

Bachelor of Commerce/Bachelor of Science – BCom/BSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.

2 A student in the Information and Technology major for the BSc component is not permitted to take both the Business Analytics and Information Systems majors for the BCom component.
Bachelor of Commerce/Bachelor of Sport, Health and Physical Education – BCom/BSportHPE

1 A student must pass courses with a total value of 540 points, including:
   a  255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   b  255 points from the courses listed in the Bachelor of Sport, Health and Physical Education Schedule, including:
   (i) 60 points: EDPROFM 100, SPORTHPE 101, 102, 103
   (ii) 15 points from another Stage I course listed in the Bachelor of Sport, Health and Physical Education Schedule
   (iii) 90 points: EDUCSW 201, HEALTHED 201, SPORT 202, SPORTHPE 201, 202, 203
   (iv) 15 points: EDUCSW 302
   (v) 60 points from other Stage III courses listed in the Bachelor of Sport, Health and Physical Education Schedule
   (vi) a further 15 points from the Bachelor of Sport, Health and Physical Education Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Communication/Bachelor of Commerce – BC/BCom

1 A student must pass courses with a total value of 540 points, including:
   a  255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b  255 points as listed in the BCom component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Communication/Bachelor of Engineering (Honours) – BC/BE(Hons)

1 Of the 690 points required for the BC/BE(Hons) conjoint degree programme, a student must pass:
   a  255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b  420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.

2 A student must complete COMMS 320, or SCIGEN 201, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

Bachelor of Communication/Bachelor of Fine Arts – BC/BFA

1 A student must pass courses with a total value of 540 points, including:
   a  255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b  255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Communication/Bachelor of Global Studies – BC/BGlobalSt

1 A student must pass courses with a total value of 540 points, including:
   a  255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b  255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Communication/Bachelor of Health Sciences – BC/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Communication/Bachelor of Laws – BC/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Communication/Bachelor of Laws (Honours) – BC/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Communication/Bachelor of Science – BC/BSc
1 Of the 540 points required for the BC/BSc conjoint degrees combination, a student must pass:
   a 255 points as listed in the BC component in the Conjoint Component Requirements Schedule
   and
   b 255 points listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Engineering (Honours) – BDes/BE(Hons)
1 A student must pass courses with a total value of 690 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule.
2 A student must complete DESIGN 220 or 221 or 222, or SCIGEN 201G, or another course approved by the
   BE(Hons) Programme Director as being equivalent to ENNGEN 303.

Bachelor of Design/Bachelor of Fine Arts – BDes/BFA
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Design/Bachelor of Global Studies – BDes/BGlobalSt
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BDes component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
and  
c  a further 15 points from courses available for any programme at this University.

**Bachelor of Design/Bachelor of Health Sciences – BDes/BHSc**

1. A student must pass courses with a total value of 540 points, including:
   
a  255 points as listed in the BDes component in the Conjoint Component Requirements Schedule  
and  
b  255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule  
and  
c  a further 15 points from courses available for any programme at this University.

**Bachelor of Design/Bachelor of Laws – BDes/LLB**

1. A student must pass courses with a total value of 675 points, including:
   
a  255 points as listed in the BDes component in the Conjoint Component Requirements Schedule  
and  
b  405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

**Bachelor of Design/Bachelor of Laws (Honours) – BDes/LLB(Hons)**

1. A student must pass courses with a total value of 735 points, including:
   
a  255 points as listed in the BDes component in the Conjoint Component Requirements Schedule  
and  
b  465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

**Bachelor of Design/Bachelor of Music – BDes/BMus**

1. A student must pass courses with a total value of 540 points, including:
   
a  255 points as listed in the BDes component in the Conjoint Component Requirements Schedule  
and  
b  255 points as listed in the BMus component in the Conjoint Component Requirements Schedule  
and  
c  a further 15 points from courses available for any programme at this University.

**Bachelor of Design/Bachelor of Property – BDes/BProp**

1. A student must pass courses with a total value of 540 points, including:
   
a  255 points as listed in the BDes component in the Conjoint Component Requirements Schedule  
and  
b  255 points as listed in the BProp component in the Conjoint Component Requirements Schedule  
and  
c  a further 15 points from courses available for any programme at this University.

**Bachelor of Design/Bachelor of Science – BDes/BSc**

1. A student must pass courses with a total value of 540 points, including:
   
a  255 points as listed in the BDes component in the Conjoint Component Requirements Schedule  
and  
b  255 points as listed in the BSc component in the Conjoint Component Requirements Schedule  
and  
c  a further 15 points from courses available for any programme at this University.

**Bachelor of Engineering (Honours)/Bachelor of Fine Arts – BE(Hons)/BFA**

1. A student must pass courses with a total value of 690 points, including:
   
a  420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule  
and  
b  255 points from courses listed in the Bachelor of Fine Arts Schedule including:
   
   (i)  180 points: FINEARTS 110–113, 320, 321, 322, SCIGEN 201
(ii) 75 points consisting of:
   (a) at least 15, but no more than 45, points from FINEARTS 220–236
   (b) at least 30, but no more than 60, points from FINEARTS 240–250.

2 A student must complete SCIGEN 201 or 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

**Bachelor of Engineering (Honours)/Bachelor of Global Studies – BE(Hons)/BGlobalSt**

1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule.

2 A student must complete ECON 151 and GLOBAL 101, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

**Bachelor of Engineering (Honours)/Bachelor of Laws – BE(Hons)/LLB**

1 A student must pass courses with a total value of 825 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

2 A student must complete LAW 241, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

**Bachelor of Engineering (Honours)/Bachelor of Laws (Honours) – BE(Hons)/LLB(Hons)**

1 A student must pass courses with a total value of 885 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

2 A student must complete LAW 241, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

**Bachelor of Engineering (Honours)/Bachelor of Music – BE(Hons)/BMus**

1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   b 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including one of the following specialisations:
      (i) Creative Practice: Classical:
          (a) 60 points: MUS 104, 143, 243, 343
          (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
          (c) 15 points from MUS 191–194, 291–294
          (d) 15 points from MUS 391–394
          (e) 15 points: MUS 365
      (ii) Creative Practice: Composition:
          (a) 60 points: MUS 104, 143, 243, 343
          (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
          (c) 15 points: MUS 365
      (iii) Creative Practice: Jazz
          (a) 60 points: MUS 104, 143, 243, 343
          (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
          (c) 15 points: MUS 365
(iv) Creative Practice: Popular Music
   (a) 60 points: MUS 104, 143, 243, 343
   (b) 165 points: MUS 180, 181, 196, 280–284, 287, 380, 381
   (c) 15 points from MUS 306–340, 345–389
   (d) 15 points: MUS 365

(v) Music Studies:
   (a) 60 points: MUS 104, 143, 243, 343
   (b) 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
   (c) 45 points from MUS 106, 130, 145, 162
   (d) 15 points: MUS 365

2 A student must complete MUS 365, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

Bachelor of Engineering (Honours)/Bachelor of Property – BE(Hons)/BProp
1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule.

2 A student must complete PROPERTY 231, or SCIGEN 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

Bachelor of Engineering (Honours)/Bachelor of Science – BE(Hons)/BSc
1 A student must pass courses with a total value of 690 points, including:
   a 420 points as listed in the BE(Hons) component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

2 A student must complete SCIGEN 201 or 201G, or another course approved by the BE(Hons) Programme Director as being equivalent to ENGGEN 303.

Bachelor of Fine Arts/Bachelor of Global Studies – BFA/BGlobalSt
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.

Bachelor of Fine Arts/Bachelor of Health Sciences – BFA/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   c a further 15 points from courses available for any programme at this University.

Bachelor of Fine Arts/Bachelor of Laws – BFA/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.
Bachelor of Fine Arts/Bachelor of Laws (Honours) – BFA/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Fine Arts/Bachelor of Music – BFA/BMus
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Fine Arts/Bachelor of Science – BFA/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BFA component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

Bachelor of Global Studies/Bachelor of Health Sciences – BGlobalSt/BHSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Laws – BGlobalSt/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Global Studies/Bachelor of Laws (Honours) – BGlobalSt/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Global Studies/Bachelor of Music – BGlobalSt/BMus
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Global Studies/Bachelor of Property – BGlobalSt/BProp

1 A student must pass courses with a total value of 540 points, including:
   a 255 points from courses listed in the Bachelor of Global Studies Schedule, including:
      (i) 45 points: GLOBAL 100, 200, 300
      (ii) at least 165 points in courses above Stage I, of which at least 75 points must be above Stage II
      (iii) (a) a major in Global Environment and Sustainability of at least 120 points, of which at least 45 points must be above Stage II; including ECON 151 or 152 and other courses as listed in the Bachelor of Global Studies Schedule for this major
         (b) 60 points from courses listed in one of the languages in the Bachelor of Global Studies Schedule, of which 30 points must be above Stage I
         (c) 30 points above Stage I from one of the Area Studies listed in the Bachelor of Global Studies Schedule that is associated with the chosen Language, of which at least 15 points must be above Stage II
   and
   b 255 points required for the BProp component, including:
      (i) 180 points: INFOSYS 110, PROPERTY 102, 103, 211–281, STATS 100 or 108
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Global Studies/Bachelor of Science – BGlobalSt/BSc

1 A student must pass courses with a total value of 540 points, including
   a 255 points as listed in the BGlobalSt component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
   c a further 15 points from courses available for any programme at this University.

Bachelor of Health Sciences/Bachelor of Laws – BHSc/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Health Sciences/Bachelor of Laws (Honours) – BHSc/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Health Sciences/Bachelor of Nursing – BHSc/BNurs

1 A student must pass courses with a total value of 570 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   b 300 points required for the BNurs component, including:
      (i) 285 points: MEDSCI 142, NURSING 105, 199, 201, 202, 301, 302
      (ii) 15 points from CHEM 110, NURSING 104
   and
   c a further 15 points from courses available for any programme at this University.
Bachelor of Health Sciences/Bachelor of Science – BHSc/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BHSc component in the Conjoint Component Requirements Schedule
   and
   b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule.

Bachelor of Music/Bachelor of Laws – BMus/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including
      one of the following specialisations:
      (i) Creative Practice: Classical:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
         (c) 15 points from MUS 191–194, 291–294
         (d) 15 points from MUS 391–394
         (e) 15 points: MUS 365
      (ii) Creative Practice: Composition:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
         (c) 15 points from MUS 365
      (iii) Creative Practice: Jazz:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
         (c) 15 points: MUS 365
      (iv) Creative Practice: Popular Music:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 165 points: MUS 180, 181, 196, 280–284, 287, 380, 381
         (c) 30 points from MUS 306–340, 345–389
      (v) Music Studies:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
         (c) 45 points from MUS 106, 145, 162
         (d) 15 points: MUS 365
            345–348, 362, 363, 367, 376, 387, 389
   and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Music/Bachelor of Laws (Honours) – BMus/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points required for the BMus component from courses listed in the Bachelor of Music Schedule including
      one of the following specialisations:
      (i) Creative Practice: Classical:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 150 points: MUS 120, 121, 203–205, 220, 221, 224, 320, 321
         (c) 15 points from MUS 191–194, 291–294
         (d) 15 points from MUS 391–394
         (e) 15 points: MUS 365
      (ii) Creative Practice: Composition:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
         (c) 15 points from MUS 365
      (iii) Creative Practice: Jazz:
         (a) 60 points: MUS 104, 143, 243, 343
         (b) 180 points: MUS 170, 171, 174, 197, 270, 271, 274, 275, 297, 370, 371, 397
         (c) 15 points: MUS 365
      (iv) Creative Practice: Popular Music:
(a) 60 points: MUS 104, 143, 243, 343
(b) 165 points: MUS 180, 181, 196, 280–285, 287, 380, 381
(c) 30 points from MUS 306–340, 345–389

(v) Music Studies:
(a) 60 points: MUS 104, 143, 243, 343
(b) 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
(c) 45 points from MUS 106, 130, 145, 162
(d) 15 points: MUS 365

and
b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Bachelor of Music/Bachelor of Science – BMus/BSc
1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BMus component in the Conjoint Component Requirements Schedule
   and
b 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule
   and
c a further 15 points from courses available for any programme at this University.

Bachelor of Nursing/Bachelor of Science – BNurs/BSc
1 A student must pass courses with a total value of 570 points, including:
   a 285 points as listed in the BNurs component in the Conjoint Component Requirements Schedule
      (i) 45 points: NURSING 105, 199, POPLHLTH 111
      (ii) 240 points: NURSING 201, 202, 301, 302
      and
b 255 points from courses listed as available in the Bachelor of Science Schedule, including:
      (i) 60 points: BIOSCI 107, CHEM 110, MEDSCI 142, PSYCH 108
      (ii) at least 150 points above Stage I, of which at least 75 points must be above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
      (iv) the requirements for one or more majors as listed in the Bachelor of Science Schedule
      (v) 15 points from an approved capstone course listed in the Bachelor of Science Schedule
      and
   c a further 15 points from courses available for any programme at this University.

Note: For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.

Bachelor of Property/Bachelor of Laws – BProp/LLB
1 A student must pass courses with a total value of 675 points, including:
   a 255 points required for the BProp component, including:
      (i) 180 points: BUSINESS 115, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281, STATS 100 or 108
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
      and
b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Property/Bachelor of Laws (Honours) – BProp/LLB(Hons)
1 A student must pass courses with a total value of 735 points, including:
   a 255 points required for the BProp component, including:
      (i) 180 points: BUSINESS 115, PROPERTY 102, 103 211, 221, 231, 241, 251, 261, 271, 281, STATS 100 or 108
      (ii) 15 points from PROPERTY 360–364
      (iii) 60 points from PROPERTY 300, 311–351, 370–385
      and
b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.
Bachelor of Property/Bachelor of Science – BProp/BSc

1 A student must pass courses with a total value of 540 points, including:
   a 255 points as listed in the BProp component in the Conjoint Component Requirements Schedule and
   b 255 points from courses listed as available in the Bachelor of Science Schedule, including:
      (i) STATS 108
      (ii) at least 150 points above Stage I, of which at least 75 points must be above Stage II
      (iii) courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
      (iv) the requirements for one or more majors as listed in the Bachelor of Science Schedule
      (v) 15 points from an approved capstone course listed in the Bachelor of Science Schedule and
   c a further 15 points from courses available for any programme at this University.

Note: For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.

Bachelor of Science/Bachelor of Laws – BSc/LLB

1 A student must pass courses with a total value of 675 points, including:
   a 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule and
   b 405 points as listed in the LLB component in the Conjoint Component Requirements Schedule.

Bachelor of Science/Bachelor of Laws (Honours) – BSc/LLB(Hons)

1 A student must pass courses with a total value of 735 points, including:
   a 255 points as listed in the BSc component in the Conjoint Component Requirements Schedule and
   b 465 points as listed in the LLB(Hons) component in the Conjoint Component Requirements Schedule.

Conjoint Component Requirements Schedule

Bachelor of Advanced Science (Honours) – BAdvSci(Hons)

375 points from courses listed as available for the BSc or BSc(Hons) Schedules, including:
   • at least 270 points above Stage I, including at least 195 points above Stage II
   • courses in a minimum of two subject codes listed in the Bachelor of Science or Bachelor of Science (Honours) Schedule
   • at least 120 points at 700 level, including a research project or dissertation of between 30 and 60 points
   • the requirement for a specialisation as listed in the Bachelor of Advanced Science (Honours) Schedule
   • the requirement for core courses as listed in the Bachelor of Advanced Science (Honours) Schedule

For the BAdvSci(Hons) component, students may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included.

Bachelor of Arts – BA

255 points from courses listed in the Bachelor of Arts Schedule, including:
   • the requirements for one or more majors as specified in the Bachelor of Arts Regulations and Schedule of which at least 45 points must be above Stage II for each major
   • at least 165 points above Stage I, of which at least 75 points must be above Stage II

Bachelor of Commerce – BCom

255 points from courses listed in the Bachelor of Commerce Schedule, including:
   • 105 points: BUSINESS 111, 112 or 113, 114, 115, 202, INFOSYS 110, STATS 100 or 108
   • 15 points from BUSINESS 350–353
   • at least 135 points above Stage I including at least 75 points above Stage II
   • the requirements for one or more majors as specified in the Bachelor of Commerce Schedule, of which at least 45 points must be at Stage III in each major

A student may substitute one or more other courses for one or more of the above courses with the permission of Senate or its representative.
Bachelor of Communication – BC

255 points, including:
- at least 165 points in courses above Stage I, of which at least 75 points must be above Stage II
- 120 points from the Core Courses listed in the Bachelor of Communication Schedule
- the requirements for a major as specified in the Bachelor of Communication Schedule

Bachelor of Design – BDes

255 points:
- 165 points: DESIGN 100, 101, 200, 201, 300, 301, 302
- 90 points from DESIGN 210-243

Bachelor of Engineering (Honours) – BE(Hons)

420 points, including:
- 105 points: CHEMMAT 121, ELECTENG 101, ENNGEN 115, 121, 131, 140, 199, ENGSCI 111
- 315 points of courses in one of the following specialisations:
  Biomedical Engineering
  Part II
  • BIOMENG 299 or ENNGEN 299
  • 120 points: BIOMENG 221, 241, 261, BIOSCI 107, ENNGEN 204, ENGSCI 211, 233, MEDSCI 142
  Part III
  • 90 points: BIOMENG 321, 341, ENGSCI 314, 331, MEDSCI 205, 309
  Part IV
  • ENNGEN 499
  • 30 points: BIOMENG 791, ENNGEN 403
  • a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
  • 30 points: ENGSCI 700 Research Project
  Chemical and Materials Engineering
  Part II
  • CHEMMAT 299 or ENNGEN 299
  • 120 points: CHEMMAT 201-206, ENNGEN 204, ENGSCI 211
  Part III
  • 90 points: CHEMMAT 301-303, 305, 306, ENGSCI 311
  Part IV
  • ENNGEN 499
  • 30 points: CHEMMAT 752, ENNGEN 403
  • a further 15 points from courses listed in Part IV of this BE(Hons) specialisation
  • 30 points: CHEMMAT 750 Design Project
  • 30 points: CHEMMAT 751 Research Project
  Civil Engineering
  Part II
  • CIVIL 299 or ENNGEN 299
  • 120 points: CIVIL 200, 202, 203, ENNGEN 204, ENGSCI 211, ENVENG 200, STRCTENG 200, 201
  Part III
  • 90 points: CIVIL 300, 302, 303, ENGSCI 311, ENVENG 300, STRCTENG 304
  Part IV
  • ENNGEN 499
  • 60 points: CIVIL 756, 790, 791, ENNGEN 403
  • a further 15 points from courses listed in Part IV of this BE(Hons) specialisation
  • 30 points: CIVIL 705 Research Project
  Computer Systems Engineering
  Part II
  • COMPSYS 299 or ENNGEN 299
  • 105 points: COMPSYS 201, 209, ELECTENG 291, 292, ENNGEN 204, ENGSCI 211, SOFTENG 281
  • a further 15 points from courses listed in Part II of this BE(Hons) specialisation
  Part III
  • 45 points: COMPSYS 301, 305, ENGSCI 313
  • a further 45 points from courses listed in Part III of this BE(Hons) specialisation
  Part IV
  • ENNGEN 499
  • 30 points: COMPSYS 770, ENNGEN 403
• a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: COMPSYS 700 Research Project

**Electrical and Electronic Engineering**

**Part II**
- ELECTENG 299 or ENGGEN 299
- 105 points: COMPSYS 201, ELECTENG 204, 209, 291, ENGGEN 204, ENGSCI 211, SOFTENG 281
- 15 points from ELECTENG 292, SOFTENG 283, 284

**Part III**
- 45 points: ELECTENG 310, 311, ENGSCI 313

**Part IV**
- ENGGEN 499
- 30 points: ELECTENG 770, ENGGEN 403
- a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
- 30 points: ELECTENG 700 Research Project

**Engineering Science**

**Part II**
- ENGGEN 299 or ENGSCI 299
- 90 points: BIOMENG 221, ENGGEN 204, ENGSCI 211, 233, 255, 263
- a further 15 points from courses listed in Part II of this BE(Hons) specialisation

**Part III**
- 90 points: ENGSCI 314, 331, 343, 344, 355, 391
- a further 15 points from courses listed in Part III of this BE(Hons) specialisation

**Part IV**
- ENGGEN 499
- 30 points: ENGGEN 403, ENGSCI 773
- a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
- 30 points: ENGSCI 700 Research Project

**Mechanical Engineering**

**Part II**
- ENGGEN 299 or MECHENG 299
- 105 points: ENGGEN 204, ENGSCI 211, MECHENG 211, 222, 235, 236, 242

**Part III**
- 105 points: ENGSCI 311, MECHENG 311, 322, 325, 334, 340, 352

**Part IV**
- ENGGEN 499
- 30 points: ENGGEN 403, MECHENG 731
- a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
- 30 points: MECHENG 700 Research Project

**Mechatronics Engineering**

**Part II**
- ENGGEN 299 or MECHTRON 299
- 105 points: ENGGEN 204, ENGSCI 211, MECHENG 211, 222, 235, 242, 270

**Part III**
- 105 points: ENGSCI 311, MECHENG 306, 313, 322, 325, 370, 371

**Part IV**
- ENGGEN 499
- 45 points: ENGGEN 403, MECHENG 705, 706
- a further 30 points from courses listed in Part IV of this BE(Hons) specialisation
- 30 points: MECHENG 700 Research Project

**Software Engineering**

**Part II**
- ENGGEN 299 or SOFTENG 299
- 90 points: COMPSYS 201, ENGGEN 204, ENGSCI 211, SOFTENG 206, 281, 283
- a further 30 points from courses listed in Part II of this BE(Hons) specialisation

**Part III**
- 45 points: SOFTENG 306, 325, 351
- 30 points from SOFTENG 310, 350, 364, 370
- a further 15 points from courses listed in Part III of this BE(Hons) specialisation

**Part IV**
- ENGGEN 499
• 30 points: ENNGEN 403, SOFTENG 770
• a further 45 points from courses listed in Part IV of this BE(Hons) specialisation
• 30 points: SOFTENG 700 Research Project

**Structural Engineering**

**Part II**
• ENNGEN 299 or STRCTENG 299
• 120 points: CIVIL 200, 202, 203, ENNGEN 204, ENGSCI 211, ENVENG 200, STRCTENG 200, 201

**Part III**
• 90 points: CIVIL 300, ENGSCI 311, STRCTENG 300–303

**Part IV**
• ENNGEN 499
• 75 points: CIVIL 756, 790, ENNGEN 403, STRCTENG 710, 711
• 30 points: CIVIL 705 Research Project

All BE(Hons) conjoint students must either:

1. complete BUSINESS 111 and either 112 or 113, or DESIGN 220 or 221 or 222, or ECON 151 and GLOBAL 101, or COMMS 320, or ENNGEN 303, or LAW 241, or MUS 365, or PROPERTY 231, or SCIGEN 201, or another course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303, in their non-BE(Hons) component degree, or

2. complete SCIGEN 201G or another General Education course approved by the BE(Hons) Programme Director as being equivalent to ENNGEN 303.

A student may substitute one or more other courses for one or more of the courses listed in the BE(Hons) component with the permission of the BE(Hons) Programme Director or nominee.

Where approved courses are listed in the Bachelor of Engineering (Honours) Schedule, inclusion of these courses in this conjoint component must be approved by the Head of Department or nominee prior to enrolment.

---

**Bachelor of Fine Arts – BFA**

255 points:
• 90 points: FINEARTS 110–113
• 30 points from FINEARTS 220–236
• 60 points from FINEARTS 240–250
• 75 points: FINEARTS 320–322

**Bachelor of Global Studies – BGlobalSt**

255 points from courses listed in the Bachelor of Global Studies Schedule, including:
• at least 165 points in courses above Stage I, of which at least 75 points must be above Stage II
• a major of at least 120 points, of which at least 45 points must be above Stage II, from one of the subjects available for majors in the Bachelor of Global Studies Schedule
• 60 points from one of the languages listed in the Bachelor of Global Studies Schedule, of which 30 points must be above Stage I
• 30 points above Stage I from one of the Area Studies listed in the Bachelor of Global Studies Schedule that is associated with the chosen Language, of which at least 15 points must be above Stage II

A student may substitute one or more other courses for one or more of the above courses with the permission of Senate or its representative.

**Bachelor of Health Sciences – BHSc**

255 points, including:
• 165 points: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210, 216, 300, 302
• at least 15 points from MAORIHTH 301, POPLHLTH 312, 313
• at least 15 points from POPLHLTH 301, 303, 304, 311, 316
• at least a further 15 points from MAORIHTH 301, POPLHLTH 305–307, 312, 313
• a further 30 points from FOODSCI 200, MAORIHTH 301, POPLHLTH 203, 206–208, 211–213, 215, 301, 303–307, 310–313, 315, 316, STATS 201, 330
• 15 points from BIOSCI 107, CHEM 110, ECON 151, 152, GENDER 101, GEOG 102, MĀORI 130, MEDSCI 142, PHIL 104, PSYCH 108, 109, SOCIOL 101, 103, STATS 101

**Bachelor of Laws – LLB**

405 points:
• 45 points: LAW 121 or 121G, 131, 141
• 360 points from LLB Parts II, III and IV
Bachelor of Laws (Honours) – LLB(Hons)
465 points:
• 45 points: LAW 121 or 121G, 131, 141
• 360 points from LLB Parts II, III and IV
• 20 points from LAWHONS 702–754
• 40 points: LAWHONS 789 Dissertation

Bachelor of Music – BMus
255 points from courses listed in the Bachelor of Music Schedule including one of the following specialisations

Creative Practice: Classical:
• 60 points: MUS 104, 143, 243, 343
• 135 points: MUS 120, 121, 203–205, 220, 221, 320, 321
• 30 points from MUS 191–194, 224, 291–294
• 15 points from MUS 391–394
• 15 points from MUS 306–340, 345–389

Creative Practice: Composition:
• 60 points: MUS 104, 143, 243, 343
• 180 points: MUS 110, 111, 145, 203–205, 210, 211, 214, 310, 311, 314 or 315
• 15 points from MUS 306–340, 345–389

Creative Practice: Jazz:
• 60 points: MUS 104, 143, 243, 343
• 180 points: MUS 170, 171, 197, 270, 271, 274, 275, 276, 297, 370, 371, 397
• 15 points from MUS 306–340, 345–389

Creative Practice: Popular Music:
• 60 points: MUS 104, 143, 243, 343
• 165 points: MUS 180, 181, 196, 280–284, 287, 296, 380, 381
• 30 points from MUS 306–340, 345–386

Music Studies:
• 60 points: MUS 104, 143, 243, 343
• 45 points: MUS 203, 204, 205, or MUS 174, 274, 275, or MUS 284, 287, 288
• 45 points from MUS 106, 130, 145, 162

Bachelor of Nursing – BNurs
285 points, including:
• 45 points: NURSING 105, 199, POPLHLTH 111
• 240 points: NURSING 201, 202, 301, 302

Bachelor of Property – BProp
255 points:
• 180 points: BUSINESS 114, 115, PROPERTY 102, 103, 211, 221, 231, 241, 251, 261, 271, 281
• 15 points from PROPERTY 360–364
• 60 points from PROPERTY 300, 311–351, 370–385

Bachelor of Science – BSc
255 points from courses listed as available in the Bachelor of Science Schedule, including:
• at least 150 points above Stage I, of which at least 75 points must be above Stage II
• courses in a minimum of two subject codes listed in the Bachelor of Science Schedule
• the requirements for one or more majors as listed in the Bachelor of Science Schedule
• 15 points from an approved capstone course listed in the Bachelor of Science Schedule

For the BSc component a student may include one or more modules and only the modules available in the Bachelor of Science Schedule can be included. If a module is completed all the courses in the module will be counted as courses available for the BSc.

The Foundation Certificate in English for Academic Purposes – FCertEAP

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission

1 In order to be admitted to this programme, a student must:
   a (i) be an international student permitted to study in New Zealand
       and
       (ii) (a) have obtained an English language proficiency score of not less than 5.0 in the International English
       Language Testing System (IELTS) or its equivalent in another such English Language Test recognised
       by the University of Auckland, for undergraduate conditional offers of admission
       or
       (b) have obtained an English language proficiency score of not less than 5.5 in the International English
       Language Testing System (IELTS) or its equivalent in another such English Language test recognised
       by the University of Auckland, for postgraduate conditional offers of admission
       and
       (iii) (a) have received a conditional offer of admission to the University of Auckland or another tertiary
       education institution in New Zealand
       or
       (b) have obtained a recognised high school qualification in another country which entitles the student
       to qualify for ad eundem statum admission to a New Zealand university
   or
   b (i) be a citizen or permanent resident of New Zealand
       and either
       (ii) (a) have obtained a recognised high school qualification in another country which entitles the student
       to qualify for ad eundem statum admission to a New Zealand university
       and
       (b) have obtained an English language proficiency score of not less than 5.0 in the International English
       Language Testing System (IELTS) or its equivalent in another such English Language Test recognised
       by the University of Auckland, for undergraduate conditional offers of admission
       or
       have obtained an English language proficiency score of not less than 5.5 in the International English
       Language Testing System (IELTS) or its equivalent in another such English Language test recognised
       by the University of Auckland, for postgraduate conditional offers of admission
       or
       (iii) have completed year 13 in a New Zealand secondary school, but not met the standard for University
       Entrance.

   Note: Students who gain admission to the programme under 1b(iii) and who successfully complete the certificate
   may apply for Discretionary Entrance to the University under the Admission Regulation 6b. The Certificate is not
   an alternative to fulfilment of the literacy requirement for entrance from a New Zealand secondary school, but
   will be taken into account in the consideration of applications for Discretionary Entrance.

Duration and Total Points Value

2 A student enrolled for this certificate has to follow an approved full-time programme of the equivalent of one
   semester and pass courses with a total value of 60 points.

Structure and Content

3 a A student with an undergraduate conditional offer of admission enrolled in this certificate must pass:
   ACADINT A01 Academic Integrity Course
   ENGLACP 20P English for Academic Purposes Level 1
   ENGLACP 30P English for Academic Purposes Level 2

   b A student with a postgraduate conditional offer of admission enrolled in this certificate must pass:
   ACADINT A01 Academic Integrity Course
   ENGLACP 30P English for Academic Purposes Level 2
   ENGLACP 40P English for Academic Purposes Level 3
Variations
4 In exceptional circumstances the Academic Board or its representative may approve a personal programme which does not conform to these regulations.

Amendment
5 These regulations have been amended with effect from 1 January 2017.

Foundation Studies Certificate – FoundStCert
The Foundation Studies Certificate is intended to prepare students whose first language is not English for admission to the University of Auckland in particular and to New Zealand universities in general. Suitably qualified students who meet the minimum entrance requirements upon entry to this certificate may also be required to include English Language Acquisition courses offered by the University of Auckland.

Admission
1 In order to be admitted to this programme a student needs to have:
a completed secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2, with no fewer than 12 credits in each of three subjects including Mathematics; or the equivalent as approved by the Board of Studies
and
b a level of English language proficiency equivalent to a score of 5.0, with no band less than 4.5, in the Academic International English Testing System (IELTS) or alternative English Language test approved by the University of Auckland.

Duration
2 Students enrolled for this certificate must follow an approved programme of:
a at least 41 weeks (standard delivery) if they have undertaken secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2, with no fewer than 12 credits in each of three subjects including Mathematics; or the equivalent as approved by the Board of Studies; and have a level of English language proficiency equivalent to a score of 5.0, with no band less than 4.5 in the Academic International English Testing System (IELTS) or alternative English Language test approved by the University of Auckland or
b at least 31 weeks (intensive delivery) if they have undertaken secondary schooling to at least NCEA Level 2, and achieved a minimum of 48 credits at NCEA Level 2, with no fewer than 12 credits in each of three subjects including Mathematics; or the equivalent as approved by the Board of Studies; and have a level of English language proficiency equivalent to a score of 5.5 with no band less than 5.0 in the Academic International English Testing System (IELTS) or alternative English Language test approved by the University of Auckland.

Structure and Content
3 A student enrolled for this certificate must complete:
a English for Academic Purposes
and
b four courses from Accounting, Art, Biology, Chemistry, Classical Studies, Economics, Geography, Information Technology, Mathematics and Statistics, Mathematics with Calculus, Physics, or other courses equivalent to NCEA Level 3 approved by the Academic Director.

4 Students must:
a achieve at least 65 percent in English for Academic Purposes
or
b achieve at least 50 percent in English for Academic Purposes and pass IELTS with an overall score of at least 6.0 in the academic module with no band less than 5.5
or
c have completed the Foundation Certificate for Academic Purposes or English Pathway for Undergraduate Studies from the English Language Academy, with a C- or higher.

5 Students must complete all required class work and written examinations which will be equivalent in standards to NCEA Level 3.

6 The programme of each student must be approved by the Academic Director.

7 A student enrolled in this certificate must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.
The University of Auckland Certificate in Foundation Studies – CertFoundSt

Admission

1 In order to be admitted to this programme a student needs to:
   a (i) completed secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2 at a Merit standard, with no fewer than 12 credits in each of three subjects including Mathematics, or the equivalent as approved by the Board of Studies
   and
   (ii) a level of English language proficiency equivalent to a score of 5.0, with no band less than 4.5, in the International English Language Testing System (IELTS) or alternative English language test approved by this University
   or
   b (i) completed secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2 at a Merit standard, with no fewer than 12 credits in each of three subjects including Mathematics, or the equivalent as approved by the Board of Studies
   and
   (ii) level of English language proficiency equivalent to a score of 5.5, with no band less than 5.0, in the International English Language Testing System (IELTS) or alternative English language test approved by this University
   or
   c (i) completed secondary schooling to at least NCEA Level 2, and achieved a minimum of 42 credits at NCEA level 2 at an Excellence standard, with no fewer than 12 credits in each of three subjects including Mathematics, or the equivalent as approved by the Board of Studies
   and
   (ii) a level of English language proficiency equivalent to a score of 6.0, with no band less than 5.5, in the International English Language Testing System (IELTS) or alternative English language test approved by this University.

Duration

2 a A student admitted under Regulation 1a must pass courses with a total value of 120 points and will normally complete within 12 months.

   b A student admitted under Regulation 1b must pass courses with a total value of 120 points and will normally complete within 9 months.

   c A student admitted under Regulation 1c must pass courses with a total value of 90 points and will normally complete within 6 months.

Structure and Content

3 a A student enrolled for this certificate must complete the requirements as listed in the University of Auckland Certificate in Foundation Studies Schedule

   and

   b (i) achieve at least 65% in CTFOUND 10F, 39F or 40F English for Academic Purposes

   or

   (ii) achieve at least 50% in CTFOUND 10F, 39F or 40F English for Academic Purposes and have passed an IELTS examination with an overall score of at least 6.0 with no band less than 5.5 in the academic module

   or

   (iii) have completed the Foundation Certificate for Academic Purposes or English Pathway for Undergraduate Studies from the English Language Academy, with a C- or higher.

4 In exceptional circumstances, and with the approval of the Deputy Head of College Academic, a student may substitute a pass in CTFOUND 39F for CTFOUND 40F, or a pass in CTFOUND 39F and a pass in a further 20-point subject course from the University of Auckland Certificate in Foundation Studies Schedule for CTFOUND 10F.

5 a In exceptional circumstances a student may enrol in a Stage I course from this University with the approval of
the Deputy Head of College Academic and the Associate Dean (Academic) of the faculty offering the course in which the student wishes to enrol.

b Credit may be granted toward a bachelors degree or diploma at this University for any Stage I course(s) completed under Regulation 4a.

6 A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

7 A student must complete all required class work and written examinations which will be similar in standard and content to NCEA Level 3.

8 The programme of study of each student must be approved by the Deputy Head of College Academic.

Admission to University

9 A student who satisfactorily completes the University of Auckland Certificate in Foundation Studies will be deemed to have the equivalent of University Entrance.

---

### University of Auckland Certificate in Foundation Studies (CertFoundSt) Schedule

A student who has to complete 90 points must satisfy the following requirements:

- **10 points**: CTFOUND 40F
- **80 points** from CTFOUND 41F–52F, 23F or other courses approved by the Head of College

A student who has to complete 120 points must satisfy the following requirements:

- **40 points**: CTFOUND 10F
- **80 points** from CTFOUND 11F–23F or other courses approved by the Head of College

---

### REGULATIONS – OTHER PROGRAMMES

#### Certificate of Proficiency – COP

*The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.*

**Admission**

1 In order to be admitted to a Certificate of Proficiency, a student:

   a requires the approval of the relevant Associate Dean (Academic) or nominee for the course or courses in which they intend to enrol

   and

   b must meet any prerequisite, corequisite or other conditions of the course or courses, or the Associate Dean (Academic) or nominee has, in approving the admission, waived those requirements.

**Structure and Content**

2 a Any course that is offered by the University of Auckland may be taken for a Certificate of Proficiency with the approval of the relevant Associate Dean or nominee.

   b A student must complete the University of Auckland Academic Integrity course as specified in the Enrolment and Programme Regulations, Academic Integrity, of the University Calendar.

**Reassignment**

3 a Provided any prerequisite, corequisite or other conditions for that qualification are met, a course passed for a Certificate of Proficiency may, with the approval of Senate or its representative and in conformity with the Credit Regulations, be subsequently reassigned to:

   (i) an undergraduate certificate, diploma or degree

   (ii) a Taught Masters degree, or the taught component of a Research Masters degree with a total points value of more than 120 points, a Bachelors Honours Postgraduate degree, a Postgraduate Diploma or a Postgraduate Certificate, as specified in the Credit Regulations.

   b A course passed for a Certificate of Proficiency may not be reassigned to a Research Masters degree except as specified in 3a(ii) above.
c Where a course has already been credited to a qualification a student may enrol again for that course, or for another course whose content is substantially similar, for a Certificate of Proficiency. Such a course, when passed for Certificate of Proficiency, will not be reassigned to any qualification.

Amendment
4 These regulations have been amended with effect from 1 January 2023.

Northern Hemisphere Summer Research Scholarship Programme

Admission
1 In order to be admitted to this programme a student needs to:
   a have completed at least two years of equivalent full-time study in a degree by the programme start date
   and
   b be enrolled in an undergraduate degree or sub-doctoral postgraduate study at an international institution
      at the time of application
   and
   c have a Scholarships Grade Point Average/Grade Point Equivalent of 7.0 or higher in the most recent two years
      of equivalent full-time study
   and
   d be recommended for admission by the Dean or nominee.

Duration
2 Students must complete this programme within eight weeks of initial enrolment.

Structure and Content
3 A student enrolled for this programme must complete course SUMRESCH 302.

Amendment
4 These regulations have been amended with effect from 1 January 2019.

Summer Research Scholarship Programme

Admission
1 In order to be admitted to this programme a student needs to:
   a have completed at least two years of equivalent full-time study in a degree by the programme start date
   and
   b (i) be enrolled in an undergraduate degree or postgraduate diploma or Bachelor (Honours) degree at a
      New Zealand university at the time of application
      or
      (ii) have been enrolled in an undergraduate degree at an international institution in the calendar year of
            the programme start date
   and
   c have a Scholarships Grade Point Average/Grade Point Equivalent of 6.0 or higher (5.5 for Māori or Pacific
      students) in the most recent two years of equivalent full-time study
   and
   d be recommended for admission by the Dean or nominee.

Duration
2 Students must complete this programme within ten weeks of initial enrolment.

Structure and Content
3 A student enrolled for this programme must complete course SUMRESCH 301.

Amendment
4 These regulations have been amended with effect from 1 January 2019.
Transitional Certificate – TransCert

The regulations for this certificate are to be read in conjunction with all other relevant statutes and regulations including the Academic Statutes and Regulations.

Admission
1 In order to be admitted to this programme a student needs to have completed the requirements for a degree of this University or other degree approved by Senate or its representative in any particular case.

Structure and Content
2 The programme consists of such course or courses at undergraduate level in a subject or subjects as Senate or its representative may require or approve.
3 The purpose of this programme is to fulfil the requirements for entry to a specific graduate degree, graduate or postgraduate diploma approved by Senate or its representative.
4 To be eligible for the award of a Transitional Certificate a student has to enrol for the graduate qualification for which the prerequisites were met by taking this programme.

Variations
5 In exceptional circumstances Senate or its representative may approve a personal programme which does not conform to these regulations.

Amendment
6 These regulations have been amended with effect from 1 January 2001.

Academic English Studies
Academic English Studies offers credit courses for international students and New Zealand residents whose first language is not English.

A range of courses is offered with the aim of improving academic English skills and increasing proficiency in reading and writing for academic purposes. Students gain credit points for successfully passing each course.

ACADENG 100 develops skills in English grammar and vocabulary for academic reading and writing. ACADENG 101 focuses on academic writing, and the skills needed for basic academic essays. ACADENG 104 focuses on academic English skills to help Business students understand and express business-related concepts. At Stage II level, ACADENG 210 is an advanced academic writing course for students who need to write academic research reports.

ACADENG 100, ACADENG 101 and ACADENG 104 are approved courses for students who have not met the Academic English Language Requirement (AELR). ACADENG 104 can be taken as an elective but priority is given to Business students who need the course to meet the AELR.

Further information may be obtained from the School of Cultures, Languages and Linguistics, Faculty of Arts.
Phone: +64 9 373 7599 ext 86727.

New Start
New Start provides part-time University preparation courses for adults over the age of 20 who need skills and confidence to undertake academic study. No previous qualifications are required. Students are required to be New Zealand citizens or permanent residents.

Students gain information on the structure of university degrees, and an insight into the standard of work expected. Educational guidance is an integral part of New Start and ongoing planning is offered during the semester.

In addition, students are required to complete the University of Auckland Academic Integrity ACADINT A01 course and the Diagnostic English Language Needs Assessment (DELNA) while they are with New Start.

New Start General NSGEN 47
New Start General introduces students to a variety of lecture topics in communications, education, humanities, law and social sciences, and offers tutorials, assignments with written feedback and a final test.

This is a 13-week part-time, day or evening course, also with weekend options, providing a comprehensive overview of first-year degree study. This course is compulsory for all students. Depending on the final grade achieved students
may apply for admission into an undergraduate degree in the faculties of Arts, Business, Education and Social Work and Law.

New Start General is offered at three campuses throughout the year: University of Auckland City Campus (Semester One or Semester Two), Te Papa Ako o Tai Tonga Campus, Manukau (Semester One) and Tai Tokerau Campus in Whāngarei (Summer School).

**New Start Mathematics**

Two mathematics papers are taught at the University of Auckland City Campus: Mathematics Fundamentals NSMAT 10 and Mathematics Preparation for University NSMAT 14. Students intending to enrol in these courses must first sit a maths assessment.

Note that Mathematics Preparation for University is designed to be taken with New Start General as a pathway to Business School. Results will be used to recommend the best pathway for students.

**Mathematics Fundamentals NSMAT 10**

Mathematics Fundamentals NSMAT 10 is a short intensive course taught over four consecutive Saturdays in a workshop environment designed to build students’ skills and confidence. Students will be working together collaboratively, either as a class or in groups, but sometimes there will be lectures. The course includes assignments and a final test. Students who require additional mathematics support are advised to enrol in this course before undertaking Mathematics Preparation for University NSMAT 14.

This course is offered in Summer School or can be taken in the mid-semester break before the start of Semester Two.

**Mathematics Preparation for University NSMAT 14**

A variety of topics of everyday interest is explored with the aim of clarifying the underlying mathematics and statistics.

This is a 12-week part-time course held in Semester One or Semester Two. The course includes lectures, assignments and a final test.

This course is compulsory and taken together with New Start General NSGEN 47 for students planning to pathway to an undergraduate degree in Commerce or Property at the University’s Business School.

A grade of A– or above achieved in this course and New Start General NSGEN 47 enables students to apply for admission to the Bachelor of Commerce or Bachelor of Property.

**Further Information**

Further information can be obtained from:

New Start Office
Building 206
14–16 Symonds Street
Auckland 1010.

Email: newstart@auckland.ac.nz
Website: www.auckland.ac.nz/newstart

**Public Programmes – Event Services**

Event Services offers lifelong learning opportunities through the delivery of courses, public lectures, workshops and conferences that all draw upon the expertise of the University.

Most events are open to members of the public and are delivered in various formats, including day and evening lectures, seminars, webinars and workshops. It is also possible to join undergraduate students in selected University lecture courses.

For more information visit https://unievents.auckland.ac.nz/ or https://www.publicprogrammes.ac.nz/ or email eventservices@auckland.ac.nz.
English Language Academy – ELA

The University of Auckland’s English Language Academy (ELA) provides a range of English language courses for international students including University Pathway Programmes (for entry to University of Auckland programmes), Academic English and General English courses, bespoke Group Programmes and Teacher Training (English language) courses. ELA is an accredited IELTS, Cambridge English and PTE Academic testing centre. Established over 20 years ago by world-renowned linguist Emeritus Distinguished Professor Rod Ellis, ELA provides students with a quality learning environment with qualified and experienced English language teachers, student services including pastoral care, a study centre and a range of other support services for students.

For more information visit: www.ela.auckland.ac.nz

647  General Education Faculty Schedule – Engineering, Medical and Health Sciences, Science
GENERAL EDUCATION REGULATIONS AND SCHEDULES

General Education Regulations
1 Students required to include General Education in their programme must pass courses as specified in the General Education Regulations and Schedules for their programme.

2 a A student will not meet the General Education requirement for their programme if they complete a General Education course with the same subject code as any non-General Education course they have previously passed, or are already enrolled in.

b A student will not meet the General Education requirement for their programme if they subsequently enrol in and pass a course with the same subject code as a General Education course which has been passed for their programme, unless the subsequent course is either another General Education course or is assigned to a different programme. Where appropriate the student may be able to use previously completed General Education course(s) to meet another degree requirement. This regulation does not apply to the following courses:
   (i) LAW 121G, 131, and 141 provided no other courses from Parts II–IV of the LLB were completed.
   (ii) EDUC 100G for students enrolled in the BEd(Tchg).

b A student who transfers programmes can meet the General Education requirement of their new programme using a course in a subject in which they have passed more than one course if the only courses in that subject credited or reassigned to their new programme are General Education courses.

d ANTHRO 106G does not meet the General Education requirement for the Bachelor of Music or Bachelor of Music conjoints.

e DISABLY 113G does not meet the General Education requirement for the Bachelor of Human Services or the Bachelor of Social Work.

3 Language courses do not satisfy the General Education requirement for a student who has prior knowledge of the language (for example, as a native speaker, through formal or informal study, or through living with others who speak the language). A student with prior knowledge of the language may be declined enrolment or the enrolment may be deleted at the discretion of the Academic Head or nominee.

4 a A student who is required to meet the Academic English Language Requirement through the completion of an approved academic English Language course, as specified in the Enrolment and Programme Regulations, Academic English Language Requirement, of the University Calendar, may substitute one of ACADENG 100, 101, 104, ENGWRIT 101 for 15 points of General Education.

b In exceptional circumstances approval may be given by the relevant Associate Dean Academic for a student who has already met the Academic English Language Requirement to substitute one of ACADENG 100, 101, 104, ENGWRIT 101 for 15 points of General Education.

Notes:
(i) Some courses available for General Education are also available as part of regular degree requirements. The content and assessment for both occurrences of the course are the same. A student must enrol in the General Education offering of a course in order to meet the General Education requirements of their programme.

(ii) Some General Education courses have limits on the number of students who can enrol. Places in these courses will be allocated on a first-come-first-served basis.

General Education Open Schedule

General Education courses approved for all undergraduate programmes

| Students can also choose courses from the General Education Faculty Schedule(s) approved for their degree. |

Regulations – Doctor of Philosophy

Statute for the Degree of Doctor of Philosophy – PhD

Regulations – Higher Doctorates

The Degree of Doctor of Engineering – DEng
The Degree of Doctor of Laws – LLD
The Degree of Doctor of Literature – LittD
The Degree of Doctor of Science – DSc
Procedure for the Examination of Higher Doctorates
REGULATIONS – DOCTOR OF PHILOSOPHY

Statute for the Degree of Doctor of Philosophy – PhD

Notes:
(i) “Candidate/s” refers to candidate/s for the degree of Doctor of Philosophy.
(ii) “Candidature” refers to a person’s status as a candidate for the degree of Doctor of Philosophy.
(iii) “Doctoral year” refers to each block of 12 months from the initial date of programme enrolment.
(iv) Full-time and part-time enrolment are defined in the doctoral full-time and part-time enrolment policy and procedures.

General Requirements

1 A candidate for the Degree of Doctor of Philosophy (PhD) is required to undertake an original and coherent research project and to present the outcome of that research project for examination as a thesis.

2 The research project, which may include scholarly creative practice, must involve enquiry that is experimental and/or critical in nature and be driven by an intellectual hypothesis, position, problem or question(s) capable of being rigorously explored and of making an original and significant contribution to knowledge and/or understanding in the relevant field(s) of study.

3 The research project must be conducted under supervision and over the period of enrolment in the PhD programme, and must be conducted in accordance with the Research Code of Conduct Policy.

4 The thesis requirement at Regulation 1 must be satisfied by a cohesive written document, which shall not normally exceed 100,000 words. Scholarly creative work (written or otherwise) that forms an integrated whole with the written document may be submitted for examination as part of the thesis requirement.

5 The thesis must be undertaken and completed in accordance with the Doctoral Thesis Policy and Procedures and, where scholarly creative work is (to be) presented for examination as part of the thesis requirement, with the PhD – Including Scholarly Creative Work Policy and Procedures.

6 In order for the PhD degree to be awarded, the Board of Graduate Studies (or delegate[s]) must be:
   a satisfied that the requirements of Regulations 1-5 and Regulation 47 have been met
   and
   b satisfied that, subject to Regulation 43, the candidate has performed at doctoral level in an oral examination, held in accordance with this Statute on the thesis, the subject of the thesis and the field(s) to which the subject belongs
   and
   c satisfied, by the examination process prescribed by this Statute, that the thesis:
      (i) makes an original and significant contribution to knowledge or understanding in its field(s)
      and
      (ii) meets internationally recognised standards for such work
      and
      (iii) demonstrates knowledge of the literature relevant to the subject and the field(s) to which the subject belongs, and demonstrates the ability to exercise critical and analytical judgement of that literature
      and
      (iv) is satisfactory in its methodology, in the quality and coherence of its expression, and in its scholarly presentation and format.

Duration

7 The thesis must be submitted within a maximum of 48 months of full-time equivalent enrolment from the initial date of enrolment in the PhD programme, unless a later submission date is permitted by the Board of Graduate Studies (or delegate) in accordance with the Doctoral Extension of Enrolment Policy and Procedures. For the avoidance of doubt, the provisions pertaining to the submission of the “thesis” in this regulation and in the remainder of this statute apply to all work (to be) presented for examination in fulfilment of the thesis requirement at Regulation 1.

8 The thesis must not be submitted in less than 36 months of full-time equivalent enrolment from the initial date of enrolment in the PhD programme, unless permission is granted by the Board of Graduate Studies (or delegate).

9 Permission for submission of the thesis must not be granted where a candidate has been enrolled for less than 24 months full-time equivalent from the initial date of enrolment in the PhD programme.
10 Part-time enrolment may be permitted, subject to the Doctoral Full-time and Part-time Enrolment Policy and Procedures.

11 A candidate may be permitted to suspend their enrolment subject to the Doctoral Suspension of Enrolment Policy and Procedures.

12 Unless permitted under the PhD – Masters Thesis Transfer Policy and Procedures, the initial date of enrolment in the PhD programme may not be backdated except in exceptional circumstances as approved by the Board of Graduate Studies (or delegate) and up to a maximum of six months.

**Admission**

13 To be admitted to the PhD programme, applicants must satisfy the University’s Admission regulations and are required to have:

a in their most recent attempt at a relevant qualification:

(i) completed the requirements for a Bachelors Honours or Masters degree or postgraduate diploma in a relevant subject area with at least a B+ average at the University of Auckland, or, where relevant to the intended subject of the PhD, the Degree of Bachelor of Medicine and Bachelor of Surgery at the University of Auckland; in all cases relevance is determined by the Board of Graduate Studies (or delegate)

or

(ii) satisfied the requirements of the PhD – Masters Thesis Transfer Policy and Procedures

or

(iii) completed the requirements for a qualification approved by the Board of Graduate Studies (or delegate) as relevant, with regard to subject area, and as equivalent to a Bachelors Honours or Masters degree with at least a B+ average at the University of Auckland

and

b satisfied the requirements of the Doctoral Candidate Research Capacity Policy and Procedures

and

c satisfied the University of Auckland postgraduate English language requirements and any further requirements for evidence of English language proficiency set by the Board of Graduate Studies (or delegate)

and

d where creative work is to be presented for examination as part of the thesis requirement, have satisfied the eligibility and research project approval requirements of the PhD – Including Scholarly Creative Work Policy and Procedures

and

e have a research project approved by the Board of Graduate Studies (or delegate) as consistent with the requirements of Regulation 2 and capable of satisfying the requirements for the award of the PhD degree

and

f have the approval of the Head(s) of the relevant academic unit(s) or their nominee(s) for the purposes of doctoral matters (“the Academic Head(s)”) with regard to the availability of appropriate supervision and the availability of the research resources deemed necessary by the Academic Head(s).

14 In exceptional circumstances, the Board of Graduate Studies (or delegate) may, subject to the Doctoral Exceptional Circumstance Entry Policy and Procedures, admit to the PhD programme an applicant whose qualifications do not meet the requirements of Regulation 13a.

15 An applicant may be considered for transfer from an existing doctoral enrolment subject to the Doctoral Transfer Policy and Procedures.

16 An applicant may be considered for off-campus enrolment subject to the Doctoral Off-campus Research Policy and Procedures.

17 The final decision on admission to the PhD programme shall be made by the Board of Graduate Studies (or delegate).

18 Admission to the PhD programme may be rescinded prior to enrolment in the programme where information that was not available to the Board of Graduate Studies (or delegate) at the time the admission decision was made, and which would have resulted in a different decision being made, becomes available, or where, due to circumstances unforeseeable at the time of the decision, supervision and/or necessary resources will no longer be available for the enrolment.

19 Admission to the PhD programme is valid for up to six months (or a maximum of 12 months in exceptional circumstances as approved by the Board of Graduate Studies (or delegate)) from the date of notification of admission to the programme. Where enrolment in the programme does not occur within that time, re-application for admission to the programme is required.
20 Concurrent enrolment in another programme at the University of Auckland or at another institution is not permitted except as approved by the Board of Graduate Studies (or delegate) in exceptional circumstances.

21 Persons who are permitted by the Board of Graduate Studies (or delegate) to enrol in a joint or dual doctoral degree must satisfy all the requirements of this Statute in order to have the PhD degree awarded, unless an individual requirement is varied under Regulation 53.

**Supervision**

22 The Academic Head(s) is (are) responsible for the provision of supervision for the duration of the candidate's enrolment.

23 The Board of Graduate Studies (or delegate) will appoint at least two supervisors for each candidate in accordance with the Doctoral Supervision Policy and Procedures.

24 Changes in supervision during candidature are subject to the Doctoral Supervision Policy and Procedures and the approval of the Board of Graduate Studies (or delegate), with whom the final decision as to the appointment of supervisors rests.

**Enrolment and Candidature**

25 Except for any period(s) of suspension approved under Regulation 11, candidates are required to be enrolled continuously from the initial date of enrolment in the PhD programme until the date of thesis submission under Regulations 7–9.

26 Candidature for the PhD degree commences upon enrolment in the PhD programme and continues, regardless of any period(s) of suspension approved under Regulation 11, until the date on which any one of the following occurs:
   a notification from the Board of Graduate Studies (or delegate) that all requirements for the award of the degree at Regulation 6 have been met
   b notification from the Board of Graduate Studies (or delegate) that the final decision under Regulation 46 is that the degree not be awarded
   c candidature expires under Regulation 28
   d a candidate withdraws under Regulation 48
   e candidature is terminated by the Board of Graduate Studies (or delegate) pursuant to Regulation 49.

27 Candidature is provisional until confirmed, and is subject to the Doctoral Confirmation of Candidature Policy and Procedures, the Doctoral Continuation of Confirmed Candidature Policy and Procedures, and the Doctoral Candidature Intervention Policy and Procedures.

28 a Candidature expires when the thesis is not submitted for examination by the date required under Regulation 7.
   b Candidature expires when the thesis is not submitted by the date specified by the Board of Graduate Studies (or delegate) pursuant to Regulation 45.

29 Where candidature has expired under Regulation 28, it may be reinstated only as the outcome of a successful application to the Board of Graduate Studies (or delegate) for a (retrospective) extension of enrolment, or by successful appeal under Regulation 54 of a decision by the Board of Graduate Studies (or delegate) to decline an extension of enrolment (retrospective or otherwise).

30 Enrolment in the PhD programme is not possible where candidature remains expired under Regulation 28 or where a candidate withdraws from the programme under Regulation 48.

31 Termination of candidature under Regulation 49 is also termination of enrolment in the PhD programme for enrolled candidates.

32 Candidates who are required, pursuant to Regulation 45, to revise and resubmit their thesis for examination by the date specified by the Board of Graduate Studies (or delegate) are required to be enrolled for the duration of the period of revision of the thesis. The maximum duration of enrolment for revision and resubmission of a thesis pursuant to Regulation 45 is 12 months full-time equivalent.

33 Candidates who wish to be absent from the University in pursuit of their research for more than one month during enrolment are subject to the Doctoral Off-campus Research Policy and Procedures.

34 Candidates are subject to the Research Code of Conduct Policy and all University statutes, regulations, rules,
policies and procedures relating to student conduct and obligations (academic or otherwise) for the duration of candidature.

35 Candidates may change the title of their thesis at any point prior to submission of the thesis for examination, subject to the approval of the Board of Graduate Studies (or delegate).

Fees
36 All fees required by and pursuant to the Fees Statute and the PhD Domestic Tuition Fees Policy must be paid for the duration of enrolment in the PhD programme.

37 Tuition fees are not payable for any period during which enrolment has been suspended under Regulation 11.

38 a A candidate who withdraws from the PhD programme, or who has their candidature terminated, will receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month of the period of withdrawal from the programme or termination of candidature and the end of the current doctoral year.

b A candidate who submits a thesis will receive a refund of one-twelfth of the tuition fee paid for the current doctoral year per each complete month of the period between the date of submission of the thesis and the end of the current doctoral year, provided the candidate has been enrolled for at least 36 months’ full-time equivalent.

39 Graduation is not permitted until all outstanding monies owing to the University have been paid.

Submission
40 The thesis must be submitted in accordance with the Doctoral Thesis Submission Pre-Examination Procedures.

Examination
41 For each candidate, the Board of Graduate Studies (or delegate) will appoint two examiners, at least one of whom must be based outside New Zealand, in accordance with the Doctoral Appointment of Examiners Policy and Procedures.

42 The examination for the PhD degree must be conducted in accordance with the Doctoral Examination Procedures and/or, where the Board of Graduate Studies (or delegate) regards it as warranted, with the Doctoral Examination Extraordinary Circumstances and Posthumous Award Procedures. Where scholarly creative work is submitted as part of the thesis requirement, the examination is also subject to the PhD – Including Scholarly Creative Work Policy and Procedures.

43 Except where a candidate is exempted pursuant to the Doctoral Examination Extraordinary Circumstances and Posthumous Award Procedures, the PhD degree cannot be awarded where an oral examination has not taken place.

44 Where a candidate advances to oral examination, the oral examination is to proceed in accordance with the Doctoral Examination Procedures and the Doctoral Oral Examination Procedures.

45 The Board of Graduate Studies (or delegate) will consider all examination reports and recommendations made pursuant to the Doctoral Examination Procedures and determine the outcome of the examination.

Final Decision
46 The final decision as to the award of the PhD degree will be made by the Board of Graduate Studies (or delegate[s]), who may also be the decision-maker at Regulation 45.

47 The final examined and approved thesis must be submitted in accordance with the Doctoral Thesis Submission Post-Examination Procedures in order for the requirements of the PhD degree to be met.

Withdrawal from Programme
48 A candidate may withdraw from the PhD programme at any time by notifying the University in writing. Retraction of the programme withdrawal is not permitted.

Termination of Candidature
49 The Board of Graduate Studies (or delegate) may terminate the candidature of any enrolled or non-enrolled candidate on any one or more of the following grounds:

a failure to meet the requirements for confirmation of candidature pursuant to Regulation 27

b failure to meet the requirements for continuation of confirmed candidature pursuant to Regulation 27

c failure to satisfy conditions imposed on candidature pursuant to Regulation 27
d failure to comply with candidature reporting requirements pursuant to Regulation 27

e failure to complete or satisfactorily complete revisions to an examined thesis by the date required by the Board of Graduate Studies (or delegate)

f failure to comply with the Doctoral Thesis Submission Post-Examination Procedures

g failure to make payment of any tuition fees related to enrolment in the PhD by the due date.

Note: For the avoidance of doubt, termination of candidature pursuant to this Regulation 49 is permanent unless successfully appealed in accordance with Regulation 54(b).

50 Before the Board of Graduate Studies (or delegate) makes a decision as to termination of candidature pursuant to Regulation 49, the candidate will be given notice of termination proceedings and allowed 14 calendar days to make a submission for the Board of Graduate Studies (or delegate) to take into account in making that decision. This process is subject to the Doctoral Termination Proceedings Policy.

51 Cancellation or prohibition of enrolment and/or candidature pursuant to any disciplinary statute of the University takes precedence over the provisions of this Statute.

52 a Where a candidate withdraws from the PhD programme, or has their candidature terminated, or fails to meet the requirements for the award of the degree, admission to a new PhD or other doctoral programme in the same subject at a later date will not normally be permitted.

b A person who withdraws from any relevant doctoral enrolment or has a relevant doctoral candidature terminated (or equivalent), or who fails to meet the requirements for the award of a relevant doctoral degree, will not normally be admitted to the PhD except in accordance with the doctoral transfer policy and procedures.

c Relevance and equivalence at Regulation 52b are determined by the Board of Graduate Studies (or delegate).

Variations

53 In exceptional circumstances, the Board of Graduate Studies (or delegate) may approve a variation to the policies, procedures and regulations for PhD candidature, except where variation of a national or government directive or requirement is involved.

Appeals

54 a Candidates may appeal decisions made by the Board of Graduate Studies (or delegate) pertaining to extension and suspension of enrolment subject to the Doctoral Candidature Appeal Procedures.

b A former candidate may appeal the decision made by the Board of Graduate Studies (or delegate) to terminate candidature, or to decline an extension of enrolment, subject to the Doctoral Candidature Appeal Procedures.

55 Appeals as to extension and suspension of enrolment and termination of candidature will be determined in accordance with the Doctoral Candidature Appeal Procedures.

56 Candidates and former candidates may appeal the outcome of a PhD examination only on the grounds that the result was materially impacted by a procedural flaw in the examination process, and subject to the Doctoral Examination Appeal Procedures.

57 Appeals as to examination will be determined in accordance with the Doctoral Examination Appeal Procedures.

Dispute Resolution

58 Disputes are to be resolved according to the Resolution of Student Academic Complaints and Disputes Statute.

59 Any matter that has been, could have been or could be appealed under the provisions of Regulation 54 or 56 is precluded from consideration as a dispute under Regulation 58.

Further Provisions

60 a The PhD programme is subject to the Limited Entry Statute.

b Candidates are subject to:

(i) the Degrees and Diplomas Statute and the Conferment of Academic Qualifications and Academic Dress Statute

and

(ii) the provisions of the Enrolment and Programme regulations pertaining to members of the security intelligence service, rescindment and surrender of qualifications and the Provost’s Special Powers

and
(iii) the Examination Regulations, where coursework is prescribed pursuant to Regulation 27.

61 The doctoral policies and procedures cited in this Statute may be reviewed and amended from time-to-time.

62 PhD candidates are subject to any additional doctoral policies and procedures devised in support of this Statute, and amended from time-to-time.

63 This Statute may itself be reviewed and amended from time-to-time.

64 This Statute came into force on 1 October 2020.

65 For candidates initially enrolled under a previous statute, the Board of Graduate Studies (or delegate) may agree to vary the application of the provisions of this Statute to ensure consistency with the provisions of the statute under which the candidate was enrolled, where it is satisfied that the candidate would otherwise be at a disadvantage.

**REGULATIONS – HIGHER DOCTORATES**

In addition to the degree of Doctor of Philosophy, the University offers higher doctorates in Engineering (DEng), Laws (LLD), Literature (LittD), and Science (DSc). These are the highest academic awards offered by the University and are awarded to graduates or close affiliates of the University of Auckland who have published original work that has, over an extensive period of time, given them authoritative standing and international eminence in their respective field. The higher doctorate is thus to be seen as recognition of real distinction in one of these areas of study. It is awarded rarely and only after rigorous examination of a substantial and significant corpus of material. A person wishing to become a candidate for a higher doctorate should refer to the Guidelines for Candidates of Higher Doctorates.

**The Degree of Doctor of Engineering – DEng**

**Eligibility**

1. The Degree of Doctor of Engineering shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence in some branch of engineering or technology such that they are considered to have authoritative standing and international eminence in their field.

2. The Degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation, or as designs and inventions. In addition to the published work, the candidate may submit unpublished work in support of the application.

3. A candidate for the Degree of Doctor of Engineering must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4. No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate’s first degree.

5. No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6. Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

**Application**

7. A person wishing to become a candidate for a Doctor of Engineering should apply in writing to the Dean of Graduate Studies, providing:

   a. a completed Application to be Examined for a Higher Doctorate
   
   and
   
   b. an academic curriculum vitae
   
   and
   
   c. academic transcripts for each degree previously awarded (if these degrees were not awarded by the University of Auckland).

8. Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.
The Degree of Doctor of Laws – LLD

Eligibility
1 The Degree of Doctor of Laws shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to the history, philosophy, exposition or criticism of law, such that they are considered to have authoritative standing and international eminence in their field.

2 The Degree shall be awarded for work, whether sole or conjoint, published in book form or in scholarly journals in general circulation. In addition to the published work, the candidate may submit unpublished work in support of the application.

3 A candidate for the Degree of Doctor of Laws must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate’s first degree.

5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

Application
7 A person wishing to become a candidate for a Doctor of Laws should apply in writing to the Dean of Graduate Studies, providing:
   a a completed Application to be Examined for a Higher Doctorate
   and
   b an academic curriculum vitae
   and
   c academic transcripts for each degree previously awarded if these degrees were not awarded by the University of Auckland.

8 Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.

The Degree of Doctor of Literature – LittD

Eligibility
1 The Degree of Doctor of Literature shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to linguistic, literary, philosophical, social, cultural or historical knowledge such that they are considered to have authoritative standing and international eminence in their field.

2 The Degree shall be awarded for work, whether sole or conjoint, published in book form or in scholarly journals in general circulation. In addition to the published work, the candidate may submit unpublished work in support of the application.

3 A candidate for the Degree of Doctor of Literature must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate’s first degree.

5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.
Application

A person wishing to become a candidate for a Doctor of Literature should apply in writing to the Dean of Graduate Studies, providing:

a a completed Application to be Examined for a Higher Doctorate

and

b an academic curriculum vitae

and

c academic transcripts for each degree previously awarded if these degrees were not awarded by the University of Auckland.

Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.

The Degree of Doctor of Science – DSc

Eligibility

1 The Degree of Doctor of Science shall be awarded to those candidates whose submitted works provide evidence of an original contribution of special excellence to some branch of pure or applied science such that they are considered to have authoritative standing and international eminence in their field.

2 The Degree shall be awarded only on work, whether sole or conjoint, published in book form or in scholarly journals in general circulation.

3 A candidate for the Degree of Doctor of Science must be a graduate of the University of Auckland or have a substantial, demonstrable association with the University of Auckland.

4 No application to be examined for a higher doctorate will be considered until at least eight years after graduation to the candidate's first degree.

5 No work shall be considered for the Degree if the work, or a major portion thereof, has previously formed the basis of an award of any degree or diploma in this or any other university.

6 Work submitted on a previous occasion for consideration of a higher doctorate at the University of Auckland will not be reconsidered for the Degree unless more than five years have elapsed since the previous submission and the resubmission includes new material.

Application

A person wishing to become a candidate for a Doctor of Science should apply in writing to the Dean of Graduate Studies, providing:

a a completed Application to be Examined for a Higher Doctorate

and

b an academic curriculum vitae

and

c academic transcripts for each degree previously awarded (if these degrees were not awarded by the University of Auckland).

Consideration of applications and examination shall be carried out in accordance with the Procedure for the Examination of Higher Doctorates, as determined by the Board of Graduate Studies from time to time.

Procedure for the Examination of Higher Doctorates

This procedure applies to the examination of the Degrees of Doctor of Engineering, Doctor of Laws, Doctor of Literature and Doctor of Science, and should be read in conjunction with the Higher Doctorate Examination Procedures.

Consideration of Applications to be Examined

1 As soon as possible after an application to be examined has been lodged with the Dean of Graduate Studies and has been determined to meet initial requirements, the application will be forwarded to the relevant Faculty Dean or delegate (“the faculty”) for further consideration.

2 The faculty will appoint an Examination Committee of three senior academics who have a general understanding of the applicant's field of research. At least two members of the Committee must be academic members of the University, one of whom will be nominated to chair the Examination Committee.

3 The Examination Committee will investigate the information provided, including the quality and nature of the
submissions for examination, will seek input from the Dean of the faculty, and will make a recommendation to
the Dean of Graduate Studies within one month that the faculty:
a will allow the applicant to be admitted to candidature for the higher doctorate
or
b will not allow the applicant to be admitted to candidature for the higher doctorate.

Notification of Assessment of Application and Intention to Submit
4 The Dean of Graduate Studies will advise the applicant of the faculty's decision and, if the application has
been accepted, will request written notification of the applicant's intention to proceed with candidature and
submission. The submission of work to be examined must be received by the Dean of Graduate Studies within
three months of the notification that the application was accepted.
5 The examination will not proceed until receipt of the candidate's written notification of intention to proceed and
payment of fees as set out in Schedule B of the Fees Statute.

Appointment of Examiners
6 Upon payment of fees and receipt of the candidate's written notification of intention to proceed, the Dean of
Graduate Studies will request that the faculty nominate three external examiners. The nominations should be
made within three months of the request. The examiners must be of authoritative standing and international
eminence in the field of the submitted work and must be active in research. At least one examiner shall be
resident outside New Zealand. Examiners must not have engaged in substantial collaboration with the
candidate. Any involvement with the candidate by the examiner which could constitute a conflict of interest
should be declared at the outset. The appointment of all examiners must be approved by the Dean of Graduate
Studies.

Submission
7 The candidate shall lodge at the School of Graduate Studies:
a three copies of the work to be examined
and
b a statutory declaration which shall:
(i) state the extent to which the work is the candidate's own, and (in the case of a conjoint work) identify
as clearly as possible which parts are the candidate's own
and
(ii) declare that the work in substantially its present form has not been submitted or accepted previously
for the award of a degree or diploma in this or any other tertiary institution, and is not being submitted
for a degree or diploma in any other tertiary institution or for another degree or diploma at this
institution.

Examination
8 The degree will be awarded solely on consideration of the submitted works upon which the candidate's claim to
the degree is based.
9 In order to qualify for the degree, the submitted works must provide sufficient evidence that the candidate has
made an original contribution of special excellence to their discipline such that they are considered to have
authoritative standing and international eminence in their field.
10 Examiners will be requested to report to the Dean of Graduate Studies on the submission within three months
of receipt and recommend whether the candidate:
a should be awarded the degree
or
b should not be awarded the degree.
11 The reports of all examiners will be forwarded to the Examination Committee for consideration of whether or
not to admit the candidate to the degree.
12 If the examiners' recommendations differ, the Examination Committee may invite the examiners to consult
and provide a written report or reports on the outcome of their consultation. If, after such consultation, the
differences remain unresolved, the Examination Committee may recommend to the Dean of Graduate Studies
that a further independent external examiner be appointed to report on areas of conflict.
13 The Examination Committee shall recommend an outcome based on the examiners' reports to the Dean of
Graduate Studies. The Dean of Graduate Studies will determine the result of the examination and notify the
candidate of the decision.
14 An unsuccessful submission may not be presented for re-examination until at least five years after initial submission and must include new material.

**Deposit of Submission in the Library**

15 On successful completion of the examination of the submitted work, and when possible, two bound copies will be deposited in the University Library by the School of Graduate Studies. The first bound copy will remain in the Library for reference purposes; the second copy may be borrowed by members of the Library, or sent to other libraries on inter-library loan. The third copy will be returned to the candidate.

**Graduation**

16 Candidates who have satisfied the requirements for any award of the University shall be admitted to that award.
COURSE PRESCRIPTIONS

The Course Prescriptions contain approved University of Auckland courses. Before selecting courses from this Calendar, students and potential students are advised to ascertain which courses are expected to be offered in this Academic Year and in which semester they are scheduled by referring to the Class Search on Student Services Online, or by contacting their Student Hub.

Where courses in the following Course Prescriptions are listed with an ‘A’ and a ‘B’ option, this means that, if they are offered, they will be taught over two semesters and students must enrol in both Part A and Part B in order to complete and, where successful, be credited with the course. Courses with no ‘A’ or ‘B’ designation are taught over one semester.

The Prescriptions are listed by faculty, in alpha-numeric order by subject title and should be read in conjunction with the relevant regulations.

Calculating a Grade Point Average

Grade Point Averages (GPA) are calculated using the following scale. Courses are weighted based on points value, and the exact formula may vary from programme-to-programme.

- 9 for A+
- 8 for A
- 7 for A-
- 6 for B+
- 5 for B
- 4 for B-
- 3 for C+
- 2 for C
- 1 for C-
- 0 for D+, D, D- or F

More details about GPAs are available online at https://uoa.custhelp.com/app/answers/detail/a_id/2454/.

The University of Auckland

Academic Integrity

ACADINT A01 0 Points
Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Foundation Courses

FOUNDST 10F 24 Points
English for Academic Purposes
Develops skills for understanding, writing, reading and speaking English. Attention is paid to accuracy, grammatical structures, spelling, punctuation and word use. Tasks include group discussions and formal presentations, note-taking, extended reading and formal comprehension exercises, paragraph and note-form summaries and preparation of research reports.

FOUNDST 11F 24 Points
Accounting
Provides introduction to accounting methods and concepts. Topics include cash and accrual accounting, budgeting, cash flow, depreciation, assessment of performance, accounting systems, job costing, cost-volume-profit analysis, financial statements for sole traders, partnerships and companies.

FOUNDST 12F 24 Points
Art
Provides a practical knowledge of visual arts and understanding of arts in context. Through a number of practical assignments and the production of a portfolio, students develop ideas, observe, analyse, interpret and evaluate images.

FOUNDST 13F 24 Points
Biology
Develops an understanding of biology and the skills to apply biological knowledge to solve problems, design and perform experiments, and to interpret and present evidence. Topics include structure and function of the cell, responses of plants and animals to biotic and abiotic factors, genetics and evolution (primates and hominids).

FOUNDST 14F 24 Points
Chemistry
Provides science students with the skills and confidence to test their ideas experimentally. Topics include atomic theory, chemical bonding and shapes of molecules, chemistry of transition elements, metal hydroxides, halogens and selected ions, analysis of laboratory solutions and commercial products, energy involved in physical and chemical changes. Aqueous Chemistry, oxidation-reductions and applications, spectroscopic identification of organic compounds.

FOUNDST 15F 24 Points
Classical Studies
Gives an introduction to the history, literature, art, architecture and politics of ancient Greece (600-400BC) and Rome (753 BC to 14 AD). Develops vital skills for university level study, including critical thinking, analysis and writing argumentative essays.

FOUNDST 16F 24 Points
Economics
Covers a wide range of economic issues, from basic economic concepts and principles, to policy options available to governments, and probable consequences of economic decisions. Topics include relative scarcity and production possibilities, demand, supply and the market, market structures, including monopoly, externalities, public goods and government intervention, equity and efficiency, financial markets, aggregate demand and supply and the macroeconomic economy.

FOUNDST 17F 24 Points
Geography
Covers the formation of natural features and develops skills involved in interpreting topographic data. Analysis of cultural processes (urban growth, migration, development and sustainability), the study of human actions that modify natural processes, and analysis of the outcomes.

FOUNDST 18F 24 Points
Information Technology
Provides a broad knowledge of computer technology, common application software, programming, word processing, spreadsheets and databases. Topics include computer hardware, computer software, operating systems, business applications, problem solving techniques used for programming.

FOUNDST 19F 24 Points
Mathematics with Calculus
Provides a solid foundation for university subjects requiring a prior knowledge of Mathematics with Calculus. Topics include calculus, algebra, trigonometry, geometry.

FOUNDST 20F 24 Points
Mathematics with Statistics
Provides students with a broad range of mathematical knowledge and skills and is a prerequisite for many university courses. Topics include algebra and graphing functions, exponentials and logarithms, correlation and progression, probability and set theory, random variables and their distributions, time series, linear programming, mathematical modelling, numerical equation solving, binomial, poisson and normal distributions.

FOUNDST 21F 24 Points
Physics
Develops students' theoretical knowledge, problem-solving skills and experimental techniques. Topics include light, waves, kinematics, mechanics, electricity and magnetism, atomic and nuclear physics.

Internship

Postgraduate 700 Level Courses

INTERNSP 700 15 Points
Internship 1
Enables the development of practical knowledge and hands-on experience through a supervised internship.

**University of Auckland Foundation Studies**

**Foundation Courses**

- **CTFOUND 10F English for Academic Purposes**
  - Develops language skills such as reading, writing, speaking, and listening. Builds academic vocabulary and correct use of grammar, making it easy to understand other subjects. Note-taking, critical thinking, research, and essay writing are covered. This course covers the language skills that will help students understand academic texts at university.
  - 40 Points

- **CTFOUND 11F Accounting**
  - Accounting is the practice of communicating financial information in order to make effective decisions. This course focuses on how to record business transactions for a company, prepare and analyse the financial statements for a company, Management decision making, breakeven analysis, cash budgeting and spreadsheets are also covered.
  - 20 Points

- **CTFOUND 12F Art History**
  - Discusses the analysis and interpretation of works of art within their cultural and historical context. Artists such as Donatello, Masaccio, Leonardo da Vinci, Michelangelo and Raphael (Renaissance) are studied. The modern period includes Cezanne, Picasso, Braque (Cubism) and Mondrian.
  - 20 Points

- **CTFOUND 13F Biology**
  - Biology is the study of living things, their environments and their evolution. Understanding how living cells coordinate biochemical reactions, giving rise to what is called ‘life’. By exploring biotechnology, students will discover how cellular and molecular biology are applied to practical human purposes. The wide diversity of living things on Earth: ecosystems, plants and animals, genetics and evolution over time will be studied. Provides opportunities for research, discussion, presenting and writing critically about current biology issues.
  - 20 Points

- **CTFOUND 14F Chemistry**
  - Chemistry is the branch of science concerned with the substances of which matter is composed, the investigation of their properties and reactions, and the use of such reactions to form new substances. Theory is complemented by experiments in which students develop practical skills, such as the use of common laboratory equipment, powers of observation and the ability to communicate results and conclusions.
  - 20 Points

- **CTFOUND 15F Design**
  - Strong focus on graphic and communication design. Considers graphic design theory and explores communication design solutions by producing a brand identity for an individually chosen project. Students will learn how to design a logo and poster, produce imagery, develop an understanding of building a design brand, interpret and read design works and learn how to use Photoshop.
  - 20 Points

- **CTFOUND 16F Economics**
  - Economics is the study of scarcity; of how society chooses to use scarce resources to satisfy its unlimited wants. Explores what motivates consumers and producers, how the market works and how markets react to change. Increases students’ understanding of what makes up an economy, how it works and why it is important for the individual and others. Uses economic theory to analyse real-life situations. Challenges students to think like an economist and practise decision making.
  - 20 Points

- **CTFOUND 17F Mathematics with Calculus**
  - Calculus is a branch of mathematics that provides an understanding of the changes between values that are related by a function. Students will learn how to manipulate mathematical equations, read trigonometric functions, differentiate to get functions that show rates of change, and integrate to obtain formulas that describe things that are not visible. Logical thinking and reasoning, algorithmic processes and problem solving will also be studied.
  - Restriction: CTFOUND 18F
  - 20 Points

- **CTFOUND 18F Mathematics with Modelling**
  - Modelling is a branch of mathematics where mathematical representations of the surrounding world are created in order to increase knowledge and predict the future. Students will learn how to manipulate mathematical equations, read trigonometric functions, create formulas for real-life situations and maximise profits and minimise costs. Logical thinking and reasoning, algorithmic processes and problem-solving will be covered.
  - Restriction: CTFOUND 18F
  - 20 Points

- **CTFOUND 19F Geography**
  - Geography is the study of the Earth as the home of humankind. Geographical skills such as mapping, graphing and interpretation of data will be covered. Topics include tourism development as a cultural process, tectonic processes and global development. A contemporary geographic issue will be studied.
  - 20 Points

- **CTFOUND 20F Photography**
  - Photography is the study of the camera, its capabilities and the ideas, theory and aesthetics around the photographic image as a piece of art. Students will be introduced to the history of photography, how the camera works, camera techniques and the language of composition. Students will study contemporary photographers.
  - 20 Points
CTFOUND 21F 20 Points

Physics
Physics provides explanations for why natural and man-made phenomena occur. Topics covered: translational motion, forces, momentum, rotational motion, simple harmonic motion, mechanical and electromagnetic waves, direct current electricity, capacitance, electromagnetism and alternating current theory. Different types of experimental techniques and the appropriate situations in which they should be used. Students will be shown how to develop a logical approach to problem-solving and experimental design.

CTFOUND 22F 20 Points

Statistics
Statistics is about collecting and analysing data from a small group to make intelligent and accurate conclusions about a larger group. The Problem, Plan, Data, Analysis, and Conclusion (PPDAC) cycle of inquiry will be used. Statistical knowledge aids in the proper methods to collect data, employ the correct analyses and effectively present the results. Key skills covered: gathering and displaying data, using statistical formulas and writing academic conclusions.

CTFOUND 23F 20 Points

Communication
Communications is about the distribution of ideas. Students will develop an awareness of the challenges they face as consumers and conveyors of big ideas in a variety of media. They will explore a range of oral and visual images and understand the cultural and social interface and develop the skills to investigate and infer purpose and meaning.

CTFOUND 39F 20 Points

English for Academic Purposes
Further develops language, academic and critical thinking skills required for university level study.

CTFOUND 40F 10 Points

English for Academic Purposes
Note-taking, critical thinking, research and essay writing are covered. This course covers the language skills that will help students understand academic texts at university.

CTFOUND 41F 20 Points

Accounting
Accounting is the practice of communicating financial information in order to make effective decisions. This course focuses on how to record business transactions for a company, and prepare and analyse the financial statements for a company. Management decision making, breakeven analysis, cash budgeting and spreadsheets are also covered.

CTFOUND 42F 20 Points

Art History
Discusses the analysis and interpretation of works of art within their cultural and historical context. Artists such as Donatello, Masaccio, Leonardo da Vinci, Michelangelo and Raphael (Renaissance) are studied. The modern period includes Cezanne, Picasso, Braque (Cubism) and Mondrian. A New Zealand artist, Colin McCahon, will also be studied. Encourages students to make connections to other artists. Develops skills in critical analysis, writing, presentation and independent research.

CTFOUND 43F 20 Points

Biology
Biology is the study of living things, their environments and their evolution. Understanding how living cells coordinate biochemical reactions, giving rise to what is called ‘life’. By exploring biotechnology, students will discover how cellular and molecular biology are applied to practical human purposes. The wide diversity of living things on Earth: ecosystems, plants and animals, genetics and evolution over time will be studied. Provides opportunities for research, discussion, presenting and writing critically about current biology issues.

CTFOUND 44F 20 Points

Chemistry
Chemistry is the branch of science concerned with the substances of which matter is composed, the investigation of their properties and reactions, and the use of such reactions to form new substances. Theory is complemented by experiments in which students develop practical skills, such as the use of common laboratory equipment, powers of observation and the ability to communicate results and conclusions.

CTFOUND 45F 20 Points

Design
Strong focus on graphic and communication design. Considers graphic design theory and explores communication design solutions by producing a brand identity for an individually chosen project. Students will learn how to design a logo and poster, produce imagery, develop an understanding of building a design brand, interpret and read design works and learn how to use Photoshop.

CTFOUND 46F 20 Points

Economics
Economics is the study of scarcity; of how society chooses to use scarce resources to satisfy its unlimited wants. Explores what motivates consumers and producers, how the market works, and how markets react to change. Increases students’ understanding of what makes up an economy, how it works and why it is important for the individual and others. Uses economic theory to analyse real-life situations. Challenges students to think like an economist and practice decision making.

CTFOUND 47F 20 Points

Mathematics with Calculus
Calculus is a branch of mathematics that provides an understanding of the changes between values that are related by a function. Students will learn how to manipulate mathematical equations, read trigonometric functions, differentiate to get functions that show rates of change, and integrate to obtain formulas that describe things that are not visible. Logical thinking and reasoning, algorithmic processes and problem-solving will also be studied.

CTFOUND 48F 20 Points

Mathematics with Modelling
Modelling is a branch of mathematics where mathematical representations of the surrounding world are created in order to increase knowledge and predict the future. Students will learn how to manipulate mathematical equations, read trigonometric functions, create formulas for real-life situations and maximise profits and minimise costs. Logical thinking and reasoning, algorithmic processes and problem-solving will be covered.

Restriction: CTF 20F

CTFOUND 49F 20 Points

Geography
Geography is the study of the Earth as the home of
humankind. Geographical skills such as mapping, graphing and interpretation of data will be covered. Topics include tourism development as a cultural process, tectonic processes and global development. A contemporary geographic issue will be studied.

CTFOUND 50F 20 Points
Photography
Photography is the study of the camera, its capabilities and the ideas, theory and aesthetics around the photographic image as a piece of art. Students will be introduced to the history of photography, how the camera works, camera techniques, and the language of composition. Students will study contemporary photographers.

CTFOUND 51F 20 Points
Physics
Physics provides explanations for why natural and man-made phenomena occur. Topics covered: translational motion, forces, momentum, rotational motion, simple harmonic motion, mechanical and electromagnetic waves, direct current electricity, capacitance, electromagnetism and alternating current theory. Different types of experimental techniques and the appropriate situations in which they should be used. Students will be shown how to develop a logical approach to problem-solving and experimental design.

CTFOUND 52F 20 Points
Statistics
Statistics is about collecting and analysing data from a small group to make intelligent and accurate conclusions about a larger group. The Problem, Plan, Data, Analysis, and Conclusion (PPDAC) cycle of inquiry will be used. Statistical knowledge aids in the proper methods to collect data, employ the correct analyses and effectively present the results. Key skills covered: gathering and displaying data, using statistical formulas and writing academic conclusions.

Faculty of Arts

Academic Integrity

ACADINT A01 0 Points
Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Academic English Studies

Stage I

ACADENG 100 15 Points
Forms in Academic English
Focuses on developing an understanding of academic reading and writing, including sentence and paragraph structure and academic vocabulary, and aims to develop strategies for employing these for effective reading and writing of academic texts. Develops an understanding of broad principles and practices of academic discourse at university level.
Restriction: May not be taken if ENGWRIT 101 or ESOL 201 or ACADENG 201 or ESOL 210 or ACADENG 210 has previously been passed. This course is available only to students who speak English as an additional language

ACADENG 101 15 Points
Academic English Writing
Teaches students the skills necessary to write essays of exposition and argument for university purposes. It includes brainstorming, writing an outline, structuring an essay, integrating quotations, summaries and referencing.
Restriction: May not be taken if ACADENG 93F, 201, 210, TFCACENG 93F has previously been passed. This course is available only to students who speak English as an additional language

ACADENG 104 15 Points
Academic English for Business
Focuses on core English academic reading and writing skills, and strategies for learning disciplinary vocabulary. Targets the academic literacy needs of students in accessing the undergraduate business curriculum and develops awareness of appropriate text structures and academic style to understand and express business-related concepts in an academic context.
Restriction: May not be taken if ENGWRIT 101 or ESOL 201 or ACADENG 201 or ESOL 210 or ACADENG 210 has previously been passed

Stage II

ACADENG 210 15 Points
Writing Research Reports
Aims to develop skills needed for writing research and laboratory reports. It covers key stages in writing a standard report and the language patterns associated with each of these stages. Course components include writing the literature review, methodology, results and discussion sections of a report, dissertation or thesis.
Prerequisite: ACADENG 101 or approval of Academic Head or nominee
Restriction: ESOL 210. This course is available only to students who speak English as an additional language

ACADENG 212 15 Points
Special Topic
Restriction: ESOL 212. This course is available only to students who speak English as an additional language

Anthropology

Stage I

ANTHR 106 15 Points
Global Sound Cultures: Musics, Places and People
Examines a wide range of sound and music cultures, from popular transnational mediations to locally produced, community-based traditions. Considers the ways that music takes on meaning, represents identities and places, and interacts with the world. Traces the historical/economic processes by which music cultures emerge and are sustained (or not). Explores the emotional and economic roles that music plays in lives of musicians, composers and listeners. Using theories from ethnomusicology, anthropology, musicology and cultural studies we show how music is affected by and reflects social change, colonisation and indigeneity, technology and local/global economic processes.

ANTHR 106G 15 Points

ANTHR 107 15 Points
The Human-made Planet?
How have humans have come to dominate the planet? Explores hominin history, relationships with other organisms, urbanisation and globalisation, and the rise of the capitalocene. Where to from here? As humankind imagines and embraces sustainable, resilient futures, anthropology offers critical perspectives on diverse ways of being, non-western worldviews, complex bio-social interactions, and pathways to deeper socio-natural connectivities.

ANTHR 108 15 Points
Being Human
Archaeologists and biological anthropologists examine what it is to be human by studying primates, fossils, archaeological remains and both historical and contemporary societies. Humans are immersed in social and ecological worlds that mutually shape our bodies, actions, and understandings (including mātauranga Māori). Explores the past and present reality of being human, and the evolutionary journey to become human.
Restriction: ANTHRO 102

ANTHR 110 15 Points
Culture and Creativity
Explores the connections between culture, creativity, and society through anthropological concepts, Mātauranga Māori, and relevant examples. It covers issues and problems faced by communities locally and globally, using a range of mediums such as whakapapa, material culture, performing arts, media and grassroots movements to illustrate how anthropology can help understand the complexities of creativity and the creation of knowledge.
Stage II

ANTHRO 200 15 Points
Archaeology: Understanding the Past
An examination of current concepts in archaeological research and their place in the development of archaeological thought. How archaeology makes use of its methods and theories to understand the past. An introductory laboratory component. This course is essential for students who may wish to continue their study of Archaeology at Stage III.
Prerequisite: 30 points in Anthropology or 60 points passed

ANTHRO 201 15 Points
Human Evolution
Explores issues fundamental to understanding humans' place in nature from a biocultural perspective. What led to the evolution of bipedalism, large brains, and language? How do we define species in the fossil record? How can we reconstruct ancient diets and ecologies? The course will examine how new discoveries and advancements in biology are reshaping understandings of our evolutionary history.
Prerequisite: 30 points in Anthropology or 60 points passed

ANTHRO 202 15 Points
Music and Identity in World Music Cultures
Examines music's role in the construction and reinforcement of identity. Considers a range of culturally constructed concepts including class, gender and ethnicity; also considers the impact of mass mediated sound and unique nature of music in the cultural diaspora. Examples and case studies range from the ritual musics of Africa and the classical music of South Asia to East Asian pop.

ANTHRO 205 15 Points
Primate Behaviour, Ecology and Conservation
Examines the diversity of extant nonhuman primate species, including their behaviour, ecology, and conservation, and also the importance of primatology toward an understanding of our own species. Specifically, students will critically examine the results of primatological inquiries in order to gain insight into the comparative evolutionary approach, especially with respect to the applicability of such efforts to the study of humans.
Prerequisite: 15 points in Anthropology or 60 points passed

ANTHRO 206 15 Points
Origins of Civilisation
The shift from a hunter-gatherer way of life to one based on village life and agriculture is foundational for the development of complex society. The course considers what socio-cultural changes were involved as Holocene societies developed in different parts of the world and how the relationship between humans and the environment changed.
Prerequisite: 15 points in Anthropology or 60 points passed

ANTHRO 207 15 Points
Archaeological History of Aotearoa New Zealand
Examines the first 600-700 years of human settlement in Aotearoa New Zealand from an archaeological perspective, from Polynesian arrival through the early historic period. Themes include Māori origins in East Polynesia, adaptations to Aotearoa's temperate environment, changing patterns of resource use, Māori material culture and arts, the development of fortified sites or pā, and the emergence of classic Māori society.
Prerequisite: 60 points passed

ANTHRO 208 15 Points
Biosocial Medical Anthropology
Medical Anthropology draws on biological and social/cultural anthropology to address issues of human health and disease. A distinct subfield, it includes studies of the co-evolution of humans and diseases, human ecology, cultural constructions of health and illness, medical knowledge and healing practices, and the political economy of health. Students are asked to research, think and write analytically about these topics.
Prerequisite: 60 points passed at Stage I
Restriction: ANTHRO 324, 372

ANTHRO 212 15 Points
Ethnographic Film and Photography
Explores uses of photography and film in the production and dissemination of anthropological knowledge. Emphasises the choices in subject matter, imagined audience, composition, construction of narrative (or not), and mode of representation that are made at all stages in the production of ethnographic images. Uses ethnographic images to reflect on construction of ethnographic texts.
Prerequisite: ANTHRO 100 or ARTHIST 115 or 30 points in Anthropology, Sociology, Media Film and Television, or Communication
Restriction: ANTHRO 320, 373

ANTHRO 213 15 Points
Questioning Race and Racism
Multiple anthropological frameworks explore the scholarly and popular understandings of race and racism, and question contemporary perspectives. Why do these concepts have such social and political potency? What are the impacts of concepts of race and practices of racism and anti-racism on individuals, families, communities, nation-states and empires, in Aotearoa New Zealand, the Pacific, and elsewhere?
Prerequisite: 15 points at Stage I in Anthropology and 15 points in BA courses
Restriction: ANTHRO 105

ANTHRO 217 15 Points
Rhythm, Blues and Rock
African-American popular music and culture from the mid-1930s through the early 1960s, including styles such as blues, R 'n' B, and early Rock 'n' Roll. Considers issues of racial and gendered representation, creativity, the popular music industry, the place of music in the development of 'youth culture' and stylistic trends. Individual performers, recordings and performances, are also examined.
Restriction: POPMUS 206

ANTHRO 220 15 Points
Kaumātua: Ageing in Aotearoa
Examines contemporary and historical understandings of kaumātua and kaumātua roles in Māori society. Topics include: leadership within Māori society; tuakana-teina, gendered roles and complementarity; whanaungatanga and important relationships; health inequities and policies; emerging health partnership models; and the diversity of kaumātua groups.
Prerequisite: 30 points from Anthropology, Māori Studies or Sociology
Restriction: ANTHRO 376

ANTHRO 226 15 Points
Imperialism and Immigration in the Americas
Examines the relationship between migration and imperialism in the Americas through the framework of critical anthropology as a discipline and through the use
of contemporary case studies. This course critically engages with the role of the United States as an imperial power in and draws significantly from decolonial, post-colonial work and work produced by scholars in Latin America.

Prerequisite: 15 points at Stage I in Anthropology

Restriction: ANTHRO 251

ANTHRO 227
Future Generations Anthropology

This course acknowledges the colonial history of anthropology and imagines an anthropology that is relevant now and for the future, with Aotearoa-New Zealand not as just a site of study but an active producer of anthropological knowledge. Explores anthropological concepts via contemporary settings and Mātauranga Māori to demonstrate the usefulness of anthropology in addressing fundamental local and global issues.

Restriction: ANTHRO 109

ANTHRO 234
Popular Musics of the Pacific

From hip hop to reggae to pop, this course explores Pacific popular music genre, artists and songs as well as relevant musical techniques, modes of distribution and processes of fusion and change. It probe the positions and possibilities of Pasifika pop musics by discussing critical questions about culture, authenticity, modernisation, consumerism, identity and musical (ex)change.

ANTHRO 235
The Anthropology of Human Remains

Human remains reflect the lives of the dead as well as the lives of those who buried them. The course introduces students to the various ways in which we can study the dead. It covers three areas: the interpretation of mortuary practices, the interpretation of past lives from skeletal remains, and the practice of burial archaeology in the southern hemisphere.

Prerequisite: 15 points in Anthropology or 60 points passed

Restriction: ANTHRO 367

ANTHRO 236
Special Topic

ANTHRO 237
Economy and Culture

Explores economic systems cross-culturally, including modes of production, forms of exchange, and ideas about property and consumption. Questions and critiques Euro-American assumptions about human nature, social persons, and the ubiquity and morality of markets and market exchange.

Prerequisite: 15 points at Stage I in Anthropology or Employment Relations and Organisational Studies

Restriction: ANTHRO 374

ANTHRO 241
Anthropology of the Body

Examines cultural and historical variations in how societies understand and experience the human body. The focus will be primarily on social, historical, and political-economic approaches. Topics such as labour, sport, health, illness, sexuality, gender, and religious ritual will be considered. Explores the cultural construction and social experience of the human body in a diverse range of settings.

Prerequisite: ANTHRO 100 or 30 points in Anthropology

Restriction: ANTHRO 354

ANTHRO 248
Special Topic

Prerequisite: ANTHRO 100 or 101 or 102 or 103 or 104 or 60 points passed

ANTHRO 250
World-view and Religion

Anthropological approaches to religion and world-view. Includes cross-cultural approaches to meaning, belief, religious experience, ritual and myth. Issues of religion, ideology, syncretism, symbolism in social conflict and change. Considers local and world religions.

Prerequisite: ANTHRO 100 or 30 points in Anthropology or Theological and Religious Studies or Sociology

Restriction: ANTHRO 319

ANTHRO 252
Global Heritage Management

Globally, archaeological features and historic monuments are increasingly threatened by urban development, looting, antiquities trafficking, and effects of climate change. Using an archaeological perspective, state-of-the-art recording technologies, community partnerships, legislation, management systems, and the role of museums in conservation and exhibition will be examined. Case studies from Aotearoa, Pacific and elsewhere illustrate major issues, contradictions, and controversies, alongside effective heritage management.

Prerequisite: ANTHRO 100 or 101 or 102 or 103 or 104 or 60 points passed

Stage III

ANTHRO 301
Contemporary Research in Music and Culture

A seminar-style course covering a range of current topics and methods in ethnomusicology. Examines selected theories, methods, and perspectives on the roles and meanings of musical activity in contemporary human culture. We will view music as a symbolic component of cultural expression and as both focus and paradigm for cultural structures and behaviours.

Prerequisite: ANTHRO 202 or 30 points at Stage II in Transnational Cultures and Creative Practice

Restriction: ANTHRO 219

ANTHRO 306
Pacific Archaeology

The archaeology of the Pacific region, including colonisation, settlement patterns, interisland trade, traditional navigation, cultural change, emergence of complex societies and ethnohistory.

Prerequisite: 60 points at Stage II

Restriction: ANTHRO 706

ANTHRO 317
Field Methods in Archaeology

Participation in a field school involving an intensive introduction to all aspects of excavation and subsequent laboratory analysis and report preparation.

Prerequisite: ANTHRO 200 passed with a grade of B- or higher

Restriction: ANTHRO 737

ANTHRO 319
World-view and Religion

Anthropological approaches to religion and world-view. Includes cross-cultural approaches to meaning, belief, religious experience, ritual and myth. Issues of religion,
ideology, syncretism, symbolism in social conflict and change. Considers local and world religions.

\textit{Prerequisite: ANTHRO 203 or 30 points at Stage II}

\textit{Restriction: ANTHRO 250}

\textbf{ANTHRO 321} 15 Points

**Equality and Inequality**

Examines conceptualisations, realities and consequences of equality and inequality cross-culturally. Considers whether there are egalitarian societies and whether inequality is inevitable. Covers types and systems of inequality such as slavery, gender inequality, caste and class, as well as differences between economic and political inequality, and between equality of opportunity and equality of results.

\textit{Prerequisite: 30 points at Stage II}

\textbf{ANTHRO 329} 15 Points

**Music of East Asia: Tradition, Modernity and Globalisation**

Explores East Asia from the ethnomusicological perspective and illuminates how music negotiates boundaries and constructs varying identities in China, Japan, and Korea, while affirming a distinct cultural identity generally referred to as "East Asian". Using different musical practices of East Asia as case studies, it examines multiple approaches and methodologies used in studying East Asian music.

\textit{Prerequisite: 30 points at Stage II}

\textbf{ANTHRO 337} 15 Points

**Birth, Death, and Disease: Anthropological Demography**

Examines how human populations change over time, what factors underlie patterns of disease and death, and why demography is so important to the study of epidemics. The course will explore the use of demographic methods and theories of demographic and epidemiological transition to examine fertility, morbidity, mortality, and migration from an anthropological perspective, with a particular focus on infectious disease dynamics.

\textit{Prerequisite: ANTHRO 201 or 30 points in Anthropology at Stage II or above}

\textbf{ANTHRO 340} 15 Points

**Heritage Conservation in Aotearoa**

Addresses the main principles of heritage conservation focusing on the rationale rather than treatment methods. Special emphasis is given to the fields of: conservation of place, archaeological, architectural, ethnographic and fine art conservation. Provides students with a cultural orientation to conservation where issues are examined through several contexts, including anthropological studies and conservation science.

\textit{Prerequisite: 30 points at Stage II in Anthropology}

\textbf{ANTHRO 345} 15 Points

**Directed Study in Anthropology**

A directed reading and individual study course, offered in exceptional circumstances, to prepare students in the methodologies of a selected sub-discipline of Anthropology, with the agreement and under the supervision of appropriate staff.

\textit{Prerequisite: 30 points at Stage II in Anthropology and permission of Major/Specialisation Leader}

\textbf{ANTHRO 348} 15 Points

**Perspectives on Human Growth**

Adopts evolutionary and biocultural perspectives in examining patterns of human growth and maturation. Human developmental patterns are placed within an evolutionary framework using evidence from non-human primates and earlier hominid remains. Variability within and among human populations in growth and developmental timing is considered in terms of genetics interacting with physical, biotic and social factors.

\textit{Prerequisite: ANTHRO 201 or 60 points in Anthropology}

\textbf{ANTHRO 349} 15 Points

**Primate Behaviour, Ecology and Conservation**

Examines the diversity of extant nonhuman primate species, including their behaviour, ecology, and conservation, and also the importance of primatology toward an understanding of our own species. Specifically, students will critically examine the results of primatological inquiries in order to gain insight into the comparative evolutionary approach, especially with respect to the applicability of such efforts to the study of humans.

\textit{Prerequisite: ANTHRO 201 or 60 points in Anthropology}

\textit{Restriction: ANTHRO 205}

\textbf{ANTHRO 351} 15 Points

**Special Topic**

\textit{Prerequisite: ANTHRO 203 or 30 points at Stage II in Anthropology}

\textbf{ANTHRO 352} 15 Points

**Special Topic: Applied Anthropology**

Examines how anthropology has been used in interventions that affect people's lives, and how anthropology has contributed to public policy and public discourse. Considers ethical, methodological and theoretical complexities of anthropology's engagement in development and advocacy. Finally, the course will consider how anthropologists fit into the bigger picture of transnational governmentality, policy and economy.

\textit{Prerequisite: 60 points in Anthropology}

\textbf{ANTHRO 353} 15 Points

**Archaeology in Practice**

Introduces standard laboratory methods for analysing artefacts and generating material culture data to answer questions about the past. Quantitative observations, classification, and hypothesis testing will be emphasised. Course content will be relevant to a range of archaeological research, including research in heritage management contexts. Analysis of Australasian and Pacific Island materials will form the basis of laboratory work when possible.

\textit{Prerequisite: B- or higher in ANTHRO 200 or 201}

\textbf{ANTHRO 354} 15 Points

**Anthropology of the Body**

Examines cultural and historical variations in how societies understand and experience the human body. The focus will be primarily on social, historical, and political-economic approaches. Topics such as labour, sport, health, illness, sexuality, gender and religious ritual will be considered. Explores the cultural construction and social experience of the human body in a diverse range of settings.

\textit{Prerequisite: ANTHRO 203 or 30 points at Stage II in Anthropology}

\textit{Restriction: ANTHRO 241}

\textbf{ANTHRO 357} 15 Points

**Gender, Sexuality and Popular Music**

Explores the ways in which gender and sexual identities are both reflected in and modified by mainstream popular music; from 'girl power' to boy bands; from outwardly gay and lesbian artists to the gay appropriation of heterosexual female divas; from the camp masculinity of heavy metal to
lesbian rock and riot grrrls; from women-hating gangster rappers to powerful women in the recording industry.  
Prerequisite: 30 points at Stage II  
Restriction: POPMUS 306

ANTHRO 360  
Special Topic  
Prerequisite: ANTHRO 200 or 201 or 203 or 219 or 120 points passed

ANTHRO 366  
Medicine, Power and Politics  
Anthropological examination of the interplay between cultural values, local and national politics, and international health programs and initiatives. Examines how experiences of medical care and ideas of illness and health vary across different cultural groups and socio-cultural settings.  
Prerequisite: ANTHRO 203 or 30 points at Stage II

ANTHRO 367  
The Anthropology of Human Remains  
Human remains reflect the lives of the dead as well as the lives of those who buried them. The course introduces students to the various ways in which we can study the dead. It covers three areas: the interpretation of mortuary practices, the interpretation of past lives from skeletal remains, and the practice of burial archaeology in the southern hemisphere.  
Prerequisite: ANTHRO 200 or 201 with a minimum B grade  
Restriction: ANTHRO 235

ANTHRO 370  
Special Topic  
Prerequisite: ANTHRO 200 or 120 points passed

ANTHRO 372  
Biosocial Medical Anthropology  
Medical Anthropology draws on biological and social/cultural anthropology to address issues of human health and disease. A distinct subfield, it includes studies of the co-evolution of humans and diseases, human ecology, cultural constructions of health and illness, medical knowledge and healing practices, and the political economy of health. Students are asked to research, think and write analytically about these topics.  
Prerequisite: ANTHRO 201 or 30 points at Stage II in Anthropology  
Restriction: ANTHRO 208, 394

ANTHRO 373  
Anthropological Images  
Explores the use of visual images in the production and dissemination of anthropological knowledge. Examines the choices made in the production of photographs and films, and the politics of representation. The examination of choices made in producing images will be used to consider choices made in the production of anthropological texts.  
Prerequisite: ANTHRO 212 or 330

ANTHRO 374  
Economy and Culture  
Explores economic systems cross-culturally, including modes of production, forms of exchange, and ideas about property and consumption. Questions and critiques Euro-American assumptions about human nature, social persons, and the ubiquity and morality of markets and market exchange.  
Prerequisite: 15 points at Stage I in Anthropology or Stage II in Employment Relations and Organisational Studies  
Restriction: ANTHRO 237

ANTHRO 376  
Kaumātūatanga: Ageing in Aotearoa  
Examines contemporary and historical understandings of kaumātūatanga and kaumātua roles in Māori society. Topics include: leadership within Māori society; tuakana-teina, gendered roles and complementarity; whanaungatanga and important relationships; health inequities and policies; emerging health partnership models; and the diversity of kaumātua groups.  
Prerequisite: 45 points from Anthropology, Māori Studies or Sociology including 30 points at Stage II  
Restriction: ANTHRO 220

ANTHRO 377  
Whiteness in the Settler State  
Examines the concept and construct of “whiteness” within the construct of the “settler state” through the lens of critical anthropology. Explores the development of white supremacy as an ideology and expression of social and political power and provides students with the conceptual and intellectual frameworks to consider the invisibility of whiteness as a social habit.  
Prerequisite: 15 points at Stage I in Anthropology

ANTHRO 399  
Capstone: Anthropological Science  
Provides students with an opportunity to demonstrate their integrated knowledge and growth in the major. Students are encouraged to make connections between their academic learning in anthropological science and the professional world. Specific topics will vary by year, but will feature projects designed to incorporate both independent and collaborative work, as well as the potential for public engagement.  
Prerequisite: 30 points passed at Stage III in Anthropological Science or Academic Head approval

Postgraduate 700 Level Courses

ANTHRO 708A  
15 Points

ANTHRO 708B  
15 Points

Cultural Resource Management in Archaeology  
Covers all aspects of cultural resource management as it relates to archaeological sites and heritage with a particular focus on New Zealand archaeology and Māori heritage. There is an emphasis on site identification, recording and interpretation in the field. Legal aspects and the roles of archaeologists and iwi in cultural resource management are also covered.  
To complete this course students must enrol in ANTHRO 708 A and B

ANTHRO 709  
Applying Anthropology  
Considers the diverse fields in which Anthropology may be applied to peoples and cultures in the contemporary world, including, for example: environmental and development issues; land and resource conflicts; mediation and advocacy; human rights; cultural heritage; social policy; business and industry; communications; marketing; medical investigations; museums and other representational activities. Addresses practical and ethical issues that arise in these areas.

ANTHRO 713  
30 Points

Special Topic in Biological Anthropology
ANTHRO 718A 15 Points
ANTHRO 718B 15 Points

Interpreting Biocultural Data
A survey of the design, implementation, analysis, interpretation, and dissemination of research in biocultural anthropology. It provides a holistic overview of both qualitative and quantitative approaches to biocultural anthropological scholarship.

To complete this course students must enrol in ANTHRO 718 A and B

ANTHRO 719 30 Points
ANTHRO 719A 15 Points
ANTHRO 719B 15 Points

Ethnographic Practice and Design
Based on seminars, workshops and field research, the course prepares students to understand the foundations of anthropological ethnography and the ethical issues it entails, and to become proficient ethnographers in the field, in archives and at the desk. The course provides instruction and practice in research design and proposal writing in socio-cultural anthropology.

Restriction: ANTHRO 753
To complete this course students must enrol in ANTHRO 719 A and B, or ANTHRO 719

ANTHRO 724 30 Points

Special Topic in Social Anthropology

ANTHRO 727 30 Points
ANTHRO 727A 15 Points
ANTHRO 727B 15 Points

Ethnographies of Music-making
Advanced theories and methodologies for the ethnomusicalological analysis of live musical performances and other behaviours across all genres and cultures. Primary attention is given to ethnography and participant-observation supported by analysis of industrial, cultural, musical, and mediated phenomena.

To complete this course students must enrol in ANTHRO 727 A and B, or ANTHRO 727

ANTHRO 728 30 Points

Topic in Ethnomusicology

ANTHRO 729 15 Points
ANTHRO 729A 7.5 Points
ANTHRO 729B 7.5 Points

Special Studies in Anthropology
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of Anthropology, under supervision of appropriate staff.

To complete this course students must enrol in ANTHRO 729 A and B, or ANTHRO 729

ANTHRO 732 15 Points

Reading Medical Ethnography
Examines the social anthropological practice of ethnography of health and illness in community and clinical settings, including 'non-Western' and 'Western' cultural contexts, through critical readings of recent ethnographies in medical anthropology. Considers ethnographic and anthropological theory, ethics, methodology and application.

ANTHRO 733 30 Points
ANTHRO 733A 15 Points
ANTHRO 733B 15 Points

Research in Popular Music Culture
Advanced ethnomusicalological theories and methodologies for the analysis of data that are obtained from mediated performance, archival sources, material culture and recorded music and image.

To complete this course students must enrol in ANTHRO 733 A and B, or ANTHRO 733

ANTHRO 735 30 Points

Special Topic in Anthropology

ANTHRO 736 30 Points
ANTHRO 736A 15 Points
ANTHRO 736B 15 Points

Special Studies in Anthropology
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of Anthropology under supervision of appropriate staff.

To complete this course students must enrol in ANTHRO 736 A and B, or ANTHRO 736

ANTHRO 739 15 Points
ANTHRO 739A 7.5 Points
ANTHRO 739B 7.5 Points

Special Studies in Anthropology
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of Anthropology under supervision of appropriate staff.

To complete this course students must enrol in ANTHRO 739 A and B, or ANTHRO 739

ANTHRO 742 15 Points

Contact and Colonialism
A seminar focused on critical understanding of the political, social and economic expansion of European countries around the world and its cultural consequences. Themes may include: cultural encounter, causes and effects of colonisation, interpretations of the other by colonisers and colonised, Creole cultures, slavery, race, resistance and accommodation, gender, demography, environmental impacts.

Restriction: ANTHRO 720

ANTHRO 746 15 Points

The Archaeology of the Anthropocene
Calls for the Anthropocene, a new geological epoch, recognise long-term, consequential effects of human societies, regardless of size, economics or socio-political complexity, on environments, organisms and ecosystems. When did the Anthropocene begin? How do we track socio-natural interactions over deep time? What might the past offer the future? This course explores how archaeology contributes to these and related questions.

ANTHRO 747 15 Points

Special Topic: Doing Biocultural Research

ANTHRO 748 15 Points

Human Osteology
Advanced method and theory in human osteology. Coursework is a combination of seminars and practical workshops covering the areas of biocultural frameworks, ethics, taphonomy, human identification, dental anthropology, palaeopathology and biomolecular approaches. Work is focused upon method and theory as applied in the southern hemisphere.

Restriction: ANTHRO 730

ANTHRO 749 15 Points

Advanced Primatology
A practical and theoretical exploration of the methodological principles and research methods in
ANTHRO 753 15 Points
Ethnographic Research
Students learn observational, ethnographic and quantitative social anthropological research methods by designing and carrying out a small class research project. Ethical and methodological issues are introduced.
Restriction: ANTHRO 711, 734

ANTHRO 756 15 Points
Anthropology and Intellectual Property
Examines recent anthropological contributions to debates about intellectual property. These include concepts of ownership, the objectification and appropriation of indigenous knowledge, creativity, bioprospecting, the protection of intangible cultural property, and the effects of global flows of information on persons, privacy and the ownership of ideas.

ANTHRO 758 30 Points
Special Topic in Archaeology

ANTHRO 759 15 Points
Special Topic

ANTHRO 760 15 Points
Anthropological Theory and the Contemporary World
An analysis of foundational and current theoretical works in social anthropology and their relevance to understanding contemporary societies and cultures. The course examines anthropological approaches to long-standing disciplinary debates and contemporary issues of wider public debate.
Restriction: ANTHRO 714

ANTHRO 762 15 Points
Theorising Human Evolution
Investigates contemporary evolutionary theory as it applies to humans and other primates. How has the extended evolutionary synthesis changed understandings of human and primate evolution? Topics include: plasticity, adaptation, modes of selection and niche construction.
Restriction: ANTHRO 710, 726, 751, 752

ANTHRO 763 15 Points
Emerging Bio-Archaeology
Explores new and innovative approaches to the study of the behaviour and biology of humans and other primates. What emerging developments help us to understand the complexity of human and alloprimate niches? Topics include: biocultural dynamics, multi-species entanglements and health in past and contemporary societies.
Restriction: ANTHRO 710, 726, 751, 752

ANTHRO 766 15 Points
Landscape Archaeology
Uses geographic information systems (GIS) and other computer programmes to examine the spatial organisation of data, and the relationship of archaeological sites, features and artifacts to other archaeological remains, and the environment. The social processes underlying these spatial configurations will be a particular focus.
Restriction: ANTHRO 703

ANTHRO 777 15 Points
Theory in Archaeology
A critical analysis of the history of archaeological method and theory focusing on issues in the philosophy of science, systematics, and major schools of thought from Antiquarianism to post-modernism.
Restriction: ANTHRO 700

ANTHRO 780 30 Points
ANTHRO 780A 15 Points
ANTHRO 780B 15 Points
Research Project - Level 9
Restriction: ANTHRO 782
To complete this course students must enrol in ANTHRO 780 A and B, or ANTHRO 780

ANTHRO 782 30 Points
Research Essay - Level 9
Restriction: ANTHRO 754, 780

ANTHRO 790 60 Points
ANTHRO 790A 30 Points
ANTHRO 790B 30 Points
Dissertation in Anthropology
A topic in one of the sub-disciplines of Anthropology to be selected in consultation with a supervisor.
To complete this course students must enrol in ANTHRO 790 A and B, or ANTHRO 790

ANTHRO 792 45 Points
ANTHRO 792A 22.5 Points
ANTHRO 792B 22.5 Points
Dissertation in Anthropology - Level 9
A topic in one of the sub-disciplines of Anthropology to be selected in consultation with staff.
To complete this course students must enrol in ANTHRO 792 A and B, or ANTHRO 792

ANTHRO 796A 60 Points
ANTHRO 796B 60 Points
Thesis - Level 9
Prerequisite: A BA(Hons) in Anthropology with an average of at least B+ for courses taken in the BA(Hons) degree or equivalent
To complete this course students must enrol in ANTHRO 796 A and B

ANTHRO 797A 60 Points
ANTHRO 797B 60 Points
Research Portfolio - Level 9
Prerequisite: A BA(Hons) in Anthropology with an average of at least B for courses taken in the BA(Hons) degree or equivalent
To complete this course students must enrol in ANTHRO 797 A and B

Art History

Stage I

ARTHIST 114 15 Points
ARTHIST 114G 15 Points
Understanding Art: Leonardo to Warhol
Visual intelligence is crucial in navigating the world of images that convey coded messages, and the history of ideas fundamental to all disciplines. How do we read such images? This course decodes paintings, sculptures, prints, architecture, photography and digital images, providing tools to analyse artists from Leonardo to Warhol: experts at moving the eye around the artwork for meanings to emerge.
Restriction: ARTHIST 109
Global Art Histories
A broad survey of visual art spanning from the early modern period to the contemporary. Students will be introduced to a range of art practices situated within a global context and will consider art works produced in Māori and Pacific cultures alongside Indian, Asian, Middle Eastern, European and American traditions.

Stage II

ARTHIST 200
Radical Change: 1850-1940
Focuses on a crucial period of change and innovation in European art practices. Addresses ideas about art and the visual, the consequences and complexities of which are still being played out in the art and socio-cultural worlds of today.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 222, 300, 322

ARTHIST 201
Art and Revolution 1750-1850
Topics in late eighteenth and early nineteenth-century painting, sculpture and architecture in Europe, particularly France and Britain. The impact of social and industrial revolution is examined, and developments in portraiture, landscape and history painting are explored. The major artists include Constable, Turner, Goya, Reynolds, Gainsborough, David, Ingres, Gericault and Delacroix.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 231

ARTHIST 204
Ways of Seeing Contemporary Art
Examines some central concerns that have arisen in late modernist art, exploring the moves, intensifications and political implications of art in the post-1968 period: dematerialisation of the art object, site-specificity, the artist in a commodity culture, activism, questions of identity, notions of looking and spectatorship, interactivity, new media, contemporary censorship and debates about the place of the aesthetic.
Prerequisite: 15 points at Stage I in Art History or Media and Screen Studies, and 30 points passed
Restriction: ARTHIST 334

ARTHIST 210
Modernism and Design
A study of the central role played by architecture and design within twentieth-century Modernism. Dealing with function, materials, decoration and Modernist theory, the course spans the period from Art Nouveau in the 1890s to World War II. The main focus will be on Europe and the United States, with some references to New Zealand.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 310

ARTHIST 217
Contemporary Pacific Art
Focuses on work by contemporary Pacific artists, exploring the ways that they translate indigenous knowledge and urban experiences into gallery forms such as painting, installation, performance, film and video making. Themes such as migration and diaspora, language and memory, notions of homelands and return, and the creation of complex cultural identities will be explored.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 317

ARTHIST 224
Power and Piety: the Baroque
The use of art to display, enhance, and justify political power and piety and to promote political and religious ideologies in the major power centres of seventeenth-century Europe in the Baroque period. Refers to the work of artists such as Caravaggio, Bernini, Velasquez, Rubens, Rembrandt, Van Dyck, Le Brun, Jones and Wren.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 206, 324

ARTHIST 225
Imaging the Renaissance
An examination of the society and culture of Europe between 1400 and 1700 as expressed in print and visual images. Topics include court and merchant culture, popular cultures, religious faith and the Reformation, festivals, literacy and the book, family and marriage, food, sexualities, witchcraft, death and disease.
Prerequisite: 15 points at Stage I in Art History or History or EUROPEAN 100 or HUMS 101, and 30 points passed
Restriction: ARTHIST 325

ARTHIST 230
Art Crime
Explores the growing trend of art crime through a focus on five primary areas: theft, fraud, smuggling, forgery, and vandalism. These will be examined within the context of international and New Zealand case studies, including the theft of the Mona Lisa in 1911, Nazi looting in World War II, and thefts during the Iraq War in 2003. Ways to curb such crime, particularly the development of art crime squads, will also be discussed.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 332

ARTHIST 231
Framing the Viewer: 20th Century Art
The rise of Modernism saw the development of art which is reflexive, which draws attention to itself and the illusion of representation, making us reflect about what art is and how it affects the viewer. This course is designed to enable students to develop their own reflexivity and critical awareness through a study of the ‘classic’ movements of the twentieth century, such as Cubism, Expressionism, Dada, Surrealism, Abstract Expressionism, Op, Pop and Conceptual Art.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 331

ARTHIST 233
The Art of Gender Politics
Explores the intersection of gender and ethnicity with the visual arts. Emphasis will be on art forms and traditions in Aotearoa/New Zealand, the United States, Canada and Australia, with some reference to the Pacific, including photography, film, jewellery, tattoo and textiles.
Prerequisite: 15 points at Stage I in Art History and 30 points passed, or 30 points in Transnational Cultures and Creative Practice
Restriction: ARTHIST 319, 333

**Course Prescriptions**

**Contemporary Art in Aotearoa NZ**
Focuses on contemporary art in Aotearoa New Zealand from the 1970s to the present, beginning with the later modernist period, exploring the innovations and contributions of Māori and Pākehā artists, and charting its influences and evolution into post-object, and contemporary practices. The development of Pacific art as well as practices that engage with feminism and gender are also a focus.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 103, 335

**Artists and Patron in Renaissance Italy**
A journey into the motivations and inspirations behind the production of art in Renaissance Italy, this course examines the social, economic, religious and political relationships between patrons, artists and artworks c.1400-c.1520 in a variety of civic, religious, familial, artistic and spatial contexts. It ranges from Florence to Milan, the Medicis to the Sforzas, Duccio to Donatello, Leonardo to Michelangelo.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 336

**Māori Art History: Mana Taonga**
Considers Māori visual art from arrival from the Pacific to the present day. Examines how artists critically negotiated current notions of identity in their work. Forms including moko, carving, weaving, architecture, film and contemporary art are explored through key ideas such as gender politics, patronage, and repatriation. Artists examined include Raharuhi Rukupo, Te Kooti, Pine Taiapa, Lisa Reihana and Ralph Hotere.
Prerequisite: 15 points at Stage I in Art History and 30 points passed, or 45 points in BGlobalSt courses
Restriction: ARTHIST 102, 338

**The Art of Majesty: Tudors and Stuarts**
Examines the role of art, architecture and material goods in communicating magnificence and legitimising political power in Tudor and Stuart England. Coverage includes Henry VIII, Elizabeth I, Anne of Denmark and Charles I and artists and architects such as Hans Holbein, Marcus Gheeraerts, Anthony van Dyck and Inigo Jones.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 345

**Global History of Photography**
Overview of photography’s global history, beginning with proto-photographic forms and ending with a consideration of digital technology and social media. Art photography is examined alongside journalistic, scientific and ethnographic paradigms of photographic practice. Conceptual issues such as socio-cultural power relationships and diverse representations of time lie at the heart of this course.
Prerequisite: 15 points at Stage I in Art History and 30 points passed
Restriction: ARTHIST 346

**Special Topic**
Prerequisite: 15 points at Stage I in Art History and 30 points passed

**Special Topic: Who am I?: Photography and the Construction of Identity**
Considers the camera's involvement in the construction of identity in global photography and in Aotearoa New Zealand from the 1960s to the present. Explores photography's role in representing selfhood at a time when human identities and experiences are increasingly produced and manipulated through the camera's lens, and distributed via the Internet.
Prerequisite: 15 points passed at Stage I in the BA
Restriction: ARTHIST 348

**Stage III**

**Radical Change: 1850-1940**
Focuses on a crucial period of change and innovation in European art practices. Addresses ideas about art and the visual, the consequences and complexities of which are still being played out in the art and socio-cultural worlds of today.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 200, 222, 322

**Modernism and Design**
A study of the central role played by architecture and design within twentieth-century Modernism. Dealing with function, materials, decoration and Modernist theory, the course spans the period from Art Nouveau in the 1890s to World War II. The main focus will be on Europe and the United States, with some references to New Zealand.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 210

**Contemporary Pacific Art**
Focuses on work by contemporary Pacific artists, exploring the ways that they translate indigenous knowledge and urban experiences into gallery forms such as painting, installation, performance, film and video making. Themes such as migration and diaspora, language and memory, notions of homelands and return, and the creation of complex cultural identities will be explored.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 217

**Art and Revolution 1750-1850**
Topics in late eighteenth and early nineteenth-century painting, sculpture and architecture in Europe, particularly France and Britain. The impact of social and industrial revolution is examined, and developments in portraiture, landscape and history painting are explored. The major artists include Constable, Turner, Goya, Reynolds, Gainsborough, David, Ingres, Gericault and Delacroix.
Prerequisite: HISTORY 294 and 15 points at Stage I in Art History or 15 points at Stage II in Art History, and 60 points passed
Restriction: ARTHIST 201

**Power and Piety: The Baroque**
The use of art to display, enhance, and justify political power and piety and to promote political and religious ideologies in the major power centres of seventeenth-century Europe in the Baroque period. Refers to the work
of artists such as Caravaggio, Bernini, Velasquez, Rubens, Rembrandt, Van Dyck, Le Brun, Jones and Wren.

Prerequisite: HISTORY 243 and 15 points at Stage I in Art History or 15 points at Stage II in Art History, and 60 points passed
Restriction: ARTHIST 224, 306

ARTHIST 325
15 Points
Imaging the Renaissance
An examination of the society and culture of Europe between 1400 and 1700 as expressed in print and visual images. Topics include court and merchant culture, popular cultures, religious faith and the Reformation, festivals, literacy and the book, family and marriage, food, sexualities, witchcraft, death and disease.
Prerequisite: 15 points at Stage II in Art History or History and 60 points passed
Restriction: ARTHIST 225

ARTHIST 331
15 Points
Framing the Viewer: 20th Century Art
The rise of Modernism saw the development of art which is reflexive, which draws attention to itself and the illusion of representation, making us reflect about what art is and how it affects the viewer. This course is designed to enable students to develop their own reflexivity and critical awareness through a study of the ‘classic’ movements of the twentieth century, such as Cubism, Expressionism, Dada, Surrealism, Abstract Expressionism, Op, Pop and Conceptual Art.
Prerequisite: 15 points at Stage I in Art History and 15 points from ENGLISH 206, FRENCH 244, HISTORY 241, PHIL 212, or 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 231

ARTHIST 332
15 Points
Art Crime
Explores the growing trend of art crime through a focus on five primary areas: theft, fraud, smuggling, forgery, and vandalism. These will be examined within the context of international and New Zealand case studies, including the theft of the Mona Lisa in 1911, Nazi looting in World War II, and thefts during the Iraq War in 2003. Ways to curb such crime, particularly the development of art crime squads, will also be discussed.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 230

ARTHIST 333
15 Points
The Art of Gender Politics
Explores the intersection of gender and ethnicity with the visual arts. Emphasis will be on art forms and traditions in Aotearoa/New Zealand, the United States, Canada and Australia, with some reference to the Pacific, including photography, film, jewellery, tattoo and textiles.
Prerequisite: GENDER 208 and 15 points at Stage I in Art History, or 15 points at Stage II in Art History and 60 points passed, or 30 points in Transnational Cultures and Creative Practice
Restriction: ARTHIST 233, 319

ARTHIST 334
15 Points
Ways of Seeing Contemporary Art
Examines some central concerns that have arisen in late modernist art, exploring the moves, intensifications and political implications of art in the post-1968 period: de-materialisation of the art object, site-specificity, the artist in a commodity culture, activism, questions of identity, notions of looking and spectatorship, interactivity, new media, contemporary censorship and debates about the place of the aesthetic.
Prerequisite: Any 30 points from Art History, History, Media and Screen Studies, or Philosophy
Restriction: ARTHIST 204

ARTHIST 335
15 Points
Contemporary Art in Aotearoa NZ
Focuses on contemporary art in Aotearoa New Zealand from the 1970s to the present, beginning with the later modernist period, exploring the innovations and contributions of Māori and Pākehā artists, and charting its influences and evolution into post-object, and contemporary practices. The development of Pacific art as well as practices that engage with feminism and gender are also a focus.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 103, 235

ARTHIST 336
15 Points
Artists and Patrons in Renaissance Italy
A journey into the motivations and inspirations behind the production of art in Renaissance Italy, this course examines the social, economic, religious and political relationships between patrons, artists and artworks c.1400–c.1520 in a variety of civic, religious, familial, artistic and spatial contexts. It ranges from Florence to Milan, the Medicis to the Sforzas, Duccio to Donatello, Leonardo to Michelangelo.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 236

ARTHIST 338
15 Points
Māori Art History: Mana Taonga
Considers Māori visual art from arrival from the Pacific to the present day. Examines how artists critically negotiated current notions of identity in their work. Forms including moko, carving, weaving, architecture, film and contemporary art are explored through key ideas such as gender politics, patronage, and repatriation. Artists examined include Raharuhi Rukupo, Te Kooti, Pine Taiapa, Lisa Reihana and Ralph Hotere.
Prerequisite: At least 15 points from ANTHRO 207, HISTORY 252 and 15 points at Stage II in Art History or 15 points at Stage II in Art History and 60 points passed, or 30 points at Stage II in BGlobalSt courses
Restriction: ARTHIST 102, 238

ARTHIST 345
15 Points
The Art of Majesty: Tudors and Stuarts
Examines the role of art, architecture and material goods in communicating magnificence and legitimising political power in Tudor and Stuart England. Coverage includes Henry VIII, Elizabeth I, Anne of Denmark and Charles I and artists and architects such as Hans Holbein, Marcus Gheeraerts, Anthony van Dyck and Inigo Jones.
Prerequisite: 15 points at Stage II in Art History and 60 points passed
Restriction: ARTHIST 245

ARTHIST 346
15 Points
Global History of Photography
Overview of photography’s global history, beginning with proto-photographic forms and ending with a consideration of digital technology and social media. Art photography is examined alongside journalistic, scientific and ethnographic paradigms of photographic practice. Conceptual issues
such as socio-cultural power relationships and diverse representations of time lie at the heart of this course.  
Prerequisite: 15 points at Stage II in Art History and 60 points passed  
Restriction: ARTHIST 246

ARTHIST 348  15 Points  
Special Topic: Who am I?: Photography and the Construction of Identity  
Considers the camera's involvement in the construction of identity in global photography and in Aotearoa New Zealand from the 1960s to the present. Explores photography's role in representing selfhood at a time when human identities and experiences are increasingly produced and manipulated through the camera's lens, and distributed via the Internet.  
Prerequisite: 15 points passed at Stage II in the BA  
Restriction: ARTHIST 248

ARTHIST 349  15 Points

ARTHIST 700  30 Points  
ARTHIST 700A  15 Points  
ARTHIST 700B  15 Points

Participation, Collaboration, and Photography  
Explores a range of increasingly prevalent artistic practice grounded in artistic collaboration and audience participation that are typically mediated through photographic documentation. Considering work by artists such as Thomas Hirschhorn, Tania Bruguera, and Sophie Calle, this course covers topics such as relational aesthetics, site-specificity and pedagogical interventions into public space.  
To complete this course students must enrol in ARTHIST 700 A and B, or ARTHIST 700  
ARTHIST 701  30 Points  
ARTHIST 701A  15 Points  
ARTHIST 701B  15 Points

Art for the City and the Court  
Examines the production, patronage and display of art and its function within the political, religious and social frameworks of the early modern court and the city. It focuses on Amsterdam and The Hague in the Dutch Republic and London as the epicentre of the Stuart court. The full panoply of visual and material culture are discussed including painting, sculpture, tapestries, clothing, jewellery and interior decoration.  
To complete this course students must enrol in ARTHIST 701 A and B, or ARTHIST 701  
ARTHIST 703A  15 Points  
ARTHIST 703B  15 Points

Cross-cultural Encounters and Creativity  
Explores cross-cultural interactions through images and objects in all visual media from the eighteenth to the twenty-first century in New Zealand, the Pacific, Australia, the Middle East, the Americas, China, Japan and India. The course focuses on meanings and uses of visual arts in different socio-cultural contexts, as well as travel, migration and displacement.  
Restriction: ARTHIST 733  
To complete this course students must enrol in ARTHIST 703 A and B

ARTHIST 706  30 Points  
ARTHIST 706A  15 Points  
ARTHIST 706B  15 Points

Public Art: Politics and Process  
Examines the politics and process around modern and contemporary public art and monuments, predominantly sculpture. Topics include: the challenges of public space, patronage, issues of nationalism and cultural identity, memorialisation (e.g., war and Holocaust memorials), and the urban environment. Issues and controversies around international case studies and local practice are studied in relation to work in Europe, North America, and Australasia.  
Restriction: ARTHIST 717, 719  
To complete this course students must enrol in ARTHIST 706 A and B, or ARTHIST 706  
ARTHIST 715  15 Points  
Special Topic

ARTHIST 719  15 Points  
Public Art: Issues and Controversy  
A study of the politics and function of public art and monuments, predominantly sculpture. Topics include: the challenges of public space, issues of nationalism and cultural identity, memorialisation (for example war and Holocaust memorials), patronage and the urban environment, controversial works, and local practice in relation to international case studies. Public art in Europe, North America and Australia is examined.

ARTHIST 722A  15 Points  
ARTHIST 722B  15 Points

Rembrandt and the Dutch Golden Age  
A broad range of critical approaches to the art and life of Rembrandt. The course is taught in seven modules: these comprise the socio-political milieu in which he worked, the historical documents of his life, the artworks he produced, the technical aspects of his work, the organisation of his studio and mechanics of the art market, the issue of authorship and the critical reception of his life and work.  
Restriction: ARTHIST 737  
To complete this course students must enrol in ARTHIST 722 A and B, or ARTHIST 722

ARTHIST 725  30 Points  
ARTHIST 725A  15 Points  
ARTHIST 725B  15 Points

Concepts in Contemporary Art  
Examines the cross-fertilisation of theory and praxis, philosophy and art, materialism and idealism in the arts. It will be taught in four thematic units – Body/Mind; Representation/Experience; Self/Other and Materialism/Conceptualism – testing how visual theory bridges the gap between these dual terms. Students will learn to apply a number of important critical theories to their understanding of art, and importantly, to fine-tune those theories through visual experience.  
Restriction: ARTHIST 724, 729  
To complete this course students must enrol in ARTHIST 725 A and B, or ARTHIST 725

ARTHIST 726  15 Points  
Special Study  
Directed study on a topic or topics approved by the Academic Head.
ARTHIST 727 15 Points
Art in Context: Study Abroad
Highlights the importance of studying original artworks in context. Contexts for artworks include the original setting, such as a palace, monastery, or town hall, to wider examinations of the socio-historical situations in which they were created. In addition, new museological contexts for artworks offer insight into the display and interpretation of visual culture.

Arts General

Foundation Courses

ARTSGEN 92F 15 Points
Introduction to Arts and Humanities
An interdisciplinary, skills-based course which takes students through a special research topic with input from a number of different Arts and Arts-related disciplines. This not only provides students with research experience; it also assists them in making subject choices for Stage I by
introducing them to different disciplines and subject areas in the arts and humanities.
Restriction: ARTSGEN 92P

**Stage I**

**ARTSGEN 103** 15 Points  
Ko wai tātou? Who Are We?  
Ko wai tātou? Who are we? Who are our people and communities? What do our ideas about who we are mean for relations of in/equality or how we experience belonging individually and collectively? In addressing these questions, this course considers how knowledge of place enhances your learning, the significance of Te Tiriti o Waitangi, and how knowledge systems frame understanding.

**ARTSGEN 103G** 15 Points

**Stage II**

**ARTSGEN 200** 15 Points  
**ARTSGEN 200A** 15 Points  
**ARTSGEN 200B** 15 Points  
Research Essay - Level 9

To complete this course students must enrol in ARTSCHOL 300 A and B

Asian Studies

Stage I

ASIAN 100  
Images of Asia  
An interdisciplinary introduction to the histories and cultures of East Asian societies, exploring their development, their engagement with each other over time, and what makes them the societies that they are today.  
Restriction: HISTORY 135

ASIAN 140  
New Zealand and Asia  
Explores Asia and its interrelationship with New Zealand, including Asia's growing presence in New Zealand in all its manifestations, and the evolving political, social, economic, cultural, and strategic relations between this country and Asia. Topics will include historical and contemporary ties with Asia, Asian migration, literature, media and films. The course will focus especially on South-East and East Asia.

Stage II

ASIAN 200  
Asian Identities  
Students will explore the changing and contested nature of Asian identities in the past and present, through an interdisciplinary study of historical texts, anthropological writings, literature, and film. Considers the relationships between the body and identity, as well as between individuals, society, culture, and nation in the East Asian context, touching upon health, beauty, food, family, gender, and religion.  
Prerequisite: ASIAN 100 or 30 points in Gender Studies or 45 points in BGlobalSt courses  
Restriction: ASIAN 200

ASIAN 202  
Special Topic  
Prerequisite: 45 points at Stage I in BA courses

ASIAN 203  
Special Topic  
Prerequisite: 45 points at Stage I in BA courses

ASIAN 204  
Asian Diasporas  
Focuses on three major diasporic groups in Asia: Chinese, Korean and Japanese. Comparisons will be made among the three diasporic groups of overseas Koreans, Japanese and Chinese in their migration patterns, modes of adaptation, and transnational lifestyles.  
Prerequisite: 45 points at Stage I in BA courses or 45 points in BGlobalSt courses  
Restriction: ASIAN 202

ASIAN 209  
Transnational Asia: Korea and its Neighbours  
Critically engages the current debates surrounding the concept of “transnational Asia” and the possibility of reconciliation among China, Japan and the two Koreas. Examines the historical, cultural and ideological sources and recent development of this new form of regionalism, in addition to such challenges as Chinese hegemony and competing nationalism in the region.  
Prerequisite: ASIAN 100 or KOREAN 120 and 45 points at Stage I in BA  
Restriction: ASIAN 209, 753

Stage III

ASIAN 300  
Special Study  
Independent student research conducted under the supervision of one or more lecturers.  
Prerequisite: Approval of Academic Head or nominee

ASIAN 302  
Asian Diasporas  
Focuses on three major diasporic groups in Asia: Chinese, Korean and Japanese. Compares the migration patterns, modes of adaptation and transnational lifestyles of overseas Chinese, Japanese and Koreans.  
Prerequisite: 30 points at Stage II in BA or BGlobalSt courses  
Restriction: ASIAN 204

ASIAN 303  
Asian Identities  
Students will explore the changing and contested nature of Asian identities in the past and present through an interdisciplinary study of historical texts, anthropological writings, literature and film. Considers the relationships between the body and identity as well as between individuals, society, culture and nation in the East Asian context, touching upon health, beauty, food, family, gender and religion.  
Prerequisite: ASIAN 100 and 30 points at Stage II in BA, or GENDER 100 and 30 points at Stage II in BA courses, or 30 points at Stage II in BGlobalSt courses  
Restriction: ASIAN 200

ASIAN 304  
Special Topic  
Prerequisite: ASIAN 100 and 30 points at Stage II in BA courses, or 30 points at Stage II in BGlobalSt courses

ASIAN 309  
Transnational Asia: Korea and its Neighbours  
Aims to critically engage the current debates surrounding the concept and movement of “transnational Asia” and the possibility of reconciliation among China, Japan and the two Koreas. Examines the historical, cultural, and ideological sources and recent development of this new form of regionalism, as well as such challenges as Chinese hegemony and competing nationalism in the region.  
Prerequisite: ASIAN 100 or KOREAN 120 and 30 points at Stage II in BA  
Restriction: ASIAN 209, 753

Postgraduate 700 Level Courses

ASIAN 702  
Approaches to Research in Asian Studies  
The theories and methods of research in history, literature and cultural studies in an Asian context, including practical instruction in the skills involved in developing individual research projects.  
Restriction: ASIAN 700
ASIAN 708 15 Points
Religion in Modern Japanese Society
The aim of this course is to understand the role of religious beliefs, practices, and institutions in modern Japanese society. Topics to be covered include the “invention” of State Shinto and its role in nation-building, the decline of established temple Buddhism, the emergence and impact of new religious movements, and social conflict related to religion-state issues in the postwar period.
Restriction: JAPANESE 308

ASIAN 710 30 Points
Translation Project
The translation of a text or texts, translator's note and an extensive glossary of the terminology of the field.

ASIAN 711 30 Points
Research Project in Translation - Level 9
Theoretical aspects of translation.

ASIAN 712 45 Points
Dissertation on Translation - Level 9
Theoretical aspects of translation.

ASIAN 752 15 Points
A Course-linked Research Topic
A research topic related to another course in which the student is enrolled.

Research Essay - Level 9

CHINESE 739 15 Points
Educational Linguistics in Chinese
Systemically reviews the Chinese language system and key educational linguistic concepts for teaching and learning Chinese as a Second Language. The course will help students gain a solid understanding of the characteristics and development of the Chinese language, including but not limited to Chinese phonetics, dialects, characters, morphemes and words, lexical changes, sentence structures, stylistic issues and genres.
Prerequisite: CHINESE 301 or equivalent
Restriction: CHINESE 707

CHINESE 740 15 Points
Chinese Teaching Pedagogy
Critically investigates the pedagogical-content knowledge for teaching Chinese to speakers of other languages. Designed for students to develop practical pedagogical approaches to teach the following five content areas: pronunciation, characters, grammar, discourse and culture. Students will have opportunities to explore different strategies for engaging learners in Chinese language classrooms in schools, universities and the community.
Prerequisite: CHINESE 301 or equivalent
Restriction: CHINESE 708

CHINESE 741 15 Points
Acquisition of Chinese
Critically examines the most recent research on, and good practice in, the complex process of acquiring Chinese as a second language. Covers topics related to the relationship between Chinese and students’ first language; individual students’ different learning beliefs, motivation and autonomy; bilingualism; and the development of needs analyses for young and adult learners of Chinese.
Restriction: CHINESE 709

CHINESE 742 15 Points
Professional Learning for Chinese Teachers
Explores advanced theories and practices relevant to teaching the Chinese language in different social and educational contexts. Focused on developing advanced intercultural competence and professional skills. Students will develop and apply new skills and techniques based on research and practice at the cutting-edge of the field.
Prerequisite: Must have attained a proficiency level in Chinese of at least HSK level 5 or its equivalent
Restriction: CHINESE 710
CHINESE 777 15 Points
Chinese Study Abroad I
Formal study in an approved overseas institution where instruction is in Chinese. This course is not suitable for native speakers of Chinese. Enrolment requires the approval of the Academic Head or nominee.

CHINESE 778 15 Points
Chinese Study Abroad II
Formal study in an approved overseas institution where instruction is in Chinese. This course is not suitable for native speakers of Chinese. Enrolment requires the approval of the Academic Head or nominee.

ANCIENT 102 15 Points
Ancient Greek History
An introduction to Greek history and civilisation from the Bronze Age to the death of Alexander the Great utilising both archaeological evidence and literary sources.
Restriction: ANCHIST 102

ANCIENT 103 15 Points
Roman History
An introduction to the civilisation and history of Ancient Rome, with particular reference to the Republic and Early Empire.
Restriction: ANCHIST 103

ANCIENT 104 15 Points
Dynasties, Democracy, Empire
Explores the history and cultures of three civilisations in the ancient Mediterranean: Egypt, Greece, and Rome. Uses ancient evidence, from the newest archaeological discoveries, to the works of classical literature, to present major historical events in the Mediterranean against the backdrop of the everyday lives of the people who lived in these societies.
Restriction: ANCHIST 110

ANCIENT 110 15 Points
ANCIENT 110G 15 Points
Classical Mythology
A study of ancient mythology – its gods, heroes and monsters – through the works of major writers and artists from Greece and either Rome or Egypt.
Restriction: CLASSICS 110, 110G

ANCIENT 130 15 Points
Love and Death in Greek and Roman Literature
A study of selected literary texts from ancient Greece and Rome that deal with two themes that continue to be relevant today.
Restriction: CLASSIC 130

Stage II

ANCIENT 200 15 Points
Greek and Roman Epic Poetry
A study of the beginnings of European epic poetry: especially in Homer and Virgil.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History, or GREEK 101 or LATIN 101, and 30 points passed
Restriction: ANCIENT 300, CLASSICS 210, 310

ANCIENT 210 15 Points
Egyptian Language 1A
A study of the Egyptian language, hieroglyphic writing and selected documents up to Dynasty 18.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies or Classical Studies and Ancient History and 30 points passed
Restriction: ANCHIST 210

ANCIENT 211 15 Points
Ancient Greek Language 1
An introduction to the study and use of the Ancient Greek language.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies or Classical Studies and Ancient History and 30 points passed
Restriction: ANCIENT 221, 311, 321, GREEK 100-310
ANCIENT 214 15 Points
Special Topic: Ancient Barbarians and Others
Examines the history of the idea of the barbarian in the ancient world, case-studies of late Roman barbarian kingdoms such as the Vandals and Goths, and modern receptions of ancient ideas about barbarians and barbarity from the nineteenth century to the present.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, or GREEK 101 or LATIN 101, and 30 points passed
Restriction: ANCIENT 314, HISTORY 254, 354

ANCIENT 215 15 Points
Special Topic: Hellenistic Society
Examines the Hellenistic Period from Alexander the Great to Cleopatra VII as an era of cultural contact and exchange. Considers the narrative of this dynamic period. Develops understanding of the intersection of Greek, Egyptian, Achaemenid, Near Eastern, and Roman traditions in the vast regions ruled by Alexander’s successors through the lenses of structures, places, ideas, and anxieties.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, or GREEK 101 or LATIN 101, and 30 points passed
Restriction: ANCIENT 315

ANCIENT 216 15 Points
Sex and Power in Greece and Rome
Many Greek and Roman literary works and historical sources deal with sex and power. This course will explore a range of ancient literary representations of women, men, femininity, masculinity, sexual practices and sexual prejudices. Students will study how ancient authors were influenced by the socio-political context and the constraints of different literary genres. All texts will be read in translation.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History, Gender Studies, or GREEK 101 or LATIN 101, and 30 points passed
Restriction: ANCIENT 316, CLASSICS 216, 316

ANCIENT 217 15 Points
Special Topic
Prerequisite: 15 points at Stage I in Classical Studies and Ancient History, and 30 points passed
Restriction: ANCIENT 317

ANCIENT 220 15 Points
Egyptian Language 1B
Further study of the Egyptian language, hieroglyphic writing and selected documents up to Dynasty 18.
Prerequisite: ANCHIST 210 or ANCIENT 210
Restriction: ANCHIST 220

ANCIENT 221 15 Points
Ancient Greek Language 2
Builds on skills and approaches to the Ancient Greek language developed in ANCIENT 211.
Prerequisite: ANCIENT 211 or GREEK 100
Restriction: ANCIENT 311, 321, GREEK 100-310

ANCIENT 225 15 Points
Greek and Roman Comedy
A study of the comedies of Aristophanes and Menander, Plautus and Terence.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History or GREEK 101 or LATIN 101, and 30 points passed
Restriction: ANCIENT 325, CLASSICS 220, 320

ANCIENT 251 15 Points
Ancient Egyptian Art: Icon and Narrative
A chronological study of the art and architecture of ancient Egypt, from the predynastic period to the end of the New Kingdom, examining trends and styles in all forms of ancient art in Egypt.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History or Art History, and 30 points passed
Restriction: ANCHIST 251, 351, ANCIENT 351

ANCIENT 252 15 Points
Egyptian Religion
A study of ancient Egyptian religion from the Early Dynastic period through to the end of the Late Period. The course will examine religious practice as well as religious thought, and will consider the patterns of belief throughout the ancient period of Egypt's history.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed
Restriction: ANCHIST 252, 352, ANCIENT 352

ANCIENT 253 15 Points
Early Egypt
Covers the earliest periods of Egypt's development from the prehistoric period to the end of the Old Kingdom. This course focuses on the lead-up to state formation and the great Pyramid Age that followed.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed
Restriction: ANCHIST 253, 353, ANCIENT 353

ANCIENT 254 15 Points
Early Rome
A study of the earliest development of ancient Rome using written sources but with special emphasis on archaeological evidence.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed
Restriction: ANCHIST 254, 354, ANCIENT 354

ANCIENT 255 15 Points
The Later Roman Empire
A study of the Roman empire between the third and sixth centuries CE. Topics covered include the social, economic and political crises of the period, encounters and struggles between Romans and barbarians, the conflict between Paganism and Christianity, and the emergence of the barbarian kingdoms in the West and the Byzantine empire in the East.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed
Restriction: ANCHIST 255, 355, ANCIENT 355

ANCIENT 256 15 Points
The Ancient World at War
Provides an in-depth analysis of the role of the military in ancient Egypt, Greece and Rome. The physical evidence of warfare as well as chronological development of warfare within each society will be discussed. An additional theme will be the interweaving of the social and cultural impact of warfare and the army upon these civilisations.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed
Restriction: ANCHIST 256, 356, ANCIENT 356
ANCIENT 260 15 Points
Roman Revolutions
Covers the history, politics, society and culture of Rome during the late Republic and early imperial periods. Topics include the army, religion, family, sexuality, literature, art and the life of the provinces, set against the dramatic breakdown of old systems of government and their replacement with a new model of rule.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, or Classical Studies and Ancient History, and 30 points passed.
Restriction: ANCHIST 203, 213, 260, 360, ANCIENT 360

ANCIENT 280 15 Points
Art and Society in Ancient Rome
A study of the art and architecture of the ancient Romans. Emphasis will be placed on the role of the visual arts as vehicles for the expression of social values and political and imperial ideas.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History, Art History, or GREEK 101 or LATIN 101, and 30 points passed.
Restriction: ANCIEN 380, CLASSICS 280, 380

ANCIENT 285 15 Points
Classical Tragedy
Tragedy as a concept, a means of interpreting events, and a literary genre, is central to the ancient Greeks’ way of constructing their world. Through a close reading of a selection of ancient dramas, this course will explore the nature and interpretation of tragedy with particular reference to Aristotle’s Poetics.
Prerequisite: 15 points at Stage I in Ancient History, Classical Studies, Classical Studies and Ancient History, Art History, or GREEK 101 or LATIN 101, and 30 points passed.
Restriction: ANCIEN 385, CLASSICS 285, 385

Stage III

ANCIENT 300 15 Points
Greek and Roman Epic Poetry
A study of the beginnings of European epic poetry especially in Homer and Virgil.
Prerequisite: 15 points at Stage II in Ancient History, Classical Studies, or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin.
Restriction: ANCIENT 200, CLASSICS 210, 310

ANCIENT 304 15 Points
Directed Study
Prerequisite: 15 points at Stage II in Ancient History, Classical Studies or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin.

ANCIENT 310 15 Points
Egyptian Language 2A
This course carries on from ANCIENT 220, with reading extended historical, narrative, and religious texts.
Prerequisite: ANCHIST 220 or ANCIENT 220
Restriction: ANCHIST 310, 340

ANCIENT 311 15 Points
Ancient Greek Language: Intermediate
The analysis and description of Ancient Greek grammar, practice in the translation of Ancient Greek to and from English, vocabulary acquisition.
Prerequisite: ANCIENT 221 or GREEK 101
Restriction: ANCIENT 321, GREEK 200-310

ANCIENT 314 15 Points
Special Topic: Ancient Barbarians and Others
Examines the history of the idea of the barbarian in the ancient world, case-studies of late Roman barbarian kingdoms such as the Vandals and Goths, and modern receptions of ancient ideas about barbarians and barbarity from the nineteenth century to the present.
Prerequisite: 15 points at Stage II in Classical Studies, Ancient History or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin.
Restriction: ANCIENT 214, HISTORY 254, 354

ANCIENT 315 15 Points
Special Topic: Hellenistic Society
Examines the Hellenistic Period from Alexander the Great to Cleopatra VII as an era of cultural contact and exchange. Considers the narrative of this dynamic period. Develops understanding of the intersection of Greek, Egyptian, Achaemenid, Near Eastern, and Roman traditions in the vast regions ruled by Alexander’s successors through the lenses of structures, places, ideas, and anxieties.
Prerequisite: 15 points at Stage II in Classical Studies, Ancient History or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin.
Restriction: ANCIENT 215

ANCIENT 316 15 Points
Sex and Power in Greece and Rome
Many Greek and Roman literary works and historical sources deal with sex and power. This course will explore a range of ancient literary representations of women, men, femininity, masculinity, sexual practices and sexual prejudices. Students will study how ancient authors were influenced by the socio-political context and the constraints of different literary genres. All texts will be read in translation.
Prerequisite: 15 points at Stage II in Classical Studies, Ancient History, Classical Studies and Ancient History, Gender Studies, Greek, or Latin.
Restriction: ANCIENT 216, CLASSICS 216, 316

ANCIENT 317 15 Points
Special Topic
Prerequisite: 15 points at Stage II in Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin.
Restriction: ANCIENT 217

ANCIENT 321 15 Points
Ancient Greek Literary Texts
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities.
Prerequisite: ANCIENT 311 or GREEK 200

ANCIENT 325 15 Points
Greek and Roman Comedy
A study of the comedies of Aristophanes and Menander, Plautus and Terence.
Prerequisite: 15 points at Stage II in Classical Studies, Ancient History, or Classical Studies and Ancient History, or 30 points at Stage II in Greek or Latin.
Restriction: ANCIENT 225, CLASSICS 220, 320

ANCIENT 351 15 Points
Ancient Egyptian Art: Icon and Narrative
A chronological study of the art and architecture of ancient Egypt, from the predynastic period to the end of the New Kingdom, examining trends and styles in all forms of ancient art in Egypt.
Prerequisite: 15 points at Stage II in Ancient History, Classical...
Ancient History, or 30 points at Stage II in Art History or Greek

Ancient Societies of the Mediterranean World
A study of the societies which developed around the ancient Mediterranean.
Restriction: ANCHIST 758
To complete this course students must enrol in ANCIENT 758 A and B

ANCIENT 759 15 Points
ANCIENT 759A 7.5 Points
ANCIENT 759B 7.5 Points

Ancient Societies in the Mediterranean World
A study of the societies which developed around the ancient Mediterranean.
Restriction: ANCHIST 759
To complete this course students must enrol in ANCIENT 759 A and B

ANCIENT 760 15 Points
ANCIENT 760A 7.5 Points
ANCIENT 760B 7.5 Points

Ancient Societies of the Mediterranean World
A study of the societies which developed around the ancient Mediterranean.
Restriction: ANCHIST 760
To complete this course students must enrol in ANCIENT 760 A and B

ANCIENT 761 15 Points
ANCIENT 761A 7.5 Points
ANCIENT 761B 7.5 Points

Ancient Societies in the Mediterranean World
A study of the societies which developed around the ancient Mediterranean.
Restriction: ANCHIST 761
To complete this course students must enrol in ANCIENT 761 A and B

ANCIENT 762 15 Points
ANCIENT 762A 7.5 Points
ANCIENT 762B 7.5 Points

Ancient Societies of the Mediterranean World
A study of the societies which developed around the ancient Mediterranean.
Restriction: ANCHIST 762
To complete this course students must enrol in ANCIENT 762 A and B
Communication

Stage I

COMMS 100 15 Points
Communication, Technology and Culture
Explores the past, present and future of communication media. Examines communication media within their social context, and provides a particular focus on the interplay between technology and culture. Key concepts in the study of communication are introduced and various communication media are studied via specific case studies, with particular emphasis placed on new digital platforms including social and mobile media as well as older forms such as television and cinema.

COMMS 101 15 Points
Understanding Communication in Māori and Pacific Worlds
Introduces principles and practices of communication relevant to the unique cultural landscape of Aotearoa. Students will explore communication in the context of te ao Māori and Pacific cultures, ethical issues related to bicultural communication, and the significance of Te Tiriti o Waitangi for communication practitioners.

COMMS 102 15 Points
Communication and Social Change
Examines how public communication shapes and is shaped by broader changes in society. Explores the evolution of language, media narratives and public understanding over time in relation to social issues such as: the representation of marginalised groups in society; environmental challenges; the changing nature of Aotearoa New Zealand society; and global societal trends.

COMMS 103 15 Points
Digital Communication and Practice
Offers a practical and creative approach to digital communication within the critical context of platform studies. Students will navigate the capacities, affordances and limitations of a variety of digital platforms by developing the skills to create platform-specific outputs, such as podcasts, gifs, vlogs, mobile films and digital storytelling shorts.

COMMS 104 15 Points
Advertising and Society
A critical examination of advertising and advertisements focusing on the role advertising plays in consumer culture. Advertisements from a diverse range of media are studied in order to analyse how advertisements construct and disseminate meaning. The course investigates how advertising engages with the logic of wider cultural and global transformations with consideration given to both consumer and industry perspectives.

COMMS 105 15 Points
Introduction to Communication and Leadership
Introduces key concepts and theories of leadership with an emphasis on the fundamental role of communication. Explores the diverse contexts in which leadership operates: from complex and hierarchical organisations to small start-up enterprises; and from large public institutions to community groups. Considers the strengths and weaknesses of different styles and practices of leadership communication in light of real-world examples.

Stage II

COMMS 200 15 Points
Writing in the Workplace
Addresses written communication in the workplace across a range of discourses, environments, strategies and audiences. Focusing on different kinds of writing used in contexts such as government, community organisations, consultancy, professions, NGOs and private business, students will analyse and produce key workplace text-types within a critical framework of workplace analysis and scholarship on labour and organisations.

COMMS 201 15 Points
Journalism Studies
Explores journalism and the news media, examining their histories and contemporary state. Students gain knowledge about how the news media influences culture and society and will examine how recent social, political, and technological shifts have impacted on journalism. This course is primarily theoretical but has a practical component that involves news writing.

COMMS 202 15 Points
Audiences and Users
Examines the ways that audiences have been conceived, addressed, measured and empowered in the context of the history and technologies of communication media. Theories
of reception to be studied include uses and gratifications models, consumer behaviourism, passive versus active audiences, the rise of the ‘prosumer’, modes of engagement and fan discourses. Students will also learn about audience research methods.

Prerequisite: 60 points at Stage I in BA courses

**COMMS 203 15 Points**

**Television Journalism**

A practical course where students explore the production of current affairs journalism. Students learn to write, video, present and edit short news items in the field and integrate these into a multi-camera production recorded as live in the television studio. Studio skills include directing, production management, multi-cam scripting, vision switching, presenting and interviewing within a framework of current industry practice.

Prerequisite: 60 points at Stage I in BA courses

**COMMS 205 15 Points**

**Writing: Concept and Craft**

An exploration of written communication which connects writing as an object of analysis and critique to writing as a multi-faceted art. Since writing systems, materials and tools create the worlds we live in, the course conceptualises the relation between world and word, image and text, technology and body, and addresses cultural, critical and digital literacies that organise lived experience.

Prerequisite: 60 points at Stage I in BA courses

Restriction: ENGLISH 105, 257, 363

**COMMS 206 15 Points**

**Special Topic: Persuasion and Power**

Prerequisite: 60 points at Stage I in BA courses

**COMMS 207 15 Points**

**Communication Research Methods**

Introduces students to a variety of research methods in communication studies. Students learn about the foundations of, and approaches to qualitative and quantitative methods and acquire an array of techniques to collect data, such as individual and focus group interviews, participant observation, and surveys, as well as different forms of data analysis.

Prerequisite: 60 points at Stage I in BA courses

**COMMS 208 15 Points**

**Digital Communication Ethics**

Addresses applied ethical issues arising in digital journalism, social media, “big data” surveillance and privacy, algorithmic bias, and software design. As digital media expand beyond the personal computer, there is an increase of ethical issues pertaining to mobile devices, GPS navigation, biometric modelling, artificial intelligence, and the ever-expanding range of wired devices tracking us through the so-called ‘internet of things’.

Prerequisite: 60 points passed

**COMMS 209 15 Points**

**Special Topic**

Prerequisite: 60 points at Stage I in BA courses

**COMMS 210 15 Points**

**Practicing Communication in Māori and Pacific Worlds**

Builds on COMMS 101 to develop students’ cultural competencies and understanding of tikanga Māori and Pacific cultures. Particular emphasis is given to the concept of whakawhanaungatanga and protocols surrounding engagement, consultation and partnership with Māori and Pacific communities.

Prerequisite: COMMS 101 and 45 points at Stage I in BA or BC courses

**COMMS 212 15 Points**

**Narratives of Social Change**

Investigates how the presentation of information shapes public attitudes and behaviours. Explores how public communication via news, social media and public awareness campaigns influence public understanding, engagement and behaviour. Key ideas explored in this course include: discourse; framing; rhetoric; and the interplay of words, images and sounds in multimodal communication.

Prerequisite: COMMS 102 and 45 points at Stage I in BA or BC courses

**COMMS 213 15 Points**

**Communication and Persuasion**

Explores theories and practices of persuasive communication. Students will develop competencies through practical exercises and case study investigations. The course will also emphasise the ethics of persuasive communication, exploring themes such as the difference between persuasion and manipulation, and the relationship between persuasion and power.

Prerequisite: 60 points at Stage I in BA or BC courses

**COMMS 214 15 Points**

**Communication and Inclusive Leadership**

Explores principles and practices of inclusive leadership and communication in the context of diverse organisations. The course investigates key causes and consequences of inequalities and barriers to inclusion within organisations, including overt and covert biases and forms of discrimination based on gender, ethnicity and disabilities. It also explores leadership strategies and best practices for building and sustaining inclusive organisations.

Prerequisite: 60 points at Stage I in BA or BC courses

**Stage III**

**COMMS 303 15 Points**

**Sports Media**

Examines the relationship between sport and the media. Topics include sports journalism; industry practice; the mediated game event; online communities of fandom; commentary; issues of race and gender; and sports law. Students may have the opportunity to experience televised studio production at the University’s television studio.

Prerequisite: 15 points from COMMS 200-208 and 15 points in BA courses

**COMMS 304 15 Points**

**Gender, Politics and the Media**

Addresses the theory, practice and representation of politics in the media from a gendered perspective. Analyses the relationship between the media and women and men in the public sphere.

Prerequisite: 15 points from COMMS 200-208, GENDER 208, and 15 points in BA courses

**COMMS 306 15 Points**

**Special Topic**

Prerequisite: 15 points from COMMS 200-208 and 15 points in BA courses

**COMMS 307 15 Points**

**Communication Internship**

Provides experiential learning opportunities in media,
public relations, advertising, and corporate communication industries.
Prerequisite: Approval of Academic Head or nominee
Restriction: ARTSGEN 301, CAREER 300

COMMS 308 15 Points
Special Topic
Prerequisite: 60 points at Stage I in BA courses

COMMS 310 15 Points
Special Topic
Prerequisite: 60 points at Stage I in BA courses

COMMS 311 15 Points
Problems and Issues in Contemporary Communication
A seminar exploring a major theme or issue in contemporary communication to be determined by the convenor.
Prerequisite: 60 points at Stage II in BA or BC courses

COMMS 312 15 Points
Documentary and Social Change
Investigates the close alignment between documentary film and social and political transformation. The course will explore documentaries associated with political movements from anti-fascism to LGBTI issues. Students will produce a 'mini-documentary' as part of their coursework.
Prerequisite: COMMS 306
Restriction: COMMS 306

COMMS 313 15 Points
Principles and Practices of Social Communication
Develops students’ skills in communicating effectively and ethically to promote positive social change. Students will produce communication relating to real-world social issues, where possible in partnership with an external organisation working to promote social change. The course also looks at processes for carrying out stakeholder consultation and audience testing.
Prerequisite: COMMS 212 and 45 points at Stage II in BA or BC courses

COMMS 314 15 Points
Risk, Crisis and Disaster Communication
Explores how governmental and non-governmental organisations communicate in the context of social risks such as environmental hazards and public health emergencies. The course also investigates communication in the wake of disasters. Concepts explored in the course include: mis- and disinformation; public engagement and risk perceptions; framings and narratives of disaster and risk.
Prerequisite: 60 points passed at Stage II

COMMS 315 15 Points
Environmental Communication
Investigates how environmental challenges and policies are communicated in contemporary society. Particular emphasis is given to the relationship between science communication and popular media narratives.
Prerequisite: 60 points passed at Stage II

COMMS 316 15 Points
Decolonising Technology and Data
Explores Indigenous perspectives on technology and data. Policy, activism and design are explored in relation to decolonisation, equity and rangatiratanga (sovereignty).
Prerequisite: 60 points passed at Stage II

COMMS 317 15 Points
Design for Equity, Accessibility and Justice
Examines principles and practices of inclusive technology design. Considers how technologies can be designed to empower rather than disadvantage members of socially marginalised communities.
Prerequisite: COMMS 208 and 45 points passed at Stage II

COMMS 318 15 Points
Technology Futures
Considers the place of digital technologies in diverse and contested visions of the future, from Silicon Valley futurism to surveillance dystopias, and from ecological critiques of high-technology to projects for building a digital commons.
Prerequisite: 60 points passed at Stage II
Restriction: COMMS 300

COMMS 319 15 Points
Communication Strategies in the Workplace
Addresses principles and best practices for effective communication within workplaces and organisations. Focuses on students’ skills in key areas including: professionalism in communication; listening skills; conflict resolution; and negotiation skills. Particular emphasis is given to the skills required for developing coherent and consistent communication strategies.
Prerequisite: COMMS 214 and 45 points passed at Stage II

COMMS 320 15 Points
Communication Project
Students complete a practical or academic project, involving individual or group-based work.
Prerequisite: 60 points at Stage II in BC courses

COMMS 321 15 Points
News and Journalism in the Digital Age
Examines the changing nature of news and journalism in the digital age. Themes covered include: news values and news cycles; journalistic principles and practices; the interface between journalism and news sources, including public relations industries; journalism’s ‘fourth estate’ role and the evolving relationship between news and public opinion in the digital age; and the political economy of contemporary journalism.
Prerequisite: 60 points passed at Stage II

COMMS 322 15 Points
Designing Visual Communication
Examines the core principles and skills for effective visual communication. Explores the role of visual design in engaging diverse audiences across a variety of communicative contexts.
Prerequisite: 60 points at Stage II in BC courses

Postgraduate 700 Level Courses

COMMS 700 30 Points
Digital Futures
Considers emerging communication and media technologies and potential future consequences for individuals, societies, and the world at large. Key areas of interest include robotics and AI; ubiquitous computing and the Internet of Things (IoT); 3D printing; virtual, augmented and mixed reality technologies. Issues examined include automation; future of employment; surveillance; new modes of experience; transformed human relationships; and ecological consequences.
Restriction: MEDIA 717

COMMS 701 30 Points
Communication and Data
Explores the implications for communication in an age of big data, where code and algorithms curate, evaluate, and profile users’ data. The course addresses issues such
as archives, clouds, privacy, identity, algorithmic bias and discrimination, complexity, informational capitalism, and affective labour, while also considering possibilities for rethinking the past and predicting the future through the analysis and visualisation of data.

**COMMS 702**  
Communication Excess and Avoidance  
30 Points  
Silences and absences make communication possible. Each medium, whether spoken or printed, projected or computed, has peculiar silences ranging from elegant to tragic, comic to painful, fleeting to eternal. Superabundant digital media raise acute questions about communicative excess and possible needs to disconnect. Such questions will be addressed alongside the cultural and technological history of communication excess and absence.  
Restriction: MEDIA 745  
Prerequisite: 60 points passed

**COMMS 703**  
Popular Communication and Politics  
30 Points  
Explores popular communication across a range of media, genres, texts and technologies to consider the political nature of the cultures, patterns of use, and modes of interpretation that emerge around them. The course will examine the cultural appropriation, adoption, adaptation and distribution of communicative media as well as the political economy of communication, consumer culture and varying forms of fandom.

**COMMS 704**  
Communication and Culture  
30 Points  
Explores the mutually constitutive relationship between communication and culture through analyses of the cultural forms and meanings of social interaction. Acquaints students with classic and contemporary readings and introduces students to ways in which they can adopt a cultural approach toward communication phenomena in interpersonal, organisational, and intercultural settings.

**COMMS 705**  
Communication Perspectives  
30 Points  
Critical review of key debates and perspectives in the Communication field, with a particular emphasis on social change communication. Balances broad coverage of dominant approaches in the field with the study of under-represented perspectives including through studies of Indigenous scholarship and research from the Global South.

**COMMS 706**  
Communication Case Studies  
30 Points  
Explores how research in the Communication field can be applied to address complex challenges of the contemporary world and contribute to the development of solutions. Themes and topics will vary from year to year in line with changing societal issues and the research projects of contributing staff.

**COMMS 707**  
Research Methods and Design  
30 Points  
Critical survey of methodological approaches in the Communication field, including Indigenous and other non-Western methodologies. Students will also be guided through a process for defining their own research problem and establishing an appropriate methodological design. Prepares students to undertake a dissertation as well as covering skills transferable to professional contexts.

**COMMS 708**  
Communication Internship  
15 Points  
Provides experiential learning opportunities within professional communication organisations, such as media, public relations, advertising, non-governmental organisations and corporate communication industries.

**COMMS 709**  
Special Topic  
30 Points  
Prerequisite: 60 points passed

**COMMS 710**  
Special Topic  
30 Points  
Prerequisite: 60 points passed

**COMMS 714**  
Directed Study  
15 Points  
Prerequisite: 60 points passed

**COMMS 715**  
Directed Study  
30 Points  
Prerequisite: 60 points passed

**COMMS 748**  
Special Topic  
30 Points  
Prerequisite: 60 points passed

**COMMS 792**  
Dissertation - Level 9  
45 Points  
Restriction: COMMS 709

**COMMS 793**  
Dissertation - Level 9  
60 Points  
Restriction: COMMS 710

**COMPLIT 200**  
World Literatures I: Life, Death, War, Peace, Love  
15 Points  
Myths, epics, bawdy tales, satires, songs, and plays make up traditions of ancient, medieval, early modern cultures. Compares cultural stories worldwide, from early writing to French Revolution. Includes Gilgamesh, Aztec myths, Roland, Tale of Genji, Scandinavian tales, Shakespeare's Tempest, Blake's poetry. Introduces skills for reading narratives by genre, theme, poetics. Texts are in English, with attention to texts' original languages.  
Prerequisite: 60 points passed

**COMPLIT 202**  
Interpreting Folktales  
15 Points  
An introduction to the study and interpretation of folktales. Tales from many cultures will be examined. Contrasting theories on the origins and meaning of folktales will be explored.  
Prerequisite: 60 points passed

**COMPLIT 203**  
Special Topic  
15 Points  
Prerequisite: 60 points passed

**COMPLIT 206**  
When East Meets West  
15 Points  
Western readers have encountered the literatures of East and South Asia, and Asian readers have encountered Western literature, in a variety of political and cultural contexts, including: colonial expansion, spiritual inquiry, modernisation, warfare, migration, and globalisation. A selection of works from East and West, which have played a key role in these encounters, especially in the modern period, will be studied.  
Prerequisite: 60 points passed

**COMPLIT 207**  
Special Topic  
15 Points  
Prerequisite: 60 points passed
COMPLIT 208 15 Points
Directed Study in Comparative Literature
A directed reading and individual study course in a selected topic or topics, approved by the Academic Head or nominee.
Prerequisite: 60 points, and approval of Programme Coordinator

COMPLIT 210 15 Points
World Literatures 2: Machines and Modernities
Examines changing cultures and powerful ideas reflected in new literatures from the Industrial Revolution to the contemporary global era. Analyses and compares texts by genre, theme, and poetics. Includes poetry, narratives of European-Indigenous contacts, new culture movements in China and Japan, world drama, migrant writing, travel narratives. Texts are in English, with attention to texts' original languages.
Prerequisite: 60 points passed

Stage III

COMPLIT 302 15 Points
When East Meets West
Western readers have encountered the literatures of East and South Asia, and Asian readers have encountered Western literature, in a variety of political and cultural contexts, including: colonial expansion, spiritual inquiry, modernisation, warfare, migration, and globalisation. A selection of works from East and West, which have played a key role in these encounters, especially in the modern period, will be studied.
Prerequisite: 30 points at Stage II
Restriction: COMPLIT 206

COMPLIT 303 15 Points
Interpreting Folktales
An introduction to the study of folktales, including collection and classification, oral and literary tales, structure, interpretative frameworks, revisions and film versions. Tales from many cultures will be examined. Contrasting theories on the origins and meanings of folktales will be explored.
Prerequisite: 30 points at Stage II
Restriction: COMPLIT 202

COMPLIT 305 15 Points
Special Topic

COMPLIT 306 15 Points
Directed Reading and Research
Supervised research projects.
Prerequisite: 60 points passed at Stage II, and approval of Programme Coordinator

Postgraduate 700 Level Courses

COMPLIT 704 15 Points
Special Topic

COMPLIT 705 15 Points
Reading Across Cultures
An advanced level review of approaches to the study of literature across cultures. Tests the potential and limits of theories of literature in the study of literary texts from many cultures and periods. Includes cross-cultural perspectives on authorship, intertextuality, reader-centred theories, literary translation, post-colonial literature, gender and sexuality, as well as reading across disciplines.
Restriction: COMPLIT 700, 709

COMPLIT 707 30 Points
Special Topic

COMPLIT 708 30 Points
Special Topic

COMPLIT 709 30 Points
Reading Across Cultures
An advanced level review of approaches to the study of literature across cultures. Tests the potential and limits of theories of literature in the study of literary texts from many cultures and periods. Includes cross-cultural perspectives on authorship, intertextuality, reader-centred theories, literary translation, post-colonial literature, gender and sexuality, as well as reading across disciplines.
Restriction: COMPLIT 705

COMPLIT 710 15 Points
Special Topic

COMPLIT 711 15 Points
Rethinking Literary Translation
Literary translation has come to be theorised as a dynamic and problematic process, central to comparative literature and shedding light on cross-cultural encounter, colonisation and the post-colonial. Alongside such theoretical considerations, students will undertake a practical translation project between languages in which they have expertise.

COMPLIT 750 15 Points
Directed Study
Supervised research essays on a topic or topics approved by the Programme Coordinator.

COMPLIT 751 30 Points
Directed Study
Supervised research essays on a topic or topics approved by the Programme Coordinator.

COMPLIT 777 15 Points
Study Abroad
Formal study in Comparative Literature in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.
Prerequisite: Permission of Programme Coordinator

COMPLIT 778 15 Points
Study Abroad
Formal study in Comparative Literature in an approved overseas university. Enrolment requires the approval of the Programme Coordinator.
Prerequisite: Permission of Programme Coordinator

**Stage II**

CRIM 205: The relationship between crime and the media is complex and contradictory. This course investigates this relationship by encouraging students to develop an understanding of how the media help to influence the public views of crime and criminalisation. It will do this by focusing on media portrayals of crime and criminal behaviour, media effects, and theories of media and communication. 

Prerequisite: 60 points passed from BA courses

CRIM 206: Special Topic

Prerequisite: 60 points passed from BA courses

CRIM 207: Are we all equal before the law? Or are groups treated differently by the criminal justice system? With particular emphasis on indigenous peoples in New Zealand, Australia and Canada, this course examines the impact of differential practices on inequalities and collective efforts to achieve social change. Concepts of restorative justice are central to this course.

Prerequisite: 60 points passed from BA or GlobalSt courses 

Restriction: CRIM 302

CRIM 208: Provides an overview of ‘hate’ and prejudice-motivated crime using a variety of criminological perspectives. Examines the causes, consequences and manifestations of hate, as well as the social context in which hate crimes occur. Engages with questions around the impact of and responses to hate crime, as well as the link between online and offline hate.

Prerequisite: 60 points passed from BA courses

CRIM 209: Special Topic

Prerequisite: 60 points passed from BA courses

CRIM 301: Discusses the workings of the criminal justice system and explores and contextualises classical and emergent approaches to criminal justice, including their legal underpinnings. Practical and theoretical issues will be considered using a case study approach. Emphasis is given to the developing synthesis of criminal and social justice.

Prerequisite: 90 points passed from BA courses, including 30 points at Stage II

CRIM 302: Provides a critical analysis of the restorative justice process as a response to offender behaviour, which will aid an understanding of its place within the wider criminal justice system. A variety of perspectives on restorative justice will be considered, as well as the various practices associated with it, and its effectiveness according to different stakeholders.

Prerequisite: 90 points passed in BA courses, including 30 points at Stage II

CRIM 303: Explores the importance of gender in the study of crime and criminal justice and examines patterns of offending, victimisation and employment in the criminal justice system amongst women and men. Traditional criminology theories and feminist critiques, and the differential treatment of women and men in the criminal justice system as victims, offenders and professionals will be critically examined and evaluated.

Prerequisite: 90 points passed in BA courses, including 30 points at Stage II

CRIM 304: Examines the position of victims and victimology within criminology, and the representation of victims in the media. Includes case studies of specific types of victimisation such as racial hate crimes and family and sexual violence. Victims’ rights and the position of victims in the criminal justice system and restorative justice will also be examined.

Prerequisite: 90 points passed in BA courses, including 30 points at Stage II

CRIM 305: Explores patterns and theories of victimisation, the position of victims and victimology within criminology, and the representation of victims in the media. Includes case studies of specific types of victimisation such as racial hate crimes and family and sexual violence. Victims’ rights and the position of victims in the criminal justice system and restorative justice will also be examined.

Prerequisite: 90 points passed in BA courses, including 30 points at Stage II

CRIM 306: Examines punishment and incarceration as a complex social institution informed by a range of social relations and cultural meanings. Explores the way political, social and economic factors shape notions of law and order. Topics include: history of punishment and theories of incarceration, experiences of imprisonment and prison cultures, and various controversial issues in imprisonment, for example, privatisation, the use of solitary confinement, immigration detention, and prison abolition.

Prerequisite: 30 points at Stage II from Criminology, Global Politics and Human Rights 

Restriction: SOCIOL 337

CRIM 307: Examines punishment and incarceration as a complex social institution informed by a range of social relations and cultural meanings. Explores the way political, social and economic factors shape notions of law and order. Topics include: history of punishment and theories of incarceration, experiences of imprisonment and prison cultures, and various controversial issues in imprisonment, for example, privatisation, the use of solitary confinement, immigration detention, and prison abolition.

Prerequisite: 30 points at Stage II from Criminology, Global Politics and Human Rights 

Restriction: SOCIOL 337

CRIM 308: Introduces critical research methodology. Begins with the problems of epistemology (knowledge) and ontology (reality), then explores data (what is data?) and specific methods of data analysis, such as semiotics, discourse analysis and, amongst others, hermeneutics. Recommended to pursue postgraduate study in criminology.

Prerequisite: 90 points passed from BA courses, including 30 points at Stage II

CRIM 309: Explores the limits and contradictions of crime prevention technologies. Focuses on the tension between the promises of such technologies and their consequences. Limits are explored via critical analyses of DNA typing, fingerprint comparison, forecasting or prediction, security technologies, and environmental controls, such as ‘target hardening’, ‘guardianship’ and ‘environmental design’.

Prerequisite: 90 points passed from BA courses, including 30 points at Stage II

#### CRIM 700 Research in Criminology
Examines the methods of research frequently employed in the field of criminology, and the various epistemological and ethical questions that arise in criminological research, and the connection between theory and research and quantitative and qualitative analytic strategies. Students will complete a research project under supervision.  
**Restriction:** CRIM 309

#### CRIM 701 Criminological Theory
An examination of classical and contemporary theories of crime, including sociological, psychological, medical, rational-choice and critical perspectives on criminology. Attention will be given to the construction of theory as it is informed by social science research; to the social, cultural and political contexts in which these theories have emerged; and to the influence of theories in criminal justice policies.

#### CRIM 702 Advanced Issues in Penology
A survey of issues in penology, describing and interpreting specific penal reform strategies in terms of their historical, social, political and economic context. An appreciation of the main themes within penology will allow a greater understanding of the role that punishment regimes play in society and specifically in the criminal justice system.

#### CRIM 703 Contemporary Criminology
An examination of critical approaches to the study of crime and crime control. Attention will be given to understanding how these approaches critically assess social problems surrounding crime and crime control strategies; the political, social and historical development of varying critical perspectives; and the ways in which such approaches may lead to changes in criminal justice policies and practices.

#### CRIM 704 State Crime
Considers a range of theoretical approaches to criminal acts committed by state officials in pursuit of their jobs as representatives of the state, and state organisational deviance that involves the violation of human rights and is liable to sanction. The course offers a series of case studies of such state crime.

#### CRIM 705 Special Topic: Quantitative Criminology
Focuses on criminological quantitative data, and its analysis and interpretation. Students will engage with the basics of survey research and will be guided through statistical techniques to analyse a quantitative dataset. Students gain hands-on experience using software (i.e., SPSS) to run statistical tests, learn how to interpret results, and engage in quantitative reasoning and its application to criminological problems.

#### CRIM 709 Special Topic

#### CRIM 710 Cybercrime
Exploration of cybercrime and its economic and social impact. The course aims to encourage critical thinking, exploring a range of key theoretical perspectives in criminal justice and their application to cybercrime. It analyses how the Internet may promote criminal behaviour and contribute to the globalisation of crime. It also outlines the challenges of policing cybercrime, evaluating current approaches.

#### CRIM 780 Research Project
To complete this course students must enrol in CRIM 780 A and B, or CRIM 780

#### DEVELOP 701 Development Praxis
Focuses on the practice of development and its relation to theory. General topics include aid modalities, participatory development and social and environmental discourses and practices, and in those contexts the project cycle, programme management tools, monitoring and evaluation and impact assessment.

#### DEVELOP 702 Gender and Development
Considers a range of topics focusing on the centrality of gender to development and developing nations. Topics include: empowerment, reproduction, masculinities, health, fertility, gendered economies, micro-credit and familial resource allocation.
DEVELOP 703 30 Points
DEVELOP 703A 15 Points
DEVELOP 703B 15 Points

Independent Research
Supervised study on a topic or topics approved by the Academic Head or nominee.
To complete this course students must enrol in DEVELOP 703 A and B, or DEVELOP 703

DEVELOP 706 15 Points
DEVELOP 706A 7.5 Points
DEVELOP 706B 7.5 Points

Internship in Development
Involves students in the operation of a development organisation, enables them to put into practice development theory and methods, provides experience of researching and writing a report or proposal to be used by the organisation, and assists them to reflect on the process in the light of development and other social science research literature.
Prerequisite: Approval of Specialisation leader
To complete this course students must enrol in DEVELOP 706 A and B, or DEVELOP 706

DEVELOP 708 15 Points

Special Topic

DEVELOP 709 15 Points

Theories of International Development
Examines early and contemporary theories and paradigms of international development, including modernisation and dependency theory, neoliberalism, human development, post-development, and participatory development. Investigates the dominance of economic growth as a development target and how this has been contested. The course will enable students to critically analyse the processes and phenomena involved in what is called 'development'.
Restriction: DEVELOP 700

DEVELOP 710 15 Points

Development Policies and Institutions
Provides students with in-depth knowledge of policy approaches to alleviate poverty, enhance social justice and achieve sustainability. Contemporary development policies carried out by governments, donor agencies and UN organisations will be scrutinised. Examples of policies that will be covered in the course are land reform and migration policies, gender policies, climate adaptation and mitigation as well as ethical trade policies.
Restriction: DEVELOP 700

DEVELOP 712 15 Points

Research Methods in Development - Level 9
Provides a critical review of the phases of development research, including theoretically grounded research design and the unique ethical considerations surrounding development fieldwork. Equips students with advanced skills of employing qualitative and participatory research methodologies in challenging social and cultural settings and develops highly specialised knowledge in applying qualitative data analysis software, presenting findings and developing a postgraduate research proposal.

DEVELOP 713 15 Points

Ethics and Governance in International Development
Addresses challenges to ethics and governance that arise in international development processes. Examines the competing demands of various stakeholders in the development of appropriate governance mechanisms and the values and judgements that inform societal choices and political decision-making. Students shall be familiarised with ethical debates in international development and engaged in ethically informed conversations on contemporary development challenges.

DEVELOP 715 15 Points

Independent Research
Supervised study on a topic approved by the Academic Head or nominee.

DEVELOP 716 15 Points

Global Health and Development
Introduces a social science approach to the study of health and globalisation, tracing various historical genealogies from colonial hygiene movements, to international public health in the development sector, up through contemporary global health institutions and their governance structure. Current issues in health and development, including the increasing role of NGOs and human rights frameworks, are critically analysed.

DEVELOP 717 15 Points

Humanitarian Interventions
Traces the rise of the humanitarian narrative and examines how humanitarianism – along with other key words such as crisis, emergency, and intervention – has become one of the organising categories of political action and order. The course explores the possibilities and limits of intervening in the lives of individuals and communities grounded upon discourses of compassion.

DEVELOP 780 30 Points
DEVELOP 780A 15 Points
DEVELOP 780B 15 Points

Research Project - Level 9
To complete this course students must enrol in DEVELOP 780 A and B, or DEVELOP 780

DEVELOP 791 60 Points

Dissertation - Level 9

DEVELOP 792 45 Points
DEVELOP 792A 22.5 Points
DEVELOP 792B 22.5 Points

Dissertation - Level 9
To complete this course students must enrol in DEVELOP 792 A and B, or DEVELOP 792

DEVELOP 793 45 Points
DEVELOP 793A 22.5 Points
DEVELOP 793B 22.5 Points

Research Portfolio
Prerequisite: Approval of the Academic Head or nominee
To complete this course students must enrol in DEVELOP 793 A and B, or DEVELOP 793

DEVELOP 794A 45 Points
DEVELOP 794B 45 Points

Thesis - Level 9
Prerequisite: A BA(Hons) in Development Studies with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in DEVELOP 794 A and B
DEVELOP 796A 60 Points
DEVELOP 796B 60 Points

**Thesis - Level 9**

Prerequisite: A BA(Hons) in Development Studies with at least Second Class Honours, First Division, or equivalent

To complete this course students must enrol in DEVELOP 796 A and B

---

**Drama**

**Stage I**

DRAMA 100 15 Points
DRAMA 100G 15 Points

**Presentation and Performance Skills: Taking the Stage**

Focuses on enhancing oral communication and performance skills through interactive workshops with speakers and performers highlighting the transferable skills of acting in three main areas: public speaking, improvising and group-devised performance.

**Stage II**

DRAMA 202A 15 Points
DRAMA 202B 30 Points

**History and Performance**

Explores a range of major plays from ancient Greek tragedy to contemporary New Zealand drama. This course examines plays in their historical context and as texts for performance. In Semester Two, students learn skills in theatre production by staging a full-length play, directed by an outside professional director.

Prerequisite: 60 points passed including DRAMA 100
Restriction: DRAMA 204
To complete this course students must enrol in DRAMA 202 A and B

DRAMA 203 15 Points

**Drama of Aotearoa New Zealand and the Pacific**

An overview of the development of modern and contemporary drama, theatre and playwriting in Aotearoa New Zealand. Topics include: experimental theatre, feminist drama and Māori drama. Some plays by Pacific writers will be considered.

Prerequisite: 60 points passed
Restriction: DRAMA 303

DRAMA 205 15 Points

**Special Topic**

Prerequisite: 60 points passed

**Stage III**

DRAMA 301 15 Points

**Drama: Topics and Themes**

Building on the principles and practical skills from DRAMA 202 and 204, the course will focus more narrowly on topics of theatrical practice and dramatic representation. Classes involve theatrical workshops and collaborative projects.

Prerequisite: DRAMA 202 or 204

DRAMA 302 15 Points

**Performance Skills**

Classes in stage acting, improvisation, movement, voice and character, taught by professional tutors. Students will present a solo or duo short performance.

Prerequisite: 30 points at Stage II
Restriction: DRAMA 719

DRAMA 303 15 Points

**Drama of Aotearoa New Zealand and the Pacific**

An overview of the development of modern and contemporary drama, theatre and playwriting in Aotearoa New Zealand. Topics include: experimental theatre, feminist drama and Māori drama. Some plays by Pacific writers will be considered.

Prerequisite: 30 points at Stage II
Restriction: DRAMA 203

DRAMA 304 15 Points

**Contemporary Theatre Practice**

A survey of current trends in theatre practice, including: devised and dance-theatre, participatory and immersive theatre, autobiographical performance, applied theatre and documentary theatre, intermedial and virtual theatre, and new musical theatre. Students will select focus areas and engage in critical and creative research towards two key performance outcomes.

Prerequisite: 30 points at Stage II

DRAMA 305 15 Points

**Drama Tools**

Develops the skills that are essential in theatre-making, including acting and storytelling, by staging a public performance. During the intensive three-week rehearsal period, under the guidance of an experienced director, students work in a collaborative fashion through ongoing group discussion and theatrical practice. Other transferable skills include effective communication, team-work and problem solving in an active and creative manner.

Prerequisite: 30 points at Stage II

DRAMA 306 15 Points

**Production and Management Skills**

Introduces students to multiple roles and skills needed for the management of productions, companies and other organisations in the performing-arts, specifically drama, but also dance, music and other performance art. Skills discussed include planning and creating schedules and budgets, procuring and managing resources, arts organisation infrastructure and liaison, donor and benefactor development, social marketing and networking, crowdfunding, and outcome reporting.

Prerequisite: DRAMA 202 or 204

DRAMA 307 15 Points

**Special Topic**

Prerequisite: 30 points at Stage II

---

**Postgraduate 700 Level Courses**

DRAMA 708 30 Points

**Drama and the Mind**

Examines a selection of modern British and Irish dramatic texts that involve mind-body relationships and the representation of unconscious processes. Perspectives include Freudian psychoanalysis, neuroscience, and theories of acting.

DRAMA 709 45 Points

DRAMA 709A 22.5 Points
DRAMA 709B 22.5 Points

**Studio - Level 9**

A practical, explorative theatre or drama project, with written reflection, nominated by the student or a small group of students. Projects must be approved and supervised.

To complete this course students must enrol in DRAMA 709 A and B, or DRAMA 709
DRAMA 710 30 Points
Semester One Production
Students participate in a full-scale, public production of a full-length play. As far as possible all roles from acting to lighting to design to stage-management to front of house etc will be taken by students enrolled in the course. Direction will be by teaching staff or guest director.
Restriction: DRAMA 703
For students currently enrolled in a postgraduate programme in Drama.

DRAMA 711 30 Points
Semester Two Production
Students participate in a full-scale public production of a full-length play. As far as possible all roles from acting to lighting to design to stage-management to front of house etc will be taken by students enrolled in the course. Direction will be by teaching staff or guest director.
Restriction: DRAMA 703

DRAMA 716 15 Points
Directed Study in Playwriting
A study of playwriting or workshopping or dramaturgy or a short writing project, either original or adaptation.

DRAMA 717A 30 Points
DRAMA 717B 30 Points
Long Play
The writing of a complete play for live performance between one hour and two hours in length.
Restriction: DRAMA 715
To complete this course students must enrol in DRAMA 717 A and B

DRAMA 718 30 Points
Playwriting
A series of exercises in the basic building blocks of dramatic writing, incorporating guest visits from practising and established dramatists.
Restriction: DRAMA 714

DRAMA 719 15 Points
Performance Skills
Classes in stage acting, improvisation, movement, voice and character. Students will present a solo performance and a short study in performance training theory.
Restriction: DRAMA 302, 702

DRAMA 720 30 Points
DRAMA 720A 15 Points
DRAMA 720B 15 Points
Advanced Playwriting
Develops skills in playwriting with each student working under supervision.
To complete this course students must enrol in DRAMA 720 A and B, or DRAMA 720

DRAMA 721 15 Points
Directed Study in Drama 1

DRAMA 722 15 Points
Directed Study in Drama 2

DRAMA 723 30 Points
DRAMA 723A 15 Points
DRAMA 723B 15 Points
Special Topic
To complete this course students must enrol in DRAMA 723 A and B, or DRAMA 723

DRAMA 724 30 Points
DRAMA 724A 15 Points
DRAMA 724B 15 Points
Special Topic
To complete this course students must enrol in DRAMA 724 A and B, or DRAMA 724

DRAMA 725 15 Points
Special Topic in Drama

DRAMA 726 30 Points
Special Topic

DRAMA 728 30 Points
Research Principles for Theatre
Outlines the principles of research for theatre. Combines critical enquiry, theory and practical exercises to explore best practice in scholarly and creative performance research. Topics include developing a subject, refining a research question, scholarly research practices, using the creative process as research methodology, and framing research findings. Examines impact of language, culture and gender on theatre research.

DRAMA 730 30 Points
DRAMA 730A 15 Points
DRAMA 730B 15 Points
Studio/Project in Practical Drama
Students may undertake a supervised practical project in drama of a limited scale, either as an individual or in a small group.
To complete this course students must enrol in DRAMA 730 A and B, or DRAMA 730

DRAMA 770 60 Points
DRAMA 770A 30 Points
DRAMA 770B 30 Points
Studio/Project in Drama - Level 9
Substantial individual and group project(s), including some public presentation of project work.
To complete this course students must enrol in DRAMA 770 A and B, or DRAMA 770

DRAMA 783 60 Points
DRAMA 783A 30 Points
DRAMA 783B 30 Points
Dissertation - Level 9
To complete this course students must enrol in DRAMA 783 A and B, or DRAMA 783

DRAMA 790 30 Points
DRAMA 790A 15 Points
DRAMA 790B 15 Points
Research Project - Level 9
To complete this course students must enrol in DRAMA 790 A and B, or DRAMA 790

DRAMA 792 45 Points
DRAMA 792A 22.5 Points
DRAMA 792B 22.5 Points
Dissertation - Level 9
To complete this course students must enrol in DRAMA 792 A and B, or DRAMA 792

DRAMA 793A 45 Points
DRAMA 793B 45 Points
Thesis - Level 9
To complete this course students must enrol in DRAMA 793 A and B
### Course Prescriptions

**ENGLISH 101 15 Points**

**Literature and the Contemporary**

Constitutes a wide-ranging study of literatures in English in different forms and media in the twentieth and twenty-first centuries. Themes studied may include modernity/postmodernity, diaspora, gender relations, sexuality, cross-cultural contacts, memory, film adaptation, war and ecological crisis. Works will be examined in the context of key historical events and cultural movements.

### Stage I

#### English

**ENGLISH 102 15 Points**

**ENGLISH 102G 15 Points**

**Great Books: Seduction and Betrayal**

Surveys a selection of literary masterpieces by major authors from different periods in the history of English literature. Selection of texts is organised around the theme of seduction and betrayal, understood more particularly as a story-arc exploring attitudes to love and sex, to politics and ambition, to ethical conduct, and to the activity of reading itself.

**ENGLISH 113 15 Points**

**Global South: New World Texts**

Introduces cross-disciplinary study of transnational texts in English, with particular reference to poetry and prose works from the Caribbean and Pacific, including New Zealand. In both regions, the local history of writing is extensive and includes notable texts that reflect diverse cultural origins, but also a sharp sense of the new (scenes, socio-political structures, languages).

**ENGLISH 121 15 Points**

**ENGLISH 121G 15 Points**

**Reading/Writing/Text**

Develops University-wide skills of reading, writing and analysis. Addresses the needs of students in both English and other disciplines where both writing and reading have an important role in learning. The course fosters personal writing skills and also introduces writing as a subject of study in itself.

### Stage II

#### English

**ENGLISH 204 15 Points**

**Pacific Literature in English**

An introduction to contemporary Pacific Literature exploring texts from canonical Pacific writers to spoken word performance poets. Texts will be examined in light of recent theories in Indigenous Writing Studies, with a focus on crossings of cultural and creative borders, diaspora and identity.

**Prerequisite:** 30 points at Stage I in English, or 15 points at Stage I in English and PACIFIC 100

**ENGLISH 207 15 Points**

**Creating Stories**

Explores narrative theory and analysis through major stories from the literature and art of the last six centuries, from Shakespeare's sources to now; from at least four continents; and including short story, drama, 'classic' and modern novels, verse, children's picture story, narrative painting, comics, film and music video. Investigates universal, human, local, individual, work and intra-work levels of analysis.

**Prerequisite:** 60 points passed

**Restriction:** ENGLISH 111

**ENGLISH 213 15 Points**

**Age of Shakespeare: Tragedy**

An introduction to the golden age of English theatre, involving detailed study of a selection of tragedies by Shakespeare and his contemporaries. The theatrical emphasis of the course is intended to help students respond to the plays as theatrical artefacts and not merely as literary texts.

**Prerequisite:** 30 points at Stage I in English or Drama, or approval of Academic Head or nominee

**Restriction:** ENGLISH 353

**ENGLISH 214 15 Points**

**Early Texts: Modern Inventions**

A study of key works and contexts of selected medieval and early modern writers, including Chaucer, Shakespeare, Milton, and Behn. Offers a compact history of literary engagements with important social issues that arose in a period notable for revolution and reform; also develops knowledge of literary forms and trends that are historically important, but, in this period, relatively new.

**Prerequisite:** 15 points at Stage I in English

**Restriction:** ENGLISH 210, 330

**ENGLISH 216 15 Points**

**Modernist Transformations**

Taking transformation as its theme, the course focuses on a selection of influential Modernist works that map out some of the possibilities for the avant-garde in the early twentieth century. Students will expand their knowledge of modernism as a multimedia, multicultural phenomenon and exert their imaginations and research skills as they consider its relevance to contemporary cultural production.

**Prerequisite:** 30 points at Stage I in English

**Restriction:** ENGLISH 206, 222, 322

**ENGLISH 217 15 Points**

**Postcolonial Memory: Ireland**

Explores globally significant issues of cultural memory, identity and postcolonial inheritance through the lens of Irish literature and cultural experience. Debates about memory and postcoloniality guide our navigation of twentieth and twenty-first century Irish novels, plays, poetry and short stories. Conversely, our literary navigations interrogate postcolonial representations of identity across changing cultural contexts.

**Prerequisite:** 30 points at Stage I in English

**Restriction:** ENGLISH 266, 316, 361
ENGLISH 219 15 Points
Nineteenth Century Literature
Considers a range of literature from the nineteenth century - poetry, fiction and drama - as regards its treatment of growing up in the period. Issues covered include the recognition of childhood as a special state, the establishment of an individual's gender and sexual identity and the opportunities and constraints afforded by the changing social hierarchy and religious belief systems. Prerequisite: 30 points at Stage I in English
Restriction: ENGLISH 104, 360

ENGLISH 221 15 Points
New Zealand Literature
Offers an historical survey of major writers and key issues in New Zealand literature. Students will not only read some of the best writing our country has to offer but will develop, through the literature studied, a richly detailed overview of New Zealand experience from the period of first contact until now. Prerequisite: 30 points at Stage I in English
Restriction: ENGLISH 355

ENGLISH 223 15 Points
Modern Writing and Critical Thinking
Explores theories and practices of writing and criticality in academic, civic, and artistic contexts. We consider some of the scripts that organise literate social practices and how to perceive and extrapolate their principles. We explore how we are affected by, how we navigate, and how we transform our immersive world of signs. Prerequisite: 15 points at Stage I in English
Restriction: ENGLISH 305

ENGLISH 252 15 Points
Creative Writing: Four Genres
Develops practical skills in four writing genres: Poetry, Multimedia, Creative Non-Fiction and Short Fiction. A range of published models will be studied alongside write and workshop exercises; and students will develop close-reading skills. Two portfolios of creative work cover all four genres, based on work begun in seminars. Prerequisite: 45 points passed including 30 points in English
Restriction: ENGLISH 255, 324

ENGLISH 256 15 Points
Tolkien and his Worlds
Examines Tolkien's primary fictional texts, The Hobbit and The Lord of the Rings trilogy, in relation to the author's ideas about fantasy and world-building, his use of Celtic, German and Christian mythologies, and the adaptation of the novels into film. Prerequisite: 60 points passed
Restriction: ENGLISH 223

ENGLISH 305 15 Points
Modern Writing and Critical Thinking
Reading modern works that overtly blend critical and creative styles, the course examines relations among discourses, criticality, and imagination. Prerequisite: 30 points at Stage I in English, Drama, and/or Writing Studies
Restriction: ENGLISH 223

ENGLISH 306 15 Points
Tolkien and his Worlds
Examines Tolkien's primary fictional texts, The Hobbit and The Lord of the Rings trilogy, in relation to the author's ideas about fantasy and world-building, his use of Celtic, German and Christian mythologies, and the adaptation of the novels into film. Prerequisite: 60 points passed
Restriction: ENGLISH 256

ENGLISH 310 15 Points
Shakespeare: Comedies and Tragicomedies
A study of selected comedies and tragicomedies of Shakespeare and his contemporaries. Works of Shakespeare may include the romantic comedies of his first decade and a half as a playwright, the so-called 'problem plays', the darker comedies of his middle years, and the tragicomedies of his final years, sometimes called 'romances'. The nature of comedy and its relationship to tragedy is also explored. Prerequisite: 30 points at Stage I in English or Drama, or approval of Academic Head or nominee
Restriction: ENGLISH 310

Stage III

ENGLISH 305 15 Points
Modern Writing and Critical Thinking
Reading modern works that overtly blend critical and creative styles, the course examines relations among discourses, criticality, and imagination. Prerequisite: 30 points at Stage I in English, Drama, and/or Writing Studies
Restriction: ENGLISH 223

ENGLISH 306 15 Points
Tolkien and his Worlds
Examines Tolkien's primary fictional texts, The Hobbit and The Lord of the Rings trilogy, in relation to the author's ideas about fantasy and world-building, his use of Celtic, German and Christian mythologies, and the adaptation of the novels into film. Prerequisite: 60 points passed
Restriction: ENGLISH 223

ENGLISH 308 15 Points
The Gothic: Texts and Theory
An advanced introduction to literary theory through an exploration of classic works of Gothic Literature. We examine the competing claims of psychoanalysis,
new historicism, post-colonialism and queer studies in accounting for the appeal and cultural significance of the Gothic mode.

**Prerequisite:** 30 points at Stage II

**Restriction:** ENGLISH 321

---

### ENGLISH 322 15 Points

**Modernist Transformations**

Takes transformation as its theme, focuses on a selection of influential Modernist works that map out some of the possibilities for the avant-garde in the early twentieth century. Students will expand their knowledge of modernism as a multimedia, multicultural phenomenon and exert their imaginations and research skills as they consider its relevance to contemporary cultural production.

**Prerequisite:** 30 points at Stage II in English

**Restriction:** ENGLISH 206, 216, 222

---

### ENGLISH 323 15 Points

**Contemporary Poetry**

An introduction to the work of a dozen influential poets, this course emphasises new developments. The focus is on the still controversial L=A=N=G=U=A=G=E poetry that emerged in the late 1970s and developments concurrent with it. This shift is seen against a background of changes in technology, politics and in popular and intellectual culture.

**Prerequisite:** 30 points at Stage II in English

---

### ENGLISH 324 15 Points

**Creative Writing: Four Genres**

Develops practical skills in four writing genres: Poetry, Multimedia, Creative Non-Fiction and Short Fiction. A range of published models will be studied alongside write and workshop exercises and students will develop close-reading skills. Two portfolios of creative work cover all four genres, based on work begun in seminars.

**Prerequisite:** 60 points passed, including 45 points in English

**Restriction:** ENGLISH 252

---

### ENGLISH 330 15 Points

**Early Texts, Modern Inventions**

A study of key works and contexts of selected medieval and early modern writers, including Chaucer, Shakespeare, Milton, and Behn. Offers a compact history of literary engagements with important social issues that arose in a period notable for revolution and reform; also develops knowledge of literary forms and trends that are historically important, but, in this period, relatively new.

**Prerequisite:** 30 points at Stage II in English

**Restriction:** ENGLISH 214, 351

---

### ENGLISH 340 15 Points

**Arthurian Literature**

The Arthurian story, from its first passage into French in the twelfth century. The English writings are studied in comparison with their French sources and counterparts (in translation).

**Prerequisite:** 30 points at Stage II in English or FRENCH 200

**Restriction:** ENGLISH 738, 746

---

### ENGLISH 343 15 Points

**Writing Poetry**

Students will be guided through poetry and poetics and the writing of poetry. As part of the course requirement, they will submit a portfolio of poems.

**Prerequisite:** 30 points at Stage II in English, Drama, Writing Studies and Programme Coordinator approval

**Restriction:** ENGLISH 328

---

### ENGLISH 344 15 Points

**Writing Creative Prose**

An art and craft class focused on refining technical skills in writing short fiction and creative non-fiction, studying local and international models, and based around weekly workshops.

**Prerequisite:** 60 points passed and Programme Coordinator approval

**Restriction:** ENGLISH 328

---

### Postgraduate 700 Level Courses

---

### ENGLISH 700 30 Points

**Pacific Poetry**

A critical engagement with poetry written in English by the peoples of Oceania (Polynesia, Melanesia, Micronesia). Pacific aesthetics and epistemologies evident in orature and art, in addition to post-colonial and women of colour
feminist theories, will be used in the construction of culturally insightful frameworks to better appreciate this poetry that spans from the 1970s to the present day.

**Restriction: ENGLISH 717, 720**

**ENGLISH 703**  
**Stages of Religion**  
The history of English religion through the longer Reformation period, as reflected and addressed especially in the drama of the period, from the Cycle-plays to Milton. Combines English history and history of religion with issues of dramatic history and performance. Extensive use of primary and rare materials.

**ENGLISH 705**  
**Modernism and the Contemporary**  
Examines the work of Modernist writers intensely concerned with ideas of the contemporary within the context of Modernism, the defining international ‘movement’ of the twentieth century, known for its narratives of crisis and transformation.

**ENGLISH 706**  
**Shakespeare: Selected Plays and Poems**  
The focus of this course varies from year to year but includes attention to several of the most influential approaches to the reading of Shakespearean texts: psychoanalysis, feminism, new historicism, cultural materialism and post-colonial theory.

**ENGLISH 709**  
**Theatre on Screen**  
Examines a range of mainstream and arthouse films which treat the processes of theatrical performance and dramatic composition. These films create commercial and aesthetic appeal by engaging the thin dividing line between reality and drama. Topics include: theatricality and politics; the business of theatre; gender and sexuality; adaptation.

**Restriction: ENGLISH 774**

**ENGLISH 711**  
**Shakespeare from Stage to Page, 1590-1640**  
Studies the development of the theatre in the half-century encompassing Shakespeare's career and after, and its relation to the print industry of the same period. Treats authors and writing, acting, company structure, audiences, censorship, book production, publication and readership. Involves extensive use of primary and rare materials.

**Restriction: ENGLISH 342, 754, 763**

**ENGLISH 713**  
**Research Essays - Level 9**  
A number of essays are written with guidance from a supervisor, focusing on a field, author, genre or period of literature.

**To complete this course students must enrol in ENGLISH 713 A and B, or ENGLISH 713**

**ENGLISH 714**  
**Special Topic: Performing Writing**  
Considers multilingual, multi-genre, and multi-modal writing across the last fifty years. Readings include paper books, performance writing texts (live, site-specific, and installations), and born-digital literature. Authors include Caroline Bergvall, Kamau Brathwaite, JR Carpenter, Caren Florance, Édouard Glissant, Duriel E. Harris, Aodán McCardle, Maggie O’Sullivan, Tru Paraha, John Pule, and Jack Ross.

**ENGLISH 718**  
**Opening the Archive**  
Develops practical research skills while attending to archives as concept and theory. Skills include scoping and pursuing a significant research project, seeking permissions and presenting findings. The course also reflects critically on the provenance of textual, material, visual and digital collections and their public and scholarly uses in the twenty-first century.

**ENGLISH 731**  
**Jane Austen and Charlotte Brontë**  
A comparative study of two significant women novelists of the nineteenth century, exploring the similarities and differences among their works, as well as giving attention to their critical and popular reception history and their 'afterlife' in print and on screen.

**Restriction: ENGLISH 752**

**ENGLISH 732**  
**Popular Fiction: Mystery, Romance and Fantasy**  
Popular Fiction offers an opportunity to extend critical study of literature to the mass of texts customarily denied academic approval. A key element is the reader’s pleasure. Does pleasure make a difference in what is, admittedly, a critical study of several varieties of modern popular fiction, especially children’s literature, romance and crime fiction (both in print and on television). Reading of texts will be supported by discussion of a range of theoretical issues.

**To complete this course students must enrol in ENGLISH 732 A and B, or ENGLISH 732**

**For students currently enrolled in a postgraduate programme in English**

**ENGLISH 746**  
**Arthurian Literature**  
The Arthurian story, from its first passage into French in the twelfth century. The English writings are studied in comparison with their French sources and counterparts (in translation).

**Restriction: ENGLISH 340**

**ENGLISH 769**  
**Representing Imagining**  
Investigates representation in imaginative writing. Principal texts are from 1928 to the present and from North America, UK, Aotearoa New Zealand, France, and the Caribbean. Topics include genre and expectations; ideologies of originality and copying; discursive mixing; authenticity; wholeness and brokenness; transliterality; the page, the codex and the digitas; and the economy of the imaginative subject.

**ENGLISH 770**  
**Research Essays - Level 9**  
Essays on a particular author, genre or theme.

**ENGLISH 775**  
**Special Topic**  

**ENGLISH 780**  
**Research Essay - Level 9**  
To complete this course students must enrol in ENGLISH 780 A and B, or ENGLISH 780

**For students enrolled in a postgraduate programme in English.**
ENGLISH 781  30 Points
Research Project - Level 9

ENGLISH 78A  15 Points
ENGLISH 78B  15 Points

Interpreting Janet Frame
An exploration of the fiction of renowned writer Janet Frame. Using interpretative theory, the course addresses the challenge of developing enabling critical contexts for Frame's novels. Conversely, Frame's novels are used as a means of exploring the reading process and the dynamics involved in the act of interpretation. Restriction: ENGLISH 710
To complete this course students must enrol in ENGLISH 782 A and B

ENGLISH 787  30 Points
Literature USA: from the American Renaissance to the Jazz Age
Examines a selection of classic texts and major issues in the literature of the United States from the American Renaissance of the 1840s and 1850s through to the Jazz Age of the 1920s and 1930s.

ENGLISH 789  60 Points
Dissertation - Level 9

ENGLISH 792  45 Points
ENGLISH 793A  22.5 Points
ENGLISH 793B  22.5 Points
Dissertation - Level 9
To complete this course students must enrol in ENGLISH 792 A and B, or ENGLISH 792

ENGLISH 793A  45 Points
ENGLISH 793B  45 Points
Thesis - Level 9
Prerequisite: A BA(Hons) in English with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in ENGLISH 793 A and B

ENGLISH 796A  60 Points
ENGLISH 796B  60 Points
Thesis - Level 9
Prerequisite: A BA(Hons) in English with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in ENGLISH 796 A and B

ENGLISH 797A  60 Points
ENGLISH 797B  60 Points
Research Portfolio - Level 9
Prerequisite: A BA(Hons) in English with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in ENGLISH 797 A and B

---

**English for Academic Purposes**

**Preparatory Courses**

ENGLACP 20P  25 Points

**English for Academic Purposes Level 1**
Extensive reading of academic texts; writing different types of essays and reports, summary reviews; developing editing and referencing skills, understanding and avoiding plagiarism; oral presentations and group discussion skills and strategies, including pronunciation; developing and consolidating academic vocabulary and grammar of written discourse; monitoring and evaluating own learning; mastery of using electronic and print media learning and reference resources; understanding different English accents. Restriction: ENGLACP 40P

ENGLACP 30P  35 Points

**English for Academic Purposes Level 2**
Extensive and intensive reading of extended academic texts; developing skills of analysing, synthesising and critical commentary; writing longer essays and reports (1000 words); integrating and referencing source material; proof-reading and editing; avoiding plagiarism; oral seminar presentations; listening and note-taking from lectures in a subject of choice; orientation to student support and learning resources at the University of Auckland. Prerequisite: ENGLACP 20P

ENGLACP 40P  25 Points

**English for Academic Purposes Level 3**
Extensive and intensive reading of extended academic texts at postgraduate level; developing skills of analysing, synthesising and critical commentary; writing longer essays and reports integrating and referencing source material; proof-reading and editing; avoiding plagiarism; oral seminar presentations and discussions; listening and note-taking from lectures. By the end of the course, students are expected to be able to understand texts at a B2/B2+ level and produce texts at a B2+ level. Corequisite: ACADINT A01

ENGLACP 50P  30 Points

**English for Undergraduate Studies**
Designed for learners of English who require a level of English language competency for academic study at an undergraduate level in an English-medium tertiary environment. The course covers extensive and intensive reading of extended academic texts; writing academic essays and reports; integrating and referencing source material; proof-reading and editing; oral presentations and group discussions; listening and note-taking from lectures. By the end of the course, students are expected to be able to understand texts at a B2/B2+ level and produce texts at a B2+ level. Corequisite: ACADINT A01

ENGLACP 60P  30 Points

**English for Postgraduate Studies**
Designed for learners of English who require a level of English language competency for academic study at a postgraduate level in an English-medium tertiary environment. The course covers extensive and intensive reading of extended academic texts; writing academic essays and reports; integrating and referencing source material; proof-reading and editing; oral presentations and seminar discussions; listening and note-taking from lectures. By the end of the course, students are expected to be able to understand texts at a B2+/C1- level and produce texts at a B2+/C1- level. Corequisite: ACADINT A01

---

**English Writing**

**Stage I**

ENGWRT 101  15 Points

**English Writing for Academic Purposes**
A skills-based analysis of texts written for academic purposes. Topics include: essays of comparison and
contrast, argumentative essays, problem solution texts, literature reviews, critiques, and report writing. Restriction: ENGWRIT 94F

French

Stage I

FRENCH 101 15 Points
FRENCH 101G 15 Points

Introductory French Language 1
Introduces students to spoken and written French. It is delivered through two 90-minute sessions per week on campus, blended with an on-line component that uses up-to-date methodology and extensive multimedia materials. It is open to beginners or near beginners. Students who have achieved 24 recent credits in Level 1 NCEA French or 12-16 recent credits in Level 2 NCEA French (or equivalent previous study) should enrol in FRENCH 102. FRENCH 101 does not count towards a major in French. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

FRENCH 102 15 Points
Introductory French Language 2
Further development of basic proficiency in everyday French language to communicate in authentic situations. Delivered through two 90-minute sessions per week on campus, blended with on-line learning tasks that use interactive technology and extensive multimedia materials. A range of activities are used to develop speaking, listening, reading and writing skills and students’ strategies for autonomous learning. Note: Students with NCEA level 2 French should enrol in this course. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

FRENCH 101G does not count towards a major in French. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Prerequisite: FRENCH 101, or approval of Academic Head or nominee

Stage II

FRENCH 203 15 Points
Intermediate French Language 1
Consolidates and expands previously acquired knowledge and skills to an intermediate proficiency in everyday authentic French language. Delivered through two 90-minute sessions per week on campus, blended with on-line learning tasks that use extensive multimedia materials. A range of activities are used to develop speaking, listening, reading and writing skills and students’ strategies for autonomous learning. Note: Students with NCEA level 3 French should enrol in this course. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Prerequisite: FRENCH 102, or approval of Academic Head or nominee

FRENCH 204 15 Points
Intermediate French Language 2
Topic-based oral and written expression, aural and written comprehension in French, covering a wide range of personal and professional situations. This course is designed for students who have passed FRENCH 203 or 269. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Prerequisite: 15 points from FRENCH 203, 269, or approval of Academic Head or nominee

FRENCH 214 15 Points
French Linguistics
A presentation, in French, of key aspects of French linguistics relevant to the study and teaching of French as a first or second language, including phonetics, phonology, morphology and syntax. The course assumes no prior specialist knowledge of this field.

Prerequisite: 15 points from FRENCH 204, 269, 304
Restriction: FRENCH 314

FRENCH 229 15 Points
The French-speaking World
A study of culture in texts and films from France, North Africa, Africa, Canada, the Caribbean and the Pacific.

Prerequisite: 15 points from FRENCH 204, 269, 304
Restriction: FRENCH 329

FRENCH 241 15 Points
Reading French Literature
Introducing students to a variety of critical approaches, this course aims to provide a basic literary framework through the analysis of selected texts representing a range of genres and periods. Taught in French.

Prerequisite: 15 points from FRENCH 204, 269, 304
Restriction: FRENCH 379

FRENCH 244 15 Points
Modern France: History and Culture
An analysis of how France has been shaped by diverse historical and cultural legacies since the sixteenth century. Topics include the role of religion, the transformations of the State, the significance of Revolution, and the role of war and colonial expansion in modern French history.

Prerequisite: 30 points at Stage I
Restriction: FRENCH 231, 313, 344

FRENCH 269 15 Points
French Language and Culture in Film and Literature
A linguistic and cultural course taught entirely in French and designed to enhance students’ aural, oral and written proficiency through the study of a series of recent films and literary texts that also shed light on important aspects of twentieth-century France. This course is designed for students with 24 credits in Level 3 NCEA French, or who have passed FRENCH 203.

Prerequisite: 15 points from FRENCH 203, 204, 304, or approval of Academic Head or nominee
Restriction: FRENCH 129

FRENCH 277 15 Points
French Study Abroad 2A
Formal language study in an approved overseas institution where the language of instruction is French.

Prerequisite: Permission of Academic Head or nominee

FRENCH 278 15 Points
French Study Abroad 2B
Formal language study in an approved overseas institution where the language of instruction is French.

Prerequisite: Approval of Academic Head or nominee

FRENCH 279 15 Points
Special Topic: Panorama of the French Novel
A study of the changing forms of the novel from the representations of the seventeenth century court in Madame de Lafayette's La Princesse de Clèves to the twentieth century experiments of the French 'new novelists'. Taught in French.

Prerequisite: 15 points from FRENCH 204, 269, 304
Restriction: FRENCH 341, 741

Stage III

FRENCH 302 15 Points
Special Topic

FRENCH 304 15 Points
Advanced French Language 1
Strengthens students' command of reading, writing, speaking and listening in French. Organised thematically and uses both textual and audio-visual material to introduce students to a range of communicative registers. May not be taken if a more advanced language acquisition course in this subject has previously been passed.
Prerequisite: FRENCH 204

FRENCH 305 15 Points
Advanced French Language 2
Further extends students' French language skills through textual and audio-visual material, enabling them to attain a high level of oral and written proficiency.
Prerequisite: FRENCH 304

FRENCH 306 15 Points
Medieval French Language and Culture: Love and Laughter in the Middle Ages
The main focus will be on language and literature, placing works in their historical and cultural contexts.
Prerequisite: FRENCH 304
Restriction: FRENCH 706

FRENCH 314 15 Points
French Linguistics
A presentation, in French, of key aspects of French linguistics relevant to the study and teaching of French as a foreign language, including phonetics, phonology, morphology and syntax. The course assumes no prior specialist knowledge of this field.
Prerequisite: FRENCH 304
Restriction: FRENCH 214

FRENCH 320 15 Points
French Translation Practice
A course for students wishing to develop skills in translation and to increase their proficiency in using French in a professional or business environment.
Prerequisite: FRENCH 304
Restriction: FRENCH 720

FRENCH 329 15 Points
The French-speaking World
Prerequisite: FRENCH 304
Restriction: FRENCH 229

FRENCH 331 15 Points
Special Study in French
A research project approved by the Academic Head.
Prerequisite: FRENCH 304 and approval of Academic Head or nominee

FRENCH 341 15 Points
Panorama of the French Novel
A study of the changing forms of the novel from the representations of the seventeenth century court in Madame de Lafayette's La Princesse de Clèves to the twentieth century experiments of the French 'new novelists'. Taught in French.
Prerequisite: FRENCH 304
Restriction: FRENCH 279, 741

FRENCH 344 15 Points
Modern France: History and Culture
An analysis of how France has been shaped by diverse historical and cultural legacies since the sixteenth century.

FRENCH 377 15 Points
French Study Abroad 3A
Formal language study in an approved overseas institution where the language of instruction is French.
Prerequisite: Approval of Academic Head or nominee

FRENCH 378 15 Points
French Study Abroad 3B
Formal language study in an approved overseas institution where the language of instruction is French.
Prerequisite: Approval of Academic Head or nominee

FRENCH 379 15 Points
Special Topic: Reading French Literature
Introducing students to a variety of critical approaches, this course aims to provide a basic literary framework through the analysis of selected texts representing a range of genres and periods. Taught in French.
Prerequisite: FRENCH 304
Restriction: FRENCH 241

Postgraduate 700 Level Courses

FRENCH 701 30 Points
Old French: The Medieval Romance
The evolving medieval French romance with particular emphasis on the Roman de la Rose as the quintessential medieval study of human nature.

FRENCH 704 15 Points
Special Topic

FRENCH 705 30 Points
Advanced Language
Advanced language practice in French, with emphasis on close-reading, textual summary and synthesis of both aural and written texts. French techniques of writing will be studied and students will apply these in written assignments.
Prerequisite: FRENCH 305 or placement test and approval of Academic Head or nominee
Restriction: FRENCH 702, 703

FRENCH 706 30 Points
Medieval French Literature and Culture: Love and Laughter in the Middle Ages
The main focus will be on language and literature, placing works in their historical and cultural contexts.
Restriction: FRENCH 306

FRENCH 707 15 Points
Specialised French Translation 1
Theoretical approaches to translation will be taught through the study of specific authentic texts. Students will use both theoretical and practical knowledge to analyse and produce professional quality translations in a specialised field. Fields covered will be chosen from: literary translation, indigenous Francophone texts, sub-titling for film and television, marketing and advertising, technical and legal or other highly specialised texts.

FRENCH 708 15 Points
Specialised French Translation 2
Theoretical approaches to translation will be taught through the study of specific authentic texts. Students will use both...
theoretical and practical knowledge to analyse and produce professional quality translations in a specialised field. Fields covered will be chosen from: literary translation, indigenous Francophone texts, sub-titling for film and television, marketing and advertising, technical and legal or other highly specialised texts.

To complete this course students must enrol in FRENCH 750 A and B, or FRENCH 750

FRENCH 751 30 Points
FRENCH 751A 15 Points
FRENCH 751B 15 Points
Special Study
Supervised research on a topic or topics approved by the Academic Head or nominee.
To complete this course students must enrol in FRENCH 751 A and B, or FRENCH 751
FRENCH 796A 60 Points
FRENCH 796B 60 Points
Thesis - Level 9
Prerequisite: A BA(Hons) in French with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in FRENCH 796 A and B

FRENCH 797A 60 Points
FRENCH 797B 60 Points
Research Portfolio - Level 9
Prerequisite: A BA(Hons) in French with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in FRENCH 797 A and B

Gender Studies

Stage I
GENDER 101 15 Points
GENDER 101G 15 Points
Gender: Global and Local
Develops an understanding of key concepts that underlie gender analysis, and how they are expressed in politics, culture and society. Examines the meaning of gender across a range of subjects and issues on the global stage and in our everyday lives.
Restriction: GENDER 100

Stage II
GENDER 206 15 Points
Special Topic
Prerequisite: 30 points passed
GENDER 207 15 Points
Special Topic
Prerequisite: 30 points passed
GENDER 208 15 Points
Thinking Gender
Interdisciplinary examination of feminist theories of gender and sexuality. Focuses on contemporary issues, debates, and practices, while grounding them in foundational theories and investigating how these issues and debates play out across disciplines and practices. Examples include the perils of identity politics, tensions between feminist and queer theories, the politics of representation, and gender justice in a globalised world.
Prerequisite: 30 points passed
Restriction: GENDER 308

GENDER 211 15 Points
Transgender and the Queering of Sexuality
Considers challenges of being transgender, coming out and queering sex/gender normativity. Transgender theory is deployed to analyse and interrogate material and subjective aspects of transgender, including generational attitudinal changes and the implications for capitalism, politics, culture and society. Draws on psychoanalytic-influenced theories to question and queer human sexuality, libidinal investments in masculine domination and sex/gender essentialism.
Prerequisite: 30 points passed at Stage I
Restriction: GENDER 311

Stage III
GENDER 300 15 Points
Special Topic
GENDER 301 15 Points
Gender, Sex and Commodification
Focuses on current and controversial issues at the intersections of sex and gender and their co-construction. Issues will be approached from contemporary feminist and queer theory perspectives. Various topics are critically examined in both theoretical and practical terms, such as co-constructions of gender and sexualities in pornography and advertising, technologies and reproduction, representations of transgender bodies/identities, and the selling of cybersex.
Prerequisite: 30 points at Stage II in Communication, Gender Studies, or Sociology
Restriction: SOCIOL 324

GENDER 306 15 Points
Gender and Change: Making Waves
Explores the relationship between gender and other structures of inequality, like sexuality and ethno-race, and progressive social change. Develops and engages students' theoretically informed critical skills in order to interrogate how gender inequality is re-produced, contested and/or transformed through all or some of the following: literary texts, visual representations, media texts, everyday practices and interactions, and policy.
Prerequisite: 30 points at Stage II in Gender Studies, or 15 points at Stage II in Communication, Gender Studies and 30 points passed at Stage II in BA courses

GENDER 307 15 Points
Special Topic
Prerequisite: 30 points at Stage II
Restriction: WOMEN 307

GENDER 311 15 Points
Transgender and the Queering of Sexuality
Considers challenges of being transgender, coming out and queering sex/gender normativity. Transgender theory is deployed to analyse and interrogate material and subjective aspects of transgender, including generational attitudinal changes and the implications for capitalism, politics, culture and society. Draws on psychoanalytic-influenced theories to question and queer human sexuality, libidinal investments in masculine domination and sex/gender essentialism.
Prerequisite: 30 points passed at Stage II
Restriction: GENDER 211

Postgraduate 700 Level Courses
GENDER 700 30 Points
Critical Theories and Methods in Gender Studies
Engages, using an interdisciplinary approach, critical theories and epistemological debates in gender studies; provides grounding in key gender studies methods and methodologies; traces the evolution in approaches to gender from early feminist scholarship to the present; requires independent research and application of theories and methods.
GENDER 701 30 Points
GENDER 701A 15 Points
GENDER 701B 15 Points

Special Study
To complete this course students must enrol in GENDER 701 A and B, or GENDER 701

GENDER 705 15 Points

Research Project
Restriction: GENDER 785
To complete this course students must enrol in GENDER 785 A and B, or GENDER 785

GENDER 785 45 Points
GENDER 785A 22.5 Points
GENDER 785B 22.5 Points

Dissertation - Level 9
To complete this course students must enrol in GENDER 785 A and B, or GENDER 785

GERMAN 101 15 Points
GERMAN 101G 15 Points

German Language Introductory 1
Written and oral use of German for students with no previous knowledge of the language or with fewer than 16 credits in NCEA Level 2 German.
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

GERMAN 102 15 Points

German Language Introductory 2
Written and oral use of German. Assumes that students have passed GERMAN 101 or have at least 16 credits in NCEA Level 2 German.
Restriction: GERMAN 101 or approval of Academic Head or nominee
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

GERMAN 104. May not be taken if a more advanced language acquisition course in this subject has previously been passed

Stage I

GERMAN 200 15 Points

German Language Intermediate 1
Written and oral use of German. Assumes that students have passed GERMAN 102 or have achieved in all standards entered for German NCEA Level 3 or gained grade average 50 or above, or have acquired language competence through a stay or exchange in a German-speaking country.
Restriction: GERMAN 104 or approval of Academic Head or nominee

GERMAN 201 15 Points

German Language Intermediate 2
Written and oral use of German. Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

Stage II

GERMAN 202 15 Points
Special Topic: Topics in German Culture and Language
A critical exploration of important issues in German Studies. The first part investigates German language studies, including the specifics of written and oral German, contrastive linguistics, dialects and varieties, German as a minority language (including in the South Pacific), youth language, and German online-communication. The second part examines modern German social and cultural history through works of literature and film.
Restriction: GERMAN 392

GERMAN 203 15 Points

Modern Germany: A century of social change
An overview of German society from 1914 to the present, exploring social change in late Imperial Germany the Weimar Republic, Nazi Germany, and the reconstruction of both East and West Germany. Considers issues such as state surveillance, political terrorism, social impacts of German unification, globalisation, and Germany’s role within Europe. No knowledge of German is required.
Restriction: GERMAN 307

GERMAN 207 15 Points

Modern German Literature
A study of post-1990 German literary texts as well as their social and political environment. Topics include: literary responses to a newly developing national identity, literary reconstructions of life in the GDR, literary representations of a united Germany by immigrants, Jewish identity in a united Germany. Authors considered include Jens
Sparshuh, Monika Maron, Barbara Honigmann, Stefan Heym and others.
Prerequisite: 45 points in German
Restriction: GERMAN 303

GERMAN 212  15 Points
Special Study in German
A topic arranged and approved by the Academic Head or nominee.
Prerequisite: Approval of Academic Head or nominee

GERMAN 213  15 Points
Introduction to German Linguistics
Introduction to the linguistic side of Modern German, examining some of its different varieties (spoken vs written, sociolinguistics etc) and some recent changes the language has undergone in its structure.
Prerequisite: GERMAN 102
Restriction: GERMAN 313

GERMAN 214  15 Points
Teaching German as a foreign language
Provides an overview of teaching and learning German as a second or heritage language. Students gain a solid understanding of German teaching and learning, including concepts and theories behind second language learning, individual differences, learning needs, approaches to strengthen learner autonomy as well as methods and principles of teaching German.
Prerequisite: GERMAN 201 or equivalent
Restriction: GERMAN 314

GERMAN 230  15 Points
German Cinema from Murnau to Riefenstahl
A close analysis of film from the Weimar Republic and the Third Reich as seen against the political and social upheavals of the time with an emphasis on the role of gender and the portrayal of gender in film.
Prerequisite: Any 30 points passed in BA courses
Restriction: GERMAN 331

GERMAN 277  15 Points
German Study Abroad 2A
Course taken at an approved academic institution abroad.
Prerequisite: Approval of Academic Head or nominee

GERMAN 278  15 Points
German Study Abroad 2B
Course taken at an approved academic institution abroad.
Prerequisite: GERMAN 277 and approval of Academic Head or nominee

GERMAN 290  15 Points
Special Topic

GERMAN 291  15 Points
Central Europe and the South Pacific
A study of the German connection with New Zealand, with special reference to the arts and sciences, German-speaking settlements in the nineteenth century, and German and Austrian refugees in the twentieth century.
Prerequisite: 45 points in German
Restriction: GERMAN 391

Stage III

GERMAN 301  15 Points
German Language Advanced 1
Enables students to understand the main ideas of a wide range of complex texts on both concrete and abstract topics and to increase fluency both in oral and written communication. Brings students from proficiency level B1 to B2.1. The course is taught in German.
Prerequisite: GERMAN 201 or 203
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

GERMAN 302  15 Points
German Language Advanced 2
German language acquisition at an advanced level. Advances students from B2.1 level to B2.2 level, i.e., completes the B2 proficiency stage in all four skills: reading, writing, speaking and listening. The course is taught in German.
Prerequisite: GERMAN 301

GERMAN 303  15 Points
Contemporary German Literature
A study of post-1990 German literary texts as well as their social and political environment. Topics include: literary responses to a newly developing national identity, literary reconstructions of life in the GDR, literary representations of a united Germany by immigrants, Jewish identity in a united Germany. Authors considered include Jens Sparshuh, Monika Maron, Barbara Honigmann, Stefan Heym and others.
Prerequisite: GERMAN 201
Restriction: GERMAN 211

GERMAN 305  15 Points
Translation
The theory, practice and critical evaluation of translation, principally of texts translated from German into English. Not intended for students enrolled in the Postgraduate Diploma in Translation Studies.
Prerequisite: GERMAN 301

GERMAN 306  15 Points
Language Acquisition C1
Offers language tuition in the German language on the C1 level of the European Reference Framework for language acquisition courses.
Prerequisite: GERMAN 302
Restriction: GERMAN 701, 703

GERMAN 307  15 Points
Modern Germany: A century of social change
An overview of German society from 1914 to the present, exploring social change in late Imperial Germany the Weimar Republic, Nazi Germany, and the reconstruction of both East and West Germany. Considers issues such as state surveillance, political terrorism, social impacts of German unification, globalisation, and Germany's role within Europe. No knowledge of German is required.

GERMAN 310  15 Points
Classicism, Romanticism, Realism
Literary criticism of selected major works of German literature of the eighteenth and nineteenth centuries.
Prerequisite: 45 points above Stage I in German

GERMAN 312  15 Points
Directed Reading and Research
Supervised research projects.
Prerequisite: Approval of Academic Head or nominee

GERMAN 313  15 Points
Introduction to German Linguistics
Introduction to the linguistic side of Modern German, examining some of its different varieties (spoken vs written, sociolinguistics etc) and some recent changes the language has undergone in its structure.
sociolects etc) and some recent changes the language has undergone in its structure.
Prerequisite: GERMAN 201
Restriction: GERMAN 213

**GERMAN 314**
**Teaching German as a Foreign Language**
Provides an overview of teaching and learning German as a second or heritage language. Students gain a solid understanding of German teaching and learning, including concepts and theories behind second language learning, individual differences, learning needs, approaches to strengthen learner autonomy as well as methods and principles of teaching German.
Prerequisite: GERMAN 201
Restriction: GERMAN 213

**GERMAN 320**
**20th Century German Literature**
Examines key literary works of prose, poetry and drama against the backdrop of major cultural, social and political shifts in Germany during the twentieth century. Two World Wars, the Weimar Republic, a divided and reunited Germany will be a special focus of the texts examined in this course.
Prerequisite: GERMAN 201
Restriction: GERMAN 210

**GERMAN 331**
**German Cinema from Murnau to Riefenstahl**
A close analysis of film from the Weimar Republic and the Third Reich as seen against the political and social upheavals of the time with an emphasis on the role of gender and the portrayal of gender in film.
Prerequisite: 30 points passed in German above Stage I
Restriction: GERMAN 230

**GERMAN 377**
**German Study Abroad 3A**
Course taken at an approved academic institution abroad.
Prerequisite: Approval of Academic Head or nominee

**GERMAN 378**
**German Study Abroad 3B**
Course taken at an approved academic institution abroad.
Prerequisite: GERMAN 377 and approval of Academic Head or nominee

**GERMAN 391**
**Central Europe and the South Pacific**
A study of the German connection with New Zealand, with special reference to the arts and sciences, German-speaking settlements in the nineteenth century, and German and Austrian refugees in the twentieth century.
Prerequisite: GERMAN 201
Restriction: GERMAN 291

**GERMAN 392**
**Special Topic: Topics in German Culture and Language**
A critical exploration of important issues in German Studies. The first part investigates German language studies, including the specifics of written and oral German, contrastive linguistics, dialects and varieties, German as a minority language (including in the South Pacific), youth language, and German online-communication. The second part examines modern German social and cultural history through works of literature and film.

**GERMAN 703**
**German Language C1.1**
Offers language tuition in the German language on the C1 level of the European Reference Framework for language acquisition courses with a focus on the students’ reading and writing skills.
Prerequisite: GERMAN 302
Restriction: GERMAN 701

**GERMAN 707**
**German Language C1**
Offers language tuition in the German language on the full C1 level of the European Reference Framework for language acquisition courses.
Prerequisite: GERMAN 302 or equivalent
Restriction: GERMAN 706, 703, 777, 778

**GERMAN 710**
**Topics in German Literature and Culture Studies**
Topics related to German literature and culture studies.
Prerequisite: GERMAN 301 or equivalent
Restriction: GERMAN 713

**GERMAN 713**
**Issues in German Literature and Culture Studies**
In-depth analysis of topics related to German literature and culture studies.
Prerequisite: GERMAN 301 or equivalent
Restriction: GERMAN 710

**GERMAN 721**
**Special Topic in Germanic Studies**
An academic topic arranged and approved by the Academic Head or nominee.

**GERMAN 728**
**Special Topic**

**GERMAN 729**
**Special Topic in Germanic Studies**
An academic topic arranged and approved by the Academic Head or nominee.

**GERMAN 730**
**Special Topic**

**GERMAN 731**
**Special Topic**

**GERMAN 732**
**Special Topic**

**GERMAN 733**
**Topics in German Linguistics and Applied Linguistics**
Topics related to German linguistics and applied linguistics.
Prerequisite: GERMAN 301 or equivalent
Restriction: GERMAN 734
GERMAN 734 30 Points  
**Issues in German Linguistics and Applied Linguistics**  
In-depth analysis of topics in German linguistics and applied linguistics.  
*Prerequisite: GERMAN 301 or equivalent  
Restriction: GERMAN 733*

**GERMAN 735 15 Points**  
**Special Topic in German Linguistics**  
An academic topic arranged and approved by the Academic Head or nominee.

**GERMAN 741 30 Points**  
**GERMAN 741A 15 Points**  
**GERMAN 741B 15 Points**  
**German Translation Project**  
Having learned to translate a wide variety of text categories, registers and genres, the student will focus on one major translation project. The project will include: client involvement to establish a brief, research, documentation, production and reflection.  
*To complete this course students must enrol in GERMAN 741 A and B, or GERMAN 741*

**GERMAN 750 15 Points**  
**Special Study**  
Supervised research essays on a topic or topics approved by the Academic Head or nominee.  
*Prerequisite: Approval of Academic Head or nominee*

**GERMAN 777 15 Points**  
**Study Abroad**  
Formal study in an approved overseas university where the language of instruction is German. Supplementary study at the University of Auckland may be required as part of this course. The final grade will be determined by formal assessment of student achievement by the Academic Head or nominee. Enrolment requires the approval of the Academic Head or nominee.  
*Restriction: GERMAN 707*

**GERMAN 791 60 Points**  
**GERMAN 791A 30 Points**  
**GERMAN 791B 30 Points**

---

**Global Studies**

**Stage I**

**GLOBAL 101 15 Points**

**GLOBAL 101G 15 Points**

**Global Issues, Sustainable Futures**

The basis for sustainability – social issues such as population and consumption, environmental issues such as climate change, limited resources and environmental degradation. Discusses the roles that various disciplines (law, business, engineering and urban planning) will play in developing solutions, including consideration of human rights and good governance, new concepts in economics and business management which will lead to sustainable businesses, developments in science and technology which will change how we manage resources and new visions for cities and communities which will support sustainable ways of life.  
*Restriction: GENED 101G*

**GLOBAL 102 15 Points**

**Introduction to Global Studies**

Focuses on transdisciplinary frameworks underpinning the field and uses case studies to illustrate its key concepts. Explores global studies as a critical field of inquiry and covers transdisciplinary themes from the four major streams in global studies.

Postgraduate 700 Level Courses

GLOBAL 700 30 Points
Themes in Global Studies
Critically reviews the field of Global Studies from an advanced theoretical perspective. Readings explore key concepts such as globalisation/antiglobalisation, inequality, transnationalism, labour, the environment, and public health. Emphasis on transdisciplinary theories concerning human rights, environmental sustainability, global business, Māori and indigenous issues, and cultural industries.

GLOBAL 701 30 Points
Contemporary Issues in Global Studies
Considers the current landscape of Global Studies at the intersection of theory and case studies. Investigates the novelty and challenges in approaching the world’s most pressing problems using a Global Studies-informed theoretical lens. Uses case studies from the Pacific and driven by indigenous knowledge to solve practical problems like social, economic, and health inequality, unsustainable environmental development, and political conflict.

GLOBAL 702 30 Points
Global Studies Research Design
An advanced examination of research design approaches with an emphasis on non-Western, Māori/Pacific, and indigenous methodologies. Surveys Global Studies methods and research design pathways, including those established in the Pacific and in indigenous contexts. Explorers methods required for advanced studies in the field.

Health and Society

Stage I

HLTHSOC 100 15 Points
Introduction to Critical Global Health
An introduction to how the social sciences and humanities shed light on understandings of the social, political-economic, historical and cultural dynamics that underpin contemporary healthcare, medical practices and knowledge-production, and experiences of health and illness around the world. Examines real-life case studies using a range of health social science approaches.

Stage II

HLTHSOC 201 15 Points
Medicine, Power and Politics
Explores the interplay between cultural values, local and national politics, and global health programmes and initiatives. Examines how experiences of medical care and ideas of illness and health vary across different cultural groups and socio-cultural settings, with a focus on issues of scientific expertise, patient empowerment and government involvement in healthcare.
Prerequisite: HLTHSOC 100
Restriction: ANTHRO 366

HLTHSOC 202 15 Points
Global Health and Development
Introduces a critical social science approach to the study of health and globalisation, tracing historical genealogies from colonial hygiene movements, to international public health in the development sector, through to contemporary global health institutions and their governance structures. Current issues and case studies in health and development including the roles of Non-Governmental Organisations (NGOs), participatory approaches, and human rights frameworks.
Prerequisite: HLTHSOC 100, or 15 points at Stage I in Anthropology, Gender Studies, Politics and International Relations or Sociology, or 15 points at Global Studies
Restriction: DEVELOP 716, HLTHSOC 202

HLTHSOC 203 15 Points
Contemporary Issues: Pandemics
Examines contemporary and historical pandemics in terms of their social and cultural impact, political-economic facets, and implications for health and healthcare. Topics include the social ramifications of states of emergency; the ethical implications of vaccines and other healthcare measures; religious, activist and NGO responses.
Prerequisite: 15 points at Stage I

Stage III

HLTHSOC 301 15 Points
Researching Health and Social Medicine
Introduces qualitative research approaches to health and social medicine and equips students with the methodological skills to conduct their own research project. Reviews all phases of a research project: design and theoretical framing, ethical considerations, methods employed for data collection and analysis, and writing.
Prerequisite: 15 points at Stage II in Health and Society

HLTHSOC 302 15 Points
Global Health and Development
Introduces a critical social science approach to the study of health and globalisation, tracing historical genealogies from colonial hygiene movements, to international public health in the development sector, through to contemporary global health institutions and their governance structures. Current issues and case studies in health and development including the roles of NGOs, participatory approaches and human rights frameworks.
Prerequisite: 15 points at Stage II in Anthropology, Gender Studies, Health and Society, Politics and International Relations or Sociology, or 15 points at Stage II in Global Studies
Restriction: DEVELOP 716, HLTHSOC 202

HLTHSOC 303 15 Points
The Body
Examines cultural and historical variations in how societies understand and experience the human body, with a focus on social, historical, philosophical and political-economic approaches. Topics such as political violence, sport, health, illness, sexuality, gender and religious ritual will be considered. Case studies explore the cultural construction and social experience of the human body in a diverse range of global settings.
Prerequisite: 30 points at Stage II in Health and Society
Restriction: ANTHRO 354

HLTHSOC 304 15 Points
Violence and Pain
Examines the meanings of violence and the various forms it might take, as well as how violence and pain shape ideas about personhood, the body, community and the state. Examines how experiences of pain are communicated, how various forms of violence shape and transform daily life, and how the study of health social science can address these impacts.
Prerequisite: HLTHSOC 201 and 15 points at Stage II in BA courses
Restriction: ANTHRO 743

HLTHSOC 305 15 Points
Culture, Science and Technology
Examines the interplay between culture, scientific knowledge and practice, and technological development with respect to health and illness. Focusing on the social, cultural, ethical, and political dimensions of science and technology, the course introduces students to critical examinations of how knowledge, progress, innovation and expertise are constituted across a variety of global settings.
Prerequisite: HLTHSOC 201 and 15 points at Stage II in BA courses
Restriction: ANTHRO 243

History

Stage I

HISTORY 103 15 Points
HISTORY 103G 15 Points
Global History
It is only since the fifteenth century that a truly global dimension to history can be identified. This course examines key determinants that have bound the fate of peoples together including the emergence of world trade networks, the growth of world religions, the spread of epidemic diseases, the formation of empires, and the migration of peoples across continents.

HISTORY 104 15 Points
Pacific History: An Introduction
Through analysing cross-cultural interactions and the
agency of Pacific peoples, this course examines major periods of change in Pacific history from the Indigenous settlement of the Pacific to the post-World War II world.

HISTORY 107  
Titiro Whakamuri  
15 Points  
Explores Aotearoa New Zealand history by asking ‘ko wai tātou’? Who are we? Where are we? What – and who – is “Aotearoa New Zealand”? What does it mean to belong to this place, and how has this belonging changed over time? Who have been included and excluded in this history?  
Restriction: HISTORY 122, 123

HISTORY 108  
Rise and Fall of the USA  
15 Points  
Examines the major themes and events in the history of the United States from the colonial period to the present. It focuses on the making and remaking of American identity, the promises and paradoxes of American freedom, struggles for justice, and the sources and implications of US power in global perspective.  
Restriction: HISTORY 105

Stage II

HISTORY 201  
Special Topic  
15 Points  
Prerequisite: 15 points at Stage I in History and 30 points passed
Restriction: HISTORY 318

HISTORY 205  
Bloodlands: Global Warfare  
15 Points  
Asks historical questions about warfare in the modern era. Analyzes conflicts and state violence and their impacts on people and their governments in a global setting. Themes include: the causes, course and consequences of warfare; restraint in warfare; ideologies of war and peace; civil war and revolution; imperial warfare; genocide; the human impact and context of war.  
Prerequisite: 15 points at Stage I in History and 30 points passed or 30 points at Stage I in Global Politics and Human Rights  
Restriction: HISTORY 309

HISTORY 208  
African-American Freedom Struggles: USA 1900-2000  
15 Points  
An examination of the experience of African Americans during the ‘long civil rights movement’ of the twentieth century, emphasising the depth and breadth of Black oppositional spirit and activity, the achievements, and remaining challenges.  
Prerequisite: 15 points at Stage I in History and 30 points passed, or HISTORY 103 and 30 points passed in Global Politics and Human Rights  
Restriction: HISTORY 308

HISTORY 210  
Health, Medicine and Society  
15 Points  
Examines the rise of modern Western medicine since 1850 and its impact, with a particular emphasis on Britain and its colonies. Topics include public health, hospitals, nursing, psychiatry, sexual health, reproductive health, child health, tuberculosis, medicine and war, and alternative medicines.  
Prerequisite: 15 points at Stage I in History and 30 points passed at Stage I, or HLTHSOC 100 and 30 points passed  
Restriction: HISTORY 367

HISTORY 213  
Mao Zedong, Revolution and China  
15 Points  
An overview of modern Chinese history (late nineteenth century to around 1980), using the life of Mao Zedong (1893-1976) as a jumping-off point for discussions of Chinese political and cultural history. Topics include: the fall of the Qing dynasty, Western imperialism, World War II, the Cultural Revolution, economic reforms since 1976, women's history, and religions in China.  
Prerequisite: 60 points passed  
Restriction: HISTORY 313

HISTORY 217  
Nazi Germany and its Legacies  
15 Points  
An in-depth look into a period of history that has simultaneously fascinated and horrified generations of people around the world. Topics include: the origins of Nazism, Adolf Hitler and the rise of the NSDAP, life in Nazi Germany in peace and war, Hitler's foreign policy, the Second World War, the Holocaust and its myriad legacies in history and popular culture.  
Prerequisite: 45 points passed  
Restriction: HISTORY 317

HISTORY 224  
Old Regime and Revolution: France, 1750-1815  
15 Points  
The French Revolution is recognised as a founding event of modern history. Revolutionaries reinvented political liberty, civic equality, democratic suffrage, human rights; but also reinvented gender discrimination, political terror, ideological war, dictatorship. We explore this through readings and discussions that examine the origins of the Revolution, the collapse of the monarchy, the experiment of mass democracy, and the Revolution's disputed legacies.  
Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 324

HISTORY 225  
Samurai and Scholars: Early Modern China and Japan  
15 Points  
Early modern China and Japan shared not only geographical space in East Asia but also a history of cultural interaction, trade, and an enduring interest in Confucianism as a moral, philosophical, and social framework. This course explores and compares the government, trade, and culture of these two societies with a focus on the structures and patterns of everyday life.  
Prerequisite: 60 points passed  
Restriction: HISTORY 222, 242, 322, 335, 342

HISTORY 227  
Waitangi: Treaty to Tribunal  
15 Points  
A history of the Treaty of Waitangi and the Waitangi Tribunal. The course explores changing understandings of the Treaty and its role in New Zealand society and history since 1840. The establishment of the Waitangi Tribunal in 1975, the development of its work, and the historical and contemporary claims brought before it will also be studied.  
Prerequisite: 15 points at Stage I in History, Health and Society or Politics and International Relations, or MAORI 130 and 30 points passed  
Restriction: HISTORY 327

HISTORY 233  
Australian History Since 1788  
15 Points  
A survey of the history of Australia from European occupation to the present. It focuses on the lives and experiences of ordinary Australians, as well as providing an overview of the major political and economic developments across two centuries.  
Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 333
HISTORY 239 15 Points  
Medieval Cultures: Faith, Power, Identities  
Explores the social, cultural, religious and political histories of medieval Europe and its relations with wider worlds. Topics covered may vary from year to year, but will likely include social structures, the place of religious faith, gender relations, power and authority, ethnic identities, conflict and dissent, migrations, literary and artistic expressions, and responses to crises.  
Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 219, 254, 268, 319, 339, 354, 368

HISTORY 241 15 Points  
Making Sense of the Sixties: the USA 1954-1974  
An examination of the social, cultural and political history of the US in the 'long sixties', analysing the interplay of radicalism, liberalism and conservatism in this pivotal decade and giving attention to the sixties in historiography and popular memory.  
Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 341

HISTORY 243 15 Points  
Body and Blood: Religious Cultures and Conflicts c. 50-1650  
An introduction to Christianity, Islam and Judaism in the late antique and medieval periods and the conflicts which shaped them. It examines the roots of Christian and Muslim religious thinking, their interaction with Jewish and Pagan traditions, the Crusades, anti-Semitism, heresy, schisms within Christianity and the Reformation.  
Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 356

HISTORY 252 15 Points  
New Zealand Cultural History  
An introduction to changing ideas about New Zealand and New Zealand culture from colonial times to the present, considering, among other topics, the history of exploration and travel, the iconography of the nation, public and private commemorations and celebrations, the history of the body and the commercialisation of leisure.  
Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 352

HISTORY 257 15 Points  
Making Modern America 1865-1919  
A survey of the United States from the end of Reconstruction through the First World War that evaluates the role of ordinary people as well as influential figures. Themes include industrialisation; labour conflict and organisation; segregation; reform; literary and intellectual movements; popular culture; imperialism; politics and the state.  
Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 357

HISTORY 259 15 Points  
Special Topic

HISTORY 270 15 Points  
Ireland since 1798  
Examines the history of Ireland from 1798 to the present. It investigates major developments in the social, cultural, political and economic history of the island from the United Irish Rising at the end of the eighteenth century to the early twenty-first century, including the creation of the state of Northern Ireland and ongoing attempts to secure a lasting peace there.  
Prerequisite: 15 points at Stage I in History and 30 points passed  
Restriction: HISTORY 265, 365, 370

HISTORY 271 15 Points  
Atlantic Revolutions  
Introduces students to early modern Atlantic history. From the mid-16th to the early 19th centuries, revolutionary upheavals in the Netherlands, England, the Americas and France made the Atlantic basin a crucible of global change. Topics include state power and imperial competition; commercial and cultural interconnections; colonisation and conflict; local and transoceanic communication networks; and the experiences of revolutionary change.  
Prerequisite: 60 points passed  
Restriction: HISTORY 371

Stage III

HISTORY 300 15 Points  
Thinking History: Approaches to the Past  
Focuses on the study of history and how historians have understood and explained the past as well as the challenges facing the discipline today. Topics include post-structuralism and history, gender and history, the nature of historical memory and the impact of non-Western perspectives on the discipline.  
Prerequisite: 15 points at Stage II in History and 60 points passed

HISTORY 308 15 Points  
African-American Freedom Struggles: USA 1900-2000  
An examination of the experience of African Americans during the 'long civil rights movement' of the twentieth century, emphasising the depth and breadth of Black oppositional spirit and activity, the achievements, and remaining challenges. Attention will also be given to the 'long civil rights movement' in historiography and popular memory.  
Prerequisite: 15 points at Stage II in History and 60 points passed, or HISTORY 103 and 30 points at Stage II in Global Politics and Human Rights  
Restriction: HISTORY 208

HISTORY 309 15 Points  
Bloodlands: Global Warfare  
Asks historical questions about warfare in the modern era. Analyses conflicts and state violence and their impacts on people and their governments in a global setting. Themes include: the causes, course and consequences of warfare; restraint in warfare; ideologies of war and peace; civil war and revolution; imperial warfare; genocide; the human impact and context of war.  
Prerequisite: 15 points at Stage II in History and 60 points passed or 30 points at Stage II in Global Politics and Human Rights  
Restriction: HISTORY 205

HISTORY 373 15 Points  
Mao Zedong, Revolution and China  
An overview of modern Chinese history (late nineteenth century to around 1980), using the life of Mao Zedong (1893-1976) as a jumping-off point for discussions of Chinese political and cultural history. Topics include: the fall of the Qing dynasty, Western imperialism, World War II, the
Cultural Revolution, economic reforms since 1976, women's history, and religions in China.

**Prerequisite:** 90 points passed
**Restriction:** HISTORY 213

**HISTORY 337**
**Nazi Germany and its Legacies**
An in-depth look into a period of history that has simultaneously fascinated and horrified generations of people around the world. Topics include: the origins of Nazism, Adolf Hitler and the rise of the NSDAP, life in Nazi Germany in peace and war, Hitler's foreign policy, the Second World War, the Holocaust and its myriad legacies in history and popular culture.

**Prerequisite:** 90 points passed
**Restriction:** HISTORY 257
HISTORY 367 15 Points
Health, Medicine and Society
Examines the rise of modern Western medicine since 1850 and its impact, with a particular emphasis on Britain and its colonies. Topics include public health, hospitals, nursing, psychiatry, sexual health, reproductive health, child health, tuberculosis, medicine and war, and alternative medicines. Prerequisite: 15 points at Stage II in History and 30 points passed, or HLTHSOC 201 and 30 points passed
Restriction: HISTORY 210

HISTORY 370 15 Points
Ireland since 1798
Examines the history of Ireland from 1798 to the present. It investigates major developments in the social, cultural, political and economic history of the island from the United Irish Rising at the end of the eighteenth century to the early twenty-first century, including the creation of the state of Northern Ireland and ongoing attempts to secure a lasting peace there. Prerequisite: 15 points at Stage II in History and 60 points passed
Restriction: HISTORY 265, 270, 365

Postgraduate 700 Level Courses

HISTORY 700A 15 Points
HISTORY 700B 15 Points
Settlers and Empire
Explores the histories of nineteenth and twentieth century British settler societies, with a particular focus on New Zealand, Australia and Canada. Examines the key conceptual frameworks and major themes for thinking about the comparative and transnational pasts of these settler societies.
To complete this course students must enrol in HISTORY 700 A and B

HISTORY 705A 15 Points
HISTORY 705B 15 Points
Writing New Zealand
A study of the writing of New Zealand history from the nineteenth century accounts through to more recent, revisionist undertakings. Considers general and overview histories, as well as key texts and the debates generated by such works. Students will have an opportunity to undertake research on a topic of their own choosing.
To complete this course students must enrol in HISTORY 705 A and B

HISTORY 706A 15 Points
HISTORY 706B 15 Points
Topics in European Cultural History
An historical introduction to the relationship between ideologies, cultural practices, social structures and political institutions in Europe. Topics include: the political history of manners and court culture; public opinion and print culture; gender and consumerism; the history of the senses and the human body.
To complete this course students must enrol in HISTORY 706 A and B

HISTORY 711A 15 Points
HISTORY 711B 15 Points
Texts and Contexts
Takes a broad view of the histories of culture and of communication. It links aspects of the history of ideas (historical, political, religious, scientific, legal, cultural) to the modes of their transmission (objects, performances, languages, spoken, manuscript and printed texts). It relates a wide variety of texts to the historical circumstances of their generation and reception.
To complete this course students must enrol in HISTORY 711 A and B

HISTORY 712A 15 Points
HISTORY 712B 15 Points
Insider Histories
Considers histories from 'the inside', related debates about oral histories and oral history practice. Uses Māori histories as case studies to explore the use of oral sources and issues of subjectivity, offering practical historical research and analytical skills. Topics include: the nature of and problems with oral and other sources, balancing textual and oral sources, writing from a subject position.
To complete this course students must enrol in HISTORY 712 A and B

HISTORY 715A 15 Points
HISTORY 715B 15 Points
Empire and Insurgency, 1840-1950
Investigates insurgency within the British Empire between 1840 and 1950. Drawing upon examples including the Indian Rebellion of 1857 and the Irish Revolution, it explores how we can establish a framework for studying insurgenices, the challenges that arise for historians in comparing acts of rebellion, and how nationalist movements drew upon an empire-wide repertoire of insurgency to advance their objectives.
To complete this course students must enrol in HISTORY 715 A and B

HISTORY 716 15 Points
Topics in the History of War and Peace
An exploration of the history and historiography of war, peace and state violence from a variety of perspectives, focusing on the modern period. Topics could include the course, conduct and consequences of inter-state, civil, revolutionary and imperial warfare as well as of peace-making, internationalism, humanitarianism and the regulation of warfare in international law. Integrates a range of approaches to the study of the past, including international, military, economic, cultural, legal and social histories. 
Restriction: HISTORY 716
To complete this course students must enrol in HISTORY 716 A and B

HISTORY 717A 15 Points
HISTORY 717B 15 Points
Topics in the History of War and Peace
An exploration of the history and historiography of war, peace and state violence from a variety of perspectives, focusing on the modern period. Topics could include the course, conduct and consequences of inter-state, civil,
revolutionary and imperial warfare as well as of peace-making, internationalism, humanitarianism and the regulation of warfare in international law. Integrates a range of approaches to the study of the past, including international, military, economic, cultural, legal and social histories.

</table>
| An interdisciplinary course designed to introduce students to the Humanities using digital tools and resources. Students will study the approaches, texts and digital technologies of disciplines in the Humanities such as Art History, English, History, Philosophy, and Theological and Religious Studies. Students will expand their knowledge of the Humanities, extend their digital literacy and build critical and creative thinking skills.  
Restriction: ARTSGEN 100G |
| HUMS 101 | 15 |
| Europe: Medieval to Modern |  |
| A thematic and chronological survey of major developments |
in European history and visual culture since the early Middle Ages. The course is designed to provide a solid foundation for subsequent study in European history, art history and culture as well as an introduction to the nature of scholarly research and writing in the Humanities.

**Stage III**

**HUMS 300 15 Points**

**Critiquing the Museum**
An introduction to the history and theory of museums, and to institutional collecting and the interpretation of culture. Focuses on the role of museums in colonisation and nation building, involvement in globalising processes as well as the opportunities museums offer for social advocacy.

**Postgraduate 700 Level Courses**

**INDIGEN 700 30 Points**

**Indigenous Theories**
Topics include cultural autonomy, political inclusion, land claims, urbanisation and indigenous rights. Through a close reading of key texts and engaging in seminar discussions, students will deepen their insight into the knowledge systems that embody indigenous world views and be able to critically and analytically engage with historical and contemporary issues in Indigenous Studies.

**INDIGEN 701 15 Points**

**Special Topic**

**INDIGEN 702 30 Points**

**Special Topic**

**INDIGEN 710 15 Points**

**Indigenous Methodologies**
Research had been a powerful tool of colonisation. This course seeks to explore traditional and new methodologies that are robust, ethical and culturally informed to study Indigenous and Indigenous-related issues. In developing an understanding of relevant methodologies, ethics/tikanga and cultural understanding in Indigenous Studies students will gain knowledge of the links between Indigenous epistemology, research methodology and application.

**INDIGEN 711 30 Points**

**Indigenous Environmental Politics**
Examines contemporary issues related to Indigenous peoples and the environment. There will be a particular focus on the interface between Indigenous peoples, governments and corporate bodies. Topics may include Indigenous responses to environmental degradation; Indigenous peoples and extractive industries; sustainable development; Indigenous environmental protest movements; land and treaty rights; traditional knowledge and resource protection; and Indigenous peoples and climate change.

**INDIGEN 712 30 Points**

**Indigenous Psychologies**
Examines the historical and material circumstances Indigenous peoples face and the emergence and development of Indigenous psychologies to respond to a range of social and psychological challenges. Covers topics relevant to Indigenous and non-Indigenous survival and flourishing including cultural contributions to health and collective and individual wellbeing.

**INDIGEN 792 45 Points**

**INDIGEN 792A 30 Points**

**INDIGEN 792B 15 Points**

**Dissertation - Level 9**
Examines key research issues for indigenous peoples. Students will develop a focused understanding of relevant methodologies, ethics and cultural understandings in Indigenous Studies. Students will develop a research project that identifies a particular indigenous issue and implement an appropriate methodology.

To complete this course students must enrol in INDIGEN 792 A and B, or INDIGEN 792

**Italian**

**Stage I**

**ITALIAN 100 15 Points**

**ITALIAN 100G 15 Points**

**Introductory Italian Language**
Learn basic Italian language structures and communication skills, including common words and basic phrases concerning everyday life. Acquire skills of interacting verbally by asking and answering straightforward questions on familiar topics. The course is delivered through a combination of class instruction and interactive online activities. For students with no previous knowledge of Italian.

**Restriction:** ITALIAN 106. May not be taken if an equivalent or more advanced language acquisition course in this subject has previously been passed.

**ITALIAN 106 15 Points**

**ITALIAN 106G 15 Points**

**Italian Language for Beginners 1**
Students learn to speak, read and write Italian, studying aspects of contemporary Italian society and thought. This course does not count towards a major in Italian.

**Restriction:** ITALIAN 100. May not be taken if an equivalent or more advanced language acquisition course in this subject has previously been passed.

**Restriction:** May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**ITALIAN 107 15 Points**

**Italian Language for Beginners 2**
Learners further develop lexical, grammatical, cultural and communicative competence, allowing them to prepare for intermediate level grammar and to be operative in social situations requiring a direct exchange of information in the target language environment and areas of immediate need.

Meets the standard of Basic User level A2 as set out by the Council of Europe's Language Policy Unit.

**Prerequisite:** ITALIAN 100 or 106

**Restriction:** May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**ITALIAN 177 15 Points**

**Study Abroad 1**
Language course taken at an approved overseas institution where instruction is in Italian.

**Prerequisite:** ITALIAN 106

**Restriction:** May not be taken if a more advanced language acquisition course in this subject has previously been passed.
Stage II

ITALIAN 200 15 Points
Intermediate Italian Language 1
Develops writing, reading, speaking and listening skills to an intermediate level, through practice on a wide range of written texts and current audio-visual material. Prerequisite: ITALIAN 107
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

ITALIAN 201 15 Points
Intermediate Italian Language 2
Continues to develop language skills at an intermediate level. Prerequisite: ITALIAN 200
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

ITALIAN 202 15 Points
Engendered Voices (Texts in Italian)
A critical study of the representation of women's experiences and of issues of gender and culture, through an examination of literary texts and films by Italian women writers and filmmakers. Students will study texts in Italian. Prerequisite: ITALIAN 107
Corequisite: ITALIAN 200
Restriction: ITALIAN 203, 335

ITALIAN 203 15 Points
Engendered Voices (Texts in English)
A critical study of the representation of women's experiences and of issues of gender and culture, through an examination of literary texts and films by Italian women writers and filmmakers. Students will study texts in English. This course does not count towards a major or minor in Italian. Students taking an Italian major or minor should take ITALIAN 202 instead. Prerequisite: 90 points passed
Restriction: ITALIAN 202, 335

ITALIAN 206 15 Points
Special Topic

Japanese

Stage I

JAPANESE 130 15 Points
JAPANESE 130G 15 Points
Japanese Language 1A
An integrated basic course in modern Japanese covering reading, writing, speaking and listening.
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 131 15 Points
Japanese Language 1B
Further develops the basic proficiency in modern Japanese necessary to communicate in limited situations. Uses a range of exercises and activities to develop speaking, listening, reading and writing skills as well as strategies to enhance and support these skills. Introduces some sociocultural aspects directly related to language-use
situations. Note: Students with NCEA level 2 Japanese or equivalent should enrol in this course. 
Prerequisite: JAPANESE 130 or approval of Academic Head or nominee 
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 150
Exploring Japan
Covers Japanese history, culture and society from the seventeenth century to the contemporary period, and serves as an introduction to Japan. Deals with such diverse topics as Japan under the Shoguns, Japan's modernisation, the modern political system, Japan's position in the world, popular culture, social structures and gender relations. No knowledge of the Japanese language is required.

JAPANESE 178
Japanese Study Abroad 1
Formal language study in an approved overseas institution where instruction is in Japanese. May not be taken if a more advanced language acquisition course in this subject has previously been passed. 
Prerequisite: Approval of Academic Head or nominee

Stage II

JAPANESE 222
Structural Analysis of the Japanese Language
Structural analysis of the pronunciation, grammar, script and usage of the modern Japanese language.
Corequisite: JAPANESE 231 or 232

JAPANESE 231
Japanese Language 2A
Further develops the basic proficiency in modern Japanese necessary to communicate in everyday situations. Uses a range of exercises and activities to develop communicative use of speaking, listening, reading and writing skills in a range of situations as well as strategies to enhance and support these skills. Note: Students with NCEA level 3 Japanese or equivalent should enrol in this course.
Prerequisite: JAPANESE 131 or approval of Academic Head or nominee
Restriction: JAPANESE 220, 239. May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 232
Japanese Language 2B
A continuation of JAPANESE 231 covering more advanced grammar. By the end of the course, students will have acquired all essential grammar items and will be ready to explore more authentic materials in Stage III. Further develops communicative use of the language in speaking, listening, reading and writing in various situations and strategies to enhance and support these skills.
Prerequisite: JAPANESE 231 or approval of Academic Head or nominee
Restriction: JAPANESE 230, 239. May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 240
Villains and Heroes in Japanese Literature
Critically examines important works related to Japan's literature and culture, from various genres and all periods including the present. Readings in English translation. Emphasis on production and reception of literary texts within such contexts as history, gender, ethnicity, religion, the environment, and power issues.
Prerequisite: 45 points in BA courses, including either JAPANESE 150 or ASIAN 100
Restriction: JAPANESE 340

JAPANESE 241
Japanese Popular Culture since 1945
Examines post-1945 Japanese popular culture such as manga, anime, music and literature, from the perspective of how they have dealt with issues such as national/cultural identity, 'race', war memory, gender and globalisation. The historical and political context of each text and cultural practice is emphasised. No knowledge of Japanese language required.
Prerequisite: 45 points in BA courses
Restriction: JAPANESE 341

JAPANESE 243
Geisha and Samurai: Edo Literature
Explores literary works and other writings and media from early modern (Edo/Tokugawa) Japan, focusing on the way these texts reflect aspects of Edo culture. Texts in English translation.
Prerequisite: 45 points in BA courses, including either JAPANESE 150 or ASIAN 100
Restriction: JAPANESE 343

JAPANESE 270
Japanese Culture and Traditions
Examines important aspects of Japanese culture, society, and history. Focuses particularly on the creation and recreation of traditions, and the interaction between cultural and historical forces in shaping society. The course consists of four thematic parts, dealing with history, education, family, and health.
Prerequisite: 45 points in BA courses, including either JAPANESE 150 or ASIAN 100
Restriction: JAPANESE 370

JAPANESE 277
Japanese Study Abroad 2A
Refer to the entry for Language Study Abroad.
Prerequisite: Approval of Academic Head or nominee

JAPANESE 278
Japanese Study Abroad 2B
Refer to the entry for Language Study Abroad.
Prerequisite: JAPANESE 277 and approval of Academic Head or nominee

JAPANESE 292
Special Topic: Religion in Modern Japanese Society
Aims to understand the role of religious beliefs, practices, and institutions in modern Japanese society. Topics to be covered include the "invention" of State Shinto and its role in nation-building, the decline of established temple Buddhism, the emergence and impact of new religious movements, and social conflict related to religion-state issues in the postwar period.
Prerequisite: JAPANESE 150 or ASIAN 100, and, a further 30 points from BA courses.
Restriction: JAPANESE 308

Stage III

JAPANESE 300
Special Topic
JAPANESE 307 15 Points
Classical Language and Culture
Introduction to the classical Japanese language and culture. Involves extensive readings of selected works from the classics in the original language.
Prerequisite: 45 points at Stage II in Japanese
Corequisite: JAPANESE 331 or 332

JAPANESE 308 15 Points
Religion in Modern Japanese Society
The aim of this course is to understand the role of religious beliefs, practices, and institutions in modern Japanese society. Topics to be covered include the “invention” of State Shinto and its role in nation-building, the decline of established temple Buddhism, the emergence and impact of new religious movements, and social conflict related to religion-state issues in the postwar period. Prerequisite: ASIAN 100 and 30 points at Stage II in Asian Studies or 45 points in Stage II BA courses, including one of the following: ANTHRO 250, JAPANESE 240, 241, 243, 270, THEOLOGY 201 or THEOREL 201, SOCIOL 213
Restriction: ASIAN 708, JAPANESE 292

JAPANESE 324 15 Points
Topics in Japanese Linguistics
A study of selected areas of Japanese language structure and usage.
Prerequisite: 45 points at Stage II in Japanese including JAPANESE 222
Corequisite: JAPANESE 331 or 332
Restriction: JAPANESE 728

JAPANESE 331 15 Points
Japanese Language 3A
Further develops communicative use of the Japanese language in and beyond everyday situations. With greater focus on written Japanese, students will explore a variety of authentic materials including essays, folk tales, poems and visual texts that contain both traditional and contemporary cultural elements. Students are encouraged to study autonomously as well as collaboratively.
Prerequisite: JAPANESE 232
Restriction: JAPANESE 330, 338, 339. May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 332 15 Points
Japanese Language 3B
Further develops communicative use of Japanese language in speaking, listening, reading and writing beyond everyday situations. With greater focus on written Japanese, students will familiarise themselves with various styles of Japanese texts including newspaper articles, manga and short novels, through which their understanding of Japanese culture will deepen.
Prerequisite: JAPANESE 231
Restriction: JAPANESE 330, 338, 339. May not be taken if a more advanced language acquisition course in this subject has previously been passed

JAPANESE 340 15 Points
Villains and Heroes in Japanese Literature
Critically examines important works related to Japan's literature and culture, from various genres and all periods including the present. Readings in English translation. Emphasis on production and reception of literary texts within such contexts as history, gender, ethnicity, religion, the environment, and the deployment of power.
Prerequisite: JAPANESE 150 and 45 points at Stage II in Japanese including one of JAPANESE 241, 242, 270, HISTORY 242
Restriction: JAPANESE 240

JAPANESE 341 15 Points
Japanese Popular Culture since 1945
Examines post-1945 Japanese popular culture such as manga, anime, music and literature, from the perspective of how they have dealt with issues such as national/cultural identity, 'race', war memory, gender and globalisation. The historical and political context of each text and cultural practice is emphasised. No knowledge of Japanese language required.
Prerequisite: JAPANESE 150 and 45 points at Stage II in Japanese including one of JAPANESE 240, 243, 270 HISTORY 242, or 30 points at Stage II in Asian Studies
Restriction: JAPANESE 241

JAPANESE 343 15 Points
Geisha and Samurai Edo Literature
Explores, mainly in English translation, literary works and other writings/media from early modern (Edo/Tokugawa) Japan. The emphasis is on understanding aspects of the culture by direct reference to texts written by Japanese at that time.
Prerequisite: JAPANESE 150 and 45 points at Stage II in Japanese including JAPANESE 240, 241, or 270
Restriction: JAPANESE 243

JAPANESE 370 15 Points
Japanese Culture and Traditions
Examines important aspects of Japanese culture, society, and history. Focuses particularly on the creation and recreation of traditions, and the interaction between cultural and historical forces in shaping society. The course consists of four thematic parts, dealing with history, education, family, and health.
Prerequisite: JAPANESE 150 and either 45 points at Stage II including one of JAPANESE 240, 241, 243 and HISTORY 242 or 30 points at Stage II in Asian Studies
Restriction: JAPANESE 270

JAPANESE 377 15 Points
Japanese Study Abroad 3A
Refer to the entry for Language Study Abroad. Prerequisite: Approval of Academic Head or nominee

JAPANESE 378 15 Points
Japanese Study Abroad 3B
Refer to the entry for Language Study Abroad. Prerequisite: JAPANESE 377 and approval of Academic Head or nominee

JAPANESE 392 15 Points
Special Topic
Prerequisite: JAPANESE 150 and 45 points at Stage II in Japanese

Postgraduate 700 Level Courses
JAPANESE 702 30 Points
Topics in Japanese Culture and Society
In-depth study of selected topics on Japanese culture and society. Topics may include Japanese religion and society, popular culture, early modern history, Japan in East Asia and globalisation. This will be a team-taught course, and the content each year will be adapted according to student research interests. The course requires critical reading of core texts and regular student seminar presentations.
### Japanese

### Korean

**Stage I**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
<th>Description</th>
</tr>
</thead>
</table>
| KOREAN 110 | 15 | Korean for Beginners 1  
Basic written and spoken skills in modern Korean. Through the practice of listening to and reading basic Korean sentences, fundamental grammar and vocabulary are taught so that students will be able to carry out basic conversation and comprehend simple Korean texts.  
Restriction: KOREAN 100, 250. May not be taken if a more advanced language acquisition course in this subject has previously been passed |
| KOREAN 110G | 15 |

**Stage II**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
<th>Description</th>
</tr>
</thead>
</table>
| KOREAN 120 | 15 | Korean Society and Culture  
An introduction to Korean society and culture, focusing on the development of the nation. The course covers the colonial legacy, national division, and cultural, social, economic and political changes in the two Koreas. No knowledge of Korean language required. |
| KOREAN 200 | 15 | Intermediate Korean 1  
Aims to expand students’ proficiency in Korean by... |
introducing further points of grammar and their usage. This course serves as the base for oral and written language skills at an intermediate level.

**Prerequisite:** KOREAN 100 or 111

**Restriction:** KOREAN 250. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**KOREAN 201** 15 Points

**Intermediate Korean 2**

A continuation of KOREAN 200 covering more advanced grammar points and their usage. Further develops communicative use of Korean in a wide range of everyday situations.

**Prerequisite:** KOREAN 200

**Restriction:** KOREAN 250. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**KOREAN 203** 15 Points

**Special Topic**

**KOREAN 204** 15 Points

**Korea through TV Drama and Film**

Examines some of the cultural, social and political issues of contemporary South Korea through a selection of popular TV dramas and films.

**Prerequisite:** 15 points at Stage I in Asian Studies, Chinese, Japanese or Korean, or 15 points at Stage I in Media and Screen Studies and 30 points passed

**Restriction:** ASIAN 202, KOREAN 305

**KOREAN 250** 15 Points

**Korean for Heritage Speakers**

Aims to enhance written skills in modern Korean for students with native speaker background. Emphasis will be placed on the comprehension of a wide range of issues in Korean society.

**Prerequisite:** Approval of Academic Head or nominee

**Restriction:** KOREAN 110, 111, 200, 201, 300, 301. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**KOREAN 277** 15 Points

**Korean Study Abroad 2A**

Refer to the entry for Language Study Abroad.

**Prerequisite:** Approval of Academic Head or nominee

**KOREAN 278** 15 Points

**Korean Study Abroad 2B**

Refer to the entry for Language Study Abroad.

**Prerequisite:** KOREAN 277 and approval of Academic Head or nominee

**Stage III**

**KOREAN 300** 15 Points

**Advanced Korean 1**

Korean grammar at an advanced level. A continuation of KOREAN 201.

**Prerequisite:** KOREAN 201

**Restriction:** May not be taken if a more advanced language acquisition course in this subject has previously been passed.

**KOREAN 301** 15 Points

**Advanced Korean 2**

Designed to emphasise comprehension and composition of Korean texts.

**Prerequisite:** KOREAN 300

**KOREAN 305** 15 Points

**Korea through TV Drama and Film**

Examines some of the cultural, social and political issues of contemporary South Korea through a selection of popular TV dramas and films.

**Prerequisite:** 30 points at Stage II in Asian Studies, Chinese, Japanese or Korean or 30 points at Stage II in Media, Film and Television

**Restriction:** ASIAN 202, KOREAN 205

**KOREAN 306** 15 Points

**Special Topic**

**KOREAN 307** 15 Points

**Korean Study Abroad 3A**

Refer to the entry for Language Study Abroad.

**Prerequisite:** Approval of Academic Head or nominee

**KOREAN 308** 15 Points

**Korean Study Abroad 3B**

Refer to the entry for Language Study Abroad.

**Prerequisite:** KOREAN 307 and approval of Academic Head or nominee

**KOREAN 309** 15 Points

**Korean Study Abroad 3C**

Formal language study at an approved overseas institution where the language of instruction is Korean. May include supplementary study at the University of Auckland.

**Prerequisite:** KOREAN 301 or 377 or 378 and approval by Academic Head or nominee

**Language Study Abroad**

The Language Study Abroad courses are intended to permit students to take advantage of opportunities for formal language study in an approved overseas institution where instruction is in a language other than English. Supplementary study at the University of Auckland may be required as part of these courses. Students taking one of these courses should enrol prior to undertaking the overseas study, and enrolment is subject to approval of the planned overseas study by the Academic Head or nominee for the language subject concerned. A final grade for any of the courses will be based on formal assessment of achievement in the language concerned, together with any other work required by the Academic Head or nominee. The courses available for Language Study Abroad are listed under the following subjects: Arts General, Chinese, French, German, Italian, Japanese, Korean, Russian, Spanish.

**Language Teaching and Learning**

**Stage I**

**LANGTCHG 101** 15 Points

**Introduction to Language Teaching**

An introduction to a range of approaches to second language teaching and the theories of language and learning which underpin them. Students will explore the basic concepts related to current approaches to ELT in current contexts of learning.

**Stage II**

**LANGTCHG 202** 15 Points

**Introductory English Language Analysis for Teachers**

Introduces key concepts of phonology, grammar and vocabulary of English and develops an understanding of how they function as systems in written and spoken English. Develops the skills needed to formally analyse the
Phonological, lexical and grammatical systems of English. Illustrates how linguistic descriptions can be applied in language teaching. 
Prequisite: 30 points passed or approval of Academic Head or nominee.

LANGTCHG 205 15 Points
Developing Literacy in a Second Language
Examines the theory and practice related to the development of both initial and advanced literacy in a second language: how reading and writing skills are developed in a second language; the interdependency of first and second language literacy skills; effective instructional methods and the role played by second language literacy in the development of academic skills where English is the medium of instruction.
Prequisite: 30 points passed or approval of Academic Head or nominee

LANGTCHG 206 15 Points
Special Topic: Language Learning and the Brain
Introduces prominent cognitive aspects of language learning. These include memory, attention, code-switching, and multimodal integration when learners form correspondences between linguistic and sensory input. Examines the power of language to influence brain responses and optical illusions. The mechanisms of linguistic influence on the brain, and their implications for teaching, will be explored from multiple angles.
Prequisite: 30 points passed

LANGTCHG 207 15 Points
Instructed Language Learning
Introduces the study of the language acquisition-rich classroom by considering how a second or foreign language is learned, and explores different aspects of language teaching from the perspective of language learning and factors responsible for individual differences in learning. Students will consider concepts and research in instructed language learning in relation to classroom, institutional, and broader social and political contexts.
Prequisite: 30 points passed or approval of Academic Head or nominee
Restriction: LANGTCHG 303

LANGTCHG 209 15 Points
Using Tasks in Language Teaching
Students learn about task-based language teaching and have opportunities for hands-on practice in developing tasks for use in the language classroom. The course also enhances students’ understanding of the difference between task-based teaching and traditional approaches to language teaching.
Prequisite: LANGTCHG 101 or 30 points passed or approval of Academic Head or nominee
Restriction: LANGTCHG 306

Stage III

LANGTCHG 300 15 Points
Theory and Practice of Language Teaching
A general introduction to English language teaching. This course requires students to undertake a study of current theory and practice relating to the teaching of the knowledge systems of English and of language skills.
Prequisite: LANGTCHG 101 or 202 or 30 points passed at Stage II or above or approval of Academic Head or nominee

LANGTCHG 301 15 Points
The Second Language Curriculum
Introduces principles and procedures used in course design and to evaluate TEFL courses, coursebooks and materials. Develops a practical understanding of how to set about planning an EFL curriculum.
Prequisite: LANGTCHG 101 or 30 points passed at Stage II or above or approval of Academic Head or nominee

LANGTCHG 302 15 Points
Practical Language Teaching
Develops an understanding of the procedures, techniques and options used in teaching language lessons; helps participants to design and deliver effective language lessons for a variety of contexts; and introduces participants to a variety of tools for teacher development such as peer teaching, peer observation, and reflective teaching.

LANGTCHG 304 15 Points
The Young Second Language Learner
Examines the experience of children aged 6-12 years and adolescents aged 12-19 in learning a second language. Gives particular attention to the social, cognitive and psychological characteristics of children; examines the needs of young learners of a second language and how languages are learned in different contexts.
Prequisite: LANGTCHG 101 or 30 points at Stage II or above or approval of the Academic Head or nominee

LANGTCHG 305 15 Points
Special Topic

LANGTCHG 307 15 Points
Special Topic
Prequisite: 30 points passed at Stage II

LANGTCHG 308 15 Points
Special Topic

LANGTCHG 309 15 Points
Second/Foreign Language Teaching Experience
Students teach English (or another language) for an organisation (local or abroad) approved by the Academic Head or nominee. Excludes teaching in a NZ primary, intermediate or secondary school.
Prequisite: LANGTCHG 101, 202, 300, 301, 302 with a B average or higher and approval of Academic Head or nominee

LANGTCHG 311 15 Points
Language and Technology
Introduces students to theoretical and practical aspects of using technology for language learning and teaching purposes. Enables students to develop confidence in their ability to integrate technology into their teaching, and in their capacity to explore other technological applications in response to workplace needs. Students will also experience and reflect upon the language learning dimension, and critically examine the impact of particular applications with reference to sound pedagogical principles.
Prequisite: 30 points passed at Stage II

LANGTCHG 312 15 Points
Special Topic

Postgraduate 700 Level Courses

LANGTCHG 701 15 Points
Multilingual Lives - Level 9
Examines main theoretical approaches to understanding multilingualism. Students acquire specialised knowledge of different approaches to addressing the needs of an ethnolinguistically diverse population, and develop a critical awareness of issues and debates in the field.
Assignments involve substantial independent research that includes the analysis of factors that influence the acquisition, maintenance, and use of multiple languages in individuals’ lives.

**LANGTCHG 708**
**Special Topic: Experimental Approaches to SLA**
Familiarises students with experiments that investigate second language acquisition. There are two goals. First, to develop an understanding of a range of methods in the field, which include categorisation and memory tests, eye-tracking, measuring skin conductance responses and brain signals. Second, to train students to critically read reports from experiments and to evaluate their relevance for SLA research.

**LANGTCHG 710**
**Task-based Language Teaching**
Examines research that has investigated task-based second language learning and the theoretical rationale for task-based language teaching. Also considers factors in the design of task-based syllabuses and methodological options for lessons based on tasks, and problems in implementation.

**LANGTCHG 715**
**Developing Academic Literacy**
Aims to help participants understand and develop their academic literacies. Focuses on texts involved in the research process, such as review articles, research paper proposals, dissertations and conference abstracts; makes extensive reference to findings from genre and corpus-based analyses; and includes conducting mini-analyses on the discourse in participants’ own disciplines.

**LANGTCHG 724**
**Identity in Language Teaching and Learning**
Explores the concepts of language learner identity and language teacher identity. The course reviews theory and research on identity and considers the practical applications of identity research and debates in classroom practice. Students conduct an independent self-reflective project.

**LANGTCHG 739**
**Directed Study**
Supervised research on an approved topic or topics related to language teaching and learning.

**LANGTCHG 740**
**Language Analysis for Teachers**
Develops an advanced understanding of the structures of English and advanced skills of analysing the key concepts and features of English phonology, morphology, syntax and vocabulary from the perspective of second/foreign language teaching.
Restriction: LANGTCHG 720

**LANGTCHG 746**
**Materials Development and Evaluation**
Examines the principles and processes of designing, adapting and evaluating language teaching materials for teaching language systems and language skills. Examines the role materials development play in professional development.

**LANGTCHG 751**
**Corpus Studies in Applied Linguistics**
Covers the theoretical and practical aspects of using corpora to promote language learning. A major part of the course will focus on using corpora and text analysis tools to provide a description of language as it is used by different people for different purposes. Once we have a good description of language usage, we can move on to consider the role of corpus studies in language teaching.

**LANGTCHG 752**
**Computer Assisted Language Learning**
Covers the theoretical and practical aspects of using technology to promote language learning. Includes culture and CALL, exercise authoring, CALL research, technology and the four skills, web-based language learning, computer-mediated communication, and CALL evaluation.

**LANGTCHG 754**
**English for Specific Purposes**
Considers theory and practice in developing language courses to meet the specific academic or work-related needs of adult learners. In particular, it focuses on analysis of target communication, needs analysis, issues and methodologies in ESP and ESP research. Uses the example of English for Specific Purposes but is relevant to the teaching of other languages for specific purposes as well.

**LANGTCHG 756**
**Special Topic**

**LANGTCHG 757**
**Conducting Research in Applied Language Studies - Level 9**
Explores advanced theoretical perspectives for research into second/foreign language learning, teaching, and use. Enables students to acquire an advanced understanding of selected research methods. Students work independently on a small-scale project, which involves the collection and analysis of data on second or foreign language learning, teaching or use.
Restriction: LANGTCHG 732, 745

**LANGTCHG 760**
**Curriculum Design - Level 9**
Advanced level study of theoretical principles and current issues in the second language curriculum. Includes historical examination of influential approaches and methods, with particular attention to the development and current position of communicative approaches. Examines issues associated with course design processes including assessment of needs, objectives setting, syllabus and materials selections, and course evaluation.
Restriction: LANGTCHG 741

**LANGTCHG 761**
**Sociolinguistics - Level 9**
Examines sociolinguistic concepts relevant to understanding influences on language use at the level of individuals, social groups and institutions. Enables students to acquire an advanced understanding of social and regional dialects, perceived differences in the market status of particular languages, the use of sociolects and ethnolects in the media and other public domains, and policies and practices concerning migrant and heritage language maintenance.
Restriction: LANGTCHG 749

**LANGTCHG 762**
**Second Language Acquisition - Level 9**
Advanced study of current theories of second language acquisition and research that have examined both instructed and naturalistic acquisition. Includes an independent study involving analysis of learner language and writing a standard research report and a critique of a
pedagogical approach, drawing on contemporary research on how languages are learned.

Restriction: LANGTCHG 722, 723, 743

**LANGTCHG 763** 15 Points

**Discourse Analysis - Level 9**
Examines major theoretical approaches to the analysis of discourse and implications for pedagogy. Students acquire specialised knowledge of approaches to analysis and frameworks that underpin research, and develop advanced skills in written and spoken text analysis and critical awareness of issues and debates in the field. Assignments involve substantial independent research that includes analysis and interpretation of data.

Restriction: LANGTCHG 744

**LANGTCHG 764** 15 Points

**Creativity: Research and Practice - Level 9**
Theoretical perspectives, pedagogical practices and research projects related to the topic of creativity in language learning and teaching. Enables students to acquire an advanced understanding of the concept of 'creativity' with reference to language teaching and learning through exploratory research, practice and reflection.

Restriction: LANGTCHG 755

**LANGTCHG 765** 15 Points

**Language Testing and Assessment - Level 9**
Advanced study of theoretical principles and current issues in language testing, assessment and evaluation, and their application to teaching practice and research. Examines issues associated with the creation of valid and reliable assessments, and the implications for course design processes, with particular attention to the testing, assessment and evaluation of communicative language proficiency.

Restriction: LANGTCHG 742

**Languages and Literature**

**Latin Literary Texts 2A**
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities.

Prerequisite: LATIN 101 or 200 or 202 or approval of Academic Head or nominee
LATIN 202 15 Points  
Latin Literary Texts 2B  
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities. 
Prerequisite: LATIN 101 or 200 or 201 or approval of Academic Head or nominee

LATIN 203 15 Points  
Latin Literary Texts 2C  
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities. 
Prerequisite: LATIN 201

LATIN 204 15 Points  
Latin Literary Texts 2D  
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities. 
Prerequisite: LATIN 202

LATIN 205 15 Points  
Special Topic: Latin Texts  
Study of literary texts in Latin.  
Prerequisite: LATIN 101 or approval of Academic Head or nominee

Stage III

LATIN 300 15 Points  
Advanced Language Study Part 1  
The structure and use of the Latin language including the use of non-classical Latin. 
Prerequisite: 30 points from LATIN 200-205

LATIN 301 15 Points  
Latin Literary Texts 3A  
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities. 
Prerequisite: 30 points from LATIN 200-205

LATIN 302 15 Points  
Latin Literary Texts 3B  
Detailed study of prescribed texts with reference to their language and meaning, and critical appreciation of their literary, historical and/or philosophical qualities. 
Prerequisite: 30 points from LATIN 200-205

LATIN 305 15 Points  
Directed Study  
Directed reading and individual study on a topic approved by the Academic Head or nominee. 
Prerequisite: 30 points from LATIN 200-205 and approval of Academic Head or nominee

LATIN 310 15 Points  
Advanced Language Study Part 2  
An advanced analytical study of Latin; translation. 
Prerequisite: 30 points from LATIN 200-205

Postgraduate 700 Level Courses

LATIN 707 30 Points  
LATIN 707A 15 Points  
LATIN 707B 15 Points  

Selected Latin Texts 1  
Selected texts will be set for translation and explanation. 
To complete this course students must enrol in LATIN 707 A and B, or LATIN 707

LATIN 709 30 Points  
LATIN 709A 15 Points  
LATIN 709B 15 Points  

Directed Study  
Directed reading and individual study on a topic approved by the Graduate Adviser. 
Prerequisite: Approval of Academic Head or nominee

To complete this course students must enrol in LATIN 709 A and B, or LATIN 709

LATIN 714 15 Points  
LATIN 714A 7.5 Points  
LATIN 714B 7.5 Points  

Translation Portfolio: Latin to English  
A learning portfolio which may include practical exercises in translation, comparative study of different translations of one or more Latin authors, stylistic analysis, or study of the translation history of one or more Latin texts. 
Restriction: LATIN 700

To complete this course students must enrol in LATIN 714 A and B, or LATIN 714

To complete this course students must enrol in LATIN 796 A and B

LATIN 797A 60 Points  
LATIN 797B 60 Points  

Research Portfolio - Level 9  
To complete this course students must enrol in LATIN 797 A and B

Latin American Studies

Stage II

LATINAM 200 15 Points  

Special Topic: Latin American Icons  
An examination of the ways in which Latin America, as a place and a people, has served as a site of otherness and exoticism, providing an economic and symbolic capital for the consumption and pleasure of colonial, neo-colonial and neo-liberal powers. Latin American cultural studies texts offer students a way to read against the grain established by this process. 
Prerequisite: 30 points from BA courses or 15 points from BGlobalSt courses

Restriction: LATINAM 306
LATINAM 201 15 Points
Latin American History and Culture Through Film
A journey through five moments of Latin American history and culture, from its creation as a region imagined through the gaze of colonialism, through the development of an independent, revolutionary Third Cinema, to the present when globalisation is critiqued from the periphery. 
Prerequisite: 15 points from COMMS 100, FTVMS 100, 101, 112, MEDIA 101, SPANISH 103, 105, 200, 201, 277, 278, 319, 321, 377, 378, or 45 points in BGlobalSt courses
Restriction: LATINAM 303

LATINAM 202 15 Points
Study Abroad (Latin America)
A minimum of four weeks of study at an overseas institution approved by the Spanish and Latin American Study Abroad Adviser.
Prerequisite: Programme Coordinator approval

LATINAM 210 15 Points
Visual Cultures and Industries in Latin America
Follows transformations in Latin American visual cultures and culture industries since the 1930s, from the liberal to the neoliberal era. Throughout this history, who controls visual media production and how does this control relate to democracy? Have recent alliances between Indigenous groups and social movements to introduce new Media Laws successfully widened participation and challenged corporate media ownership?
Prerequisite: 45 points in BA courses or approval of Programme Coordinator
Restriction: LATINAM 310

LATINAM 216 15 Points
Music, Politics and Social Change
A theorised study of the history of twentieth-century social movements in Latin America through its poetry and music, largely as expressed in popular forms. The major focus is on the political and cultural manifestations of these expressions as they respond to and instigate social change.
Prerequisite: 15 points from SPANISH 103, 105, 200, 201, 277, 278, 319, 321, 377, 378
Restriction: LATINAM 301, SPANISH 216

Stage III

LATINAM 301 15 Points
Music, Politics and Social Change
A theorised study of the history of twentieth-century social movements in Latin America through its poetry and music, largely as expressed in popular forms. The major focus is on the political and cultural manifestations of these expressions as they respond to and instigate social change.
Prerequisite: 15 points from LATIMAN 201, SPANISH 202, 306, or 30 points at Stage II in BGlobalSt courses
Restriction: LATINAM 216, SPANISH 216

LATINAM 302 15 Points
Special Topic
Prerequisite: 15 points from LATINAM 201, SPANISH 202, 306

LATINAM 303 15 Points
Latin American History and Culture through Film
A journey through five moments of Latin American history and culture, from its creation as a region imagined through the gaze of colonialism, through the development of an independent, revolutionary Third Cinema, to the present when globalisation is critiqued from the periphery.
Prerequisite: 15 points from LATINAM 216, 301, SPANISH 202, or 30 points at Stage II in BGlobalSt courses
Restriction: LATINAM 201

LATINAM 304 15 Points
Study Abroad (Latin America)
A minimum of four weeks of study at an overseas institution approved by the Spanish and Latin American Study Abroad Adviser.
Prerequisite: 30 points at Stage II from the BA schedule or approval of Academic Head or nominee

LATINAM 306 15 Points
Latin American Icons: The Political Economy of Otherness
An examination of the ways in which Latin America, as a place and a people, has served as a site of otherness and exoticism providing economic and symbolic capital for the consumption and pleasure of colonial, neo-colonial and neo-liberal powers. Latin American cultural studies texts offer students a way to read against the grain established by this process.
Prerequisite: 15 points from LATINAM 201, 216, SPANISH 201, 202, or 30 points at Stage II in BGlobalSt courses
Restriction: SPANISH 306, 729

LATINAM 310 15 Points
Visual Cultures and Industries
Follows transformations in Latin American visual cultures and culture industries since the 1930s, from the liberal to the neoliberal era. Throughout this history, who controls visual media production and how does this control relate to democracy? Have recent alliances between Indigenous groups and social movements to introduce new Media Laws successfully widened participation and challenged corporate media ownership?
Prerequisite: 45 points at Stage II in BA courses or approval of Programme Coordinator
Restriction: LATINAM 210

LATINAM 320 15 Points
Latin American Knowledges
An examination of new knowledges produced in Latin America that have influenced socio-political theory and global epistemological paradigms but are subalternised as art, culture, or politics. Therefore this course will examine the link between theory and practice in the creation of new knowledge.
Prerequisite: 15 points from LATINAM 201, 216, POLITICS 234, SOCIOL 210, SPANISH 202, or 30 points at Stage II in BGlobalSt courses
Restriction: SPANISH 720

LATINAM 350 15 Points
Directed Reading and Research
Supervised research projects.
Prerequisite: 75 points in Latin American Studies at Stages I and II, and approval of Academic Head or nominee

Linguistics

Stage I

LINGUIST 100 15 Points
Introduction to Linguistics
An introduction to the main areas of linguistics: the production and function of sounds in language (phonetics and phonology), word structure and word formation (morphology), the principles of grammar through a
study of sentence structure (syntax), and various aspects of meaning (semantics). The course is a self-contained introduction and assumes no prior knowledge of linguistics or language study.

Restriction: LINGUIST 103

LINGUIST 101 15 Points
LINGUIST 101G 15 Points

Language, Mind and Society
A survey of three areas: the interaction between language structure and use on the one hand, and social structure and social norms on the other (sociolinguistics); the relationship between linguistic and cultural knowledge (anthropological linguistics); and the inter-relationship of language and other cognitive structures, especially as it is revealed through language acquisition (psycholinguistics).

Stage II

LINGUIST 200 15 Points
Syntax
Continues on from LINGUIST 100 or 103 and consists of a formal and a functional part, providing problems and exercises in syntactic analysis, as well as an introduction to grammatical theories and types of grammatical system.

Prerequisite: LINGUIST 100 or 103

LINGUIST 201 15 Points
Phonetics and Phonology
Includes a survey of speech sounds in the world’s languages, an overview of speech production and perception, and an introduction to how these sounds are organised into language. Includes a practical component in which theories are applied to language data.

Prerequisite: LINGUIST 100 or 103

LINGUIST 203 15 Points
Applied English Grammar
Covers the different types of sentences in English, with special attention to the relationship between grammar and meaning, tense, aspect and voice; their roles in texts, such as foregrounding, backgrounding and highlighting information, and introducing new information. Students will be shown how to distinguish standard and non-standard varieties of written English, and how to judge if written sentences are effective, appropriate and grammatical.

Prerequisite: 15 points at Stage I

LINGUIST 206 15 Points
Semantics and Pragmatics
An introduction to a wide range of issues of contemporary relevance to the study of meaning. The semantics part includes topics in structural, truth-conditional and cognitive semantics. The pragmatics part covers some of the basic topics in pragmatics.

Prerequisite: LINGUIST 100 or 103

Restriction: LINGUIST 302

LINGUIST 207 15 Points
English Language to 1900
Introduction to the history of the English language from its origins to 1900, with an emphasis on the development of sound changes, grammar, words and meanings in sociocultural and historical contexts.

Prerequisite: 30 points in English or Linguistics

Restriction: ENGLISH 203

LINGUIST 208 15 Points
Special Topic

LINGUIST 209 Special Topic 15 Points

Stage III

LINGUIST 300 15 Points
Advanced Syntax
A continuation of LINGUIST 200. Examines selected topics, such as syntactic dependencies, movement, grammatical relations, phrase structure, typology and universals.

Prerequisite: LINGUIST 200

LINGUIST 301 15 Points
Advanced Phonology
A continuation of LINGUIST 201, introducing a more theoretical approach to phonology including distinctive feature theory, syllable theory, metrical phonology, autosegmental phonology and lexical phonology. Issues are explored in the context of a constraint-based approach to phonology. Includes a practical component in which theories are applied to language data.

Prerequisite: LINGUIST 201

LINGUIST 305 15 Points
Child Language Acquisition
Examines the patterns and mechanisms by which children acquire knowledge of their native language and assesses a number of current theories which have been developed to explain the process.

Prerequisite: LINGUIST 200 or 201 or 203

LINGUIST 308 15 Points
Language Change
Introduces long-term historical trends, types of language change, language families and comparative reconstruction.

Prerequisite: LINGUIST 200, 201

Restriction: LINGUIST 202

LINGUIST 310 15 Points
Linguistics Essays Course
Students undertake supervised research.

Prerequisite: Permission of Academic Head or nominee

LINGUIST 311 15 Points
Special Topic

LINGUIST 314 15 Points
Special Topic

LINGUIST 315 15 Points
Special Topic

LINGUIST 320 15 Points
Topics in Pragmatics
Pragmatics is the systematic study of language in use and is a rapidly developing discipline in linguistics. This course will give a critical survey of the central topics and the latest developments of pragmatics. The domain of pragmatics, implicature, presupposition, speech act and deixis will be among the issues dealt with in individual lectures.

Prerequisite: LINGUIST 100

LINGUIST 322 15 Points
Middle English: Language and Change
A study of the origins, development and influences on English until around 1500.

Prerequisite: 15 points from LINGUIST 200, 201, ENGLISH 203

LINGUIST 324 15 Points
Morphology
Provides an overview of linguistic morphology and the various strategies of word formation across languages.
Theories such as Distributed Morphology, Lexical Phonology and Morphology, Lexeme-Based Morphology, Prosodic Morphology, and Word Syntax will be discussed, and the course will include a practical component in which these theories are applied to language data. 

Prerequisite: LINGUIST 100 or 103

Postgraduate 700 Level Courses

LINGUIST 700 15 Points
Directed Study

LINGUIST 701 15 Points
Special Topic

LINGUIST 704 15 Points
Special Topic

LINGUIST 705 15 Points
Field Methods: Phonetics and Phonology
Students analyse the structure of an unfamiliar language, focusing on phonetics and phonology. The language studied in LINGUIST 705 and 706 may be the same in any given academic year.
Prerequisite: LINGUIST 201 and either LINGUIST 300 or 313
Restriction: LINGUIST 707

LINGUIST 706 15 Points
Field Methods: Morpho-syntax
Students analyse the structure of an unfamiliar language, focusing on morphosyntax. The language studied in LINGUIST 705 and 706 may be the same in any given academic year.
Prerequisite: LINGUIST 201 and either LINGUIST 300 or 313
Restriction: LINGUIST 707

LINGUIST 709 15 Points
Linguistic Research
Research methods and practices in Linguistics, which provides students with skills necessary for carrying out linguistic research. In addition to practicum sessions students will propose, develop and complete an independent research project.

LINGUIST 721 15 Points
Formal Syntax
Formal theories of syntax, generative grammar, and current topics of interest to students. This could include: LFG, Minimalism, the DP analysis, theories of argument structure, and/or formal models of language processing.

LINGUIST 722 15 Points
Phonology
A range of topics from the field of non-linear phonology, including autosegmental phonology, syllable theory, feature geometry and CV phonology.

LINGUIST 724 15 Points
Semantics and Pragmatics
Deals with a wide range of issues in semantics and especially pragmatics. Topics may include implicature, presupposition, speech act, deixis, reference, pragmatics and cognition, pragmatics and semantics, and pragmatics and syntax.
Prerequisite: LINGUIST 206 or 302, or equivalent

LINGUIST 736 15 Points
Issues in Advanced Morphology
Focuses on competing theoretical models of morphology and includes application of one theory in an extended analysis.

LINGUIST 739 15 Points
Directed Study
Directed reading and individual study course designed in consultation with appropriate staff according to the field of research.

LINGUIST 743 15 Points
Special Topic

LINGUIST 790 30 Points
LINGUIST 790A 15 Points
LINGUIST 790B 15 Points
Research Project - Level 9
To complete this course students must enrol in LINGUIST 790 A and B, or LINGUIST 790

LINGUIST 791 60 Points
LINGUIST 791A 30 Points
LINGUIST 791B 30 Points
Dissertation - Level 9
To complete this course students must enrol in LINGUIST 791 A and B, or LINGUIST 791

LINGUIST 792 45 Points
LINGUIST 792A 22.5 Points
LINGUIST 792B 22.5 Points
Dissertation - Level 9
To complete this course students must enrol in LINGUIST 792 A and B, or LINGUIST 792

LINGUIST 793A 45 Points
LINGUIST 793B 45 Points
Thesis - Level 9
To complete this course students must enrol in LINGUIST 793 A and B

LINGUIST 796A 60 Points
LINGUIST 796B 60 Points
Thesis - Level 9
To complete this course students must enrol in LINGUIST 796 A and B

Logic and Computation

Stage II

LOGICOMP 201 15 Points
Special Topic

Stage III

LOGICOMP 300 15 Points
Directed Study
Prerequisite: Approval of Academic Head or nominee

LOGICOMP 301 15 Points
Philosophy and Computation
Covers a range of issues arising from the engagement of philosophy and computer science. Topics include the nature of computation, the limits of computation, and philosophical problems facing Artificial Intelligence.
Prerequisite: COMPSCI 120, and PHIL 216 or 222

LOGICOMP 302 15 Points
Special Topic

LOGICOMP 309 15 Points
Capstone: Logic and Computation
Potential topics relate logic and computation, and their roles in modern information society. Topics and reading material are introduced before students pick topics, to
work alone or in small teams. The topics will be chosen to be accessible to all participants, thereby fostering interaction and interdisciplinary collaboration.

Prerequisite: 30 points at Stage III in Logic and Computation

**Postgraduate 700 Level Courses**

**LOGICOMP 701** 15 Points  
Directed Studies  
Supervised research studies in an area of logic and computation.

**LOGICOMP 702** 15 Points  
Special Topic

**LOGICOMP 703** 15 Points  
Directed Study  
Supervised research studies in an area of logic and computation.

**LOGICOMP 704** 15 Points  
Special Topic

**LOGICOMP 705** 15 Points  
Special Topic

**LOGICOMP 782** 30 Points  
LOGICOMP 782A 15 Points  
LOGICOMP 782B 15 Points  
Research Project - Level 9  
Restriction: LOGICOMP 780, 788  
To complete this course students must enrol in LOGICOMP 782 A and B, or LOGICOMP 782

**LOGICOMP 796A** 60 Points  
LOGICOMP 796B 60 Points  
Thesis - Level 9  
Prerequisite: A BA(Hons) in Logic and Computation with at least Second Class Honours, First Division, or equivalent  
To complete this course students must enrol in LOGICOMP 796 A and B

**Media and Screen Studies**

**Stage I**

**MEDIA 101** 15 Points  
Film Studies  
An introduction to the feature film and the main traditions of film criticism. A series of significant films, from 1915 to the present, are explored in detail. The aim is to develop a historical perspective, an awareness of film-making as an art and an interest in the relationship between films and society, including debates about race, gender, censorship.

**MEDIA 102** 15 Points  
Media and Culture  
Examines popular media texts, genres, audiences and industries, reflecting on how they influence our notions of self and society. Draws on case studies from a range of popular media, from film and television to comics, games, popular music, social media and advertising. Fosters critical perspectives on media as vehicles for cultural meaning, alongside strategies for crafting personal and collective narratives.

**Stage II**

**MEDIA 202** 15 Points  
Hollywood and its Others  
An investigation of Hollywood’s interactions with European and Asian cinema, with a particular focus on its industrial, aesthetic and cultural aspects. Students will gain a historical understanding of Hollywood cinema and how its relationships with other film cultures have shaped the dynamics of global cinema.  
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed, or 30 points in Transnational Cultures and Creative Practice  
Restriction: MEDIA 307

**MEDIA 212** 15 Points  
Video Games: Theory and Culture  
A study of video games as a new media form situated in the broader context of media theory and history. Considers video gaming as an industry, as a leisure activity, and as a site of aesthetic and narrative innovation. The course examines what makes video games a distinctive media form.  
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed, or 30 points in Communication  
Restriction: MEDIA 320

**MEDIA 213** 15 Points  
Cinema of Aotearoa New Zealand  
Traces a thematic history of filmmaking in Aotearoa New Zealand from the mid-1980s until the present. Locates a range of films in their historical, social and political contexts by concentrating on issues that arise for a small nation defined by indigenous and settler relations, immigration and globalisation.  
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed  
Restriction: MEDIA 313

**MEDIA 214** 15 Points  
Social Media  
Addresses issues related to the use of social media and considers in particular the influence of new media corporations such as Facebook, as well as platforms like Twitter, Snapchat, Tinder and YouTube. Explores our cultural practices and social rituals in relation to these peer-to-peer, one-to-many media technologies, and examines this revolution in the media landscape.  
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed, or 30 points in Communication  
Restriction: COMMS 204, MEDIA 314

**MEDIA 216** 15 Points  
Special Topic  
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed

**MEDIA 217** 15 Points  
Special Topic  
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed

**MEDIA 218** 15 Points  
Popular Music on Screens  
Explores relationships between popular music and visual media, such as film, television and online media. Includes analysis of documentaries, feature films, TV shows, music videos and social media platforms. Themes include stardom, fandom, songs, dancing, music genres, technologies and industries. Texts are situated in debates about music media and power relations marked by class, gender, sexuality, race and ethnicity.  
Prerequisite: 15 points at Stage I in Media and Screen Studies, or ANTHRO 106, and 30 points passed  
Restriction: MEDIA 323
MEDIA 220 15 Points
Mockumentary and Docu-Genres
Consider the development of mockumentary and fakery in relation to documentary genres. Introduces students to basic concepts related to documentary realism and then explores a range of film and television examples that refer to, subvert, and problematise notions of visible evidence and factuality.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed
Restriction: MEDIA 316

MEDIA 221 15 Points
Action Films
Investigates action films as a genre and a “spectacle” in world cinema. Considers the aesthetic qualities of the genre and its interaction with the wider context. Issues studied include the relationship between conventions and inventions, the combination of visual and aural spectacle, as well as how identity is articulated through the discourse of nation, gender, ethnicity, age and the landscape.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed
Restriction: MEDIA 315

MEDIA 222 15 Points
Comics and Visual Narrative
Explores the medium of comics both as an expression of popular culture and as a visual language. Beginning with a history of sequential graphic narrative, the course considers issues around the legitimacy of a popular art form and means of story-telling, as well as the problem of censorship that dominated comics culture especially in the 1950s.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed, or 30 points in Communication or Transnational Culture and Creative Practice
Restriction: MEDIA 327

MEDIA 227 15 Points
Special Topic
Prerequisite: 15 points at Stage I in Media and Screen Studies, and 30 points passed

MEDIA 229 15 Points
Recorded Music and Media Formats
Cultural studies of the sounds and significance of popular recorded music through the media formats in which it has been manufactured, distributed and consumed. Provides a critical introduction to the role of technologies and industries, studios and producers, musicians, music scenes and everyday listening in relation to vinyl records, radio, cassettes, CDs, the MP3 and streaming music.
Prerequisite: 15 points at Stage I in Media and Screen Studies or ANTHRO 106, and 30 points passed
Restriction: MEDIA 331

MEDIA 231 15 Points
Eco/media
Eco/media introduces students to the increasingly important and varied role that nature, environment, and ecology play in media, film, and television studies. Students explore how environmentalism is communicated through various media, how the mediation of flora, fauna and the earth’s atmosphere offers powerful new insights into media texts, and how media production and consumption can be analysed using ecological frameworks.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed, or 30 points in Communication or Global Environment and Sustainable Development
Restriction: MEDIA 332

MEDIA 233 15 Points
Special Topic
Prerequisite: 15 points at Stage I in Media and Screen Studies, and 30 points passed

MEDIA 235 15 Points
Visual Culture
Visual culture is not just part of our everyday lives, it is our everyday lives. This course introduces students to the practices, technologies and knowledges through which visual imagery is constructed and how it circulates. It provides students with the tools for analysing and communicating with various kinds of visual images and objects.
Prerequisite: 15 points at Stage I in Media and Screen Studies or Art History, and 30 points passed
Restriction: COMMS 302, MEDIA 335

MEDIA 236 15 Points
Horror Media
Explores horror’s aesthetic, experiential, and political dimensions, investigating why and how it has persisted as one of popular culture’s most vigorous and influential genres. Closely considers a range of classic and contemporary films, TV shows and video games, confronting questions of power, affect, mediation and representation.
Prerequisite: 15 points at Stage I in Media and Screen Studies, and 30 points passed
Restriction: MEDIA 336

MEDIA 237 15 Points
Visualising Screen Stories
Investigates the conceptual and practical dimensions of creating visual stories for screen. Encourages students to explore aesthetic principles from film history and visual culture by using the basic tools of contemporary digital media. Students will develop screenplays, storyboards and lookbooks, and work collaboratively to create short smartphone films.
Prerequisite: 15 points at Stage I in Media and Screen Studies, and 30 points passed
Restriction: SCREEN 201, MEDIA 337

MEDIA 238 15 Points
Creating Advertising: Text, Image, Story
Explores the connections between visual expression, cinematic storytelling and commercial persuasion. Students analyse promotional posters, advertising copy and video-based advertisements before creating their own persuasive media projects. This course offers a thorough introduction to advertising strategies and industrial practices, and develops students’ skills in promotional messaging and audiovisual storytelling.
Prerequisite: 15 points at Stage I in Media and Screen Studies, and 30 points passed
Restriction: COMMS 309, MEDIA 338

MEDIA 241 15 Points
Writing Screen Stories
Focuses on the fundamentals and principles of dramatic writing for screen. Encourages students to explore narrative strategies from film and television to understand the mechanics of screen stories and to write meaningful screenplays in their own voice.
Prerequisite: 15 points at Stage I in Media and Screen Studies and 30 points passed
Restriction: MEDIA 341
Stage III

MEDIA 307 15 Points
Hollywood and its Others
An investigation of Hollywood’s interactions with European and Asian cinema, with a particular focus on its industrial, aesthetic, and cultural aspects. Students will gain a historical understanding of Hollywood cinema and how its relationships with other film cultures have shaped the dynamics of global cinema.
Prerequisite: 30 points at Stage II in Media and Screen Studies or Transnational Cultures and Creative Practice
Restriction: MEDIA 202

MEDIA 313 15 Points
Cinema of Aotearoa New Zealand
Traces a thematic history of filmmaking in Aotearoa New Zealand from the mid-1980s until the present. Locates a range of films in their historical, social and political contexts by concentrating on issues that arise for a small nation defined by indigenous and settler relations, immigration and globalisation.
Prerequisite: 30 points at Stage II in Media and Screen Studies
Restriction: MEDIA 213

MEDIA 314 15 Points
Social Media
Addresses issues related to the use of social media and considers in particular the influence of new media corporations such as Facebook, as well as platforms like Twitter, Snapchat, Tinder and YouTube. Explores our cultural practices and social rituals in relation to these peer-to-peer, one-to-many media technologies, and examines this revolution in the media landscape.
Prerequisite: 30 points at Stage II in Media and Screen Studies
Restriction: COMMS 204, MEDIA 214

MEDIA 315 15 Points
Action Films
Investigates action films as a genre and a “spectacle” in world cinema. Considers the aesthetic qualities of the genre and its interaction with the wider context. Issues studied include the relationship between conventions and inventions, the combination of visual and aural spectacle, as well as how identity is articulated through the discourse of nation, gender, ethnicity, age and the landscape.
Prerequisite: 30 points at Stage II in Media and Screen Studies
Restriction: MEDIA 221

MEDIA 316 15 Points
Mockumentary and Docu-Genres
Considers the development of mockumentary and fakery in relation to documentary genres. Introduces students to basic concepts related to documentary realism and then explores a range of film and television examples that refer to, subvert, and problematise notions of visible evidence and factuality.
Prerequisite: 30 points at Stage II in Media and Screen Studies
Restriction: MEDIA 220

MEDIA 323 15 Points
Popular Music on Screens
Explores relationships between popular music and visual media, such as film, television and online media. Includes analysis of documentaries, feature films, TV shows, music videos and social media platforms. Themes include stardom, fandom, songs, dancing, music genres, technologies and industries. Texts are situated in debates about music media and power relations marked by class, gender, sexuality, race and ethnicity.
Prerequisite: 30 points at Stage II in Anthropology or Media and Screen Studies
Restriction: MEDIA 218

MEDIA 327 15 Points
Comics and Visual Narrative
Explores the medium of comics both as an expression of popular culture and as a visual language. Beginning with a history of sequential graphic narrative, the course considers issues around the legitimacy of a popular art form and means of story-telling, as well as the problem of censorship that dominated comics culture especially in the 1950s.
Prerequisite: 30 points at Stage II in Communication or Media and Screen Studies or Transnational Cultures and Creative Practice
Restriction: MEDIA 222

MEDIA 328 15 Points
Video Games: Theory and Culture
A study of video games as a new media form situated in the broader context of media theory and history. Considers video gaming as an industry, as a leisure activity, and as a site of aesthetic and narrative innovation. The course examines what makes video games a distinctive media form.
Prerequisite: 30 points at Stage II in Communication or Media and Screen Studies
Restriction: MEDIA 212

MEDIA 331 15 Points
Recorded Music and Media Formats
Cultural studies of the sounds and significance of popular recorded music through the media formats in which it has been manufactured, distributed and consumed. Provides a critical introduction to the role of technologies and industries, studios and producers, musicians, music scenes and everyday listening in relation to vinyl records, radio, cassettes, CDs, the MP3 and streaming music.
Prerequisite: 30 points at Stage II in Anthropology or Media and Screen Studies
Restriction: MEDIA 229

MEDIA 332 15 Points
Eco/media
Eco/media introduces students to the increasingly important and varied role that nature, environment, and ecology play in media, film, and television studies. Students explore how environmentalism is communicated through various media, how the mediation of flora, fauna and the earth’s atmosphere offers powerful new insights into media texts, and how media production and consumption can be analysed using ecological frameworks.

Restriction: MEDIA 231

MEDIA 333 15 Points
Special Topic
Prerequisite: 30 points at Stage II in Media and Screen Studies

MEDIA 334 15 Points
Special Topic
Prerequisite: 30 points at Stage II in Media and Screen Studies

MEDIA 335 15 Points
Visual Culture
Visual culture is not just part of our everyday lives, it is our everyday lives. This course introduces students
to the practices, technologies and knowledges through which visual imagery is constructed and how it circulates. It provides students with the tools for analysing and communicating with various kinds of visual images and objects.

**Prerequisite:** 30 points at Stage II in Art History or Media and Screen Studies

**Restriction:** COMMS 302, MEDIA 235

---

### MEDIA 336
**Horror Media**
Explores horror’s aesthetic, experiential, and political dimensions, investigating why and how it has persisted as one of popular culture’s most vigorous and influential genres. Closely considers a range of classic and contemporary films, TV shows and video games, confronting questions of power, affect, mediation and representation.

**Prerequisite:** 30 points at Stage II in Media and Screen Studies

**Restriction:** MEDIA 236

---

### MEDIA 337
**Visualising Screen Stories**
Investigates the conceptual and practical dimensions of creating visual stories for screen. Encourages students to explore aesthetic principles from film history and visual culture by using the basic tools of contemporary digital media. Students will develop screenplays, storyboards and lookbooks, and work collaboratively to create short smartphone films.

**Prerequisite:** 30 points at Stage II in Media and Screen Studies

**Restriction:** SCREEN 201, MEDIA 237

---

### MEDIA 338
**Creating Advertising: Text, Image, Story**
Explores the connections between visual expression, cinematic storytelling and commercial persuasion. Students analyse promotional posters, advertising copy and video-based advertisements before going on to create their own persuasive media projects. This course offers a thorough introduction to advertising strategies and industrial practices, and develops students’ skills in promotional messaging and audiovisual storytelling.

**Prerequisite:** 30 points at Stage II in Media and Screen Studies

**Restriction:** SCREEN 303, MEDIA 238

---

### MEDIA 340
**Filmmaking**
A hands-on exploration of the aesthetic and technical challenges of cinematic storytelling. Students are encouraged to reflect on filmmakers’ creative strategies and pursue their own choices in relation to camera, sound, lighting and editing. This limited-entry course involves a blend of lectures and studio-based workshops, and emphasises the links between cinematic ideas and the practical techniques used to realise them.

**Prerequisite:** 30 points at Stage II in Media and Screen Studies

**Restriction:** SCREEN 200, 302

---

### MEDIA 341
**Writing Screen Stories**
Focuses on the fundamentals and principles of dramatic writing for screen. Encourages students to explore narrative strategies from film and television to understand the mechanics of screen stories and to write meaningful screenplays in their own voice.

**Prerequisite:** 30 points at Stage II in English or Media and Screen Studies

**Restriction:** MEDIA 241

---

### Postgraduate 700 Level Courses

#### MEDIA 713
**Media, Sound and Music**
Interdisciplinary scholarship on sound and music media. Topics include: listening and soundscapes; noise/music; popular culture; the politics of sound and music; audio technologies; affect, feelings and emotions; identities; stardom, celebrity and fandom; voices; material cultures; audiovisual media; social media; and the political economy of music.

**Prerequisite:** 30 Points

---

#### MEDIA 715
**Visualising Difference**
Critically examines the representation of racial and ethnic difference in cinema and broadcast television. This course explores and discusses how difference has been conceptualised in colonial, post-colonial, and multicultural frameworks using examples from the USA, Canada, Australia, and New Zealand.

**Prerequisite:** 30 Points

---

#### MEDIA 716
**Love in/Loving the Cinema**
Critically examines the theme of love in the cinema. Looks at why the love story has been such a staple of movie narratives and what films can teach us about love. Also explores the nature of the love of cinema itself, cinephilia.

**Prerequisite:** 30 Points

---

#### MEDIA 717
**Ubiquitous Media**
Ubiquitous computing has led to an increasingly mediatised world known as the ‘Internet of things’. With the increased use of tags and sensors, the development of smart environments means that communication and information media increasingly shape our world and define our relations with others. This interdisciplinary course interrogates the philosophical, social and political implications of the move from software to ‘everyware’.

**Prerequisite:** 30 Points

---

#### MEDIA 726
**Directed Study**

**Prerequisite:** 30 Points

---

#### MEDIA 729
**Film Evil**
Explores the theme of evil in the cinema. What films can teach about evil and why it is that conceptions of evil - its nature and source as well as distinctions between natural and moral evil - have formed so much of the subject matter of cinema. The course also considers the proposition that some films may themselves be evil.

**Prerequisite:** 30 Points

---

#### MEDIA 741
**Time and the Moving Image**
Explores how moving images mediate our experience of time, from the actualités of early cinema to video games and digital special effects. Addresses the representation and articulation of time across documentary and narrative cinema, experimental film and video, television and new media, with reference to key concepts in philosophy and media theory.

**Prerequisite:** 30 Points

---

#### MEDIA 742
**Directed Study**

**Prerequisite:** 15 Points

---

#### MEDIA 743
**Chinese Film Genres**
Explores the evolution of major film genres of the Chinese-language cinemas (i.e., cinemas of mainland China, Hong Kong, Taiwan and the Chinese diaspora). Investigates the formal styles of such genres as melodrama, youth, avant-
garde, and documentary as well as how the changing styles reflect some big issues of sociocultural significances.

MEDIA 746 30 Points
Special Topic: Žižek Through Hitchcock
Slavoj Žižek is known for elaborating psychoanalytic and Marxist theory through the use of film and popular culture. In this course we shall read Alfred Hitchcock’s films and Žižek’s idiosyncratic citation of them to develop a theory of Žižek’s own work. To achieve this, each lesson looks at a film by Hitchcock and explores a key aspect of Žižek’s ideas.

MEDIA 748 30 Points
Special Topic: Documentary Making
A hands-on production course in which students produce, direct and edit a 9-12 minute documentary. Emphasis is placed on learning technical and craft aspects of documentary-making informed by the rich and varied tradition of the genre. Students are also required to analyse a series of influential documentaries screened as part of the course.

Restriction: SCREEN 713, COMMS 713

MEDIA 781 30 Points
Research Project - Level 9

MUSEUMS 700 15 Points
Exhibiting Cultures: International
Investigates the presentation of cultures in museums, art galleries and other sites globally, the strategies of public exhibitions, and the role of curators and institutions in identity formation and nationalism. Case studies are drawn from international and indigenous practice, as well as regional examples from Aotearoa New Zealand, Australia and the Pacific.

Restriction: ARTHIST 715, 721, 736, MUSEUMS 701, 703, 704
To complete this course students must enrol in MUSEUMS 704 A and B, or MUSEUMS 704

Māori society that continue to challenge and mould contemporary life in New Zealand. Topics are covered from a Māori perspective and include the Treaty of Waitangi, the role of the churches in colonisation, language loss and revitalisation, the modern protest movements and the influence of the issues raised on Māori–Pākehā relations. 

**Prerequisite:** MĀORI 130 or 60 points passed

### MĀORI 233
#### Tikanga Ancestral Ways
Examines tikanga (ancestral ways of living) and how these have changed since the arrival of Māori in Aotearoa. Beginning with topics of contemporary interest such as land use, the sea, kinship, gender relations, justice, health and economics, this course will trace the patterns of ancestral life, explore historical debates and reflect upon possible futures.

**Prerequisite:** 30 points passed

**Restriction:** MĀORI 396

### MĀORI 270
#### Kaupapa Hōu: Special Topic

### MĀORI 271
#### Māori and the Media / Te Ao Pāho
Examines the interrelationship between Māori and media. The course falls into two main strands: the representation of Māori and te ao Māori across a range of mainstream media, both historic and contemporary, and media made by Māori, for both a general audience and for a Māori audience. The course will draw on theories of political economy, postcolonialism and Kaupapa Māori.

**Prerequisite:** 30 points passed

**Restriction:** MĀORI 370

### MĀORI 292
#### Kapa Haka 2
Examines traditional and contemporary Māori performing arts and covers all aspects of Māori performance including whakaeke (entry), waiata mōteatea, waiata-ā-ringa (action song), poi, haka, whakawātea (exit). There is a strong practical element to the course as well as an analysis of social, cultural and political contexts of the songs and performance.

**Prerequisite:** MĀORI 190

### Stage III

### MĀORI 301
#### Reo Māori Tuhituhi
Follows on from MĀORI 201. Advances skills and techniques in listening, reading, writing and translation. Examines the preservation of oral traditions including grammatical analysis and practical exercises in transcription and translation.

**Prerequisite:** MĀORI 201

### MĀORI 302
#### Reo Māori Kōrero
Ko tēnēi te pepa whakahoohoake i ngā tau ka taha. Ko te whainga, ko te whanake i ngā ture whakatakotoranga o te Reo Māori, mai i ngā tuhiinga me ngā kōrero Māori kia pai ai te puta mai o te kōrero. Mai anō hoki i ngā tuhiinga Māori, ka atā tirohia te ao o te Māori, te ātaahuatanga o te whakahauatanga. 

**Prerequisite:** 15 points from MĀORI 203, 204, 206

### MĀORI 303
#### Decolonising the Screen in Aotearoa
An in-depth examination of the socio-cultural and political impact of New Zealand films foregrounding Māori, both in front of and especially, behind the camera. The course looks primarily at how Māori filmmakers have used cinema as a means to reassert cultural identity and tino rangatiratanga, from its activist beginnings during the Māori Cultural Renaissance in the 1980s, to the present.

**Prerequisite:** 60 points at Stage II or approval of Academic Head or nominee

**Restriction:** MĀORI 202

### MĀORI 304
#### Kaupapa Hōu: Special Topic: Kaupapa Māori Research Methodologies
Kaupapa Māori research methodologies is grounded within Mātauranga Māori (Māori epistemology), worldviews, and practices. Students will learn how Kaupapa Māori research methodologies is a critical approach to research practices relevant to Māori, drawing upon Mātauranga Māori, incorporates strategies of resistance to ongoing colonialism as a pathway toward tino rangatiratanga (Māori self-determination), whilst focusing on decolonising Western research practices.

**Prerequisite:** 30 points at Stage II in Māori Studies or MĀORI 233

### MĀORI 320
#### Mātauranga: Māori Knowledge
Explores the various facets of knowledge. This includes genealogy - cosmic, theogenic and anthropogenic (whakapapa), traditional songs (mōteatea), proverbs (whakatauki). The aim is to help develop an understanding of a Māori world view and a te ao mārama paradigm through studying Māori epistemology.

**Prerequisite:** 15 points from MĀORI 201, 203, 206 or 30 points at Stage II

### MĀORI 330
#### Te Ao Hōu / Contemporary Māori Issues
An examination of contemporary issues and debates around Māori identity as indigenous peoples in the twenty-first century. Various aspects of Māori political, cultural, social and economic development in the twenty-first century will be discussed.

**Prerequisite:** 30 points at Stage II

### MĀORI 335
#### Mana Taketake / Indigenous Sovereignty and Public Policy
Examines the nature of the claims that indigenous minorities are making and the political strategies that they use to pursue their self-determining agendas in both domestic and international arenas. Concepts of indigenous and human rights, redistributive justice and others are discussed and explored in relation to contemporary demands of some indigenous peoples.

**Prerequisite:** 30 points at Stage II

### MĀORI 370
#### Māori and the Media / Te Ao Pāho
Examines the interrelationship between Māori and media. The course falls into two main strands: the representation of Māori and te ao Māori across a range of mainstream media, both historic and contemporary, and media made by Māori, for both a general audience and for a Māori audience. The course will draw on theories of political economy, postcolonialism and Kaupapa Māori.

**Prerequisite:** 30 points passed at Stage II in any subject

**Restriction:** MĀORI 271

### MĀORI 393
#### Kapa Haka 3
Advances the lessons learned in MĀORI 292. The practical
aspects of performance remain paramount while the range is extended to cover in much greater depth and detail, ancient waiata, various forms and styles of haka and poi, leading into contemporary song, dance and choral works; analysis of the social, cultural and political issues that have inspired historical and contemporary works.

Prerequisite: MĀORI 292 or approval of Academic Head or nominee

MĀORI 394 15 Points
Kaupapa Hōu: Special Topic
Prerequisite: 15 points at Stage II in Māori Studies

MĀORI 396 15 Points
Tikanga: Ancestral Ways
Examines tikanga (ancestral ways of living) and how these have changed since the first arrival of the ancestors of Māori in Aotearoa. Beginning with topics of contemporary interest such as land use, the sea, kinship, gender relations, justice, health and economics, this course will trace the patterns of ancestral life, explore historical debates and reflect upon possible futures.

Prerequisite: 30 points at Stage II
Restriction: MĀORI 233

Postgraduate 700 Level Courses

MĀORI 700 30 Points
Reo Māori: Topic in Māori Language
An examination of developments in Māori and Polynesian language description, analysis and preservation over the past 50 years.

Pacific Studies

Stage I

PACIFIC 100 15 Points
PACIFIC 100G 15 Points
Te Moana-nui-a-Kiwa/Pacific Worlds
Introduces students to Pacific Studies and the worlds of Te Moana-nui-a-Kiwa (The Pacific). Through the study of taonga or cultural treasures drawn from specific cultures and societies, insights into Indigenous Pacific knowledges and practices are developed. Spanning deep history and
the contemporary moment, this course provides a critical understanding of change in the Pacific over time and space.

**PACIFIC 105**  
**The Contemporary Pacific**  
Explores the ways in which Pacific peoples frame their contemporary world in the context of globalisation. It also examines factors which shape contemporary Pacific life and popular culture as well as some of the challenges emanating from how Pacific peoples construct and make sense of their own and others' historical, political, socio-cultural, economic and religious worlds.

**PACIFIC 110**  
**Pacific Music and Dance**  
Practical and theoretical introduction to performing cultures of the Pacific with emphasis on Polynesian cultures. Basic music and dance skills are taught in practical instruction. Consideration of commonalities and differences among Pacific cultures. Academic discussion of styles, instruments, performer categories and the place of the performing arts in Pacific cultures.

**Stage II**

**PACIFIC 200**  
**Theorising Pacific Studies**  
Broadens and deepens knowledge of the Pacific and fosters critical understandings of how that knowledge is created. Focuses on Pacific approaches as they theorise Pacific Studies alongside other allied disciplines, identifies the influence of Pacific thinkers and refines thinking via the critical analysis of key debates.  
Prerequisite: PACIFIC 100 or 45 points in BGlobalSt courses

**PACIFIC 205**  
**Pacific Innovation and Sustainability**  
Examines innovation and sustainability of Pacific Peoples in the Pacific and within the Pacific communities of Aotearoa. Explores the adaptability and innovation of Pacific peoples to create sustainable communities that embody both traditional cultural values and identities, and are also focused on future development, opportunity, mobility, and communal success.  
Prerequisite: 30 points passed  
Restriction: PACIFIC 305

**PACIFIC 206**  
**Pacific Youth: Contemporary Realities in the Pacific Region**  
Addresses critical contemporary issues for youth in the Pacific region with a particular emphasis on Aotearoa. Throughout this course, issues around health and wellbeing, identities (ethnic, spiritual, gender), education, climate change, artistic expressions, resilience, youth engagement and risk taking behaviours will be examined, and the impacts these have upon Pacific young peoples, their families and their communities will be explored.  
Prerequisite: 30 points passed  
Restriction: PACIFIC 306

**PACIFIC 207**  
**Topics in Pacific Arts**  
A survey of traditional Pacific art forms focusing specifically on their histories, significance and socio-cultural functioning within contemporary Pacific diasporas. Art forms covered in this course include Pacific architecture, body adornment, tapa (barkcloth), tivaevae (quilt-making), tatau (tattoo) and weaponry. This course will look at these art forms as part of dynamic living cultures within an ever changing, ever global Pacific. Issues addressed in this course include gender, power, ritual and the impact of new technologies on notions of tradition.  
Prerequisite: 30 points passed  
Restriction: PACIFIC 308

**PACIFIC 208**  
**Gender and the Pacific in a Globalising World**  
Gender affects the way identity, culture and wellbeing is experienced and navigated in the Pacific. Moreover, these processes are complicated by emerging cosmopolitanisms that impact gendered bodies, cultures, institutions, nations and states. This course examines the intersections of race, sex, biology, ableism, colonialism, nationality, politics and social movements in our constructions/understanding of gender in a Pacific and global context.  
Prerequisite: 30 points passed  
Restriction: PACIFIC 307

**PACIFIC 209**  
**Pacific Leadership: Navigators of Change**  
Pacific leadership has had profound effects on Pacific peoples, playing critical roles in how Pacific societies have responded to the forces of colonisation, Christianity and capitalism. The course will examine Pacific traditional leadership and contemporary leadership in areas such as politics, academia, education, the arts, sports and health, analysing changes and developments.  
Prerequisite: 15 points from PACIFIC 100, 105, 110, or 15 points at Stage I in Education, Anthropology, History, or approval of Head of School or nominee  
Restriction: PACIFIC 309

**PACIFIC 210**  
**Pacific Music and Dance 2**  
Instruction in the intermediate music and dance forms of specific Pacific nations. Practical focus on acquisition of fundamental music and dance skills, for example songs, commands, gestures, posture, costumes, discussion of styles, instruments, performer categories and the place of the performing arts in the identified Pacific cultures. Two-four music and dance items will normally be taught during the semester.  
Prerequisite: PACIFIC 110 or 30 points in Transnational Cultures and Creative Practice

**PACIFIC 211**  
**Polynesian Warriors: Sport and Pacific Cultures**  
Sport has profoundly impacted Pacific peoples and cultures, playing critical roles in colonialism and education in the past, to migration and commercialisation in the present. Sport has changed Pacific cultures and been changed by Pacific cultures. Pacific cultural encounters with globalisation, race, capitalism, migration and public discourse will be explored through the experience of sport.  
Prerequisite: 30 points passed  
Restriction: PACIFIC 311

**PACIFIC 212**  
**Pacific Indigenous Literatures and Knowledges**  
Studies Pacific genres of oral literature in English translation. Genres include oratory, poetry, tales of creation, folk tales, and proverbs and sayings.  
Prerequisite: 30 points passed  
Restriction: PACIFIC 312

**PACIFIC 213**  
**Pacific Wellbeing: Empowering Dimensions**  
Examines empowering notions of Pacific wellbeing for Pacific individuals, families and communities. Students
explore definitions of Pacific wellbeing and the cultural concepts, models, practices and worldviews that have enhanced the overall positive wellbeing experiences of Pacific peoples across the Pacific region.

Prerequisite: 30 points passed
Restriction: PACIFIC 313

PACIFIC 214
PACIFIC History: New Zealand in the Pacific from 1900
Explores the historical relationship between New Zealand and the Pacific from 1900 onwards. Traces the central importance of New Zealand in the history of the Pacific from the rise of New Zealand's colonial empire, through the world wars, and towards the movement for decolonisation. Examines the continually evolving place of New Zealand as a nation in the Pacific Ocean.

Prerequisite: 15 points at Stage I in Pacific Studies or History and 30 points passed
Restriction: PACIFIC 314

PACIFIC 215
Special Topic
Prerequisite: 30 points passed
Restriction: PACIFIC 315

PACIFIC 216
Special Topic
Prerequisite: 30 points passed
Restriction: PACIFIC 316

Stage III

PACIFIC 300
NZ-Born Pacific Identities
Explores the complex issues of growing up as NZ-born persons of Pacific descent. Examines how their dual or multiple identities affect and interact with their behaviours, priorities, social relationships and their concept of self. The course will use a cross-cultural perspective, exploring ethnic identities of other minorities. The concept of inter-generational ethnic identity will also be considered.

Prerequisite: 30 points at Stage II in Pacific Studies

PACIFIC 304
Advanced Pacific Studies
This is the 'capstone' course for the Pacific Studies major. It is particularly engaged with the theory and methods of Pacific Studies. Different modes of presenting Pacific Studies work, and their relevance for real world applications - from policy papers and briefings to NGO reports - are also explored. The central feature of the course is the large project to be completed by each student, which will combine knowledge taught in this course with original research.

Prerequisite: PACIFIC 200 and a minimum B– average at Stage II in Pacific Studies

PACIFIC 305
Pacific Innovation and Sustainability
Examines innovation and sustainability of Pacific Peoples in the Pacific and within the Pacific communities of Aotearoa. Explores the adaptability and innovation of Pacific peoples to create sustainable communities that embody both traditional cultural values and identities, and are also focused on future development, opportunity, mobility, and communal success.

Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 205

PACIFIC 306
Pacific Youth: Contemporary Realities in the Pacific Region
Addresses critical contemporary issues for youth in the Pacific region with a particular emphasis on Aotearoa. Throughout this course, issues around health and wellbeing, identities (ethnic, spiritual, gender), education, climate change, artistic expressions, resilience, youth engagement and risk taking behaviours will be examined, and the impacts these have upon Pacific young peoples, their families and their communities will be explored.

Prerequisite: 30 points at Stage II
Restriction: PACIFIC 206

PACIFIC 307
Gender and the Pacific in a Globalising World
Gender affects the way identity, culture and wellbeing is experienced and navigated in the Pacific. Moreover, these processes are complicated by emerging cosmopolitanisms that impact gendered bodies, cultures, institutions, nations and states. This course examines the intersections of race, sex, biology, ableism, colonialism, nationality, politics and social movements in our constructions/understanding of gender in a Pacific and global context.

Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 208

PACIFIC 308
Special Topic: Topics in Pacific Arts
A survey of traditional Pacific art forms focusing specifically on their histories, significance and socio-cultural functioning within contemporary Pacific diasporas. Art forms covered in this course include Pacific architecture, body adornment, tapa (barkcloth), tivaevae (quilt-making), tatau (tattoo) and weaponry. This course will look at these art forms as part of dynamic living cultures within an ever changing, ever global Pacific. Issues addressed in this course include gender, power, ritual and the impact of new technologies on notions of tradition.

Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 207

PACIFIC 309
Pacific Leadership: Navigators of Change
Pacific leadership has had profound effects on Pacific peoples, playing critical roles in how Pacific societies have responded to the forces of colonisation, Christianity and capitalism. The course will examine Pacific traditional leadership and contemporary leadership in areas such as politics, academia, education, the arts, sports and health, analysing changes and developments.

Prerequisite: 30 points at Stage II in Pacific Studies, Education, Anthropology, History, or approval of Head of School or nominee
Restriction: PACIFIC 209

PACIFIC 310
Koneseti
Under supervision of instructors, students plan, rehearse, publicise and present a public song and dance performance. Repertoire selection, costuming, and rehearsal skills will be taught.

Prerequisite: PACIFIC 210 or 30 points at Stage II in Transnational Cultures and Creative Practice

PACIFIC 311
Polynesian Warriors: Sport and Pacific Cultures
Sport has profoundly impacted Pacific peoples and cultures, playing critical roles in colonialism and education in the past, to migration and commercialisation in the
present. Sport has changed Pacific cultures and been changed by Pacific cultures. Pacific cultural encounters with globalisation, race, capitalism, migration and public discourse will be explored through the experience of sport. 

Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 211

PACIFIC 312
15 Points
Pacific Indigenous Literatures and Knowledges
Studies Pacific genres of oral literature in English translation. Genres include oratory, poetry, tales of creation, folk tales, and proverbs and sayings.
Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 212

PACIFIC 313
15 Points
Pacific Wellbeing: Empowering Dimensions
Examines empowering notions of Pacific wellbeing for Pacific individuals, families and communities. Students explore definitions of Pacific wellbeing and the cultural concepts, models, practices and worldviews that have enhanced the overall positive wellbeing experiences of Pacific peoples across the Pacific region.
Prerequisite: 30 points passed at Stage II
Restriction: PACIFIC 213

PACIFIC 314
15 Points
Pacific History: New Zealand in the Pacific from 1900
Explores the historical relationship between New Zealand and the Pacific from 1900 onwards. Traces the central importance of New Zealand in the history of the Pacific from the rise of New Zealand’s colonial empire through the world wars, and towards the movement for decolonisation. Examines the continually evolving place of New Zealand as a nation in the Pacific Ocean.

Special Study

PACIFIC 711
30 Points
Intervention, Prevention and Promotion of Pacific Wellbeing
Appraises some critical issues negatively affecting Pacific wellbeing across the Pacific region. Examines both the research and systemic processes that seek to combat these adverse effects via strengths-based Pacific-focused interventions and prevention strategies, as well as other approaches that promote positive aspects of Pacific wellbeing.

PACIFIC 712
30 Points
Pacific Indigenous Thought
Explores the relevance and use of Pacific indigenous concepts such as vanua, tapu, and mana across a range of disciplinary contexts. Focuses on Samoan, Fijian and Tongan concepts.

PACIFIC 713
15 Points
Special Topic: Teu le va and Pacific Research
Explores ‘teu le va,’ and how it is theorised and practised in diverse research settings. Focuses on its inception as an indigenous cultural reference and a Pacific research paradigm used by Pacific researchers and Government ministries. Provides knowledge, practical discussion and applications of ‘teu le va’ in the framing of Pacific models, methodologies, relational ethics, methods, and research design.

PACIFIC 714
30 Points
Pacific Research Methodologies and Practices
Analyses critical approaches to Pacific research development and evaluation of research design in Pacific Studies. Focuses on analytical engagement with a range of Pacific methodologies and methods in Pacific research. Includes application of theory to research questions and development of proposals for research that draw on Pacific world views and form a basis for robust, innovative and significant research contributions.

PACIFIC 715
30 Points
The Global Pacific
An interdisciplinary approach to understanding contemporary challenges for Pacific societies, incorporating anthropological, sociological, historical, and Pacific/Indigenous Studies sources. Examines contemporary challenges and potential futures of the Pacific through a focus on the key themes of colonial legacies, globalisation, and transnationalism; the movement of people and commodities; articulations of popular culture and practice; and sovereignty, power, and movements toward indigenous resurgence.

Restriction: PACIFIC 704

PACIFIC 716
15 Points
The Pacific: Interdisciplinary Studies
Examines Pacific Studies as an (inter)discipline, its
constituent parts, its intellectual and institutional genealogies, as well as its diversities and its challenges.

Restriction: PACIFIC 700

PACIFIC 717
15 Points
Pacific Policies, Pacific Peoples
Taking a transdisciplinary approach informed by Pacific scholarship, this course will critically analyse the production of policies that impact Pacific people in Aotearoa New Zealand and in the Pacific.

PACIFIC 792A
22.5 Points
PACIFIC 792B
22.5 Points
Dissertation - Level 9
To complete this course students must enrol in PACIFIC 792 A and B, or PACIFIC 792

PHIL 100
15 Points
Mind, Knowledge, and Reality
Metaphysics deals with fundamental problems about the nature of the world and human beings, for example, questions about the existence of God, the nature of time, the relationship between mind and body and the nature of identity and the self. The theory of knowledge studies the sources, limits and justification of human knowledge and understanding as distinct from opinion or belief.

PHIL 101
15 Points
Introduction to Logic
Logic is the study of argument. This course aims to provide an understanding of central logical notions, such as consistency and inconsistency, logical truth, and, most importantly, what it means for an argument to be valid or invalid, sound or unsound. The course examines two main logical systems, propositional and predicate logic, and shows how these formal systems are used to analyse and evaluate arguments.

PHIL 104
15 Points
Ethics and Justice
How should we live? And how do we live well together? This course examines practical questions of ethics and justice at the personal, professional, social and global levels. The course reflects on these topics in the light of philosophical theories about justice, liberty, rights, and different approaches to ethics that emphasise roles, rules, virtues and consequences.

PHIL 105
15 Points
PHIL 105G
15 Points
Critical Thinking
An introduction to reasoning, argument, and explanation that emphasises the development of practical skills and their use in everyday life. The course introduces different forms of reasoning and explains techniques to evaluate them. It will enable students to distinguish good arguments and explanations from bad ones, to explain the difference, and thereby to improve critical thinking abilities.

PHIL 200
15 Points
Philosophy of Mind
There are many philosophical problems concerning mental lives (in particular, human mental lives), how they are constituted, and what makes them possible – problems which have generated a vast literature and diverse important philosophical theories. Theories introduced and critically examined will include dualisms, but will mainly comprise forms of physicalism such as philosophical behaviourism, the identity theory and especially functionalist theories.

Prerequisite: 30 points in Philosophy or 60 points
Restriction: PHIL 320

PHIL 204
15 Points
Greek Philosophy
An introduction to some of the important figures in ancient philosophy and the issues with which they were concerned. The work of the Presocratics, Plato, and Aristotle will be explored, with a detailed discussion of the philosophical system of either Plato or Aristotle and its importance in the history of philosophy.

Prerequisite: 60 points from BA courses at Stage I

PHIL 207
15 Points
Philosophy and Religion
Examines the relationship between philosophy and religion from the perspective of different philosophical and religious traditions. Topics include: the nature of ultimate reality, arguments for and against the existence of God or gods, competing philosophical and religious accounts of life after death, religious pluralism and diversity.

Prerequisite: 30 points in Philosophy
Restriction: PHIL 327
PHIL 209
19th-Century European Philosophy
Examines key figures in nineteenth-century European philosophy, including Arthur Schopenhauer, Friedrich Nietzsche, Søren Kierkegaard, and Karl Marx. Considers alternative reactions to the human condition, either by minimising suffering and seeking tranquillity, by embracing the pain that life contains and continuing to struggle for greatness, by aiming to experience one's true individuality, or by working to establish a non-exploitative social community.
Prerequisite: 30 points in Philosophy or EUROPEAN 100 and 15 points in Philosophy
Restriction: PHIL 329

PHIL 216
Modal Logic
An introduction to modal logic, which is a variation of the system of predicate logic studied in PHIL 101. Modal logic is well-suited for studying philosophically important concepts such as necessity, time, knowledge, vagueness, action and obligation. It is also used in computer science for studying the behaviour of programs and is recommended as preparation for studying logic at Stage III.
Prerequisite: PHIL 101

PHIL 218
Problems in Epistemology
Epistemology is the study of knowledge, rationality, belief and related topics. This course will give an overview of epistemology but will focus on three main issues: foundationalism versus coherence, internalism versus externalism and replies to scepticism.
Prerequisite: PHIL 30 points in Philosophy
Restriction: PHIL 338

PHIL 222
Intermediate Logic
Natural deduction for propositional and predicate logic; introductory metalogic and related topics in formal logic.
Prerequisite: PHIL 101
Restriction: PHIL 201

PHIL 225
Power, Critique and Emancipation
What is power? When are relations of power legitimate and illegitimate? How is power structured in the modern world? How can illegitimate structures of power be resisted and reordered to promote justice and human flourishing? This course examines and analyses cultural, economic, political and epistemic structures of power, including gender, race, and class.
Prerequisite: 30 points in Philosophy or 60 points passed
Restriction: PHIL 345

PHIL 226
Special Topic
Prerequisite: 30 points in Philosophy

PHIL 228
Special Topic
Prerequisite: 30 points in Philosophy

PHIL 231
Indigenous Philosophy
An exploration of concepts and ideas from a range of Indigenous philosophies, critically examining these with a view to understanding their theoretical underpinnings, conceptual migrations, and contemporary significance in both local and global contexts.
Prerequisite: 30 points at Stage I in Philosophy or 60 points passed
Restriction: PHIL 331

PHIL 250
Philosophy and the Environment
Philosophical questions relating to the environment and our use of it, such as the following: Do we have obligations to future generations, especially concerning preservation of the environment? What are our moral and epistemic responsibilities regarding climate change and other environmental issues? Does nature have intrinsic value? Is it better to live in a natural world or a virtual world.
Prerequisite: 30 points in Philosophy or 60 points
Restriction: PHIL 351

PHIL 260
Philosophy of Science
Addresses philosophical questions about science, such as: What distinguishes science from pseudoscience? How is scientific knowledge generated and structured? Should we believe scientific claims about things we cannot directly observe? Do scientific theories give us true accounts of the world? Examines philosophical accounts of science and cases from historical and contemporary scientific research. A background in science is not expected.
Prerequisite: 30 points in Philosophy or 60 points
Restriction: PHIL 360

PHIL 261
Metaphysical Structures of the World
Metaphysics aims to give a quite general picture of the nature and structure of the world, and particularly investigates philosophical problems which thereby arise. Science, common sense, religions and cultures all presuppose metaphysical worldviews. Traditional metaphysical problems concern laws, causation, time, space, substance, identity, attributes and universals, free will, reality, existence etc. Course topics will be selected from such traditional problems.
Prerequisite: 30 points in Philosophy or 60 points
Restriction: PHIL 361

PHIL 263
Philosophy of Biology
Examines philosophical and conceptual issues in the life sciences. Topics may include the units and levels of selection, adaptationism, the evolution of altruism, biology and ethics, sociobiology and evolutionary psychology, cultural evolution, evolution versus creationism, and the origin and nature of life.
Prerequisite: 30 points in Philosophy or 60 points
Restriction: PHIL 363

PHIL 268
Ethical Theory
Philosophical study of moral theory, in both normative ethics and meta-ethics. Topics covered may include: accounts of well-being such as hedonism, preference theory, and objectivism; theories of right action such as consequentialism and contractualism; the demandness of morality; the role of intuitions in moral theory; and the status and justification of moral theories.
Prerequisite: 30 points at Stage I in Philosophy or any 60 points passed from the BA or 30 points in Global Politics and Human Rights
Restriction: PHIL 368

**Stage III**

**Directed Study**
A directed reading and individual study course on a selected philosophical topic offered in exceptional circumstances, with the agreement and under the supervision of appropriate staff.
**Prerequisite:** B+ average or higher at Stage III in Philosophy and Academic Head approval

**Medieval Philosophy**
A detailed introduction to either the work of a leading medieval philosopher, for example Augustine, Abelard, Scotus or Ockham, or to one or more of the topics which were of interest to medieval philosophers. The course aims to show how understanding medieval philosophy is essential for the history of Christian thought and philosophy up to modern times.
**Prerequisite:** 30 points at Stage II in Philosophy, or EUROPEAN 100 and 15 points at Stage II in Philosophy

**Language, Truth and Meaning**
Explores how language is used to communicate ideas. Topics may include: the nature of meaning, how words can convey meaning, how word meaning combines to create sentential meaning, how we communicate better by not saying what we mean, how we repair and reconstruct utterances to extract meaning, how truth is related to meaning, how slurs work.
**Prerequisite:** 30 points at Stage II in Philosophy

**Philosophy and Religion**
Examines the relationship between philosophy and religion from the perspective of different philosophical and religious traditions. Topics include: the nature of ultimate reality, arguments for and against the existence of God or gods, competing philosophical and religious accounts of life after death, religious pluralism and diversity.
**Prerequisite:** 30 points at Stage II in Philosophy
**Restriction:** PHIL 207

**Problems in Epistemology**
Epistemology is the study of knowledge, rationality, belief and related topics. This course will give an overview of epistemology but will focus on three main issues: foundationalism versus coherentism, internalism versus externalism and replies to scepticism.
**Prerequisite:** 30 points at Stage II in Philosophy
**Restriction:** PHIL 218

**Kant and Hegel**
An examination of the development of German idealism from Kant to Hegel, focusing on Kant's *Critique of Pure Reason* (1781–1787) and Hegel's *Phenomenology of Spirit* (1807).
**Prerequisite:** 30 points at Stage II in Philosophy, or EUROPEAN 100 and 15 points at Stage II in Philosophy
**Restriction:** PHIL 220

**Power, Critique and Emancipation**
What is power? When are relations of power legitimate and illegitimate? How is power structured in the modern world? How can illegitimate structures of power can be resisted and reformed to promote justice and human flourishing? This course examines and analyses cultural, economic, political and epistemic structures of power, including gender, race, and class.
**Prerequisite:** 30 points at Stage II in Philosophy or 60 points passed at Stage II
**Restriction:** PHIL 225
PHIL 351 15 Points  
**Philosophy and the Environment**  
Philosophical questions relating to the environment and our use of it, such as the following: Do we have obligations to future generations, especially concerning preservation of the environment? What are our moral and epistemic responsibilities regarding climate change and other environmental issues? Does nature have intrinsic value? Is it better to live in a natural world or a virtual world?  
*Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or Philosophy  
Restriction: PHIL 250*

PHIL 360 15 Points  
**Philosophy of Science**  
Addresses philosophical questions about science, such as: What distinguishes science from pseudoscience? How is scientific knowledge generated and structured? Should we believe scientific claims about things we cannot directly observe? Do scientific theories give us true accounts of the world? Examines philosophical accounts of science and cases from historical and contemporary scientific research.  
A background in science is not expected.  
*Prerequisite: 30 points at Stage II in Philosophy  
Restriction: PHIL 260*

PHIL 361 15 Points  
**Metaphysical Structures of the World**  
Metaphysics attempts to give a quite general picture of the nature and structure of the world, and particularly investigates philosophical problems which thereby arise. Science, common sense, religions and cultures all presuppose metaphysical worldviews. Traditional metaphysical problems concern laws, causation, time, space, substance, identity, attributes and universals, free will, reality, existence etc. Course topics will be selected from such traditional problems.  
*Prerequisite: 30 points at Stage II in Philosophy or PHIL 260 and SCIGEN 201  
Restriction: PHIL 261*

PHIL 363 15 Points  
**Philosophy of Biology**  
Examines philosophical and conceptual issues in the life sciences. Topics may include the units and levels of selection, adaptationism, the evolution of altruism, biology and ethics, sociobiology and evolutionary psychology, cultural evolution, evolution versus creationism, and the origin and nature of life.  
*Prerequisite: 30 points at Stage II in Philosophy or PHIL 260 and SCIGEN 201  
Restriction: PHIL 263*

PHIL 368 15 Points  
**Ethical Theory**  
Philosophical study of moral theory, in both normative ethics and meta-ethics. Topics covered may include: accounts of well-being such as hedonism, preference theory, and objectivism; theories of right action such as consequentialism and contractualism; the demandingly of morality; the role of intuitions in moral theory; and the status and justification of moral theories.  
*Prerequisite: 30 points at Stage II in Global Politics and Human Rights or Philosophy or PHIL 250 or POLITICS 209  
Restriction: PHIL 268*

**Postgraduate 700 Level Courses**

PHIL 701 30 Points  
**Philosophy for Children – Theory and Practice**  
Provides a thorough practical grounding in facilitation of philosophical communities of inquiry, and in the construction of materials to stimulate philosophical inquiry. The educational theory and international research on cognitive and social outcomes of Philosophy for Children are explored. A selection of topics in philosophy will be studied at a level appropriate for advanced Education students encountering philosophy for the first time.  
*Prerequisite: Diploma in Teaching (Primary or Secondary), or equivalent*

PHIL 720 30 Points  
PHIL 720A 15 Points  
PHIL 720B 15 Points  
**Special Studies**  
Directed study on a topic or topics approved by the Academic Head or nominee.  
*To complete this course students must enrol in PHIL 720 A and B, or PHIL 720*

PHIL 722 30 Points  
**Special Topic**

**Stage I**

**POLITICS 106 Global Politics**
An introduction to the study of international relations. The focus is on how international organisations, states and non-state actors raise and address global challenges such as security and human insecurity, humanitarian intervention, global trade and finance, development and poverty, environmental degradation, warfare, and respect for human rights. The course is informed by and introduces a range of international relations theories.

**POLITICS 107 New Zealand Politics**
An introduction to understanding who governs New Zealand and in whose interests. Topics include national identity, institutions of government, leadership, voting and elections, the place of Māori within the political system, parties and political participation. The course draws on current research in NZ politics and provides knowledge that can be applied to a variety of careers, including law, business and public service.

**POLITICS 107G Foundations of Western Politics and Law**
An examination, via the works of selected major European thinkers from Ancient Greece to nineteenth-century Britain, of ideas central to the western tradition of political thought: justice, law, liberty, power, rights, citizenship, the rights of women, and the right to resist governments. Thinkers studied include Plato, Machiavelli, Hobbes, Locke, Rousseau, Wollstonecraft, Mill and Marx.

**Stage II**

**POLITICS 201 Globalisation and International Organisations**
Examines the relationship between globalisation and international relations. Investigates recent developments of globalisation in view of the rise and fall of great powers, placing globalisation against the backdrop of the school of liberalism in international relations theory, and studies the role played by international organisations.

**POLITICS 202 Democrats and Dictators**
Introduces the study of institutional change in non-democratic and emergent and established democratic states. Develops an understanding of democratic transition and consolidation (or a lack of them), and the breadth of institutional types in global politics.

**POLITICS 203 Special Topic**
Prerequisite: 30 points at Stage I in Politics and International Relations

**POLITICS 207 Media, Conflict and Peace**
Explores the role of media in cases of modern conflict, genocide, and peace processes. Through case studies, the course examines media structure, content, framing and psychological responses during times of conflict and peace-making, and how media informs audiences and either foments or quells conflict.

Prerequisite: 30 points at Stage I in Communication, Media and Screen Studies or Politics and International Relations

**POLITICS 209 Modern Political Thought**
What should the state do and what should it keep out of? Focussing on key debates in modern political theory, topics will vary year from year and may include political authority and the rule of law; freedom, coercion, and manipulation; indigenous rights and the welfare state; paternalism; the ethics of war, global justice and feminism.

Prerequisite: 15 points at Stage I in Politics and International Relations and 30 points in the BA

**POLITICS 210 Politics of China**
An introduction to China's domestic politics, emphasising changes since 1978. The course explores topics such as political succession; the cadre system and political decision-making; economic development; popular religion and the state; NGOs and the non-state sector; nationalism and ethnic diversity; the role and relevance of ideological legacies; and institutional innovation and authoritarian survival.

Prerequisite: 30 points at Stage I in Politics and International Relations, or POLITICS 106 and ASIAN 100, or CHINESE 130 and ASIAN 100

**POLITICS 216 Special Topic**
Prerequisite: 30 points at Stage I in Politics and International Relations

**POLITICS 218 American Politics and Public Policy**
Explores American politics and policy. Analyses the US political system and its governance, including the ideas of federalism, separation of powers, checks and balances. Examines the country's development, its legal and policy-making system, the dynamics between the various actors, and the struggle for power and policy. Covers political parties, participation, interest groups, social movements, media, campaigns and elections.

Prerequisite: 30 points at Stage I in Politics and International Relations, or POLITICS 106 and 30 points in Global Politics and Human Rights

**POLITICS 222 Public Policy: Actors, Processes and Politics**
Government policy choices determine the taxes we pay, the resources we consume and the wars we fight. This course provides an introduction to policy studies together with a conceptual tool-kit for understanding and evaluating public policies. It poses questions about the relevance of different actors and instruments in a series of important substantive
policy areas: health and food, the environment, foreign relations, (un)employment, crime and the economy. 
Prerequisite: 30 points at Stage I in Politics and International Relations or Māori Studies or MĀORI 130, or 30 points at Stage I in Social Science for Public Health, or 30 points at Stage I in BC courses

POLITICS 229 15 Points
Mana Māori Motuhake / Māori Politics and Public Policy
An introduction to Māori politics. Topics include the Treaty of Waitangi, the politicisation of identity, sovereignty and self-determination, representation, globalisation and the Māori economy, Māori development and Māori media. Some contemporary and comparative indigenous policy issues will be discussed.
Prerequisite: 30 points at Stage I in Politics and International Relations or Māori Studies, or any 60 points

POLITICS 233 15 Points
Politics, Media and Public Sphere
Critics voice disquiet about the future of journalism and political deliberation, and the lack of a unified public space where citizens can engage seriously with matters of collective concern. The course surveys the changing public sphere over time, from its early-modern emergence to the challenges of tabloid news and online fragmentation in contemporary media culture.
Prerequisite: 30 points at Stage I in Politics and International Relations, or COMMS 100 and MEDIA 101, or 30 points at Stage I in Communication

POLITICS 236 15 Points
Special Topic
Prerequisite: 30 points at Stage I in Politics and International Relations

POLITICS 254 15 Points
China and the World
A comprehensive investigation of China’s engagement with the world. Focuses on China’s relations with its neighbouring countries and other parts of the world. Examines China’s involvement in international institutions such as the United Nations, the world trade system, the environment and human rights.
Prerequisite: 30 points at Stage I in Politics and International Relations, or Asian Studies or History, or CHINESE 130 and ASIAN 100, or POLITICS 106 and 30 points in Global Politics and Human Rights
Restriction: POLITICS 354

POLITICS 256 15 Points
Special Topic: Critical Security Studies
Investigates recent developments in the theory and practice of international security from a critical perspective. Provides an overview of the main concepts, theories, methodological approaches, and empirical objects in the field. Develops the skills and knowledge necessary to understand a core subject within International Relations.
Prerequisite: 30 points at Stage I in Politics and International Relations, or POLITICS 106 and 30 points in International Relations and Business

Stage III

POLITICS 300 15 Points
Great Power Relations
Examines international diplomatic, economic, and security interactions of the governments of the United States, Europe, Russia, and China and their implications for the Middle East, South Asia, Southeast Asia, Latin America and Oceania, and for the United Nations and other international organisations.
Prerequisite: 30 points at Stage II in Politics and International Relations or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights
Restriction: POLITICS 751

POLITICS 301 15 Points
Toleration and Censorship
An exploration of the ideas and practical dilemmas, past and present, of toleration and intolerance, and the relationship between freedom of expression and attempts to censor and control the public communication of political, religious and moral thought.
Prerequisite: 30 points at Stage II in Politics and International Relations, or 15 points at Stage II in Politics and International Relations and 15 points at Stage II in History or Philosophy

POLITICS 303 15 Points
War and Political Violence
An advanced introduction to violence and war, paying particular attention to why conflicts begin, how they escalate and what can be done to build a sustainable peace. Students explore the main theories of political violence, as well as key themes such as post-conflict reconstruction, sexual violence, reconciliation, humanitarian intervention and terrorism.
Prerequisite: 30 points at Stage II in Politics and International Relations or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights

POLITICS 304 15 Points
Special Topic

POLITICS 311 15 Points
Gender and Global Politics
Advanced investigation of feminist and gender theory as applied to key issues in International Relations. Presents feminist approaches to key contemporary issues including digital politics, women and militarism, global health, sexual violence in war, migration and population displacement, and queer politics. Students will develop a sophisticated understanding of the roles of gender in global politics.
Prerequisite: 30 points in Gender Studies or Global Studies or 15 points at Stage II in Politics and International Relations

POLITICS 313 15 Points
Governing Planet Earth
Environmental problems play an increasingly important role in contemporary politics. This course examines the role of ideologies and institutions in shaping environmental governance challenges from climate change and land-use conflicts to air and water pollution. Drawing from examples in New Zealand and around the globe, topics include limits to growth, sustainable development, ecological modernisation, ecolocalism and environmental justice.
Prerequisite: 30 points at Stage II in Politics and International Relations, or POLITICS 106 and 30 points at Stage II in Global Environment and Sustainable Development, or 30 points at Stage II in BC courses
Restriction: POLITICS 205

POLITICS 314 15 Points
Democracy in Theory and Practice
Examines the theory and practice of democratic politics. Specific questions include how democracies try to reconcile freedom and equality, and the relations between democratic nationalism and citizenship. Practical topics include judicial review and the rule of law, referendums
and the 'tyranny of the majority', and issues in political representation, including Māori representation.  
**Prerequisite: 30 points at Stage II in Politics and International Relations, or 15 points at Stage II in Politics and International Relations and 15 points at Stage II in Economics or History or Philosophy or Māori Studies or Sociology, or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights**  
**Restriction: POLITICS 214**

**POLITICS 315 15 Points**  
The Practice of Politics  
Explores the skills and knowledge needed for students to practice politics effectively, considering the range of jobs available in the political arena, the professional skills needed to succeed in political positions, lessons that can be learnt from political science literature about how to practice politics both effectively and ethically, and individual development of employability attributes.  
**Prerequisite: 30 points at Stage II in Politics and International Relations**

**POLITICS 316 15 Points**  
Capitalism and its Critics  
An account of the main variants of capitalism, criticisms of capitalism, and some alternatives. Topics include: markets in theory and practice; the value of efficiency and capitalism's growth imperative; consumer sovereignty; alienation; unemployment; meaningful work; planned economies and market socialism; incentives and the profit motive; democracy at work; labour market regulation; inequality and poverty.  
**Prerequisite: 30 points at Stage II in Politics and International Relations, or 15 points at Stage II in Politics and International Relations and 15 points at Stage II in Philosophy, or POLITICS 106 and 30 points at Stage II in International Relations and Business**

**POLITICS 320 15 Points**  
Social Justice  
Examines contemporary theories of justice focusing on the relationships between justice, equality and liberty. Students explore a range of topics that may include the distribution of resources both globally and domestically, and the rights of cultural minorities, gender groups, animals and future generations.  
**Prerequisite: 30 points at Stage II in Politics and International Relations or Philosophy, or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights**

**POLITICS 345 15 Points**  
Political Marketing  
Studies how and why political organisations such as political parties use business techniques and concepts.  
**Prerequisite: 30 points at Stage II in Politics and International Relations, or 30 points at Stage II in Communication, or 30 points at Stage II in Global Studies**

**POLITICS 346 15 Points**  
Terrorism  
Terrorism is a major issue of global concern. In this course, students will learn the definition, history, causes and dynamics of terrorism. They will examine why terrorist organisations emerge, their goals and the causes of their demise. Students also examine the causes of radicalisation of individual terrorists and how governments can counter violent extremism.  
**Prerequisite: 30 points at Stage II in Politics and International Relations, or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights**

**POLITICS 347 15 Points**  
American Politics and Public Policy  
Explores American politics and policy. Analyses the US political system and its governance, including the ideas of federalism, separation of powers, checks and balances. Examines the country's development, its legal and policy-making system, the dynamics between the various actors, and the struggle for power and policy. Covers political parties, participation, interest groups, social movements, media, campaigns and elections.  
**Prerequisite: 30 points at Stage II in Politics and International Relations, or 60 points in Global Politics and Human Rights**  
**Restriction: POLITICS 218**

**POLITICS 356 15 Points**  
Ethno-Political Violence: Hate Crimes to Genocide  
Examines the causes and prevention of ethno-political violence. Forms of violence examined include: hate crimes; ethnic and religious conflict; revolution, insurgency and civil war; mass killings and genocide. Students will become familiar with the main theories and explanations of this violence, numerous case studies and policies for their prevention.  
**Prerequisite: 30 points at Stage II in Politics and International Relations, or POLITICS 106 and 30 points at Stage II in Global Politics and Human Rights**

**POLITICS 358 15 Points**  
Special Topic  
Postgraduate 700 Level Courses  

**POLITICS 701 15 Points**  
Research Design in Empirical Political Inquiry  
Explores a range of tools and approaches commonly used by political and other social scientists in the course of conducting empirical research. The course is designed to assist postgraduate students in Politics and International Relations, as well as cognate disciplines, in developing their own research projects.  

**POLITICS 702 15 Points**  
Transitional Justice: From Retribution to Reconciliation  
Explores the politics of transitional justice in post-war, post-conflict, and post-colonial states. Students examine political responses to atrocity in the context of conflicting demands that include the rule of law, peace, retribution, and human rights. Specific topics include trials, truth commissions and hybrid courts, the use of amnesty and the practice of apology, democratisation, development and reconciliation.  

**POLITICS 704 15 Points**  
Political Management in Government  
Explores how politicians and their staff use management tools to help them achieve their goals within the constraints and challenges of the governing environment. It explores the nature of government, and the potential and limitations of branding, PR, market research, public engagement, strategy, government advertising, crisis management, media management and delivery management within the political environment.  

**POLITICS 706 15 Points**  
International Relations in Asia  
A theoretical perspective based on empirical analyses that draws on Western theories to examine burgeoning perspectives from the rising East. The empirical analyses cover North Korea's nuclear crisis, territorial disputes in the
South China Sea, relations across the Taiwan Strait, as well as regional trade, investment, and finance.

POLITICS 708 15 Points
Theorising International Relations
An advanced examination of contemporary international relations theory. Students will explore key concepts, such as war, anarchy and the state, along with a range of different theoretical perspectives, from realism and liberalism through to feminism, poststructuralism and postcolonialism. Restriction: POLITICS 318

POLITICS 709 15 Points
Political Extremism
Considers the political context behind a range of forms of modern extremism, including fascism and other forms of dictatorship, genocide, the persecution of minorities, far-right white nationalism, and religious and political terrorism. Investigates cases such as the Nazi regime; Stalin's Soviet Union; the Cambodian, Indonesian and other genocides; al Qaeda; Islamic State / ISIS; and neo-Nazis so as to identify common pathways to extremism.

POLITICS 710 15 Points
The Security-Development Nexus
The security-development nexus has become the leading paradigm for international interventions since the end of the Cold War, especially since the 11 September 2001 terrorist attacks. This course engages with the advanced theoretical, normative and operational underpinnings of the "nexus". The theoretical learning will then allow students to critically analyse the political economy and operational outcomes of international interventions.

POLITICS 711 15 Points
Bodies in/at War
War is a profoundly embodied experience, but the body is often erased in the dominant accounts. This course places the body at the centre of critical thinking on war. Examines how bodies are prepared for war, how different bodies experience war, and what happens to these bodies in the aftermath of war.

POLITICS 722 15 Points
Special Topic

POLITICS 724 15 Points
Identity and the Politics of Multiculturalism
Explores the theoretical implications of identity politics based on gender, race, ethnicity, sexuality. Considers the effects of these claims on liberty, justice, equal citizenship, political representation and participation. Readings cover liberalism, feminism, communitarianism and deliberative democracy.

POLITICS 731 15 Points
The Engendering of Global Conflict
Explores feminist theory and methodology in the study of war and conflict, including feminist interventions on how to prevent war and conflict. Topics include women's roles in war and the gendering of militarism; sexual and environmental offences, race and human rights violations; colonial legacies, feminist resistance to war, and the UN's Women, Peace, and Security (WPS) Agenda.

POLITICS 737 A 7.5 Points
Directed Research
Supervised research on an approved topic or topics. To complete this course students must enrol in POLITICS 737 A and B, or POLITICS 737

POLITICS 740 15 Points
Revolutions, Ideas and Media
Revolutions are politics writ large, moments when political reality and political aspirations collide and erupt in often epochal transformations. This course explores the idea, and the realities, of historical and modern revolutions as sources of insight into politics and societal change, with particular attention to the key role of ‘the people’, public opinion and the media.

POLITICS 741 15 Points
Ethics and Health Policy
Considers the intersection between theory, policy, and problems in health. Topics include: defining health and its value; the role of government and markets in providing health care; allocating resources in a government health system; justice, inequalities, and health; coercion to control the spread of disease, whether caused by pathogens (e.g., pandemic influenza) or lifestyle.

POLITICS 750 15 Points
International Relations and Human Rights
An analysis of how governments adopt and implement human rights norms, negotiate human rights treaties with other governments, interact with United Nations human rights institutions, and set up courts to try human rights violations. Includes domestic politics as they bear on international human rights issues.

POLITICS 756 15 Points
New Zealand Government
An examination of the composition, functions and powers of New Zealand’s political institutions under MMP. Analyses the extent to which factors such as political leadership, policy, electoral and parliamentary tactics, and relations between the major and minor parties contribute to a government’s success.

POLITICS 757 15 Points
Comparative Public Policy
A comparative examination of policy actors, processes and outcomes. Engaging with a range of conceptual and methodological approaches, the course considers how we might explain and understand cross-national similarities and differences in policy-making and policy outcomes. The course focuses on the relative importance of interests, institutions and ideas at the national level, as well as international contexts and actors that facilitate diffusion and transfer of policy across countries.

POLITICS 770 15 Points
Ethnic Conflict and Civil War
Students examine the comparative literature on civil war, mass killings and conflict prevention, and apply this scholarship to past and contemporary cases of violent conflict. In doing so, they learn to carry out two policy-relevant tasks: identify common causes of violence and assess which policies of prevention work best in different contexts.
POLITICS 774
Politics-Policy Internship
Prerequisite: Programme Coordinator approval
Restriction: POLICY 737

POLITICS 775
Special Topic

POLITICS 776
Media and Politics in an Age of Globalisation
Explores the relationship between media and politics, domestically and internationally, within a changing global context. Students will critically engage with key theories in political communication scholarship, such as agenda-setting, priming, framing, silencing and informational effects within the new media dynamics, which includes multiple new media outlets (such as state and private media), platforms, technologies and faster delivery.

POLITICS 777
Politics of Terrorism and Counterterrorism
Provides students with a critical understanding of terrorism and counter-terrorism politics, policy and practice in a globalised world. The course examines theories, causes, typologies and case studies of terrorism, as well as counterterrorism responses by states and the international community. It also engages with moral, ethical and political questions posed by the discursive battleground of terrorism and counterterrorism.

POLITICS 780
POLITICS 780A
POLITICS 780B

Public Policy

Postgraduate 700 Level Courses

POLICY 700
Special Topic: Statistics and Data Analysis
Restriction: POLICY 742, 769, POLITICS 769

POLICY 701
Policy Analysis and Evaluation
Provides a solid practical and theoretical basis for public policy analysis. Examines criteria for effective policy-making as well as competing models of the policy process. Concepts and approaches covered include: problem definition, writing policy briefs, project implementation, reflexive policy-making, cost-benefit and impact analysis. Students will use these concepts and methods to explore substantive topics of their choice.
Restriction: POLITICS 748

POLICY 702
Economics of Policy
Applies economic reasoning to current problems in policy and government. Covers fundamentals of market economy, competition policy, welfare and taxation, market failure, problems of collective choice, growth and development, the structure of the macroeconomic system, and the role of public finance agencies in the management of the economy.
Restriction: POLICY 743

POLICY 737
Applied Policy Project
Supervised project on an applied policy topic agreed between the student and a nominated supervisor. Students will produce a project proposal, progress report, dissemination plan, final report, and reflective comments.
Prerequisite: POLICY 701 or 769
Restriction: POLITICS 737, 774

POLICY 740
Policy Design, Analysis and Implementation
Provides a critical overview of the policy process including problem definition, co-design as well as focusing on a range of theoretical and methodological approaches to policy analysis, including cost-benefit analysis, regulatory impact analysis and gender and diversity impact assessments.
Restriction: POLICY 701

POLICY 741
Government and Policy: New Zealand Compared
Examines New Zealand’s machinery of government at both central and local level. Analyses the relative impact of institutions, interests and ideas on public policy outcomes in New Zealand and internationally. Applies these understandings to the methods and processes associated with policy transfer and lesson learning cross-nationally.
Restriction: POLICY 756, 757

POLICY 742
Statistics and Data Analysis for Policy
Provides the fundamentals of statistical analysis and examines the use of different types of data used in
evidence-based policy making, as well as the issues associated with the advent, use and governance of big data. Covers research design choices and quantitative methods for policy analysis.  
Restriction: POLICY 769, POLITICS 769  
POLICY 743 30 Points  
Economics, Budgets and Bureaucrats  
Applies key concepts and tools of economic analysis to contemporary policy problems. Focuses on the allocation of the economy’s resources, the budget process and the role of public finance agencies, rationales for government intervention in a market economy, and the impact of expenditure and taxation on the economy and citizens’ wellbeing.  
Restriction: POLICY 702  
POLICY 744 15 Points  
Policy in Practice  
Provides a practical opportunity for participants to work with a policy agency in an advisory capacity to develop evidence-informed recommendations addressing a complex policy problem. Engages students in a team-based exercise that applies the knowledge and skills gained from completing the core courses in a way that informs “real world” policy decisions.  
Prerequisite: POLICY 740-743  
Restriction: POLICY 737, POLITICS 774  
POLICY 790 30 Points  
POLICY 790A 15 Points  
POLICY 790B 15 Points  
Research Project - Level 9  
To complete this course students must enrol in POLICY 790 A and B, or POLICY 790  
POLICY 792 45 Points  
POLICY 792A 22.5 Points  
POLICY 792B 22.5 Points  
Dissertation - Level 9  
Develops students’ ability to design and undertake a policy-related research project under supervision and to present a written report of 15,000 words.  
Prerequisite: POLICY 742  
Restriction: POLICY 793  
Prerequisite: POLICY 792  
Restriction: POLICY 793  
To complete this course students must enrol in POLICY 792 A and B, or POLICY 792  
POLICY 793 45 Points  
POLICY 793A 15 Points  
POLICY 793B 30 Points  
Dissertation - Level 9  
Prerequisite: POLICY 742  
Restriction: POLICY 792  
To complete this course students must enrol in POLICY 793 A and B, or POLICY 793  
POLICY 794A 45 Points  
POLICY 794B 45 Points  
Thesis - Level 9  
To complete this course students must enrol in POLICY 794 A and B  

**Russian**  
**Stage I**  
RUSSIAN 100 15 Points  
RUSSIAN 100G 15 Points  
Beginners’ Russian 1  
A beginner’s course using multi-media (computer) materials that presumes no prior knowledge of Russian, with emphasis on a range of language skills – listening comprehension, speaking, reading, writing, and the essential grammar of Russian.  
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed  
RUSSIAN 101 15 Points  
Beginners’ Russian 2  
A continuation of RUSSIAN 100. More practice with written and spoken Russian, fundamental grammar, and authentic texts.  
Prerequisite: RUSSIAN 100 or approval of Academic Head or nominee  
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed  
**Stage II**  
RUSSIAN 200 15 Points  
Intermediate Russian 1  
A revision of the grammar covered at Stage I, with more vocabulary building, reading of authentic journalistic and literary texts, and practise of listening and speaking.  
Prerequisite: RUSSIAN 101 or approval of Academic Head or nominee  
Restriction: RUSSIAN 210. May not be taken if a more advanced language acquisition course in this subject has previously been passed  
RUSSIAN 201 15 Points  
Intermediate Russian 2  
Builds on skills obtained in RUSSIAN 200 with special emphasis on practical work, spoken Russian and development of aural-oral skills.  
Prerequisite: RUSSIAN 200 or approval of Academic Head or nominee  
Restriction: RUSSIAN 210. May not be taken if a more advanced language acquisition course in this subject has previously been passed  
RUSSIAN 277 15 Points  
Russian Study Abroad 2A  
Course taken at an approved academic institution abroad.  
Prerequisite: Approval of Academic Head or nominee  
RUSSIAN 278 15 Points  
Russian Study Abroad 2B  
Course taken at an approved academic institution abroad.  
Prerequisite: RUSSIAN 277 and approval of Academic Head or nominee  

**Samoan**  
**Stage I**  
SAMOAN 101 15 Points  
SAMOAN 101G 15 Points  
Samoan Language 1  
Gives students an introduction to the structure of Samoan as well as allowing them to develop basic language skills in listening, speaking, reading and writing. Designed for
students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition.  
*Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed*

### Stage II

**SAMOAN 201**  15 Points  
**Samoan Language 2**  
Extension of SAMOAN 101 in which more complex sentences will be studied through exposure to reading material and spoken texts such as conversations, speeches, letters, articles, songs and poems.  
*Prerequisite: SAMOAN 101*  
*Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed*

**SAMOAN 203**  15 Points  
**Special Topic**

### Stage III

**SAMOAN 301**  15 Points  
**Samoan Language 3**  
Conversations and speeches will be studied and practised. The contexts and relationships between ordinary and respectful language levels or honorifics of fa’asamoa protocols will be examined.  
*Prerequisite: SAMOAN 201*

**SAMOAN 303**  15 Points  
**Special Topic**

**SCREEN 702**  30 Points  
**Advanced Drama Directing**  
Focuses on the directing of actors for screen, and the relationship between this and blocking for camera. Students direct in front of the class and create a short piece of work as a group using improvisation. Students first focus on directing and presenting a 10-minute excerpt from a play and then direct and edit an original dramatic short film of 8-10 minutes. Crewing on fellow students’ projects is a compulsory requirement.  
*Prerequisite: SCREEN 701*

**SCREEN 713**  30 Points  
**Advanced Documentary Directing**  
Students complete a major treatment/script, an interview exercise, an editing exercise, and a completed documentary of 10-12 minutes. For the latter project, the course convener functions like an executive producer, overseeing and critiquing the documentaries as they progress. Emphasis is placed on aesthetic and formal approaches to the documentary and the class will draw extensively on documentary history.  
*Restriction: COMMS 713*

**SCREEN 714**  30 Points  
**Screenplay Writing and Development**  
A practical course in which students work on original features and analyse the work of writers. Students develop a better sense of structure, plot, characters, dialogue, genre and understand the dynamics of constructive feedback and rewriting, known in the screen industry as the ’development process.’ Combines lectures and workshops and builds upon SCREEN 700.  
*Prerequisite: SCREEN 700 or 705 or approval of Programme Director*

**SCREEN 715**  30 Points  
**Directed Study**  
Directed research on a selected topic.  

**SCREEN 780**  30 Points  
**Research Project - Level 9**

**SCREEN 792**  60 Points  
**Dissertation - Level 9**

**SCREEN 797A**  60 Points  
**SCREEN 797B**  60 Points  
**Production Project - Level 9**  
The production of a substantial project in which the student specialises as director, writer, or producer completing either a documentary (approximately 30 minutes), a short dramatic film (approximately 10-15 minutes) or a feature length screenplay (80-110 pages). Students are required to attend a seminar series conducted by academic staff and industry practitioners in Semester One. Crewing on fellow students’ projects is also required.  
*Prerequisite: Approval of Academic Head or nominee*  
To complete this course students must enrol in SCREEN 797 A and B

---

### Sociology

**Stage I**

**SOCIOL 100**  15 Points  
**Issues and Themes in Sociology**  
Introduction to sociology as a discipline and a review of some of its internal debates. Topics include: social class,
gender, globalisation, power, sexual identity and family. Draws on material from a range of societies.

**SOCIOL 101** 15 Points

**Understanding Aotearoa New Zealand**

Provides an introduction to the sociological analysis of New Zealand society. Looks at familiar events, institutions, social processes from a sociological point of view and offers ways to understand them in new and different ways. Focuses on the structure of New Zealand society and on social and political changes which affect the lives of New Zealanders and shape their society.

**SOCIOL 103** 15 Points

**Aotearoa New Zealand Social Policy and Social Justice**

Provides an overview of key contemporary social policy issues within the context of globalising economic processes and continuing gendered and racialised divisions. Discusses the way in which debates around social policy are constructed and the implications this has for social justice. Case studies may include food and health, technology, indigeneity and children.

**SOCIOL 105** 15 Points

**Cultural Studies and Society**

A cultural studies approach to social life focuses on the way we experience the world, taking account of what we see, what we hear, what we consume and how we communicate. Sociological theory will be explored through investigating different cultural forms including film, advertising, art, social media, sport, and video games.

**Stage II**

**SOCIOL 200** 15 Points

**Sociological Theory**

Aims to map the social condition through theorists who also emphasise the need to transform it. Focuses on material existence, how it is interpreted through language and the investment of people in oppressive regimes, ideologies and discourses. Develops critical perspectives on the intersections of class, race, gender and sexuality. Prerequisite: 30 points at Stage I in Sociology or 15 points at Stage I in Sociology with a minimum B+ pass

**SOCIOL 203** 15 Points

**Social Reality and Ideology**

Sociologists construe ideology as ideas that conceal social inequalities. This course explores the meaning of ideology and some of its related concepts, such as hegemony, discourse, and subjugation. It then critically analyses some of the most pervasive contemporary ideologies. Although not exhaustive, examples include beliefs about personal responsibility, corporate job creators, faith in technology, and crime and deviance. Prerequisite: 60 points passed from BA courses

**SOCIOL 204** 15 Points

**Special Topic: Social Control**

Analyses the means by which different institutions, groups and individuals control the actions, behaviours and thoughts of people in contemporary modern societies, including our own. Discusses controllers, their targets, the mechanisms they employ, the goals they seek to accomplish, and the means by which people resist. Prompts students to reflect how controlling processes have affected their everyday life. Prerequisite: 30 points at Stage I in Sociology or 15 points at Stage I in Sociology with a minimum B+ pass or 90 points passed

**SOCIOL 205** 15 Points

**Special Topic: Sociology of Subcultures**

Through consideration of sociological theory from the Chicago School, British Cultural Studies, and postmodernism, this course investigates marginal, non-normative, and socially deviant group formations considered as ‘subcultural’. This will include critical consideration of the social, economic, and political dynamics in which specific group practices and identities of subcultures such as ravers, punks, and skaters take shape in capitalist society. Prerequisite: 30 points at Stage I in Sociology or 15 points at Stage I in Sociology with a minimum B+ pass. Restriction: SOCIOL 225

**SOCIOL 207** 15 Points

**Sociology of Gender and Families**

Focuses on the interrelationship between gender, sexuality and families in New Zealand and other Western societies. Through an examination of important moments in the life course of families – for example, partnering and parenting – it explores changes and continuities in the gendered norms, identities, practices and patterns that characterise contemporary family life. Prerequisite: 30 points in Sociology or Gender Studies or 60 points passed. Restriction: SOCIOL 214, SOCIOL 222

**SOCIOL 208** 15 Points

**Economy and Society**

Examines the changing relations between work and life outside of paid employment. Particular attention is paid to new forms of expropriation that profit from claiming private ownership of collective effort, ideas and cultural forms. These developments are crucial to understanding and contesting social inequality, globalisation, organisational restructuring and new technologies. Course material is drawn from international literatures and is grounded in an understanding of contemporary New Zealand. Prerequisite: 30 points at Stage I in Employment Relations and Organisational Studies or Sociology or 15 points at Stage I in Sociology with a B+ or higher, or 30 points in International Relations and Business

**SOCIOL 210** 15 Points

**Colonisation, Globalisation and Social Justice**

Charts the political, economic, cultural and ecological consequences of imperialism, colonisation, globalisation, aid and development, up to and including the IMF/World Bank’s neoliberalism and structural adjustment programme. It pays particular attention to violence (physical, psychological and ideological), environmental consequences and health impacts in these contexts. Prerequisite: 30 points at Stage I in Sociology or Employment Relations and Organisational Studies, or 15 points at Stage I in Sociology with a B+ or higher, or 30 points in Global Politics and Human Rights, or 30 points at Stage I in BC courses

**SOCIOL 211** 15 Points

**Sociology of Popular Culture**

Popular culture appears to be everywhere, but what political and social effects might all this popular entertainment have on us? This course seeks to answer such questions through a sociological interpretation of popular culture as both an indicator of social change and as a location of meaning and significance. Topics include reality TV, celebrities, consumption, music, and technology. Prerequisite: 30 points at Stage I in Sociology, or 15 points at Stage I in Sociology with a B+ or higher, or 30 points from
2024 Calendar
Faculty of Arts
Course Prescriptions

COMMS 100, FTVMS 100, 101, MEDIA 101, or 30 points from Comparative Literature

SOCIOL 213 15 Points
Ethnicity and Identity
Charts the development of the concepts of racial, national, ethnic and indigenous identities in relation to the histories of modernity and colonisation and then uses these concepts to analyse a range of contemporary issues of identity and belonging.
Prerequisite: 30 points at Stage I in Sociology or 15 points at Stage I in Sociology with at least a B+ average or 30 points at Stage I in Global Studies with at least a B+ average, or 90 points passed

SOCIOL 228 Special Topic

SOCIOL 229 15 Points
Environmental Sociology
Environmental sociology provides insight into the complex social processes that define, create and even threaten our natural environment. This course gives tools with which to think sociologically about environmental issues, such as understanding how environmental issues come to be seen as environmental problems, and how political, cultural, and economic factors have come to shape our interaction with the natural environment.
Prerequisite: 30 points at Stage I in Sociology, or 30 points from ENVSCI 101, 201, GEOG 102, 205, or COMMS 102 and 15 points from ENVSCI 101, SOCIOL 100

Stage III

SOCIOL 300 15 Points
Feminist, Anti-Colonial and Post-Capitalist Technofutures
Introduces students to theoretical approaches for understanding the social, material and power (political) dimensions of science and technology, as well as practical approaches for imagining and enacting more ethical, equitable, collaborative and anti-colonial technofutures. Topics studied include: science, technology and social theory; feminist, anti-colonial and post-capitalist approaches to science and technology; translating knowledge to engage public audiences.
Prerequisite: 30 points at Stage II in Sociology, or COMMS 103 and 208
Restriction: SOCIOL 311

SOCIOL 301 15 Points
Critical Theory and Society
Critical theory seeks to understand the multiple contradictions of society and to offer roadmaps for progressive social change. This course explores foundational ideas in the tradition of critical theory and in contemporary critical thought. Critical theories are situated in the social and historical contexts from which they arise and are scrutinised for their relevance to contemporary struggles for social justice.
Prerequisite: SOCIOL 200 or 30 points above Stage I in BA or Global Studies courses

SOCIOL 305 15 Points
Special Topic

SOCIOL 307 15 Points
The Pacific in the World
Brief history of post Second World War theories of economic development and modern world systems. Explores Pacific responses to world systems such as colonialisation, capitalism, globalisation and militarisation. Examines Pacific relations with colonial and imperial powers such as Aotearoa New Zealand, Britain, and US. Analyses the limitations of world systems models.
Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or Sociology

SOCIOL 309 15 Points
Migration, Borders and Displacement
Examines the relationship between national borders and international migration alongside an exploration of critical theories of the drivers, management and experience of displacement. Particular attention is paid to representations of migration, political and policy responses to migration, and patterns of involuntary, labour, lifestyle and educational migration.
Prerequisite: 30 points at Stage II in Global Politics and Human Rights or Sociology
Restriction: SOCIOL 306

SOCIOL 310 15 Points
Researching Social Problems
Develops skills in integrating theory and methods so that students can critically engage with social problems using a sociological lens both inside and outside the university. Prerequisite: 30 points at Stage II in Sociology or 60 points passed at Stage II from BA courses

SOCIOL 315 15 Points
Law, Inequality and the State
Examines, in a comparative mode, how law as a set of social relations and categories can both create and remedy inequalities of gender, race, and class.
Prerequisite: 30 points at Stage II in Sociology or 15 points from CRIM 201, 202 or 30 points at Stage II in Global Politics and Human Rights
Restriction: SOCIOL 215

SOCIOL 316 15 Points
Critical Theories of Schooling
Compulsory schooling in western society has traditionally been seen as a significant instrument of socialisation, progress and economic advancement for young people. The course will engage students in ideas which challenge this view by drawing on critical theories such as Labelling, Marxist, Foucauldian, and Anarchist theory, and exploring topics including colonialism, patriarchy, racism, and the social control of youth.
Prerequisite: 30 points at Stage II in Sociology

SOCIOL 318 15 Points
Sociology of the Media
An exploration of the relationship and patterns of interaction between media, culture and society through an examination of the print and broadcasting media, and advertising in New Zealand.
Prerequisite: 30 points at Stage II in Sociology, or Media, Film and Television, or Communication

SOCIOL 322 15 Points
A Sociology of Relational Life
Introduces students to new developments in sociology by examining the significance of our relationships to others: intimate partners, friends, acquaintances, and even pets. The course considers the ways relationships are embedded in life through everyday practices, sharing photographs, and telling stories. In so doing, it engages with contemporary debates about the rise of individualism and the decline of family life.
Prerequisite: 30 points at Stage II in Sociology
**SOCIOL 326**  
**Sociology of Violence and Death**  
Drawing on writings from a variety of intellectual traditions, this course explores the contested nature of violence through an examination of a number of contemporary debates about the causes, agents, consequences, as well as responses to and interventions in, incidents of violence. **Prerequisite:** 30 points at Stage II in Sociology, or 15 points at Stage II in Sociology and CRIM 201 or 202, or 30 points at Stage II in Health and Society.

**SOCIOL 330**  
**Special Topic**  
**Prerequisite:** 30 points at Stage II in Sociology.

**SOCIOL 332**  
**Sociology of Health, Illness, and Medicine**  
Presents a conceptual and topical overview of the Sociology of Health, Illness, and Medicine. Specific topics to be addressed include: the social distribution of disease; the social production of disease; the social construction of ‘illness’; the social construction of treatment practices; patient experiences of illness and healthcare; the social organisation of medicine; and alternative visions of healthcare. **Prerequisite:** 30 points at Stage II in Sociology, or COMMS 212 and 15 points in Sociology, or 30 points in Health and Society, or HLTHSOC 100 with a B+ or better.

**SOCIOL 339**  
**Special Topic**  
**Prerequisite:** 30 points at Stage II in Sociology.

**SOCIOL 340**  
**Special Topic**  
**Prerequisite:** 30 points at Stage II in Sociology.

**Postgraduate 700 Level Courses**

**SOCIOL 700**  
**Advanced Sociological Theory**  
Explores gender and sexuality through theories influenced by Marx and Freud. Deleuze (with Felix Guattari) and Lacan are typically used to problematise the relationship of the subject to the capitalist patriarchy. Draws on feminist, queer and trans theory. Scope to research on alternative themes such as race. **Restriction:** SOCIOL 733.

**SOCIOL 701**  
**Advanced Skills in Research**  
Examination of sociological issues in research design, execution, analysis and interpretation. Particular attention is paid to computer assisted data and benefits of employing multiple methods. **Restriction:** SOCSRES 702, 703.

**SOCIOL 703**  
**Sociology of Mental Health**  
Interrogates advanced sociological theories of medicine and psychiatry, investigating mental health interventions as social, economic, cultural and political projects. Key issues will include The Enlightenment and theories of the self, the rise of science and the ‘psy’ professionals, institutionalisation and community care, current sociological theories of mental health, the medicalisation of everyday life, and gender, race and mental illness.

**SOCIOL 706**  
**Special Topic: The Sociology of Disasters**  
Disasters are increasing in scale, cost, frequency and severity. This course examines their causes and consequences and considers their future avoidance. In doing so it draws on social theory, Science and Technology Studies, and broad literatures on disaster. Topics include: the risk society thesis, the social patterning of disasters, and the political economy of disasters (disaster capitalism).

**SOCIOL 707**  
**Special Topic: Governing Population and Society**  
Explores the relationship between population, state and society with a particular emphasis on the settler colonial and post colonial context of Aotearoa New Zealand and the South Pacific. Social theories of biopolitics, gender, racism and technology are examined in order to develop critical insights into population ‘problems’ of migration, borders, fertility/mortality, citizenship and diversity.

**SOCIOL 709**  
**Special Topic: Sociology of Universities**  
Interrogates the purpose of a university from a sociological lens. Explores how the university is imagined and the different social drivers that guide the ‘purpose’ of a university. Topics include non-performative diversity, the university as a site for ‘cultural wars’, the neoliberal university, critic and conscience and academic freedom.

**SOCIOL 710**  
**Special Topic: Environmental Justice and Environmental Crimes**  
An advanced study of sociological and green criminology approaches to environmental harms that illuminates the complex social processes that creates them. This course critically analyses phenomenon that harms humans, non-humans and the environment. Examines the complex political, cultural, economic factors, and social factors contributing to them, as well as the social responses to address these problems.

**SOCIOL 718**  
**Research Projects: Design and Practice**  
Explores some of the major principles of research design and practice before discussing particular methods of research. Students will work through problem definition, literature review, and research design. Both ‘empirical’ and ‘theoretical’ projects will be encouraged. **Restriction:** SOCIOL 731, SOCSRES 701.

**SOCIOL 728**  
**Family, Gender and the State**  
The influence of changing ideologies of mothering, fathering, family and work, as well as the political forces and pressure groups that promote them, on both the development and restructuring of social and legal policies in several industrialised nations, including New Zealand.

**SOCIOL 735**  
**Current Debates in Gender and Sexuality**  
Traces contemporary sociological debates in the analysis of gender and sexuality. This includes reference to feminist concerns with identities, differences, bodies, power and agency. These issues are taken up and explored through an examination of practices enacted on/or through sexed bodies.

**SOCIOL 737**  
**Special Topic**  
**SOCIOL 738**

**Stage I**

- **SPANISH 104**
  - Provides a solid grounding in the basic grammar and vocabulary of Spanish for beginners or near beginners, emphasising communicative competence in the present tense. Develops speaking, listening, reading and writing skills, and prepares students at the A1 Level of the Common European Framework of Reference for Languages.  
  - **Restriction:** SPANISH 107. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

- **SPANISH 105**
  - **Beginners' Spanish 2**
    - Moving from the present to the past tenses, this course prepares students for basic conversation about everyday activities such as travel, weather, health, pastimes, emotions and simple narratives of historical events. Prepares students for the A2 Level of the Common European Framework of Reference for Languages.
    - **Restriction:** Students with 16 Level 2 NCEA credits in Spanish in last two years will enrol in SPANISH 105.
    - **Prerequisite:** SPANISH 104 or 109
    - **Restriction:** SPANISH 108. May not be taken if an equivalent or a more advanced language acquisition course in this subject has previously been passed.

**Stage II**

- **SPANISH 200**
  - **Intermediate Spanish 1**
    - Consolidates Spanish study by introducing the present subjunctive, enables students to move toward fluency in conversations on contemporary topics, and enriches daily activities with detail, subtlety and idioms used in the context of the rich cultures of the Hispanic world (Spain and Latin America). This course is equivalent to B1 of the Common European Framework of Reference for Languages.
    - **Prerequisite:** SPANISH 105 or 178
    - **Restriction:** SPANISH 277. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

- **SPANISH 201**
  - **Intermediate Spanish 2**
    - Builds on skills obtained in SPANISH 200 with special emphasis on practical work, spoken Spanish and development of aural-oral skills.
    - **Prerequisite:** SPANISH 200
    - **Restriction:** SPANISH 278. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

- **SPANISH 202**
  - **Iberian Cultures and Literatures**
    - An introduction to the study of Iberian literatures in their...
cultural contexts, focusing on major works and movements from different historical periods.
Prerequisite: 15 points from SPANISH 105, 108, 200, 201, 277, 278, 319, 321, 377, 378
Restriction: SPANISH 302

SPANISH 203
Iberian and Latin American Civilisations
Focuses on the unique traditions and radical innovations of the pluricultural nations comprising the Iberian Peninsula and Latin America, tracing parallel historical trajectories, diverse political systems and engaging aesthetic creations. Develops knowledge of Spanish and Latin American cultural studies through a global studies approach.
Prerequisite: 45 points at Stage I in BA courses
Restriction: SPANISH 103

SPANISH 206
Spanish Myths and Global Icons
Explores cultural representations of universal Spanish motifs in literature and the arts. Examines classical cultural myths associated with Spain (such as Don Quixote, Don Juan and Carmen), and global icons which have defined modernity, from Picasso, Dalí, and García Lorca to Buñuel and Almodóvar.
Prerequisite: 15 points from SPANISH 105, 108, 200, 201, 277, 278, 319, 321, 377, 378
Restriction: SPANISH 306

SPANISH 207
Transnational Movements in Hispanic Culture
Explores transnational movements pertaining to Spain and Latin America: topics may include the nineteenth-century agendas of abolitionism, freethinking and feminisms, migration and exile, film co-productions and documentaries, and historical memory networks in the twentieth and twenty-first centuries.
Prerequisite: 15 points from SPANISH 105, 108, 200, 201, 277, 278, 319, 321, 377, 378
Restriction: SPANISH 307

SPANISH 215
Special Topic
Prerequisite: SPANISH 105 or 108

SPANISH 218
Making Modern Spain 1840-1939
The making of modern Spain charts a period in which gender, class and ideological upheavals intersect with enquiry and debate as to what constitutes the Spanish nation. An overview of key moments in Spanish cultural politics from high Romanticism through to the end of the Spanish Civil War, examining the connections between seduction, both personal and intellectual, and social revolutions.
Prerequisite: 15 points from SPANISH 105, 108, 200, 201, 277, 278, 319, 321, 377, 378
Restriction: SPANISH 318, 725

SPANISH 223
Special Topic
Prerequisite: SPANISH 105 or 108

SPANISH 277
Spanish Study Abroad 2A
For approved courses at overseas institutions with permission of the Academic Head or nominee.
Prerequisite: B- or higher in SPANISH 105 or approval of Academic Head or nominee

SPANISH 278
Spanish Study Abroad 2B
For approved courses at overseas institutions with permission of the Academic Head or nominee.
Prerequisite: B- or higher in SPANISH 105 or approval of Academic Head or nominee

Stage III
SPANISH 302
Iberian Cultures and Literatures
Advanced study of Iberian literatures in their cultural contexts, focusing on major works and movements from different historical periods.
Prerequisite: 15 points from SPANISH 201, 278, 319, 321, 323, 377, 378 and 15 points from SPANISH 206, 207, LATINAM 201, 210, 216
Restriction: SPANISH 202

SPANISH 306
Spanish Myths and Global Icons
Explores cultural representations of universal Spanish motifs in literature and the arts. Examines classical cultural myths associated with Spain (such as Don Quixote, Don Juan and Carmen), and global icons which have defined modernity, from Picasso, Dalí, and García Lorca to Buñuel and Almodóvar.
Prerequisite: 15 points from SPANISH 201, 278, 319, 321, 377, 378 and 15 points from SPANISH 202, 207, LATINAM 201, 216
Restriction: SPANISH 206

SPANISH 307
Transnational Movements in Hispanic Culture
Explores transnational movements pertaining to Spain and Latin America: topics may include the nineteenth-century agendas of abolitionism, freethinking and feminisms, migration and exile, film co-productions and documentaries, and historical memory networks in the twentieth and twenty-first centuries.
Prerequisite: 15 points from SPANISH 201, 278, 319, 321, 377, 378 and 15 points from SPANISH 202, 207, LATINAM 201, 216
Restriction: SPANISH 207

SPANISH 315
Special Topic
Prerequisite: SPANISH 201 or 278 or 319 or 321 or 377 or 378 and 15 points from SPANISH 202 or LATINAM 201 or 216

SPANISH 316
Special Topic
Prerequisite: SPANISH 201 or 278 or 319 or 321 or 377 or 378 and 15 points from SPANISH 202 or LATINAM 201 or 216

SPANISH 317
Hispanic Cultures in Cinema
A study of Spanish and/or Latin American cultures and their representation in films. Emphasis on critical theories and cultural contexts of representation.
Prerequisite: SPANISH 201 or 278 or 319 or 321 or 377 or 378 and 15 points from SPANISH 202 or LATINAM 201 or 216
Restriction: SPANISH 718

SPANISH 318
Making Modern Spain 1840-1939
The making of modern Spain charts a period in which gender, class and ideological upheavals intersect with enquiry and debate as to what constitutes the Spanish nation. An overview of key moments of Spanish cultural politics from high Romanticism through to the end of the Spanish Civil War, examining the connections between
seduction, both personal and intellectual, and social revolutions.
Prerequisite: SPANISH 201 or 278 or 319 or 321 or 377 or 378 and
15 points from SPANISH 202 or LATINAM 201 or 216
Restriction: SPANISH 218, 725

SPANISH 319 15 Points
Advanced Spanish 1
Expands the language skills obtained in SPANISH 200-201
through extensive practice in advanced grammar, idiomatic
expression, listening, speaking, reading and writing in
relation to cultural and contemporary topics.
Prerequisite: SPANISH 201 or 278
Restriction: SPANISH 300, 377

SPANISH 321 15 Points
Advanced Spanish 2
Builds on skills obtained in SPANISH 319 with special
emphasis on advanced Spanish grammar review and
development of Spanish and Latin American cultural
literacy.
Note: Students who have passed SPANISH 300 in 2006
or 2007 may enrol in the course with permission of the
Academic Head or nominee.
Prerequisite: SPANISH 319 or 377 or approval of Academic Head
or nominee
Restriction: SPANISH 378

SPANISH 323 15 Points
Spanish Translation Practice
Develops translator competence within general, cultural
and technical knowledge domains, through full translations
into and out of Spanish, topic-based research, and
summary and selective translations. Specific skills include
understanding the different phases in the translation
process; documentary research skills, and editing and
proof-reading skills.
Prerequisite: SPANISH 201 or approval of Spanish Programme
Coordinator
Restriction: SPANISH 723

SPANISH 341 15 Points
Spanish Sound Structure
Provides advanced Spanish learners with a solid foundation
in Spanish phonetics and phonology. Spanish sounds are
explained and practiced in order to minimise native-
language transfer. Students learn articulatory phonetics,
phonetic transcription, and sound-pattern recognition,
skills that enable them to discern native pronunciations
and discover the principles that underlie the Spanish sound
system.
Prerequisite: 15 points from SPANISH 201, 278, 319, 321, 377, 378
Restriction: SPANISH 741

SPANISH 342 15 Points
Spanish Word Formation
An introduction to the formal study of Spanish words and
the processes that generate them. Key morphological
concepts explain how words may be related. The
processes used to derive words and create grammatical
variants will be analysed and practiced. Construction and
deconstruction of words will be examined with reference
to the enrichment of vocabulary.
Prerequisite: 15 points from SPANISH 201, 278, 319, 321, 377, 378
Restriction: SPANISH 742

SPANISH 350 15 Points
Directed Reading and Research
Supervised research projects.
Prerequisite: SPANISH 201 or 278 or 319 or 321 or 377 or 378
and 15 points from SPANISH 202 or LATINAM 201 or 216, and
approval of Academic Head or nominee

SPANISH 377 15 Points
Spanish Study Abroad 3A
For approved courses at overseas institutions with
permission of the Academic Head or nominee.
Prerequisite: B- or higher in SPANISH 201 or approval of
Academic Head or nominee

SPANISH 378 15 Points
Spanish Study Abroad 3B
For approved courses at overseas institutions with
permission of Academic Head or nominee.
Prerequisite: B- or higher in SPANISH 201 or approval of
Academic Head or nominee

Postgraduate 700 Level Courses

SPANISH 719 30 Points
Special Topic

SPANISH 720 30 Points
Latin American Knowledges
An examination of new knowledges produced in Latin
America that have influenced socio-political theory and
global epistemological paradigms but are subalternised as
art, culture, or politics. Therefore, this course will examine
the link between theory and practice in the creation of new
knowledge.
Prerequisite: LATINAM 301, 306, or POLITICS 332
Restriction: LATINAM 320

SPANISH 723 30 Points
Advanced Spanish Translation Practice
Aims at developing translator competence within general,
cultural and technical knowledge domains, through full
translations into and out of Spanish, topic-based research,
and summary and selective translations. Specific skills
include mastering the different phases in the translation
process; understanding the main textual and contextual
features of Languages for Specific Purposes (LSP) texts;
documentary research skills, and editing and proof-reading
skills.
Restriction: SPANISH 323

SPANISH 728 30 Points
SPANISH 728A 15 Points
SPANISH 728B 15 Points
Research Essays - Level 9
Essays within a field, genre or period of literature.
To complete this course students must enrol in SPANISH 728 A
and B, or SPANISH 728

SPANISH 729 30 Points
Latin American Icons: Political Economy of Otherness
The ways in which Latin America as a place and a people
has served as a site of otherness and exoticism providing
economic and symbolic capital for the consumption and
pleasure of colonial, neo-colonial, and neo-liberal powers.
Latin American cultural studies texts offer students a way to
read against the grain established by this process.
Prerequisite: 15 points from HISTORY 310, POLITICS 332,
SPANISH 331
Restriction: LATINAM 306, SPANISH 306

SPANISH 736 15 Points

SPANISH 737 30 Points
Special Topic

SPANISH 737 30 Points
Special Topic
SPANISH 750 15 Points
SPANISH 750A 7.5 Points
SPANISH 750B 7.5 Points

**Special Study**
Supervised research on a topic or topics approved by the Academic Head or nominee.
To complete this course students must enrol in SPANISH 750 A and B, or SPANISH 750

SPANISH 777 15 Points

**Study Abroad**
Formal study in an approved overseas university where the language of instruction is Spanish. Supplementary study at the University of Auckland may be required as part of this course. The final grade will be determined by formal assessment of student achievement by the Academic Head or nominee. Enrolment requires the approval of the Academic Head or nominee.

SPANISH 778 15 Points

**Study Abroad**
Formal study in an approved overseas university where the language of instruction is Spanish. Supplementary study at the University of Auckland may be required as part of this course. The final grade will be determined by formal assessment of student achievement by the Academic Head or nominee. Enrolment requires the approval of the Academic Head or nominee.

SPANISH 782 30 Points
SPANISH 782A 15 Points
SPANISH 782B 15 Points

**Research Project - Level 9**
Prerequisite: 30 points from SPANISH 718-737
Prerequisite: 30 points from SPANISH 719-737
To complete this course students must enrol in SPANISH 782 A and B, or SPANISH 782

SPANISH 791 60 Points

**Dissertation - Level 9**

SPANISH 792 45 Points
SPANISH 792A 22.5 Points
SPANISH 792B 22.5 Points

**Dissertation - Level 9**
To complete this course students must enrol in SPANISH 792 A and B, or SPANISH 792

SPANISH 793A 45 Points
SPANISH 793B 45 Points

**Thesis - Level 9**
Prerequisite: A BA(Hons) in Spanish with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in SPANISH 793 A and B

SPANISH 796A 60 Points
SPANISH 796B 60 Points

**Thesis - Level 9**
Prerequisite: A BA(Hons) in Spanish with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in SPANISH 796 A and B

SPANISH 797A 60 Points
SPANISH 797B 60 Points

**Research Portfolio - Level 9**
Prerequisite: A BA(Hons) in Spanish with at least Second Class Honours, First Division, or equivalent
To complete this course students must enrol in SPANISH 797 A and B

**Tertiary Foundation Certificate Academic English**

**Foundation Courses**
TFACENG 93F 15 Points
**Foundation Academic English**
Develops the skills necessary to write essays of exposition and argument for university purposes. It includes brainstorming, writing an outline, structuring an essay, integrating quotations, summaries and referencing.
Prerequisite: Coordinator approval
Restriction: ACADENG 93F, 101

**Tertiary Foundation Certificate Arts General**

**Foundation Courses**
TFCARTS 92F 15 Points
**Introduction to Arts and Humanities**
Encourages students to think in a variety of different ways about a particular theme or topic. This is achieved by introducing different Arts and Arts-related subjects/disciplines and the ways those different disciplines can, in their own unique ways, work complementarily to enrich understanding.
Restriction: ARTSGEN 92P

**Tertiary Foundation Certificate English**

**Foundation Courses**
TFCEWRIT 94F 15 Points
**Foundation English Writing**
A skills-based academic writing course, providing practice in the writing process, and the analysis and production...
of academic texts. These include argumentative essays, compare and contrast texts, definition, classification and critique writing, along with research-based writing such as literature reviews, case studies and reports.

Prerequisite: Coordinator approval
Restriction: ENGWritt 94F

Tertiary Foundation Certificate History

Foundation Courses

TFCHIST 91F 15 Points
Foundation History
An introduction to themes in New Zealand history including the interactions and relationships between the Māori world and Europeans from the late eighteenth century onwards, and their legacies up to the present. Introduces broader skills suitable for studying history, providing a solid foundation for research, critical thinking, speaking, writing and collaborative work that is invaluable in a wide-range of disciplines.
Restriction: HISTORY 91F

Tertiary Foundation Certificate Pacific Studies

Foundation Courses

TFCPAC 91F 15 Points
Foundation Pacific Studies
Introduces students to an essential knowledge of the Pacific and its cultures and peoples, and to the core practices and concepts of interdisciplinary Pacific Studies. This course will provide a foundation of knowledge of Pacific cultures, languages, history, geography and politics, and introduce students to some core Pacific Studies concepts (such as fa'aalo'alo/faka'apa'apa, diaspora, Oceania, identity, and culture). Students will gain familiarity with the history and purposes of Pacific Studies and work with some accessible forms of indigenous Pacific knowledge.

Tertiary Foundation Certificate Sociology

Foundation Courses

TFCSOCIO 91F 15 Points
Foundation Sociology 1
Introduces students to fundamental building blocks in sociology. Students develop familiarity with key sociological concepts that explain social inequalities, enabling them to think sociologically about this issue. In particular, students learn how social structures (for example, class, race/ethnicity, gender and sexuality), social institutions (for instance, the state) as well as interactions between people produce and sustain various forms of inequality.

TFCSOCIO 92F 15 Points
Foundation Sociology 2
Focuses on Aotearoa New Zealand as a multicultural nation produced through colonisation and subsequent waves of migration. Using a range of case studies, the course highlights the role of different cultural norms and values in creating diverse experiences of living in Aotearoa New Zealand. Such divergent realities invite reconsideration of what it means to be a 'New Zealander'.

Theological and Religious Studies

Stage I

THEOREL 101 15 Points
THEOREL 101G 15 Points
The Bible and Popular Culture
An exploration of biblical themes, images, and metaphors in contemporary film, music and cultural arts through which religion and culture intersect. It develops tools appropriate for analysing popular culture, as it moves from the local to the national to the global.
Restriction: THEOLOGY 101, 101G

THEOREL 102 15 Points
Studying Religion: An Introduction
Introduces students to some of the central issues, questions, and debates in the contemporary study of religion. It guides students through a series of case studies, each focusing on a particular topic pertaining to religion, and introduces them to ways of thinking about these topics in an informed and critical way.

THEOREL 106 15 Points
THEOREL 106G 15 Points
Islam and the Contemporary World
Since the religion of Islam has become a very significant aspect of contemporary global and local societies, this course seeks to introduce students to an understanding of key aspects of Islam and an analysis of its significant contribution to New Zealand society as well as to societies and cultures across the world.
Restriction: THEOLOGY 106, 106G

Stage II

THEOREL 200 15 Points
A Major Religious Thinker
In-depth study of a figure whose thought has had a major impact on the development of one or more religious traditions. It includes the critical study of selected texts by the chosen thinker (where these have survived), and of texts and traditions related to the thinker. The figure chosen reflects the research interests of current staff.
Prerequisite: 30 points at Stage I
Restriction: THEOREL 300

THEOREL 201 15 Points
Religions in New Zealand
An exploration of living religions in contemporary New Zealand, surveying the beliefs, traditions and practices that are central to religious groups in New Zealand and their interactions with contemporary culture both locally and globally. The course will introduce students to the comparative study of religion, engaging in such topics as religion and ritual, exploring belief, and interfaith dialogue.
Prerequisite: 15 points at Stage I in Theology or from the BA Schedule, or approval of Academic Head or nominee
Restriction: THEOLOGY 201, THEOREL 320

THEOREL 202 15 Points
A History of the Apocalypse
An ‘apocalypse’ is a divine revelation about the shape of history. It is written for a society in crisis, often describing that society’s collapse before the coming of a better world. This course traces the development of apocalyptic thought...
in the religions of the West, from the ancient Middle East through to apocalyptic themes in modern cultures.  
Prerequisite: 30 points at Stage I  
Restriction: THEOREL 302

THEOREL 206  
15 Points  
Religion in Film and Television  
Explores the ways that religious themes, myths, and imagery are expressed within the narratives of some classic and contemporary films and television dramas. Students will learn skills to identify the articulation of religious beliefs, narratives, and the sacred or transcendent within the medium of film and television, and to discuss critically this cultural engagement with religion.  
Prerequisite: 30 points at Stage I  
Restriction: THEOREL 306

THEOREL 208  
15 Points  
Special Topic in Theological and Religious Studies  
Study of a particular theme, religious tradition or set of texts from within the discipline of Theological and Religious Studies.  
Prerequisite: 30 points at Stage I from BA Schedule  
Restriction: THEOREL 308

THEOREL 209  
15 Points  
Religious Texts of Terror  
Explores the ways that various forms of violence are evoked and discussed within religious texts and traditions. Students will learn about the origins of these ‘texts of terror’, and then trace their ongoing influence throughout history and up to the present day across a range of socio-cultural contexts, both global and local.  
Prerequisite: 30 points at Stage I from the BA Schedule  
Restriction: THEOREL 301

THEOREL 210  
15 Points  
Religion, Trauma and Suffering  
An exploration of how recent insights into trauma and suffering intersect with theology and religion. Students will learn about ways in which religious narratives and practices have contributed to trauma and suffering, as well as possibilities for resistance and relief. The course will include engagements with trauma and suffering across a range of contexts.  
Prerequisite: 30 points at Stage I  
Restriction: THEOREL 318

THEOREL 213  
15 Points  
Special Topic  
Prerequisite: 30 points at Stage I  
Restriction: THEOREL 313

THEOREL 214  
15 Points  
Special Topic  
Prerequisite: 30 points at Stage I

THEOREL 216  
15 Points  
Early Christianity  
Examines the history of Christianity from its origins in Palestinian and diaspora Judaism through to its official endorsement by the Roman Empire at the end of the fourth century. Explores how various traditions about Jesus evolved, how Christians both accommodated and resisted the wider culture, and how norms for “orthodoxy” (correct teaching) gradually took shape.  
Prerequisite: 30 points at Stage I from the BA Schedule  
Restriction: CTHTHEO 252, 352, THEOREL 316, THEOLOGY 104

THEOREL 221  
15 Points  
Comparative Religion and Society  
Provides an introduction to social theories of religion. An empirical approach to the study of religion, which constructs theories and arguments about its social forms and significance through the collection and analysis of data. Global case studies will be used to consider the power of religion both as a force for social cohesion as well as disruption and social change.  
Prerequisite: 30 points at Stage I  
Restriction: THEOREL 321

THEOREL 222  
15 Points  
Religion, Climate Change and Justice  
An exploration of the influence of religion on how we understand and relate to the natural world. Students will learn about some religious ideas that have contributed to the current climate crisis, as well as the role that religion and spirituality are playing in responses to this crisis.  
Prerequisite: 30 points at Stage I  
Restriction: THEOREL 322

THEOREL 223  
15 Points  
How People Became Things: Christianity, Colonisation and Race  
An exploration of theological and religious ideas that supported colonisation and contributed to a wider transformation of identity, land and economics. Students will learn about some of the ideas and beliefs that were integral to the progression of colonialism, as well as the role of religion in various forms of resistance.  
Prerequisite: 30 points at Stage I  
Restriction: THEOREL 323

Stage III

THEOREL 300  
15 Points  
A Major Religious Thinker  
In-depth study of a figure whose thought has had a major impact on the development of one or more religious traditions. It includes the critical study of selected texts by the chosen thinker (where these have survived), and of texts and traditions related to the thinker. The figure chosen reflects the research interests of current staff.  
Prerequisite: 30 points at Stage II  
Restriction: THEOREL 200

THEOREL 301  
15 Points  
Religious Texts of Terror  
Explores the ways that various forms of violence are evoked and discussed within religious texts and traditions. Students will learn about the origins of these ‘texts of terror’, and then trace their ongoing influence throughout history and up to the present day across a range of socio-cultural contexts, both global and local.  
Prerequisite: 30 points at Stage II from the BA Schedule  
Restriction: THEOREL 209

THEOREL 302  
15 Points  
A History of the Apocalypse  
An apocalypse is a divine revelation about the shape of history. It is written for a society in crisis, often describing that society’s collapse before the coming of a better world. This course traces the development of apocalyptic thought in the religions of the West, from the ancient Middle East through to apocalyptic themes in modern cultures.  
Prerequisite: 30 points at Stage II  
Restriction: THEOREL 202
THEOREL 306  
Religion in Film and Television  
15 Points
Explores the ways that religious themes, myths, and imagery are expressed within the narratives of some classic and contemporary films and television dramas. Students will learn skills to identify the articulation of religious beliefs, narratives, and the sacred or transcendent within the medium of film and television, and to discuss critically this cultural engagement with religion.  
Prerequisite: 30 points at Stage II  
Restriction: THEOREL 206

THEOREL 308  
Special Topic in Theological and Religious Studies  
15 Points
Study of a particular theme, religious tradition or set of texts from within the discipline of Theological and Religious Studies.  
Prerequisite: 30 points at Stage II from BA Schedule  
Restriction: THEOREL 208

THEOREL 309  
Directed Study 1  
15 Points
Provides students with the possibility of undertaking directed study of a topic in Theological and Religious Studies approved by the Academic Head and directed by a member of academic staff with relevant expertise.  
Prerequisite: 30 points at Stage II from the BA Schedule

THEOREL 310  
Directed Study 2  
15 Points
Provides students with the possibility of undertaking directed study of a topic in Theological and Religious Studies approved by the Academic Head and directed by a member of academic staff with relevant expertise.  
Prerequisite: 30 points at Stage II from the BA Schedule

THEOREL 313  
Special Topic  
15 Points
Prerequisite: 30 points at Stage II  
Restriction: THEOREL 213

THEOREL 314  
Special Topic  
15 Points
Prerequisite: 30 points at Stage II

THEOREL 316  
Early Christianity  
15 Points
Examines the history of Christianity from its origins in Palestinian and diaspora Judaism through to its official endorsement by the Roman Empire at the end of the fourth century. Explores how various traditions about Jesus evolved, how Christians both accommodated and resisted the wider culture, and how norms for “orthodoxy” (correct teaching) gradually took shape.  
Prerequisite: 30 points at Stage II in the BA Schedule  
Restriction: THEOLOGY 252, 352, THEOREL 216, THEOLOGY 104

THEOREL 318  
Religion, Trauma and Suffering  
15 Points
An exploration of how recent insights into trauma and suffering intersect with theology and religion. Students will learn about ways in which religious narratives and practices have contributed to trauma and suffering, as well as possibilities for resistance and relief. The course will include engagements with trauma and suffering across a range of contexts.  
Prerequisite: 30 points at Stage II  
Restriction: THEOREL 210

THEOREL 319  
Theory and Method in Religious Studies  
15 Points
Examines key theories and methods used in the multidisciplinary study of religion. Although dedicated to social-scientific theories of religion, it also covers textual, historical, feminist/queer, and psychological theories. It will provide students with a critical understanding of the diversity of approaches used in the field and raise awareness about the possibilities for framing their own research.  
Prerequisite: 30 points at Stage II from the BA Schedule

THEOREL 320  
Religion in New Zealand  
15 Points
An exploration of living religions in contemporary New Zealand, surveying the beliefs, traditions and practices that are central to religious groups in New Zealand and their interactions with contemporary culture both locally and globally. Comparative study of religion in New Zealand, in such topics as religion and ritual, exploring belief, and interfaith dialogue.  
Prerequisite: 30 points at Stage II  
Restriction: THEOLOGY 201, THEOREL 201

THEOREL 321  
Comparative Religion and Society  
15 Points
Examines the social theories of religion. An empirical approach to the study of religion, which constructs theories and arguments about its social forms and significance through the collection and analysis of data. Global case studies will be used to consider the power of religion both as a force for social cohesion as well as disruption and social change.  
Prerequisite: 30 points at Stage II  
Restriction: THEOREL 221

THEOREL 322  
Religion, Climate Change and Justice  
15 Points
An exploration of the influence of religion on how we understand and relate to the natural world. Students will learn about some religious ideas that have contributed to the current climate crisis, as well as the role that religion and spirituality are playing in responses to this crisis.  
Prerequisite: 30 points at Stage II  
Restriction: THEOREL 222

THEOREL 323  
How People Became Things: Christianity, Colonisation and Race  
15 Points
An exploration of theological and religious ideas that supported colonisation and contributed to a wider transformation of identity, land and economics. Students will learn about some of the ideas and beliefs that were integral to the progression of colonialism, as well as the role of religion in various forms of resistance.  
Prerequisite: 30 points at Stage II  
Restriction: THEOREL 223

Theology

Postgraduate 700 Level Courses

THEOLOGY 780  
30 Points
THEOLOGY 780A  
15 Points
THEOLOGY 780B  
15 Points
Dissertation - Level 9
A supervised dissertation for BTheol(Hons) students
designed to help them to engage with a research question in the area of Theology.
To complete this course students must enrol in THEOLOGY 780 A and B, or THEOLOGY 780

THEOLOGY 781 15 Points
Research Essay
A supervised research essay designed to help Postgraduate Diploma students engage with a research question in Theology.
Restriction: BSTHEO 789

THEOLOGY 782 15 Points
Research Essay
A supervised research essay designed to help Postgraduate Diploma students engage with a research question in the area of Practical Theology.

THEOLOGY 796A 60 Points
THEOLOGY 796B 60 Points
Thesis - Level 9
The thesis of approximately 35,000 words should embody the results obtained by the candidate in an investigation relating to the subject.
Restriction: BSTHEO 796, CTHTHEO 796, PTHEO 796
To complete this course students must enrol in THEOLOGY 796 A and B

Tongan

Stage I

TONGAN 101 15 Points
TONGAN 101G 15 Points
Tongan Language 1
Gives students an introduction to the structure of Tongan as well as allowing them to develop basic language skills in listening, speaking, reading and writing. Designed for students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition.
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

Stage II

TONGAN 201 15 Points
Tongan Language 2
Extends language fluency developed in TONGAN 101 by progressively introducing more challenging reading and writing tasks, such as narrating myths and legends and describing aspects of Tongan culture.
Prerequisite: TONGAN 101
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

TONGAN 203 15 Points
Special Topic

Stage III

TONGAN 301 15 Points
Tongan Language 3
Extends the level of fluency and literacy developed in TONGAN 201. Skills in oral and written Tongan will be extended through intensive study of Tongan history and culture.
Prerequisite: TONGAN 201

TONGAN 303 15 Points
Special Topic

Transdisciplinary Democracy

Stage I

TDDEM 100 15 Points
Democracy in the 21st Century
Examines the challenges to democracy in New Zealand and globally arising from high inequality, the changing information environment, and authoritarian movements. Uses a transdisciplinary approach to understand the interplay of economic, legal, technological, and cultural factors. Explores innovative ideas for ensuring democratic integrity and building more inclusive, equitable, and participatory democracies.

Translation Studies

Stage I

TRANSLAT 100 15 Points
TRANSLAT 100G 15 Points
Translation for Global Citizens
Covers the foundations of translation and interpreting as an academic discipline and as a critically important communication enabler which serves a multicultural and multilingual society. The course is designed to equip monolingual students, as well as students with language skills, with the literacy in translation and interpreting increasingly needed to navigate today’s globalised world and to detect and overcome communication gaps in diverse business and private contexts.

TRANSLAT 101 15 Points
Interpreting for Communities
Introduces students to the practice and theory of community interpreting in a variety of settings. Weekly sessions will provide specific pointers concerning intercultural and interlingual communication such as institutional discourse, power imbalances, ethics, perceptions of role and performance. Practice-oriented training will also be included to build the skill basis towards advancing to competent community interpreters.

Postgraduate 700 Level Courses

TRANSLAT 700 30 Points
Digital Translation - Level 9
Equips students with highly specialised theoretical and practical skills in audiovisual translation (AVT) and localisation. Develops specialised skills and knowledge needed to translate software, websites and audiovisual content. Covers the distinctive characteristics of digital texts. Develops the skills required to address the specific characteristics of digital source texts. Students will be exposed to the latest scholarship and develop an advanced critical understanding of localisation tools and tools to facilitate subtitling.
Restriction: TRANSLAT 715

TRANSLAT 712 30 Points
Computer-aided Translation (CAT) Tools
Introduces students to a wide range of computer skills for professional translators. Participants will learn how to set up an efficient professional IT environment and how to use software solutions to improve both the quality and the
productivity of their work. Special emphasis will be placed on the generation and management of domain-specific terminology. In addition, this course provides students with an overview of and hands-on experience in the use of market-leading translation memory systems, namely SDL Trados. 

Restriction: TRANSLAT 710, 723

TRANSLAT 713 30 Points
Community Translation and Interpreting
Equips students with translation and interpreting skills and knowledge needed to communicate public service information to multilingual and multicultural communities, for example, in healthcare and legal settings and in disaster scenarios. Provides training on terminology, note-taking and memory management complements the knowledge of professional ethics and community management. Students will become aware of wider social roles played by translators and interpreters.

Restriction: TRANSLAT 601, 602, 704, 706

TRANSLAT 715 30 Points
Audiovisual Translation
Equips students with theoretical and practical dimensions of audiovisual translation (AVT). Examines the rapid development of AVT in recent times that encompasses media and information accessibility needs for immigrants, the deaf and hard-of-hearing as well as the blind and visually impaired. Students will gain some hands-on experience of interlingual and intralingual subtitling, facilitated by technology.

Restriction: TRANSLAT 700

TRANSLAT 716 30 Points
Chinese Specialised Translation
Develops students’ competence in understanding and producing specialised texts in English and Chinese. Translate materials in a variety of subject areas, such as trade, tourism, science, medicine or finance, and in different text types. Emphasis is on longer texts that require the acquisition of subject knowledge and in-depth terminology research. Introduced to professional ethics.

Restriction: CHINESE 747, 748, TRANSLAT 300

TRANSLAT 717 30 Points
German Specialised Translation
Develops students’ competence in understanding and producing specialised texts in English and German. Translate materials in a variety of subject areas, such as trade, tourism, science, medicine or finance, and in different text types. Emphasis is on longer texts that require the acquisition of subject knowledge and in-depth terminology research. Introduced to professional ethics.

Restriction: GERMAN 747, 748

TRANSLAT 718 30 Points
Japanese Specialised Translation
Develops students’ competence in understanding and producing specialised texts in English and Japanese. Translate materials in a variety of subject areas, such as trade, tourism, science, medicine or finance, and in different text types. Emphasis is on longer texts that require the acquisition of subject knowledge and in-depth terminology research. Introduced to professional ethics.

Restriction: TRANSLAT 747

TRANSLAT 719 30 Points
Translation Theories and Paradigms
A critical analysis of key theories and paradigms of translation. The examination of a broad range of perspectives will facilitate the awareness that the act and the process of translation are multifaceted. These encompass history, culture, gender and technology as well as translation competence. Analysis and applies different paradigms to translation phenomena.

Restriction: TRANSLAT 702, 703

TRANSLAT 720 30 Points
Translation Portfolio - Level 9
A practical application of the student’s prior learning in key paradigms and issues in translation studies, presented in the form of a learning portfolio. Portfolios will contain five pieces of advanced translation work, involving at least three different text types (scientific, technical, legal, medical, literary etc). Students may choose different levels of human-intervention, ranging from post-editing of machine translated texts to transcreation.

Prerequisite: TRANSLAT 712, 719 and 30 points from FRENCH 720, ITALIAN 702, MĀORI 712, SPANISH 723, TRANSLAT 716, 717, 718, 726

TRANSLAT 725 15 Points
Research Essay
A supervised research essay or project on a specific topic in Translation Studies.

TRANSLAT 726 30 Points
TRANSLAT 726A 15 Points
TRANSLAT 726B 15 Points
Translation Project - Level 9
A supervised research project on a topic in Translation Studies.

To complete this course students must enrol in TRANSLAT 726 A and B, or TRANSLAT 726

TRANSLAT 727 45 Points
TRANSLAT 727A 22.5 Points
TRANSLAT 727B 22.5 Points
Translation Project
A supervised research project on a topic in Translation Studies.

To complete this course students must enrol in TRANSLAT 727 A and B, or TRANSLAT 727

TRANSLAT 728 15 Points
Special Topic

TRANSLAT 729 15 Points
Special Topic

TRANSLAT 777 30 Points
Study Abroad
Formal study in an approved overseas university. Supplementary study at the University of Auckland may be required as part of this course. The final grade will be determined by formal assessment of student achievement by the Programme Coordinator. Enrolment requires the approval of the Programme Coordinator.

TRANSLAT 778 30 Points
Study Abroad
Formal study in an approved overseas university. Supplementary study at the University of Auckland may be required as part of this course. The final grade will be determined by formal assessment of student achievement by the Programme Coordinator. Enrolment requires the approval of the Programme Coordinator.

Faculty of Business and Economics

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Accounting

Stage I

ACCTG 101 15 Points

Accounting Information
Business decisions require accounting information. This course examines the analysis and interpretation of general-purpose financial statements. It assesses financing and investment decisions and covers the role of accounting information to support planning and control.

ACCTG 102 15 Points

Accounting Concepts
Basic principles and concepts of accounting that underlie the production of information for internal and external reporting. This course provides the technical platform for second year courses in financial and management accounting, finance, and accounting information systems. Prerequisite: ACCTG 101 or BUSINESS 114

ACCTG 151G 15 Points

Financial Literacy
People who understand the basic principles of finance are likely to get much more mileage out of their money – whether spending, borrowing, saving or investing – than those who do not. Develop an understanding of how to be in control of spending and saving; understand borrowing; make informed investment decisions; know broadly what to insure and what not to; recognise scams and consider whether money is the key to happiness.
Restriction: May not be taken by students with a concurrent or prior enrolment in Accounting or Finance courses

Stage II

ACCTG 211 15 Points

Financial Accounting
The study of financial accounting principles within New Zealand, to enable students to: (i) understand how they are developed and influenced; (ii) understand and apply New Zealand Financial Reporting Standards; (iii) report the results of complex business structures involving multiple entities and segments. Completing students will understand the role financial statements play in investment, analysis and contracting decisions, providing a base for advanced study and supporting other areas, particularly finance. Prerequisite: ACCTG 102

ACCTG 221 15 Points

Cost and Management Accounting
Budgets and standards, costing systems, cost information for decision-making and control, performance appraisal, and contemporary related issues. Prerequisite: ACCTG 102

ACCTG 222 15 Points

Accounting Information Systems
Encompasses the development and distribution of economic information about organisations for internal and external decision-making. Major themes include: objectives and procedures of internal control, the database approach to data management, data modelling, typical business documents and reports and proper system documentation through data flow diagrams and flowcharts. Prerequisite: ACCTG 102, INFOSYS 110

Stage III

ACCTG 300 15 Points

Directed Study

ACCTG 311 15 Points

Financial Accounting
Explanatory and prescriptive theories of accounting provide the context for an examination of the determinants of financial reporting practice in New Zealand with special reference to accounting for pensions, foreign currency, deferred tax and financial instruments. Issues in international accounting and professional ethics are also addressed. Prerequisite: ACCTG 211

ACCTG 312 15 Points

Auditing
An introduction to the audit of financial statements. The objective of an audit is to add credibility to the information contained in the financial statements. Emphasises the auditor’s decision-making process in determining the nature and amount of evidence necessary to support management’s assertions. The end result of a financial statement audit is a report that expresses the auditor’s opinion on the fair presentation of the client’s financial statements. Prerequisite: ACCTG 211 or 292, and INFOMGMT 296 or 294 or ACCTG 222

ACCTG 321 15 Points

Strategic Management Accounting
A study of the design of revenue and cost management systems to facilitate strategic decisions. This includes activity-based costing and activity-based management. The learning environment is student-centred with the seminar leader’s role being that of facilitator rather than lecturer. Students work not only as individuals but also in teams. The learning environment is a combination of lectures, case studies and related readings. Prerequisite: ACCTG 221 or 291

ACCTG 323 15 Points

Performance Measurement and Evaluation
The design of performance measurement frameworks such as the Balanced Scorecard incorporating strategy maps and alignment principles. Methods of performance analysis will cover ratios, weighting systems and Data Envelopment Analysis. Evaluation principles and methods will include internal audit perspectives around project and programme evaluation, cost-benefit analysis, randomised control tests and value-for-money. Prerequisite: 30 points passed at Stage II
### ACCTG 331 - Revenue and Cost Management
15 Points
Revenue management concepts and techniques and their support by cost management systems are studied with particular reference to service organisations. The range of services encompasses both private and public sector organisations. Components include: yield management, pricing, linear programming, project management, valuation principles and methodologies.
Prerequisite: ACCTG 221 or 291

### ACCTG 371 - Financial Statement Analysis
15 Points
How is financial statement information used to evaluate a firm’s performance, risk and value? An opportunity to examine this question and to gain experience in evaluating performance, assessing risk and estimating value.
Prerequisite: FINANCE 251 or 261, and ACCTG 211 or 292

### Postgraduate 700 Level Courses

#### ACCTG 701 - Research Methods in Accounting
15 Points
The theory and application of modern research methods in accounting. The content will include the philosophy, process and design of scientific research. Prior knowledge of basic statistical techniques is assumed.
Restriction: FINANCE 701

#### ACCTG 702 - Governance Issues in Accounting
15 Points
An introduction to the economic literatures relating to property rights, transaction cost economics, and agency theory. Application of these notions to the way in which organisations are structured. Identification of why some transactions are internalised and some are undertaken through markets. The application of these ideas to financial and managerial accounting.
Restriction: FINANCE 702

#### ACCTG 703 - Directed Study
15 Points

#### ACCTG 711 - Financial Accounting Research
15 Points
A study of the contracting-cost theories of accounting policy choice and the related empirical literature. It focuses on agency and efficient contracting explanations for accounting choice. In particular, the course explores the role of accounting in contracts between parties to the firm (e.g., manager, shareholders, debtholders, customers etc.). The political process is also analysed to determine the impact on accounting policy choice. Incentives for managers to manipulate earnings under various economic settings are examined and the implications of this behaviour for accounting policy makers are analysed.

#### ACCTG 714 - Contemporary Auditing Research
15 Points
An examination of the theoretical and empirical literature relating to the demand and supply of auditing, theoretical support for auditing activity, measures of audit quality and related topics.

#### ACCTG 721 - Research in Management Control
15 Points
Provides an insight into the theoretical and empirical literature relating to management planning and control in private and public sector organisations. Explores the relationship between strategy, organisation design, performance measurement and evaluation, application of productivity analysis and Data Envelopment Analysis.

#### ACCTG 722 - Research in Revenue and Cost Management
15 Points
An examination of revenue and cost management arising from changes in competitive environments. Includes recent research on the design of revenue and cost management systems including developments such as theory of constraints in manufacturing, service and public sector organisations.

#### ACCTG 771 - Accounting Information and Capital Markets
15 Points
The study of issues in evaluating accounting information and the use of accounting information by investors and analysts. This includes the examination of the empirical relationship between accounting earnings and share prices and the relationship between financial statement analysis and market efficiency. Perceived market failures will be analysed.

#### ACCTG 780 - Special Topic: Sustainability Accounting and Integrated Reporting
15 Points
Examines the theoretical and empirical literature on the role of sustainability accounting and integrated reporting and the determinants for the supply and demand for non-financial reporting and how this has evolved over time.

#### ACCTG 781 - Special Topic: Efficiency and Productivity Measurement
15 Points
Productivity and efficiency are core fundamentals across the spectrum encompassing individuals, organisations and economies. This course provides a theoretical structure for efficiency and productivity measurement and examines empirical models for estimating efficiency and productivity and analysing their underlying determinants.

#### ACCTG 782 - Special Topic
15 Points

#### ACCTG 786 - Special Topic
15 Points

#### ACCTG 788 - Research Project - Level 9
30 Points
Restriction: ACCTG 789

#### ACCTG 791 - Dissertation - Level 9
60 Points
To complete this course students must enrol in ACCTG 791 A and B, or ACCTG 791

#### ACCTG 794A - Thesis - Level 9
30 Points
To complete this course students must enrol in ACCTG 794 A and B
ACCTG 796A 60 Points
ACCTG 796B 60 Points
Thesis for MCom - Level 9
To complete this course students must enrol in ACCTG 796 A and B

Business

Stage I

BUSINESS 111 15 Points
Understanding Business
Business involves creating and capturing different forms of value for diverse stakeholders. Considers customers and markets, and the wider context within which business operates. Develops an understanding of innovation and entrepreneurship and how to manage people. Develops personal and professional capabilities needed in business, including strategies to manage self and work effectively with others.
Restriction: BUSINESS 101, MGMT 101

BUSINESS 112 15 Points
Managing Sustainable Growth 1
Develops understanding of how to manage people, processes and resources for the benefit of business and society. Focuses on the decisions and trade-offs involved in growing a business, managing customer relationships, and competing in international markets. Explores strategies to enhance productivity and ensure sustainability, and how legal tools can be used to protect value.
Prerequisite: BUSINESS 101 or 111
Restriction: BUSINESS 102, 113, MGMT 101

BUSINESS 113 15 Points
Managing Sustainable Growth 2
Develops understanding of how to manage people, processes and resources for the benefit of business and society. Focuses on innovation and entrepreneurship, growing a business, managing customer relationships, and competing in international markets. Explores strategies to enhance productivity and ensure sustainability, and how to protect value. Develops professional capabilities by engaging students in assessing a "real world" case and proposing solutions and recommendations.
Prerequisite: A B+ or higher in BUSINESS 101 or 111 and at least a Merit average across 16 credits in NCEA Level 3 Business Studies, a B grade or higher in CIE Business Studies, or 4 out of 7 in Business Management (HL) in IB
Restriction: BUSINESS 102, 112, MGMT 101

BUSINESS 114 15 Points
Accounting for Decision Making
Examines how understanding financial, non-financial and legal information is critical to business decision making. Considers the accounting and legal requirements, issues and mechanisms that impact management of an organisation. Develops skills in analysing, interpreting and communicating accounting information.
Restriction: ACCTG 101

BUSINESS 115 15 Points
Economics, Markets and Law
Considers how the economic and legal environment affects individuals, businesses, markets and the global economy. Explores the meaning and impact of price fluctuations, interest rate changes, exchange rate movements and balance of payments problems, standard of living comparisons, regional trading agreements, and regulatory and legal mechanisms and constraints.
Restriction: ECON 101, 111, 151, 151G, 191

BUSINESS 151 15 Points
BUSINESS 151G 15 Points
Communication in a Multicultural Society
Communication knowledge and skills are essential in business careers and for interpersonal and intercultural relationships. This course offers a theory-based approach combined with applied communication practices. Communication knowledge, competencies and skills are developed through exploring relationships, mediated communication, writing, team dynamics, oral presentation and technologies.
Restriction: BUSINESS 101 or 111
Restriction: BUSINESS 101, 111, 291, MGMT 291

Stage II

BUSINESS 200 15 Points
Understanding Business Context
Equips students with an appreciation of the forces and actors at work beyond the market. In order to compete in the marketplace firms need to understand their nonmarket context - culture, law, regulations, politics and the physical environment - which all affect business opportunities and strategies. In turn, businesses can influence their environment, both through deliberate nonmarket strategies and as a result of their core operations.
Prerequisite: 15 points from BUSINESS 102, 112, 113, MGMT 101
Restriction: INTBUS 210, MGMT 231

BUSINESS 201 15 Points
Special Topic

BUSINESS 202 15 Points
Business Consulting
Teams will apply multidisciplinary knowledge to solve complex problems in business scenarios. Builds skills in interpreting and presenting business information, project management, ethical decision-making and working in teams. Develops and advances core knowledge, including goals and strategy, organisational culture and structure, marketing, legal analysis, operations and supply chain management, within a dynamic macroeconomic environment.
Prerequisite: 45 points from BUSINESS 112, 113, 114, 115 or ECON 152

BUSINESS 210 15 Points
Study Abroad 2A
Course taken at an approved academic institution abroad.
Prerequisite: Academic Head or nominee approval

BUSINESS 211 15 Points
Study Abroad 2B
Course taken at an approved academic institution abroad.
Prerequisite: Academic Head or nominee approval

BUSINESS 291 15 Points
Communication Processes
Employers are demanding business school graduates with strong communication skills. Covers the theory and process of communication in today's knowledge and information intensive organisations. Develops oral and written communication skills, including professional presentations. Focuses on the role of interpersonal and
team-based communication in building more effective business relationships.

Prerequisite: 15 points from BUSINESS 102, 112, 113, 192, MGMT 101, 192
Restriction: MGMT 291

Stage III

BUSINESS 300 15 Points
Directed Study

BUSINESS 301 15 Points
Special Topic: Future17
Students will collaborate in international teams with peers across several universities to diagnose and propose innovative solutions to challenges presented by third-party organisations that fit within the United Nations Sustainable Development Goals. Skills in interdisciplinary and intercultural collaboration and Design Thinking are developed alongside academic mentors and third-party professionals. The course is delivered in collaboration with global Future17 partner universities.

BUSINESS 302 15 Points
Special Topic

BUSINESS 303 15 Points
Special Topic

BUSINESS 307 15 Points
Project Management and Report Writing
Develops knowledge and skills in project management and report writing which will underpin BUSINESS 308 Internship and Report.
Prerequisite: BUSINESS 309, INNOVENT 201, 303

BUSINESS 308 30 Points
Internship and Report
Develops practical knowledge and hands-on experience through a supervised internship and project in an innovative, entrepreneurial organisation.
Prerequisite: BUSINESS 309, INNOVENT 201, 303

BUSINESS 310 15 Points
Study Abroad 3A
Course taken at an approved academic institution abroad.
Prerequisite: Academic Head or nominee approval

BUSINESS 311 15 Points
Study Abroad 3B
Course taken at an approved academic institution abroad.
Prerequisite: Academic Head or nominee approval

BUSINESS 312 15 Points
Study Abroad 3C
Course taken at an approved academic institution abroad.
Prerequisite: Academic Head or nominee approval

BUSINESS 328 15 Points
Special Topic
Prerequisite: 30 points in Management or International Business or Innovation and Entrepreneurship
Restriction: BUSINESS 309

BUSINESS 350 15 Points
Business Simulation
An integrated team-based capstone experience based on a business simulation requiring students to demonstrate their ability to work collaboratively as they engage in strategic decision-making.
Prerequisite: BUSINESS 202 and 30 points at Stage III from BCom courses
Restriction: BUSINESS 351-353

BUSINESS 351 15 Points
Industry Case
A challenging ‘real world’ business case project requiring demonstration of personal and professional skills as teams assess a situation, propose solutions and communicate recommendations.
Prerequisite: BUSINESS 202 and 30 points at Stage III from BCom courses
Restriction: BUSINESS 350, 352, 353

BUSINESS 352 15 Points
Internship and Report
A project-based internship with a company or other appropriate organisation requiring written and oral reports of findings.
Prerequisite: BUSINESS 202 and 30 points at Stage III from BCom courses
Restriction: BUSINESS 350, 351, 353

BUSINESS 353 15 Points
Research Project
Prerequisite: BUSINESS 202 and a Grade Point Average of 6.0 or higher in 30 points at Stage III from BCom courses
Restriction: BUSINESS 350, 351, 352

Postgraduate 700 Level Courses

BUSINESS 704 15 Points
Quantitative Research Methods
Students will become familiar with underlying theory and current best practice in quantitative research through discussion and application of topics including measurement, design (including survey design), and computer-based data analysis.
Prerequisite: BUSINESS 710
Restriction: MKTG 703, 704

BUSINESS 705 15 Points
Qualitative Research Methods
Students will become familiar with current theory and practice as well as methodological debates in the use of qualitative methodologies, including ethnography, case studies, archival research, participant observation, interview and focus group methods, as well as transcription and analysis. A workshop on coding qualitative data will be included.
Prerequisite: BUSINESS 710 or PSYCH 744
Restriction: MKTG 703, 704

BUSINESS 707 15 Points
Conducting Research
The pursuit of new knowledge requires the ability to recognise and design appropriate and robust research studies. Students explore the principles and practices of research design, including the fundamentals of where knowledge comes from; if and to what degree we can be certain about our findings; the ethics of research activities; and how a topic might be investigated from multiple approaches and philosophical perspectives.
BUSINESS 711

**Advanced Quantitative Research Methods**
An advanced seminar on recent developments in the application of quantitative methods in business research.  
*Prerequisite: BUSINESS 704, 710, or Head of Department approval*

BUSINESS 712

**Advanced Qualitative Research Methods**
An advanced seminar on recent developments in the application of qualitative methods in business research.  
*Prerequisite: BUSINESS 705, 710, or Head of Department approval*

---

**Business Accounting**

**Postgraduate 700 Level Courses**

BUSACT 701

**Commercial and Corporate Law**
Examines the impact of the law on decision making and management of an organisation. Develops the ability to identify legal requirements, issues and mechanisms critical to managing the risk/reward profile of the firm and achieving its strategic objectives.  
*Prerequisite: BUSMGMT 731-733, 735*

BUSACT 702

**Accounting Information Systems - Level 9**
Independently manages applied accounting information projects using specialised and advanced problem-solving skills. Students will research and critically assess major information risks and opportunities facing businesses, demonstrating an integrated understanding of relevant theories and approaches. Students will provide well-justified recommendations to address the issues identified to improve company decision making.  
*Prerequisite: BUSMGMT 731-733, 735*

BUSACT 703

**Taxation for Business**
Provides an overview of the Income Tax Act and the Goods and Services Tax Act and how they are relevant to taxpayers. Topics covered include the nature of income, taxation of common types of income, the deduction and prohibition of various types of expenses, tax accounting issues, provisional tax, rebates, PAYE system, tax returns, and an introduction to GST.  
*Prerequisite: BUSMGMT 731-733, 735*

BUSACT 704

**Auditing for Business**
Provides an understanding of the audit of financial statements that lends support to their credibility. Emphases will be on the audit process, including the planning stage to the issuing of the audit opinion.  
*Prerequisite: BUSMGMT 731-733, 735*

BUSACT 705

**Capstone Project for MProfAcctg - Level 9**
Provides opportunities to extend and integrate the understanding of theoretical and practical issues in accounting through a ‘real-world’ business case. Involves the assessment of risk, cost of capital, financial analysis of performance, forecasting, and the development of recommendations for change and/or improvement.  
*Prerequisite: BUSMGMT 731-733, 735*

---

**Stage I**

BUSAN 100G

**Digital Information Literacy**
Introduces students to skills, technologies, and techniques for the effective use of digital information. Information in all spheres of personal and professional life is increasingly created, stored, analysed, exchanged and communicated in digital forms. Digital information literacy will help students be more productive in the digital age.  
*Restriction: Cannot be taken with or after INFOSYS 110-345*

**Stage II**

BUSAN 200

**Business Analytics**
An introduction to the science of fact based, data driven, decision making, exposure to different approaches, support tools, and analytical methods for decision making, particularly using spreadsheets, reinforcement of critical thinking skills and the ability to intelligently use information; and development and integration of modelling skills in a variety of decision-making-oriented applications.  
*Prerequisite: 15 points from ECON 221, ENGGSCI 211, STATS 101, 108, and 15 points from COMPSCI 101, 107, 130, INFOMGMT 192, INFOSYS 110  
*Restriction: INFOMGMT 290*

BUSAN 201

**Data Management**
Rapid advancements in computing power and data storage capacity has changed how digital data is created, stored, consumed, and managed. As a result, business data exists in many formats and representations. Students will be equipped with contemporary data management tools and exploratory techniques to realise the value of data as a business asset.  
*Prerequisite: 15 points from COMPSCI 101, 107, 130, INFOMGMT 192, INFOSYS 110  
*Restriction: INFOMGMT 292*

**Stage III**

BUSAN 300

**Data Wrangling**
Organisations are increasingly adopting big data analysis, predictive analytics, social data mining, and deep machine learning to gain business intelligence and insight. The value of such technologies relies on having high-quality data, yet raw data is messy and its transformation to add value is often neglected. Students will explore a data wrangling toolbox to add value to data.  
*Prerequisite: 15 points from BUSAN 201, INFOMGMT 292, INFOSYS 222  
*Restriction: INFOMGMT 390*

BUSAN 301

**Data Visualisation**
Visual representations of data enable complex ideas to be communicated clearly and effectively. Covers how to better engage decision makers via data visualisation. Focusses on transforming data into visual digital narratives using modern visualisation tools.  
*Prerequisite: 30 points from BUSAN 200, 201, ECON 221, INFOMGMT 290-296, INFOSYS 220-280, STATS 208, 255  
*Restriction: INFOMGMT 392*
BUSAN 302 15 Points
Big Data and Machine Learning
Provides essential skills to build data-driven digital innovations that augment business decisions. This involves identifying problems faced by different groups of individuals from different spheres of life, analysing the problem space and data needs, building a prototype for a selected design, and using machine learning tools and cloud-based big data analytics.
Prerequisite: BUSAN 200 and 15 points from BUSAN 201, INFOMGMT 292, INFOSYS 222
Restriction: INFOMGMT 393, INFOSYS 330

BUSAN 303 15 Points
Special Topic

BUSAN 305 15 Points
Simulation Modelling
Uncertainty exists in all management decisions and simulation is used for analysing systems in industry. This course focuses on modelling real-world problems using a commercial simulation tool. Industrial case studies will motivate the content of the course. Topics include the simulation process, general queue modelling, modelling networks (computer or transportation networks) and simulating operations (machine scheduling or assembly line modelling). The emphasis is on "learning by doing".
Prerequisite: 15 points from BUSAN 200, ECON 221, ENGSCI 255, INFOMGMT 290, OPSMGMT 255, 258, STATS 201-290
Restriction: OPSRES 385

BUSAN 306 15 Points
Directed Study

BUSAN 307 15 Points
Professional Business Analytics
Focuses on the design and development of end-to-end analytics solutions to business problems. Engages students in issues and challenges relating to problem definition, selection of data analytics tools and techniques, and strategies for ensuring the effective communication of data insights to stakeholders. Develops strategic mindset and teamwork skills.
Prerequisite: BUSAN 201 and 301 and 15 points from BUSAN 200, ECON 221, STATS 208, 255

Business Development

Postgraduate 700 Level Courses

BUSDEV 711 15 Points
Business in a Changing World
Examines the implications of disruptive technologies such as AI, blockchain and deep learning. Focuses on enabling managers to understand various disruptive trends such as aging populations, global shifts in economic power and urbanisation. Analytical tools, concepts and perspectives are provided which help managers analyse and put forward recommendations on how to navigate disruptive trends and technologies.

BUSDEV 712 15 Points
Financial Management
Develops an understanding of the financial implications of the decisions managers make and methods for ensuring clear communication of those decisions to various primary and secondary stakeholders. Fundamental techniques and tools required to manage finances and accounts are examined including assessing business feasibility, identifying suitable sources of financing and effectively communicating financial performance information.
Restriction: BUSADMIN 765, 775

BUSDEV 713 15 Points
Sustainable Value Chains
Examines the reasons for creating value for multiple stakeholders, while striking a balance between growth and sustainability in private and public organisations. Examines the ways in which sustainable value is created through effective and efficient operations, information systems, and supply chain management. Focuses on process design for productivity and sustainability, particularly in uncertain and complex business contexts.
Restriction: BUSADMIN 766, 776

BUSDEV 714 15 Points
Managing Creativity and People
Examines creativity as a process of creating something novel or imaginative that leads to innovation. Focuses on collaborative and process-based approaches to managing organisational creativity. Explores how businesses can create environments and incentives which stimulate and encourage creativity and innovation.

BUSDEV 715 15 Points
Contemporary Marketing
Examines highly dynamic business environments and how ongoing digital transformation creates dramatic changes in the role of marketing. Develops an understanding of how collaboration with various stakeholders (e.g. customers, partners and competitors) can create and sustain value. Focuses on the theory and practice of contemporary marketing.
Restriction: BUSADMIN 762, 772

BUSDEV 721 15 Points
Innovation Management and Strategy
Examines various sources of innovation and the capabilities, processes and challenges of managing innovation and embedding it across an organisation. Focuses on the process of formulating innovation strategy and common elements of innovation strategies.

BUSDEV 722 15 Points
Product Management
Considers the product manager’s role in developing and leading product strategy, managing a product portfolio, and helping to foster innovation. Develops capabilities to foster collaboration between functions, manage projects, develop persuasive business cases, and manage products throughout their lifecycle.

BUSDEV 723 15 Points
New Product Development Processes
Develops the knowledge and capabilities to lead new product development processes and launch products into the market. Examines practices for customer insight, design, prototyping, product planning, and go-to-market strategies.

BUSDEV 724 15 Points
Designing for Sustainability
Addresses challenges in designing for sustainability, including lifetime and disposal costs, environmental and social impacts, compliance issues, and tensions between corporate responsibility and profit generation. Explores contemporary topics like eco-innovation, circular economy, and social enterprise.
BUSDEV 731  
**Business Analytics**  
Addresses the conditions of uncertainty under which more traditional methods of business analytics cannot always be applied. Explores how effective business analysis requires a systematic and multi-disciplinary approach to help drive business success. Examines various analytical methods to aid managerial decision making.  
*Restriction: COMENT 708*

BUSDEV 732  
**Commercialising Technology**  
Develops frameworks to help managers understand and analyse the different stages of bringing technology to market and the associated risks and challenges. Examines how organisations set technology and commercialisation strategies and objectives and effectively manage portfolios of projects.  
*Restriction: COMENT 703*

BUSDEV 733  
**Turning Technology into IP**  
Clarifies the process of turning technology into intellectual property. Focuses on the different approaches, methods and processes to identify, evaluate and progress technology into intellectual property.  
*Restriction: COMENT 703*

BUSDEV 734  
**Technology Entrepreneurship**  
Focuses on the identification and management of strategic opportunities. Provides skills and knowledge to help managers and entrepreneurs to exploit science-based opportunities. Explores practices through which entrepreneurial action can create and capture value in new and established ventures.  
*Restriction: COMENT 704*

BUSDEV 741  
**Strategy in a Disruptive Age**  
Develops understanding of the nature of digitalisation, globalisation and other disruptive forces that are causing unprecedented changes in the business environment, irrespective of sector or geography. Focuses on the skills and knowledge managers require to craft and implement effective business strategies in quickly shifting conditions.

BUSDEV 742  
**Competing Globally**  
Considers the necessity for New Zealand businesses to engage in business internationally and examines growth opportunities in global markets. Focuses on improving skills and knowledge for analysing international business environments, understanding cultural differences, and operating successfully in foreign markets.

BUSDEV 743  
**Managing Change**  
Examines the challenges arising from businesses growth, and the consequential impact of change on which the design, culture and business processes of an organisation. Explores the implications of change and change management practices on internal and external stakeholders. Develops the skills and knowledge to help managers understand, plan and successfully navigate organisational changes.

BUSDEV 744  
**Leading Business Growth**  
Explores the conditions under which traditional decision making methods and approaches are ineffective. Examines alternative approaches to leading business growth under uncertainty. Explores how to engage and manage stakeholders in communicating and executing high-impact decisions.

BUSDEV 780  
**Personal and Team Leadership**  
Focuses on developing personal and team leadership capabilities within complex, uncertain and creative business contexts. Provides tools and techniques to develop leadership capabilities and self-awareness. Engages students in personal development experiences which enable them to reflect on their strengths and weaknesses and encourages approaches to leadership that are well-suited to current and future work contexts.  
*Prerequisite: 60 points from BUSDEV 711-715, 721-724, 731-734, 741-744*

BUSDEV 781  
**Managing Collaborative Projects - Level 9**  
Focuses on managers’ responsibilities and challenges when leading, organising and working within collaborative projects. Explores and evaluates various distributed collaboration tools used to establish and manage project teams. Planning, control, and execution models for business development projects are reviewed and critiqued. Develops skills in the facilitation and effective management of complex collaborations and project team-dynamics within and beyond organisational boundaries.  
*Prerequisite: 60 points from BUSDEV 711-715, 721-724, 731-734, 741-744*

BUSDEV 782  
**Capstone Project - Level 9**  
Working with a client's real-world and real-time problem, students will choose, integrate, and apply theories, frameworks and tools to understand the problem, and subsequently generate and iterate possible solutions. Plans, reports and presentations will be produced and communicated with the intention of informing and influencing clients and affected stakeholders.  
*Prerequisite: BUSDEV 781 and 60 points from BUSDEV 711-715, 721-724, 731-734, 741-744*  
To complete this course students must enrol in BUSDEV 782 A and B, or BUSDEV 782
from an applied finance perspective. Explores the impact of consumers, firms, markets, and institutions on the macro-economy. Analyses economic data to evaluate the impact of contextual factors on business.

**BUSFIN 702**  
**Financial Markets Law**  
Develops a critical awareness of company regulatory legislation in the New Zealand environment including ethical and social considerations. Evaluates legal issues and their impact on capital decision-making in the wider economic environment. Considers the wider regulatory environment including Te Tiriti o Waitangi/Treaty of Waitangi.

**BUSFIN 703**  
**Corporate Finance**  
Assesses the role and relationships of a financial manager with both internal and external stakeholders in different types of organisations. Develops analytical skills to apply models and frameworks to evaluate, propose and justify solutions for corporate finance issues in areas such as valuation of a firm, cost of capital, capital budgeting, and capital structure.

**BUSFIN 704**  
**Investment Decision-making**  
Analyses the investment decision-making process from the perspective of an investor. Evaluates the role of the equity market and concepts of risk and return in investment decision-making. Develops and applies analytical skills and models to implement effective investment strategies including diversification, optimal portfolio formation, and the management of fixed income securities.

**BUSFIN 705**  
**Financial Risk Management**  
Analyses the impact of a company’s exposure to financial risks, including exchange rate risk, interest rate risk, and other financial price risks. Develops skills and strategies to mitigate potential financial risk exposure, including the use of hedging policies that contain derivative instruments. Considers the impact of environmental and social factors in the development of corporate risk management strategies.

**BUSFIN 706**  
**Advanced Financial Management - Level 9**  
Critically evaluates the function of corporate financial management in a variety of organisation types from a range of stakeholder perspectives. Develops skills to address advanced financial management challenges in areas such as capital budgeting, valuation, capital structure, and mergers and acquisitions and applies these in strategic financial decision-making.

**BUSFIN 707**  
**Consultancy Practice**  
Focuses on the responsibilities and challenges of working in collaborative projects. Develops the skills required to engage in consultancy work. Engages students in problem framing, identifying and employing appropriate methodologies, and developing and presenting solutions to specific problems. Considers the dynamics of client-consultant relationships.

**BUSFIN 710**  
**Financial Modelling Techniques**  
Examines challenges in modelling uncertain financial outcomes and critically evaluates practitioner modelling tools available to financial analysts. Develops practical skills in designing and applying Excel-based financial models to solving common analytical problems in corporate finance and investment analysis.

**BUSFIN 711**  
**Financial Analytics Applications**  
Critically examines how advanced modelling features can be applied to obtain enhanced analytical insights from spreadsheet-based financial models. Develops skills in applying both non-programming (e.g., PowerBi, Alteryx) and programming (e.g., R, Python) based tools to real-world financial challenges. Applies these tools both to obtain analytical insight and communicate information effectively.

**BUSFIN 712**  
**Sustainable Finance**  
Examines the intersection between sustainability and finance. Appraises sustainability risks, social challenges, and the implications for companies. Develops analytical skills in the integration of economic, social, and governance (ESG) factors in corporate finance and investment applications.

**BUSFIN 713**  
**Climate Finance**  
Investigates the key debates in climate finance related to climate change. Evaluates the financial impact of climate change and climate-related risks. Critically evaluates strategies and modelling techniques used by financial market participants in the assessment of the impact of climate change.

**BUSFIN 714**  
**FinTech Applications**  
Explores the characteristics of the FinTech market and potential opportunities for the use of FinTech applications in finance. Develops and appraises FinTech strategies for informing and addressing finance issues related to corporate finance and addressing investment management.

**BUSFIN 715**  
**FinTech and Financial Intermediation**  
Investigates emerging FinTech trends in financial intermediation and evaluates strategies and tactics for financial intermediaries in the banking, real estate and insurance sectors. Critically examines current practices in FinTech from the multiple perspectives of a consultant, regulator, incumbent financial institutions and entrepreneur.

**BUSFIN 720**  
**Financial Analytics Industry Project - Level 9**  
Team-based applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences.  
**Prerequisite:** BUSFIN 706, 710  
**Corequisite:** BUSFIN 707

**BUSFIN 721**  
**Sustainable Finance Industry Project - Level 9**  
Team-based applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences.  
**Prerequisite:** BUSFIN 706, 712  
**Corequisite:** BUSFIN 707
BUSFIN 722 30 Points
FinTech Industry Project - Level 9
Team-based applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences. 
Prerequisite: BUSFIN 706, 712
Corequisite: BUSFIN 707

BUSFIN 723 30 Points
Financial Analytics Project - Level 9
Individual applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences. 
Prerequisite: BUSFIN 706, 710
Corequisite: BUSFIN 707

BUSFIN 724 30 Points
Sustainable Finance Project - Level 9
Individual applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences. 
Prerequisite: BUSFIN 706, 712
Corequisite: BUSFIN 707

BUSFIN 725 30 Points
FinTech Industry Project - Level 9
Individual applied finance consultancy project for a real-life client. Application of financial analysis tools and modelling techniques to construct and justify solutions that have an appreciation of ethical, regulatory, cultural and social issues. Written, visual and oral presentations to both technical and non-technical audiences. 
Prerequisite: BUSFIN 706, 712
Corequisite: BUSFIN 707

BUSHRM 710 15 Points
Consultancy Practice
Develops the tools and frameworks required to engage in consultancy work. Engages students in problem framing, identifying and employing appropriate methodologies, and developing and presenting solutions to specific problems. Considers the dynamics of client-consultant relationships. 
Prerequisite: BUSMGT 724, 751, 761, 762, with a B average or higher

BUSHRM 711 30 Points
Consultancy Project for HRM - Level 9
A research-informed consultancy project based on a human resource management internship with a company or other appropriate organisation with written and oral reports of the findings. 
Prerequisite: BUSMGT 724, 751, 761, 762, with a B average or higher

Business Information Analytics

Postgraduate 700 Level Courses

BUSINFO 700 15 Points
Analysis of Business Problems
Develops a managerial perspective on the use of small and big data in problem identification, analysis and decision-making. Explores big data strategies and develops an understanding of the business and industry context in which analytics professionals operate and how different parts of organisations interact.

BUSINFO 701 15 Points
Business Analytics Tools
Develops skills in programming and business intelligence applications using the most commonly applied software and freeware. Provides insights into data wrangling and focuses on using tools for problem-solving, including their application in a variety of business settings.

BUSINFO 702 15 Points
Information Management
Develops skills in the use of contemporary data management tools and the DataOps ecosystem to optimise the efficient storage of data. Emphasises data stewardship, including data governance and related ethical considerations. Explores behavioural, strategic and social issues related to data management software and tools to create agile data organisations.

BUSINFO 703 15 Points
Data Visualisation for Business
Develops skills in unsupervised machine learning techniques, e.g., cluster analysis, factor analysis, and text mining, which enable unstructured and structured data to be leveraged to provide insights. Uses storytelling and visualisation techniques to translate data patterns in order to inform managerial decision-making. 
Prerequisite: BUSINFO 700

BUSINFO 704 15 Points
Predictive Business Analytics
Provides insights into the most commonly used supervised
machine learning techniques, e.g., linear regression, logistic regression, random forest techniques, neural networks. Applies these techniques to model data for predicting relevant events. Addresses caveats of the techniques and how to evaluate model validity and outcomes.

BUSINFO 705 15 Points
Decision Analytics
Explores how business analytics can be used to improve business processes and decisions. The link between quantitative models and qualitative processes is explicitly explored. Decision biases are considered in the context of decision modelling. Monte Carlo simulation and optimisation are among the decision tools taught.

BUSINFO 706 15 Points
Customer and Market Insights
Develops customer and market insight capabilities through the use of machine learning applications such as prospect selection, churn modelling, customer segmentation and attribution modelling. Focuses on the use of CRM data and explores the contributions that survey data can make. Explores campaign management and other aspects of implementing the results of analytical projects.

Prerequisite: BUSINFO 704

BUSINFO 707 15 Points
Digital Machine Learning - Level 9
Synthesises academic marketing research findings with previously taught knowledge about analytics, the digital channel, marketing planning and practice in order to attain marketing strategic goals. Enables students to critically and independently evaluate alternative analytics and machine learning techniques and apply these insights to formulating solutions to challenges involving, for example, web scraping, network analyses, google analytics and machine learning techniques such as text mining and cluster analysis.

Prerequisite: BUSINFO 704

BUSINFO 708 15 Points
Supply Chain Optimisation
Uses key analytic modelling techniques to analyse and optimise supply chains. Topics include facility location, network design, and general logistics. Key trade-offs are explored, including that difference between efficiency and effectiveness. Uncertainty is modellled and shown to be key in supply chain design.

Prerequisite: BUSINFO 705

BUSINFO 709 15 Points
Supply Chain Analytics - Level 9
Synthesises learning from business analytics methodologies (e.g., multivariate data analysis, data mining, and network visualisation) taught in prior classes. Requires application of the latest supply chain research findings from the academic literature in developing practical business solutions, involving issues such as supplier selection and multi-sourcing. Develops skills and knowledge to independently and critically address open-ended and ill-defined challenges in Supply Chain Management including complex tactical supply chain management problems, including supplier selection, multi-sourcing.

Prerequisite: BUSINFO 704

BUSINFO 710 15 Points
Advanced Project Management
Develops advanced project management skills and readiness for the final business analytics industry project, including definition and formulation of KPIs, risk assessment, progress monitoring, process evaluation, and reporting. Students will apply these skills in the formulation of an industry project proposal.

BUSINFO 711 15 Points
Consultancy Practice
Develops professional skills in communication, case practice, interviewing, networking, and business etiquette. Enhances team and management skills including conflict management and cultural awareness and builds resilience.

BUSINFO 712 30 Points
Marketing Analytics Industry Project - Level 9
Marketing analytics consultancy project for a client company with written and oral presentation.
Prerequisite: BUSINFO 706, 707, 710

BUSINFO 713 30 Points
Supply Chain Analytics Industry Project - Level 9
Supply chain analytics consultancy project for a client company with written and oral presentation.
Prerequisite: BUSINFO 708-710

BUSINFO 714 30 Points
Marketing Analytics Project - Level 9
Individual marketing analytics consultancy project for a client company with written and oral presentation.
Prerequisite: BUSINFO 706, 707, 710

BUSINFO 715 30 Points
Supply Chain Analytics Project - Level 9
Individual supply chain analytics consultancy project for a client company with written and oral presentation.
Prerequisite: BUSINFO 708-710

BUSINFO 716 15 Points
Business Analytics for FinTech
Study of the intersection of finance and business analytics. Considers strategies for improving portfolio performance and valuation accuracy from the perspective of a trader or fund manager, and considers how outside investors and regulators can better detect fraud; uses business analytics tools to improve financial projections.
Prerequisite: BUSINFO 704

BUSINFO 717 15 Points
FinTech and Financial Intermediation - Level 9
Examines emerging FinTech trends in financial intermediation such as digital transformation and responsible innovation and evaluates strategies and tactics for financial intermediaries in the banking, real estate and insurance sectors. Critically examines current practices in FinTech from the multiple perspectives of a consultant, regulator, incumbent financial institutions and entrepreneur.
Prerequisite: BUSINFO 704

BUSINFO 718 30 Points
FinTech Analytics Industry Project - Level 9
Team-based FinTech analytics consultancy project for a client company with written and oral presentations.
Prerequisite: BUSINFO 710, 716, 717

BUSINFO 719 30 Points
FinTech Analytics Project - Level 9
Individual FinTech analytics consultancy project for a client company with written and oral presentation.
Prerequisite: BUSINFO 710, 716, 717
### Business International

**Postgraduate 700 Level Courses**

**BUSINT 710** 15 Points  
**Consultancy Practice**  
Develops the tools and frameworks required to engage in consultancy work. Engages students in problem framing, identifying and employing appropriate methodologies, and developing and presenting solutions to specific problems. Considers the dynamics of client-consultant relationships.  
Prerequisite: BUSMGT 724, 741, 751, 761 with at least a B average  
Restriction: BUSADMIN 729, 768, 777

**BUSINT 711** 30 Points  
**Consultancy Project for MintBus - Level 9**  
A research-informed consultancy project based on an international business internship with a company or other appropriate organisation with written and oral reports of the findings.  
Prerequisite: BUSMGT 724, 741, 751, 761 with at least a B average  
Restriction: BUSINT 703, 704

### Business Management

**Postgraduate 700 Level Courses**

**BUSMAN 701** 15 Points  
**Managing People and Organisations**  
Explores current management practices and the challenges of managing in contemporary organisations. Examines strategies for effective management and leadership to achieve performance and productivity improvements including change management processes.  
Restriction: BUSADMIN 761, 771

**BUSMAN 702** 15 Points  
**Contemporary Marketing**  
Develops an understanding of the contemporary marketing function and focuses on marketing decision-making, marketing strategy development and tactics. Examines the impact of new technology.  
Restriction: BUSADMIN 762, 772

**BUSMAN 703** 15 Points  
**Financial Decision-making**  
Focuses on decision-making, budgeting and the management of financial resources. Examines value creation from investments, and the management and control of financial assets.  
Restriction: BUSADMIN 765, 775

**BUSMAN 704** 15 Points  
**Supply Chain Management**  
Explores creating value through effective and efficient operations and supply chains for the production and delivery of products and services. Emphasises human, information and sustainability aspects.  
Restriction: BUSADMIN 766, 776

**BUSMAN 705** 15 Points  
**Strategic Human Resource Management**  
Explores how HR strategies can enhance organisational performance and employee well-being. Examines research on contemporary challenges in strategic HRM in domestic and multinational firms.  
Restriction: BUSADMIN 761, 771

**BUSMAN 706** 15 Points  
**Strategic Management**  
Examines the application of contemporary strategic management frameworks, processes and practices. Evaluates alternative approaches to the development of coherent solutions for an organisation’s strategic challenges.  
Restriction: BUSADMIN 729, 768, 778

**BUSMAN 707** 15 Points  
**Business Analytics**  
Restriction: BUSADMIN 763, 773

**BUSMAN 708** 15 Points  
**Innovation in Practice**  
Examines strategies for developing an innovation culture and capabilities that will enhance the agility of start-ups and small-to-medium-sized enterprises. Explores opportunity recognition, new product and venture development, risk management, venture financing, and the challenges of SME management.

**BUSMAN 709** 15 Points  
**Global Management - Level 9**  
Critically evaluates the use and application of tools and techniques for the creation and implementation of global management strategies in diverse types of enterprise. Assesses the effectiveness of global management practices in navigating complex and ill-defined contexts. Develops advanced capabilities in designing and communicating strategy.

**BUSMAN 710** 15 Points  
**Consultancy Practice**  
Develops the tools and frameworks required to engage in consultancy practice. Engages students in problem framing, identifying and employing appropriate methodologies, and developing and presenting solutions to specific problems. Considers the dynamics of client-consultant relationships.

**BUSMAN 720** 15 Points  
**Digital Marketing Strategies**  
Focuses on marketing strategy, planning, and implementation in a digital world. Discusses digital transformation and its impact on customer engagement and consumer behaviour. Builds critical skills in online data analytics.

**BUSMAN 721** 15 Points  
**Customer Insights**  
Develops a critical understanding of possibilities and limitations of customer insights-based marketing strategies and tactics. Explores the application of customer insights tools.

**BUSMAN 722** 15 Points  
**Digital Branding and Advertising**  
Explores how businesses communicate with customers and other key stakeholders through digital advertising and social media campaigns. Evaluates the effectiveness of advertising, sales promotion, public relations, personal selling, and direct marketing, in a digital world.  
Prerequisite: BUSMAN 702

**BUSMAN 723** 15 Points  
**Advanced Marketing Strategy**  
Examines current and emerging research in digital marketing and evaluates contemporary practice. Focuses
on the development, implementation and management of effective marketing strategies to attain and achieve a sustainable competitive advantage.

Prerequisite: BUSMAN 702

BUSMAN 730  
15 Points  
Human Resource Policy and Practice  
Evaluates the policies and practices involved in the core processes of HRM and builds students’ professional skills in assisting organisations to design and implement these policies and practices effectively.

BUSMAN 731  
15 Points  
Employment Law  
Analyses and applies the legal principles governing the employment relationship. Specific topics include bargaining, personal grievances, enforcement of employment contracts, strikes and lockouts, the rules regarding holidays, and health and safety obligations.

BUSMAN 732  
15 Points  
Human Resource Analytics  
Develops the tools and frameworks for gathering and analysing data on workforce skills, attitudes and behaviours and building models of how these variables influence business and employee outcomes.

BUSMAN 750  
30 Points  
BUSMAN 750A  
15 Points  
BUSMAN 750B  
15 Points  
Consultancy Project in Strategic Management - Level 9  
A research-informed consultancy project with a company or other appropriate organisation with written and oral reports of the findings.  
To complete this course students must enrol in BUSMAN 750 A and B, or BUSMAN 750

BUSMAN 751  
30 Points  
BUSMAN 751A  
15 Points  
BUSMAN 751B  
15 Points  
Consultancy Project in Digital Marketing - Level 9  
A research-informed consultancy project with a company or other appropriate organisation with written and oral reports of the findings.  
To complete this course students must enrol in BUSMAN 751 A and B, or BUSMAN 751

BUSMAN 752  
30 Points  
BUSMAN 752A  
15 Points  
BUSMAN 752B  
15 Points  
Consultancy Project in HRM - Level 9  
A research-informed consultancy project with a company or other appropriate organisation with written and oral reports of the findings.  
To complete this course students must enrol in BUSMAN 752 A and B, or BUSMAN 752

BUSMAN 771  
15 Points  
Business in Society  
Examines the role of business in society, how businesses interact with government and other institutions, and how businesses can contribute to solving the key challenges of the twenty-first century.

BUSMAN 772  
15 Points  
Organisations and Culture  
Explores the role that managers play in building the structure and culture of organisations. Examines key issues in organisational design, culture, behaviour and structures. Develops skills in managing multigenerational and multicultural workforces.

BUSMAN 773  
15 Points  
Effective Decision Making  
Techniques and tools to support and facilitate managerial decision-making. Builds skills in understanding organisations and their problems through numerical analysis.  
Restriction: BUSADMIN 763

BUSMAN 774  
15 Points  
The Global Economy and New Zealand  
Considers the nature of the global economy and the opportunities for small trading nations such as New Zealand. Examines key issues, global trade, and how governmental policies impact businesses. Explores how New Zealand can become a more productive and prosperous nation.

Business Management

Postgraduate 700 Level Courses

BUSMGT 707  
15 Points  
Professional Development  
Develops key interpersonal strategies and communication skills to become an agile, reflective professional and to manage the professional self effectively and cooperatively in a range of business environments. Enhances the emerging manager’s ability to lead and influence others in both cross-cultural contexts and uncertainty.

BUSMGT 708  
15 Points  
Communicating Business Insights  
Equips students with the ability to utilise data visualisation tools and techniques in crafting and adapting data communication strategies for different types of audiences. Develops critical evaluation of the presentation of data and the implications for ethical communication.

BUSMGT 711  
15 Points  
Managing People and Organisations  
Focuses on the foundations of organisational behaviour and managing within the workplace. Examines the challenges that managers and leaders face in managing people and organisations.

BUSMGT 712  
15 Points  
Principles of Business Analytics  
Focuses on fact-based and data driven-decision making in a volatile, uncertain, complex and ambiguous (VUCA) world. Introduces and examines tools and approaches to support decision making through an understanding of data and structured thinking.

BUSMGT 713  
15 Points  
Financial Reporting and Control  
Focuses on essential accounting knowledge for effective resource allocation and for quantifying, assessing, and communicating information about the health of the enterprise.

BUSMGT 714  
15 Points  
Economics for Managers  
Examines attributes and behaviours of consumers, firms, markets and institutions and their impacts on the macroeconomy. Focuses on the micro- and macro-economic aspects of market actors from a managerial perspective.
BUSMGT 716 15 Points
Strategy Capstone - Level 9
Examines the logics and processes of strategy formulation and implementation. The course involves extensive business situation case analysis and a 'real world' business project requiring creative and innovative recommendations typical for a capstone experience. 
Prerequisite: 60 points from BUSMGT 711–714 with at least a B- average

BUSMGT 717 15 Points
Strategic Management - Level 9
Advanced analysis of corporate and competitive strategy with a focus on innovation, diversification and strategic change. Uses a case-based approach to evaluate the strengths and limitations of different perspectives for creating an appropriate strategy.
Prerequisite: BUSMGT 711-714 with at least a B- average

BUSMGT 718 15 Points
Business Analytics
Focuses on fact-based and data driven-decision making in a volatile, uncertain, complex and ambiguous (VUCA) world. Examines decision biases and tools to overcome decision making under VUCA, particularly through critical and structured thinking.

BUSMGT 719 15 Points
Business Technology
Explores emerging technologies and how they impact on business strategies. Examines data-driven decision-making and develops an understanding of innovation culture and capabilities and how these can be harnessed to improve business outcomes.

BUSMGT 720 15 Points
Strategy Capstone Project
Advanced analysis of corporate and competitive strategy, spotlighting innovation, diversification, and strategic evolution. Assess various perspectives via case studies to devise fitting strategies. Explore strategy formulation and implementation through immersive case analysis and a 'real world' project.
Prerequisite: BUSMGT 711-714, 718 with at least a B- average

BUSMGT 724 15 Points
Global Operations Management - Level 9
Advanced analysis of global operations management. Evaluates the design, management, and improvement of operations in goods and services organisations and critiques strategies to improve global supply chain performance.
Prerequisite: 60 points from BUSMGT 711-714 with at least a B- average

BUSMGT 731 15 Points
Financial Reporting and Accounting
Provides overview of financial accounting principles within New Zealand and the understanding and application of New Zealand Financial Reporting Standards. Focuses on the role of financial statements play in investment, analysis and contracting decisions.
Prerequisite: 60 points from BUSMGT 711-714 with at least a B- average

BUSMGT 732 15 Points
Business Finance
Examines the functions of the markets for real and financial assets, and their valuation. Focuses on the various techniques that financial managers can create wealth for shareholders and stakeholders.
Prerequisite: 60 points from BUSMGT 711-714 with at least a B- average

BUSMGT 733 15 Points
Analysing Financial Statements - Level 9
Advanced analysis of financial statements and the assessments of an organisation's performance. Evaluates tools and techniques used to measure and assess risk and value through an applied project.
Prerequisite: 60 points from BUSMGT 711-714 with at least a B- average

BUSMGT 734 15 Points
Strategic Management Accounting
Critically analyses the role of strategic management accounting in facilitating strategic decision making and sustainable value creation. Evaluates strategic cost management tools and techniques, budgetary control systems and performance measurement through an applied project.
Prerequisite: 60 points from BUSMGT 711-714 with at least a B- average

BUSMGT 735 15 Points
Management Accounting
Design and management of revenue and cost management systems. Analysis of Budgets and standards, costing system, cost systems for decision-making and control, performance appraisal, and contemporary related issues.
Prerequisite: 60 points from BUSMGT 711-714 with at least a B- average

BUSMGT 741 15 Points
International Business Environment
Provides an understanding of macro-environment issues that businesses operating internationally face. Develops students' analytical thinking and decision making skills with the use of analytical tools and case studies.
Prerequisite: 60 points from BUSMGT 711-714 with at least a B- average
Restriction: INTBUS 723

BUSMGT 742 15 Points
International Trade and Finance
Provides an understanding of the trade and financial environments within which organisations operate. Focuses on the challenges organisations face when making business decisions with regard to international trade and finance.
Prerequisite: BUSMGT 711-714 with at least a B- average
Restriction: INTBUS 725

BUSMGT 743 15 Points
Competing in Asia - Level 9
Develops highly specialised knowledge about the changing institutional and business environments in key economies in the Asia-Pacific region. Requires independent research and analysis to critically evaluate the implications of such changes for innovation, business strategy and understanding customers.
Prerequisite: BUSMGT 711-714 with at least a B- average
Restriction: INTBUS 727

BUSMGT 745 15 Points
International Business Strategy
Explores strategic aspects of managing a firm in an international context. Emphasises the development of skills to understand and analyse the issues that firms face in operating in international markets and value chains, and
the emergence and development of business and corporate level international business strategy.

**BUSMGT 751**
Marketing Management
Focuses on the core concepts and principles of marketing theory and practice using examples from New Zealand and overseas.
Prerequisite: BUSMGT 711-714 with at least a B– average

**BUSMGT 752**
Understanding Consumers - Level 9
Examines the consumer perspective in marketing through application of theories and frameworks. Includes independent appraisal of research methods suitable for generating insights into business. Reviews current and emerging research in Consumer Behaviour to evaluate contemporary practice.
Prerequisite: BUSMGT 711-714 with at least a B– average

**BUSMGT 754**
Marketing Communications - Level 9
Analysis of the individual components of the marketing communications mix. Critically evaluates the role of marketing communications in supporting brand, product and service strategy.
Prerequisite: BUSMGT 711-714 with at least a B– average

**BUSMGT 755**
Strategic Digital Marketing
Examines current and emerging research in marketing communications and evaluates contemporary practice. Focuses on the effective integration of digital strategies in marketing planning, implementation and practice.
Prerequisite: BUSMGT 711-714 with at least a B– average

**BUSMGT 756**
Branding Strategy
Develops the essential frameworks and tools for operating in specialised marketing agencies such as advertising, branding, media, PR, or similar. Examines the work of marketing agencies, and equips students with a mobile repertoire of practical skills required by marketing agencies.

**BUSMGT 751**
International Human Resource Management
Examines the management of international workforces in multinational corporations. Explores the impact of culture on managing people in cross-border contexts.

**BUSMGT 752**
Human Resource Policy and Practice
Examines the factors that enable organisations to attract, keep and promote valued talent. Considers the role of technological developments in the definition and organisation of work and the implications for individuals and organisations. Explores principles of human talent management within a context that is constantly changing.

---

**BUSMKT 711**
Consultancy Project for MMktg - Level 9
A research-informed consultancy project based on a marketing internship with a company or other appropriate organisation with written and oral reports of the findings.
Prerequisite: BUSMGT 751, 752, 754, 756, with a GPA of 5.0 or higher
Restriction: BUSMKT 703, 704

---

**Business MBA**

**BUSMBA 700**
Coaching for Leadership
Develops skills to lead oneself, others and organisations in increasingly global, uncertain and complex business environments. Explores principles of effective leadership within a context that is constantly changing.

**BUSMBA 701**
Financial Return, Risk and Valuation
Examines factors that affect the value of real and financial assets and explores the relation between risk and return and its implications for asset values and the cost of capital. Includes coverage of models and techniques used for the valuation of real and financial assets.

**BUSMBA 702**
Managing Capacity and Inventory
Develops effective strategies for determining and allocating capacity and inventories to match supply and demand consistent with business strategy, cost factors, and uncertainty. Considers both manufacturing and services utilising perspectives from operations, accounting, and finance.

**BUSMBA 703**
Globalising Mindsets
Develops skills to navigate the complexities of the global business environment. Critically evaluates differences in regulation, culture and customs in formulating strategies to reach overseas customers and navigate different business systems.

**BUSMBA 704**
Managing Talent in the 21st Century
Explores the factors that enable organisations to attract, keep and promote valued talent. Considers the role of technological developments in the definition and organisation of work and the implications for individuals and organisations. Explores principles of human talent management within a context that is constantly changing.
BUSMBA 705  
**Approaches to Growth**  
Explores various strategic approaches to growth, drawing on strategic management and marketing. Develops skills to critically evaluate, develop and manage growth strategies that are appropriate for the given context.

BUSMBA 706  
**Innovating New Products and Services**  
Examines the processes that create successful new products and services and explores the development of appealing concepts, prototyping and testing, refinement, production and launch. Develops skills to create a refined concept for a new offering, and plans for processes required to execute its launch into the marketplace.

BUSMBA 707  
**Engaging Innovation Ecosystems**  
Provides a multi-disciplinary approach to build the practices of innovation, commercialisation, and corporate entrepreneurship. Examines the essential processes of open innovation, such as collaboration, knowledge sharing, and contracting.

BUSMBA 708  
**Leading and Managing Change**  
Critically evaluates the key determinants of successful organisational change including factors within the control of the change agent, including those that enable and constrain the actions of the change agent. Develops skills to initiate and manage change, and then to embed change in organisational systems and practices.

BUSMBA 709  
**Market Making and Market Shaping**  
Explores the factors that enable organisations to make and shape markets, drawing on the transdisciplinary science of systems theory. Develops skills to devise and implement strategies on a market or ecosystem level in uncertain and complex contexts.

BUSMBA 711  
**Organisational Resilience**  
Develops skills to critically assess current reality and understand ripple effects while scanning the horizon for long-term threats and opportunities. Develops skills to build individual and organisational resilience in a context that is volatile, uncertain, complex and ambiguous.

BUSMBA 713  
**Special Topic**  

BUSMBA 714  
**Special Topic**  

BUSMBA 720  
**Leading in Complexity**  
Develops skills for navigating the complex and changing workplace, to enable students to lead organisations positively, during uncertainty. Topics covered include leadership mindsets, leadership influence and leading in complex, changing environments. Draws on a range of theoretical backgrounds including psychological and management theories, and combines both international and Aotearoa leadership perspectives.

BUSMBA 721  
**Te Ao Māori Business**  
Investigates how to integrate Māori values into contemporary business practices through examining governance, tikanga, and the Māori economy. Emphasis is placed on sustainability, societal well-being, and principles like kaitiakitanga, social purpose, and long-term planning.

BUSMBA 722  
**Aotearoa NZ’s Unique Legal Landscape**  
Evaluates how New Zealand’s unique history shapes our legal and political environment, exploring how businesses can influence future policy and law-making. Through the lens of key areas of commercial law, business leaders learn to identify and critically evaluate significant business constraints and opportunities, thereby enabling more effective decision-making in both domestic and international contexts.

BUSMBA 723  
**Strategy in Dynamic Markets**  
Explores strategic approaches to sustainable growth in a VUCA (volatility, uncertainty, complexity, and ambiguity) world, focussing on problem-solving, effective positioning in existing markets and shaping of new markets. Develops skills to devise and implement strategies at organisation, ecosystem and market levels in uncertain and complex contexts. Practical examples are used to reinforce climate mitigation and circular economy practices to face and embrace 21st-century challenges.

BUSMBA 724  
**Navigating the Economic Environment**  
Develops analytical and critical thinking skills in contemporary economic issues, both international and domestic, including national goals, productivity growth, money and inflation, inequality, and the genesis of financial crises. Micro-economic skills in the theory of the firm, competition, and supply and demand are also covered. Practical insights are gained into international economics and domestic issues such as the Māori economy.

BUSMBA 725  
**Accounting & Finance**  
Develops finance and accounting skills covering topics such as interpreting financial statements, risk management, valuation techniques, financing, international finance, and fintech. Using case studies and real-world examples, students will develop practical skills in finance decision-making, including the importance of sustainable accounting and climate-related disclosures for ethical financial practices.

BUSMBA 726  
**Analytics for Business Decisions - Level 9**  
Develops a critical understanding of data science techniques. Students will be able to independently evaluate and identify sources of data, make high-level data-driven decisions, communicate specialised insights, and contribute to solving real-world problems.

BUSMBA 727  
**Delivering Value Through Operations**  
Explores operations and supply chain management, focusing on effective production and delivery of goods and services that meet customer needs. Examines how to improve operations and supply chains to support competitive positioning while considering factors such as uncertainty and environmental sustainability.

BUSMBA 728  
**Creating Value Through Innovation**  
Explores contemporary approaches that enhance innovation activities. Expands thinking about design and innovation beyond new products to other sources of value.
Course Prescriptions

### 2024 Calendar Faculty of Business and Economics

**Course Prescriptions**

**Prerequisite:** 90 points from BUSMBA 701-753 in informing management practice.

**Making Evidence-based Decisions under Uncertainty - Level 9**

Develops highly specialised knowledge about decision making within organisations. Requires the critical synthesis and appraisal of different types of expertise and evidence in informing management practice.

*Prerequisite: 90 points from BUSMBA 701-753*

**Supply Chain Management**

Using quantitative models and qualitative understanding, the course explores the essential components of global supply chains – inventory, logistics and transportation. Considers supply chain dynamics, risk management, collaboration, and sustainability, and the trade-offs inherent in supply chain decisions.

*Restriction: BUSMGT 772*

**Service Supply Chain Operations**

Examines both traditional and new approaches for achieving operational competitiveness in service businesses and their associated supply chains. Major service sectors such as healthcare, banking and financial services, transportation, tourism, and call centres are studied. Addresses both strategic analysis and operational decision making.

*Prerequisite: BUSINFO 705*

**Supply Chain Research Project - Level 9**

Examines supply chain management within the business environment through research of a supply chain management issue and the production of a written analytical research report that addresses that issue.

*To complete this course students must enrol in BUSSCM 703 A and B, or BUSSCM 703*

**Strategic Sourcing**

Considers analysis, planning, management, and improvement of the sourcing/procurement function in businesses. Special attention is given to supplier selection and relationship management, negotiation, co-ordination and collaboration, and supply chain financing. The course uses both qualitative and quantitative models.

*Restriction: BUSMGT 773*

**Supply Chain Integration**

Examines cross-functional and inter-organisational business processes, systems, technologies, small and big data analysis, integrated business planning, and partnerships to enhance supply chain performance. Considers analysis, design, implementation, and configuration.

*Prerequisite: BUSSCM 700*
### Course Prescriptions

**BUSSCM 707**
**Supply Chain Strategy and Design - Level 9**
An advanced analysis of the development and implementation of strategies for enhancing supply chain performance. Includes a critical evaluation of strategic issues, tradeoffs, performance metrics, human and financial aspects, and their relation to supply chain design/operation; and a critical reflection on the roles of sustainability and humanitarian logistics. Includes provision of a research-informed business case.

*Restriction: BUSMGT 775*

**BUSSCM 710**
**Supply Chain Consulting**
Develops the tools and frameworks required to engage in consultancy work. Engages students in problem framing, identifying and employing appropriate methodologies, and developing and presenting solutions to specific problems. Considers the dynamics of client-consultant relationships.

**BUSSCM 711**
**Supply Chain Consultancy Project - Level 9**
A research-informed consultancy project based on a supply chain management internship with a company or other appropriate organisation with written and oral reports of the findings.

*To complete this course students must enrol in BUSSCM 711 A and B, or BUSSCM 711*

### Commercial Law

#### Stage I

**COMLAW 101**
**Law in a Business Environment**
Decision makers in commerce and industry require an understanding of legal structures, concepts and obligations. Provides an introduction to the New Zealand legal system and the legal environment in which businesses operate, and also introduces legal concepts of property and the law of obligations, including detailed study of various forms of legal liability relevant to business.

*Restriction: BUSINESS 111, COMLAW 191*

<table>
<thead>

<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMLAW 101</td>
<td>15</td>
</tr>
</tbody>
</table>

#### Stage II

**COMLAW 201**
**Commercial Contracts**
Every business transaction involves a contract. Commercial Contracts examines the general principles of the law of contract including the process of formation of a contract, the interpretation of contractual terms and the various obstacles which may impede the enforceability of a bargain. Introduces the special features of contracts in digitally networked environments and issues relating to breach of contract and consumer protection.

*Prerequisite: COMLAW 101 or BUSMGT 775 or BUSINESS 114 and 115*

<table>
<thead>
<tr>
<th>Course Code</th>

</tr>
</thead>
<tbody>
<tr>
<td>COMLAW 201</td>
<td>15</td>
</tr>
</tbody>
</table>

**COMLAW 203**
**Company Law**
Companies are by far the most used vehicle for doing business and an understanding of the rules that govern them is essential for everyone involved in commerce and industry. Examines the nature of a company, incorporation and share capital, the concept of separate legal personality, how a company interacts with the world and the roles of the stakeholders in a company including directors and shareholders. A sound understanding will help decision makers to take the advantages of corporate structure while avoiding pitfalls and legal liability.

*Prerequisite: COMLAW 101 or 191 or BUSINESS 114 and 115*

*Corequisite: BUSINESS 112 or 113*

#### Stage III

**COMLAW 300**
**Directed Study**

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMLAW 300</td>
<td>15</td>
</tr>
</tbody>
</table>

**COMLAW 301**
**Taxation**
An introduction to the Income Tax Act and the Goods and Services Tax Act, with emphasis on developing an understanding of these types of tax as relevant to taxpayers. Specific topics include the nature of income, taxation of common types of income (such as wages, shares and land), the deduction and prohibition of various types of expenses, tax accounting issues (cash or accrual basis), provisional tax, rebates, PAYE system, tax returns and an introduction to GST.

*Prerequisite: COMLAW 201 or 203*

**COMLAW 303**
** Receiverships and Reconstructions**
A business in difficulty may fail or it may be rehabilitated. Receiverships and Reconstructions looks at aspects of business failure and near failure including informal workouts, formal business rescue regimes, company decision processes and personal bankruptcy. Students will develop the skills and expertise to operate in these fields.

*Prerequisite: COMLAW 203 or LAW 417*

**COMLAW 304**
**Business Structures for Enterprises**
Business advisers need to be familiar with a wide variety of business structures other than companies. Emphasis is on the most common of these including franchises, joint ventures, trading trusts, partnerships, unincorporated societies and State Owned Enterprises in order to ensure that advisers are familiar with their merits and legal consequences of utilising these structures.

*Prerequisite: COMLAW 203*

**COMLAW 305**
**Financial Markets Law**
Businesses need investment to grow. Many raise finance from the securities markets, in particular by listing on the Stock Exchange. Topics include raising money from the public and the rules relating to insider trading, market manipulation, disclosure obligations, takeovers and listing on the Stock Exchange and will benefit investment advisers and anyone involved in the financial markets.

*Prerequisite: COMLAW 203*

**COMLAW 306**
**Marketing Law**
Marketers are not free to say what they want. A variety of laws and codes govern the claims made about goods and services and the ways in which they are presented and sold. Marketing Law covers consumer legislation, product distribution, advertisement regulation, branding, privacy and competition law. It builds skills in problem solving, decision making and written communication.

*Prerequisite: BUSINESS 115 or COMLAW 101, and COMLAW 201 or 203 or MKTG 201 or 203, and 30 points at Stage II*
COMLAW 311 | 15 Points
Advanced Taxation
An advanced study of Income Tax and Goods and Services Tax, with emphasis on the important tax regimes applicable to business taxpayers and high-wealth individuals. Specific topics include corporate taxation, dividends and imputation, company losses and grouping, qualifying companies, trusts, partnerships, financial accruals, international taxation, the disputes procedure and penalties regime, and evasion and avoidance.
Prerequisite: COMLAW 203 and 301, or LAW 429 and LLB Part II
Restriction: LAW 409

COMLAW 314 | 15 Points
Employment Law
The success of a business depends on the maintaining of a productive relationship with its employees. Employment Law covers the legal principles governing the employment relationship. Specific topics include bargaining, personal grievances, enforcement of employment contracts, strikes and lockouts, the rules regarding holidays, and health and safety obligations.
Prerequisite: COMLAW 201 or 203, or BUSINESS 115 or COMLAW 101 and MGMT 223, or LAW 121 or 131

COMLAW 315 | 15 Points
Finance and Property Law
Examines the legal concepts of property and ownership which are central to securing repayment of debt. Major topics include types of security over personal and real property; statutory provisions regulating credit contracts and property rights; general principles relating to guarantees; legal aspects of commercial leasing; liability of professional advisers and aspects of unsecured lending.
Prerequisite: COMLAW 201 or 203 or PROPERTY 271

COMLAW 318 | 15 Points
Special Topic

COMLAW 320 | 15 Points
Innovation and the Law
New technologies and innovative ideas and information pose challenges and provide opportunities for business and society. Topics will be drawn from intellectual property protection and the commercialisation of emerging technologies, data governance and privacy, blockchain, artificial intelligence regulation, sustainable management of resources and risks, issues related to compliance, and on-line dispute resolution.
Prerequisite: 30 points at Stage II and BUSINESS 115 or COMLAW 101

COMLAW 321 | 15 Points
Special Topic

Postgraduate 700 Level Courses

COMLAW 700 | 15 Points
Directed Study

COMLAW 703 | 30 Points
Legal Research, Writing and Contemporary Issues
The theory and application of legal research methodologies and the practice of legal writing, identifies and resolves key commercial law and taxation issues that arise for businesses and organisations operating in New Zealand.

COMLAW 788 | 30 Points
Research Project - Level 9

Economics

Stage I

ECON 151 | 15 Points
ECON 151G | 15 Points
Understanding the Global Economy
Economics affects our daily lives and the global environment in many ways. Through the media we are constantly made aware of price increases, interest rate changes, exchange rate movements and balance of payments problems, growth and recessions, standard of living comparisons, regional trading agreements. What does it all mean and how does it all work?
Restriction: BUSINESS 115, ECON 101, 111, 191
Restriction: ECON 101, 111, 152, 191

ECON 152 | 15 Points
Principles of Economics
Analysis of issues that affect our daily lives, including pricing decisions by firms and their impact on our cost of living; game theory and strategic decision-making; tackling problems of pollution and global warming; and how governments use monetary and fiscal policies to stimulate economic growth and address unemployment and inequality.
Prerequisite: BUSINESS 115 or ECON 151
Restriction: ECON 101, 111, 191

Stage II

ECON 200 | 15 Points
Special Topic
Prerequisite: ECON 111 or 152

ECON 201 | 15 Points
Microeconomics
Study of the allocation of scarce resources among competing end uses. Intermediate-level analysis of the economic behaviour of individual units, in particular consumers and firms. Although the focus is on perfectly competitive markets, attention is also given to other types of markets. Analysis also includes concepts of expected utility and uncertainty, and welfare economics.
Prerequisite: ECON 101 or 152 or 180 points in Mathematics or Statistics with a GPA of 5 or higher and a B or higher in MATHS 130

ECON 211 | 15 Points
Macroeconomics
Provides an introduction to the dynamic microfoundations
of macroeconomics, and demonstrates how we can utilise these foundations (i) to understand the trends and fluctuations of macroeconomic aggregates like national output, unemployment, inflation and interest rates, and (ii) to predict the outcome of alternative government policies related to current economic problems of New Zealand and the rest of the world.

Prerequisite: ECON 111 or 152 or 180 points in a BSc major in Mathematics or Statistics with a GPA of 5 or higher and a B or higher in MATHS 130

**ECON 212**

**Game Theory**

An introduction to the fundamental concepts of non-cooperative and cooperative game theory: the concept of strategy; two person constant sum non-cooperative games and the minimax value; n-person non-cooperative games and Nash equilibrium; examples and applications in auctions, bargaining and other economic models, political science and other fields; the idea of backward induction and sub-game perfection; introduction to games in coalesional form; the core and the Shapley value.

Prerequisite: 15 points from BUSINESS 115, ECON 101, 151, 152, 191, ENGSCI 111, MATHS 108, 130, PHIL 101

**ECON 221**

**Introduction to Econometrics**

Empirical analysis in economics. Focuses on harnessing the power of data and regression techniques to estimate relationships and test hypotheses based on economic models. Emphasises the identification of causal effects critical to policy analysis, decision-making and strategic planning. Covers applications of econometrics in a variety of areas using a statistical computer package.

Prerequisite: 15 points from ECON 152, MATHS 108, 130, STATS 101, 102, 108, 125, 191, or at least 18 credits in Mathematics at NCEA Level 3 including at least 9 credits at merit or excellence, or B in CIE A2 Mathematics, or 5 out of 7 in IB Mathematics: Analysis and Approaches (SL or HL)

**ECON 232**

**Economics of Global Development**

The development of the international economy and changing economic relationships that have taken place since the late nineteenth century. The causes and consequences of growing interdependency among nations are examined. Changing patterns of trade and migration of capital and labour are analysed, as are cyclical and secular trends in output, employment and investment. The focus is on the development of institutions as well as the economic and social conditions that induce and validate change.

Prerequisite: ECON 111 and 101 or 191, or ECON 152

**ECON 241**

**International Economic Policy**

An introduction to contemporary issues in international trade and finance, including tariff wars, optimal currency areas, financial crises, debt default and the role of institutions like the IMF. The course provides a conceptual framework to understand how and why nations trade, the forces underpinning financial globalisation, and the political economy of international trade and monetary relations.

Prerequisite: ECON 111 and 101 or 191, or ECON 152

**ECON 242**

**Economic Policy**

Explores how economic policy can address socioeconomic challenges like climate change, poverty, sustainability, and the changing nature of work. Examines the role of microeconomic policy in areas such as competition, transport, education, health, labour, international trade, and immigration. Discusses how fiscal and monetary policy can promote welfare and economic stability. Traces the evolution of policy in New Zealand and overseas.

Prerequisite: 15 points from BUSINESS 115, ECON 151, 152

**ECON 271**

**Behavioural Economics**

Scientists and philosophers have long pondered whether human decisions are primarily deliberative or more prone to emotions. This course brings together findings from economics, psychology and neuroscience to discuss decision making at the level of individuals, within small groups and in more anonymous and impersonal market settings with an emphasis on the role of social norms and cognitive biases.

Prerequisite: 15 points from BUSINESS 115, ECON 151, 152, ENGSCI 111, MATHS 108, 130, PHIL 101, PSYCH 108, 109, STATS 101, 108

**Stage III**

**ECON 300**

**Directed Study**

**ECON 301**

**Advanced Microeconomics**

Advanced treatment of aspects of consumer theory, producer theory, and game theory. Applications of this basic theory to the analysis of some topics in uncertainty, contracts, auctions, oligopoly, and information economics.

Prerequisite: ECON 201 and 15 points from ENGGGEN 150, ENGSCI 111, MATHS 108, 130

**ECON 302**

**Economics of Labour Markets**

The application of economics to labour issues that confront policymakers around the world. Examines how labour markets function and focuses on the use of economic frameworks to evaluate the effects of various policies, including education and training, welfare and taxation, workplace health and safety, minimum wages, and immigration. Discusses effective strategies to mitigate workplace discrimination.

Prerequisite: ECON 201

**ECON 303**

**Law and Economics**

Economic analysis of law and organisation, and the application of economics to property rights, patents and natural resource management. Includes: contracts, transaction cost analysis, classical contracting, long-run contracts, enforcement, role of market forces, risk aversion, remedies for breach, economic theory for torts, negligence rules, strict liability, multiple torts, product liability. Special topics may include: crime, insider trading, and business law.

Prerequisite: 15 points from ECON 201, 212, 222

**ECON 304**

**Firms and Markets**

An introduction to Industrial Organisation, the analysis of markets with imperfect competition. Industrial Organisation is concerned with the interdependence of market structure, firm behaviour and market outcome. Basic concepts of game theory will be systematically introduced and applied to study strategic firm behaviour in a variety of general and more industry-specific market settings. In each case, we
will analyse the implications of the market behaviour for consumers and society and explore the potential role for public policy with instruments like regulation, competition policy and patent policy. 
Prerequisite: ECON 201

ECON 305 Economic Policy Analysis
15 Points
Examines the design, implementation and analysis of economic policy. Integrates economic theory with empirical methods to evaluate responses to issues that confront policymakers in government and industry. Potential topics include housing, infrastructure and transport investment, climate and sustainability, productivity, employment, welfare and health programmes. Provides opportunities to engage with stakeholders in industry and government. 
Prerequisite: ECON 201, 221

ECON 311 Advanced Macroeconomics
15 Points
Designed to teach students modern macroeconomic analysis and focuses on the standard dynamic general equilibrium model, which is central to current macroeconomic research. Students are given a careful introduction to the overlapping generations version of this model and shown how this model can be adapted in different ways to address a wide variety of economic issues and policy questions. 
Prerequisite: ECON 201 or 211, and 15 points from ENGG 150, ENGSCI 111, MATHS 108, 130

ECON 321 Advanced Econometrics
15 Points
Development of the linear regression model, its basis, problems, applications and extensions: demand systems, time-series analysis including unit roots and co-integration, simulation and resampling methods including an exposure to practical computing classes. 
Prerequisite: ECON 221, STATS 201, 207, 208, 210, 225 and 15 points from ENGG 150, ENGSCI 111, MATHS 108, 130

ECON 341 International Trade
15 Points
The main theories of international trade in goods and services, and of international movements of capital and labour. Partial equilibrium and general equilibrium analysis of the major instruments of trade policy, their economic effects, and the issues created by their use in practice. The economics of regional trading arrangements, such as free trade areas, customs unions and common markets. 
Prerequisite: 15 points from ECON 201, 211, 232, 241

ECON 343 East Asian Growth and Trade
15 Points
A study of the economic factors underlying the dynamic trade and growth performance of the major economies of contemporary East Asia, and of the impact of their development on New Zealand’s international trading environment. Study of individual East Asian economies is strongly emphasised. 
Prerequisite: 15 points from ECON 201, 211, 232, 241

ECON 345 Financial Economics
15 Points
A study of the modern literature on corporate finance, investments and derivative securities. An analysis of consumption and investment decisions in the presence of time and risk, asset pricing models and market efficiency. The term structure of interest rates and various issues in debt and equity financing. The use of derivative securities, e.g., forwards and/or options to manage exchange rate risk. 
Prerequisite: ECON 201 and 15 points from ENGG 150, ENGSCI 111, MATHS 108, 130

ECON 352 International Finance
15 Points
A study of the modern literature on exchange rate markets, exchange rate determination and the implications of exchange rate movements for various economic issues. Students will gain an understanding of why exchange rates change, of financial market arrangements, and of the reasons for, and implications of, recent events in international financial markets. 
Prerequisite: 15 points from ECON 201, 211, 232, 241

ECON 361 Public Economics
15 Points
A study of the role of the state in a modern mixed economy; its roles, measurement and accountability. Topics include: welfare theory, theory of public goods, cost-benefit analysis, budgetary issues, taxation theory and practice, insurance markets, and social insurance. 
Prerequisite: ECON 201

ECON 372 Energy and Environmental Economics
15 Points
An overview of the theory and empirical practice of economic analysis as it is used in evaluating energy and environmental problems. Topics covered include natural resource economics, as well as electricity and oil markets. Other topics include environmental policy (pollution and economic efficiency); analysis of economic instruments, such as tradable property rights and pollution taxes; the allocation of non-renewable and renewable resources; and contemporary issues of growth, sustainable development and climate change. 
Prerequisite: ECON 201

ECON 374 Special Topic: Urban Economics
15 Points
Explores the growth and impact of cities, as well as the role of policies that impact their form, structure and economy. What explains the explosive growth in urbanisation over the last 100 years? How do firms and individuals decide where to locate? How can we address current urban problems like crime, poverty, traffic congestion, sprawl, gentrification and pollution? 
Prerequisite: ECON 201

ECON 375 Health Economics
15 Points
Examines questions around whether health can be bought, the impacts of pandemics such as COVID-19 and ways to respond. Focuses on issues related to the demand for health, infectious disease and demand for immunisation, health insurance and the medical care market. Explores some health care policies and their implications in developing and developed countries. 
Prerequisite: ECON 201

ECON 700 Special Topic
15 Points

ECON 701 Microeconomic Theory
15 Points
Advanced treatment of traditional topics from "core" microeconomics, including consumer theory and duality,
expected utility theory, general equilibrium, game theory
and the economics of information.

ECON 702
Industrial Organisation
Concerned with interdependence of firm behaviour, market
structures and implications for consumers and society. Concepts
from game theory are introduced and applied to study strategic firm behaviour in a variety of general
and more specific market settings; Coverage includes the
potential role for public policy with instruments like competition policy, patent policy and the regulation of
public utilities such as telecommunication, electricity,
water and gas.

ECON 704
Directed Study

ECON 711
Macroeconomic Theory and Policy
Discusses advanced analytical tools and concepts used in
modern macroeconomics and shows how to apply these
tools in policy settings. The focus will be on dynamic
macroeconomic models with micro-foundations and their
applications to understanding macroeconomic policy
issues, such as growth, fluctuations, debt-crises, ageing,
unemployment, and global imbalances.

ECON 712
Topics in Money, Banking and Finance
An advanced treatment of macroeconomics focusing on
contemporary issues that have been brought into sharp
relief since the global financial crisis. Topics include models of financial crises, the role of financial markets
and liquidity, sovereign debt, the relationship between
financial intermediation and the macroeconomy, and the
(unorthodox) way in which central bank policy is now
conducted.

ECON 721
Econometrics 1
Core econometrics including theory and applications. The
development of the classical linear regression model and
extensions to the most general case. Applications to types
of linear models involving cross-section and time-series
data, and simultaneous equation models. The method
of maximum likelihood, other extrema estimators and
associated methods of testing.

ECON 723
Econometrics 2
An overview of time series econometrics, designed to
introduce a range of material in stationary and
nonstationary time series including: modern model
determination methods, unit root and co-integration
theory, non-linear time series analysis and continuous time
models. Students will be introduced to practical time series
forecasting methods.

ECON 741
Topics in International Trade
Advanced treatment of selected developments in
international trade theory including the link between
trade and development and contemporary issues relating
to trade strategies and structural adjustment policies with
an emphasis on developing countries.

ECON 742
Trade Policy
Economic analysis of current trade policy issues, with
an emphasis on the theoretical, empirical and policy
dimensions of international trade negotiations in the WTO,
and the spread of preferential trading arrangements such as
free trade areas.

ECON 751
Advanced International Finance
A study of open-economy macroeconomic topics (theoretic, empirical and policy oriented), including models
of exchange rate behaviour.

ECON 761
Public Economics and Policy
Fundamental theorems of public economics, market
failure, public choice theory, and distribution; the role
of the economist in the making of public policy in a modern mixed economy, ideologies and critiques of the market
model, the economics of the welfare state, welfare and
tax reform in New Zealand, and applied poverty issues.

ECON 771
Economics of Development
Contemporary issues in development economics. Topics
include: the way economists’ approaches to leading
development issues have evolved to the present; and
leading development issues, including sources of
economic growth, the role of population, human capital
and innovation, labour and migration, international
trade and foreign aid, and strategies for sustainable
economic development. There is emphasis on the ‘Newly Industrializing Countries’ and other Third World developing
countries.

ECON 773
The History of Economic Thought
Covers a selection of topics in the history of economic
ideas, including classical economics, post-classical
microeconomics and macroeconomics including Keynesian,
Austrian, institutional economics and behavioural
economics. Topics in twentieth century economics and
twentieth century debates on international monetary
reform will be given emphasis.

ECON 781
Experimental Economics
Controlled decision-making experiments have become an
integral part of economics, more so with the advent of
behavioural economics, which incorporates key insights
from other social sciences to add realism to the Homo
Economics model of human behaviour. This course will
cover a selection of topics in experimental and behavioural
economics with applications to commercial decision-
making and public policy.

ECON 783
Energy Economics
Discusses issues related to the economics of climate change
including peak oil as well as regulation and market design
issues for energy and carbon markets. Natural resource
economics and electricity markets are covered in depth.

ECON 784
Special Topic: Health Economics
Examines contemporary issues in health economics
including inequalities in healthcare access, utilisation and
health outcomes. Application of economic frameworks
and theory to inform decision-making around resource
allocation and broader issues of health financing, especially
in relation to current New Zealand health reforms and
delivering equity under Te Tiriti o Waitangi as well as the United Nations Sustainable Development Goals.

ECON 788 30 Points
ECON 788A 15 Points
ECON 788B 15 Points
Research Project - Level 9
Restriction: ECON 789
To complete this course students must enrol in ECON 788 A and B, or ECON 788

ECON 791 60 Points
ECON 791A 30 Points
ECON 791B 30 Points
Dissertation - Level 9
To complete this course students must enrol in ECON 791 A and B, or ECON 791

Finance

Stage II

FINANCE 251 15 Points
Financial Management
Focuses on practical aspects of corporate finance. Topics covered include: concepts of value creation, risk and required rates of return, financial maths, capital budgeting, capital structure and dividend policies.
Prerequisite: ACCTG 102, and 15 points from ECON 221, ENGSCI 211, STATS 101, 108

FINANCE 261 15 Points
Introduction to Investments
Markets for shares, fixed income securities, options and futures. Methods of valuing shares, fixed income securities, options, and futures. Simple techniques of hedging risk. Portfolio diversification, Portfolio evaluation.
Prerequisite: FINANCE 251 or 180 points in a BSc major in Mathematics or Statistics with a GPA of at least 5 and a B or higher in MATHS 130

Stage III

FINANCE 300 15 Points
Directed Study

FINANCE 351 15 Points
Advanced Financial Management
A rigorous study of advanced capital budgeting procedures, more difficult aspects associated with capital structure and dividend decisions, mergers and acquisitions. Case study applications of financial management are used. A continuation of the material introduced in FINANCE 251.
Prerequisite: FINANCE 251

FINANCE 361 15 Points
Modern Investment Theory and Management
Portfolio theory and equilibrium asset pricing models and empirical tests. Portfolio management (forecasting, construction, administration and evaluation) including issues relating to fixed interest and international equity investment. A continuation of the material introduced in FINANCE 261.
Prerequisite: FINANCE 261 and 15 points from ENGSCI 211, MATHS 208, 250

FINANCE 362 15 Points
Risk Management
Examines theoretical and practical aspects of risk management with an emphasis on the effective use of futures, options and other financial derivatives to control market risk exposure. Reviews no-arbitrage methods used to value financial futures and options, including the Black-Scholes model and binomial tree numerical methods.
Prerequisite: FINANCE 261 and 15 points from ENGSCI 211, MATHS 208, 250

FINANCE 383 15 Points
Banking and Financial Institutions
Provides a thorough understanding of the role of banks and other financial institutions in the economy. It focuses on the problems of risk management and regulation with a particular emphasis on problems, crises and most importantly the Global Financial Crisis.
Prerequisite: FINANCE 251 or ECON 201 and 211

FINANCE 384 15 Points
Special Topic

Postgraduate 700 Level Courses

FINANCE 700 15 Points
Directed Study

FINANCE 701 15 Points
Research Methods in Finance
The theory and application of modern research methods in finance. The content will include the philosophy, process and design of scientific research. Prior knowledge of basic statistical techniques is assumed.
Restriction: ACCTG 701

FINANCE 702 15 Points
Governance Issues in Finance
An introduction to the economic literatures relating to property rights, transaction cost economics, and agency theory. Application of these notions to the way in which organisations are structured. Identification of why some transactions are internalised and some are undertaken through markets. The application of these ideas to finance.
Restriction: ACCTG 702

FINANCE 703 15 Points
Special Topic

FINANCE 705 15 Points
Empirical Finance
Examines the theory and application of modern research methods in finance. Through exposure to a range of contemporary research issues students will develop a basic framework of how to conduct research, and an overview of some of the pitfalls.

GLMI 707
**Responsible Business and Sustainability**
Engages with pressing contemporary topics such as corporate social responsibility, sustainability, ethical business and governance, Māori and indigenous leadership, the stakeholder approach to responsible business, and diversity and inclusiveness in organisations.
Restriction: MGMT 733, 737

GLMI 708
**Critical, Creative and Strategic Thinking**
Focuses on learning and applying ideas, processes and technologies to critical, creative and strategic thinking in fields related to leadership, management and change. Emphasises building the confidence, dexterity and set of practices to question and create new pathways for collaborative and systemic challenges.

GLMI 709
**Creating Global Ventures**
Examines the issues involved in forming and operating a knowledge-intensive company that is global from inception. Includes topics such as assessing opportunities, developing a business model, forming a team and gathering the resources to launch a global new venture.
Restriction: INTBUS 705, MGMT 715

GLMI 710
**Innovation and Knowledge Management**
Examines the role of innovation and knowledge in business profitability and growth. Includes knowledge as a foundation for innovation, core knowledge processes in organisations, understanding innovation processes in uncertain and complex environments, and collaborative innovation.
Restriction: MGMT 721

GLMI 711
**Strategic Entrepreneurship and Innovation**
Examines the challenge of strategising in highly uncertain situations such as knowledge intensive start-ups and introduction of new products or processes. Reviews key theories of strategy and strategising, and applies tools for strategic management and analysis.
Restriction: MGMT 726

GLMI 712
**Understanding and Managing Creativity**
Explores theories and research on creativity in both well-established and entrepreneurial organisations at different levels of analysis – individual, groups and firms. Includes topics such as factors impacting creativity, how to manage creative teams and individuals, and how to develop a creative climate in the organisation.

GLMI 750
**Contemporary Themes in Global Management and Innovation**
Individualised readings and coursework from any field related to Global Management and Innovation.

GLMI 751
**Directed Readings in Global Management and Innovation**

GLMI 791
**Dissertation - Level 9**
To complete this course students must enrol in GLMI 791A and B, or GLMI 791

GLMI 794A
**Thesis - Level 9**
To complete this course students must enrol in GLMI 794A and B
GLMI 794B

GLMI 796A
**Thesis - Level 9**
To complete this course students must enrol in GLMI 796A and B
GLMI 796B

**Information Governance**

**Postgraduate 700 Level Courses**

INFOGOV 700
**Environment of Information Governance**
Key legal and governance concepts, practices, structures and mechanisms are studied. This includes a focus on data protection issues. Legal and de facto rules are analysed including their creation, reform and enforcement; business agreements and their interpretation are introduced and relevant standards are evaluated.

INFOGOV 701
**Information Research in Practice**
Develops and applies general and context-specific research methods. Identifies and resolves key research issues that arise for businesses and organisations. Explores application of research methodologies.
Corequisite: INFOGOV 700

INFOGOV 702
**Information Ethics**
Examines ethical, cultural and policy-related concepts related to information, from generation, collection and storage to analysis, application and dissemination, including review and feedback mechanisms. The concepts include research ethics, privacy and surveillance, information and discrimination, professional codes, responsible innovation and the use of algorithms.
Corequisite: INFOGOV 700

INFOGOV 703
**Impact of New Technologies**
Explores themes in the development, usage and regulation of new technologies. Examines a range of technologies such as blockchain technology, and other distributed ledger technologies with reference to compliance, including their implementation and impact in industry and on society. The legal issues arising from the use of smart contracts are investigated.
Corequisite: INFOGOV 700

INFOGOV 704
**Artificial Intelligence Regulation - Level 9**
Critically analyses the legal and policy issues created by advanced artificial intelligence technologies, including regulatory response. Evaluates efficiency, proportionality and necessity of existing or suggested regulation, and develops proposals for the regulation of future challenges.
Develops independent research skills including an ability to work in multidisciplinary groups and communicate findings to audiences from a range of disciplinary and jurisdictional backgrounds.  
Prerequisite: INFOGOV 700

INFOGOV 705  
Information Privacy: Theory and Application - Level 9
Critically evaluates the frameworks protecting personal information including their theoretical underpinnings and global reach. Explores the challenges to regulatory frameworks from rapid technological and social changes and encourages independent research as to how these may be addressed. Considers how leadership and accountability mechanisms can impact an organisation's ability to adapt information privacy requirements to unpredictable, complex and ill-defined environments.  
Prerequisite: INFOGOV 700

INFOGOV 706  
Cybersecurity Techniques and Governance
Focuses on information security strategies to address cybercrime. Includes analysis and critique of basic technological and managerial issues related to information security. Related regulations and standards will be also discussed.  
Corequisite: INFOGOV 700

INFOGOV 707  
Dispute Resolution Techniques
Addresses a range of appropriate dispute resolution mechanisms to address complaints. Techniques and best practice for facilitating negotiation of disputes through mediation including skills to assist dispute resolution. Explores negotiation theories, styles, strategies, tactics, and techniques.  
Corequisite: INFOGOV 700

INFOGOV 708  
Intellectual Property and Information
Examines the information governance implications of data-driven innovation and its impact on intellectual and cultural property protection. Explores intellectual and cultural property management strategies to address public policy issues related to information governance.  
Corequisite: INFOGOV 700

INFOGOV 709  
Access to Information
Explores access to information from a global and national perspective. Critically evaluates individuals' right to access to information. Examines the interrelationship between access to information, privacy and data governance. Addresses techniques and procedural rules to evaluate the validity of requests for access to information and grounds for refusal.  
Corequisite: INFOGOV 700

INFOGOV 710  
Sector Regulation
Explores industry-specific information governance requirements. Critically evaluates information governance across public and private sectors. Examines key industry regulations including information governance in healthcare, marketing and insurance. Analyses the role of different regulators in the public sector that address information governance.  
Corequisite: INFOGOV 700

INFOGOV 711  
Special Topic

INFOGOV 712  
Special Topic

INFOGOV 720  
Information Governance Project - Level 9
A research-informed consultancy project employing appropriate theories and methodologies to develop and present solutions for issues in information governance.  
Prerequisite: INFOGOV 701, 705

To complete this course students must enrol in INFOGOV 720 A and B, or INFOGOV 720

INFOGOV 780  
Research Project - Level 9
Prerequisite: INFOGOV 701, 705

To complete this course students must enrol in INFOGOV 780 A and B, or INFOGOV 780

Information Systems

Stage I

INFOSYS 110  
Digital Systems
Explores how information systems and analytical tools help organisations to innovate, optimise and deliver value. Examines how the development and implementation of systems and technologies coordinate and manage information, people, and processes within data governance and privacy frameworks.

Stage II

INFOSYS 220  
Business Systems Analysis
An Information Technology (IT) professional must understand how IT systems are constructed and tested and how quality is assessed, in order to manage, develop or provide innovative business solutions. Business Systems Analysis introduces systems development process concepts and activities, with a strong focus on understanding the problem and solution through modelling.  
Prerequisite: 15 points from COMPSCI 101, 105, 107, 130, INFOMGMT 192, INFOSYS 110
Restriction: INFOMGMT 291

INFOSYS 221  
Programming for Business
Focuses on enhancing Business/IT professional skills. Develops and applies problem-solving and algorithmic skills through pseudocode and fundamental programming constructs. Applies a design thinking methodology of empathise, ideate, design, prototype and test to build applications relevant to current business domains.  
Prerequisite: INFOSYS 110
Restriction: COMPSCI 101, 130

INFOSYS 222  
Database Systems
Managers and other knowledge workers find that many of their duties revolve around accessing, organising, and presenting organisational and external information. The
ability to develop and use computer databases is becoming a critical skill that is required in many disciplines. These skills are developed through an introduction to data modelling, relational theory, database design, and the management of databases.

Prerequisite: 15 points from COMPSCI 101, 105, 107, 130, INFOSYS 110

**Stage III**

**INFOSYS 300 15 Points**
Robotic Process Automation
Examines Robotic Process Automation (RPA) Systems and how RPA fits into the current information technology setups and helps the modern organisation address business process-related problems and opportunities. Examines the benefits and limitations of RPA and how it differs from other business solution technologies.

Prerequisite: 30 points at Stage II in Accounting, Business Analytics, Computer Science, Engineering Science, Information Management, Information Systems, Marketing, Operations and Supply Chain Management, Software Engineering

**INFOSYS 301 15 Points**
Directed Study

**INFOSYS 302 15 Points**
Special Topic

**INFOSYS 303 15 Points**
Solutions Architecture
Information systems specifically designed for organisational IT environments provide competitive advantages. Focuses on using high quality information architecture to address business requirements including the iterative use of system analysis, design and prototyping. Develops familiarity with state-of-the-art modelling, development, and deployment environments, and solutions for designing business systems architecture.

Prerequisite: INFOSYS 220, and BUSAN 201 or INFOSYS 222

**INFOSYS 304 15 Points**
IT Infrastructure
Modern IT infrastructure relies on a functionally hierarchical network designed around the OSI model. Explores internet-oriented backbones and high-speed access infrastructure, and uses the TCP/IP suite, cloud infrastructure and digital services, and applications to understand basic and business-oriented infrastructure challenges such as capacity planning, architecture design, and scaling of IT infrastructure and applications.

Prerequisite: 15 points from COMPSCI 230, INFOSYS 220, and 15 points from BUSAN 200, 201, COMPSCI 215, 235, INFOSYS 222, INNOVENT 203, OPSMGT 258, SCIGEN 201

**INFOSYS 305 15 Points**
Digital Strategy and Transformation
Explores strategic opportunities for delivering value through digital technologies. Examines best practices to ensure the effective development and operation of digital capabilities in the global context by aligning business and information technology strategies, controlling risks, and complying with regulatory requirements and standards.

Prerequisite: INFOSYS 220

**INFOSYS 306 15 Points**
Digital Business and Innovation
Explores the prominent IT-enabled innovative business models and digital platforms that result in the digital transformation of industries, businesses, products and services. Examines the strategic and economic foundations of digital platforms and models. Discusses the design, coordination and management of the ecosystems underpinning the digital business models and platforms.

Prerequisite: 30 points at Stage II in either Accounting, Business Analytics, Computer Science, Engineering Science, Information Management, Information Systems, Marketing, Operations and Supply Chain Management, Software Engineering

**INFOSYS 307 15 Points**
Special Topic

**INFOSYS 310A 15 Points**
INFOSYS 310B 15 Points
Business Project
A project in conjunction with an industry partner. The projects are to be in the areas of Business Analytics, Information Systems, and Operations and Supply Chain Management. The course encourages students to demonstrate skills and knowledge obtained in previous courses and to develop the capabilities of solving real-life problems.

Prerequisite: 30 points at Stage II in Business Analytics, Computer Science, Information Systems, Operations and Supply Chain Management and a GPA of 5.0 or higher

**INFOSYS 321 15 Points**
Enterprise Systems
Examines cross-functional integrated computer-based information systems, known as Enterprise Resource Planning (ERP) systems, designed to support an organisation's information needs and operations. Considers issues associated with the selection, analysis, design, implementation and configuration of such systems. Investigates transaction processing, management information and decision support across an organisation's business processes. Explores the characterisation of problems, in terms of process and information models.

Prerequisite: 15 points at Stage II in Accounting, Business Analytics, Computer Science, Engineering Science, Information Management, Information Systems, Marketing, Operations Management, Software Engineering

**INFOSYS 341 15 Points**
Information Security in Business
An overview of activities, methods, and procedures used by business to establish robust information security policies. Topics include: security requirements; security management models and practices; risk management; identification and authentication; access control; information security technologies and encryption. In addition, key legal and ethical issues are discussed. Includes practical exercises using certain key technologies to assist learning.

Prerequisite: 30 points at Stage II in either Business Analytics, Computer Science, Information Systems
Postgraduate 700 Level Courses

INFOSYS 700 15 Points
Digital Innovation
New information technologies are transforming how innovations are created, distributed, and commercialised. Focuses on the practices for digital innovation creation, distribution, and commercialisation as well as the digital strategies needed to manage such digital innovations.

INFOSYS 702 15 Points
Special Topic

INFOSYS 703 15 Points
Managing with Artificial Intelligence
Focuses on a business perspective of the use of Artificial Intelligence (AI) tools and solutions in organisations. Explores how different AI-enabled tools and solutions contribute to organisational and societal objectives and values. Aims to prepare students for jobs that involve technology consultancy and management of technology, with specific focus on AI as an emergent technology.

INFOSYS 704 15 Points
IT Consultancy
Focuses on developing IT consultancy skills by introducing the lifecycle of IT consultancy project and best practices per each phase. Prepares students for IT consultancy roles that involve business and technology analysis, change management, implementation and performance management.

INFOSYS 705 15 Points
Directed Study

INFOSYS 706 15 Points
Digital Sustainability
Informs students about the opportunities in harnessing technology to address the UN SDGs. The course will be guided by the digital sustainability framework (digital maturity, governance, orientation and partnership) and will use real use-cases to develop solutions by students.

INFOSYS 707 15 Points
Special Topic

INFOSYS 708 15 Points
Special Topic

INFOSYS 720 15 Points
Information Systems Research
A substantive review of research in the discipline of information systems. Behavioural, strategic and social issues relating to the design, implementation and impact of information technology applications will be studied.

INFOSYS 722 15 Points
Data Mining and Big Data
Data mining and big data involves storing, processing, analysing and making sense of huge volumes of data extracted in many formats and from many sources. Using information systems frameworks and knowledge discovery concepts, this project-based course uses cutting-edge business intelligence tools for data analytics.

INFOSYS 727 15 Points
Advanced Information Security
Focuses on technical security issues of the systems used in today's information technology applications. Explores the practical issues of identification and authentication, security of operating systems, cryptography, disaster recovery and contingency planning, and discusses the relevant theoretical models. Managerial aspects of information security issues as well as legal and ethical issues arising from protecting computer files both from a New Zealand and global perspective will be addressed. The course follows the content of CISSP certification.

INFOSYS 732 15 Points
Readings in Information Systems
An independent study of the research literature in a particular area of information systems. An opportunity to investigate a topic in depth, and gain valuable research skills. The particular area of research must be jointly agreed upon by the lecturer and students, and approved by the Head of Department.

INFOSYS 735 15 Points
Cloud Computing Architecture
Cloud Computing Architecture combines practical skills development with broader research and critical thinking skills to enable the student to analyze concepts relating to cloud computing. The curriculum is delivered through instructor-led classes, knowledge assessments, and hands-on labs designed to develop technical expertise in cloud computing and preparing students for a career in cloud solutions.

INFOSYS 750 15 Points
Research Methods – Quantitative
A comprehensive review of the methodological issues in systems research, including detailed coverage of univariate and multivariate data analysis. Prerequisite: 15 points from STATS 201-255, or equivalent. Restriction: MKTG 703, 704

INFOSYS 751 15 Points
Research Methods – Qualitative
Focus is on the conduct and evaluation of qualitative research. Reviews various qualitative research methods and ways of analysing qualitative data and the challenges of writing up qualitative research work for conferences and peer-reviewed academic journals. Restriction: MKTG 703, 704

INFOSYS 757 15 Points
Project Management and Outsourcing
Discusses tools and techniques for managing complex projects. Particular focus is given to balancing competing demands among scope, time, cost, and quality. Communication tools for facilitating relationships between the project team and customers are also discussed as well as between client and vendors on information technology outsourcing projects in onshore, nearshore, offshore and web-based services. Restriction: OPSMGT 757

INFOSYS 777 15 Points
Dissertation - Level 9
To complete this course students must enrol in INFOSYS 791 A and B, or INFOSYS 791
rior to completing this course students must enrol in INFOSYS 794 A and B.

INNOVENT 796A 30 Points
INNOVENT 796B 60 Points
MCom Thesis in Information Systems - Level 9
To complete this course students must enrol in INFOSYS 796 A and B.

Innovation

Stage I

INNOVATE 100 15 Points
INNOVATE 100G 15 Points
Innovation through Design
Introduces design thinking and develops a user-centred approach to innovation, emphasising the importance of a deep understanding of user needs throughout an iterative ideation and prototyping process. Utilising the maker space at the Unleash Space and a range of digital tools, students will develop practical making and early stage prototyping skills.

Stage II

INNOVENT 203 15 Points
INNOVENT 203G 15 Points
The Entrepreneurial Mindset
Stimulates new ways of thinking about enterprising behaviour in a multi-disciplinary manner relevant to understanding and addressing real world challenges of today. Introduces skills needed to identify and assess opportunities, solve problems creatively, communicate persuasively, work effectively in teams, and understand individual and organisational impact.
Prerequisite: 15 points from BUSINESS 102, 103, 112, 113, MGMT 101, or 90 points passed, or 60 points from Part I of the BE(Hons) Schedule

INNOVENT 204 15 Points
Understanding Entrepreneurial Opportunities
Applies processes for creating, evaluating and realising entrepreneurial opportunities. Presents creative and analytical approaches to engage with different stakeholders and make decisions under conditions of uncertainty in a variety of entrepreneurial contexts. Skills to assess opportunities and associated business models and communicate a credible and compelling business case are introduced.
Prerequisite: BUSINESS 102 or 103 or 112 or 113, or INNOVENT 100 or 100G or SCIGEN 201
Restriction: INNOVENT 202

Stage III

INNOVENT 300 15 Points
Directed Study
INNOVENT 305 15 Points
Special Topic
Prerequisite: 15 points from ENGGEN 302, 303, INNOVENT 201, 203, 204, MGMT 202, 211, SCIGEN 201

INNOVENT 307 15 Points
Ecosystems for Innovation and Entrepreneurship
Introduces the eco-system concept to examine ways that innovating firms interact with various actors to build and sustain viable global enterprises. Actors include: suppliers, competitors, investors, users/customers, governments and universities. Develops the analytical skills needed to identify different actors for potential partnerships and strategies to engage with them.
Prerequisite: 15 points from ENGGEN 302, 303, INNOVENT 201, 203, 204, MGMT 202, 211, SCIGEN 201

INNOVENT 308 15 Points
Advanced Entrepreneurship
Extends entrepreneurial knowledge and applies advanced skills in the context of a student defined project focused on an innovative opportunity with international potential. Develops an integrated understanding of the complex interactions within a successful interdisciplinary team and the requirements for engaging with experts relevant to the opportunity.
Prerequisite: INNOVENT 204
Restriction: INNOVENT 303

INNOVENT 309 15 Points
Responsible Innovation
Methods, tools and techniques for responsible innovation and new product development. Frameworks for managing the creative front end of innovation, and anticipating social and ethical issues associated with green and clean technology, circular economy, and frugal innovation trends.
Prerequisite: 15 points from ENGGEN 303, INNOVENT 201, 203, 204, SCIGEN 201
Restriction: INNOVENT 302

INNOVENT 310 15 Points
Women in Entrepreneurship
Explores opportunities and challenges faced by women entrepreneurs in today’s global economy. Examines issues related to gender bias, entrepreneurial finance, and growing the entrepreneurial venture. Develops skills for starting and growing an entrepreneurial venture through collaborative, real world opportunity-based assessments.
Prerequisite: Either 15 points from INNOVENT 201, 203, 204, SCIGEN 201, or 60 points at Stage II

International Business

Stage I

INTBUS 151 15 Points
INTBUS 151G 15 Points
Business across Borders
Business on a global scale presents unique challenges and unrivalled opportunities to companies equipped to cross national boundaries. Set against a background of current events, the course explores the influence of international trade and multinational corporations on the contemporary global economy.
Restriction: BUSINESS 101, 111, INTBUS 201, 202

Stage II

INTBUS 201 15 Points
Foundations of International Business
Explores the distinctive nature of business conducted beyond the boundary of the domestic market. Examines how firms reach multinational scale while exposed to the
turbulence and complexity of international political and economic forces.
Prerequisite: Either 15 points from BUSINESS 102, 112, 113, MGMT 101 and 15 points from BUSINESS 115, ECON 111, 151, 152, 191, or 15 points from ECON 111, 151, 152 and 30 points in International Relations and Business
Restriction: INTBUS 210, 211

INTBUS 202 15 Points
Foundations of Strategy
Examines how firms compete. Focuses on the frameworks and tools needed to make sense of the competitive landscape in order to formulate and implement strategies. Considers the challenges and constraints that managers face in increasingly complex environments and industries.
Prerequisite: 15 points from BUSINESS 102, 112, 113, MGMT 101, or 15 points from ECON 151, 152 and 30 points in International Relations and Business

Stage III

INTBUS 306 15 Points
Global and Regional Business
Focuses on the conduct of business in the world’s regions. Examines globalisation, regionalisation and market integration and their impact on firms.
Prerequisite: BUSINESS 200 or INTBUS 201
Restriction: INTBUS 301, 302, 304

INTBUS 307 15 Points
International Management and Strategy
Examines theories and practices of management in a cross-border context. Focuses on strategies and their implementation in international markets and how management changes when done internationally.
Prerequisite: INTBUS 201 or 202 or 210 or 211
Restriction: INTBUS 303

INTBUS 308 15 Points
Special Topic
Prerequisite: INTBUS 201 or 202 or 210 or 211

INTBUS 309 15 Points
Directed Study

Leadership and Governance

Postgraduate 700 Level Courses

LDGOV 701 15 Points
21st Century Governance
Explores core thinking and skills associated with governance in a New Zealand context (corporate, Not-For-Profit, project and Indigenous) including the role, function and dynamics of boards, duties of directors, regulatory and legal frameworks, and board practice and engagement.

LDGOV 702 15 Points
Contemporary Debates in Leadership
Explores contemporary challenges confronting leadership including ethics, sustainability, diversity, complexity, partnership and power sharing, particularly related to Te Tiriti o Waitangi, collaborative and network dynamics.

LDGOV 703 15 Points
Leadership in Governance
Integrates leadership and governance thinking and practice through a focus on decision-making, dynamics, relationships and processes in a board context. Pays particular attention to leadership at three levels: team leadership at board level, the Chair’s leadership of the board and strategic leadership by the board.

LDGOV 704 15 Points
Current Issues in New Zealand Governance
Explores developments in governance applied in a New Zealand context focussing on issues around the nature, role and purpose of corporations and their governing bodies and developments such as corporate purpose, integrated reporting, Environmental, Social and Governance (ESG) and shareholder/stakeholder/entity primacy. Includes consideration of Te Tiriti o Waitangi, application of Te Ao Māori principles and governance of Small/Medium Enterprises (SMEs).

LDGOV 705 15 Points
International Developments in Leadership and Governance
Explores international issues and developments, analyse research and innovations, and evaluate trends in the area of leadership and governance. Topics of focus may vary depending on current shifts in discourse on corporate governance and leadership but may include the social license for corporations to operate, Environmental, Social and Governance (ESG) and long term value, shifts in corporate governance, networked configurations, systemic dynamics, and boundary spanning.

LDGOV 710 15 Points
Special Topic

LDGOV 711 15 Points
Special Topic

Management

Stage II

MGMT 211 15 Points
Understanding Organisations
Explores organisations, different types and forms, and the issues that they need to consider. Questions the role and purpose of organisations within broader social systems. Begins to develop critical approaches and skills in organisational analysis.
Prerequisite: Either 15 points from BUSINESS 102, 112, 113, MGMT 101, or 30 points at Stage I from Anthropology, Communication or Sociology

MGMT 223 15 Points
Understanding Work and People
Models of work organisation, reform and performance,
including industrial and post-industrial forms of work. Employee responses to work and the employment relationship. Workforce diversity.

**Prerequisite:** Either 15 points from BUSINESS 102, 112, 113, MGMT 101, or 30 points at Stage I from Anthropology, Communication or Sociology

### Stage III

#### MGMT 300 15 Points
**Management in Dynamic Contexts**
Explore and reflect on the realities of management theory and practice through critically examining management challenges, from small entrepreneurial firms to large corporations.

**Prerequisite:** BUSINESS 200 or MGMT 202 or MGMT 211 or ENNGEN 302 or ENNGEN 303 or SCIGEN 201
**Restriction:** MGMT 301

#### MGMT 302 15 Points
**Strategic Management**
Examines the processes of formulating and implementing strategies, and the critical thinking behind the multifaceted role of organisations in complex business environments. Focuses on strategy issues in and between a range of commercial and public organisations, from entrepreneurial firms to multinational corporations.

**Prerequisite:** 15 points at Stage II in Business, International Business, Innovation and Entrepreneurship, Management, or 15 points from ENNGEN 204, 303, SCIGEN 201, 301, 301G
**Restriction:** BUSINESS 304

#### MGMT 304 15 Points
**Managing People**
The impact of employment relationships on organisational performance and employee well-being. Principles of staffing, employee development, performance management, reward, diversity management, and employment negotiation.

**Prerequisite:** MGMT 211 or 223

#### MGMT 309 15 Points
**Organisational Ethics and Sustainability**
Considers how organisations can responsibly negotiate the complex demands of changing cultural values, ethical perspectives and real world conditions. Particular emphasis will be placed on strategic planning for a sustainable future that moves beyond 'Business as Usual'.

**Prerequisite:** BUSINESS 200 or MGMT 211 or MGMT 231 or any 15 points at Stage II in Ethics
**Restriction:** MGMT 331

#### MGMT 314 15 Points
**Critical Issues in Organisations**
Contemporary organisations in a changing context. Each semester the course engages with three key issues effecting organisational life, across levels of organisational analysis. Topics may be drawn from technology, structure and design, power and politics, the structure of work and occupations, or other perspectives.

**Prerequisite:** BUSINESS 200 or MGMT 211
**Restriction:** MGMT 311

#### MGMT 320 15 Points
**Special Topic: Management and Games: Integrative Capstone**

**Prerequisite:** BUSINESS 200 or MGMT 202 or 211

#### MGMT 325 15 Points
**Directed Study**

### Marketing

#### Stage I

<tbody>
<tr>
<td>MKTG 303</td>
<td>Consumer Behaviour</td>
<td>15</td>
</tr>
</tbody>
</table>

**Consumer Behaviour**
Focuses on understanding customers. Applies psychology to how people make consumption decisions and interpret advertising. Includes a consideration of individual
differences and environmental/situational influences on consumers.
Prerequisite: MKTG 201 or 203

MKTG 304 15 Points
Digital Marketing
Examines how digital devices and applications are transforming the way organisations engage with consumers and how consumers search for, compare and select products. Develops understanding of how organisations use emerging technologies and how these influence consumer preference and decision-making. Builds skills in online data analytics and conducting research with an industry partner.
Prerequisite: MKTG 202 and 201 or 203
Restriction: INFOSYS 344

MKTG 305 15 Points
Services Marketing and Management
Focuses on services, service design, and service innovation, with the aim of developing empathy for customers and understanding the customer experience. Takes an active and process-oriented approach to achieving these aims, including the application of tools such as design thinking.
Prerequisite: MKTG 202 and 201 or 203

MKTG 306 15 Points
Advertising and Branding
Focuses on how a business can take an integrated approach to communicating with its customers and with other key stakeholders. Explores traditional tools such as advertising, sales promotion, public relations, personal selling, and direct marketing, as well as newer forms of communicating within digital and social media environments.
Prerequisite: MKTG 202 and MKTG 201 or 203, or COMMS 100, 104, MKTG 151 with a B grade or higher and COMMS 202 or 204

MKTG 308 15 Points
Customer Insights
The contemporary big-data revolution requires the integration of marketing strategy, tactical marketing insights and analytical skills. Employs real-life data sets for enhancing strategic and tactical decisions about customers and the market. Collaborates with leading business partners to develop highly sought after practical marketing skills.
Prerequisite: BUSAN 200 or MKTG 202

MKTG 309 15 Points
Social and Sustainable Marketing
Explores how marketers can contribute to a healthy, sustainable, equitable and ethical society. Discusses how marketers need to be aware of the impact of their actions, and teaches how to embed such issues into marketing decisions and use marketing for positive societal change.
Prerequisite: MKTG 201 or 203

MKTG 312 15 Points
Special Topic
Prerequisite: MKTG 202 and 201 or 203

MKTG 313 15 Points
Customer Insights and Marketing Intelligence
The contemporary big-data revolution requires the integration of marketing strategy, tactical marketing insights and analytical skills. Employs real-life data sets for enhancing strategic and tactical decisions about customers and the market. Collaborates with leading business partners to develop highly sought after practical marketing skills.

MKTG 314 15 Points
Customer Value Management
Value creation is a fundamental part of modern marketing and firms increasingly utilise technology for this purpose. Explores cutting edge theory and the practice of customer-centricity, customer relationship management (CRM), customer information management, and sales and field force automation, as well as new models of organisational relationship and customer experience management (CEM).
Prerequisite: MKTG 201 or 203

MKTG 316 15 Points
Contemporary Marketing Issues
An advanced study of marketing theory relating to contemporary issues. Emphasis is on providing students with in-depth knowledge of key topics, and asking them to critically evaluate the field. Topics covered include anti-consumption and consumer resistance, corporate social responsibility, ethics, sustainability, and marketing strategy.

MKTG 700 30 Points
Developing Research Ideas in Marketing
A critical precursor to the dissertation, this course provides the ground work to transform students into professional researchers. Working critically with the literature and being aware of ethical implications are integral parts of any research. This course provides the necessary skills related to the literature review and ethical conduct that will prepare students for carrying out their own empirical research work in marketing.
Prerequisite: MKTG 701, 703, 705
Corequisite: MKTG 704
Restriction: MKTG 788

MKTG 701 15 Points
Marketing Theory and Practice
A core course providing an introduction to marketing philosophy, theory, current debate and advancements in the field. Emphasis is on developing the critical thinking and analytical skills necessary to undertake postgraduate research.

MKTG 702 15 Points
Contemporary Marketing Issues
An advanced study of marketing theory relating to contemporary issues. Emphasis is on providing students with in-depth knowledge of key topics, and asking them to critically evaluate the field. Topics covered include anti-consumption and consumer resistance, corporate social responsibility, ethics, sustainability, and marketing strategy.

MKTG 704 15 Points
Advanced Consumer Research
A core course in the postgraduate programme, providing a foundation for a deeper understanding of buyers. This is an advanced study of fundamental theories in buyer behaviour, where both classical and contemporary theories are evaluated.

MKTG 705 15 Points
Directed Study

MKTG 710 15 Points
Advertising and Social Media
Examines advertising, with an emphasis on digital communication. Explores how digital trends, such as social media and influencers, are impacting the dynamics between consumers and firms. Develops students' critical thinking and research skills and their ability to develop solutions to advertising challenges.

MKTG 711 15 Points
Technology and Customer Relationships
Analyses and critically evaluates customer relationship management processes and provides insights into the application of digital technologies in managing customer relationships. Develops conceptual frameworks for
data selection to enhance customer insights and the management of customer relationships.

MKTG 712 Digital Marketing Strategy
Critically evaluates the processes and mechanisms of digital platforms. Develops skills in devising a digital marketing strategy, including product design and pricing.

MKTG 713 Market Innovation and Design
Critically evaluates the processes that underlie market-based innovations. Explores key issues and tools to create market-focused innovation to transform experiences, organisations, and societies.

MKTG 717 Special Topic

MKTG 718 Special Topic

MKTG 788 Research Project - Level 9
Restriction: MKTG 789

MKTG 791 60 Points
MKTG 791A 30 Points
MKTG 791B 30 Points

Dissertation - Level 9
Prerequisite: MKTG 700
To complete this course students must enrol in MKTG 791 A and B, or MKTG 791

MKTG 794A 30 Points
MKTG 794B 60 Points

Thesis - Level 9
To complete this course students must enrol in MKTG 794 A and B

MKTG 796A 60 Points
MKTG 796B 60 Points

Thesis - Level 9
To complete this course students must enrol in MKTG 796 A and B

Māori Development

Postgraduate 700 Level Courses

MAORIDEV 720 Whai Rawa: Māori Economies
A critical survey of one thousand years of Māori economic and business activity which examines the interaction of resources, culture, society and commerce. Considers Māori enterprise as an Area Study of developing economies such as Whenua Rangatira and the Economy of Mana.

MAORIDEV 721 Te Whakapakari Huanga Māori: Māori Entrepreneurship
An examination of both theory and practice in the field of Māori and indigenous entrepreneurship. Participants critique theoretical models and frameworks and engage with tools and methods that help develop ideas leading to a pathway of commercialisation.

MAORIDEV 722 Tikanga Ture mo ngā Huanga Māori: Legal Studies
Explores the role of Te Tiriti o Waitangi/Treaty of Waitangi and tikanga Māori in the legal system with an emphasis on statutory and customary law relevant to business in Aotearoa/New Zealand. Importance is placed on governance and business structures most conducive to sustainable kaupapa Māori commercial and entrepreneurial activity.

MAORIDEV 731 Te Whakamana Rōpū Māori: Governance and Management
Analysis of the nature of Māori enterprise and Māori governance and management systems in relation to both traditional and modern governance and management theory and frameworks.
Restriction: BUSADMIN 761

MAORIDEV 732 Whakatairanga Huanga Māori: Marketing
Customer value and value-creation in markets and the implications for marketing, marketing decision-making with a focus on Māori enterprise.
Restriction: BUSADMIN 762

MAORIDEV 733 Tātaritanga Huhua: Quantitative Analysis
Quantitative analysis theory, techniques, and tools to support and facilitate governance and managerial decision-making, drawing on examples from mātauranga Māori or traditional Māori knowledge systems, and from Māori enterprise. Includes financial, statistical, and operational modelling.
Restriction: BUSADMIN 763

MAORIDEV 734 Whakatakinga Tahua Huanga Māori: Accounting and Finance
Accounting practice for Māori organisations exploring the structure of accounting information. Develops skills in analysing and critically interpreting accounting and finance data that informs managerial planning, control, decision making and business valuation.
Restriction: BUSADMIN 764, BUSADMIN 765

MAORIDEV 738 Tikanga Māhere i te Ao Māori: Strategy
Principles and techniques associated with strategic thinking, planning and innovation for business growth and sustainable economic development. Considers the practical application of strategic and mātauranga Māori theory to Māori and non-Māori organisational contexts with a focus on, achieving simultaneous social, environmental, cultural and economic value creation.
Restriction: BUSADMIN 768

Operations and Supply Chain Management

Stage II

OPSMGT 255 Introduction to Operations and Supply Chain Management
An introduction to important decision areas in operations and supply chain management. Modelling and analytical skills will be developed and supporting techniques/tools will be introduced using spreadsheets. Common qualitative and quantitative aspects of supply chain management will be discussed.
Prerequisite: BUSINESS 111 and 15 points from ECON 221, ENGSCI 211, STATS 101, 108

Property

Stage I

PROPERTY 102 15 Points
Introduction to Property
Knowledge of how property markets work and how properties are valued, managed, and financed is critical for property professionals and for understanding modern life. Key terms and definitions surrounding the property profession and introductory analyses of supply and demand characteristics unique to property markets will be key learning outcomes. Students will also learn key concepts surrounding residential property valuation and construction.

PROPERTY 103 15 Points
Property Analytics
Develops abilities in sourcing and analysing relevant property data to inform investment and development decisions. Applies the use of a geographic information system (GIS) and cashflow model to a practical, small-scale residential project.

PROPERTY 201 15 Points
Property Valuation
As every property is unique, the valuation of property presents many challenges and has a strong influence on the financial viability of both existing buildings and the development process. General models for valuing commercial property, industrial property, and land will be introduced.
Prerequisite: 15 points from ACCTG 101, BUSINESS 114, PROPERTY 102
Corequisite: PROPERTY 251

PROPERTY 221 15 Points
Property Marketing
Effective marketing is at the core of successful property management, development, and investment. Covers buyer behaviour, marketing research, segmentation and targeting, the marketing plan, the listing process and selling techniques all in the context of the property industry. Develops essential skills for independent thinking, strategic problem solving, effective teamwork and business report writing.
Prerequisite: 15 points from BUSINESS 102, 112, 113, PROPERTY 102

PROPERTY 231 15 Points
Property Management
Achieving optimum performance from property assets is a multi-faceted process involving leases, financial structures, marketing, and occupier demand. Budgeting, operational expenditures, and capital expenditures will be introduced within the property context. An understanding of health and safety issues as well as leases will be provided.
Prerequisite: 15 points from BUSINESS 102, 112, 113, PROPERTY 102

PROPERTY 241 15 Points
Land-use Planning and Controls
Provides an understanding of the Resource Management Act and regional and district plans and how these affect land use and subdivision as well as resource consent applications and other property processes.
Prerequisite: 15 points from BUSINESS 115, ECON 101, 151, 152, 191, PROPERTY 102

PROPERTY 251 15 Points
Property Finance and Investment
Financing represents a fundamental part of how properties are purchased, developed and managed. The application of general theories of property investment, discounted cash flow, risk and return, and financial mathematics is vital for property professionals. Debt and equity financing options are discussed for residential and income-producing property and development projects.
Prerequisite: 15 points from ACCTG 101, BUSINESS 114, PROPERTY 102

PROPERTY 261 15 Points
Property Economics
The supply and demand characteristics of urban developments have impacts on not only the price and availability of property, but on how we live and work. An understanding of development economics, urban policy, and land-use economics will provide students with knowledge of how the decisions of property professionals, policy makers, occupiers shape the built environment.
Prerequisite: 15 points from BUSINESS 115, ECON 101, 151, 152, 191, PROPERTY 102

PROPERTY 271 15 Points
Property Law
Fundamental legal principles and issues affecting the property professional will be considered including contract law, common form contracts found in the property industry (including leasing, transfer, and valuation) land ownership and professional liability.
Prerequisite: 30 points from BUSINESS 112, 113, 114, 115, or COMLAW 101 and PROPERTY 102

PROPERTY 281 15 Points
Building Construction
Knowledge of construction is vital in understanding property valuation, property management and property development. Building materials, structural options, and building services have a strong influence on how a property performs both financially and functionally. Provides general residential and commercial construction knowledge and an understanding of the construction process.
Prerequisite: 15 points from BUSINESS 102, 112, 113, PROPERTY 102
Restriction: PROPERTY 141

Stage III

PROPERTY 300 15 Points
Directed Study

PROPERTY 311 15 Points
Advanced Valuation
The theory and practice of valuing special categories of urban property. Topics include: valuation of CBD land and office buildings, shopping centres, hotels and leasehold
PROPERTY 331 15 Points
Advanced Property Management
Property asset management theory through the study of its practical application in the strategic and estate management of property portfolios held in public and private ownership. The role of corporate real estate management in large organisations.
Prerequisite: 90 points from PROPERTY 211-281

PROPERTY 341 15 Points
Property Development
An introduction to the process of property development, including application of analytical methods to case studies.
Prerequisite: 90 points from PROPERTY 211-281

PROPERTY 351 15 Points
Advanced Property Finance and Investment
An understanding of how to research, analyse and advise on property financing and investment decisions is an essential analytical skill for property professionals. Topics include: asset pricing models, capital structure decision, weighted average cost of capital and adjusted present value, property as an asset class, and financing and investment strategies.
Prerequisite: 90 points from PROPERTY 211-281

PROPERTY 360 15 Points
Property Simulation
An integrated team-based capstone experience based on a property simulation requiring students to demonstrate their ability to work collaboratively as they engage in strategic decision-making.
Prerequisite: 45 points at Stage III in Property
Restriction: PROPERTY 361-364, 371

PROPERTY 361 15 Points
Property Industry Case
A challenging 'real world' property industry case project requiring demonstration of personal and professional skills as teams assess a situation, propose solutions and communicate recommendations.
Prerequisite: 45 points at Stage III in Property
Restriction: PROPERTY 360, 362, 363, 364, 371

PROPERTY 362 15 Points
Property Industry Project
A challenging property industry case project requiring the application of personal and professional skills in assessing a situation, proposing solutions and communicating recommendations.
Prerequisite: 45 points at Stage III in Property
Restriction: PROPERTY 360, 361, 363, 364, 371

PROPERTY 363 15 Points
Internship and Report
A project-based internship with a property company or other appropriate organisation requiring written and oral reports of findings.
Prerequisite: 45 points at Stage III in Property
Restriction: PROPERTY 360, 361, 362, 364, 371

PROPERTY 364 15 Points
Research Project
Prerequisite: A Grade Point Average of 5.0 or higher in 45 points at Stage III in Property
Restriction: PROPERTY 360, 361, 362, 363, 371

PROPERTY 370 15 Points
Building Surveying
Builds the specific knowledge and skills required to work within the building surveying profession. Topics include building pathology and survey techniques, due diligence reporting, Schedules of Condition, maintenance and reinstatement obligations when leasing commercial property, terminal reinstatement assessments and reporting and law in relation to dilapidations.
Prerequisite: 90 points from PROPERTY 211-281

PROPERTY 371 15 Points
Property Project
A research project, feasibility study or structured internship on an approved topic.
Prerequisite: 90 points from PROPERTY 211-281
Restriction: PROPERTY 372

PROPERTY 372 15 Points
Property Issues and Trends
Property development and investment practices have significant consequences for economic, social and environmental outcomes. Uses relevant literature to provide a critical analysis of contemporary dynamics and problems in international and national property markets.
Prerequisite: 90 points from PROPERTY 211-281

PROPERTY 375 15 Points
Maori Land Issues
History of land conflicts in New Zealand, Waitangi Tribunal process, and development of portfolio management strategies.
Prerequisite: 90 points from PROPERTY 211-281

PROPERTY 380 15 Points
Property Issues and Trends
A critical analysis of a practice situation or dilemma in an area of property practice of interest, based on a critique of property theory, literature and stakeholder engagement.
Prerequisite: 90 points from PROPERTY 211-281

PROPERTY 381 15 Points
Special Topic

Postgraduate 700 Level Courses

PROPERTY 700 15 Points
Directed Study

PROPERTY 715 15 Points
Property Valuation and Analysis
A review and critical analysis of literature in property valuation theory and practice. Critically evaluates issues relating to concepts, methods, standards and specialist valuation processes, and considers implications for future valuation practice.

PROPERTY 720 15 Points
Property Professional Practice and Consulting
A critical analysis of a practice situation or dilemma in an area of property practice of interest, based on a critique of property theory, literature and stakeholder engagement. Considers the impact and proposes recommendations to enhance future practice.

PROPERTY 730 15 Points
Property Innovation and Technology
Focuses on the development of innovative solutions to address challenges facing property profession. Considers best practice in the use of property technologies.
PROPERTY 743  
Property Economics and Sustainable Development  
15 Points  
Critical analysis of the economics and institutional factors that affect urban property markets. Considers the impact of cultural diversity, sustainability, and supply of money and land in residential and non-residential property development.

PROPERTY 753  
Property Finance and Management  
15 Points  
Focuses on advanced concepts of global markets, investment and finance and their application to interconnected property markets, as well as the advanced theories and practices in financial management. Critically evaluates financial management decisions and behaviour of participants within the property markets using case studies and financial software.

PROPERTY 785  
Special Topic  
15 Points  
A seminar or individual study on a specialised aspect of property.  
Corequisite: At least 30 points selected from PROPERTY 701-773, and 784

PROPERTY 786  
Special Topic: Money, Land and Housing  
15 Points  

PROPERTY 789  
Research Project - Level 9  
30 Points  
A dissertation on a topic in property approved by the Head of Department.  
Prerequisite: At least 30 points selected from PROPERTY 703-763

PROPERTY 790  
Research Essay - Level 9  
30 Points  
A dissertation on an approved topic in property.  
Prerequisite: At least 30 points selected from PROPERTY 701-773, and 784

PROPERTY 791  
Dissertation  
60 Points  

PROPERTY 791A  
30 Points  

PROPERTY 791B  
30 Points  

Thesis  
To complete this course students must enrol in PROPERTY 791 A and B, or PROPERTY 791

PROPERTY 791A  
30 Points  

PROPERTY 791B  
30 Points  

Thesis - Level 9  
To complete this course students must enrol in PROPERTY 794 A and B

PROPERTY 795A  
60 Points  

PROPERTY 795B  
60 Points  

Thesis for MProp - Level 9  
Prerequisite: PROPERTY 701  
To complete this course students must enrol in PROPERTY 796 A and B

Property Practice

Postgraduate 700 Level Courses

PROPRAC 700  
Management and Marketing  
15 Points  
Achieving optimum performance from property assets is a multi-faceted process involving leases, financial structures, marketing, and occupier demand. Budgeting, operational expenditures, and capital expenditures will be introduced within the property context. An understanding of health and safety issues as well as leases will be provided.

PROPRAC 701  
Sustainable Construction  
15 Points  
Knowledge of construction is vital in understanding property valuation, property management and property development. Building materials, structural options, and building services have a strong influence on how a property performs both financially, functionally and environmentally. Provides general construction knowledge and an understanding of the construction process in context of buildings’ impact on the environment.

PROPRAC 702  
Planning and Development  
15 Points  
Property Development is approached from a practical perspective on the development process pathway from vision to commissioning and including the navigation of development controls and other land use restrictions in district plans. Analysis and feasibility are key skills that will be developed with case study illustration and a practical assignment. Design management, consenting, leadership, procurement and delivery will be covered including communication and sustainability.

PROPRAC 703  
Law and Governance  
15 Points  
Fundamental legal principles and issues affecting the property professional will be considered including contract law, common form contracts found in the property industry (including leasing, transfer, and valuation) land ownership and professional liability. Key property-focused governance concepts, practices, structures and mechanisms are studied.

PROPRAC 704  
Property Market Dynamics  
15 Points  
The supply and demand characteristics of urban developments have impacts on not only the price and availability of property, but on how we live and work. Development economics, urban policy, and land-use economics inform and guide decisions of property professionals, policy makers, and occupiers who shape the built environment.

PROPRAC 705  
Investment and Finance  
15 Points  
Financing represents a fundamental part of how properties are purchased, developed and managed. The application of general theories of property investment, discounted cash flow, risk and return, and financial mathematics is vital for property professionals. Debt and equity financing options are discussed for residential and income-producing property and development projects.

PROPRAC 706  
Valuation  
15 Points  
As every property is unique, the valuation of property presents many challenges and has a strong influence on the financial viability of both existing buildings and the development process. Valuation involves a range of models and approaches for valuing residential, commercial and industrial property and undeveloped land.

PROPRAC 707  
Property Technology  
15 Points  
Develops capabilities in applying analytical tools and technologies to the analysis of issues to enhance
understanding of property markets and support effective decision-making.

**PROPRAC 708** 15 Points

**Advanced Valuation**
The theory and practice of valuing special categories of property including shopping centres, hotels, leasehold and Māori land. Other professional property practices covered include compulsory purchase, and professional ethics and practice.
Prerequisite: PROPRAC 706

**PROPRAC 709** 15 Points

**Advanced Property Analytics - Level 9**
Extend and apply core property knowledge involving management, development valuation and investment to critically analyse property through use of geographic information system (GIS) and cash flow modelling software.
Prerequisite: 45 points from PROPRAC 700-708

**PROPRAC 778** 30 Points
**PROPRAC 778A** 15 Points
**PROPRAC 778B** 15 Points

**Capstone Project - Level 9**
An individual, research-informed practical project with a company or other appropriate organisation with written and oral reports of the findings.
To complete this course students must enrol in PROPRAC 778 A and B, or PROPRAC 778

**PROPRAC 779** 30 Points
**PROPRAC 779A** 15 Points
**PROPRAC 779B** 15 Points

**Capstone Project - Level 9**
A team-based, research-informed practical project with a company or other appropriate organisation with written and oral reports of the findings.
To complete this course students must enrol in PROPRAC 779 A and B, or PROPRAC 779

---

**Tertiary Foundation Certificate Business**

**Foundation Courses**

**TFCBUS 92F** 15 Points

**Foundation Business**
Develops an understanding of the role of business in a rapidly changing national and international context. Focuses on factors impacting success and value creation including effective management and leadership, understanding customers, innovation and product development, financial and accounting practices, and strategic planning and decision-making.

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Architectural Design

Stage I

ARCHDES 102 15 Points
Design 1
The Conceptual: An introduction, in studio format, to the conceptual realm in which architecture operates, making connections to the cultural, physical, formal, social and political dimensions of architectural design. Emphasises the development of skills and abilities in conceptual thinking and design realisation, using a range of approaches to making and representation.
Restriction: ARCHDES 100

ARCHDES 103 15 Points
Design 2
The Formal: An introduction, in studio format, to the discipline of architectural organisation and form-making. Re-examines the traditional notions of typology, precedent, geometry, parti and diagrams. Emphasises strategies that build on and transform understanding for organising form given contemporary programmes and modes of representation.
Restriction: ARCHDES 101

Stage II

ARCHDES 200 30 Points
Design 3
The Domestic: Exploring through design those things both familiar and unfamiliar in our understanding of home, family, privacy, identity, and community. Examines both the most intimate and the most exposed aspects of dwelling. Emphasises the role of precedent in design and addresses scales ranging from the room to the block.
Prerequisite: ARCHDES 100 or 102

ARCHDES 201 30 Points
Design 4
The Constructed: An introduction to architectural practice as a complex and collaborative enterprise. Offers the opportunity to explore materials, construction, fabrication processes, and detailing, through making. Requires students to understand the full range of drawings required to move from design concept to actual construction.
Prerequisite: ARCHDES 101 or 103

Postgraduate 700 Level Courses

ARCHDES 700 30 Points
Advanced Design 1
A studio based inquiry into an architectural topic approved by the Head of School of Architecture and Planning intended to facilitate in-depth study that is both tailored to a student's own interest and aligned with the School's research clusters, sharing workshops, discussions, pin-ups and tutorials.

ARCHDES 701 30 Points
Advanced Design 2
A studio based inquiry into an architectural topic approved by the Head of School of Architecture and Planning intended to facilitate in-depth study that is both tailored to a student's own interest and aligned with the School's research clusters, sharing workshops, discussions, presentations and tutorials.

ARCHDES 702 30 Points
Adaptive Reuse
A studio-based inquiry into an architectural topic in the field of adaptive reuse, approved by the Head of School of Architecture and Planning.
Prerequisite: Head of School approval

ARCHDES 703 30 Points
Advanced Design in Housing
An advanced studio-based inquiry into housing design, approved by the Head of School of Architecture and Planning.
Prerequisite: Head of School approval

ARCHDES 796A 60 Points
ARCHDES 796B 60 Points
Thesis - Level 9
A thesis involving a design-based discourse on a topic approved by the Head of School of Architecture and Planning.
for the degree of Master of Architecture (Professional) under the guidance of an appointed supervisor.
Prerequisite: Students must have completed the taught component of their programme
To complete this course students must enrol in ARCHDES 796 A and B

ARCHDES 797A 30 Points
ARCHDES 797B 60 Points
Thesis - Level 9
A thesis involving a design-based discourse on a topic approved by the Head of School of Architecture and Planning for the Degree of Master of Architecture (Professional) and Urban Planning (Professional).
Prerequisite: ARCHDES 700, 701, ARCHGEN 703 or ARCHPRM 700, ARCHPRM 701, URBPLAN 701-708
To complete this course students must enrol in ARCHDES 797 A and B

ARCHitectural History, Theory and Criticism

Stage I
ARCHHTC 102 15 Points
ARCHHTC 102G 15 Points
Modern Architecture and Urbanism
Examines through case studies the cultural contexts that shaped the development of architecture, urban design, landscape and the environment during the twentieth century. Emphasis is placed on the historical developments that influenced changes in style and the theoretical contexts that shaped attitudes towards inhabitation, social organisation, national identity, and cultural self-expression, amongst other things.
Restriction: ARCHHTC 100

Stage II
ARCHHTC 237 15 Points
Postmodern and Contemporary Architecture and Urbanism
Examines architectural and urban history and theory from the postmodern to the recent and contemporary.
Prerequisite: ARCHHTC 102
Restriction: ARCHHTC 235, 236

Stage III
ARCHHTC 340 10 Points
Oceanic Architecture and Urbanism
Examines the development of architecture and its contexts in Aotearoa New Zealand and the South Pacific, including origins, historical influences, key architects and buildings, identity and changing priorities.
Prerequisite: ARCHHTC 235 and 236, or 202 and 230
ARCHHTC 341 15 Points
Worlds of Architecture
Examines topics in pre-modern architectural and urban history and theory across the continents of Eurasia, Africa, the Americas, Australia and Oceania.
Prerequisite: ARCHHTC 237
Restriction: ARCHHTC 339, 340
ARCHHTC 376 15 Points
Directed Study

Postgraduate 700 Level Courses
ARCHHTC 700 15 Points
Pacific Architecture
Examines architectural history and practice in the Pacific region from ancient sites to the present day. Explores design from all periods, with a view to informing future design through consideration of climate, culture, society, materials and economics.
ARCHHTC 701 15 Points
Architecture and Political Philosophy
Examines the political role of architecture and urban space with emphasis on works of Michel Foucault. Analysis of the ways in which architecture constructs habits and habitats in relation to philosophical concepts.
ARCHHTC 702 15 Points
History of Housing in Aotearoa New Zealand - Level 9
A research-based examination of New Zealand’s more than 100-year history of building housing at medium and high densities. Includes analysis of exemplars.
ARCHHTC 703 15 Points
Māori and Pacific Housing
Examines Māori and Pacific housing issues and culturally appropriate housing options for Māori and Pacific peoples, including contemporary whare and papakāinga.
ARCHHTC 704 15 Points
Special Topic

ARCHitectural Media and Fabrication

Stage I
ARCHDRC 103 15 Points
Architectural Media 1
An introduction to drawing and computing techniques related to design studio practice and an overview of the analytical and critical value of these techniques for design.
Restriction: ARCHDRC 102
ARCHDRC 104 15 Points
Architectural Media 2
Examines specific types of representation – both freehand and digital – used in architectural media to develop concepts, evaluate architectural thinking and describe and refine design projects.
Restriction: ARCHDRC 202

Stage II
ARCHDRC 203 15 Points
Architectural Media 3
Explores the relationship between methods of architectural drawing and the three-dimensional communication of fabrication and assemblage. Central to this investigation is an understanding of how drawing is evolving in relation to new technologies.
Restriction: ARCHDRC 301, 303, 304, 370, 371, 372, 373

Postgraduate 700 Level Courses
ARCHDRC 700 15 Points
Advanced Digital Fabrication
Covers fabrication technologies and materials, practical experimentation with a range of fabrication tools and an introduction to current research and development.
ARCHDRC 701 15 Points
Timber Fabrication
Covers fabrication technologies with timber materials. Includes the design and realisation of a small timber building through the preparation of concept plans, developed design plans and a scale models.

ARCHDRC 702 15 Points
Special Topic: Architectural Drawing
Builds a research literature review that supports architectural drawing and design processes, including historical overview of conceptual approaches and applications of drawing, scale and linearity, time and duration, exhibition and documentation, leading to production of series of drawings.

ARCHDRC 703 15 Points
Special Topic

Architectural Professional Studies

Stage III

ARCHPRM 305 15 Points
Project Management
Professional practice and the practical demands of managing construction. Explores the roles of architect, client, builder and consultants; land, building, planning and environmental legislation; the consenting processes that precede construction; documentation; cost and quality management; procurement; contract law; construction contracts; site observation; contract administration and progress payments; completion; final accounts; and post-project procedures. 
Prerequisite: ARCHPRM 304, 700
Restriction: ARCHPRM 304, 700

ARCHPRM 700 Level Courses

ARCHPRM 700 15 Points
Project Management
The management of the building project from inception to tendering. An examination of client needs and agreements, feasibility studies, project constraints, cost planning and control, consultants, administration and quality control. An analysis of all aspects of the contracts and documentation during construction and final project accounts. 
Restriction: ARCHPRM 304, 305

ARCHPRM 701 15 Points
Practice Management
The New Zealand legal system and the law of contract and torts; negotiations, negligence, disputes and remedies relevant to architects in practice. An examination of the requirements for establishing and maintaining an architectural practice as a business venture as well as strategic market management, financial planning, insurance and taxation.

ARCHPRM 702 15 Points
Architectural Project Management
Examines the theory and practice of managing a building construction project. Explores advanced models of project organisation, procurement, construction contracts, time and cost management and efficient delivery methods.

ARCHPRM 703 15 Points
Transnational Professional Practice
Examines the theory and practice of how the built environment is designed and constructed when the architect is operating in a foreign field. Utilising problem-based learning and case studies, the student will assume the role of the alien designer who curates context and thus encounters: the vernacular, regionalism, internationalism and indigeneity.

ARCHPRM 704 15 Points
Special Topic

ARCHPRM 705 15 Points
Special Topic

Architectural Technology and Sustainability

Stage I

ARCHTECH 108 15 Points
Introduction to Technology and Sustainability
Introduction to structural concepts and construction principles, including building elements, systems and foundation options. Properties of commonly used construction materials, with a focus on timber frame constructions, their regulatory context, applications and detailing, and appropriate ways of applying the principles to design studio projects. Climate and vernacular architecture. Principles of climate-sensitive design. Sustainability and resilience in the built environment. 
Restriction: ARCHTECH 106, 107

Stage II

ARCHTECH 207 15 Points
Design Technology 1
Development of structural and construction principles and systems for small-scale and residential buildings. Characteristics and behaviour of common building materials. Building components and detailing. Outline of building codes, health and safety regulations and site operations. Active building services and technologies for residential housing, including heating, cooling, ventilation, water, waste, electrical services and vertical transportation. Application to design studio projects. 
Prerequisite: ARCHTECH 108

ARCHTECH 210 15 Points
Environmental Design 1
Prerequisite: ARCHTECH 108
Restriction: ARCHTECH 208

Stage III

ARCHTECH 314 15 Points
Environmental Design 2
Indoor environmental quality for complex, large scale and multi-storey buildings. Requirements of the New Zealand Building Code for energy efficiency and human comfort. Design strategies and innovative materials for high-performance buildings. Qualitative and quantitative approach to sustainable practices. Simulation tools, measurements and techniques. Natural resources,
materials optimisation and building reuse. Sustainability and resilience at the urban scale.

Prerequisite: ARCHTECH 210
Restriction: ARCHTECH 307

ARCHTECH 315 15 Points
Design Technology 2
Development of construction and structural principles for complex, large-scale and multi-storey buildings. Investigation of façade technology, material selection and detailing, as applied in practice. Development of factors affecting buildability, fire protection and building code requirements. Application to design studio projects through drawing and prototyping.
Prerequisite: ARCHTECH 207
Restriction: ARCHTECH 312

Postgraduate 700 Level Courses

ARCHTECH 706 15 Points
Building Materials and Technologies
Explores the selection and integration of appropriate materials, components and systems in relation to the different contexts, scales and stages of the design documentation, procurement and construction of projects, in alignment with the National Standard of Competency for Architects.
Restriction: ARCHTECH 307, 312, 314, 315

ARCHTECH 707 15 Points
Designing with Resilience Thinking
Examines resilience in the built environment, from reviewing the literature on resilience to analysing case studies and developing strategies to enhance resilience in architecture.

ARCHTECH 708 15 Points
Advanced Building Technologies
Examines how responsive skins can be used to improve building performances. Explores the development of building technologies in the Asian and Oceania regions of the Pacific Rim.
Prerequisite: ARCHTECH 314 and 315

ARCHTECH 709 15 Points
Sustainable and Healthy Housing
Examines the current issues of performances and indoor environmental quality in Aotearoa's housing. Explores strategies, technologies and materials for designing and retrofitting sustainable, resilient and healthy housing.
Prerequisite: ARCHTECH 314 and 315

ARCHTECH 710 15 Points
Special Topic

Architecture General

Postgraduate 700 Level Courses

ARCHGEN 702 15 Points
Research Process
An introduction to the research process including: research paradigms and strategies, the identification of research topics and research questions, the review and critique of literature, research methodologies, the structuring of research theses and reports, referencing and the preparation of a bibliography. The focus of the course is on preparing students to undertake their own research projects.
Restriction: ARCHGEN 400, 700

ARCHGEN 703 15 Points
Design as Research
Examines the literature on, and approaches to, research by design. Considers research processes and architectural design processes, and the ways in which these processes might be creatively combined in the context of a Masters level design thesis, in order that the thesis process and outcomes might meet the expectations of a research-based thesis.
Restriction: ARCHGEN 300

ARCHGEN 704 15 Points
Directed Study
Prerequisite: Departmental approval

ARCHGEN 711 15 Points
Special Topic
Restriction: ARCHGEN 710, 712-716

ARCHGEN 712 15 Points
Special Topic
Restriction: ARCHGEN 710, 711, 713-716

ARCHGEN 713 15 Points
Special Topic
Restriction: ARCHGEN 710-712, 714-716

ARCHGEN 714 15 Points
Special Topic
Restriction: ARCHGEN 710-713, 715, 716

ARCHGEN 715 15 Points
Special Topic
Restriction: ARCHGEN 710-714, 716

ARCHGEN 733 15 Points
Public Urban Space in the Contemporary City
Examines the role of public urban space in the city and how history, geography, culture, physical connections and architectural form contribute to its formation. Explores how contemporary cities are transforming their urban environments through design.
Restriction: ARCHGEN 730-732, 734-735, URBDES 702

ARCHGEN 744 15 Points
Special Topic
Restriction: ARCHGEN 740-743, 745

ARCHGEN 750 15 Points
Heritage Processes
Examines heritage conservation legislation, policy, guidelines and processes. Includes international context as well as New Zealand laws and processes.

ARCHGEN 751 15 Points
Heritage Assessment and Conservation Planning - Level 9
Examines the assessment of cultural heritage value and the use and preparation of conservation plans to guide heritage conservation work. Coursework comprises the researching and writing of a conservation plan.

ARCHGEN 752 15 Points
Conservation of Materials
Examines the theory and practice of conserving materials commonly found in heritage buildings and artefacts, including stone, brick, timber, concrete and steel.

ARCHGEN 753 15 Points
Diagnosis and Adaptation
Examines the investigation of existing building fabric, diagnosis of issues impacting upon the state of repair or the level of comfort, and the adaptation of heritage buildings,
including strengthening, energy upgrading, reuse and the design of additions and alterations.

ARCHGEN 754 30 Points
Research Project - Level 9
A research project in the field of heritage conservation which may include an internship. Placements and topics to be approved by the Head of School of Architecture and Planning.
Prerequisite: ARCHGEN 750, 751

ARCHGEN 790 30 Points
ARCHGEN 790A 15 Points
ARCHGEN 790B 15 Points
Research Project - Level 9
Restriction: ARCHGEN 793, 795
To complete this course students must enrol in ARCHGEN 790 A and B, or ARCHGEN 790

ARCHGEN 793A 60 Points
ARCHGEN 793B 60 Points
Thesis - Level 9
A study of research processes, together with a thesis involving a discourse on a topic approved by the Head of School of Architecture and Planning for the degree of Master of Architecture under the guidance of an appointed supervisor.
Restriction: ARCHGEN 795, 796, 797
To complete this course students must enrol in ARCHGEN 793 A and B

ARCHGEN 795A 45 Points
ARCHGEN 795B 45 Points
Thesis - Level 9
A study of research processes, together with a thesis involving a discourse on a topic approved by the Head of School of Architecture and Planning for the degree of Master of Architecture under the guidance of an appointed supervisor.
Restriction: ARCHGEN 793, 796, 797
To complete this course students must enrol in ARCHGEN 795 A and B

ARCHGEN 799 60 Points
ARCHGEN 799A 30 Points
ARCHGEN 799B 30 Points
Research Report - Level 9
A report involving research and application in an architectural subject for the Postgraduate Diploma in Architecture under the guidance of an appointed supervisor.
Prerequisite: ARCHGEN 700 or 702
Restriction: ARCHGEN 798
To complete this course students must enrol in ARCHGEN 799 A and B, or ARCHGEN 799

Dance Studies

Stage I

DANCE 101 15 Points
DANCE 101G 15 Points
Introduction to Dance and Creative Processes
To develop an understanding of our moving bodies through movement awareness, dance improvisation, choreography and creative and analytic writing. Students will undertake both theoretical and practical classes focusing on a range of practices that dancers and movement practitioners use to facilitate kinaesthetic awareness, experimentation, communication and choreography. Students will explore somatic theory and practice, improvisation scores, choreography and dance analysis. DANCE 101 not available for BDanceSt.

DANCE 107 15 Points
Dance History and Contexts
Study of the historical development in western theatre dance from the nineteenth century to the beginning of the twentieth century.

DANCE 110 15 Points
Contemporary Dance and Choreography I
A study of contemporary dance practices through the choreography, creative facilitation and techniques of contemporary dance makers. For BDanceSt students only.

DANCE 112 15 Points
Dance Kinesiology
Introduction to physiological and kinesiological analysis of dance movements. The study of skeletal alignment, muscular balance and mechanical efficiency.

DANCE 120 15 Points
Dance Vocabulary I
Introducing the study of diverse dance vocabulary including ballet, contemporary dance and the field of somatics. Students will examine specific technical requirements of identified dance vocabulary.

DANCE 121 15 Points
Dance Technique
Continuation of work undertaken in DANCE 120 with exploration of skills, repertoire, and merging dance styles. Prerequisite: DANCE 120

DANCE 131 15 Points
Dance Education
The study of dance education practice and theory that shapes teaching and learning of dance in school and community contexts. Note: this course does not meet the requirements for teacher registration in New Zealand.

Stage II

DANCE 200 15 Points
DANCE 200G 15 Points
Dance and Culture
Examines the interrelationship between dance and wider political and cultural movements through practical dance classes and theoretical investigations into diverse cultural environments around the world. Students physically and theoretically engage in the study of various dance forms such as Tango, Salsa, Dabkeh, traditional Chinese dance and Bharata Natyam. Prerequisite: 60 points passed

DANCE 201 15 Points
Dance and Interdisciplinarity
Building integrated connections with other arts disciplines such as music, literature, art. Prerequisite: DANCE 101 or 110

DANCE 207 15 Points
Choreography and Performance
Focuses on the development and consolidation of choreographic and performance skills. Prerequisite: Any 30 points at Stage I in Dance Studies

**Notes:**
- Prerequisites are necessary for the course to be successfully completed.
- Some courses are not available to BA students.
- Dance Production is not available to BA students.
for careers in the diverse dance professions. Students will develop arts management and financial business skills, such as learning to write grant applications, CVs and personal plans that relate to employment and funding issues.

**Prerequisite:** DANCE 222

**DANCE 331** 15 Points

**Dance Education Research**

Analysis of dance teaching and learning philosophies, issues and theories as they are translated from texts and curriculum into classroom and community practice. This course does not meet the requirements for teacher registration in New Zealand.

**Prerequisite:** DANCE 231

**DANCE 350** 15 Points

**Special Topic: Indigenous Contemporary Dance o te Moana Nui a Kiwa**

**Prerequisite:** Any 30 points at Stage II in Dance Studies

**DANCE 351** 15 Points

**Special Topic: Advanced Performance**

**Prerequisite:** Any 30 points at Stage II in Dance Studies

---

### Postgraduate 700 Level Courses

**DANCE 720** 30 Points

**Choreography and Performance Research**

Investigates choreographic practice and dance creation as a location for artistic production and academic research. Students will reflect on their own choreographic and performance practice through studio-based activities, while examining choreographic and performance theory.

**Prerequisite:** Departmental approval

**Restriction:** DANCE 733, 735, 760

**DANCE 722** 30 Points

**Dance in Community and Education Research**

Examines issues and philosophies critical to the development of dance education in formal and informal contexts in New Zealand and internationally. Personal pedagogical practices are reviewed and dominant discourses critiqued.

**Prerequisite:** Departmental approval

**Restriction:** DANCE 734

**DANCE 724** 30 Points

**Research Methods and Critical Analysis in Dance Studies**

Examines diverse qualitative research methods, critical theory and research ethics. Through practical investigations students will source and critically review literature relevant to their personal research directions.

**Prerequisite:** Departmental approval

**Restriction:** DANCE 751

**DANCE 730** 30 Points

**Dance Intensive**

Advanced practice in the physicality and creation of dance.

**Prerequisite:** Departmental approval required

**DANCE 761** 15 Points

**Special Topic**

**Prerequisite:** Departmental approval required

**DANCE 764** 15 Points

**Special Topic**

**Prerequisite:** Departmental approval required

**DANCE 765** 15 Points

**Special Topic in Dance**

---

**DANCE 766** 15 Points

**Special Topic in Dance**

**DANCE 767** 15 Points

**Special Topic in Dance**

**DANCE 768** 15 Points

**Special Topic in Dance**

**DANCE 770** 30 Points

**Dance Project**

**DANCE 772** 15 Points

**Dance Therapy, Theory and Practice I**

Students will develop their knowledge of dance therapy through theoretical and practical approaches to understanding the conceptual and theoretical foundations that underpin concepts of therapy, well-being, therapist/client relationships and clinical health care systems.

**Prerequisite:** DANCE 231

**Restriction:** DANCE 734

**DANCE 773** 15 Points

**Dance Therapy, Theory and Practice II**

Builds on DANCE 772. Focuses on deepening theoretical and practical understanding of the needs of a variety of client populations in regard to different ages, issues and settings, in individual and group work.

**Prerequisite:** DANCE 772

**DANCE 774** 15 Points

**Psychology in Dance Movement Therapy**

Focuses on fundamental skills required for professional clinical settings, including counselling and psychological theories and practice including accurate observation and listening techniques, development of the individual and group therapeutic relationship. Key areas covered include abnormal psychology, developmental psychology, group process and advanced counselling skills.

**DANCE 775** 30 Points

**Therapeutic Modalities of DMT**

Practicums in dance therapy contexts are supervised by experienced dance therapists. Students will extend their real world knowledge and develop their experience in observing, reporting and facilitating dance movement therapy.

**DANCE 776** 15 Points

**Awareness and Analysis in DMT**

Anatomy and kinesiology will involve the study of the structures and systems of the body through both somatic and scientific approaches. Movement observation involves developing key diagnostic and reporting tools in dance movement therapy.

**DANCE 777A** 15 Points

**DANCE 777B** 15 Points

**Practicum in Dance Movement Therapy**

Advanced practicum placements in dance therapy settings are supervised by experienced dance therapists. Students will extend their practical knowledge and develop their experience in observing, reporting and facilitating dance movement therapy at a professional level.

**Prerequisite:** B average or higher in Part I

**Corequisite:** DANCE 797

To complete this course students must enrol in DANCE 777 A and B

**DANCE 791** 30 Points

**Research Project - Level 9**

---
A studio-based course in which students learn new Design Methods and Processes 2

DESIGN 200 30 Points

Stage II

Design

Stage I

DESIGN 100 30 Points

Design Methods and Processes 1
Introduces students to human-centred design methods and tools that range from problem framing to prototyping, modelling, and validating solution ideas. Students will address a variety of briefs based on real-world problems and contexts, exploring their personal creative potential through a series of hands-on projects supported by presentations.

DESIGN 101 15 Points

Design Theory and Fundamentals
Introduces historical and contemporary drivers of design as a maker of socio-cultural meaning. Students will learn fundamental design principles used for communication and sense-making, applied across a variety of mediums and technologies. Students will be introduced to tikanga Māori and to the main ethical, socio-cultural, economic and environmental propellants of design.

DESIGN 102G 15 Points

Design for Sustainable Futures
New opportunities are continually emerging in the field of design. This course introduces design as strategy, demonstrating how contemporary design practices have evolved, responded to, and influenced change. By developing a design project that responds to the United Nations Sustainable Development Goals, students will learn how design thinking complements current practice and expands career prospects.

Stage II

DESIGN 201 15 Points

Creative Communities
Introduces how the digital revolution has empowered people to organise themselves, collaborate and co-operate in non-hierarchical, creative ways. Students will explore the role of designers as catalysts for bottom-up, self-determined and distributed creativity within this scenario. They will learn to design for purpose and positive impact, co-creating open and resilient systems within their local communities.

Prerequisite: DESIGN 100, 101

DESIGN 210 15 Points

Identity, Indigeneity and Place
Encourages students to identify their own positionality within Aotearoa and the wider Pacific. Using decolonising methods to critically analyse design solutions, students will explore their own identity and position themselves as cultural practitioners with obligations towards local communities.

Prerequisite: DESIGN 100, 101

DESIGN 211 15 Points

Aotearoa New Zealand Narratives
An introduction to cultural narratives of Aotearoa New Zealand, and the role that contemporary design is playing as a participatory method for community-led change, both from bottom-up and institutional perspectives. Students will explore design as a practice for facilitating self-determination, and learn ways to enable genuine, respectful partnerships in order to tackle complex local and global challenges.

Prerequisite: DESIGN 100, 101

DESIGN 212 15 Points

Local Making
Examines historic and contemporary making techniques, materials, and networks to understand the scope, scale and value of local traditions, with an emphasis on Māori and Pacific practices. Students will collate a personalised database of local inspirations and resources for continued development and professional reference. This will form the inspiration for the students’ own made outcomes.

Prerequisite: DESIGN 100, 101

DESIGN 213 15 Points

Special Topic: Food Design
Prerequisite: DESIGN 100, 101

DESIGN 220 15 Points

Design Innovation
Introduces students to entrepreneurship within creative industries, focusing on the role of strategic design as a driver for purpose-led, sustainable innovation. Students will learn trends, methods and tools for organisational innovation, whether funding, launching, and managing new start-up companies, or dealing with change within existing organisations (entrepreneurship).

Prerequisite: DESIGN 100, 101
DESIGN 221 Professional Design Practice
15 Points
Examines personal career paths, design team and project operations and responsibilities in small studios through to large organisations, the role of professional networks, and resources for designers to present themselves and their work to future collaborators.
Prerequisite: DESIGN 100, 101

DESIGN 222 Business Tools for Designers
15 Points
Examines the most relevant tools that designers use for project management and business development. This includes services and technologies involved in strategic planning, content management, scheduling, communicating, collaborating, costing, client relations, impact planning, and product and market research.
Prerequisite: DESIGN 100, 101

DESIGN 223 Special Topic: Game Design
15 Points
Prerequisite: DESIGN 100, 101

DESIGN 230 Design, Wellbeing and Communities
15 Points
Students will identify and analyse how selected design interventions contribute to the health and wellbeing of communities in a range of contexts. Using service and experience design methods students will present ethical and feasible design strategies that examine notions of wellbeing, health, happiness and freedom, from individual to community level perspectives.
Prerequisite: DESIGN 100, 101

DESIGN 231 The Future of Work and Play
15 Points
Students will analyse how global techno-social changes such as automation and climate change could impact the way we work and play, now and in the future. Students will critically speculate about possible and probable futures by developing fictional scenarios which test a range of design concepts for transition into preferable futures.
Prerequisite: DESIGN 100, 101

DESIGN 232 Smart Homes and Cities
15 Points
Introduces the main drivers, strategies, and technologies that make smart cities efficient and sustainable. Students will analyse case studies to understand how these cities work from a systems-level perspective to a human-scale, experiential level. They will propose concept solutions to identified problems and opportunities, demonstrating how future homes and cities may operate synergistically through a connected system of interfaces and services.
Prerequisite: DESIGN 100, 101

DESIGN 233 Design for the Natural Environment
15 Points
An overview of the ways that design can promote and actualise the regeneration of our natural environment through collaborative, systemic, and circular innovation. Students will learn fundamental theory, frameworks and methods to create positive impact using design strategy within the fields of environmental sustainability and conservation.
Prerequisite: DESIGN 100, 101

DESIGN 240 Designing with Data
15 Points
Introduces students to the impact data representation
has on public perception of global issues. Students will engage and experiment with computational methodologies to interpret, visualise and interact with data sources corresponding to a specific Sustainable Development Goal. Students will produce provocative data-driven visualisations that promote a call-to-action related to a foreseeable local or global crisis.
Prerequisite: DESIGN 100, 101

DESIGN 241 Designing Mixed Realities
15 Points
Introduces an overview of new materials, products and processes connecting virtual and physical worlds. Students will explore these alternative realities as catalysts for positive impact. Students will experiment with technologies to design projects that augment human experiences in hybrid environments.
Prerequisite: DESIGN 100, 101

DESIGN 242 Design and Autonomous Technology
15 Points
Introduces the major social, ethical, and technical trends driving the adoption of autonomous technologies and artificial intelligence. Students will explore the expanding role design can play within this field, through a purpose-led, human-centred perspective. Students will produce a prototypical device designed to have autonomous capabilities to affect human or ecological advancement.
Prerequisite: DESIGN 100, 101

DESIGN 243 Design and Assistive Technologies
15 Points
Students will investigate design interventions that have successfully employed assistive strategies to improve or extend human movement, sensation or mental capacity for a range of individuals and communities. Students will experiment with a range of technologies, experiences and services to design an assistive or rehabilitative intervention that reduces inequalities amongst individuals.
Prerequisite: DESIGN 100, 101

Stage III

DESIGN 300 Design Research Methodologies
15 Points
Introduction to a range of key design methodologies that inform contemporary design thinking, research and practice within Aotearoa New Zealand, with reference to Mana Moana philosophies of making and community. Drawing on methodological principles, students learn how to develop design strategies, apply design processes and test their design concepts. Consideration will be given to the phasing and planning of design investigations from data analytics to design concepts to practical methods and proposed solutions.
Prerequisite: DESIGN 100, 101 and 90 points from DESIGN 200-243

DESIGN 301 Advanced Design Methods Capstone
45 Points
Students will complete a major design project in collaboration with local stakeholders. Students will develop a design strategy in response to a real-world issue. They will engage in research and practical studio work, select appropriate methods, and use multiple tools and
technologies to produce a prototype. Outcomes will be presented to and critiqued by design professionals.  
**Prerequisite:** DESIGN 200, 201, 300 and 90 points from DESIGN 210-243  
**Corequisite:** DESIGN 302

**DESIGN 302**  
**15 Points**  
**Critical-Technical Positioning**  
Students will produce a written account of their capstone project (DESIGN 301). The account will take the form of an essay or technical report supported by visual evidence. It will provide a critical contextualization of the capstone project in relation to global challenges, and use design theory to describe the project from problem framing through to execution.  
**Prerequisite:** DESIGN 200, 201, 300  
**Corequisite:** DESIGN 301

---

**Postgraduate 700 Level Courses**

**DESIGN 700**  
**15 Points**  
**Design Research Methodologies**  
A study of how to adopt and adapt different methodologies for context analysis, concept development, design iteration, deployment and evaluation.

**DESIGN 701**  
**15 Points**  
**Design Practices**  
A survey of current contexts, resources and networks to be applied in advanced design practice.

**DESIGN 702**  
**30 Points**  
**Design Technologies**  
A studio-based study of process and production technologies for advanced design outcomes.

**DESIGN 703**  
**30 Points**  
**Project Design**  
The application of design methods, models and technologies to formulate a design specification for prototype development.  
**Prerequisite:** DESIGN 700-702

**DESIGN 704**  
**15 Points**  
**Design Impacts**  
A studio-based investigation that considers design as a catalyst for change and the models for measuring the impacts of design interventions.  
**Prerequisite:** DESIGN 700-702

**DESIGN 705**  
**15 Points**  
**Design Futures**  
Applying speculative design methods to develop future scenarios and solutions for emerging societal and environmental challenges.  
**Prerequisite:** DESIGN 700-702

**DESIGN 706**  
**30 Points**  
**Design Enterprise**  
A studio-based study of enterprise practices for the stable deployment and viable adoption of design products and services.  
**Prerequisite:** DESIGN 700-702

**DESIGN 707**  
**30 Points**  
**Internship**  
An approved internship in design with a commercial or community organisation.  
**Prerequisite:** DESIGN 700-702

---

**Capstone Project**  
An independent studio-based project that critically investigates a specific contemporary issue in design or an issue that would benefit from an advanced design-based solution. Students will develop a project and document the process and impact of their solution to the underlying issue.  
**Prerequisite:** DESIGN 703  
**To complete this course students must enrol in DESIGN 708 A and B, or DESIGN 708**

**DESIGN 708**  
**60 Points**  
**DESIGN 708A**  
**30 Points**  
**DESIGN 708B**  
**30 Points**

---

**Thesis - Level 9**

**DESIGN 794A**  
**30 Points**  
**DESIGN 794B**  
**60 Points**  
**To complete this course students must enrol in DESIGN 794 A and B**

**DESIGN 795A**  
**30 Points**  
**DESIGN 795B**  
**60 Points**  
**Research Portfolio - Level 9**  
**Prerequisite:** DESIGN 700-702  
**To complete this course students must enrol in DESIGN 795 A and B**

---

**Fine Arts**

**Stage I**

**FINEARTS 101**  
**30 Points**  
**Studio 1.1**  
Students will work on a range of 'ideas based' activities that will challenge them progressively to develop and extend their knowledge and skills. These range from short focused projects to those allowing more time for research and personal development. Students will cover a range of the disciplines available in the school and be encouraged to explore in a cross-disciplinary manner.  
**Corequisite:** FINEARTS 103 or 104

**FINEARTS 102**  
**30 Points**  
**Studio 1.2**  
An extension of projects from FINEARTS 101 Studio 1.1. Students will be encouraged to develop personal creative directions with a focus on experimentation and interdisciplinary art and design outcomes.  
**Prerequisite:** FINEARTS 101  
**Corequisite:** FINEARTS 103 or 104

**FINEARTS 103**  
**15 Points**  
**Drawing and Related Practices**  
An introduction to different approaches to drawing and its relationship with contemporary practices in art and design, including traditional approaches to drawing and drawing techniques. Students will also explore drawing as a conceptual process. Research which investigates drawings as both a technical and conceptual practice is encouraged.  
**Corequisite:** FINEARTS 101 or 102

**FINEARTS 104**  
**15 Points**  
**Introduction to Critical Studies**  
An introduction to contemporary art from a practice-led perspective. Themes, ideas and movements relevant to the field of contemporary art will be introduced, alongside key theoretical and philosophical terms. Students study the ways these contextual and conceptual frameworks inform art production. Emphasises the multiple ways in which
art-practice engages with these frameworks. Aspects of tikanga Māori and its relationship to art-making will also be introduced.

Corequisite: FINEARTS 101 or 102

FINEARTS 105
Special Topic
15 Points

FINEARTS 109G
Introduction to Photographic Practice
15 Points
Introduces the methods, concepts and contemporary contexts of photographic practice alongside the development of a photographic portfolio. Students will use their own camera, (this can include cell phone cameras) to develop a portfolio of photographic work and explore the ways in which contemporary arts and cultural practices in Aotearoa enable a critical reflection on the production of images.

FINEARTS 110
Introduction to Fine Arts Technologies
15 Points
Introduces students to a range of technical workshops and skills for artistic practice. Students will develop a set of technical competencies and build their capacity to think through making. Students will be inducted into best workshop practice, whakaute, health and safety protocols, and be assessed as safe workshop users while working under direct supervision.

FINEARTS 111
Fine Arts Studio 1
30 Points
Through a series of three short studio-based projects, students will be introduced to key concepts and practices of painting, sculpture and social practice. Emphasises the acquisition of skills in conceptual thinking and the development of ideas, using a range of approaches to the making and presentation of artworks. Aspects of mātauranga Māori and its relationship to artmaking will also be introduced.

FINEARTS 112
Fine Arts Studio 2
30 Points
Through a series of three short studio-based projects, students will be introduced to key concepts and practices of print, time-based arts, and photography. Emphasises the acquisition of skills in conceptual thinking and the development of ideas, using a range of approaches to the making and presentation of artworks. Aspects of mātauranga Māori and its relationship to artmaking will also be covered.

FINEARTS 113
Ideas and Contexts for Creative Practice
15 Points
Introduces the ways the knowledge of contemporary art and ideas can enable an individual artistic practice. Students will discover and understand ideas relevant to contemporary art.

Stage II

FINEARTS 201
Studio 2.1
30 Points
Provides an understanding of contemporary artistic practice relevant to students' developing artistic interests. Students engage with current art and/or design ideas, methodologies and positions and become experienced in understanding their own practice in relationship to contemporary practices in an increasingly reflexive manner. Consists of the supervised completion of a number of prescribed briefs from which students select.
Prerequisite: FINEARTS 101, 102, 103 and 104 or FINEARTS 100
Corequisite: FINEARTS 203

FINEARTS 202
Studio 2.2
30 Points
Focuses on the conditions of reception relevant to students' work including: ways meaning is created; how art and/or design works are read; and the significance of presentation strategies. Consists of the supervised completion of longer briefs, of which one is self-generated.
Prerequisite: FINEARTS 201

FINEARTS 203
Studio 2.3
15 Points
Study and exploration through practice of an issue relevant to a discipline or area of contemporary discourse. Students will understand, explore and analyse a selected issue through readings, discussions and production and presentation of studio work.
Prerequisite: FINEARTS 101, 102, 103 and 104 or FINEARTS 100
Corequisite: FINEARTS 201 or 202

FINEARTS 204
Critical Studies
15 Points
A practice-led perspective to consider the key contexts and concepts relevant to contemporary art introduced in FINEARTS 104. Examines selected theoretical and philosophical terms, their broader cultural contexts, and their relevance for art-practice. Complements FINEARTS 207 and 208, by exploring art's dynamic relationship to the range of contexts and knowledge discussed, and the ways in which these relationships inform art's production and reception.
Prerequisite: FINEARTS 101, 102, 103, 104
Corequisite: FINEARTS 201 or 202 or 207 or 208 or 209 or 212

FINEARTS 205
Special Topic: Creative Computing
15 Points
Introduces methods and concepts for engaging with computing as artistic practice. Students will learn fundamental principles of programming, work with generative and algorithmic processes, and explore approaches and ideas in the field of computational arts. No prior experience in coding is necessary.

FINEARTS 206
Fields of Practice 2
15 Points
Allows students to study and explore through practice an issue relevant to a media area, with the aim of encouraging reflexivity in relation to media processes. In this course students will understand, explore and analyse a selected issue through readings, discussions and production and presentation of studio work.
Prerequisite: FINEARTS 101, 102, 103, 104, 201, 203
Corequisite: FINEARTS 202

FINEARTS 207
Studio Practice 1
45 Points
Provides an understanding of contemporary artistic practice relevant to students' developing interests. Students will engage with current art ideas, methodologies and positions and will gain experience in understanding their own work in relationship to local and international contemporary art practices. Consists of the supervised completion of a number of prescribed briefs, and focused contextual study in an area relevant to the student's broad interests. Discipline-based and interdisciplinary learning will be
undertaken, with a dual emphasis on the development of conceptual thinking and material languages.

Prerequisite: FINEARTS 101, 102, 103, 104
Restriction: FINEARTS 201, 203

FINEARTS 208
Studio Practice 2
Focuses on the conditions of reception relevant to students' work including ways meaning is created; how art works are read; and the significance of presentation strategies. Consists of a range of supervised briefs embracing media specific, interdisciplinary, Māori, local and global approaches to creating art works. Students will also engage in focused contextual study in an area relevant to their studio interests.

Prerequisite: FINEARTS 207 or 209
Restriction: FINEARTS 202, 206

FINEARTS 209
Studio Practice 1
Provides an understanding of contemporary artistic practice relevant to students' developing interests. Students will engage with current art ideas, methodologies and positions and will gain experience in understanding their own work in relationship to local and international contemporary art practices. Consists of the supervised completion of a number of prescribed briefs. Discipline-based and interdisciplinary learning will be undertaken, with a dual emphasis on the development of conceptual thinking and material languages.

Prerequisite: FINEARTS 101, 102, 103, 104
Restriction: FINEARTS 201, 203, 207

FINEARTS 210G
Understanding Contemporary Visual Arts Practice
How does the contemporary art world work? Premised on the idea that there are many art worlds, this course examines global and local contemporary artistic practices, theories, histories and institutions, exploring the practices and discourses that constitute these worlds. No prior knowledge or experience of contemporary art is assumed.

Prerequisite: 60 points passed

FINEARTS 211G
Understanding Contemporary Fashion Design
Investigates the relationship between fashion design and identity to build understanding of the increasing rapidity of clothing change as both the product of individual choice and the manifestation of a need for community. The emphasis will be on the consumption of fashion and its relationship to the human body with reference to fashion theory in the context of the broader literatures of gender, class and ethnicity.

Prerequisite: 60 points passed

FINEARTS 212
Studio Practice 2
Focuses on the conditions of reception relevant to students' work including ways meaning is created; how art works are read; and the significance of presentation strategies. Consists of a range of supervised briefs embracing media specific, interdisciplinary, Māori, local and global approaches to creating art works.

Prerequisite: FINEARTS 207
Restriction: FINEARTS 202, 206, 208

FINEARTS 220
Nga Toi Taketake: Fibre and Textile
Engages students with concepts, materials and methods of making that are indigenous to Aotearoa. Explores ways of developing and creating contemporary art in fibre and textile.

Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 221
Nga Toi Taketake: Kōhatu / Stone
Engages students with concepts, materials and methods of making that are indigenous to Aotearoa. Explores ways of developing and creating contemporary art in kōhatu/stone.

Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 222
Printed Matter: Printmaking
Explores contemporary printed matter. Students will work with a range of traditional printmaking technologies that may include monoprint, screen print, woodcut, and photogravure as well as expanded, experimental processes using digital and laser cutting technologies.

Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 223
Printed Matter: Publication
Introduces students to print publication as a site of contemporary practice exploring ways in which artists, designers, and activists have made use of the printed form as a social medium. Students will experiment with the format and materiality of printed media, and the experience of viewing, through the production of self-published works such as artist's books, posters, and zines. Technical workshops will develop skills in digital and hand-made print and production methods.

Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 224
Time-Based: Moving Image
Offers a practical exploration of moving image production. Students will learn camera techniques and editing skills to support the development of experimental video and audio while learning how digital workflow and project management can affect a creative outcome. Students can work collaboratively or individually, using a range of filmmaking equipment and editing software to create moving image works.

Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 225
Time-Based: Action and Documentation
Considers how documentation informs our understanding of time-based action and/or performance art and what might be done to retain and communicate the effects of a passing event. Students explore their own time-based practices and develop appropriate methods of documentation including video, photography, drawing, and sound recording. Students can work both collaboratively and individually, using documentation as a visual and conceptual tool for the creation of artworks.

Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 226
Photography: Digital Photography
Covers the conceptual and practical possibilities of digital photography. Students will experiment with a wide range of image-making technologies including SLR digital cameras. Lighting considerations and a range of options for printing
digital photos will be explored. Contemporary photographic practices will be covered within the context of global image circulation.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 227 15 Points
Photography: Analogue Photography
Provides students with an overview of analogue photographic processes. Students will gain skills in darkroom photography, including a practical understanding of film camera technologies, developing and printing processes, and the use of darkroom techniques to refine and manipulate photographic imagery.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 28 15 Points
Painting: Materiality and Process
Considers the various ways in which actions, processes, and materials can shape a painting practice. Covers a range of painterly actions and a self-generated list of ‘paint-related’ verbs (to roll, to smudge, to scrape). Students will create a ‘catalogue’ of marks and manipulations of paint. They will then develop these ideas through a studio practice which explores abstraction, materiality, and considerations of form. A broad range of traditional, modern and expanded paint properties and mediums will be considered.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 229 15 Points
Painting: Painted Images
Explores contemporary techniques of still life and representational painting as a means of re-thinking visual histories. Students will gather and arrange source materials and object references and explore a range of painted responses. Emphasises the construction and preparation of supports and surfaces, colour theory, and the methods and mediums that support painting practice.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 230 15 Points
Sculpture: Constructing and Fabricating
Based in the metal and wood workshops, this course will guide students in the exploration of materials and construction processes. Develop sculptural works in metal or wood. Students will use tools and techniques such as cutting, joining and welding.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 231 15 Points
Sculpture: Shaping and Casting
Engages with tactile processes of object-making and reproduction to create works of contemporary art using clay, wax, and other materials. Students will make reproductions of their handmade objects using a range of casting processes and explore how multiples impact the form and content of artworks.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 232 15 Points
Performance: Communication, Identity and Community
Focuses on performance art as a means of communication. Examines the ways in which performance can be integral to an artistic and cultural identity, contemporary life, and community.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 234 15 Points
Creative Careers: Pathways
Emphasises the practical aspects of establishing a career as a creative practitioner. Covers writing proposals, applications, artist’s statements, and other practical tools for a creative career. Focuses on the ability to communicate ideas effectively to peers and professional networks.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 235 15 Points
Creative Careers: Making Exhibitions
Students will consider the types of roles and structures that exist in contemporary art worlds, with a focus on curatorial practice and exhibition making from the perspective of the artist. Engaging with the local art world, students will develop a critically informed exhibition proposal for a real-world context.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 236 15 Points
Special Topic: Drawing as Creative Thinking
An introduction to approaches to drawing and its relationship with contemporary practices in art and design, including digital and analogue drawing techniques. The course explores drawing as a conceptual method of thinking through making.

FINEARTS 240 30 Points
Indigeneity and Culture: Ko wai au?
Encourages the development and creation of artworks that explore whakapapa, whakawhanaungatanga, genealogy, and relationality as the foundation of creative practice in the contexts of Aotearoa and Te-Moana-Nui-a-Kiwa. Related indigenous methodologies and concepts will be explored.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 241 30 Points
Indigeneity and Culture: Power and Place
Explores and examines the ongoing impact of colonisation, imperialism, and migration through art making. Related indigenous methodologies and concepts will be explored.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 242 30 Points
Image, Object and Materiality: What is an Image?
Addresses image-making in a digital world. Explores the relation between the fabrication of individual images and their circulation through mass media using different mediums. Reflection on the different ways artists might embrace or subvert the profusion of internet imagery.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 243 30 Points
Image, Object and Materiality: What is an Object?
Addresses object-making in a digital world. Responds to the immaterial condition of internet culture, students will generate sculptural objects that exist in real space.
Reflection on materiality and mediation in contemporary culture.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 244 30 Points
Embodyment, Identity and Agency: Art and Audience
Explores the role of the audience through a creative project, as well as examining the work of artists and writers who have challenged assumptions about art production and reception. Aspects of cultural safety and the ethics of working with others will also be addressed.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 245 30 Points
Embodyment, Identity and Agency: Art and the Self
How is identity produced? Explores key concepts of fluidity, intersectionality, body image, fashion, gender and persona, in relation to photography, film, art, and fashion.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 246 30 Points
Systems, Ecologies and Environments: Art in the Anthropocene
Students will undertake a studio art project that responds to the challenges of the Anthropocene and climate change. The course explores related art and ideas from Aotearoa and overseas.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 247 30 Points
Systems, Ecologies and Environments: Embodied Nature
Explores our place as a species within a broader ecological framework. Enables students to reflect on the limitations proposed by ways of thinking that separate self from world. Through studio practice and artistic research, develops an enhanced awareness of and sensitivity to living systems.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 248 30 Points
Technology and Material Futures: Mixed Realities
Considers virtual and tactile methods of production in contemporary art. Investigates the tension where the physical and virtual worlds are woven together. In mixed realities, the line between analogue and digital artmaking is blurred. This course provides an opportunity to experiment with technologies which might include 3D printing, real-time and interactive technologies, laser cutting, digital casting, and 3D scanning.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 249 30 Points
Technology and Material Futures: World-making
Focuses on the idea that a key driver of creative practice is the seeking out and imagining of alternative models for living, this course provides students with the opportunity to engage in world-making. Students generate and produce artworks that explore new worlds. Provides an understanding of how material affects and conceptual propositions work together to produce meaning in an artwork.
Prerequisite: FINEARTS 101, 102, 103, 104, or FINEARTS 110, 113 and FINEARTS 111 or 112

FINEARTS 250 30 Points
Special Topic
will explore and develop a range of methodologies that will enable them to understand the principle of a self-directed practice. Students are required to pursue open-ended exploration and critical analysis within their studio work, with an emphasis on experimentation and reflexivity. Consists of a range of supervised briefs embracing media specific, interdisciplinary, Māori, local and global approaches to creating art works. Students will also engage in focused contextual study in an area relevant to their interests.  
**Prerequisite:** FINEARTS 204, 207, 208  
**Restriction:** FINEARTS 302, 304

**FINEARTS 309**  
**Studio Practice 4**  
45 Points  
Extends the self-directed aspect of FINEARTS 308 through work on one or two long-term personal projects. A key focus is the identification of, and response to, a contextual issue or mode of practice relevant to contemporary art. Students will begin to develop an understanding of their own practice within the context of a wider field of local and international contemporary art practices. Students will also engage in focused contextual study in an area relevant to their interests.  
**Prerequisite:** FINEARTS 308 or 310  
**Restriction:** FINEARTS 303, 307

**FINEARTS 310**  
**Studio Practice 3**  
30 Points  
Builds upon the conceptual, material, technical and contextual work undertaken in Studio Practice 2. Students will explore and develop a range of methodologies that will enable them to understand the principle of a self-directed practice. Students are required to pursue open-ended exploration and critical analysis within their studio work, with an emphasis on experimentation and reflexivity. Consists of a range of supervised briefs embracing media specific, interdisciplinary, Māori, local and global approaches to creating art works.  
**Prerequisite:** FINEARTS 204, 207, 208  
**Restriction:** FINEARTS 302, 304, 308

**FINEARTS 311**  
**Studio Practice 4**  
30 Points  
Extends the self-directed aspect of FINEARTS 308 through work on one or two long-term personal projects. A key focus is the identification of, and response to, a contextual issue or mode of practice relevant to contemporary art. Students will begin to develop an understanding of their own practice within the context of a wider field of local and global contemporary art, and contemporary Māori Art practices.  
**Prerequisite:** FINEARTS 308  
**Restriction:** FINEARTS 303, 307, 309

**FINEARTS 320**  
**Creative Practice Research Methodologies**  
15 Points  
Investigates what it means to consider creative practice as research. Develops skills in researching and applying appropriate methodological frameworks to practice.  
**Prerequisite:** FINEARTS 204, 207, 208, or FINEARTS 204, 207, 212, or FINEARTS 204, 208, 209, or FINEARTS 110-113, 90 points from FINEARTS 220-250

**FINEARTS 321**  
45 Points  
**FINEARTS 321A**  
22.5 Points  
**FINEARTS 321B**  
22.5 Points  
**Fine Arts Studio 3: Capstone Project**  
A major studio art project that demonstrates an advanced level of practical, independent, inventive, and conceptual enquiry. Students will engage in research and studio investigation using tools, technologies, and methods appropriate to their chosen field or fields of enquiry.  
**Prerequisite:** FINEARTS 320  
**Corequisite:** FINEARTS 322  
To complete this course students must enrol in FINEARTS 321 A and B, or FINEARTS 321

**Research Essay: Making Sense of Practice**  
A response to the capstone project, this course focuses the research essay within relevant local, international, and historical fields of practice. Considers different ways of writing and discussing art, and how different types of art may be served by different forms of interpretation.  
**Prerequisite:** FINEARTS 320  
To complete this course students must enrol in FINEARTS 322 A and B, or FINEARTS 322

**Stage IV**

**FINEARTS 402**  
30 Points  
**Studio 4.1**  
Places emphasis on students’ understanding and articulation of concepts and discourse surrounding their work. Promotes the development of independent artistic and/or design philosophies and their effective use in relation to studio practice.  
**Prerequisite:** FINEARTS 302, 303, 304 and 305 or FINEARTS 300  
**Corequisite:** FINEARTS 403

**FINEARTS 403**  
30 Points  
**Studio 4.2**  
Advances students’ understanding of the way meaning effects are produced by things done or made and the way they are presented. Develops students’ personal methodology through the production of a coherent body of work supported by a considered use of studio research and explorative work.  
**Prerequisite:** FINEARTS 302, 303, 304 and 305 or FINEARTS 300  
**Corequisite:** FINEARTS 402

**FINEARTS 404**  
30 Points  
**Studio 4.3**  
Further develops students’ understanding and articulation of concepts and discourse surrounding their studio work. Promotes the development of independent artistic and/or design philosophies and their effective use in relation to studio practice.  
**Prerequisite:** FINEARTS 402  
**Corequisite:** FINEARTS 403 or 405

**FINEARTS 405**  
30 Points  
**Studio 4.4**  
Directed at the synthesis and refinement of previous studio practice towards the production and presentation of a body of studio work that demonstrates advanced understandings and professional capabilities. Emphasis placed on the development of presentation strategies appropriate to the exhibition and/or professional submission of work.  
**Prerequisite:** FINEARTS 403  
**Corequisite:** FINEARTS 402 or 404

**FINEARTS 406**  
30 Points  
**Special Topic**  
A development of Part III Studio courses in selected fields.
FINEARTS 407 30 Points
Special Topic
A development of Part III Studio courses in selected fields.

FINEARTS 408 60 Points
Studio 4 A
Assists students to develop their creative practice through the production of a coherent body of studio-based work. This will be supported by considered development of an artistic and/or design philosophy and its effective use in relation to studio practice. The course encourages a solid understanding of presentation strategies appropriate to the exhibition and/or professional presentation of creative work.
Prerequisite: FINEARTS 305, 308, 309
Restriction: FINEARTS 402, 403

FINEARTS 409 60 Points
Studio 4 B
Building on Studio 4A this course will assist students to develop further their creative practice through the production of a coherent body of studio-based work. Students will further develop their understanding and articulation of concepts and discourses relevant to their studio work. The course promotes a reflexive understanding of creative practice and strategies for its professional presentation.
Prerequisite: FINEARTS 408
Restriction: FINEARTS 404, 405

Postgraduate 700 Level Courses
FINEARTS 756A 60 Points
Research Project - Level 9
A research project in fine arts and/or design.
To complete this course students must enrol in FINEARTS 756 A and B

FINEARTS 756B 60 Points

FINEARTS 758 15 Points
Creative Practice Methodologies
A guided exploration of a range of key research methodologies relevant to contemporary art. Using a seminar format, this course will provide students with the research-specific, discursive and academic skills necessary for advanced creative practice.
Prerequisite: FINEARTS 759

FINEARTS 759 45 Points
FINEARTS 759A 30 Points
FINEARTS 759B 15 Points
Studio
An advanced studio course in which students complete a significant studio art project that demonstrates a sustained level of practical and conceptual enquiry.
To complete this course students must enrol in FINEARTS 759 A and B, or FINEARTS 759

FINEARTS 761 30 Points
Contemporary Practice 1
A studio-based investigation of a specific medium of contemporary practice. Students will develop advanced conceptual capabilities in that medium and realise finished works to an advanced standard. These specialised outcomes will be informed by complementary acquisition of advanced technical skills and theoretical knowledge in co-requisite courses focused on the same medium.
Prerequisite: FINEARTS 762 or 763

FINEARTS 762 15 Points
Creative Technology 1
A workshop-based exploration of a specific medium of contemporary practice. Students will develop advanced technical skills in that medium as an area of targeted inquiry. These advanced skills will complement the attainment of specialised creative studio capabilities and advanced theoretical knowledge in co-requisite courses focused on the same medium.

FINEARTS 763 15 Points
Theories of Practice 1
A seminar-based interrogation of contemporary theories and contexts pertinent to a specific medium of contemporary practice. Students will develop an advanced understanding of key critical and contextual analysis in that medium. This understanding will complement the attainment of specialised creative studio capabilities and acquired advanced technical skills focused on the same medium.

FINEARTS 764 30 Points
Contemporary Practice 2
A studio-based investigation of a specific medium of contemporary practice. Students will develop advanced conceptual capabilities in that medium and realise finished works to an advanced standard. These specialised outcomes will be informed by complementary acquisition of advanced technical skills and theoretical knowledge in related courses focused on the same medium.
Prerequisite: FINEARTS 765 or 766

FINEARTS 765 15 Points
Creative Technology 2
A workshop-based exploration of a specific medium of contemporary practice. Students will develop advanced technical skills in that medium as an area of targeted inquiry. These advanced skills will complement the attainment of specialised creative studio capabilities and advanced theoretical knowledge in co-requisite courses focused on the same medium.

FINEARTS 766 15 Points
Theories of Practice 2
A seminar-based interrogation of theories and contexts pertinent to a specific medium of contemporary practice. Students will develop an advanced understanding of key critical and contextual analysis in that medium. This understanding will complement the attainment of specialised creative studio capabilities and acquired advanced technical skills focused on the same medium.

FINEARTS 767 30 Points
FINEARTS 767A 15 Points
FINEARTS 767B 15 Points
Studio - Level 9
A supervised studio course in which students complete a significant studio art project producing an original outcome at an advanced level that demonstrates a sustained level of independent, practical and conceptual enquiry.
Prerequisite: FINEARTS 762
To complete this course students must enrol in FINEARTS 767 A and B, or FINEARTS 767

FINEARTS 768 45 Points
Studio - Level 9
A supervised studio course in which students complete a significant studio art project producing an original outcome...
at an advanced level that demonstrates a sustained level of independent, practical and conceptual enquiry.
Corequisite: FINEARTS 769

FINEARTS 759 15 Points
Studio Practice Essay - Level 9
A supervised, independent research essay in which students evaluate and analyse their practice and its contexts to an advanced level.

FINEARTS 770 15 Points
Research Methodologies - Level 9
A guided exploration of key research methodologies relevant to contemporary art and art writing. Students draw upon these methodologies to inform and critically investigate their current and ongoing independent research in the discipline at an advanced level.

FINEARTS 779A 45 Points
FINEARTS 779B 45 Points
Studio - Level 9
A supervised, independent studio-based investigation of an aspect of contemporary art practice to an advanced level. 
Prerequisite: FINEARTS 770 and 45 points from FINEARTS 761-769, or FINEARTS 790
Corequisite: FINEARTS 780
To complete this course students must enrol in FINEARTS 779 A and B

FINEARTS 780A 15 Points
FINEARTS 780B 15 Points
Studio Research Essay - Level 9
A supervised, independent research essay that critically investigates a topic of pertinence to an aspect of contemporary art practice. 
To complete this course students must enrol in FINEARTS 780 A and B

FINEARTS 781A 60 Points
FINEARTS 781B 60 Points
Research Portfolio - Level 9
To complete this course students must enrol in FINEARTS 781 A and B

FINEARTS 782 30 Points
FINEARTS 782A 15 Points
FINEARTS 782B 15 Points
Research Essay - Level 9
A supervised, independent research essay of no more than 12,000 words that critically investigates a topic of pertinence to an aspect of contemporary art practice. 
To complete this course students must enrol in FINEARTS 782 A and B, or FINEARTS 782

FINEARTS 790A 60 Points
FINEARTS 790B 60 Points
Research Project - Level 9
A research project focused on artistic or related outcomes. Individualised research-based programmes of study are supported through a range of studio critiques, various forms of group tutorials, technical workshops, reading groups, lectures and frequent one-to-one meetings with studio staff. Research projects are thus developed through an integrated programme including studio practice, seminars, and/or written coursework and reading groups. 
To complete this course students must enrol in FINEARTS 790 A and B

FINEARTS 795A 60 Points
FINEARTS 795B 60 Points
Research Portfolio - Level 9
A practice-based research project involving the exploration of themes in contemporary fine arts and design. The final submission of the project will be a presentation in the form of an exhibition, performance or other such outcome as approved by the Head of Fine Arts. The presentation will be supported by a written component that introduces topics and methodological directions relevant to the creative project.
Prerequisite: Departmental approval
To complete this course students must enrol in FINEARTS 795 A and B

FINEARTS 796A 60 Points
FINEARTS 796B 60 Points
Masters Studio - Level 9
An advanced studio based performance in fine arts and/or design. 
Prerequisite: B or higher in FINEARTS 756 or 790 or 795
To complete this course students must enrol in FINEARTS 796 A and B

FINEARTS 797A 60 Points
FINEARTS 797B 60 Points
Fine Arts Thesis - Level 9
A thesis embodying the results obtained by the student of an original investigation or advanced study in fine arts and/or design. 
Prerequisite: B or higher in FINEARTS 756 or 790 or 795
To complete this course students must enrol in FINEARTS 797 A and B

FINEARTS 798A 60 Points
FINEARTS 798B 60 Points
Fine Arts Research Portfolio - Level 9
An advanced research portfolio in fine arts and/or design. 
Prerequisite: B or higher in FINEARTS 756 or 790 or 795
To complete this course students must enrol in FINEARTS 798 A and B

Heritage Conservation

Postgraduate 700 Level Courses
HERCONS 700 15 Points
Heritage Processes
Examines heritage conservation legislation, policy, guidelines and processes. Includes international context as well as New Zealand laws and processes.
Restriction: ARCHGEN 750

HERCONS 701 15 Points
Heritage Assessment and Conservation Planning - Level 9
Examines the assessment of cultural heritage value and the use and preparation of conservation plans to guide heritage conservation work. Coursework comprises the researching and writing of a conservation plan.
Restriction: ARCHGEN 751

HERCONS 702 15 Points
Conservation of Materials
Examines the theory and practice of conserving materials commonly found in heritage buildings and artefacts, including stone, brick, timber, concrete and steel.
Restriction: ARCHGEN 752
**Course Prescriptions**

**HERCONS 703**
**Diagnosis and Adaptation**
Examines the investigation of existing building fabric, diagnosis of issues impacting upon the state of repair or the level of comfort, and the adaptation of heritage buildings, including strengthening, energy upgrading, reuse and the design of additions and alterations.

*Restriction: ARCHGEN 753*

**HERCONS 790**
**Research Project - Level 9**
A research project in the field of heritage conservation which may include an internship. Placements and topics to be approved by the Head of School of Architecture and Planning.

*Prerequisite: ARCHGEN 750, 751, or HERCONS 700, 701*

**Music**

**Stage I**

**MUS 103**
**Music Fundamentals**
A practical and theoretical overview of the fundamental written and aural skills required for music literacy. This course prepares students for MUS 104 and further university-level study and practice in music.

*Restriction: MUS 100, may not be taken with or after passing MUS 101, 104, 174, 184, 284*

**MUS 104**
**Music Literacies**
The development of music theory, aural skills and perception necessary to be an effective musician. The study of basic theory, harmony, analysis, aural perception and musicianship with exemplars from classical, jazz and popular music genres. Includes a choral component.

*Prerequisite: MUS 103*

**MUS 106**
**Ensemble Communication and Direction**
An examination of the skills and techniques required for the communication and direction of ensembles including orchestras, bands, jazz and contemporary ensembles, choirs and other performing arts contexts. Includes knowledge of repertoire style, genre and period associated with directing music.

**MUS 110**
**Composition 1**
Foundational studies in music composition and sonic arts. Modular content includes: rhythm and meter, melody and harmony, structure and genre, time and meter, synthesis and notation and repertoire study. Students may complete Composition 1 and Composition 2 in any order.

**MUS 111**
**Composition 2**
Foundational studies in music composition and sonic arts. Modular content includes: rhythm and form, timbre and texture, aesthetics and function, style and idea, material and manipulation, creative planning and processes and the composer in society. Students may complete Composition 1 and Composition 2 in any order.

**MUS 120**
**Performance 1**
Individual lessons and performance classes on an approved instrument or voice. (See course outline and instrumental/vocal syllabus for specific curriculum requirements).

*Prerequisite: Entrance is by audition. Departmental approval*

**MUS 121**
**Performance 2**
Continuation of work undertaken in MUS 120. (See course outline and instrumental/vocal syllabus for specific curriculum requirements.)

*Prerequisite: MUS 120*

**MUS 126**
**Jazz History**
A critical examination of musical styles, performers, cultural and industrial contexts surrounding jazz musics from the mid-nineteenth century, including ragtime, through New Orleans, swing, be-bop, cool, free, third-stream and postbop. An in-depth study of primary exponents of various styles.

*Restriction: MUS 176, 276*

**MUS 130**
**Introduction to Music Technology**
A survey of digital technologies available to assist producing, composing, and performing music. Topics may include: music production (Digital Audio Workstation, MIDI and audio recording/editing, synthesis, and multi-track mixing), sonic art (sound-based composition, visual music, interactive installations), and computer music (sound design, live coding, algorithmic composition).

*Restriction: MUS 119*

**MUS 143**
**Contemporary Music Culture**
An introductory overview of today’s diverse musical culture. Explores contemporary trends in so-called ‘classical’ music, jazz, production and popular genres, as well as the impact of technological innovation (sound recording, film, social media) on our day-to-day musical activities. Emphasis is placed on creative practice in music and the performing arts.

**MUS 144G**
**Turning-points in Western Music**
A study of significant people, major discoveries and inventions, and key factors (artistic, intellectual, social, technical) that were important agents of change in Western music. No previous knowledge of music is assumed.

**MUS 145**
**Western Music Across the Centuries**
A comprehensive overview of the enormously rich repertory of Western music, from the beginnings of a literate tradition, through the classical giants, to the present day.

*Prerequisite: MUS 143*

**MUS 149**
**Rock to Reggae: Tracking Popular Music in New Zealand**
An introduction to New Zealand’s home-grown popular music, from the 1950s to the present day. A broad range of musical styles will be considered and situated within various social contexts. The issue of cultural identity in music – at national and local levels – will also be explored.

**MUS 162**
**Introduction to Music Teaching and Learning**
A conceptual and practical introduction to music teaching and learning in its various forms and contexts. A survey of the field including studio pedagogy, music education
methods, school music, community music, lesson planning, composition and improvisation pedagogy, and foundational knowledge of music teaching and learning.

**Restriction:** MUS 160

**MUS 170 15 Points**

**Jazz Performance 1**

The development of instrumental technique and improvisational skills through in-depth study of scales, rhythm, harmony and relevant musical analysis. This course prepares students who major in Jazz Performance and includes 1:1 tuition and group based improvisation classes.

**Prerequisite:** Entrance is by audition. Departmental approval.

**Corequisite:** MUS 197

**MUS 171 15 Points**

**Jazz Performance 2**

Continuation of the work undertaken in MUS 170.

**Prerequisite:** MUS 170 or JAZZ 101 and 107

**MUS 180 15 Points**

**Creative Practice in Popular Music 1**

Exploration of ideas and processes in the creation and presentation of popular music through workshops, seminars and group discussion. Students will write songs, compose music, use music recording and production techniques and present aspects of their coursework in live performance.

**Prerequisite:** Entrance is by audition. Departmental approval

**MUS 181 15 Points**

**Creative Practice in Popular Music 2**

Continuation of work undertaken in MUS 180.

**Prerequisite:** MUS 180

**MUS 188 15 Points**

**Making Words Sing: The Art and Soul of Songwriting**

A widescreen survey of contemporary songwriting, its various origins, directions, themes and principles with specific reference to the work, styles and lyrical techniques of prominent songwriters from the past half century. Songwriting from English music hall, through the Beatles and Bob Dylan to contemporary singer-songwriters and today's hip-hop stars.

**MUS 190 15 Points**

**MUS 190A 7.5 Points**

**MUS 190B 7.5 Points**

**Auxiliary Performance Study 1**

Tuition on an approved traditional or computer-based instrument or voice.

**Prerequisite:** Entrance is by audition. Departmental approval

To complete this course students must enrol first in MUS 190A and then 190B, or MUS 190

**MUS 191 15 Points**

**MUS 191A 7.5 Points**

**MUS 191B 7.5 Points**

**Classical Ensembles 1**

The development of performance skills through ensemble work including chamber music, string orchestra, wind orchestra, flute choir, contemporary ensembles and other combinations.

**To complete this course students must enrol first in MUS 191A and then 191B, or MUS 191**

**MUS 192A 7.5 Points**

**MUS 192B 7.5 Points**

**Performance Skills for Instrumentalists 1**

The development of a range of instrumental performance skills beyond those gained in the instrumental studio including collaborative piano, repertoire studies, ensemble techniques, basic pedagogy, keyboard skills, accompanying and other applications.

To complete this course students must enrol first in MUS 192A and then 192B

**MUS 193A 7.5 Points**

**MUS 193B 7.5 Points**

**Performance Skills for Singers 1**

The introduction of vocal practices that help voice students develop and sustain a professional career. This course aims to give students the knowledge and practical experience necessary to develop and maintain vocal health in diverse performing contexts.

To complete this course students must enrol first in MUS 193A and then 193B

**MUS 194 15 Points**

**MUS 194A 7.5 Points**

**MUS 194B 7.5 Points**

**Historical Performance 1**

Practical studies in historical performance on an approved instrument or voice.

To complete this course students must enrol first in MUS 194A and then 194B, or MUS 194

**MUS 195 15 Points**

**MUS 195A 7.5 Points**

**MUS 195B 7.5 Points**

**Popular Music Ensembles 1**

The development of performance skills through ensemble work in popular music

To complete this course students must enrol first in MUS 195A and then 195B, or MUS 195

**MUS 196A 7.5 Points**

**MUS 196B 7.5 Points**

**Popular Music Performance 1**

The development of instrumental technique and interpretative skills through the in-depth study of scales, rhythm, harmony and the relevant musical analyses of set works. This course prepares students who major in Popular Music with 1:1 instrumental tuition and group-based classes and/or workshops.

**Prerequisite:** Audition required

**Restriction:** MUS 182, 183

To complete this course students must enrol first in MUS 196A and then 196B

**MUS 197A 7.5 Points**

**MUS 197B 7.5 Points**

**Jazz Ensembles 1**

The application of instrumental and improvisational techniques through performance practice. This course develops stylistic, interpretive and literary musical skills through a variety of large and small ensembles.

**To complete this course students must enrol first in MUS 197A and then 197B**

**Stage II**

**MUS 202 15 Points**

**Materials of Music 4**

Continuation of work begun in MUS 201, including the study of harmony and analysis, aural skills and musicianship.

**Prerequisite:** MUS 201
MUS 203
Classical Theory and Musicianship 1
15 Points
Continuation of work begun in MUS 104 on music theory, aural skills and musicianship. Includes a choral component.
Prerequisite: MUS 104

MUS 204
Classical Theory and Musicianship 2
15 Points
Continuation of work in MUS 203 on music theory, aural skills and musicianship. Includes a choral component.
Prerequisite: MUS 203

MUS 205
Classical Theory and Musicianship 3
15 Points
Continuation of work in MUS 204 on music theory, aural skills and musicianship. Includes a choral component.
Prerequisite: MUS 204

MUS 206
Conducting 1
15 Points
The study of conducting including listening to and writing about a wide variety of music from all historical periods. The practical component of this course concentrates on posture, patterns and gesture. Studies include examples from choral and orchestral repertoire.
Prerequisite: MUS 106

MUS 207
Conducting 2
15 Points
An introduction to rehearsal planning and management, baton technique, the development of conducting gesture, and advanced score preparation. Repertoire includes classical symphonies, a cappella repertoire and a selection of choral/orchestral works.
Prerequisite: MUS 206

MUS 210
Composition 3
15 Points
Applied concepts and techniques in instrumental/vocal composition and sonic arts. Students will develop original creative ideas through experimention with both notational and sound-based approaches to composing, the study of relevant repertoire and the realisation of a portfolio of works for mixed resources that may include solo instruments, voices, small ensembles, found objects/sounds, loudspeakers and visual media. Liaison with performers both within and outside the class is important.
Prerequisite: MUS 110, 111
Restriction: MUS 258

MUS 211
Composition 4
15 Points
Continuation of work undertaken in MUS 210.
Prerequisite: MUS 210

MUS 214
Instrumentation
15 Points
The study of instrumentation including ranges, characteristics and technical aspects of writing, scoring and arranging for strings, wind, brass and percussion will be introduced together with a study of repertoire.
Prerequisite: MUS 101 or 104

MUS 220
Performance 3
15 Points
Further performance work, involving weekly individual lessons and performance classes. (See course outline and instrumental/vocal syllabus for specific curriculum requirements).
Prerequisite: MUS 121
Restriction: MUSIC 220

MUS 221
Performance 4
15 Points
Continuation of work undertaken in MUS 220. (See course outline and instrumental/vocal syllabus for specific curriculum requirements).
Prerequisite: MUS 220

MUS 224
Interpreting Music
15 Points
Academic study of the resources, instruments, techniques, and stylistic conventions relevant to the performance of music from Renaissance to modern times, with an emphasis on works of the eighteenth and nineteenth centuries. Students consider the role that an awareness of historical factors can play in contemporary performance, and gain understanding of some of the key debates surrounding historically informed performance.
Prerequisite: MUS 143

MUS 230
Music Production 1
15 Points
A study of the theoretical and practical knowledge and skills required to engage in music production through everyday technologies. An emphasis on production in the home/project studio environment, and for developing producers and songwriters. Topics include: microphone types, patterns and configurations; simple vocal and instrumental recording; synthesis; production techniques; and mixing using modern DAWs.
Prerequisite: MUS 119 or 130
Restriction: MUS 219

MUS 231
Music Production 2
15 Points
A study of industry-standard studio recording and production techniques supported by practical studio-based exercises. Topics may include: multi-channel recording and editing, band and ensemble recording, analogue and digital production, synthesis, mixing and mastering.
Prerequisite: MUS 230
Restriction: MUS 219

MUS 243
Music in Society
15 Points
The study of music and text in society using a wide-angled lens to explore how it can be intertwined with issues of politics, gender, religion, race, psychology and class. Examples will include music and text in diverse genres and from various places.
Prerequisite: MUS 143 or 30 points from European Studies, German, Italian, Spanish, or Transnational Cultures and Creative Practice

MUS 245
History, Music and Ideas: Rethinking the Classical Canon
15 Points
Raises issues specific to classical music in one or more concentrated historical periods. Students will get to know a designated repertoire of musical works, whilst exploring critical topics such as periodisation, canon formation and reception history.
Prerequisite: MUS 140 or 143 or 145 or 176
Restriction: MUS 240, 345

MUS 246
Experimental Music in the 20th and 21st Centuries
15 Points
Tracks definitions and developments in 'experimental' music since the early twentieth century. Concepts of modernism...
and postmodernism as related to musical composition, performance and listening are the central focus. 
Prerequisite: MUS 140 or 143 or 145 or 176
Restriction: MUS 346

MUS 247
15 Points

Genre and Convention in Instrumental Music
Explores the complexities of musical style, aesthetics and reception as related to one or more instrumental genres (such as the symphony, the string-quartet or piano prelude) and related conventions.
Prerequisite: MUS 140 or 143 or 145 or 176
Restriction: MUS 347

MUS 248
15 Points

Music on Stage and Screen
Considers the role of music in one or more of the dramatic arts – opera, musical, ballet, modern dance, film – in any given historical period. Offers opportunity to study specific repertoire in some detail, as well as to investigate music's contribution to dramatic spectacle, characterisation, narrative and non-narrative structures.
Prerequisite: MUS 140 or 143 or 145 or 176
Restriction: MUS 242, 348

MUS 258
15 Points

Composing with Computers
An introduction to the study and use of computers to compose and generate music. Topics include: algorithmic composition, sound design, algorithmic music, artificial intelligence for music creation, live coding.
Prerequisite: 30 points at Stage I in Music
Restriction: MUS 210

MUS 259
15 Points

Special Topic
Prerequisite: 30 points passed in Music

MUS 262
15 Points

Music Psychology and Development
An initial exploration of music psychology research including music therapy research, neuroscience, neuropsychology and music psychology. Examines the development of musical skills through life with an emphasis on community and pedagogical applications.
Prerequisite: 30 points passed in Music

MUS 265
15 Points

Crafting a Portfolio Career in Music
A study of music career profiles with an emphasis on self-management, performance careers, pedagogical careers, technology, music marketing and distribution, legal issues, entrepreneurship and project leadership in the community. Students will reflect on their own development and devise a project plan for implementation.
Prerequisite: 30 points passed in Music

MUS 270
15 Points

Jazz Performance 3
The development of instrumental technique and improvisational skills though in-depth study of scales, rhythm, harmony and relevant musical analysis. This course prepares students who major in Jazz Performance and includes 1:1 tuition and group based improvisation classes.
Prerequisite: MUS 171

MUS 271
15 Points

Jazz Performance 4
Continuation of the work undertaken in MUS 270.
Prerequisite: MUS 270

MUS 275
15 Points

Jazz Composition and Arranging 1
Composition and arranging in the jazz idiom exploring small ensemble and big band contexts. Scoring, voicing concepts and sectional writing that assist students in the development of a portfolio of work.
Prerequisite: MUS 274

MUS 276
15 Points

Jazz History
A critical examination of musical styles, performers, cultural and industrial contexts surrounding jazz music from the mid-nineteenth century, including ragtime, through New Orleans, swing, be-bop, cool, free, third-stream and post-bop. An in-depth study of primary exponents of various styles.
Prerequisite: 30 points passed in Music
Restriction: MUS 126, 176

MUS 277
15 Points

Jazz Project 2
Participation and development of pertinent skills towards the completion of a collaborative jazz music project.
Prerequisite: Departmental approval

MUS 280
15 Points

Creative Practice in Popular Music 3
Specific exploration and the continued development of ideas and processes in the creation and presentation of popular music through workshops, seminars and group discussion. Students will write songs, complete arrangement exercises, use music recording and production techniques and present aspects of their coursework in live performance.
Prerequisite: MUS 104, 181

MUS 281
15 Points

Creative Practice in Popular Music 4
Continuation of work undertaken in MUS 280.
Prerequisite: MUS 280, 284

MUS 282
15 Points

Popular Music Vocal Performance
The development of vocal technique and interpretative skills through the in-depth study of vocal production techniques and present aspects of their coursework in live performance. The emphasis is on the development of practices to enhance the performance of original songs written by the students.
Prerequisite: MUS 183 or 196

MUS 283
15 Points

Popular Music Performance 2
Continuation of the work undertaken in MUS 196. This course prepares students who specialise in Popular Music with 1:1 instrumental tuition and group-based classes. The emphasis is on the development of techniques and skills to enhance the performance of original songs written by the students.
Prerequisite: MUS 183 or 196
Restriction: JAZZ 232
MUS 284 15 Points
Popular Music Theory and Musicianship 1
Training in practical musicianship and contemporary music writing skills pertinent to a popular music practitioner. Continued development of aural recognition skills.
Prerequisite: MUS 104 or 185

MUS 287 15 Points
Popular Music Theory and Musicianship 2
Further training in practical musicianship and contemporary music writing skills pertinent to a popular music practitioner. Continued development of aural recognition skills with an emphasis on musical analysis skills.
Prerequisite: MUS 284
Restriction: MUS 285

MUS 290 15 Points
MUS 290A 7.5 Points
MUS 290B 7.5 Points
Auxiliary Performance Study 2
Tuition on an approved traditional or computer-based instrument or voice.
Prerequisite: Entrance is by audition. Departmental approval
To complete this course students must enrol first in MUS 290A and then 290B, or MUS 290

MUS 292A 7.5 Points
MUS 292B 7.5 Points
Performance Skills for Instrumentalists 2
The development of a range of instrumental performance skills beyond those gained in the instrumental studio including collaborative piano, repertoire studies, ensemble techniques, basic pedagogy, keyboard skills, accompanying and other applications.
To complete this course students must enrol first in MUS 292A and then 292B

MUS 293A 7.5 Points
MUS 293B 7.5 Points
Performance Skills for Singers 2
Further development of vocal practices that help voice students develop and sustain a professional career. This course aims to give students the knowledge and practical experience necessary to develop and maintain vocal health in diverse performing contexts.
To complete this course students must enrol first in MUS 293A and then 293B

MUS 294 15 Points
MUS 294A 7.5 Points
MUS 294B 7.5 Points
Historical Performance 2
Practical studies in historical performance on an approved instrument or voice.
To complete this course students must enrol first in MUS 294A and then 294B, or MUS 294

MUS 295 15 Points
MUS 295A 7.5 Points
MUS 295B 7.5 Points
Popular Music Ensembles 2
The development of performance skills through ensemble work in popular music.
To complete this course students must enrol first in MUS 295A and then 295B, or MUS 295

MUS 296 15 Points
Popular Music Performance Repertoire 1
Vocal or instrumental 1:1 tuition to develop performance skills for a range of popular music repertoire. Students will study set works, investigate a range of solo and ensemble contexts and advance their knowledge of expressive and interpretative performance techniques.

MUS 297A 7.5 Points
MUS 297B 7.5 Points
Jazz Ensembles 2
The application of instrumental and improvisational techniques through performance practice. This course develops stylistic, interpretative and literary musical skills through a variety of large and small ensembles.
Prerequisite: MUS 197
To complete this course students must enrol first in MUS 297A and then 297B

MUS 298 15 Points
MUS 298A 7.5 Points
MUS 298B 7.5 Points
Classical Ensembles 2
The development of performance skills through ensemble work including chamber music, string orchestra, wind orchestra, flute choir, contemporary ensembles and other combinations.
Restriction: MUS 291
To complete this course students must enrol first in MUS 298A and then 298B, or MUS 298

Stage III

MUS 306 15 Points
Conducting 3
Opportunities to conduct a variety of ensemble situations including instrumental, choral/vocal, keyboard and voice, large choral ensemble, recitative and aria, and instrumental ensemble. A keyboard component develops skills needed for score preparation and rehearsals.
Prerequisite: MUS 207

MUS 310 15 Points
Composition 5
Facilitation of the creative process in individual student composers. Key concepts and techniques in instrumental/vocal composition and sonic arts will be developed and refined through the completion of projects as negotiated with supervisors. Each project will incorporate relevant technical exercises together with a study of influential composers and their methods. The end-of-semester portfolio may include works for solo instrument, voice, small and large ensemble, and sonic arts genres including multichannel acousmatic music and performance-based sonic art.
Prerequisite: MUS 211

MUS 311 15 Points
Composition 6
A continuation of work undertaken in MUS 310. A continuation of work undertaken in MUS 310.
Prerequisite: MUS 310

MUS 314 15 Points
Orchestration
A continuation and expansion of the topics addressed in MUS 214. Studies will be broadened to include a stronger emphasis on orchestration, including technique and repertoire.
Prerequisite: MUS 214

MUS 315 15 Points
Sonic Arts
An examination of compositional concepts and techniques relating to acousmatic music and performance-based sonic...
art. Topics will be investigated through engagement in individually negotiated creative projects supported with technical exercises and a review of relevant repertoire and literature.  

Prerequisite: MUS 211 or 219

MUS 320 15 Points

Performance 5

Further performance work, involving weekly individual lessons and performance classes. (See course outline and instrumental/vocal syllabus for specific curriculum requirements).  

Prerequisite: MUS 221

MUS 321 15 Points

Performance 6

Continuation of work undertaken in MUS 320.  

Prerequisite: MUS 320

MUS 322 15 Points

Performance Skills 4

Further development of a wide range of performance skills beyond those gained in the instrumental/vocal studio, including ensemble techniques, conducting, languages for singers, pedagogy, orchestral audition skills, second instrument study, musicians’ health.  

Prerequisite: MUS 223

MUS 323 15 Points

Performance Skills 5

Further development of a wide range of performance skills beyond those gained in the instrumental/vocal studio, including ensemble techniques, conducting, languages for singers, pedagogy, orchestral audition skills, second instrument study, musicians’ health.  

Prerequisite: MUS 322

MUS 324 15 Points

Advanced Studies in Performance Practice

Studies in aspects of historical performance practice, using eighteenth century treatises as well as secondary sources. Exploration of topics including rhetoric, gesture, baroque dance, ornamentation and articulation patterns. Study of an historic instrument may be available as an elective within this course.  

Prerequisite: MUS 224

MUS 330 15 Points

Music Production 3

Instruction in the use of the School of Music’s professional-level multichannel recording studios supported by practical exercises in popular music production. Topics include: vocal, guitar, and drum recording; synthesis; industry-standard production techniques; and mastering. Coursework will require coordination with performers both within and outside the class.  

Prerequisite: MUS 219 or 231  
Restriction: MUS 318

MUS 331 15 Points

Music Production 4

A continuation and expansion of the topics addressed in MUS 330 including collaborative projects that concentrate on the production of a popular music ‘single’, including the professional and legal issues associated with high-level studio production. Coursework will require coordination with performers both within and outside the class.  

Prerequisite: MUS 318 or 330  
Restriction: MUS 319

MUS 332 15 Points

Music Production Project 1

An advanced music production and engineering research project, in which an investigation into professional, technological and industrial issues is conducted through practical experience in a professional setting.  

Prerequisite: MUS 219 or 231  
Restriction: MUS 335

MUS 333 15 Points

Music Production Project 2

An advanced music production and engineering research project, in which an investigation into professional, technological and industrial issues is conducted through practical experience in a professional setting.  

Prerequisite: MUS 219 or 330  
Restriction: MUS 336

MUS 334 15 Points

Sound Design for Film and Video Games

A survey of aesthetic theory, repertoire and techniques associated with the industry practice for composing soundtracks for film and video games.  

Prerequisite: 15 points from MUS 211, 230

MUS 340 15 Points

Sound, Style and Syntax

A study and in-depth analysis of repertoire from the eighteenth to the twenty-first centuries.  

Prerequisite: MUS 140 and 201, or 143 and 204

MUS 343 15 Points

Music in Aotearoa New Zealand

A focused profile of the development of music in Aotearoa New Zealand, concentrating on the issue of cultural identity and the contexts of music composition and performance across classical genres, jazz and pop, contemporary and traditional Māori music (including taonga pūoro), and music from Asia and the Pacific region.  

Prerequisite: MUS 243 or 30 points at Stage II in Transnational Cultures and Creative Practice

MUS 345 15 Points

History, Music and Ideas: Rethinking the Classical Canon

Raises issues specific to classical music in one or more concentrated historical periods. Students will get to know in some detail a designated repertoire of musical works, whilst exploring critical topics such as periodisation, canon formation and reception history.  

Prerequisite: 30 points at Stage II in Music  
Restriction: MUS 240, 245

MUS 346 15 Points

Experimental Music in the 20th and 21st Centuries

Tracks definitions and developments in ‘experimental’ music since the early twentieth century. Concepts of modernism and postmodernism as related to musical composition, performance and listening are the central focus.  

Prerequisite: MUS 140 or 143 or 145, and 30 points from Stage II in Music  
Restriction: MUS 246

MUS 347 15 Points

Genre and Convention in Instrumental Music

Explores the complexities of musical style, aesthetics and reception as related to one or more instrumental genres (such as the symphony, the string-quartet or piano prelude) and related conventions.  

Prerequisite: MUS 140 or 143 or 145, and 30 points from Stage II in Music  
Restriction: MUS 247

| MUS 393A   | 7.5    | Performance Skills for Singers 3                                     | The development of advanced vocal practices that help students develop and sustain a professional career. This course aims to give students the knowledge and practical experience necessary to develop and maintain vocal health in diverse performing contexts.  
To complete this course students must enrol first in MUS 393A and then 393B                                                                                                                                                                                                                                                    |
| MUS 394    | 15     | Historical Performance 3                                             | Practical studies in historical performance on an approved instrument or voice.  
To complete this course students must enrol first in MUS 394A and then 394B, or MUS 394                                                                                                                                                                                                                                              |
| MUS 395    | 15     | Popular Music Ensembles 3                                            | The development of performance skills through ensemble work in popular music.  
To complete this course students must enrol first in MUS 395A and then 395B, or MUS 395                                                                                                                                                                                                                                              |
| MUS 396    | 15     | Popular Music Performance Repertoire 2                               | Continuation of the work undertaken in MUS 296. Students undertake 1:1 tuition to study more advanced repertoire, and learn transcription, sight-reading and ensemble performance skills.  
Prerequisite: MUS 296                                                                                                                                                                                                                                                                                                                   |
| MUS 397A   | 7.5    | Jazz Ensembles 3                                                     | The application of instrumental and improvisational techniques through performance practice. This course develops stylistic, interpretative and literary musical skills through a variety of large and small ensembles.  
Prerequisite: MUS 297  
To complete this course students must enrol first in MUS 397A and then 397B                                                                                                                                                                                                                                                        |
| MUS 397B   | 7.5    | Postgraduate 700 Level Courses                                       |                                                                                                                                                                                                                                                                                                                                                                                                         |
| MUS 701    | 15     | Advanced Analysis                                                    | Develops advanced analytical research skills, focusing on one or more specific repertoires and/or analytical techniques (such as voice-leading analysis, schemata, topics, set theory, metrical analysis or form-functional analysis).  
Prerequisite: MUS 205                                                                                                                                                                                                                                                                                                                   |
| MUS 702    | 15     | Music Internship                                                    | An internship with an industry or education partner in music performance, technology, administration, or pedagogy.  
Prerequisite: Departmental approval                                                                                                                                                                                                                                                                                                 |
| MUS 707    | 30     | Research and Practice in Conducting                                  | The development of advanced conducting skills and techniques in a variety of ensemble situations including instrumental and choral/vocal. Includes research into score preparation and rehearsal skill development.  
Prerequisite: MUS 306                                                                                                                                                                                                                                                                                                                   |
| MUS 710    | 30     | Composition Research Portfolio                                       | Through individually negotiated creative projects and
supporting studies in instrumental/vocal composition or sonic arts, students deliver an end-of-semester portfolio of original compositions, wherein skills are refined through targeted research in notational and/or sonic techniques, repertoire study and critical thinking. To take supporting studies in both sonic arts and instrumental composition students should enrol in the corresponding elective MUS 714 or 715.

Prerequisite: MUS 311 or 315

MUS 711
Composition Research Project - Level 9
A customised creative project in instrumental/vocal composition and/or sonic arts realised through an end-of-semester portfolio of original compositions.
Prerequisite: 30 points from MUS 710, 770, 780

MUS 714
15 Points
Advanced Orchestration
Advanced orchestration and instrumentation, including contemporary instrumental and vocal techniques, with practical scoring exercises. Composition students are expected to write some original music in this course.
Prerequisite: MUS 314

MUS 715
15 Points
Advanced Sonic Arts
Examination of a wide range of advanced sound-based compositional techniques including multichannel acousmatic music, live sonic arts, algorithmic music, sonic art in the natural environment, visual music and interactive installation.
Prerequisite: MUS 315

MUS 720
30 Points
Classical Performance Research
Creative research in aspects of solo performance. Relevant ensemble work, including orchestral rehearsals and performance, may be required.
Prerequisite: MUS 321

MUS 722
15 Points
Advanced Ensemble Performance 1
Creative research in aspects of ensemble performance through chamber music and ensemble playing.
Prerequisite: Departmental approval

MUS 723
15 Points
Advanced Ensemble Performance 2
Advanced work in the field of chamber music and ensemble playing.
Prerequisite: Departmental approval

MUS 724
30 Points
Studio Pedagogy Research and Practice
The study of pedagogy theory and practice applicable to the studio or school context. A range of topics is explored including instrumental technique, repertoire, health and well-being and pedagogical methods.
Prerequisite: 15 points from MUS 321, 371, 382

MUS 726
15 Points
Aspects of Performance Practice
Selected research for discussion and investigation from the field of Performance Practice and its documentation. The study of source materials; individual projects; performance and/or teaching and direction of music from the area studied.

MUS 727
Advanced Auxiliary Performance
Advanced tuition on an approved instrument or voice suitable for a practical component to complement a student’s other music study.
Prerequisite: Departmental approval

MUS 729
Music Performance Research Project - Level 9
A customised performance project incorporating solo performance, conducting, relevant ensemble work, improvisational skills, presentation of original work and the application of advanced instrumental techniques, as appropriate.
Prerequisite: 30 points from MUS 707, 720, 770, 780

MUS 735
15 Points
Advanced Studies in Music Production and Technology
An intensive interface-based course that focuses on advanced theories and practice of music production and computer music.
Prerequisite: 15 points from MUS 258, 315, 330-334, 358, 383

MUS 736
15 Points
Creative Studies in Music Production
The development of advanced creative and technological skills leading to computer-based creative practice.
Prerequisite: 15 points from MUS 315, 330-334, 383

MUS 737
30 Points
Music Technology Research
A customised creative practice or theoretical investigation of music technology-related disciplines including: computer music, musical interface design, interactive art, technology in music education, performance technology, music and AI, and sound design.

MUS 738
30 Points
Creative Practice Research Project - Level 9
A customised creative practice project employing a combination of performance, composition and/or production modes.
Prerequisite: 30 points from MUS 710, 720, 737, 770, 780

MUS 742
30 Points
Research Project - Level 9
Prerequisite: MUS 743

MUS 743
15 Points
Advanced Music Research - Level 9
A critical exploration of advanced concepts and methods for music research, including historical, qualitative, Indigenous and practice-led approaches suited to the advanced study of Music. Students develop, apply and critique knowledge of traditional and cutting-edge qualitative methods to design an independent research project for their chosen research topic and to write a substantial research essay.

MUS 744
15 Points
Musicians’ Health and Well-being
An advanced examination of the critical physical and psychological health issues musicians encounter when preparing for performances and when performing. Topics include aspects of musculoskeletal health, focal dystonia, the protection of the voice and hearing, the role of movement disciplines and the management of stress and music performance anxiety. An inquiry into research from both science and arts disciplines that informs how musicians maintain physical and psychological well-being.
MUS 747 30 Points
Research in Musicology
An overview of the discipline of musicology, its principal concepts and associated methods of research. Students consider key texts from the scholarly literature and musicological viewpoints and perspectives. This course also develops advanced writing skills.
Prerequisite: 15 points from MUS 340, 345-348

MUS 748 15 Points
Conducting Repertoire and Pedagogy
An overview of conducting literature and pedagogical skills for the rehearsal, the concert platform and music education contexts. The course includes analysis, score preparation, practical sessions and requires attendance at designated rehearsals and performances.
Prerequisite: MUS 306

MUS 749 15 Points
Topic in World Music
An intensive performance-based course that focuses on a specific regional musical tradition.
Restriction: MUS 349

MUS 750 15 Points
Performance Research Project
A supervised course of advanced music performance research culminating in a performance and associated written material.
Prerequisite: MUS 720
Restriction: MUS 785

MUS 752 15 Points
Research Project - Level 9
A supervised course of musicological or music education research.
Prerequisite: Departmental approval

MUS 754 15 Points
Directed Study in Historical Musicology

MUS 755 15 Points
Directed Study in Contemporary Musicology

MUS 756 15 Points
Directed Study in Music Studies

MUS 757 15 Points
Special Topic: Studies in Historical Musicology

MUS 758 15 Points
Special Topic
Prerequisite: Departmental approval

MUS 759 15 Points
Special Topic: Critical Theory and Music Technology
A critical investigation into modern-day music learning, production and consumption. Issues arising in a music landscape mediated by technology and hegemonic political economy will be examined with a focus on the interrogation of power relations using a social justice lens. Topics may include technology in music education, music and Artificial Intelligence, music decolonisation, and music streaming platforms.
Prerequisite: 15 points at Stage III in Music

MUS 760 15 Points
Themes in Music Education Research
A survey of pedagogical research themes and applications in music education, studio pedagogy and community music.

MUS 762 15 Points
Approaches to Music Education 1
A detailed examination of the practices and concepts in a selected music education approach or method.

MUS 763 15 Points
Approaches to Music Education 2
Further examination of the practices and concepts in a selected music education approach or method.
Prerequisite: MUS 762

MUS 764 15 Points
Approaches to Community Music
An examination of community music approaches outside formal settings including singing, instrumental, cultural and technological contexts.

MUS 765 15 Points
Music Entrepreneurship
An advanced examination of entrepreneurial and business skills for the musician and creative practitioner. Includes the development of specialised technological skills, case studies and innovative approaches to music marketing, arts and cultural engagement, education and music career development.

MUS 767 30 Points
Music Education Research and Practice
A review of current music education, community music and studio pedagogy research along with the application of practical teaching and workshop techniques and methods relevant for school and community contexts.
Prerequisite: MUS 362 or 363

MUS 768 30 Points
Community Music Research Project - Level 9
Music community and/or pedagogy music research project. Includes fieldwork in music industry, community, school, or studio contexts and a research report.
Prerequisite: 30 points from MUS 707, 724, 767

MUS 770 30 Points
Jazz Performance Research
Practical research in instrumental technique leading to the development of advanced improvisational skills. Students prepare a recital reflecting the technical work undertaken in the semester. Students engage with practice through ensemble and 1:1 instruction.
Prerequisite: MUS 371

MUS 772 15 Points
Jazz Composition and Arranging I
Jazz arranging and composition for mixed ensembles. Through the analysis and study of advanced compositional and orchestration techniques, students produce original research material for recorded portfolio. Students are encouraged to perform with a 'mentor' from the jazz faculty in the development of a creative process and individual style.
Prerequisite: MUS 375

MUS 773 15 Points
Jazz Composition and Arranging II
A continuation of work undertaken in MUS 772 for a variety of ensembles.
Prerequisite: MUS 772

MUS 774 15 Points
Jazz Collaborative Project
Students undertake a research project combining compositional and performance elements from multiple
genres: world music, classical, rock, for example, in a blend of contemporary influences. Students contribute original material and written documentation for a recorded portfolio.

*Prerequisite: MUS 371*

**MUS 780** 30 Points  
**Popular Music Research**  
The development of advanced song writing and popular music composition skills. Students engage in an in-depth study of lyric writing, word setting, and compositional elements, compose a significant body of new songs and compositions, and produce a research portfolio of recordings and scores of these works.  
*Prerequisite: MUS 381*

**Research Portfolio - Level 9**  
*To complete this course students must enrol first in MUS 785A and then 785B*  
**MUS 785A** 30 Points  
**MUS 785B** 60 Points  

---

**Urban Planning**

**Stage I**

**URBPLAN 101** 15 Points  
**URBPLAN 101G** 15 Points  
**Introduction to Urban Planning**  
An introduction to the discipline of urban planning, examining its evolution, theory, practice, profession, ethics, values and future trends. Offers a critical exploration of the challenges facing urban planners today and into the future.  
*Restriction: PLANNING 100G*

**URBPLAN 122** 15 Points  
**Introduction to Society, Civics and Governance Issues for Urban Planning**  
An introduction to the concepts of civics and governance in New Zealand and its international obligations, the theories and values of democracy, natural justice and the role institutional behaviour. Provides an understanding of the basis of the New Zealand legal system, the Te Tiriti o Waitangi/Treaty of Waitangi and public policy development.  
*Restriction: URBPLAN 102*

**URBPLAN 123** 15 Points  
**Urban Planning Economics**  
An introduction to economic theory, at both the micro and macro levels, and its impact and influence on urban planning policy development and decision making. Includes reference to how economic development can be integrated into effective urban planning policy formulation.  
*Restriction: URBPLAN 102*

**URBPLAN 124** 15 Points  
**Urban Environmental Issues**  
An introduction to ecological processes, urban resilience and growth in an urban context. Explores how urban planning systems can work in sympathy with, or in contradiction to, such processes, and the implications of this for urban planning practice.  
*Restriction: URBPLAN 105*

**URBPLAN 125** 30 Points  
**Urban Planning Studio 1**  
An introduction to studio and design thinking, the urban design discipline, research skills (quantitative and qualitative) and methods, and the land tenure system. Enables students to read plans at different scales and provide visual literacy skills, including GIS and other relevant tools, through a studio-based design exercise relevant to urban planning.

considering wicked problems and the impacts of climate change.

**URBPLAN 201-205**

**URBPLAN 304**

**Urban Land Use Economics**

Examines the principles of urban land economics focusing on economic development, property markets and property development.

**Prerequisite:** URBPLAN 201-205

**URBPLAN 305**

**Māori Urban Planning Issues**

Māori attitudes, values and aspirations in urban planning with an understanding of the Treaty of Waitangi; post Treaty settlements.

**Prerequisite:** URBPLAN 201-205

**URBPLAN 306**

**Global Contexts and Contemporary Urban Planning Issues**

Examines how comparative urban planning systems address contemporary urban planning issues in both the New Zealand and international contexts.

**Prerequisite:** URBPLAN 210, 211

**URBPLAN 310**

**Urban Planning Studio Five**

To develop a critical understanding of regional planning practices, and develop advanced research and designs skills in proposing more sustainable urban form.

**Prerequisite:** URBPLAN 310, 211

**URBPLAN 311**

**Urban Planning Studio Six**

Community engagement, data collection and analysis using a project-based approach.

**Prerequisite:** URBPLAN 210, 211

**URBPLAN 321**

**Urban Policy Analysis, Development and Research Skills**

A critical understanding of the role public policy plays in practice and how to develop effective, creative outcome-focused policy solutions for urban planning through the application of quantitative and qualitative research skills and methods.

**Prerequisite:** URBPLAN 221-223, 225, 226 or 30 points passed in Global Environment and Sustainable Development

**URBPLAN 330**

**Urban Planning Law**

A critical understanding of the essential physical urban planning responses.

**Prerequisite:** URBPLAN 201-205

**URBPLAN 332**

**Urban Infrastructure**

Examines the issues surrounding the planning, development and funding of different types of social and physical infrastructure, including transportation, energy, renewable energy, and water and sewerage management, using local and international case studies and examples.

**Prerequisite:** URBPLAN 221-223, 225, 226

**URBPLAN 333**

**Māori Planning Issues**

A critical understanding of traditional and contemporary relationships between tangata whenua and the urban environment, the theoretical and practical application of a Māori worldview for urban planning practice in Aotearoa New Zealand, and how the Treaty of Waitangi settlement process will impact and influence urban planning.

**Prerequisite:** URBPLAN 221-223, 225, 226

**Restriction:** URBPLAN 305

**URBPLAN 325**

**Urban Planning Studio 5**

A critical understanding of the importance and integration of land use with transport (including active travel options) and urban infrastructure (including three waters and social infrastructure) while taking into account realistic funding models, costs and benefits through a studio-based design exercise.

**Prerequisite:** URBPLAN 221-223, 225, 226

**URBPLAN 326**

**Urban Planning Studio 6**

A critical understanding and application of the skills, methods and processes required for the design of sustainable urban places, forms and spaces, and neighbourhood creation.

**Prerequisite:** URBPLAN 221-223, 225, 226

**Postgraduate 700 Level Courses**

**URBPLAN 701**

**Urban Planning Contexts - Level 9**

A fundamental understanding of ecological issues and their implications for urban planning.

**Prerequisite:** URBPLAN 201-205, or 30 points at Stage II in Global Environment and Sustainable Development

**URBPLAN 702**

**Urban Planning Law - Level 9**

A critical understanding of the concepts and principles of relevant urban planning legislation and decision-making.

**Prerequisite:** URBPLAN 201-205

**URBPLAN 703**

**Urban Planning and the Environment - Level 9**

Principles of urban economics. Economic development, property markets and property development.

**Prerequisite:** URBPLAN 205

**URBPLAN 704**

**People, Communities and Urban Planning - Level 9**

A critical analysis of the urban social issues and relevant urban planning contexts.

**Prerequisite:** URBPLAN 205

**URBPLAN 705**

**Sustainable Infrastructure Planning - Level 9**

Māori attitudes, values and aspirations in urban planning with an understanding of the Treaty of Waitangi. Indigenous development issues.

**Prerequisite:** URBPLAN 205

**URBPLAN 706**

**Māori Planning Issues - Level 9**

The principles and concepts of urban design and their application in urban planning practice.

**Prerequisite:** URBPLAN 301-305, 310, 311, or URBPLAN 701
URBPLAN 712  
**Sustainable Urbanism - Level 9**  
Research into critical and contemporary urban planning issues.

URBPLAN 713  
**Shelter - Level 9**  
Housing policies and practices. Housing and urban sustainability.

URBPLAN 714  
**Urban Planning Methods and Plan Making Studio - Level 9**  
Urban planning methods and plan making implication and evaluation. Project management.  
*Prerequisite: URBPLAN 301-305, 310, 311, or URBPLAN 702*

URBPLAN 715  
**Urban Planning Research Dissertation - Level 9**  
An in-depth, self guided research investigation relevant to urban planning with an advanced examination and application of critical quantitative and/or qualitative research skills for urban planning.  
*Prerequisite: URBPLAN 701, 705*

URBPLAN 721  
**Project Management for Urban Planning**  
A critical understanding of project management methods and skills, and management types and cultures, for private practice and in local and central government agencies. Includes asset management and planning for local government in New Zealand as relevant for urban planning practice.  
*Prerequisite: URBPLAN 321-323, 325, 326 or Departmental approval*

URBPLAN 722  
**Heritage/Cultural Issues**  
Examines heritage planning history, theory, law and implementation practices in New Zealand and relevant international contexts.  
*Prerequisite: URBPLAN 321-323, 325, 326*

URBPLAN 733  
**Sustainable Urban Design Studio - Level 9**  
Developing advanced urban design techniques to create sustainable urban forms.  
*Prerequisite: URBPLAN 708*

URBPLAN 734  
**Urban Planning and Governance - Level 9**  
Public policy, democracy, capacity building and implications of urban planning practice.  
*Prerequisite: URBPLAN 301-305, 310, 311, or URBPLAN 704*

URBPLAN 735  
**Resource Consents and Implementation, Evaluation - Level 9**  
The critical skills and judgments required in the urban planning implementation process, including Assessment of Environmental Effects/Social Impact Assessment development.  
*Prerequisite: URBPLAN 321-323, 325, 326*

URBPLAN 741  
**Special Topic - Level 9**

URBPLAN 742  
**Special Topic - Level 9**

URBPLAN 757  
**Research Project - Level 9**  
An in-depth, self-guided research specialised investigation, with an advanced examination and application of critical quantitative and qualitative research skills for urban planning.  
*Prerequisite: URBPLAN 301-311 or 321, 326*

URBPLAN 794A  
**Thesis - Level 9**  
*To complete this course students must enrol in URBPLAN 794 A and B*

URBPLAN 796A  
**Thesis - Level 9**  
*To complete this course students must enrol in URBPLAN 796 A and B*

## Faculty of Education and Social Work

### Academic Integrity

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACADINT A01</td>
<td>Academic Integrity Course</td>
<td>0 Points</td>
</tr>
</tbody>
</table>

An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>DISABLTY 113G</td>
<td>Making Disabilities: The Construction of Ideas</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

Examines the expression of social and cultural ideas of disability in popular culture through film, television and print media. The course aims to develop skills to examine the construction and maintenance of concepts of disability and disabling identities in popular culture. The consequences of these processes are also discussed and their implications for perpetuating social devaluation, discrimination, and disadvantage.

### Stage II

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>DISABLTY 200</td>
<td>Disability Frameworks</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

A range of models and cultural understandings related to disability are examined. These models provide a framework for understanding ways in which disabled people may experience disability. Social constructs that impact on the lives of disabled people will be explored. The influence of emerging models that portray positive social identities, both individual and collective, will be examined.

**Restriction:** DISABLTY 112

### Stage III

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>DISABLTY 316</td>
<td>Supporting Active Participation</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

An exploration of theories and strategies that promote active participation of disabled people. An understanding of self-determination and a person-centred approach to promote active participation and citizenship underpins this course.

**Prerequisite:** HUMSERV 101, 102, 104, 201, 202, 203, 211, SOCWORK 111, 112, 114, 211

</table>

Theories and practices of creativity will be examined and practically explored through a variety of disciplines, such as the arts, biology, psychology, sociology, philosophy and education. What is creativity? Can creativity be learnt? What happens in the brain when we are creative? These are some of the questions addressed in this course.
relation to different educational settings and contexts, for example, culture, community, school, and classroom. 
Restriction: EDUC 111, 119, 121, 121G

EDUC 118 15 Points
History and Society in New Zealand Education
Examines the wider context of New Zealand education through a historical and contemporary overview. Draws on a critical sociological analysis of selected issues in society. Some emphasis is given to learners and their communities, including Māori, Pasifika, new migrants, and people with disabilities. 
Restriction: EDUC 111, 112, 113, 140, EDUCM 140

EDUC 119 15 Points
Development, Learning and Teaching
Presents an introduction to developmental and psychological theory and research and its application to teaching and learning within a variety of educational settings. Understandings for creating effective learning environments which foster high levels of motivation for all learners will be identified through an exploration of typical and atypical development; and behavioural, cognitive, constructivist and social approaches to teaching and learning. 
Restriction: EDUC 117

EDUC 121 15 Points
EDUC 121G 15 Points
How People Learn
Focuses on learning in formal and informal settings and addresses such questions as: why do some things seem easier to learn than others, why do we forget things we once knew, and why do some people learn faster or better than others? Examines the nature of intelligence and how to help personal learning or the learning of others. 
Restriction: EDUC 111, 117

EDUC 122 15 Points
EDUC 122G 15 Points
Learning Sexualities
How and what do we learn about sexualities in New Zealand? Learning about sexualities is viewed as occurring both formally (e.g., through sexuality education) and informally (e.g., through the media) in a diversity of social sites. Schools are examined as one significant site where students are offered sexual meanings. The historical derivation and current context of contemporary education about sexuality along with its social effects are investigated. 

EDUC 142 15 Points
Health and Physical Education in a Diverse Society
Introduces students to thinking critically about Health and Physical Education. Examines discourses about health and physical activity from historical and sociological perspectives. Introduces diversity as it relates to educational opportunity in Health and Physical Education. Addresses such questions as: How are notions about health and physical education and difference constructed and supported? 
Restriction: EDUC 141, EDUCM 141

Stage II

EDUC 200 15 Points
Youth Mentoring
A theoretical and applied study of youth mentoring. Students will develop an understanding of theories of youth and youth mentoring, examine current issues in youth mentoring such as cultural perspectives, developmental considerations, and contexts of youth mentoring. Students will also engage in a mentoring internship where they will demonstrate their ability to integrate and apply their developed knowledge and skills. 
Prerequisite: Any 60 points passed and approval from the Course Director

EDUC 201 15 Points
History of Education
An examination of the nature of historical inquiry with reference to New Zealand's educational past; questions why education has been analysed largely as something planned rather than something experienced and introduces oral history as methodology. Selected aspects of the educational histories of other countries will be discussed for comparative analysis. 
Prerequisite: Any 60 points passed

EDUC 203 15 Points
Pasifika Education and Diversity
Analyses how experiences and outcomes for learners in contemporary education contexts are shaped by social constructions informed by class, ethnicity, culture, gender, sexuality, and (dis)ability. Examines the role of education policies and socio-historical context on teacher responsiveness to diversity and difference. Explores a range of transformative approaches. Particular attention is given to Pasifika learners. 
Prerequisite: EDUC 106

EDUC 204 15 Points
Philosophy and Sociology of Education
An exploration of key educational themes and questions from philosophical and sociological perspectives. 
Prerequisite: Any 60 points passed
Restriction: EDUC 206, 208

EDUC 207 15 Points
Decolonising Education
An examination of the interaction of the state and indigenous peoples in the contested area of education and schooling; a focus on de/colonisation develops an understanding of the origins and philosophies of contemporary educational structures such as kōhanga reo, kura kaupapa Māori and wānanga in Aotearoa New Zealand, together with examples of other indigenous educational issues and initiatives. 
Prerequisite: Any 60 points passed

EDUC 209 15 Points
The Learning Society
Takes students beyond the classroom to public educative spaces: museums and galleries, libraries, virtual worlds and the street. Students will explore the idea of public pedagogy and its educative reach in the diverse, urban space of Auckland city. 
Prerequisite: 60 points passed

EDUC 211 15 Points
Schooling Ethnic Diversity
A critical examination of research on ethnic diversity in New Zealand schools. The course discusses equity, 'race', ethnicity, biculturalism, 'multicultural education', equal opportunity, and other theories, structures and strategies developed in New Zealand and overseas in response to ethnic diversity. 
Prerequisite: Any 60 points passed
Restriction: EDUC 310
**EDUC 212 15 Points**

**Global Education Policy for All?**

Interrogates how and why education is positioned in contemporary times as a key vehicle for promoting sustainable development and as a fundamental human right. Specific attention is given to the politics and power dynamics behind global educational policies and frameworks, and the impacts these have on learners, educators, communities and societies throughout Oceania and beyond.

**EDUC 213 15 Points**

**Education and Social Justice**

Can education contribute to social justice? A critical examination of the contemporary concern with social justice in education. Drawing on local and international research, this course explores debates about the nature of power, and the ways that gender and sexuality, ethnicity, indigeneity, social class, and other social identities are taken up in the pursuit of social justice within education.

**Prerequisite:** Any 60 points passed

**EDUC 221 15 Points**

**Child Development**

A study of key issues in development, with a focus on early and middle childhood. Topics include family, peer, cultural, and media influences on typical and atypical development.

**Prerequisite:** Any 60 points passed

**EDUC 223 15 Points**

**Educational Psychology**

An introduction to new ways of thinking about learning in educational settings: how students can develop their learning abilities, be more strategic in their learning, and increase their motivation. These questions and themes can be applied to educational, family and work settings, and to students with different learning needs. A foundation to advanced courses in psychological studies in education.

**Prerequisite:** Any 60 points passed

**EDUC 224 15 Points**

**Assessment and Evaluation in Education**

An examination of the theoretical and practical dimensions of designing, administering, and interpreting curriculum-aligned assessment and evaluation practices and policy including an introduction to valid and reliable data collection and interpretation practices. Recent New Zealand assessment policy and practice will also be analysed.

**Prerequisite:** Any 60 points passed

**Restriction:** EDUC 225

**EDUC 283 15 Points**

**Pedagogy – Beyond Skills and Methods**

Examines personal experiences and views of teaching and learning and the impact of theories of learning on classroom practices. The course also includes discussion of the relationship between pedagogy and race, class and gender; Māori pedagogy; pedagogy and student achievement; and New Zealand and international examples.

**Prerequisite:** Any 60 points passed

**Restriction:** EDUC 383

**Stage III**

**EDUC 300 15 Points**

**Understanding Childhood**

Investigates children's cultural and social worlds in local and global contexts. The course gives a voice to children's views and understandings of their childhoods. Topics include: What is 'childhood'? What roles do place and space have in children's lives? How do children's rights invite children to participate in their own lives?

**Prerequisite:** 45 points at Stage II

**EDUC 304 15 Points**

**Educational Philosophy and Policy**

Examines the competing ideologies of individualism and community, their influence in recent educational reforms in New Zealand, and their wider implications for education, society and culture. Introduces the basic concepts and themes of classical liberalism, comparing and contrasting them with versions of neo-liberalism, and outlines the case for a community-based social policy and the renewal of social democracy.

**Prerequisite:** Any 45 points passed at Stage II

**EDUC 308 15 Points**

**The Return of the Teacher**

Examines the development of teaching and of the role of 'teacher' over time. Draws on examples of teachers from different time periods and cultures to analyse what teaching means and how and why it is valued. Explores implications of different perceptions of the role of teaching and teachers.

**Prerequisite:** Any 45 points passed at Stage II

**EDUC 313 15 Points**

**Special Study in Education**

Supervised inquiry in an area of education approved by the Head of the Liberal Arts Programme in the Faculty of Education and Social Work.

**Prerequisite:** Any 45 points at Stage II and Departmental approval

**EDUC 314 15 Points**

**Special Topic**

**Prerequisite:** Any 45 points passed at Stage II

**EDUC 316 15 Points**

**Gifted Education**

An analysis of the gifted education movement and of the need for appropriate educational provision for gifted and talented students. The course draws on current research to assist with the identification of gifted and talented students and with the development of strategies to meet their learning and emotional needs.

**Prerequisite:** Any 45 points passed at Stage II

**EDUC 317 15 Points**

**History and Sociology of Education**

An analysis of historical and contemporary developments in education taking account of the major influences, national and international, which shape education policy, practice and experience.

**Prerequisite:** Any 45 points passed at Stage II

**EDUC 318 15 Points**

**Teaching Languages in Schools**

Students who have a working knowledge of a second language will study and apply strategies for classroom teaching of second languages in schools. Following critical reflection on different teaching models used in schools, students will prepare teaching materials, plan class lessons and apply information and communication technology in teaching and learning second languages.

**Prerequisite:** Any 45 points passed at Stage II

**EDUC 319 15 Points**

**Special Topic**

**Prerequisite:** Any 45 points passed at Stage II

**Education after Society**

Critically examines the conceptions that inform education in Aotearoa New Zealand. The course provides critical frameworks for making sense of the complexity of educational issues and prepares students to see themselves as significant actors within education. The course will focus on specific themes and issues that will become the basis for professional inquiry. **Restriction:** EDPROFST 612

To complete this course students must enrol in EDUC 603 A and B, or EDUC 603
Postgraduate 700 Level Courses

EDUC 702 30 Points
**Historical Research in Educational Settings**
Explores and applies historical research methods to the field of education. Using documentary sources, oral and/or visual evidence, students will be expected to design and carry out a supervised inquiry.

EDUC 703 30 Points
**Educational Philosophy**
Current themes in the philosophy of education in the light of broader tendencies in modern and post-modern thought.

EDUC 705 30 Points
**Education and Global Policymaking**
Explores the following topics and themes: policy analysis and formulation in the context of development; the impact of the globalisation on, and the role of international agencies in, education for development; human capital theory and human resource development; education and aid; research and consultancy strategies and ethics; New Zealand's ODA policy towards Oceania; global and local intersections in Oceanic education.
*Restriction: EDUC 766*

EDUC 706 30 Points
EDUC 706A 15 Points
EDUC 706B 15 Points
**Measurement and Advanced Statistics**
Instruction in measurement will cover theories, principles, uses, and techniques for estimating statistical and practical significance, causation, instrument validity, reliability, and error. Principles and methods of factor analysis, structural equation modelling, hierarchical level modelling, missing value analysis, and propensity score analysis will be covered to statistically analyse educational data that are latent, nested, repeated, longitudinal, incomplete, and highly interconnected.
*To complete this course students must enrol in EDUC 706 A and B, or EDUC 706*

EDUC 709 30 Points
**Re-claiming Pasifika Education**
A critique of education policy, practice and research as experienced by Pacific-heritage communities throughout Aotearoa New Zealand. Socio-cultural and historical perspectives are utilised. Pacific/Pasifika pedagogical frameworks and research approaches are examined in terms of underlying knowledges, philosophies and discourses and how these might position teachers and researchers in partnership with Pasifika communities, to enhance outcomes for Pasifika learners.

EDUC 710 30 Points
**Issues in Indigenous Education**
Applied critical studies of selected, topical educational questions of international importance to indigenous peoples. May include the politics and practices of language regeneration, social and educational transformative initiatives, indigenous educational leadership, training and professional practice for indigenous educators, indigenous knowledge and curricula. The course assumes experience or knowledge of indigenous education contexts.

EDUC 712 30 Points
**Race, Ethnicity and Education**
An examination of discourses of race and theories of ethnicity in bicultural and multicultural educational contexts in Aotearoa New Zealand.

EDUC 713 30 Points
**Global Childhoods - Level 9**
Critically investigates existing and emerging problems in the field of global childhoods. Using theoretical perspectives at the forefront of critical childhood studies and early childhood education, this course develops highly specialised knowledge addressing questions such as: How are concepts, such as sustainability, technology, media, and pandemic, affecting concepts of childhoods? How do global childhoods impact on curriculum, pedagogy and education?

EDUC 716 30 Points
**Education and Diversity - Level 9**
How do we best teach for the increasing diversity in our educational settings? This course is an advanced study in educational approaches to ethnic, cultural, and linguistic diversity. Independent critical engagement with antiracist education, bilingual education, cosmopolitan education and critical multiculturalism will occur alongside an examination of educational theory, policy and practice, and in relation to debates in Māori education.

EDUC 717 30 Points
EDUC 717A 15 Points
EDUC 717B 15 Points
**Special Study**
Supervised inquiry in an area of education approved by the Head of the Liberal Arts Programme in the Faculty of Education and Social Work.
*To complete this course students must enrol in EDUC 717 A and B, or EDUC 717*

EDUC 726 30 Points
**Special Topic**

EDUC 731 30 Points
**Special Topic**

EDUC 732 30 Points
**Culturally Sustaining Leadership**
An examination of culturally authentic leadership practices in Aotearoa. This course is designed to increase understanding of why there is a need to have culturally aligned leadership and the implications this might have on culturally sustaining that leadership across a range of contexts.

EDUC 733 30 Points
**Teaching in Bilingual/Immersion Settings**
Critically examines research on and practice in bilingual/immersion education, with an emphasis on the implications for educational practice and curriculum development. Includes a focus on the impact of policy on practice in bilingual/immersion settings.
*Restriction: EDPROFST 710*

EDUC 734 30 Points
**Māori/Indigenous Language Revitalisation**
Examines efforts to revitalise Māori language and selected indigenous languages through education. Includes interventions by both government and indigenous groups in policy, practices, and language rights. The approach is interdisciplinary, drawing on sociolinguistics, political theory, sociology, law and education, and international, with examples from Aotearoa, Europe, North America and the Pacific.
*Restriction: EDPROFST 711*
EDUC 725
Reseaching Educational Settings
A detailed examination of the assumptions underlying, and processes and practices in different research traditions. The development of understandings of how to conduct research and to analyse, interpret and synthesise research-based information in educational or community settings.
Restriction: EDPROFST 756

EDUC 737
Special Topic: Arts in Communities
Community arts involve people in creative processes that have both artistic and social aims. Through practice and critical analysis students will examine arts in justice, development, health and youth settings, and specific sites such as museums. These practices will be considered in relation to key political and aesthetic debates about the arts and social change.

EDUC 738
Gifted Learners: Meeting their Needs
Covers a range of approaches to identify and provide for the diverse needs of gifted learners in different sectors and interest groups. Acceleration and enrichment strategies will be considered in conjunction with social and emotional implications.
Restriction: EDPROFST 773

EDUC 741
Educational Psychology
An advanced study of cognitive, motivational and social factors influencing learning.

EDUC 742
Developmental Psychology
An advanced examination of theory and research in selected topics in child development.

EDUC 747
Leadership in Youth Development - Level 9
An advanced study of the theories of adolescence and positive youth development, including a critical examination of research dealing with issues which affect adolescents in a variety of contexts. Includes collaborating with and supporting a campus-based therapeutic youth mentoring programme to advance understanding of youth development leadership and practice skills.
Prerequisite: Course Coordinator approval
Restriction: PROFCOUN 700, SOCYOUTH 300

EDUC 750
Special Topic

EDUC 755
Social Psychology of the Classroom - Level 9
A critical examination of key social psychological constructs as they relate to the classroom, student-teacher relationships and learning. Topics such as motivation, stereotyping, class climate, teacher expectation, and teacher and student self-beliefs will be explored in order to critically challenge current teaching practices. Through systematic inquiry students will be expected to identify ways in which a problem of practice can be addressed.

EDUC 756
Applied Theatre: Performance of Hope
Applied theatre describes a range of performance practices that address significant social issues. Students will engage with practical approaches to applying theatre in diverse community contexts. Building on an historical overview of applied theatre, students will critically consider political, ethical, aesthetic and pedagogic problems and possibilities inherent to theatre practices that actively contribute to social change.

EDUC 758
Winners and Losers? Social Theories of Education
Examines education as a contested site by applying selected critical social theories to current practice and policy issues in a range of educational sectors, from early childhood to tertiary education. Asks whose interests are being most served in the ways in which we currently arrange education and imagines how education could be arranged otherwise.

EDUC 759
Inclusive Practices for Neurodiversity
A critical analysis and application of educational approaches to neurodiversity centred on children and young people's inclusion, belonging and learning across education settings. Provides an opportunity to critically examine concepts and ideas relating to neurodiversity and their implications for and application to education policy, teaching practice, and approaches to learning support.

EDUC 763
Special Study
An advanced study in a topical area of educational inquiry.

EDUC 764
Special Study
An advanced study in a topical area of educational inquiry.

EDUC 765
Critical Inquiries in Educational Settings
Research in critical studies of education is vibrant and wide-ranging. This course focuses on an education topic of pressing political and social concern. Students will have opportunities to engage in small research projects through a range of theoretical and/or disciplinary approaches, using a student cohort plus academic supervisor model.

EDUC 766
Education and International Development
Examines the role of education within the process of economic, political, social and cultural change within the 'developing' world, with a particular focus on the small island states of the Pacific. Theories, concepts and models of 'development' and how these influence educational policy and practice are explored.
Restriction: EDUC 705

EDUC 767
Childhood Studies - Level 9
An advanced study of childhood from a range of perspectives using interdisciplinary approaches of pedagogy, sociology, philosophy, psychology and other disciplines. Independent critical engagement with theories and constructs related to practices across a range of social sciences and humanities will provide students with specialist knowledge and skills to liaise with and inform key agencies of specific issues within the field.

EDUC 768
Special Topic

EDUC 769
Special Topic

EDUC 776
Education, Culture and Knowledge
An examination of sociological theories concerning the
role of culture and knowledge within educational settings. Discusses questions such as: How have globalised forces influenced cultural movements in New Zealand education since the 1970s? How do culture movements influence knowledge production and reproduction, educational policies and professional practices?

Restriction: EDPROFST 776

EDUC 777 30 Points

Māori–Pākehā Educational Relationships
An examination of schooling in New Zealand as an indigenous project. Historical and contemporary expressions of the educational relationship between Māori and Pākehā are studied, including the impact of the Treaty of Waitangi on the development of New Zealand schooling. The course offers an opportunity for students to examine the position of other groups in relation to the Māori–Pākehā relationship.

EDUC 784 30 Points
EDUC 784A 15 Points
EDUC 784B 15 Points

Research Topic in Education
Supervised inquiry in an area of education approved by the Head of the Liberal Arts Programme in the Faculty of Education and Social Work.

To complete this course students must enrol in EDUC 784 A and B, or EDUC 784

EDUC 787 30 Points
EDUC 787A 15 Points
EDUC 787B 15 Points

Māori and Indigenous Research
An examination of how best to approach research with, by and for Māori, Pasifika and other indigenous groups. The course has relevance for all researchers in the education, community and social service sectors. Includes kaupapa Māori and other Indigenous methodologies and the practicalities and ethics of this research. Particular attention is given to the development of advanced writing skills for research.

Restriction: EDPRAC 751, EDPROFST 700, 754, 757, EDUC 735, 787, EDUCSW 700, HIGHEDES 704, SOCWORK 718

To complete this course students must enrol in EDUC 787 A and B, or EDUC 787

EDUC 790 30 Points
EDUC 790A 15 Points
EDUC 790B 15 Points

Research Project - Level 9
Restriction: EDUC 796

To complete this course students must enrol in EDUC 790 A and B, or EDUC 790

EDUC 791 30 Points

Socio-cultural Examination of Sport and Exercise
Critical examination of the cultural meanings and social significance of sport and exercise. Analyses how different sociological approaches have applied key concepts in examining and understanding the importance of sport and exercise practices in contemporary society.

EDUC 792A 60 Points
EDUC 792B 30 Points

Thesis - Level 9
Corequisite: 30 points from EDUC 735, 787, EDPRAC 751, EDPROFST 700, 754, 757

To complete this course students must enrol in EDUC 792 A and B

EDUC 794A 30 Points
EDUC 794B 60 Points

Thesis - Level 9
Corequisite: 30 points from EDUC 735, 787, EDPRAC 751, EDPROFST 700, 754, 757

To complete this course students must enrol in EDUC 794 A and B

EDUC 796A 60 Points
EDUC 796B 60 Points

Thesis - Level 9
Prerequisite: A BA(Hons) in Education with at least Second Class Honours, First Division, or equivalent, and an approved research course

To complete this course students must enrol in EDUC 796 A and B

EDUC 797A 60 Points
EDUC 797B 60 Points

Research Portfolio - Level 9
Prerequisite: A BA(Hons) in Education with at least Second Class Honours, First Division, or equivalent, and an approved research course

To complete this course students must enrol in EDUC 797 A and B

Named Doctoral Courses

EDUC 801 30 Points

Literature Review
An advanced examination of students’ thesis topic through a rigorous review of the existing literature. The craft of advanced academic writing is developed through literature synthesis and critique, identifying research gaps to explore in their thesis work, developing an academic argument, exploring positionality, and drafting research questions for the thesis.

EDUC 802 30 Points

Theoretical Framework
An advanced examination of the role of theoretical frameworks as the system of concepts, assumptions, expectations and beliefs that supports and informs education research. The craft of advanced academic writing is developed through a detailed description of the chosen theoretical framework, with attention to how the framework informs the study design and research questions.

EDUC 803 30 Points

Study Design
An advanced examination of research methods best suited to undertake the proposed thesis investigation. The craft of advanced academic writing is developed through a discussion of and rationale for the proposed methods including a description of study design, participants, sampling plan, study setting, data collection and analysis techniques. Reliability and validity constraints are also explored.

EDUC 804 30 Points

Thesis Proposal
The craft of advanced academic writing is further developed through refinement of the literature review to present a cogent rationale for the proposed investigation, a clear explanation of how the theoretical framework will guide the study and complete articulation of the proposed methods.
Education and Social Work

Stage I

EDUCSW 199 
EDUCSW 199A 
EDUCSW 199B 

English Language Competency
To complete this course students must attain a level of competency in the English language as determined by the Faculty of Education and Social Work.
To complete this course students must enrol in EDUCSW 199 A and B, or EDUCSW 199

Stage II

EDUCSW 201 15 Points
Diversity in Aotearoa/New Zealand
Explores diversity in Aotearoa New Zealand, focusing on its bicultural history and contemporary public policy. Questions power relations relating to the Treaty of Waitangi and biculturalism, extending to the nation's increasing ethnic, cultural and linguistic diversities. Critiques intersectionalities of culture, race, ethnicity, gender, socio-economic location, sexuality, disability, age and examines policy implications. Tamaki Makaurau (Auckland) is a key illustrative setting.
Prerequisite: EDUCSW 101 or EDPROFM 100
Restriction: EDUC 118, SOCWORK 113, 114

EDUCSW 202 15 Points
New Cultures of Learning
Examines the current 'learning revolution' that has emerged from widespread economic, social, technological and environmental changes in today's globalised world. Questions the what, why and how of learning and recognises that 'formal' education represents only one aspect of 'learning'. Provides an overview of theories and practices of new cultures of learning, which students can relate to their own learning experiences.

Stage III

EDUCSW 302 15 Points
Service Learning
A service-learning experience during which students will develop specialist knowledge and skills. With supervision, students will engage in culturally-responsive, reflective practice that is of direct benefit to others. Professional and ethical relationship management, effective communication skills, critical reflection and evidence-based decision making will be emphasised.
Prerequisite: Students are required to consent to the disclosure of criminal convictions and safety checks as required by the Children's Act 2014

EDUCSW 303 15 Points
Research and Professional Practice
Develops knowledge and understanding of a range of research paradigms and how research informs professional practice. Critically examines the scope and nature of research. Designs a valid, ethical, and appropriate inquiry of a professional practice topic.
Prerequisite: 45 points at Stage II
Restriction: EDCURRIC 335

Diploma Courses

EDUCSW 600 15 Points
Special Study
Students undertake a supervised study into an aspect of the New Zealand curriculum, or relevant to education in New Zealand or the wider context. Key questions are formulated and specified outcomes addressed.
Prerequisite: Head of Programme approval

Postgraduate 700 Level Courses

EDUCSW 700 30 Points
Research Methodologies
Students explore two content strands. The first strand focuses on philosophical and theoretical questions about how we use and produce knowledge. The course takes a high-level view of methodological assumptions underlying different research traditions including Māori, Pasifika and other Indigenous research. The second strand focuses on understanding how to collect, interpret and synthesise research information in education and social services.
Restriction: EDPRAC 751, EDPROFST 700, 754, 757, EDUC 735, 787, EDUCSW 701, HIGHED 704, SOCWORK 718

EDUCSW 701 30 Points
Special Study

Education Curriculum Māori

Stage I

EDCURRM 102 15 Points
Te Reo Matatini Te Pihinga
Develops the knowledge, skills and attitudes associated with planning, teaching and assessing for students' literacy learning across ngā Marautanga Māori. Addresses questions such as: What do teachers need to know to teach literacy effectively? How do teachers’ literacy competencies affect student learning? How do teachers balance the needs of the curriculum and the needs of learners?
Restriction: EDCURRIC 102

EDCURRM 108 15 Points
Pāngarau: He Whakatakinga
Develops knowledge and understanding of the discipline of Pāngarau and its relevance and purpose. Understands how the discipline is manifested in the form of curricula documents and guides. Considers questions such as what does it mean for children to know pāngarau and the associated debates and related theory. Examines the specific pāngarau education discourse in te reo Māori.
Restriction: EDCURRM 104

EDCURRM 109 15 Points
Te reo Matatini 1: Te Pihinga
Develops knowledge, skills and attitudes associated with planning, teaching and assessing for learners' literacy learning across Marautanga. Examines a range of pedagogical practices and beliefs, including second language learning theory and pedagogy to teach literacy effectively and to improve outcomes for learners.
Restriction: EDCURRM 102

EDCURRM 111 15 Points
Hauora
Develops understanding of hauora, its whakapapa, philosophies and practices that support learning and teaching. Examines how teachers implement quality learning experiences based on ngā akoranga koiri me
Develops knowledge in the planning, teaching and assessing of children's learning in the hangarau and pūtaiao curricula as well as knowledge of relevant progressions and support guidelines. Examines how teachers design quality learning environments for positive engagement and effective learning in hangarau and pūtaiao for a diverse range of learners.

Prerequisite: EDCURRM 113
Restriction: EDCURRM 105, 107

EDCURRM 207
Hangarau - He Whakatakinga
Demonstrates knowledge of the relevance of Hangarau for students, community, and society. Develops understanding of Hangarau as a discipline. Demonstrates and develops knowledge of the Hangarau learning areas, planning, teaching and assessment, other relevant progressions, and support materials. Examines how teachers design quality learning environments for positive engagement and effective learning in Hangarau for a diverse range of learners.

Restriction: EDCURRM 205

EDCURRM 220
Special Topic

Stage III

EDCURRM 320
Special Topic

EDCURRM 321
Special Topic

EDCURRM 322
Special Topic

EDCURRM 323
Special Topic

EDCURRM 324
Special Topic

Stage I

EDCURRPK 111
Ng ue'aki e Tekinolosia
Develops knowledge and understanding of components of technological literacy as it relates to young children, including Pasifika children. Develops understanding of appropriate pedagogy to enhance learning in technology in Pasifika and general ECE settings. What is technological literacy? How can technological literacy be developed through drawing upon Pasifika languages and cultures? What environments encourage children's exploration of technological experiences?

Restriction: EDCURRIC 111

EDCURRPK 115
Apii taieni i nga mataiiti mua
Develops an appreciation of the nature of science, which supports conceptual understandings and quality teaching and learning approaches to science education in Pasifika ECE settings. How do teachers foster quality learning environments for infants, toddlers and young children based on the ECE curriculum so that learning in science can occur for diverse learners? How can science literacy be developed through Pasifika languages and cultures?

Restriction: EDCURRIC 115
Course Prescriptions

**Stage I**

**EDCURRPK 116**  
Laifafaga tau tufuga Pasifika  
Explores Pasifika perspectives on the four distinct disciplines of dance, drama, music and visual arts within the Arts. Students are encouraged to express ideas, feelings, beliefs and values that foster understanding of others. Theoretical and philosophical perspectives will be examined within the context of Pasifika Arts Education. How are Pasifika Arts interpreted within Early Childhood Education settings?  
Restriction: **EDCURRIC 116**

**EDCURRPK 120**  
Na i vakaraui ni vuli ka ena Pasifika  
Examines Te Whāriki Early Childhood Curriculum with specific reference to Pasifika learners. Pasifika pedagogies will be explored in relation to the principles, strands and goals of the curriculum. What do teachers need to know about the philosophical, theoretical and socio-cultural basis of Te Whāriki? How do Pasifika pedagogies, including teaching through language and culture, relate to the principles, strands and goals of Te Whāriki? Examines social sciences in Te Whāriki and other examples in Pasifika and general ECE settings.

**EDCURRPK 121**  
Moui olaola  
An introduction to human development from conception to old age and death within a holistic framework. Pasifika and other theoretical perspectives will be discussed in relation to understanding child development in the early years. Students will explore social theories to inform and develop effective teaching and learning strategies inclusive of Pasifika. How can Pasifika languages and cultures boost holistic development in Pasifika and general ECE?

**Stage II**

**EDCURRPK 210**  
Aooga o fanau laiti  
Critically examines influences of historical and contemporary theory and practice for infants/toddlers in Pasifika and general ECE settings. Develops pedagogies responsive to early learners. How do such pedagogies address a responsive infant/toddler curriculum with Pasifika learners? How do relationship-based pedagogies address issues for teachers of infants and toddlers? What is the tension between education and care from Pasifika cultural perspectives?  
Restriction: **EDCURRIC 210**

**EDCURRPK 211**  
Gagana ma lana matafaii  
Develops knowledge, skills, dispositions associated with assessing, planning and teaching for children's learning in Pasifika languages and critical literacies. Addresses such questions as: What do teachers need to know to teach learners in Pasifika ECE settings, and with fanau and communities? What educational resources and strategies might be used so all children become competent, confident communicators in Aotearoa New Zealand?  
Restriction: **EDCURRIC 211**

**EDCURRPK 212**  
Fika ‘i he Fanau iiki  
Develops knowledge and understanding of early mathematical concepts and their relationship with holistic learning environments in Pasifika ECE and general settings. What are early mathematical concepts as evident in Pasifika cultures? What is effective planning for mathematical possibilities drawing upon Pasifika languages and cultures within a play based ECE programme? What constitutes a holistic approach to mathematics learning?  
Restriction: **EDCURRIC 212**

**Stage III**

**EDCURRPK 313**  
Tuvaluva vakarautaki ena vuli me qito  
Develops a critical understanding of play within a broader context of learning and teaching in Pasifika and general ECE settings. How do Pasifika and other theoretical and philosophical perspectives on play impact on personal pedagogy? What are the pedagogical implications of play interfacing between individual freedom, fanau and community? What is the significance of play for adult creativity, communication and citizenship?

**EDCURRPK 322**  
Moui fakaagaga i loto he tau Aoga Fanau iiki he Pasifika  
Explores and critically analyses the notion of spiritual development, spirituality and culture within the context of Pasifika ECE education. Students will explore how to utilise cultural and spiritual knowledge to enhance Pasifika children's learning. What are the implications of spirituality, cultural knowledge and practices for pedagogy and curriculum that enhance holistic development?  
Restriction: **EDCURRPK 122**

**EDCURRPK 353**  
Su’esu’ega loloto i le faaogaina o gagana  
Develops a critical understanding of the place of bilingualism/biliteracy in relation to policy and practice of the ECE curriculum Te Whāriki, the New Zealand Curriculum and Pasifika languages. Learning and teaching in the medium of Pasifika languages involves knowledge and skills from the bilingual professional education field. Students are expected to critique the best of local and international bilingual and immersion theory and practice.  
Restriction: **EDCURRPK 253**

**Education Curriculum Secondary Diploma**

**Diploma Courses**

**EDCURSEC 601**  
Teaching Years 7-10 Mathematics and Statistics  
Develops knowledge and understanding of mathematics and statistics learning and teaching in the middle school by considering the questions: What is mathematical and statistical thinking? What are the components of, and key concepts and learning progressions in, the national curriculum? What is quality learning in mathematics and statistics? What constitutes effective teaching practices in mathematics and statistics?  
Restriction: **EDCURSEC 605, 606, EDCURR 607, 631**

**EDCURSEC 602**  
Teaching Years 9-11 Mathematics and Statistics  
Develops the knowledge, skills and understanding for designing quality learning experiences in mathematics and statistics for diverse learners by considering the questions related to secondary school mathematics and statistics education: What are the key concepts and learning progressions in the national curriculum? What theoretical models best inform as to the growth of understanding?
What constitutes effective teaching and assessment practices?
Prerequisite: EDCURSEC 601  
Restriction: EDCURSEC 605, 606, EDCURSEC 607, 631

EDCURSEC 603 15 Points  
EDCURSEC 603A 7.5 Points  
EDCURSEC 603B 7.5 Points

Curriculum Statistics Education 2
Develops the knowledge, skills and understanding for designing quality learning experiences and internal national assessment tasks in statistics for diverse learners by considering the questions related to senior secondary school statistics education: What are the concepts and learning progressions in the national curriculum? What statistical ideas pose greatest difficulty for learners? What constitutes effective teaching and assessment practices?
Corequisite: EDCURSEC 601 or 687  
Restriction: EDCURSEC 607, 631, EDCURSEC 605, 606  
To complete this course students must enrol in EDCURSEC 603 A and B, or EDCURSEC 603

EDCURSEC 604 15 Points  
EDCURSEC 604A 7.5 Points  
EDCURSEC 604B 7.5 Points

Senior Mathematics Education
Develops the knowledge, skills and understanding for designing quality learning experiences and internal national assessment tasks in mathematics for diverse learners by considering the questions related to senior secondary school mathematics education: What are the concepts and learning progressions in the national curriculum? What mathematical ideas pose greatest difficulty for learners? What constitutes effective teaching and assessment practices?
Corequisite: EDCURSEC 602 or 687  
Restriction: EDCURSEC 607, 631, EDCURSEC 605, 606  
To complete this course students must enrol in EDCURSEC 604 A and B, or EDCURSEC 604

EDCURSEC 607 15 Points

Physical Education Practice
Develops the practical pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing physical education in learning contexts related to teaching Years 9-11. Addresses questions such as: How do teachers plan lessons in, through and about movement? What do teachers need to know to teach in movement-based learning contexts effectively?

EDCURSEC 608 15 Points  
EDCURSEC 608A 7.5 Points  
EDCURSEC 608B 7.5 Points

Physical Education Curriculum
Develops the curriculum knowledge associated with planning, teaching and assessing physical education in secondary schools. Addresses questions such as: What is physical education and why is it important? How are units and programmes planned using the curriculum and national assessment requirements? How do teachers accommodate assessment qualification requirements in their planning?
Corequisite: EDCURSEC 607 or 687  
To complete this course students must enrol in EDCURSEC 608 A and B, or EDCURSEC 608

EDCURSEC 611 15 Points

Teaching Health Education 1
Integrates multidisciplinary-based knowledge and pedagogical content knowledge with developing understanding, skills, attitudes and values associated with teaching in health education across the secondary school. Addresses questions such as: Why is health education important? How are teachers informed in this subject? How is health education taught ethically and effectively for a diverse range of learners?
Restriction: EDCURSEC 648

EDCURSEC 612 15 Points  
EDCURSEC 612A 7.5 Points  
EDCURSEC 612B 7.5 Points

Teaching Health Education 2
Examines further the theories, concepts and research central to the teaching of health education. Addresses questions such as: What do teachers need to know to teach and assess learning in health education? What is authentic health education assessment and how do we determine and monitor success? How does knowledge of curriculum concepts determine learning at senior school levels?
Corequisite: EDCURSEC 611 or 687  
Restriction: EDCURSEC 648  
To complete this course students must enrol in EDCURSEC 612 A and B, or EDCURSEC 612

EDCURSEC 613 15 Points

Teaching and Learning Science 1
Develops the content knowledge, skills and understanding consistent with relevant curriculum requirements to enable effective teaching and learning approaches in intermediate and secondary science education. Addresses questions such as: How do teachers design quality learning environments that support positive engagement and effective learning for a diverse range of learners? How is achievement determined and monitored?
Prerequisite: Departmental approval  
Restriction: EDCURSEC 619, 620

EDCURSEC 614 15 Points  
EDCURSEC 614A 7.5 Points  
EDCURSEC 614B 7.5 Points

Teaching and Learning Science 2
Integrates research, theory and practical experience in examining secondary school science learning contexts. Addresses questions such as: Why is Science important? What is scientific literacy? What pedagogical content knowledge is needed to teach science effectively? How is achievement determined and monitored?
Corequisite: EDCURSEC 613 or 687  
Restriction: EDCURSEC 619, 620, EDCURSEC 608, 633  
To complete this course students must enrol in EDCURSEC 614 A and B, or EDCURSEC 614

EDCURSEC 615 15 Points

Teaching and Learning Science 3
Develops the content knowledge, skills and understanding consistent with relevant curriculum requirements to enable effective teaching and learning approaches in senior secondary science education. Addresses questions such as: How do teachers design quality learning environments that support positive engagement and effective learning for a diverse range of learners? How is achievement determined and monitored?
Restriction: EDCURSEC 619, 620, EDCURSEC 608, 633

EDCURSEC 616A 7.5 Points  
EDCURSEC 616B 7.5 Points

Teaching Chemistry Education
Develops the content knowledge, skills and understanding consistent with relevant curriculum requirements to enable
effective teaching and learning approaches in senior chemistry education. Addresses questions such as: How do teachers design quality learning environments that support positive engagement and effective learning for senior secondary students? How is achievement determined and monitored?
Corequisite: EDCURSEC 613, 615 or 619, 620 or 687
Restriction: EDCURR 638
To complete this course students must enrol in EDCURSEC 616 A and B
EDCURSEC 617A 7.5 Points
EDCURSEC 617B 7.5 Points

Teaching Biology Education
Develops the content knowledge, skills and understanding consistent with relevant curriculum requirements to enable effective teaching and learning approaches in senior biology education. Addresses questions such as: How do teachers design quality learning environments that support positive engagement and effective learning for senior secondary students? How is achievement determined and monitored?
Corequisite: EDCURSEC 613, 615 or 619, 620 or 687
Restriction: EDCURR 636
To complete this course students must enrol in EDCURSEC 617 A and B
EDCURSEC 618A 7.5 Points
EDCURSEC 618B 7.5 Points

Teaching Physics Education
Develops the content knowledge, skills and understanding consistent with relevant curriculum requirements to enable effective teaching and learning approaches in senior physics education. Addresses questions such as: How do teachers design quality learning environments that support positive engagement and effective learning for senior secondary students? How is achievement determined and monitored?
Corequisite: EDCURSEC 613, 615 or 619, 620 or 687
Restriction: EDCURR 637
To complete this course students must enrol in EDCURSEC 618 A and B
EDCURSEC 624 15 Points
EDCURSEC 624A 7.5 Points
EDCURSEC 624B 7.5 Points

Social Studies Education 1
Develops the knowledge and skills associated with planning, teaching, learning and assessing Social Studies. Addresses questions such as: What do teachers need to know and understand about the purpose and nature of Social Studies education? What methodologies, management strategies and resources can be used to maximise student motivation and address the diverse needs of students?
Restriction: EDCURR 641
To complete this course students must enrol in EDCURSEC 624 A and B, or EDCURSEC 624
EDCURSEC 625 15 Points

Social Studies Education 2
Develops the knowledge and skills associated with planning and teaching Social Studies and includes methodologies for addressing national assessment for Years 11-13. Addresses questions such as: How do teachers plan and implement learning experiences, units and programmes that meet national requirements? How can students be challenged to debate and consider social issues?
Prerequisite: EDCURSEC 624
Restriction: EDCURR 619, 681
EDCURSEC 626 15 Points
EDCURSEC 626A 7.5 Points
EDCURSEC 626B 7.5 Points

Geography for Teaching 1
Integrates expertise in the discipline of geography with expertise in planning, teaching and assessing the subject in schools. Develops the conceptual knowledge and skills that are central to the geography curriculum and addresses questions such as: Why is geography important? What do teachers need to know to teach and assess geography effectively? What resources and strategies maximise motivation and learning?
Corequisite: EDCURSEC 624 or 687
Restriction: EDCURR 604, 628, EDCURSEC 628, 629
To complete this course students must enrol in EDCURSEC 626 A and B, or EDCURSEC 626
EDCURSEC 627 15 Points
EDCURSEC 627A 7.5 Points
EDCURSEC 627B 7.5 Points

Geography for Teaching 2
Enhances the integration of expertise in the discipline of geography with expertise in planning, teaching and assessing the subject in schools. Deepens understanding of the conceptual knowledge and skills that are central to the geography curriculum and addresses questions such as: How do teachers determine and monitor success? How do teachers address common difficulties that students face?
Corequisite: EDCURSEC 624 or 687
Restriction: EDCURR 604, 628, EDCURSEC 628, 629
To complete this course students must enrol in EDCURSEC 627 A and B, or EDCURSEC 627
EDCURSEC 630 15 Points
EDCURSEC 630A 7.5 Points
EDCURSEC 630B 7.5 Points

History for Teaching 1
Integrates disciplinary expertise in relation to History content and historiography while developing the knowledge and skills associated with planning, teaching and assessing the subject. Addresses questions such as: Why is History an important subject? How can History be taught and assessed effectively? What resources and strategies can be used to maximise student motivation in learning History?
Corequisite: EDCURSEC 624 or 687
Restriction: EDCURR 605, 629, EDCURR 632, 633
To complete this course students must enrol in EDCURSEC 630 A and B, or EDCURSEC 630
EDCURSEC 631 15 Points
EDCURSEC 631A 7.5 Points
EDCURSEC 631B 7.5 Points

History for Teaching 2
Enhances disciplinary expertise in relation to developing an appropriate knowledge of content and historiography for Years 11 to 13 History, while further developing the knowledge and skills associated with planning, teaching and assessing the subject. Addresses questions such as: How can teachers challenge students to explore historical issues, understand and develop the methodologies employed by historians?
Corequisite: EDCURSEC 624 or 687
Restriction: EDCURR 605, 629, EDCURSEC 632, 633
To complete this course students must enrol in EDCURSEC 631 A and B, or EDCURSEC 631
EDCURSEC 632 15 Points
EDCURSEC 632A 7.5 Points
EDCURSEC 632B 7.5 Points

Teaching Social Studies Education 1
Develops the knowledge and skills associated with planning, teaching, learning and assessing Social Studies. Addresses questions such as: What do teachers need to know and understand about the purpose and nature of Social Studies education? What methodologies, management strategies and resources can be used to maximise student motivation and address the diverse needs of students?
Restriction: EDCURR 641
To complete this course students must enrol in EDCURSEC 616 A and B, or EDCURSEC 616
EDCURSEC 617A 7.5 Points
EDCURSEC 617B 7.5 Points

Teaching Social Studies Education 2
Develops the knowledge and skills associated with planning and teaching Social Studies and includes methodologies for addressing national assessment for Years 11-13. Addresses questions such as: How do teachers plan and implement learning experiences, units and programmes that meet national requirements? How can students be challenged to debate and consider social issues?
Prerequisite: EDCURSEC 624
Restriction: EDCURR 619, 681
EDCURSEC 626 15 Points
EDCURSEC 626A 7.5 Points
EDCURSEC 626B 7.5 Points

Geography for Teaching 1
Integrates expertise in the discipline of geography with expertise in planning, teaching and assessing the subject in schools. Develops the conceptual knowledge and skills that are central to the geography curriculum and addresses questions such as: Why is geography important? What do teachers need to know to teach and assess geography effectively? What resources and strategies maximise motivation and learning?
Corequisite: EDCURSEC 624 or 687
Restriction: EDCURR 604, 628, EDCURSEC 628, 629
To complete this course students must enrol in EDCURSEC 626 A and B, or EDCURSEC 626
EDCURSEC 627 15 Points
EDCURSEC 627A 7.5 Points
EDCURSEC 627B 7.5 Points

Geography for Teaching 2
Enhances the integration of expertise in the discipline of geography with expertise in planning, teaching and assessing the subject in schools. Deepens understanding of the conceptual knowledge and skills that are central to the geography curriculum and addresses questions such as: How do teachers determine and monitor success? How do teachers address common difficulties that students face?
Corequisite: EDCURSEC 624 or 687
Restriction: EDCURR 604, 628, EDCURSEC 628, 629
To complete this course students must enrol in EDCURSEC 627 A and B, or EDCURSEC 627
EDCURSEC 630 15 Points
EDCURSEC 630A 7.5 Points
EDCURSEC 630B 7.5 Points

History for Teaching 1
Integrates disciplinary expertise in relation to History content and historiography while developing the knowledge and skills associated with planning, teaching and assessing the subject. Addresses questions such as: Why is History an important subject? How can History be taught and assessed effectively? What resources and strategies can be used to maximise student motivation in learning History?
Corequisite: EDCURSEC 624 or 687
Restriction: EDCURR 605, 629, EDCURR 632, 633
To complete this course students must enrol in EDCURSEC 630 A and B, or EDCURSEC 630
EDCURSEC 631 15 Points
EDCURSEC 631A 7.5 Points
EDCURSEC 631B 7.5 Points

History for Teaching 2
Enhances disciplinary expertise in relation to developing an appropriate knowledge of content and historiography for Years 11 to 13 History, while further developing the knowledge and skills associated with planning, teaching and assessing the subject. Addresses questions such as: How can teachers challenge students to explore historical issues, understand and develop the methodologies employed by historians?
Corequisite: EDCURSEC 624 or 687
Restriction: EDCURR 605, 629, EDCURSEC 632, 633
To complete this course students must enrol in EDCURSEC 631 A and B, or EDCURSEC 631
EDCURSEC 632 15 Points
EDCURSEC 632A 7.5 Points
EDCURSEC 632B 7.5 Points
EDCURSEC 634  15 Points
EDCURSEC 634A  7.5 Points
EDCURSEC 634B  7.5 Points

Economics Education
Develops knowledge and skills associated with planning for teaching and learning in Economics. Addresses questions such as: What are important principles, concepts and skills associated with Economics education? What do teachers need to know and understand about teaching methodologies, management strategies and resources to successfully plan for the diverse needs of students?
Restriction: EDCUR SEC 611, 635
To complete this course students must enrol in EDCURSEC 634 A and B, or EDCURSEC 634

EDCURSEC 636A  7.5 Points
EDCURSEC 636B  7.5 Points

Accounting Education
Develops knowledge and skills associated with planning for teaching and learning in Accounting. Addresses questions such as: What are important principles, concepts and skills associated with Accounting education? What do teachers need to know and understand about teaching methodologies, management strategies and resources to successfully plan for the diverse needs of students?
Restriction: EDCURR 602, 624
To complete this course students must enrol in EDCURSEC 636 A and B

EDCURSEC 638A  7.5 Points
EDCURSEC 638B  7.5 Points

Business Studies 1
Integrates disciplinary based content knowledge, theory and research with developing knowledge, skills and attitudes associated with planning and assessment in Business Studies. Addresses questions such as: Why is this subject important? What do teachers need to know to teach this subject effectively? What motivates students in the subject and what resources and strategies maximise motivation?
To complete this course students must enrol in EDCURSEC 638 A and B

EDCURSEC 639  15 Points

The Learning Area of Technology
Develops the knowledge, understanding and issues associated with Technology education in the New Zealand Curriculum. Explores current and seminal theory to address questions such as: What is technology? Why is this Learning Area important? What are the important principles and concepts underpinning Technology in the New Zealand Curriculum?

EDCURSEC 641  15 Points
EDCURSEC 641A  7.5 Points
EDCURSEC 641B  7.5 Points

Teaching Specialist Technological Practice
Develops pedagogical content knowledge; skills and attitudes associated with specialist domains of practice in technology. Addresses questions such as: What is technological practice? How does industry practice relate to classroom practice? What strategies are effective for teaching technology to diverse learners? How does specialist knowledge contribute to classroom practice?

What teaching methodologies and resources maximise student success?
Corequisite: EDCURSEC 639 or 687
To complete this course students must enrol in EDCURSEC 641 A and B, or EDCURSEC 641

EDCURSEC 642  15 Points

Implementing Technology Education
Develops pedagogical content knowledge, skills and methodology for designing quality learning experiences and senior assessment tasks in Technology education. Addresses: How are units of work and programmes planned using the curriculum and national assessment requirements? What teaching methodologies, management strategies and resources maximise success for diverse learners? What motivates students to complete this course?
Restriction: EDCURSEC 639 or 687

EDCURSEC 643  15 Points
EDCURSEC 643A  7.5 Points
EDCURSEC 643B  7.5 Points

Educating for Visual Communication
Develops pedagogical content knowledge, skills and attitudes for quality visual communication across the Curriculum. Addresses questions such as: What is the value of learning to communicate visually? What are the important principles, concepts and skills in Visual Communication? How can visual communication contribute to children's learning in a range of curriculum areas? How do teachers encourage effective visual communication?
Restriction: EDCURSEC 639 or 687
To complete this course students must enrol in EDCURSEC 643 A and B, or EDCURSEC 643

EDCURSEC 644A  7.5 Points
EDCURSEC 644B  7.5 Points

Design and Visual Communication
Designs and develops pedagogical content knowledge, methodologies and skills underpinned by theory to design quality learning experiences and assessment tasks in Design and Visual Communication. Addresses: What are the important design principles, historical influences and ways of thinking and communicating in Design and Visual Communication? How are units of work and programmes planned using the curriculum and national assessment requirements?
Restriction: EDCURSEC 639 or 687
To complete this course students must enrol in EDCURSEC 644 A and B

EDCURSEC 645  15 Points

Music Education 1
Integrates disciplinary-based content knowledge and scholarship with developing knowledge, skills and attitudes associated with planning, teaching and assessing Music. Addresses questions such as: What musical experiences are important to adolescent cognitive and affective development? What do teachers need to know to teach Music effectively? What strategies and resources maximise motivation and learning in Music?
Restriction: EDCUR SEC 646, 661, 662

EDCURSEC 646  15 Points

Music Education 2
Enhances the integration of disciplinary-based content knowledge and scholarship with the knowledge, skills and attitudes required to teach and assess Music in the New Zealand curriculum. Addresses questions such as: What principles, strategies and understandings are necessary to plan, teach and assess music effectively in senior
secondary environments? How can these be scaffolded and monitored?
Corequisite: EDCURSEC 645
Restriction: EDCURR 646, 661, 662

EDCURSEC 647 15 Points
EDCURSEC 647A 7.5 Points
EDCURSEC 647B 7.5 Points

Music Education Research
Provides an opportunity for students to engage in research into an area of the Music curriculum. Addresses the question: What teaching methodologies, management strategies and resources best inform and maximise teacher and student success in secondary music education? Critically evaluates music education in contemporary societies in order to reach an informed understanding of how music education in New Zealand secondary schools might be structured and framed.
Corequisite: EDCURSEC 646 or 687
Restriction: EDCURR 646, 661, 662
To complete this course students must enrol in EDCURSEC 647 A and B, or EDCURSEC 647

EDCURSEC 648 15 Points

Visual Arts Education 1
Develops pedagogical content knowledge, skills, and attitudes for planning, teaching and assessing visual arts education. Addresses questions such as: What is the relationship between art, culture, New Zealand society and the curriculum? How can visual arts education address the needs of ethnically and culturally diverse students? What teaching methodologies, management strategies and resources motivate students and maximise achievement?
Corequisite: EDCURSEC 649

EDCURSEC 649 15 Points

Visual Arts Education 2
Develops pedagogical content knowledge, skills, and attitudes for planning, teaching and assessing visual arts education. Addresses questions such as: What are the important principles, concepts and skills for teaching the visual arts discipline in the arts curriculum? How do visual arts programmes promote development of practical knowledge, exploration and expression of ideas, and understanding of the contexts of art?
Corequisite: EDCURSEC 648

EDCURSEC 650 15 Points
EDCURSEC 650A 7.5 Points
EDCURSEC 650B 7.5 Points

Visual Arts Education 3
Develops pedagogical content knowledge, skills, and attitudes for planning, teaching and assessing visual arts education in the senior school. Addresses questions such as: What are the important principles, concepts and skills for teaching the specialist disciplines in the visual arts curriculum? How are programmes for senior students planned, resourced, managed and implemented to meet national curriculum and assessment requirements?
Corequisite: EDCURSEC 648, 649 or 687
To complete this course students must enrol in EDCURSEC 650 A and B, or EDCURSEC 650

EDCURSEC 651 15 Points

Teaching Drama 1
Develops pedagogical and content knowledge and skills for planning, teaching and assessing drama. Addresses questions such as: What important principles, skills, teaching methodologies and strategies support teaching drama in the secondary school? How can drama education address needs of diverse students? How do drama programmes extend practical knowledge, developing ideas, performance and interpretation and understanding of drama contexts?
Restriction: EDCURSEC 661

EDCURSEC 652 15 Points
EDCURSEC 652A 7.5 Points
EDCURSEC 652B 7.5 Points

Teaching Drama 2
Develops pedagogical and content knowledge, skills and attitudes for planning teaching and assessing drama education in the senior school. Addresses questions such as: What are the important principles, concepts and teaching skills that support specialist drama programmes in the senior secondary school? How are programmes for senior students planned, resourced, and implemented for national curriculum and assessment requirements?
Corequisite: EDCURSEC 651 or 687
Restriction: EDCURR 679, EDCURSEC 661
To complete this course students must enrol in EDCURSEC 652 A and B, or EDCURSEC 652

EDCURSEC 653 15 Points
EDCURSEC 653A 7.5 Points
EDCURSEC 653B 7.5 Points

Teaching Dance Education 1
Develops pedagogical and content knowledge and skills for planning, teaching and assessing dance. Addresses questions such as: What important principles, skills, teaching methodologies and strategies support teaching dance in the arts curriculum? How can dance education address the needs of diverse students? How do dance programmes extend practical knowledge, dance making, performance and interpretation, and understanding of dance contexts?
Restriction: EDCURR 679
To complete this course students must enrol in EDCURSEC 653 A and B, or EDCURSEC 653

EDCURSEC 654 15 Points
EDCURSEC 654A 7.5 Points
EDCURSEC 654B 7.5 Points

Teaching Dance Education 2
Develops pedagogical and content knowledge, skills and attitudes for planning teaching and assessing dance education in the senior school. Addresses questions such as: What are the important principles, concepts and teaching skills that support specialist dance programmes in the senior secondary school? How are programmes for senior students planned, resourced, and implemented for national curriculum and assessment requirements?
Corequisite: EDCURSEC 653 or 687
Restriction: EDCURR 679
To complete this course students must enrol in EDCURSEC 654 A and B, or EDCURSEC 654

EDCURSEC 655 7.5 Points
EDCURSEC 655A 7.5 Points

Art History Education
Develops pedagogical content knowledge, skills, and attitudes for planning, teaching and assessing art history education. Addresses questions such as: What are the important principles, concepts and skills for teaching art history? How can studies in language and visual literacy be maximised for student achievement? How are programmes...
planned, resourced, managed and implemented to meet national curriculum and assessment requirements?  
**To complete this course students must enrol in EDCURSEC 655 A and B**

EDCURSEC 656  
15 Points  
**Teaching and Learning English 1**  
Develops the pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing English. Addresses questions such as: Why is this subject important? What are the important principles, concepts and skills in this subject? How can the diverse needs of students be addressed? How do teachers plan lessons? What teaching methodologies, management strategies and resources maximise success?  
Corequisite: EDCURSEC 657  
Restriction: EDCURSEC 659, 660, EDCURR 603, 626

EDCURSEC 657  
15 Points  
**Teaching and Learning English 2**  
Develops the pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing English. Addresses questions such as: How are units and programmes planned using the curriculum and national assessment requirements? How is success determined for the beginning stages of national qualifications?  
Corequisite: EDCURSEC 656  
Restriction: EDCURSEC 659, 660, EDCURR 603, 626

EDCURSEC 658  
15 Points  
**Teaching and Learning English 3**  
Develops the pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing English. Addresses questions such as: What are the important principles, concepts and skills for teaching the senior curriculum? How are senior curriculum units and programmes planned using national qualification assessment requirements? What teaching methodologies, management strategies and resources maximise student success? How is student success determined?  
Prerequisite: EDCURSEC 656, 657 or 687  
Restriction: EDCURSEC 659, 660, EDCURR 603, 626

EDCURSEC 663  
15 Points  
EDCURSEC 663A  
7.5 Points  
EDCURSEC 663B  
7.5 Points  
**Teaching Media Studies 1**  
Integrates disciplinary-based content knowledge and scholarship with developing the knowledge, skills and understandings associated with planning, teaching and assessing diverse learners in Media Studies at Years 12 and 13. Addresses questions such as: What do teachers need to know to teach and assess for national qualifications? What strategies and resources maximise motivation and learning in Media Studies?  
Restriction: EDCURR 632, 682, EDCURSEC 662  
To complete this course students must enrol in EDCURSEC 663 A and B, or EDCURSEC 663

EDCURSEC 664  
15 Points  
EDCURSEC 664A  
7.5 Points  
EDCURSEC 664B  
7.5 Points  
**Teaching Media Studies 2**  
Enhances the integration of disciplinary-based content knowledge and scholarship with the knowledge, skills and understandings associated with planning, teaching and assessing diverse learners in Media Studies. Addresses questions such as: How do teachers structure programmes for students Years 9-13 in Media Studies? What knowledge, skills and understandings are central to this subject? How do teachers determine and monitor success?  
Corequisite: EDCURSEC 663 or 687  
Restriction: EDCURSEC 662, EDCURR 632, 682  
To complete this course students must enrol in EDCURSEC 664 A and B, or EDCURSEC 664

EDCURSEC 665  
15 Points  
EDCURSEC 665A  
7.5 Points  
EDCURSEC 665B  
7.5 Points  
**Teaching ESSOL 1**  
Develops the pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing ESSOL. Addresses questions such as: Why is this subject important? What are the important principles, concepts and skills in this subject? How can the diverse needs of students be addressed? How do teachers plan lessons? What teaching methodologies, management strategies and resources maximise success?  
Corequisite: EDCURSEC 687  
Restriction: EDCURR 627  
To complete this course students must enrol in EDCURSEC 665 A and B, or EDCURSEC 665

EDCURSEC 666  
15 Points  
EDCURSEC 666A  
7.5 Points  
EDCURSEC 666B  
7.5 Points  
**Teaching Languages**  
Addresses the methodologies for teaching languages by developing the knowledge, skills and attitudes associated with planning, teaching and assessing Languages. Addresses questions such as: Why is language learning important? What do teachers need to know to teach languages effectively? What strategies and resources maximise student motivation and language acquisition when learning a language?  
Restriction: EDCURR 665, 678, 680  
To complete this course students must enrol in EDCURSEC 667 A and B

EDCURSEC 667A  
15 Points  
EDCURSEC 667B  
15 Points  
**Teaching Chinese**  
Integrates content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing Chinese. Addresses questions such as: Why is it important to learn Chinese? What do teachers need to know to teach Chinese effectively? What strategies and resources maximise motivation and language acquisition in learning Chinese?  
Corequisite: EDCURSEC 667 or 687  
Restriction: EDCURR 601, 623, 649, 663  
To complete this course students must enrol in EDCURSEC 668 A and B

EDCURSEC 668A  
7.5 Points  
EDCURSEC 668B  
7.5 Points  
**Teaching French**  
Integrates content knowledge and scholarship with the
knowledge, skills and attitudes associated with planning, teaching and assessing French. Addresses questions such as: Why is it important to learn French? What do teachers need to know to teach French effectively? What strategies and resources maximise motivation and language acquisition in learning French?
Corequisite: EDCURSEC 667 or 687
Restriction: EDCURR 650, 664
To complete this course students must enrol in EDCURSEC 669 A and B
EDCURSEC 670A  7.5 Points
EDCURSEC 670B  7.5 Points

Teaching German
Integrates content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing German. Addresses questions such as: Why is it important to learn German? What do teachers need to know to teach German effectively? What strategies and resources maximise motivation and language acquisition in learning German?
Corequisite: EDCURSEC 667 or 687
Restriction: EDCURR 601, 623, 680
To complete this course students must enrol in EDCURSEC 670 A and B
EDCURSEC 671A  7.5 Points
EDCURSEC 671B  7.5 Points

Teaching Japanese
Integrates content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing Japanese. Addresses questions such as: Why is it important to learn Japanese? What do teachers need to know to teach Japanese effectively? What strategies and resources maximise motivation and language acquisition in learning Japanese?
Corequisite: EDCURSEC 667 or 687
Restriction: EDCURR 612, 639
To complete this course students must enrol in EDCURSEC 671 A and B
EDCURSEC 674A  7.5 Points
EDCURSEC 674B  7.5 Points

Teaching Samoan
Integrates content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing Samoan. Addresses questions such as: Why is it important to learn Samoan? What do teachers need to know to teach Samoan effectively? What strategies and resources maximise motivation and language acquisition in learning Samoan?
Corequisite: EDCURSEC 667 or 687
Restriction: EDCURR 647, 665
To complete this course students must enrol in EDCURSEC 674 A and B
EDCURSEC 675A  7.5 Points
EDCURSEC 675B  7.5 Points

Teaching Spanish
Integrates content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing Spanish. Addresses questions such as: Why is it important to learn Spanish? What do teachers need to know to teach Spanish effectively? What strategies and resources maximise motivation and language acquisition in learning Spanish?
Corequisite: EDCURSEC 667 or 687
Restriction: EDCURR 613, 640
To complete this course students must enrol in EDCURSEC 675 A and B
EDCURSEC 676  15 Points
Teaching Religious Education
Develops the pedagogical content and subject matter knowledge; skills and attitudes associated with planning, teaching and assessing Religious Education in Catholic/Christian schools. Addresses questions such as: Why is this subject important? What do teachers need to know to teach RE effectively? How can diverse needs of students be addressed? What teaching methodologies, management strategies and resources maximise success?
Restriction: EDPROFST 760
EDCURSEC 677A  7.5 Points
EDCURSEC 677B  7.5 Points

Teaching Classical Studies
Integrates disciplinary-based content knowledge and scholarship with the knowledge, skills and attitudes associated with planning, teaching and assessing Classical Studies. Addresses questions such as: Why is it important to study Classical Studies? What do teachers need to know to teach and assess for senior qualifications? What strategies and resources maximise motivation and learning in Classical Studies?
Restriction: EDCURR 620, 622
To complete this course students must enrol in EDCURSEC 677 A and B
EDCURSEC 678  15 Points
EDCURSEC 678A  7.5 Points
EDCURSEC 678B  7.5 Points

Te Whakapuakitanga
Integrates content knowledge with knowledge, skills and attitudes associated with planning, teaching and assessing te reo Māori at Years 7-10. Addresses such questions as: Why is it important to learn te reo Māori? What do teachers need to know to teach te reo Māori effectively? What strategies and resources maximise motivation and language acquisition in learning te reo Māori?
Restriction: EDCURR 606, 630, EDCURRM 320
To complete this course students must enrol in EDCURSEC 678 A and B, or EDCURSEC 679
EDCURSEC 679  15 Points
EDCURSEC 679A  7.5 Points
EDCURSEC 679B  7.5 Points

Te Whakawanaketanga
Develops the pedagogical content knowledge, skills and attitudes associated with planning, teaching and assessing te reo Māori in Years 11-13. Addresses such questions as: What key factors contribute to the teaching of senior students? How are curriculum units and programmes planned in order to meet high stakes assessment requirements? How do teachers formatively assess student learning?
Corequisite: EDCURSEC 678 or 687
Restriction: EDCURR 606, 630
To complete this course students must enrol in EDCURSEC 679 A and B, or EDCURSEC 679
EDCURSEC 681  10 Points

Special Study
Students undertake a supervised study into an aspect of the
New Zealand curriculum, or relevant to education in New Zealand or the wider context. Key questions are formulated and specified outcomes addressed.

**Design for Learning**
Develops understanding of the national curriculum document and the structure and content of the Learning Area, including content, pedagogical knowledge and pedagogical content knowledge required for developing effective learning environments. Develops planning, teaching, and assessment design consistent with national curriculum requirements and with theory and research within the Learning Area. Reflects critically on how responsive pedagogies impact on learning.

Restriction: EDCURSEC 687
To complete this course students must enrol in EDCURSEC 692 A and B, or EDCURSEC 692

**Curriculum, Teaching, and Learning**
Critically explores the New Zealand Curriculum and secondary school qualifications, and develops pedagogical content knowledge of planning, teaching and assessment in specialist learning areas. A short teaching practice enables students to apply knowledge to practice, and critically examine its relationship to relevant theory and research.

<table>

**Learning Area Inquiry**
Within the context of concurrent field-based teaching, critically reflects on effective teaching practices, and theory and research evidence that underpin them. Develops pedagogical content knowledge, and understanding and use of inquiry within a specialist learning area. Students demonstrate evidence of self-awareness, awareness of learning through use of individualised student data, problem solving skills, and an understanding of culturally responsive pedagogy.

To complete this course students must enrol in EDCURSEC 719 A and B
Education Curriculum Studies

**Stage I**

**EDCURRIC 101** 15 Points
**Arts Education Primary**
Develops students’ knowledge, skills and attitudes associated with planning, teaching and assessing children’s learning in the arts: dance, drama, music and visual art. Addresses questions such as: Why are the arts important to children’s learning? How do teachers design quality learning experiences that encourage individual responses from a diverse range of learners? How do we monitor and assess learning?
Restriction: EDCURR 106, 206, EDCURRM 101

**EDCURRIC 102** 15 Points
**Language and Literacy Education Primary 1**
Develops the knowledge, skills and attitudes associated with planning, teaching and assessing for students’ learning in the English curriculum. Addresses questions such as: What do teachers need to know to teach the curriculum effectively? How do teachers’ literacy competencies affect student learning? How do teachers balance the needs of the curriculum and the needs of learners?
Restriction: EDCURR 202, EDCURRM 102

**EDCURRIC 103** 15 Points
**Health and Physical Education**
Develops understandings of the theories, concepts and practices that support learning and teaching in health and physical education. Addresses questions such as: How do teachers implement quality learning experiences based on the health and physical education curriculum for effective learning to occur for a diverse range of learners? How is learning monitored and assessed?
Restriction: EDCURR 108, EDCURRM 103

**EDCURRIC 104** 15 Points
**Primary Mathematics and Statistics Education 1**
Develops knowledge and understanding of the nature of mathematics and statistics. Considers questions related to primary school mathematics and statistics education such as: What is the purpose and role of mathematics and statistics in the New Zealand Curriculum Framework? What is meant by thinking mathematically and statistically? What are the components of, and key concepts in, the national curriculum?
Restriction: EDCURR 203, EDCURRM 104

**EDCURRIC 105** 15 Points
**Science Education Primary**
Develops an appreciation of the nature of science that supports conceptual understandings and quality teaching and learning approaches in science education. Addresses questions such as: How do teachers design quality learning experiences based on the science curriculum so that positive engagement and effective learning can occur for a diverse range of learners? How is learning monitored and assessed?
Restriction: EDCURR 204, EDCURRM 105

**EDCURRIC 106** 15 Points
**Social Studies Education Primary**
Develops students’ knowledge and skills associated with planning for teaching and learning in Social Studies. Addresses questions such as: What do teachers need to know and understand about the history, nature and purpose of Social Studies education? How are curriculum requirements, teaching methodologies, management strategies and resources used to plan for students’ diverse needs? How is learning monitored and assessed?
Restriction: EDCURR 107

**EDCURRIC 107** 15 Points
**Technology Education Primary 1**
Develops knowledge, skills and attitudes associated with planning, teaching and assessing for children’s learning in Technology Education. Addresses questions such as: What do teachers need to know about the nature and purpose of Technology Education? How do teachers design quality learning experiences for a diverse range of learners? How is learning monitored and assessed?
Restriction: EDCURR 106, 209, EDCURRM 107

**EDCURRIC 108** 15 Points
**Mathematics and Statistics Education 1**
Explores what it means to be a learner of mathematics and statistics, with respect to relevant theory and curricula. Develops knowledge, understandings and skills that will enable students to identify, discuss and reflect on how diverse learners most effectively learn mathematics and statistics.
Restriction: EDCURRIC 104

**EDCURRIC 109** 15 Points
**Languages and Literacies Education 1**
Examines beliefs and pedagogical practices about languages and literacies.
Restriction: EDCURRIC 102

**EDCURRIC 110** 15 Points
**Dance/Drama in the Early Years**
Develops fundamental knowledge, skills and attitudes associated with planning, teaching and assessing children's dance and drama learning in early childhood. Addresses questions such as: Why are dance and drama important to children’s learning? How do teachers design quality learning experiences that encourage individual responses from a diverse range of learners? How do we assess children’s learning?

**EDCURRIC 111** 15 Points
**Experiencing Technology**
Develops knowledge and understanding of the components of technological literacy as it relates to young children. Develops understanding of appropriate pedagogical strategies to enhance children’s learning in technology. Addresses questions such as: What is technological literacy? How can we develop technological literacy in young children? What environments encourage children's exploration of technological experiences?

**EDCURRIC 112** 15 Points
**Hauora: Early Years Movement**
Develops knowledge and understanding of the place of movement in childhood development, growth and learning. Examines questions such as: What is the nature and purpose of physical activity in the early years? What learning and teaching strategies, teacher disposition and practices ensure quality experiences for learning of, through and about movement for diverse learners?

**EDCURRIC 113** 15 Points
**Science and Technology Education 1**
Through inquiry, develop an appreciation of the role of science and technology in education and society. Apply pedagogical, curriculum and content knowledge to select appropriate approaches and resources for science
and technology learning experiences to achieve valued outcomes for diverse akonga.

Restriction: EDCURRIC 105, 107

EDCURRIC 114 15 Points
Music in the Early Years
Develops fundamental understanding of knowledge, skills, and attitudes required to assess, plan, and facilitate children's learning through listening, singing, moving, playing and creating with music. Addresses questions such as: What is the value of music in early childhood? How do teachers design quality-learning experiences that motivate and enhance children's learning through music?

EDCURRIC 115 15 Points
Science in the Early Years
Develops an appreciation of the nature of science, which supports conceptual understandings and quality teaching and learning approaches to science education. Examines questions such as: How do teachers foster quality learning environments for infants, toddlers and young children based on the early childhood curriculum so that effective learning in science can occur for a diverse range of learners?

EDCURRIC 116 15 Points
Visual Arts in the Early Years
Develops fundamental knowledge, skills and attitudes associated with planning, teaching and assessing children's visual arts learning in early childhood. Addresses questions such as: Why is visual arts important to children's learning? What are effective design features of quality learning experiences that encourage individual responses from a diverse range of learners? How do we assess for children's learning?

EDCURRIC 117 15 Points
Arts Education
Inquire into the place of The Arts in education and develop capability and understanding through experiences in each of the four arts disciplines. Design for learning by applying pedagogical, curriculum, content and assessment knowledge to select approaches and resources for Arts learning experiences for valued outcomes for diverse akonga.

Restriction: EDCURRIC 101

EDCURRIC 118 15 Points
Young Children and Early Learning Environments

EDCURRIC 119 15 Points
Health and Physical Education and Social Studies
Education 1
Explores the aims and purposes of Health and Physical Education and Social Studies Education. Pedagogies and practices that support learning and teaching in these areas are experienced and reflected on. Selection of content and development of appropriate planning decisions is practised

Restriction: EDCURRIC 103, 106

EDCURRIC 130 15 Points
Physical Education Practice 1
Introduces students to the practical foundations of physical education. Involves experiential learning including residential field-based experiences. Addresses such questions as: How do I perform selected physical activities, improve my technical knowledge of the competencies required in the selected activities, analyse selected movements and provide feedback to others?

EDCURRIC 131 15 Points
Physical Education Practice 2
Develops students' competency and knowledge about the physical foundations of physical education. Emphasis is placed on experiential learning. Addresses such questions as: Do I have the knowledge and competence: to be able to perform selected physical activities, to apply appropriate technical knowledge to specific physical activities, and to analyse selected movements and provide feedback?

Prerequisite: EDCURRIC 130

EDCURRIC 132 15 Points
Concepts Underpinning Skilled Movement
Introduces students to the bio-physical foundations of Health and Physical Education including the roles of skill acquisition and bio-mechanics in physical education contexts. Addresses such questions as: How can knowledge of the internal and external mechanics be applied to understand human movement? What is skill and how do people learn motor skills?

EDCURRIC 134 15 Points
Expressive Movement and Physical Education
Develops an understanding of purposeful expressive physical activity that embraces aesthetic and inherent cultural values in learning dance and te ao kori. Addresses such questions as: What knowledge do teachers need in a range of aesthetic and bicultural physical education contexts to develop this work in schools? What choreographic skills are needed for devising aesthetic movement compositions?

EDCURRIC 135 15 Points
Socio-cultural Foundations of Health and Physical Education
Introduces subject matter knowledge in the socio-cultural foundations of Health and Physical Education. Addresses such questions as: What is the nature of sport and why do people play it? In what ways is the body a cultural construct? What educational and cultural practices influence human movement culture and mediate understanding of human physicality?

Stage II

EDCURRIC 200 15 Points
Biophysical Concepts in Physical Education
Develops knowledge and understanding of exercise physiology and motor skill learning in the context of the teaching of Physical Education. Addresses such questions as: What role does physiology play during exercise? What physiological responses occur during, and as a result of exercise? What is the nature of skill learning? What theories inform our understanding of skill acquisition?

Prerequisite: EDCURRIC 132, 133

EDCURRIC 201 15 Points
Mathematics and Statistics Education 2
Develops knowledge, understandings and skills that are effective in the successful teaching of mathematics and statistics. Engage with planning, teaching and assessing mathematics and statistics in responsive ways designed
to improve engagement and success for diverse learners of mathematics.
Prerequisite: EDCURRIC 108
Restriction: EDCURRIC 204

EDCURRIC 202 15 Points
Languages and Literacy Education Primary 2
Deepens the knowledge, skills and attitudes associated with planning, teaching and assessing for individual students’ learning in the English curriculum. Addresses questions such as: What are effective literacy practices for working with individual learners? How are wider concepts of literacy including bilingualism and biliteracy developed? How is learning monitored and assessed?
Prerequisite: EDCURRIC 102
Restriction: EDCURRM 202

EDCURRIC 203 15 Points
Languages and Literacies in Education 2
Applies learning focused pedagogical and curriculum content knowledge, using evidence to scaffold learning and to improve teaching.
Prerequisite: EDCURRIC 109
Restriction: EDCURRIC 202

EDCURRIC 204 15 Points
Primary Mathematics and Statistics Education 2
Develops the knowledge, skills and understanding for designing quality learning experiences for diverse learners. Considers questions related to primary school mathematics and statistics education such as: What are the concepts and learning progressions in the national curriculum? What theoretical models of teaching, learning and assessment best inform teachers about the growth of understanding? What constitutes effective teaching practice?
Prerequisite: EDCURRIC 104
Restriction: EDCURRM 202

EDCURRIC 205 15 Points
Science and Technology Education 2
Through inquiry, develop capability and understanding of the role of science and technology in education and society. Apply integration principles with pedagogical, content, assessment and curriculum knowledge to science and technology learning experiences resulting in valued outcomes for diverse akonga.
Prerequisite: EDCURRIC 113

EDCURRIC 206 15 Points
Health and Physical Education and Social Studies Education 2
Critiques pedagogies and practices in Health and Physical Education and Social Studies in relation to their effectiveness for supporting diverse akonga. Developing pedagogical, content, assessment and curriculum knowledge is utilised to design approaches for learning and teaching which promote valued outcomes for diverse akonga.
Prerequisite: EDCURRIC 119

EDCURRIC 207 15 Points
Curriculum and Pedagogy
Critically examines theories, approaches and key curriculum influences. Examines the critical role of teacher knowledge, inquiry and reflection in implementing appropriate curriculum and assessment for infants, toddlers and young children. Critically explores the relationship between assessment, curriculum, pedagogy and learning, including Kaupapa Māori and Pasifika perspectives.

EDCURRIC 208 15 Points
Investigation and Exploration
Critically examines curriculum approaches that promote children’s exploration and learning in science, technology, engineering and mathematics. Key concepts, processes and pedagogies relating to these disciplines are considered. Explores children’s learning through play and holistic understandings of infant’s, toddler’s and young children’s learning.

EDCURRIC 209 15 Points
Literacies, Languages, and Cultures
Critically explores responsive, equitable and inclusive pedagogies to support diverse akonga in learning and developing languages and multi-modal literacies. Examines assessment, planning and teaching that take account of ākonga, whānau and communities. Issues related to literacy, languages and cultures in Aotearoa are critically examined. The construction and interpretation of children’s texts are explored.

EDCURRIC 210 15 Points
Languages and Literacies
Develops knowledge, critical skills and dispositions associated with assessing, planning and teaching for children’s learning in languages and literacies. Addresses questions such as: What do teachers need to know and be, to teach with diverse learners, family, whānau and communities? What resources and strategies maximise complexity and continuity such that all children identify as competent and confident communicators in Aotearoa New Zealand?
Restriction: EDCURRIC 631

EDCURRIC 211 15 Points
Mathematics in the Early Years
Develops knowledge and understanding of early mathematical concepts and their relationship with holistic learning environments. Considers questions such as: What are early mathematical concepts? What is effective planning for mathematical possibilities within a play-based early childhood programme? What constitutes an holistic approach to mathematics learning?

EDCURRIC 212 15 Points
Social Sciences Education
Develops knowledge, skills, dispositions associated with children’s learning and social sciences education. Addresses questions such as: What do teachers need to know about belonging, contribution, family and community, and empowerment? What do teachers need to understand about culture and identity? How does pedagogical documentation support learning and teaching? What resources and strategies maximise contribution and participation?

EDCURRIC 213 15 Points
Hauora
Inquires into socio-ecological determinants of health in New Zealand society and the implications of these for the tenets of hauora and holistic wellbeing. Critically considers learning and teaching approaches and resources which enhance the holistic wellbeing and participation of diverse ākonga and their whānau in early childhood contexts. Explores connections between the wellbeing of teachers and ākonga.

EDCURRIC 214 15 Points
Creative Arts in the Early Years
Explores the role of the Arts (dance, drama, music and
visual art) in contributing to infants’, toddlers’, and young children’s critical thinking and creativity. Theories and practices of teaching and learning in Arts education are examined, including Māori and Pasifika perspectives, and connections are made to children’s play, holistic wellbeing, identities and citizenship.

EDCURRIC 220 15 Points
Special Topic

EDCURRIC 230 15 Points
Physical Education Ngā Kākano
Examines ngā tikanga Māori in the physical education context. Addresses such questions as: How can teachers understand what it is to be Māori? What is the cultural significance of Māori movement forms and ngā mahi a rēhia (games and pastimes)? What is a culturally responsive pedagogy? Includes marae based experiences where Māori values, traditions and beliefs are practised. 
Prerequisite: EDUC 142

EDCURRIC 231 15 Points
Physical Education Practice 3
Further develops the knowledge, skills and dispositions relating to a practical knowledge base with emphasis being placed on integrating theory and practice. Involves practical learning and addresses such questions as: What knowledge is relevant to: teach physical skills effectively, analyse the learning environment and the diverse needs of learners and provide appropriate feedback to assist learning?
Prerequisite: 15 points from EDCURRIC 130, 131

EDCURRIC 232 15 Points
Physical Education Practice 4
Broadens the practical knowledge base of physical activities appropriate for inclusion in physical education. Emphasis is placed on practical learning about differing physical activity practices in our diverse society. Addresses such questions as: What is the place and range of possibilities of physical activity in contemporary society? How do different communities engage in physical activity?
Prerequisite: 15 points from EDCURRIC 130, 131

EDCURRIC 233 15 Points
Youth Health Education
Develops an understanding of adolescent health priorities in New Zealand and their influences on teaching and learning in schools. Addresses such questions as: Why is this subject important? What is the health status of adolescents in New Zealand? What content knowledge is relevant to teaching and learning in Health?
Prerequisite: EDUC 142

EDCURRIC 234 15 Points
Physical Activity and Health
Examines human physiological responses to physical work and the research evidence linking health and physical activity. Addresses such questions as: What is the nature of work? How do humans respond and adapt to work? What activities promote adaptation to physical work? What is the veracity of the evidence linking physical activity and health?
Prerequisite: 45 points from EDUC 142, EDCURRIC 132, 133, 135

EDCURRIC 235 15 Points
Senior School Health and Physical Education
Examines and critically evaluates Health and Physical Education in the New Zealand Curriculum and contemporary assessment and qualifications for Years 11-13. Addresses such questions as: What knowledge, skills and attitudes are required to teach and assess Year 11-13 students? What are the issues associated with the learning environments, teaching and assessment methods used by teachers at these levels?
Prerequisite: 45 points from EDUC 142, EDCURRIC 132, 133, 135

EDCURRIC 236 15 Points
Teaching Outdoor Education
Examines the role of outdoor education as an educational process in physical education contexts. Involves camping and other experiential learning to develop outdoor skills, knowledge, attitudes and behaviours for teaching outdoor education in schools. Addresses such questions as: How does pedagogy and programme design support safe, effective learning in the outdoors? What are the legal responsibilities for teaching outdoor education?

EDCURRIC 237 15 Points
Recreation and Leisure
Examines the nature of recreation and leisure in contemporary society. Addresses such questions as: How does leisure relate to concepts of lifestyle, work and play? What factors influence participation in recreation and leisure activities? How does one educate for leisure? Involves practical learning experiences.

EDCURRIC 241 15 Points
Special Study in Health and Physical Education
Prerequisite: Approval by Head of Programme required

EDCURRIC 244 15 Points
Special Study

EDCURRIC 245 15 Points
Special Study

EDCURRIC 277 15 Points
Special Study

EDCURRIC 288 15 Points
Special Study

Stage III

EDCURRIC 303 15 Points
Scientific and Technological Literacies: Primary
Develops a critical view of scientific and technological literacies and an understanding of their inter-relationship within a range of learning environments. Asks questions such as: What are scientific and technological literacies? What do teachers need to know to be scientifically and technologically literate? How can teachers develop a quality science/technology learning environment?
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation

EDCURRIC 309 15 Points
Senior Primary
Examines quality teaching and learning across the curriculum for learners in Years 7-8. Addresses questions such as: What constitutes effective teaching for diverse learners at these levels? How can curriculum be integrated at this level and how can the effectiveness of this integration be monitored?
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation

EDCURRIC 310 15 Points
Pasifika Learners
Examines what helps Pasifika learners to succeed in New Zealand education. Addresses questions such as: Who are Pasifika learners? How is Pasifika success addressed in
EDCURRIC 349 15 Points
Understanding and Extending Mathematical Thinking
An investigation of a wide range of strategies that children use to solve mathematical problems. Reflects on reasons for learners' naive conceptions and subsequent planning for teaching thinking strategies.

To complete this course students must enrol in EDCURRIC 349 A and B

EDCURRIC 350 15 Points
Teaching Mathematics Investigations
An examination of investigative approaches to the teaching and learning of mathematics within the context of problem solving.

EDCURRIC 356 15 Points
Teaching and Learning in the Visual Arts
Extends the theoretical and practical knowledge base for visual arts teaching and learning. Examines pedagogies used to support the development of visual arts literacy. Connects learning in the visual arts with the guiding structures of national curriculum documents and investigates issues such as addressing diversity and using new technologies. Identifies action and reflection practices that enhance visual arts learning.

EDCURRIC 361 15 Points
The Performance Arts in Education
A critical examination of the performance of creating in the arts. The processes of creating and shaping works selected from dance, drama, music and the visual arts will be analysed and used to plan and implement arts education practices in specified educational settings.

EDCURRIC 362 15 Points
Drama and Learning
An examination of the learning processes initiated by the use of drama in the classroom with a particular focus on language use. There will be opportunity to design, implement and evaluate drama programmes.

EDCURRIC 363 15 Points
Drama Studies
An exploration of practical and theoretical activities relating to drama and performance in a range of contexts.
EDCURRIC 368 15 Points
Initiating and Supporting Learning in Music
Development of the knowledge base for the teacher of Music, linking curriculum design and principles with practical experience of The Arts in the New Zealand Curriculum document, while offering opportunities for reflection on practice.
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation

EDCURRIC 369A 7.5 Points
EDCURRIC 369B 7.5 Points
Mathematical Literacy for Lower-achieving Students
Approaches for teaching individuals or small groups who have been identified as achieving below expectations in mathematics in New Zealand primary and secondary schools will be explored. Numeracy assessment tools that identify the problems that students have with mathematical language and mathematical symbols will be explored.
Prerequisite: EDCURRIC 349
To complete this course students must enrol in EDCURRIC 369 A and B

Stage IV

EDCURRIC 430 15 Points
Curriculum Issues in Health and Physical Education
Critically examines the construction of health and physical education in the curriculum. Addresses questions such as: What stands for health and physical education in the curriculum? What contemporary issues face health and physical education teachers? What factors influence how curriculum is constructed and experienced?
Prerequisite: At least 60 points from EDCURRIC 230-241, 333-337

EDCURRIC 431 15 Points
Physical Education Pedagogy
Examines the nature and characteristics of quality teaching in physical education. Addresses such questions as: What legal and ethical issues mediate professional practice? How can a focus on diversity help learners in physical education contexts? What teaching methodologies, management strategies and resources underpin quality practice in physical education?
Prerequisite: EDPROFST 303

EDCURRIC 433 15 Points
The Health Educator
Critically analyses the professional responsibilities and roles of health educators in schools. Addresses such questions as: What are the issues and dilemmas associated with teaching health education? What values and beliefs underpin teaching approaches in health education? How is health education influenced by external factors? How do teachers resolve ethical and professional dilemmas and challenges related to teaching this subject?
Prerequisite: EDCURRIC 235, 333

Diploma Courses

EDCURRIC 600 15 Points
Literacies, Languages, Cultures
Critically explores responsive, equitable and inclusive pedagogies to support diverse ākonga in learning and developing languages and multi-modal literacies. Examines assessment, planning and teaching that take account of ākonga, whānau and communities. Issues related to literacies, languages and cultures in Aotearoa are critically examined. The construction and interpretation of children’s texts are explored.
Restriction: EDCURRIC 631

EDCURRIC 601 15 Points
Creative Arts in the Early Years
Explores the role of the Arts (dance, drama, music and visual art) in contributing to infants’, toddlers’, and young children’s critical thinking and creativity. Theories and practices of teaching and learning in Arts education are examined, including Māori and Pasifika perspectives, and connections are made to children’s play, holistic wellbeing, identities and citizenship.
Restriction: EDCURRIC 632

EDCURRIC 604 10 Points
Health and Physical Education
Develops understandings of the theories, concepts and practices that support learning and teaching in health and physical education. It will examine such questions as: How are teachers informed in these subjects? How do teachers implement quality learning experiences based on the health and physical education curriculum for effective learning to occur for a diverse range of learners?

EDCURRIC 610 10 Points
Science Education
Develops an appreciation of the nature of science which supports conceptual understandings and quality teaching and learning approaches in science education. Addresses questions such as: How do teachers design quality learning environments based on the science curriculum so that positive engagement and effective learning can occur for a diverse range of learners? How is achievement determined and monitored?

EDCURRIC 611 10 Points
Social Studies Education
Develops students’ knowledge and skills associated with planning for teaching and learning in Social Studies. Addresses questions such as: What do teachers need to know and understand about the history, nature and purpose of Social Studies education? What do teachers need to know about curriculum requirements, teaching methodologies, management strategies and resources to successfully plan for students’ diverse needs?

EDCURRIC 613 10 Points
Special Topic

EDCURRIC 620 15 Points
Special Topic

EDCURRIC 621 15 Points
Arts, Language and Literacies Education 1
Develops knowledge, skills and understandings necessary to plan, teach and assess diverse learners in arts, language and literacies by addressing such questions as: Why are these curriculum areas important in the junior school and beyond? How do teachers design and resource quality programmes in order to encourage children to become confident, competent communicators and to maximise their achievement in these areas?
Restriction: EDCURRIC 101, 202, 605

EDCURRIC 622 15 Points
Arts, Language and Literacies Education 2
Extends knowledge, skills and dispositions necessary to plan for, teach and assess diverse learners in arts, language and literacies by addressing such questions as: Why are these curriculum areas important to middle/senior
primary school learning? What resources, strategies and approaches will maximise achievement? How do teachers design quality teaching and learning programmes which encourage children to become competent communicators in these areas?

Prerequisite: EDCURRIC 621
Restriction: EDCURRIC 101, 202, 606

EDCURRIC 623 15 Points
Investigation and Exploration
Critically examines curriculum approaches that promote children's exploration and learning in science, technology, engineering and mathematics. Key concepts, processes and pedagogies relating to these disciplines are considered. Explores children's learning through play and a holistic understanding of infants, toddlers and young children.

Restriction: EDCURRIC 635

EDCURRIC 624 15 Points
Curriculum and Pedagogy
Critically examines theories, approaches and key curriculum influences. Examines the critical role of teacher knowledge, inquiry and reflection in implementing appropriate curriculum and assessment for infants, toddlers and young children. Critically explores the relationship between assessment, curriculum, pedagogy, and learning, including Kaupapa Māori and Pasifika perspectives.

Restriction: EDCURRIC 630, EDPROFST 621, 622

EDCURRIC 625 15 Points
Curriculum: Maths and Literacy 1
Investigate the learning and teaching of Mathematics and Statistics and English learning areas. Critically examine teaching approaches, resources (including digital technologies) and learner progressions to understand how students learn in Mathematics and Statistics and English. Build essential knowledge and skills for Teaching as Inquiry in these areas.

Restriction: EDCURRIC 621, 622, 628, 629

EDCURRIC 626 15 Points
Curriculum: Maths and Literacy 2
Investigate how responsive pedagogies develop learners and teachers of the Mathematics and Statistics, and English learning areas. A Teaching-as-Inquiry approach will draw on research evidence to develop knowledge, understandings and skills, and planning and assessment strategies, known to improve outcomes for all learners.

Prerequisite: EDCURRIC 625
Restriction: EDCURRIC 621, 622, 628, 629

EDCURRIC 627 45 Points
EDCURRIC 627A 15 Points
EDCURRIC 627B 30 Points

Designing the Wider Curriculum
Students will experience, participate in, inquire into and critically examine the content, theory and pedagogy of five Learning Areas of the New Zealand Curriculum: Health and Physical Education, The Arts, Science, Technology, and Social Studies.

Restriction: EDCURRIC 604, 610, 611, 621, 622
To complete this course students must enrol in EDCURRIC 627 A and B, or EDCURRIC 627

EDCURRIC 628 15 Points
Mathematics, Statistics and Technology Education 1
Develops knowledge and understanding of the nature of mathematics, statistics and technology education by addressing questions such as: What is the nature and purpose of mathematics, statistics and technology education in the New Zealand Curriculum? What are the components, key concepts and learning progressions in the national curriculum? What constitutes effective teaching practices?

Prerequisite: EDCURRIC 608, 612
Restriction: EDCURRIC 609, 612

EDCURRIC 629 15 Points
Mathematics, Statistics and Technology Education 2
Develops the knowledge, skills and understanding for designing quality learning experiences in mathematics, statistics and technology education for diverse learners by addressing questions such as: What are the mathematical, statistical and technological concepts and learning progressions in the national curriculum? What constitutes effective teaching practices?

Prerequisite: EDCURRIC 628
Restriction: EDCURRIC 609, 612

EDCURRIC 630 15 Points
Early Years Curriculum
Critically evaluates appropriate curriculum for infants, toddlers and young children in early years settings. Integrated approaches to learning and teaching will be emphasised. Addresses, explores and examines questions about complex relationships between curriculum approaches, current learning theory, teachers' professional knowledge, and assessment, planning and evaluation practices with reference to early childhood curriculum.

EDCURRIC 631 15 Points
Languages and Cultures
Develops knowledge, skills and attitudes associated with the planning, teaching and assessing of languages and literacies. Addresses such questions as: What are the interrelationships between languages and cultures in a Pacific nation? What influences construction and interpretation of meaning in text? What are the issues for family/whānau, teachers and learners relating to all children becoming confident, competent communicators in Aotearoa?

Restriction: EDCURRIC 211

EDCURRIC 632 15 Points
The Arts
Develops understanding of the knowledge, skills and attitudes required to optimise learning and teaching in the arts. Involves a focused inquiry into music, dance, drama and visual arts in early childhood settings. Addresses such questions as: How do specific learning and teaching approaches and strategies motivate and enhance all children's learning?

EDCURRIC 633 15 Points
Te Ao Māori Early Childhood Education
Develops competence in te reo Māori and mātauranga Māori. Addresses the needs and aspirations of Māori learners and communities in order to improve educational outcomes. Critically reviews Te Tiriti o Waitangi and Māori pedagogies in relation to teachers' practices. Addresses questions such as: What are the historical and contemporary research and issues for Māori in education?

EDCURRIC 634 15 Points
Hauora
Develops understandings of hauora/well-being and belonging. Inquires into key concepts of health, physical education and social sciences. What images do we hold of children? What does identity mean for learners in a Pacific nation? Why is identity critical for Pasifika learners? What specific learning and teaching approaches and resources
enhance the well-being and participation of children in a diverse society?
Restriction: EDPROFST 101

EDCURRIC 635 15 Points
Exploration
Develops pedagogical content knowledge and understanding in science, mathematics and technology. Considers such questions as: What are key early concepts, processes and possible learning progressions? What constitutes effective learning and teaching approaches to promote children's exploration?

EDCURRIC 636 15 Points
Designing the Wider Curriculum 1
Students will experience, participate in, inquire into and critically examine the content, theory and pedagogy of five Learning Areas of the New Zealand Curriculum: Health and Physical Education, The Arts, Science, Technology, and Social Studies.
Restriction: EDCURRIC 604, 610, 611, 621, 622, 627

EDCURRIC 637 30 Points
Designing the Wider Curriculum 2
Students will experience, participate in, inquire into and critically examine the content, theory and pedagogy of five Learning Areas of the New Zealand Curriculum: Health and Physical Education, The Arts, Science, Technology, and Social Studies.
Prerequisite: EDCURRIC 636
Restriction: EDCURRIC 604, 610, 611, 621, 622

Postgraduate 700 Level Courses

EDCURRIC 700 30 Points
Contemporary Pedagogies - Level 9
Critical examination of contemporary pedagogical approaches and teachers' own professional knowledge and practice associated with curriculum delivery, appropriate for all learners and their educational outcomes, traversing the early childhood, primary and secondary sectors.

EDCURRIC 701 30 Points
Special Topic

EDCURRIC 702 30 Points
The Arts: Creative Practices
Students will critically explore creative practices in research and pedagogy within and between dance, drama, music and visual arts. The emphasis is on exploring emerging visions, theoretical perspectives and arts-based approaches which broaden relationships through postmodern practices in research and pedagogy appropriate to students living in a multicultural society, globalised world, and digital age.

EDCURRIC 704 30 Points
Teaching for Scientific Literacy
A detailed exploration, focusing on the merits and challenges of the concept of scientific literacy. Topics will include the nature of science; the process of scientific inquiry; and the role of science education in improving public understanding of science.
Restriction: EDPROFST 729

EDCURRIC 705 30 Points
EDCURRIC 705A 15 Points
EDCURRIC 705B 15 Points
Special Topic: Effective Language Teaching
A practice-focused examination of effective teaching and learning of additional languages in school settings. Aligned with curricular expectations and underpinned by advances in the theory, research and best practice of teaching and learning languages, the course uses evidence-based evaluative inquiry to explore the design and implementation of responsive practices in contemporary language learning environments.
Prerequisite: Departmental approval
Restriction: EDPROFST 360
To complete this course students must enrol in EDCURRIC 705 A and B, or EDCURRIC 705

EDCURRIC 706 30 Points
Researching Practice in the Second Language School Classroom - Level 9
Students will apply appropriate research methods and specialised knowledge in an independent investigation into a problem of practice in the second language school classroom. In an authentic setting, students will carry out the investigation and consider critically issues associated with the methods applied, including ethical concerns.

EDCURRIC 709A 15 Points
EDCURRIC 709B 15 Points

Literacy Intervention: Individual Inquiry
Students engage in advanced study of theory and research related to optimising Literacy Intervention effectiveness. A critical understanding of Literacy Processing theory and Literacy Intervention principles and practices is integral to support teachers in effectively working with children having difficulty with literacy learning. A practicum component involving daily teaching of four six-year-old children forming case studies for analysis is required.
Prerequisite: Departmental approval
To complete this course students must enrol in EDCURRIC 709 A and B

EDCURRIC 712A 15 Points
EDCURRIC 712B 15 Points

Literacy Intervention: Design, Implementation and Research
Critical analysis of issues and research related to the design and implementation of an effective early literacy intervention in an education system is central to this course. Emphasis is on facilitating the professional development and learning of Early Literacy Intervention teachers. Students observe and work with teachers and facilitators at professional learning centres.
Prerequisite: Departmental approval
To complete this course students must enrol in EDCURRIC 712 A and B

EDCURRIC 714 30 Points
Exploring Mathematical Thinking
Provides an opportunity for teachers to critique historical number systems as a way of illuminating theoretical issues, and informing their teaching practice, around learning number and place value concepts.

EDCURRIC 720 30 Points
Teaching with Digital Pedagogies - Level 9
A critical examination of research and practice in using digital technologies to transform classroom pedagogy and enhance students' learning experiences. Building on prior knowledge and using the knowledge and skills developed in the course, students will identify a research focus of their choosing to test concepts of usage, and critically evaluate new instructional designs for using digital technologies in classrooms.
EDCURRIC 721 30 Points
Special Topic: Mental Health and Wellbeing in Schools
How do we ensure that schools are wellbeing and mana-enhancing for children and youth? This course is an advanced examination of the theory and practice of mental health education, wellbeing and hauora in education settings. Emphasis will be placed on developing a substantive and integrated knowledge base, which can be applied to schools and other educational settings in practice.

EDCURRIC 722 30 Points
Teacher Leadership for Learning Equity
Extends teachers’ collaborative and innovative leadership in a curricular area of expertise to optimise learning equity for all students, with priority for Māori, Pacific and migrant children and youth, and those with special needs. Participants will facilitate a teaching initiative with colleagues using inclusive, linguistically and culturally sustaining pedagogies within a selected curriculum area/strand in schools or early childhood centres.
Restriction: EDCURRIC 718

EDCURRIC 723 30 Points
STEM Education in Years 0-8
A practice-focused examination of how to meaningfully integrate science, technology, mathematics and statistics into a localised curriculum with students in Years 0-8. Students will critically examine STEM education, using research to first understand and critique examples drawn from practice, and then to develop an integrated and local learning experience that authentically draws on the STEM disciplines.

EDCURRIC 725 30 Points
Special Topic: Engaging with Te Mātaiaho
Students will critically analyse the key changes to Te Mātaiaho which includes the Common Practice Model for Literacy, Communication, and Maths strategy. Emphasis will be placed on building a substantive knowledge base on changes to the structure of the curriculum and changes to the vision, progressions and learning strands developments and the potential impact on equity and inclusion for all ākonga. Examines the implications of these changes for different stakeholders, including school leaders, teachers, students, parents and whānau in Aotearoa.

EDCURRIC 728 30 Points
EDCURRIC 728A 15 Points
EDCURRIC 728B 15 Points
Special Topic: Current Issues: Sport, Health, Physical Education
How do we address the challenges and opportunities facing teachers, leaders and practitioners in sport, health and physical education? This course critically examines current issues across these fields of practice from a range of perspectives. Students will undertake an investigation of specific issues relevant to their contexts.
To complete this course students must enrol in EDCURRIC 728
A and B, or EDCURRIC 728

EDCURRIC 729 30 Points
EDCURRIC 729A 15 Points
EDCURRIC 729B 15 Points
Special Study
To complete this course students must enrol in EDCURRIC 729
A and B, or EDCURRIC 729

EDCURRIC 740 30 Points
EDCURRIC 740A 15 Points
EDCURRIC 740B 15 Points
Accelerate Learning in a Digital World - Level 9
A critical examination and application of current theory, research and practice involving the acceleration of students’ learning using digital technologies. Students will undertake an independent critical evaluation of the development, implementation and impact of a digital tool they have designed to accelerate students’ learning.
To complete this course students must enrol in EDCURRIC 740
A and B, or EDCURRIC 740

EDCURRIC 750 30 Points
Arts Research: Innovative Practices
Students will critically explore emerging visions and theoretical concepts that broaden research practices in the Arts. Emphasis will be on how innovative Arts practices move attention from not just what is researched, but how the research can be conducted and reported in creative ways. Topics include approaches such as narrative, autobiography, performative ethnography, reader’s theatre, poetic inquiry, and a/r/tography.

EDCURRIC 763 30 Points
Special Topic
EDCURRIC 791 30 Points
Enterprise and Innovation in Education
Develops a critical understanding of relationships between business and education, the role of business, enterprise and innovation in the community and various theoretical underpinning frameworks. Develops an in-depth understanding of business practice and critiques opportunities for interaction between enterprise and educational institutions. This would include commercial opportunities for educational institutions as well as contribution to curriculum delivery.

EDCURRIC 796A 60 Points
EDCURRIC 796B 60 Points
MEd Thesis - Level 9
To complete this course students must enrol in EDCURRIC 796
A and B

EDCURRIC 797 60 Points
EDCURRIC 797A 30 Points
EDCURRIC 797B 30 Points
Dissertation
To complete this course students must enrol in EDCURRIC 797
A and B, or EDCURRIC 797

Education Māori

Stage I
EDUCM 106 15 Points
He Tirohanga ki te Mātauranga i Aotearoa
Examines historical and contemporary topics and themes in Māori schooling and education, with particular reference to the revitalisation of te reo Māori. Considers Māori educational aspirations and questions in the context of Treaty, social justice and equity debates in Aotearoa New Zealand. Examines te reo Māori discourse relevant to educational contexts and themes investigated in this course.
Restriction: EDUCM 118
### Course Prescriptions

**EDUCM 198 0 Points**
**Te Whakahua Reo Māori**
An online self-directed introductory te reo Māori course that provides opportunities to learn correct pronunciation and some basic language for use in professional situations.

**EDUCM 199 0 Points**
**EDUCM 199A 0 Points**
**EDUCM 199B 0 Points**
**Te Reo Māori**
To complete this course students must attain a level of competency in te reo Māori as determined by the Faculty of Education and Social Work.

**EDUCM 203 15 Points**
**Te Atawhai i te Rerenga Kētanga**
Analyses how experiences and outcomes for learners in contemporary education contexts are shaped by social constructions informed by class, ethnicity, culture, gender, sexuality, and (dis)ability. Examines the role of education policies and socio-historical context on teacher responsiveness to diversity and difference. Explores a range of transformative approaches. Particular attention is given to Pasifika learners.
*Prerequisite: EDUCM 106*
*Restriction: EDPROFM 205*

**Stage III**

**EDUCM 300 15 Points**
**Special Study**

**EDUCM 324 15 Points**
**Whiria Te Kaha Tūātinitini**
Critically appraises philosophical perspectives on education to enable students to articulate a developing philosophy and practice of teaching including the relationship between local, national and global politics and inclusive education in Aotearoa New Zealand. Highlights concepts of social justice, equity and diversity and relates these concepts to competing discourses of ability, (dis)ability and inclusion. Examines te reo Māori discourse appropriate to course context.
*Prerequisite: EDUCM 203*

**Postgraduate 700 Level Courses**

**EDUCM 739 30 Points**
**EDUCM 739A 15 Points**
**EDUCM 739B 15 Points**
**Special Study**
To complete this course students must enrol in EDUCM 739 A and B, or EDUCM 739

**EDUCM 794A 30 Points**
**EDUCM 794B 60 Points**
**Thesis - Level 9**
Corequisite: 30 points from EDUC 735, 787, EDPRAC 751, EDPROST 700, 754, 757
*Restriction: EDUCM 794*
To complete this course students must enrol in EDUCM 794 A and B

### Education Practice

**Stage I**

**EDPRAC 100 15 Points**
**Practicum 1**
Builds relationships and establishes professional communication with ākonga and colleagues. Engages in collaborative teaching and learning. Explores the role of the professional teacher through an inquiry-based approach to teaching and learning.
*Prerequisite: 30 points from BEd(Tchg) courses and EDPROFST 102*
*Restriction: EDPRAC 101*

**EDPRAC 101 15 Points**
**The Professional Teacher: Primary 1**
Develops knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Addresses questions such as: What does it mean to be a teacher? What does it mean to be a professional? How are teachers learners? How do teachers establish professional relationships in complex environments? Requires demonstration of emerging pedagogical practice.
*Prerequisite: Any 45 points from courses in the BEd(Tchg) Schedule*
*Restriction: EDPROF 100, EDPRAC 102, 103, EDPRACM 101*

**EDPRAC 102 15 Points**
**The Professional Teacher: Early Childhood 1**
Develops knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Addresses questions such as: What does it mean to be a teacher? What does it mean to be a professional? How are teachers learners? How do teachers establish professional relationships in complex environments? Requires demonstration of effective emerging pedagogical practice.
*Prerequisite: Any 45 points from courses in the BEd(Tchg) Schedule*
*Restriction: EDPRAC 101, 103, EDPRACM 101*

**EDPRAC 103 15 Points**
**The Professional Teacher: Health and Physical Education**
Develops the knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Addresses such questions as: What does it mean to be a teacher, to be a professional, and to establish professional relationships in complex environments? Requires demonstration of developing pedagogical practice.
*Restriction: EDPRAC 101, 102, EDPRACM 101*

**EDPRAC 105 15 Points**
**Practicum 1**
Builds relationships and establishes professional communication with ākonga and colleagues. Engages in collaborative teaching and learning. Explores the role of the
professional teacher through an inquiry-based approach to teaching and learning.  
Prerequisite: 30 points from BEd(Tchg) courses and EDPROFST 103  
Restriction: EDPRAC 102

---

**Stage II**

**EDPRAC 201 15 Points**  
**Practicum Primary 2**  
Further develops the knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Addresses questions such as: How do I teach responsibly and purposefully? How do I establish and maintain professional relationships in complex environments and manage the environment effectively and professionally to enable success for learners? Requires demonstration of effective developing pedagogical practice.  
Prerequisite: EDPRAC 101 and any 75 points from courses in the BEd(Tchg) Schedule  
Restriction: EDPROF 200, 210, EDPRAC 202, 203, EDPRACM 201

**EDPRAC 202 15 Points**  
**Practicum Early Childhood 2**  
Further develops the knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Addresses questions such as: How do I teach responsibly and purposefully; establish and maintain professional relationships in complex environments and manage the learning environment effectively and professionally to enable success for learners? Requires demonstration of effective developing pedagogical practice.  
Prerequisite: EDPRAC 102 or EDPRACPK 102 and any 75 points from courses in the BEd(Tchg) Schedule  
Restriction: EDPRAC 201, 203, EDPRACM 201

**EDPRAC 203 15 Points**  
**Health and Physical Education Practicum 1**  
Further develops the knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Requires demonstration of developing pedagogical practice and addresses such questions as: Do I as a teacher practise responsibility and teach purposefully to establish and maintain professional relationships in complex environments?  
Prerequisite: EDPRAC 103  
Restriction: EDPRAC 201, 202, EDPRACM 201

**EDPRAC 204 15 Points**  
**Practicum 2**  
Develops professional knowledge, skills and dispositions required for effective teaching and learning through an inquiry-based approach. Engages in noticing, recognising and responding to diverse learners informed by or guided by curricula. Practises and reflects on skills necessary to manage complex learning environments.  
Prerequisite: EDPRAC 105, EDPROFST 103  
Restriction: EDPRAC 202

---

**Stage III**

**EDPRAC 303 15 Points**  
**Health and Physical Education Practicum 2**  
Develops the knowledge, skills and attitudes associated with effective pedagogy in diverse health and physical education contexts. Requires demonstration of informed and ethical practice and addresses such questions as: Do I have the subject matter knowledge? Can I teach it effectively? Can I access the required knowledge? How do I assess student learning?  
Prerequisite: EDPRAC 203  
Restriction: EDPRAC 301, 302, EDPRACM 301

**EDPRAC 304 15 Points**  
**EDPRAC 304A 5 Points**  
**EDPRAC 304B 10 Points**  

**Practicum 3**  
Establishes and sustains culturally responsive, ethical, learner-focused relationships with ākonga, colleagues and whanau in complex environments. Utilises an inquiry-based approach to demonstrate competency in professional knowledge, and the skills and dispositions required for effective teaching in Aotearoa New Zealand.  
Prerequisite: EDPROFST 208, EDPRAC 204  
Restriction: EDPRAC 305  
To complete this course students must enrol in EDPRAC 304 A and B, or EDPRAC 304

**EDPRAC 305 30 Points**  
**EDPRAC 305A 15 Points**  
**EDPRAC 305B 15 Points**  

**Practicum: Enabling Achievement Primary**  
Refines an emerging philosophy and effective pedagogy through integrating research, theory and practical experience. Addresses questions such as: What are my moral, ethical and legal obligations as a teacher? How do I manage complexities of teaching professionally in order to create and sustain purposeful learning environments and enable achievement for all learners? Requires demonstration of effective, informed and ethical pedagogical practice.  
Prerequisite: EDPRAC 201 and any 180 points from the BEd(Tchg) Schedule  
Restriction: EDPROF 300, 310, EDPRAC 301, 302, 303, EDPRACM 301  
To complete this course students must enrol in EDPRAC 305 A and B, or EDPRAC 305

**EDPRAC 306 30 Points**  
**EDPRAC 306A 15 Points**  
**EDPRAC 306B 15 Points**  

**Practicum: Enabling Achievement Early Childhood**  
Refines an emerging philosophy and effective pedagogy through integrating research, theory and practical experience. Addresses questions such as: What are my moral, ethical and legal obligations as a teacher? How do I manage complexities of teaching professionally in order to create and sustain purposeful learning environments and enable achievement for all learners?
Requires demonstration of effective, informed and ethical pedagogical practice.
Prerequisite: EDPRAC 202 and any 180 points from courses in the Bed(Tchg) Schedule
Restriction: EDPRFST 212, EDPRAC 205
To complete this course students must enrol in EDPRAC 306 A and B, or EDPRAC 307

EDPRAC 307 15 Points
EDPRAC 307A 5 Points
EDPRAC 307B 10 Points

Practicum 3
Establishes and sustains culturally responsive, ethical, learner-focused relationships with ākonga, colleagues and whānau in complex environments. Utilises an inquiry-based approach to demonstrate competency in professional knowledge, and the skills and dispositions required for effective teaching in Aotearoa New Zealand.
Prerequisite: EDPRFST 212, EDPRAC 205
Restriction: EDPRAC 306
To complete this course students must enrol in EDPRAC 307 A and B, or EDPRAC 307

Stage IV

EDPRAC 403 15 Points
Advanced Health and Physical Education Practicum
Critically evaluates personal pedagogy to consolidate understanding and management of the learning and teaching processes. Requires demonstration of informed and ethical practice and addresses such questions as: How do I manage the complexity of teaching?
Prerequisite: EDPRAC 303

Diploma Courses

EDPRAC 607 30 Points
EDPRAC 607A 15 Points
EDPRAC 607B 15 Points

Professional Practice in Context
Uses an evidence-based approach to develop professional knowledge, skills and dispositions for effective teaching in primary and middle school contexts. Addresses what it means to establish effective professional relationships and to teach inclusively and purposefully in complex environments. Requires demonstration of informed and ethical pedagogy.
To complete this course students must enrol in EDPRAC 607 A and B, or EDPRAC 607

EDPRAC 608 30 Points
EDPRAC 608A 15 Points
EDPRAC 608B 15 Points

Professional Learning in Practice
Uses an evidence-based approach to develop professional knowledge, skills and dispositions for effective teaching in secondary school contexts. Questions include: what does it mean to establish positive professional relationships and to teach inclusively and purposefully in complex environments? Requires demonstration of informed and ethical pedagogy.
Restriction: EDPRAC 604
To complete this course students must enrol in EDPRAC 608 A and B, or EDPRAC 608

EDPRAC 610 30 Points
EDPRAC 610A 15 Points
EDPRAC 610B 15 Points

Professional Practice: ECE
Uses an evidence-based approach to support students to develop the professional knowledge, skills, and dispositions required for effective early childhood education teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Builds professional relationships and enacts practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues, and whānau in complex environments.
Restriction: EDPRAC 600, 607, 608, 621, 622
To complete this course students must enrol in EDPRAC 610 A and B, or EDPRAC 610

EDPRAC 611 30 Points
EDPRAC 611A 15 Points
EDPRAC 611B 15 Points

Professional Practice: Primary
Uses an evidence-based approach to support students to develop the professional knowledge, skills, and dispositions required for effective primary teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Builds professional relationships and enacts practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues, and whānau in complex environments.
Restriction: EDPRAC 600, 607, 608, 621, 622
To complete this course students must enrol in EDPRAC 611 A and B, or EDPRAC 611

EDPRAC 612 30 Points
EDPRAC 612A 15 Points
EDPRAC 612B 15 Points

Professional Practice: Secondary
Uses an evidence-based approach to support students to develop the professional knowledge, skills, and dispositions required for effective secondary teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Builds professional relationships and enacts practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues, and whānau in complex environments.
Restriction: EDPRAC 600, 607, 608, 621, 622
To complete this course students must enrol in EDPRAC 612 A and B, or EDPRAC 612

EDPRAC 613 15 Points

Professional Practice 1: Early Childhood Education
Uses an evidence-based approach to support students to develop the professional knowledge, skills and dispositions required for effective ECE teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Ākonga build professional relationships and enact practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues and whānau in complex environments.
Restriction: EDPRAC 600, 607, 608, 610, 621, 622

EDPRAC 614 15 Points

Professional Practice 2: Early Childhood Education
A continuation of EDPRAC 613. Uses an evidence-based approach to support students to develop the professional
knowledge, skills and dispositions required for effective ECE teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Ākonga build professional relationships and enact practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues and whānau in complex environments.

Prerequisite: EDPRAC 613
Restriction: EDPRAC 600, 607, 608, 621, 622

EDPRAC 615 15 Points
Professional Practice 1: Primary
Uses an evidence-based approach to support students to develop the professional knowledge, skills and dispositions required for effective primary teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Builds professional relationships and enacts practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues and whānau in complex environments.

Restriction: EDPRAC 600, 607, 608, 611, 621, 622

EDPRAC 616 15 Points
Professional Practice 2: Primary
A continuation of EDPRAC 615. Uses an evidence-based approach to support students to develop the professional knowledge, skills and dispositions required for effective primary teaching in Aotearoa New Zealand, while examining what it means to demonstrate commitment to Te Tiriti o Waitangi. Builds professional relationships and enacts practices that sustain culturally responsive, ethical, learner-focused relationships with diverse ākonga, colleagues and whānau in complex environments.

Prerequisite: EDPRAC 615
Restriction: EDPRAC 600, 607, 608, 621, 622

EDPRAC 621 15 Points
Conceputalising Practice
Develops knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience in early childhood settings. Addresses questions such as: What does it mean to establish effective professional relationships, practice effectively and teach purposefully in complex environments? Requires demonstration of developing pedagogical practice.

EDPRAC 622 15 Points
Pedagogy in Practice
Refines knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. Explores such questions as: What does it mean to be a teacher and manage complexities in order to create and sustain purposeful learning environments? What are the moral, ethical and legal obligations of a teacher? Requires demonstration of effective and ethical pedagogical practice.

Prerequisite: EDPRAC 621
Corequisite: EDCURRIC 630–635

EDPRAC 750 30 Points
Special Topic

EDPRAC 751 30 Points
Practitioner Inquiry
Students will explore what it means to take an ‘inquiry stance’ as a framework for posing, investigating and addressing practice issues. They will investigate a range of practitioner research approaches, develop an understanding of practitioner research methods and design a well justified research question and proposal for an ethical investigation of a professional practice setting.

EDPRAC 752 30 Points
Special Topic

EDPRAC 753A 15 Points
EDPRAC 753B 15 Points
Portfolio of Professional Practice
Within the context of concurrent field-based teaching, advances professional, analytical and reflective skills in completing a sustained portfolio of teaching practice evidence. Students complete and evaluate a practitioner-inquiry investigation project in a specialist learning area, consistent with the valued learner outcomes as defined by the New Zealand Curriculum.

To complete this course students must enrol in EDPRAC 753 A and B

Education Practice Māori

Stage I

EDPRACM 100 | 15 Points
Noho ā-kura 1
Builds relationships and establishes professional communication with ākonga and colleagues. Engages in collaborative teaching and learning. Examines the te reo Māori discourse relevant to the practicum context.

Prerequisite: 30 points from BEd(Tchg) courses and EDPROFM 102
Restriction: EDPRACM 101

Stage II

EDPRACM 204 | 15 Points
Noho ā-kura 2
Develops professional knowledge, skills and dispositions required for effective teaching and learning through an inquiry-based approach. Engages in noticing, recognising and responding to diverse learners informed by or guided by curricula. Practises and reflects on skills necessary to manage complex learning environments. Examines the te reo Māori discourse relevant to the practicum context.

Prerequisite: EDPRACM 100
Restriction: EDPRACM 201

Builds and sustains culturally responsive, ethical, learner-focused relationships with ākonga, colleagues and whānau in complex learning or education environments. Utilises an inquiry-based approach to demonstrate competency in professional knowledge, and the skills and dispositions required for effective teaching in Aotearoa New Zealand. Examines te reo Māori discourses relevant to the practicum context.

**Prerequisite:** EDPACFM 101, EDPACM 204
**Restriction:** EDPACM 302

To complete this course students must enrol in EDPACM 304 A and B, or EDPACM 304

Develops knowledge, skills and attitudes associated with effective pedagogical practice through integrating research, theory and practical experience. What does it mean to be a teacher in Pasifika and general ECE settings? What does it mean to be a professional? How are teachers learners? How do teachers use Pasifika languages and cultures in professional relationships? Requires demonstration of effective emerging pedagogy.

**Prerequisite:** Any 45 points from courses in the BEd(Tchg) Schedule
**Restriction:** EDPRAC 101, 102, 103, EDPACRM 101

Critically analyses the bi-cultural, multicultural, social, political, economic, historical and legal contexts of teaching and learning in New Zealand. Examines and evaluates pedagogical theories, evidence informed practices, and attitudes that are critical to being a professional teacher of adolescent learners in New Zealand.

**EDPROF 701** Accelerating Achievement

Focuses on assessment practices in the context of secondary education in Aotearoa New Zealand, and addresses the enduring challenge of equity in schools to accelerate the achievement of priority learners. Students will engage with current assessment practices, including national qualifications, and will use data and evidence-based research in developing teaching, learning, and assessment practices.

**EDPROF 702** The Twenty-first Century Classroom/Centre

Examines the opportunities and challenges of teaching and learning in twenty-first century classrooms and centres. Addresses superdiversity that is increasingly characteristic of schools and centres, the impact and use of digital pedagogies, innovative learning environments and formal inquiry-based teaching practices. Draws on world leading research and development work carried out with teachers in authentic learning contexts and considers, in particular, the question of what works best for whom and in what circumstances?

**EDPROF 704** Advanced Study of Education Practice - Level 9

Students will undertake an advanced study of contemporary issues, innovations, or curriculum and pedagogical advancement relating to educational practice. This will involve independent work demonstrating application of highly specialised knowledge that is at the forefront of contemporary education practice.

**Prerequisite:** 60 points from the Master of Education Practice Schedule with a GPA of 5.0 or higher

**EDPROF 705** 30 Points
**EDPROF 705A** | 15 Points
**EDPROF 705B** | 15 Points

### Language Learning Needs

Investigates strategies to identify, analyse and respond to additional language learning needs of learners from early childhood to secondary settings. Acknowledges the role of first/heritage languages and culture, and philosophies of empowerment. Examines pedagogical frameworks for planning effective language and content integrated teaching. Students review, trial and modify tasks and learning sequences for specific teaching contexts.

**Restriction:** EDPROFST 227, 372

To complete this course students must enrol in EDPROF 705 A and B, or EDPROF 705

**EDPROF 706** 30 Points

### The Psychology of Teaching

Critically examines and evaluates contemporary psychological theories of learning and teaching and how these can be applied to professional practice.

**EDPROF 707** 30 Points
**EDPROF 707A** | 15 Points
**EDPROF 707B** | 15 Points

### Bilingual Education

Examines theories, models, and principles for bilingualism and Bilingual Education, as well as multilingual approaches in English-medium contexts. Investigates and critiques programmes, pedagogical approaches, resources, and strategies for bilingual learners in English-medium, Māori-medium, Pacific bilingual/immersion, early childhood, primary or secondary educational contexts. Students develop policy, curriculum and assessment materials suitable for bilingual learners in a particular educational context.

**Restriction:** EDPROFST 226, 377

To complete this course students must enrol in EDPROF 707 A and B, or EDPROF 707

**EDPROF 708** 30 Points
**EDPROF 708A** | 15 Points
**EDPROF 708B** | 15 Points

### Critical Literacy and Assessment

An exploration of the theory, research and issues for effective critical literacy pedagogy within multicultural environments. A critical investigation into assessment methodologies for socio-culturally and linguistically diverse learners. Focuses on developing effective language assessment practices and policies for learners from diverse
Course Prescriptions

Regulating learners and teachers. They will utilise

Critically examines strategies that support responsive

practices.

professional culture to build and support inclusive

practice collaboration and inclusive practices, building

capacity to work with other professionals, families,

communities and learners themselves. Evaluates what it
takes to move from an individualistic to a collaborative

Te Ao Māori

Students will critically examine the cultural competencies

required for teachers of Māori learners, as well as the

significance of the cultural locatedness of the teacher in

relation to learners, their whānau and communities.

Differentiating Learning for Literacy and Mathematics

Students will experience and inquire into what responsive

pedagogies mean for learners and teachers in literacy and

mathematics. They will develop knowledge, understandings

and skills in both curriculum areas that are known to

improve outcomes for priority learners.

Promoting Learning through Inquiry: Understanding our Communities

Students will explore, experience and develop

understandings of themselves within and across

communities. They will be expected to apply these

understandings to promote physical, social and emotional

wellbeing and connectedness with others.

Teaching for Social Justice and Inclusion

Students will critically inquire into the notion of social

justice and its importance for learning and teaching.

Drawing on powerful practices, students will identify a

repertoire of inclusive, culturally intelligent and responsive
teaching practices that provide rich learning opportunities

for priority learners.

Working Together to Accelerate Learning - Level 9

Students will undertake a supervised investigation that

involves advanced analysis of existing data sets and the

drawing of robust and trustworthy conclusions with a view
to accelerating learning. The processes involved when

making judgments to accelerate learning and promote

positive relationships with students will be critically

examined.

Promoting Learning through Inquiry: Understanding our World

Students will explore and experience the role that science

and technology play in current issues in their community.

They will analyse and justify their developing pedagogy

in terms of a learning theory that underpins science and

technology teaching practice.

Promoting Learning through Inquiry: Responsiveness and Creativity

Students will explore and experience creative and

responsive ways of teaching and learning in the arts that

they will then apply to their own practice.

Enacting Responsive Pedagogies in Literacy and Mathematics

Building on knowledge, understandings and skills, students

will enact responsive pedagogies that improve outcomes

for priority learners in Literacy and Mathematics. Adaptive

effective learning and the development of self-

regulating learners and teachers. They will utilise the

methodology of narrative inquiry to produce an advanced

critical analysis and evaluation of personal practice.

EDPROF 738

Te Ao Māori

Students will critically examine the cultural competencies

required for teachers of Māori learners, as well as the

significance of the cultural locatedness of the teacher in

relation to learners, their whānau and communities.

EDPROF 739

Differentiating Learning for Literacy and Mathematics

Students will experience and inquire into what responsive

pedagogies mean for learners and teachers in literacy and

mathematics. They will develop knowledge, understandings

and skills in both curriculum areas that are known to

improve outcomes for priority learners.

EDPROF 740

Promoting Learning through Inquiry: Understanding our Communities

Students will explore, experience and develop

understandings of themselves within and across

communities. They will be expected to apply these

understandings to promote physical, social and emotional

wellbeing and connectedness with others.

EDPROF 741

Teaching for Social Justice and Inclusion

Students will critically inquire into the notion of social

justice and its importance for learning and teaching.

Drawing on powerful practices, students will identify a

repertoire of inclusive, culturally intelligent and responsive
teaching practices that provide rich learning opportunities

for priority learners.

EDPROF 743

Working Together to Accelerate Learning - Level 9

Students will undertake a supervised investigation that

involves advanced analysis of existing data sets and the

drawing of robust and trustworthy conclusions with a view
to accelerating learning. The processes involved when

making judgments to accelerate learning and promote

positive relationships with students will be critically

examined.

EDPROF 744

Promoting Learning through Inquiry: Understanding our World

Students will explore and experience the role that science

and technology play in current issues in their community.

They will analyse and justify their developing pedagogy

in terms of a learning theory that underpins science and

technology teaching practice.

EDPROF 745

Promoting Learning through Inquiry: Responsiveness and Creativity

Students will explore and experience creative and

responsive ways of teaching and learning in the arts that

they will then apply to their own practice.

EDPROF 746

Enacting Responsive Pedagogies in Literacy and Mathematics

Building on knowledge, understandings and skills, students

will enact responsive pedagogies that improve outcomes

for priority learners in Literacy and Mathematics. Adaptive

effective learning and the development of self-

regulating learners and teachers. They will utilise the

methodology of narrative inquiry to produce an advanced

critical analysis and evaluation of personal practice.
expertise will be developed through inquiry into learning and teaching of these two curriculum areas.
Prerequisite: EDPROF 739

EDPROF 757
An Investigation into Practice - Level 9
Students will use selected research methods to address a problem of practice through an independent, supervised inquiry. Working as a cohort in authentic settings, students will critically consider issues, including ethical concerns. Corequisite: EDPROF 758

EDPROF 758
Inquiring into Practice
Students will demonstrate adaptive expertise through their application of the knowledge, skills and dispositions required for development of culturally responsive, ethical and learning focused relationships with children.

EDPROF 759
Investigating Mentoring Practice
Utilising teacher inquiry methodologies students will undertake an in-depth inquiry focused on a contemporary idea, issue and/or innovation as applied to mentoring and its potential to support teacher professional learning. Independent work demonstrating application of highly specialised knowledge that is at the forefront of mentoring practice is a central component of this course.

Education Professional Studies

Stage I

EDPROFST 100
15 Points
Hāpai Akonga
Critically examines the importance of Māori language and culture in New Zealand Education. Develops ability in te reo and mātauranga Māori. Addresses questions such as: How can Māori culture and language be incorporated in pedagogical practices to be productive for Māori educational aspirations as well as the education of all students?
Restriction: EDUC 714, MĀORI 107

EDPROFST 101
15 Points
Hauora: Early Years Wellbeing
Develops knowledge and understandings of issues and practices relating to the wellbeing of children, families and communities in early years education. Founded in Te Whāriki’s three goals of well being and incorporating key concepts of the Health and Physical Education Curriculum. Examines the impact of socioecological factors on wellbeing.
Restriction: EDCURRIC 634

EDPROFST 102
15 Points
Inquiry into Practice 1
Addresses key influences on learning and development, building and enhancing understandings of personal experiences and identity. Examines concepts central to learning and development such as self-efficacy and self-concept. Explores key aspects within the teacher’s role with an emphasis on reflection, relationship building, communication and collaboration. Introduces strategies central to the first teaching practicum.

EDPROFST 103
15 Points
Inquiry into Practice 1
Addresses key influences on learning and development, building and enhancing understandings of personal experiences and identity. Examines concepts central to learning and development such as self-efficacy and self-concept. Explores key aspects within the teacher’s role with an emphasis on reflection, relationship building, communication and collaboration. Introduces strategies central to the first teaching practicum.

EDPROFST 104
15 Points
Early Childhood Education in Aotearoa

EDPROFST 105
15 Points
Introducing TESOL Education
An introduction to Teaching English to Speakers of Other Languages (TESOL), the core disciplines that contribute foundational knowledge to practice in the profession, and current linguistic, educational, and social needs that it addresses. Particular focus is on developing awareness of how societal and contextual factors shape TESOL educational practice and developing reflective skills necessary to examine and improve practice.

EDPROFST 115
15 Points
Professional Early Childhood Practice 1
Examines concepts central to learning and development such as identity, self-efficacy and self-concept. Develops strategies for building collaborative relationships and establishing professional communication with colleagues and tamariki. Explores the role of an early childhood practitioner through an inquiry-based approach to working with tamariki.
Stage II

EDPROFST 200 15 Points
Infant Care and Education
Critically examines the influence of historical and contemporary theory related to early learning and professional practice. Addresses questions such as: How do teachers address responsive practice with infants and toddlers in the New Zealand context? How do relationship-based philosophies address issues for teachers of infants and toddlers? What is the tension between education and care?
Restriction: EDCURRIC 210

EDPROFST 203 15 Points
Te Whāriki for Diverse Learners
Critically examines early childhood curriculum and its implications for developing a personal pedagogy that is responsive to individual learners. How does curriculum combine with teachers’ skills, knowledge and attitudes to address equity and diversity in Aotearoa New Zealand? How do teachers manage the relationship between curriculum and the learning environment to enable learners’ success?
Prerequisite: 15 points from EDUC 119, 140 and 15 points from EDUC 119, 141

EDPROFST 204 15 Points
Promoting Achievement for Diverse Learners
Explores diversity in the New Zealand context and its implications for teaching and learning. Considers strategies to address identified underachievement. Utilising psychological and sociological theory and research, the course examines practices that create effective teaching and learning environments for diverse ākonga. Teacher expectations, relationships, individual differences, classroom management and questioning are examined in relationship to contemporary approaches to teaching and learning.
Prerequisite: 15 points from EDUC 118, 140, EDUCM 118, 140 and 15 points from EDUC 119, 141, EDUCM 119, 141 or 30 points passed at Stage I in BEd(TESOL)

EDPROFST 205 15 Points
Early Childhood Assessment
Assessment for learning and teaching in early childhood education is contextualised and examined in relation to key New Zealand and international policy documents. The complexities, roles, and enactment of assessment concerning young children and childhoods are explored, and key learning areas include relevant theoretical frameworks and pedagogical documentation.
Restriction: EDPROFST 214

EDPROFST 206 15 Points
EDPROFST 207 30 Points
EDPROFST 207A 15 Points
EDPROFST 207B 15 Points
Interdisciplinary Approach: TESOL
An overview of second language learning and teaching that addresses the interdisciplinary nature of TESOL by developing knowledge, skills and attitudes associated with TESOL within different contexts. Addresses questions such as: What are the important principles, concepts and skills in an interdisciplinary approach to TESOL? Why is intercultural communicative language learning important? How are these concepts evident in practice?
To complete this course students must enrol in EDPROFST 207 A and B, or EDPROFST 207
This course may not be taken concurrently with EDPROFST 306 A and B, or EDPROFST 306

EDPROFST 208 15 Points
Inquiry into Practice 2
Develops informed understandings about the nature of high quality, effective teaching practices for diverse ākonga. Interprets teaching as inquiry with reference to relevant curricula. Identifies and examines specific teacher actions that support high quality, effective teaching and learning. Further develops understandings of strategies central to the second teaching practicum.
Prerequisite: EDPROFST 102, EDPRAC 100
Corequisite: EDPRAC 204

EDPROFST 209 15 Points
Developing Learning Communities
Introduces students to selected contemporary perspectives on learning. Explores strategies that develop self-regulated and self-efficacious ākonga, and support learning. Considers rationale and conditions for establishing cultural connections and relationships within a responsive pedagogy alongside factors that contribute to the creation of classrooms as effective learning communities.
Prerequisite: EDPRAC 100, EDPROFST 102

EDPROFST 210 15 Points
Special Topic

EDPROFST 211 15 Points
Engaging with Infants and Toddlers
Analyses social, historical, and contemporary issues related to education and care for infants and toddlers. Investigates relevant pedagogies through a range of theoretical, philosophical, and cultural lenses. Explores images of infants and toddlers and understandings of play and assessment. Considers infants’ and toddlers’ learning and wellbeing and the implications for environmental provision and ethical practice.
Prerequisite: EDPROFST 104
Restriction: EDPROFST 366

EDPROFST 212 15 Points
Inquiry into Practice 2
Develops informed understandings about the nature of high quality, effective teaching practices for diverse ākonga. Interprets teaching as inquiry with reference to relevant curricula. Identifies and examines specific teacher actions that support high quality, effective teaching and learning. Further develops understandings of strategies central to the second teaching practicum.
Prerequisite: EDPROFST 103, EDPRAC 105
Corequisite: EDPRAC 205
EDPROFST 214 15 Points
Assessment for Learning and Teaching
Assessment for learning, for teaching, and of learning will be examined with reference to their specific purposes, characteristics and the degrees of reliability and validity necessary for each. Emphasis will be placed on the appropriate use of assessment tools/tasks and the gathering of robust information so sound interpretations and decisions can be made about learning.
Restriction: EDUC 224, 225

EDPROFST 215 15 Points
Professional Early Childhood Practice 2
Develops professional knowledge, skills and dispositions required for effective professional early childhood practice through an inquiry-based approach. Enhances practice in engaging with and responding to diverse tamariki informed by developmental knowledge. Creates opportunities to practise and reflect on skills necessary to manage complex early childhood environments.
Prerequisite: EDPROFST 115

EDPROFST 216 15 Points
TESOL Education in Context
An overview of second language learning and teaching that addresses the interdisciplinary nature of TESOL by developing knowledge, skills and attitudes associated with TESOL within different contexts. The course addresses questions such as: What are the important principles, concepts and skills in an interdisciplinary approach to TESOL? How does digital technology impact TESOL? How are these concepts evident in practice?
Restriction: EDPROFST 207

EDPROFST 217 15 Points
TESOL in Practice I
Familiarises students with a range of skills and knowledge in second language learning and teaching in different contexts. It uses pedagogical content knowledge and skills for informing future practice including maximising motivation and engagement in TESOL for diverse and multilingual learners. The course examines professional practice in educational environments using a critically reflective approach.
Restriction: EDPROFST 207

EDPROFST 220 15 Points
Introduction to Samoan Language for Teaching
Focus will be on the acquisition of basic Samoan to develop skills in listening, speaking, reading and writing. This knowledge can be applied in educational settings which will also be examined. Aimed at learners with little or no prior experience of Samoan language.

EDPROFST 222 15 Points
Reporting Student Achievement
Develops understanding about assessment of learning with particular emphasis on principles underpinning the gathering of robust summative information, the making of defensible judgements and decisions and reporting student achievement. Policy requirements related to assessment of learning will be critiqued and implications for practice considered.

EDPROFST 226 15 Points
Introduction to Bilingual Education
An introduction to bilingualism and bilingual education. Examines key principles of programme development and strategies for academic learning of bilingual students in formal and informal settings including immersion and mainstream, early childhood and secondary.

EDPROFST 227 15 Points
TESOL: Language Learning Needs
Strategies to identify, analyse, and respond to second language learning needs of students from early childhood to secondary school settings are introduced. Theories of first and second language acquisition are discussed, with reference to the role of first language and culture, and philosophies of empowerment. Practical teaching strategies which enable the integration of content and language learning are introduced.

Stage III

EDPROFST 300 15 Points
Raising Student Achievement
Examines theory, research and practice to promote success for learners. Questions include: How do policies and practice shape what is meant by achievement? How do school communities operate as collaborative teams to raise achievement of learners? How can we identify and promote success for learners? What are the implications for teaching?
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation
Restriction: EDPROFST 604

EDPROFST 303 15 Points
Teaching Health and Physical Education 2
Examines the knowledge, skills and attitudes associated with effective pedagogical practice in health and physical education. Addresses such questions as: How can the diverse needs of students be addressed in physical education contexts? How can teachers structure quality learning opportunities? How are units and programmes planned using the curriculum, national guidelines and assessment requirements?
Prerequisite: EDPROFST 203
Restriction: EDPROFST 301, 302, EDPROFM 301

EDPROFST 304 15 Points
Play: Theory and Practice
Develops critical understandings of play related to learning and teaching. Addresses questions such as: How do varied theoretical and philosophical perspectives of play influence professional practice? What are the implications of positioning play as the interface between individual freedom and social constraint? What is the significance of play for creativity, communication and citizenship?
Prerequisite: At least 225 points passed
Restriction: EDCURRIC 215, 313

EDPROFST 305 15 Points
The Reflective and Ethical Teacher
An examination of principles of how people learn will guide inquiry into own personal teaching practice and reflection on a developing, evidence-informed personal pedagogy. Notions of teacher professionalism and how the moral and ethical nature of teaching impacts on teacher decision-making will be explored.
Prerequisite: EDPRAc 201
Corequisite: EDPRAc 305
Restriction: EDPROFST 313
EDPROFST 306 30 Points
EDPROFST 306A 15 Points
EDPROFST 306B 15 Points

Contemporary Issues in TESOL
Examines a range of contemporary issues relating to TESOL education allowing students to draw connections between theory, research, their own experiences as language users and practice. Addresses questions such as: What are the latest developments in the theory, policy and practice of TESOL? How does digital technology impact TESOL? How does reflective practice shape the work of the TESOL educator?
Prerequisite: Approval from the Course Director

EDPROFST 313 15 Points
The Professional Teacher
Examines theories, evidence informed practices, and attitudes that are critical to being a professional teacher. Explores concepts such as teacher self-efficacy, teacher inquiry, knowledge building and reflection, and factors that support the transition from student to teacher. Discusses the nature of professionalism, and the impact of expectations on teachers, including ethical obligations and legal requirements.
Prerequisite: EDPRAC 202 or 105 points passed at Stage II from the BEd(TESOL) Schedule
Corequisite: EDPROFST 306 or EDPROFST 306

EDPROFST 315 15 Points
Relational Worlds of Children
Explores the relational worlds of all children in early childhood settings in Aotearoa and globally. Critically examines relevant theories and ideas of childhood and children’s learning including children’s belonging, being and becoming. Relational philosophies and pedagogies connecting teachers, parents and children with local and global communities addressed within the context of culturally sensitive practices.

EDPROFST 318 15 Points
Language Teaching for ESOL: An Introduction
Addresses current theories, approaches and practices for language teaching and learning for students learning English as an additional language in New Zealand schools and Early Childhood Centres. The course focuses on the needs of learners in all curriculum areas, emphasising the importance of understanding diverse learners’ languages and cultures across the curriculum.
Prerequisite: 225 points passed in the BEd(TTESOL) Schedule
Restriction: EDPROFST 212, EDPRAC 205
Corequisite: EDPRAC 307
To complete this course students must enrol in EDPROFST 308 A and B, or EDPROFST 308

EDPROFST 319 15 Points
Teaching Gifted and Talented Students
Explores theories and practices which have the potential to promote the development of gifts and talent. Integrates theory, research and professional practice to develop understanding of gifted education.
Prerequisite: 225 points passed in the BEd(Tch) Primary Specialisation or 90 points passed at Stage I from the BEd(TTESOL) Schedule
Restriction: EDPROFST 223, 371

EDPROFST 325 15 Points
Introduction to Leadership in Education
A critical examination of the nature of professional leadership in education settings. Educational leadership skills such as goal setting, decision making, problem solving, team building, communication, delegation, vision development and curriculum alignment will be explored.

EDPROFST 344 15 Points
Sport, Games and Play
A critical analysis of the nature, purpose and practice of sport, games and play within New Zealand schools and an evaluation of the socio-cultural impact of those activities on children and on New Zealand society as a whole.
Prerequisite: 225 points passed in the BEd(Tch) Primary Specialisation
EDPROFST 350  
Assessment for Learning  
15 Points  
Understandings about the nature and purpose of Assessment for Learning (AFL) will be developed. Emphasis will be placed on strategies associated with AFL and the formative use of information. Policy requirements related to AFL and implications for teachers' practice and students' learning will be examined.

EDPROFST 355  
The Politics of Education  
15 Points  
The use of critical theory and discourse analysis to examine the politics of education. Historical and contemporary policy formation, implementation and effect will be explored. The impact of policy on teachers' work and influence on policy processes will be explored.

EDPROFST 357  
Reflective Practice for Teachers  
15 Points  
Examines moral, political and ethical factors that influence and affect teachers' work in general and personal professional practice in particular. A critically reflective lens will be used as a means of analysis.

EDPROFST 358  
Refining Professional Performance  
15 Points  
Provides a framework for analysis and critique of the impact of personal professional practice in the context of the prevailing socio-political educational climate. For teachers this will include a consideration of the impact of their practice on learners. A practitioner research project related to a specific area of the student's professional practice will be undertaken.

EDPROFST 360  
Teaching Languages in Schools  
15 Points  
Students who have a working knowledge of a second language will study and apply strategies for classroom teaching of second languages in schools. Following critical reflection on different teaching models used in schools, students will prepare teaching materials, plan class lessons and apply information and communication technology in teaching and learning second languages.

EDPROFST 363  
Environmental Education: An Introduction  
15 Points  
An examination of the nature and purpose of environmental education in New Zealand educational settings. An exploration of curriculum integration models and the ways these can be used to plan and teach environmental education programmes. An investigation of past, present (and possible future) local, national, and global environmental issues and their impacts on the natural and built environments.

EDPROFST 364  
Enterprise and Innovation for Teaching  
15 Points  
Develops teachers' understanding of links between business and education, and the role of business, enterprise and innovation in the community. Links with technology and social studies curricula will provide context for this course.

EDPROFST 365  
Beyond Special Needs: Inclusive Education  
15 Points  
Analyses personal and professional dilemmas associated with teaching children with special needs. Examines strategic practices which promote a responsive learning environment for all learners and approaches to recognising and catering for exceptional children. Addresses relationship building and resource access.

EDPROFST 368  
Refining Writing Programmes  
15 Points  
Develops and extends understanding of the theory and practice of teaching and learning of writing within early childhood and primary settings.

EDPROFST 371  
Special Topic  
15 Points  

EDPROFST 372  
TESSOL: Language Learning through Tasks  
15 Points  
Investigates strategies for maximising language and content learning through instructional tasks. Cognitive, linguistic and metacognitive demands of tasks are considered. Examines pedagogical frameworks for planning effective language and content teaching in early childhood, primary and secondary schools. Students review, trial and modify tasks and learning sequences.

EDPROFST 373  
TESSOL: Language Learning in the New Zealand Context  
15 Points  
The application of current second language acquisition theory to the New Zealand school context. Focuses on functional grammar in the classroom and on the roles of school organisation, policy development and building of school and community relationships in language learning.

EDPROFST 374  
TESSOL: Language Focused Curriculum  
15 Points  
Discusses the relationship between culture, power, language and curriculum. Students investigate models and principles of curriculum design and use a functional-grammar approach to the design of language across the curriculum programmes. Focuses on ways of implementing and sustaining classroom and school wide language focused content teaching.

EDPROFST 375  
TESSOL: Assessment  
15 Points  
Students analyse the personal and contextual factors that may affect linguistic performance in the New Zealand curriculum and critique current assessment procedures used in NZ schools. Focuses on recording and reporting and developing school policies for the assessment of students from diverse linguistic and cultural backgrounds.

EDPROFST 377  
Bilingual Education: Curriculum and Pedagogy  
15 Points  
Examines key principles and processes for curriculum development and resource provision for bilingual learners in mainstream or bilingual educational contexts. Students critique an aspect of programme planning and pedagogy in order to develop curriculum and assessment measures suitable for bilingual learners in a particular school or centre.
EDPROFST 378  15 Points
Critical Approaches to Literacy
An exploration of the issues, theory, research and burgeoning body of literature on literacy in multi-ethnic settings including the development of effective multicultural environments for literacy learning.

EDPROFST 379  15 Points
TESSOL: Materials Design
Critique current resources for English language learning within the New Zealand curriculum using principles from second language learning in content areas. Students use the process of materials design to develop a language resource for a specified group of learners. The resource is presented in a way that can be disseminated to educational audiences.
Prerequisite: EDPROFST 227, 372 and 373
Corequisite: EDPROFST 374

EDPROFST 380  15 Points
TESSOL: Teacher Research Design
A range of research methodologies and methods appropriate for investigating an aspect of language learning through the curriculum is introduced and critiqued. Students conduct a critical review of relevant SLA literature and prepare a research proposal.
Prerequisite: EDPROFST 227, 372, 373 and 374

EDPROFST 381  15 Points
TESSOL: Teacher Research Implementation
The students implement a school-based teacher research study. The focus of this study informs decision making into an aspect of the effectiveness of second language acquisition in the context of a primary or secondary school classroom. Findings of the study are reported in a way that can be disseminated to educational audiences.
Prerequisite: EDPROFST 227, 372 and 373

EDPROFST 386  15 Points
Special Topic: Professional Practice in New Zealand Schools
Develops understanding of values and principles of inclusive education to ensure that relationships with students are based on respect. Addresses pedagogy that is purposefully designed to teach and assess students to meet the reading and writing requirements of the New Zealand curriculum. A particular focus will be on the theories of teaching practice that best support English Language Learners.
Prerequisite: Approval from the Course Director

EDPROFST 387  15 Points
Special Topic: Inquiry into Practice in NZ Schools B
Engages critical reflection skills through an inquiry into classroom practice that has relevance to own context. Reflects critically on responsive pedagogies impacting on learning. Understands teaching as inquiry and the iterative process it entails, and enables dissemination of this inquiry using appropriate delivery strategies to a range of audiences, including colleagues, mentors and leaders within own countries’ context.
Prerequisite: Approval from the Course Director
Corequisite: EDPROFST 310

EDPROFST 390  15 Points
Special Study
An advanced study in a topical area of educational inquiry.

EDPROFST 392  15 Points
Effective Practice for Beginning Teachers
An inquiry into key aspects of effective practice in primary and middle school contexts that support the transition to becoming a successful beginning teacher. Focuses on knowledge of self, children, schools, communities of practice, and the interactions and relationships between these, to support effective professional practice.
Prerequisite: 225 points passed in the BEd(Tchg) Primary Specialisation

EDPROFST 393  15 Points
Special Topic

EDPROFST 394  15 Points
Special Topic

EDPROFST 395  15 Points
Special Topic

EDPROFST 396  15 Points
Professional Early Childhood Practice 3
Develops capability to establish and sustain culturally responsive, ethical, child-focused relationships with tamariki, colleagues and whānau in complex environments. Promotes an inquiry-based approach to demonstrating competency in professional knowledge, and the skills and dispositions required for effective professional early childhood practice.
Prerequisite: EDPROFST 215

EDPROFST 397  15 Points
Current Issues in TESOL
Examines a range of issues relating to Teaching English to Speakers of Other Languages (TESOL) education allowing students to draw connections between theory, research, their own experiences as language users, and practice. Addresses questions such as: What are current developments in the theory, policy and practice of TESOL? Why is intercultural communicative language learning important? How does reflective practice shape the work of the TESOL educator?
Prerequisite: EDPROFST 216
Restriction: EDPROFST 306

EDPROFST 398  15 Points
TESOL in Practice II
Examines a range of contemporary issues relating to Teaching English to Speakers of Other Languages (TESOL) education allowing students to draw connections between theory and practice. Students critically reflect on developments in the TESOL field and their impact on practice. Applies theoretical perspectives and pedagogic principles to the design of TESOL practices in dynamic learning environments.
Prerequisite: EDPROFST 216, 217
Restriction: EDPROFST 306

Diploma Courses

EDPROFST 601  10 Points
Te Ao Māori
Critically examines the educational and cultural needs and aspirations of Māori learners and communities. Questions include: What is the social, historical and policy context of schooling for Māori? Why are te reo and mātauranga Māori important and how can they be integrated across learning contexts for all students? What current research contributes to effective pedagogical approaches for Māori students?
Restriction: EDPROFST 601, 603
EDPROFST 605 15 Points
The Early Years Teacher
Develops critically reflective practice and knowledge of a range of early childhood contexts. Critiques theories of teaching and teacher identity in relation to own practice and professionalism. Explores issues, ethics, policies and politics that influence teacher identity, well-being and practice. Explores a range of communication skills that support relationships with children, teachers, families and whānau.
Restriction: EDCURRIC 634, EDPROFST 621, 622

EDPROFST 607 15 Points
Relational Worlds of Children
Explores the relational worlds of children in early childhood settings in Aotearoa and globally. Critically examines relevant theories and ideas of childhood and children's learning including children's belonging, being and becoming. Relational philosophies and pedagogies connecting teachers, parents and children with local and global communities addressed within the context of culturally sensitive practices.
Restriction: EDCURRIC 630, 634, EDPROFST 621, 622

EDPROFST 608A 15 Points
EDPROFST 608B 15 Points
Learning and Teaching in NZ
Critically examines the New Zealand Curriculum and implications for effective learning and teaching from a range of perspectives. Addresses questions such as: what do teachers need to know about learners and how they develop and learn, how to use evidence to promote learning, how to develop positive, professional relationships, and how contextual factors influence learning and teaching.
To complete this course students must enrol in EDPROFST 608 A and B

EDPROFST 609 15 Points
Ako
Critically examines the implications for effective learning and teaching from a range of perspectives. Addresses what teachers need to know about learners, and how they develop and learn, how to use evidence to promote learning, how to apply the strategies that support responsive teaching and the development of self-regulating learners and teachers.
Restriction: EDPROFST 608

EDPROFST 612A 15 Points
EDPROFST 612B 15 Points
Te Whakaako in NZ Secondary Schools
Focuses on adolescent development and learning within the context of implementing the NZ Curriculum. Addresses psychological learning theories, responsive pedagogies, evidence-based assessment practice as well as student motivation and engagement. Explores questions relating to catering for the needs of diverse learners, the Treaty of Waitangi, and the socio-political influences that shape the interconnections between learning and context.
Restriction: EDPROFST 610, 611
To complete this course students must enrol in EDPROFST 612 A and B

EDPROFST 613 15 Points
The Adolescent Learner
Focuses on theories of motivation and engagement in the context of adolescent development. Uses a social and psychological lens to examine neurological changes, adolescent identity, diverse learners, responsive pedagogies, learning theories and mental health issues. Explores questions relating to understanding adolescents to create a positive classroom environment for students.
Restriction: EDPROFST 612

EDPROFST 614 15 Points
EDPROFST 614A 7.5 Points
EDPROFST 614B 7.5 Points
The Inquiring Professional
Examines what it means to be a professional teacher. Considers the concept of the professional teacher as the adaptive expert, able to enquire into and reflect on the impact of current policies, as well as their practice on the diverse learners they teach.
To complete this course students must enrol in EDPROFST 614 A and B, or EDPROFST 614

EDPROFST 621 15 Points
Personal Pedagogy
Focuses on developing a personal pedagogy specific to early childhood. Critically examines relationships between theories and practices. How does the exploration of play, communication and relationships give rise to provision of purposeful and inclusive early childhood learning environments? What is the impact of sociopolitical issues upon early childhood settings and teachers’ practices with infants, toddlers and young children?
Prerequisite: EDCURRIC 630, EDPROFST 622

EDPROFST 622 15 Points
Learning Theories
Critically examines psychological and sociological aspects of human development and learning. What pertinent theories of learning and development influence pedagogies for infants, toddlers and young children? What knowledge of diverse families and communities is necessary for teachers to work in partnership with parents in Aotearoa New Zealand to enhance children's learning?

EDPROFST 623 15 Points
Special Topic
Postgraduate 700 Level Courses
EDPROFST 700 30 Points
EDPROFST 700A 15 Points
EDPROFST 700B 15 Points
Literacies Education: Research and Practice
Understandings of research tools adequate for empirical study and an application of theory to literacies practices, critical analysis of how research questions are constructed and ability to situate and view educational issues and questions within major theoretical frameworks in literacies education will be developed.
Restriction: EDCURRIC 315, 364
To complete this course students must enrol in EDPROFST 700 A and B, or EDPROFST 700

EDPROFST 702 30 Points
Challenges of Literacy Difficulties
Teachers will critically examine and evaluate research and practice in literacy education, including specific intervention strategies and resources. This will include an examination of the social, cultural, economic, psychological and physiological factors that influence literacy development, including approaches to support and overcome literacy difficulties experienced by diverse learners, including Māori and Pasifika children.

**Educational Leadership in the Electronic Age**

Advanced study of the impact of ICT on teaching pedagogies, curriculum and management in educational environments. Emphasis is on assisting educational leaders to focus ICTs on school applications that improve management practice and student learning outcomes.

*Restriction: EDPROF 776*
EDPROFST 743 15 Points
Family Counselling
An advanced examination of counselling principles as applied to stresses arising within family relationships. 
Restriction: EDPROF 743

EDPROFST 744 15 Points
Pastoral Care and Counselling in Schools
Provides an overview of the theory and practice of pastoral care and counselling within New Zealand schools. It includes an examination of pastoral care systems and counselling services, including the roles of staff, in relation to the academic mission of schools, disciplinary systems, the health of children and young people and the school-community interface.

EDPROFST 745 15 Points
Group Counselling
A critical examination of group dimensions in counselling activities.
Restriction: EDPROF 745

EDPROFST 751 30 Points
ECE Curriculum Issues - Level 9
An educational curriculum negotiates social, political, educational and interdisciplinary ideas and theories. Critically examines influences on curriculum pertinent to pedagogical leadership in contemporary early childhood education. What perspectives of children, families and teachers are represented? How do these perspectives privilege particular outcomes? How does practitioner inquiry into curriculum issues underpin and improve practices? Requires the completion of independent research-focused assignments.

EDPROFST 752 30 Points
Assessment for Learning and Teaching
A critical examination of the relationship between assessment, teaching and learning. The notion of Assessment for Learning will be explored in relation to educational policy, relevant literature and contemporary research. Implications for practice and factors affecting implementation will be explored in detail.

EDPROFST 754 30 Points
Critical Research Methodologies in Education
An in-depth examination of ways in which critical research methodologies provide new knowledge and offer alternatives, through analysis of social, cultural, economic, political contexts in education. The critical research paradigm will be explored, to understand various perspectives and methods, and to enhance its use in education research. Students will be expected to design an education inquiry using critical research methodologies.

EDPROFST 755 30 Points
The Inquiring Professional
Optimise learning through a narrative inquiry into practice. Collaboratively and independently engage with theories, strategies and practices of writing life stories to better understand educational processes, practices, places, and policies. Critically analyse relevant literature in a chosen area of interest through a range of writing strategies. Includes writing a critically reflective narrative to inform future practice.

EDPROFST 757 30 Points
Undertaking Research for School Improvement
Students will learn how to design research that contributes to the understanding and improvement of educational practice. They will develop an understanding of practitioner based research methods and produce a detailed research proposal that includes a clearly defined, and justified, research design and methodology aimed at studying a specific educational problem. 
Restriction: EDPROF 772

EDPROFST 759 60 Points
EDPROFST 759A 30 Points
EDPROFST 759B 30 Points
Research Portfolio BEd(Tchg)(Hons) - Level 9
A supervised programme of coherent research activity related to a selected aspect of professional practice/education. This will lead to the compilation of a research portfolio that reflects the research and content knowledge, understanding and skills developed during the course of the programme.
Restriction: EDPROFST 789
To complete this course students must enrol in EDPROFST 759 A and B, or EDPROFST 759

EDPROFST 760 30 Points
Christian Religious Education in Integrated Schools
A critical analysis of pedagogical methodology in Christian Religious Education through an examination of contemporary research, scholarship and theory, in Christian Scripture, Christian thought and History and Christian Religious Education in integrated Schools.
Restriction: EDCURSEC 676

EDPROFST 762 30 Points
Mentoring Professionals
An advanced examination of approaches to mentoring and coaching. This course will provide a critical analysis of issues and practices associated with developing professional capacity. Emphasis will be placed upon the role of the educational leader in mentoring other staff into educational and leadership roles across an organisation.
Restriction: EDPROF 731

EDPROFST 764 30 Points
Disability Policy and Practice
Explores contemporary issues and influences in the education of learners with disabilities. Critically examines a range of contemporary social, political and educational responses to disability.

EDPROFST 765 30 Points
Development in Early Years
An advanced examination of a range of current theories and research issues related to development in early years of childhood. Topics will include: life experiences of children within family/whānau; cognitive, communicative, social, emotional and physical development in a range of contexts.

EDPROFST 769 30 Points
Developing Mentoring Expertise
Mentoring has been identified as being an essential yet complex ingredient for teacher professional learning and development for new and experienced teachers. Underpinning educative models of mentoring is the development of adaptive expertise that builds knowledge through evidence-informed inquiry. Emphasis is placed on catering for the diversity of learning needs throughout professional careers.

EDPROFST 774 30 Points
Education and Empowerment
A critical examination of contemporary issues faced in New Zealand's decile 1-3 urban schools. International and
New Zealand based literature will familiarise students with current theory and research regarding the history, politics, teaching and learning, and best practice relevant to New Zealand’s decile 1-3 urban school students, teachers and communities. Emphasis will be on empowerment theories, underpinned by Freirean perspectives.

**EDPROFST 777 30 Points**  
Curriculum: Theory, Issues, Practice - Level 9  
A critical examination of curriculum using a range of leading educational theories with an emphasis on sociological theory. Importance will be placed on the independent critique of contemporary curriculum issues, and the links between theory, policy and practice. A research informed critical understanding will be applied to the NZ Curriculum Framework, or Te Whāriki, or to a sector in the NZ education system.

**EDPROFST 780 30 Points**  
**EDPROFST 780A 15 Points**  
**EDPROFST 780B 15 Points**

**Education Professional Studies Māori**

**Stage I**

**EDPROFM 100 15 Points**  
Te Ao Māori - Te Kākano  
Introduces socio-political and historical contexts, including Te Tiriti o Waitangi, to inform understandings about Māori challenges and aspirations within contemporary New Zealand society. Examines own social and cultural locations for their impact on professional and social practices in a range of settings. Develops basic knowledge of te ao Māori including Te Reo me ngā tikanga Māori.  
Restriction: EDUCSW 101, EDPROFST 100

**EDPROFM 101 15 Points**  
Te Reo Māori 1  
Develops te reo Māori knowledge, skills and attitudes for learning and teaching across marautanga. Addresses issues such as strategies that support personal and professional Māori language development; historical, social and political factors that have impacted on the vitality of te reo Māori; bilingual education and Māori medium education.  
Restriction: EDPROFM 109

**EDPROFM 102 15 Points**  
Pakirehua Ngaio – Te Ako  
Addresses key influences on learning and development, building and enhancing understandings of personal experiences and identity. Examines concepts central to learning and development such as self-efficacy and self-concept. Explores key aspects within the teacher’s role with an emphasis on reflection, relationship building, communication and collaboration. Introduces strategies central to the first teaching practicum. Examines te reo Māori discourse appropriate to pakirehua ngaio contexts.
Stage II

EDPROFM 200 15 Points
Te Ao Māori - Te Māhuri
Introduction of contemporary Māori educational landscapes, policy directions, case-studies and debates to develop critical knowledge and engagement with te ao Māori and Māori Education. Further develops knowledge of te reo, tikanga and mātauranga Māori, and its integration with pedagogy, practice and planning relevant for all ākonga, is developed.
Prerequisite: EDPROFM 100

EDPROFM 203 15 Points
Mātauranga: Te Whakawhanake Hapori Ako
Introduces students to selected contemporary perspectives on learning. Explores strategies that develop self-regulated and self-efficacious learners, and support learning, with a focus on Māori learners. Considers rationale and conditions for establishing connections and relationships within a responsive pedagogy alongside factors that contribute to the creation of Māori medium classrooms as effective learning communities.

EDPROFM 204 15 Points
Te Reo Māori 2
Further develops te reo Māori knowledge, skills and attitudes for learning and teaching across Marautanga. Addresses issues such as planning effectively for personal and professional Māori language development; key theories and approaches underpinning the development of bilingualism and illiteracy in Māori medium educational contexts and the pedagogical implications of these when planning for learning and teaching.
Prerequisite: EDPROFM 101
Restriction: EDPROFM 209

EDPROFM 208 15 Points
Pakirehua Ngaio – Te Whakaako
Develops informed understandings about the nature of high quality, effective teaching practices for diverse ākonga. Interprets teaching as inquiry with reference to relevant curricula. Identifies and examines specific teacher actions that support high quality, effective teaching and learning. Further develops understandings of strategies central to the second teaching practicum. Examines te reo Māori discourse appropriate to pakirehua ngaio contexts.
Prerequisite: EDPROFM 102, EDPRACM 100
Corequisite: EDPRACM 204

EDPROFM 220 15 Points
Special Topic

Stage III

EDPROFM 300 15 Points
Te Ao Māori - Te Puāwaitanga
Fosters Te Tiriti responsive teacher practice, including understanding of and engagement with Māori whānau and community for productive educational relationships and learner outcomes. Applies critical knowledge and skills in mātauranga, tikanga and te reo Māori to extended planning and assessment activities suitable for diverse ākonga.
Prerequisite: EDPROFM 200

EDPROFM 302 15 Points
Te Reo Māori 3
Synthesises te reo Māori knowledge, skills and attitudes for teaching and learning across Marautanga. Addresses issues such as the support of te reo Māori revitalisation at micro, meso and macro levels; the socio-political implications of language change, shift, loss and revitalisation; planning for long-term personal Māori language development in a school context.
Prerequisite: EDPROFM 204

EDPROFM 304 15 Points
Ako mā te Aromatawai - Learning Through Assessment
Addresses assessment literacy and capability through an informed examination and appraisal of the purposes, strategies and practices of assessment for and of learning. Attention is focused on the ways in which Māori medium learners and teachers can use information and evidence from classroom activities and selected New Zealand assessment tools, in particular Māori medium tools, to support and further learning and achievement.
Restriction: EDPROFM 214

EDPROFM 307 15 Points
EDPROFM 307A 7.5 Points
EDPROFM 307B 7.5 Points
Pakirehua Ngaio - Te Pouako Pakirehua
Promotes development of a defensible philosophy of learning and teaching that addresses interactions and intersections between and among professional knowledge bases. Examines pedagogical, ethical and contextual factors influencing teaching practice. Facilitates critique of practitioner inquiry with reference to cognate literature and personal philosophy in relation to the final teaching practicum. Examines te reo Māori discourse relevant to pakirehua ngaio contexts.
Prerequisite: EDPROFM 208
To complete this course students must enrol in EDPROFM 307 A and B, or EDPROFM 307

EDPROFM 313 15 Points
Te Pouako Ngaio
Examines theories, evidence informed practices, and attitudes that are critical to being a professional teacher. Explores concepts such as teacher self-efficacy, teacher inquiry and reflection, and factors that support the transition from student to teacher. Discusses the nature of professionalism, and the impact of expectations on teachers, including ethical obligations and legal requirements.
Prerequisite: EDPRAC 201 or 202 or EDPRACM 201
Corequisite: EDPRAC 305 or 306 or EDPRACM 302
Restriction: EDPROFM 301

Diploma Courses

EDPROFM 600 15 Points
EDPROFM 600A 7.5 Points
EDPROFM 600B 7.5 Points
Te Ao Māori: He tirohanga whakamuri kia ahu whakamua
Introduces socio-political and historical contexts, including Te Tiriti o Waitangi in order to inform understandings of contemporary challenges and aspirations of Māori in educational contexts. Own social locations and cultural beliefs are examined for their impact on teacher practice and outcomes for Māori learners. Learning opportunities
that critically integrate Māori language, knowledge and culture are identified and designed.

Rest: EDPROFST 601
To complete this course students must enrol in EDPROFM 600 A and B, or EDPROFM 600

Postgraduate 700 Level Courses

EDPROFM 700 30 Points
Being Māori, Thinking Theory
An exploration of theory through a Kaupapa Māori framework. Draws on te reo, tikanga and mātauranga Māori as the foundation for articulating Kaupapa Māori theory as a contemporary theoretical framework of analysis in education.

EDPROFM 701 30 Points
Teaching Te Reo Māori in English-Medium Contexts
Critically analyse te reo Māori revitalisation strategies and theories of language planning including developing personal te reo Māori development plans. Developing critical knowledge, skills of mātauranga, tikanga and te reo Māori and knowledge of relevant curriculum material. Critique second language acquisition theory and develop teaching approaches that support the learning and teaching of te reo Māori and tikanga in English-medium settings.

EDPROFM 702 30 Points
Te whakaaiko i te reo Māori: Teaching te reo Māori
Through an exploration of second language acquisition and pedagogical processes, including an analysis of the latest learning technologies, this course will enable critical reflection on current te reo Māori teaching practices, enhanced language development, and an opportunity to evaluate and strengthen the effectiveness of one’s own te reo Māori teaching practice. This course will be taught in te reo Māori.

EDPROFM 703 30 Points
Special Topic

EDPROFM 796A 60 Points
EDPROFM 796B 60 Points
MED Thesis - Level 9
To complete this course students must enrol in EDPROFM 796 A and B

EDPROFM 797 60 Points
EDPROFM 797A 30 Points
EDPROFM 797B 30 Points
Dissertation
To complete this course students must enrol in EDPROFM 797 A and B, or EDPROFM 797

Education Professional Studies Pasifika

Stage I

EDPROFK 102 15 Points
Pe mafai vevea e ki tatou oi tamaiti aoga Pasifika
Explores skills and techniques in learning-to-learn in Pasifika medium, bilingual education settings. Students are introduced to characteristics of the development of a first language platform for further successful learning in English. Interpersonal communication and cognition skills and academic language proficiency in students’ first languages will be scaffolded during this course.

Education Studies

Stage III

EDUCN 300 15 Points
Special Topic

Postgraduate 700 Level Courses

EDUCN 793 60 Points
Dissertation - Level 9

Health Education

Stage I

HEALTHED 101 15 Points
Food and Education
Examines the relationship between food, eating, nutrition, and the body. Examines the social, cultural, political, economic and environmental factors that determine how people eat, what they eat, and why. Explores contemporary issues in nutrition and food education, and key challenges to improving the nutrition of communities.

Stage II

HEALTHED 201 15 Points
Youth Mental Health Education
Examines mental health education in Aotearoa New Zealand. Explores holistic, western and non-western approaches to mental health in education settings and the history of public health in schools. Examines how current education policy, resourcing and pedagogical initiatives impact the mental health and wellbeing of children and young people.

Restr: EDCURRIC 233

HEALTHED 202 15 Points
Sexuality, Education and Society
Examines the role of sexuality and sexuality education in society. Investigates cultural, historical and contemporary perspectives on gender and sexuality in diverse settings, including education and human services. Explores values, beliefs and issues of equity and sexual social justice. Develops sexuality pedagogies and advocacy for education settings and within communities.

Restr: EDCURRIC 333, EDUC 122

Stage III

HEALTHED 301 15 Points
Whaioranga
Critically examines a range of indigenous-Māori and critical literatures in health, physicality and wellbeing and provides opportunities to consider the relationships between indigenous-Māori wellbeing and other social locations and identities.

Prerequisite: 15 points from EDUCSW 201, HEALTHED 201, SPORTHPE 201

HEALTHED 302 15 Points
Leading Health Promotion in Schools
Critically examines how a range of health promotion models and theories can be applied in education settings. Develops in-depth knowledge of how contemporary health issues such as mental health, alcohol, drugs and obesity affect young people in Aotearoa schools. Develops understanding and skills to apply health promotion principles to
educational and community settings in culturally responsive and socially critical ways.
Prerequisite: HEALTHED 201
Restriction: EDCURRIC 433

Higher Education

Postgraduate 700 Level Courses

HIGHED 701 30 Points
Learning and Teaching
Students will document and critically reflect on their teaching practice in the context of their discipline and institution, and the higher education literature on learning and teaching and academic citizenship, taking into account how they will exhibit both leadership through innovation, scholarship and collegiality, and an awareness of difference (gender, ethnicity, ability) such that their practice is culturally and individually sustaining.
Prerequisite: HIGHED 701

HIGHED 702 30 Points
Course Design
Students will explore and critically reflect on the theory and practice of learning and course design in higher education, including different models and methods of assessment and evaluation, such that they can design, implement and evaluate learning and teaching activities, assessment tasks and courses in ways that speak to practice in their discipline and institution, and the higher education literature.
Prerequisite: HIGHED 701

HIGHED 703 30 Points
Topics in Higher Education
Students will investigate and critically examine a range of current topics and theories in higher education and higher education research and their impact in a local context, in order to deepen their scholarly understanding of learning and teaching in their discipline and in the local and global higher education context, and equip them to design and undertake a higher education dissertation.
Prerequisite: HIGHED 701, 702, or equivalent

HIGHED 704 30 Points
Research Project Design
Students will be introduced to and critically reflect on the breadth of higher education research methodologies and methods, and strategies for research project design and management. This will enable them to produce a research proposal, including a rationale, literature review, methodology and methods, for a higher education research proposal, including a rationale, literature review, methodology and methods, and strategies for research project design and management. This will enable them to create, sustain and change.
Prerequisite: HIGHED 701 or 702 or 703

HIGHED 793 60 Points
HIGHED 793A 30 Points
HIGHED 793B 30 Points
Dissertation - Level 9
Prerequisite: 30 points from EDUC 735, 787, EDUCSW 700, EPDPROST 754, HIGHED 704
To complete this course students must enrol in HIGHED 793 A and B, or HIGHED 793

Human Services

Stage I

HUMSERV 102 15 Points
Lifespan Development for Human Services
An introduction to the theories of lifespan development.
Key issues affecting human development and its relevance and application to the work of human service practitioners will be explored. The consideration of social contexts of human development will be a central theme.

Stage II

HUMSERV 201 15 Points
Leadership in Human Services
An exploration of contemporary leadership concepts, organisation structures and models with a view to their implementation within human service settings. Various approaches to team structure found in human services will be examined. Organisational structures and culture will be explored with a view to understanding how they are created, sustained and changed.
Prerequisite: SOCWORK 111, or 30 points passed from the BHumServ Schedule

HUMSERV 202 15 Points
Reflective Practice in Human Services
Developing the processes of reflective practice to evaluate ‘self’ in their role as a human service practitioner. Using an experiential and collaborative approach, students will apply action learning and gather data on their own practice. In consultation with a colleague or mentor, students will implement and evaluate change in their professional practice.
Prerequisite: HUMSERV 104 and 30 points passed from the BHumServ Schedule

HUMSERV 203 15 Points
Ethics and Social Justice
An introduction to major normative ethical theories and to the moral controversies of applied ethics that are relevant to the fields of disability studies and youth work. An examination of the application of the principles of justice to disabled people and youth as expressed in relevant universal declarations and conventions and national legislation.
Prerequisite: Any 30 points passed from the BHumServ Schedule

HUMSERV 211 15 Points
Assessment, Planning and Coordination
An examination of the practical components and implications of assessment, planning and coordination in human services. The theory and practice of needs assessment, service coordination and budget management are examined. The professional ethics and related practice issues are examined in relation to these activities.
Prerequisite: Any 30 points passed from the BHumServ Schedule

Stage III

HUMSERV 305 15 Points
Field Work in Human Services 1
A service-learning experience during which students will connect with an organisation or group to apply classroom knowledge in a human service setting. With supervision, students will be assisted to reflect on their field work experiences to further develop their professional practice skills.
Prerequisite: HUMSERV 101, 102, 104, 201, 202, 203, 211, SOCWORK 111, 112, 114, 211

HUMSERV 306 15 Points
Field Work in Human Services 2
An experiential learning course focused on a consolidation
of understanding of the function of reflection and research in human service practice. Students will critically analyse their own practice, connecting it to theory and evidence. With supervision and using appropriate methodology students will implement and evaluate change in their professional practice. 

Prerequisite: HUMSERV 101, 102, 104, 201, 202, 203, 211
Restriction: HUMSERV 302

HUMSERV 307
**Advanced Practice in Cultural Responsiveness**

Effective practice and social change occur when practitioners can locate self, power, and diversity appropriately within bicultural and multicultural contexts. Students will critically engage with theories of cultural competence, cultural responsiveness, and cultural humility to develop skills and strategies to work reflexively across diversity dimensions and contexts, including, but not limited to, ethnicity, sexuality, gender, age and ability. 

Prerequisite: HUMSERV 101, 102, 104, 201, 202, 203, 211

**Stage I**

**PHYSED 101**

**Games and Sport Education**

Develops knowledge and appreciation of various game forms. Analyses game structures and processes. Develops performance competency in games through experiential learning. Explores and analyses potentially positive and negative outcomes of participating in games and sport.

Restriction: EDCURRIC 231, EDPROF 344

**PHYSED 102**

**Alternative Sport and Play**

Develops understanding of alternative sport and games young people play in Aotearoa New Zealand and internationally. Explores a range of non-traditional and non-competitive physical activities. Reflects on the sociocultural dimensions of these types of physical activities, including an examination of how alternative sport enables young people to learn, play, communicate, create, express themselves, and belong.

Restriction: EDCURRIC 232

**PHYSED 103**

**Outdoor Education 1**

Explores the nature and purpose of outdoor education. Requires study and participation in selected outdoor activities to acquire field-specific skills, knowledge, and dispositions. Involves experiential learning and recognition of the contribution of outdoor education to personal and social development, including the facilitation of group processing. Develops basic knowledge of outdoor risk management and environmental care.

Restriction: EDCURRIC 236

**PHYSED 104**

**Aquatics and Water Safety**

Studies aquatic activity with an emphasis on the practical competencies that underpin safe and engaging recreation in Aotearoa New Zealand. Includes drowning prevention promotion and water safety education with particular reference to high-risk activities and at-risk groups, including children and youth. Demonstrate responsibility in aquatic environments including developing a range of aquatic skills, identifying hazards, and care for aquatic environments.

Restriction: EDCURRIC 130, 232

**Stage II**

**PHYSED 203**

**Outdoor Education 2**

Examines the role of outdoor education as an educational process. Involves experiential learning to develop outdoor skills, knowledge, and behaviours for teaching outdoor education. Develops knowledge of risk management for safe, effective and pleasurable engagement in the outdoors.

Restriction: EDCURRIC 236

**Stage III**

**PHYSED 303**

**Outdoor Education Leadership**

Develops specialist leadership knowledge and skills appropriate to leading educational experiences in the outdoors. Strengthens skills required to facilitate safe, challenging learning experiences in moderate and wilderness environments. Examines policies and legal requirements as they relate to safe industry practice and duty of care.

Prerequisite: PHYSED 103, 203

**Professional Counselling**

**Postgraduate 700 Level Courses**

**PROFCOUN 700**

**Counselling In Youth Mentoring**

Theories and concepts of youth mentoring and positive youth development will be examined in relation to practice as youth counsellors. Students will engage in weekly psychoeducational group and one to one counselling sessions on campus with at-risk youth as part of a therapeutic mentoring programme. Lecture topics include counselling skills for youth, effective and ethical mentoring relationships, and risk assessment.

Prerequisite: Approval from the Course Director
Restriction: EDUC 747, SOCYOUTH 300

**PROFCOUN 701A**

**Counselling Laboratory**

An intensive “laboratory” in which students work in small groups to develop skills and strategies for the facilitation of counselling processes. PROFCOUN 701 also provides a continuous opportunity for students to integrate theory with practice, and to develop confidence and effectiveness in their role as counsellors.

To complete this course students must enrol in PROFCOUN 701 A and B

**PROFCOUN 701B**

**Special Topic**

**PROFCOUN 702**

**Special Study**

**PROFCOUN 703**
PROFCOUN 705A 15 Points
PROFCOUN 705B 15 Points
The Counselling Process
An advanced examination of principles of counselling together with their application in the counselling process. Corequisite: PROFCOUN 701
Restriction: EDPROFST 746
To complete this course students must enrol in PROFCOUN 705 A and B

PROFCOUN 706 15 Points
Cultural Issues in Counselling
A critical examination of cultural dimensions present in counselling activities. Restriction: EDPROFST 748

PROFCOUN 707 15 Points
Specialist Counselling Skills and Approaches
An advanced examination of the specialist counselling skills and knowledge required to work effectively with clients from a wide range of contexts and experiences. Topics may include working with sexual abuse, family violence, trauma, anxiety, depression, self-harm, suicidality, and loss and grief. The course will focus on the integration of theory, research and practice, and the development of working models to facilitate effective counselling.

PROFCOUN 708 15 Points
Professional Issues in Counselling
An examination of significant professional issues in counselling, including supervision, ethics and accountability, and role development. Restriction: EDPROFST 749

PROFCOUN 711 15 Points
PROFCOUN 711A 7.5 Points
PROFCOUN 711B 7.5 Points
Counselling Practicum
A counselling practicum course that develops the capacity for reflective practice in relation to theory, ethics, in the context of Aotearoa. Corequisite: PROFCOUN 701, 705
To complete this course students must enrol in PROFCOUN 711 A and B, or PROFCOUN 711

PROFCOUN 730 30 Points
PROFCOUN 730A 15 Points
PROFCOUN 730B 15 Points
Advanced Counselling Practicum - Level 9
An advanced counselling practicum incorporating critical awareness of issues and analysis of counselling practice in relation to theory, ethics, and the context of Aotearoa. Mastery of counselling practice to an advanced level will be achieved through independent application and development of knowledge and skills within professional practice settings. Restriction: PROFCOUN 797, 798
To complete this course students must enrol in PROFCOUN 730 A and B, or PROFCOUN 730

PROFCOUN 732 30 Points
PROFCOUN 732A 15 Points
PROFCOUN 732B 15 Points
Professional Counselling Capstone Project - Level 9
A supervised capstone project incorporating highly specialised knowledge at the forefront of counselling, including critical awareness and reflexivity on the nature of professional counselling in the context of Aotearoa. Mastery of practitioner reflexivity to an advanced level will be achieved through independent application and development of knowledge and skills within personal and professional settings. To complete this course students must enrol in PROFCOUN 732 A and B, or PROFCOUN 732

PROFCOUN 795A 45 Points
PROFCOUN 795B 45 Points
Research Portfolio - Level 9
Prerequisite: EDPROFST 750 or PROFCOUN 709 or SOCWORK 718
Restriction: PROFCOUN 797, 798
To complete this course students must enrol in PROFCOUN 795 A and B

PROFCOUN 796A 45 Points
PROFCOUN 796B 45 Points
Thesis - Level 9
Prerequisite: EDPROFST 750 or PROFCOUN 709 or SOCWORK 718
Restriction: PROFCOUN 797, 798
To complete this course students must enrol in PROFCOUN 796 A and B

Professional Supervision

Postgraduate 700 Level Courses

PROFSUPV 700 30 Points
The Practice of Professional Supervision
A critical examination of the concept, role, purpose and benefits of supervision in a wide range of professions. Supervision and its ethical mandates within professional and organisational contexts in health, counselling and human services will be examined. The knowledge and skills required to offer supervision in professional contexts will be explored in depth, recognising Indigenous and non-Indigenous knowledges that inform practice.

PROFSUPV 701 30 Points
Advanced Approaches in Professional Supervision - Level 9
Builds on prior critical knowledge of a range of theoretical and practical approaches to professional supervision to establish advanced understanding and practice. A critical examination of Western and Indigenous models of supervision for health, counselling and human service contexts, which will include the development of anti-oppressive supervision practice and an integration of advanced knowledge, skills and values of supervision. Prerequisite: PROFSUPV 700

PROFSUPV 704 15 Points
Counselling Supervision: Relationship and Process
A critical examination of the nature of the supervisory relationship in the context of counselling supervision and the facilitation of supervisory process. Topics include an in-depth exploration of the dynamics of supervisory relationships, the roles of supervisors and supervisees, and the integration of theory and practice in developing skills for facilitating supervisory process.

PROFSUPV 707 30 Points
Supervision Folio
A supervised portfolio with a focus on an in-depth critical reflection on current practice in professional supervision, learning and development in human services and health contexts. Prerequisite: PROFSUPV 700, 701
### Course Prescriptions

**PROFSUPV 710**  
**Stress and Trauma in Health and Human Services**  
Explores the complex dimensions of stress and trauma encountered by health and human services workers. The historical, cultural and conceptual basis for an understanding of the impact of stress and trauma on both clients and workers is considered. Critically explores research-led strategies to address personal, professional and organisational responses to stressful environments.

**PROFSUPV 712**  
**Critical Approaches in Reflective Supervision**  
Critical exploration of contemporary theories and practice frameworks for reflective supervision in health, counselling and human services. An examination of strategies for ongoing professional development, including reflective practice, critical reflection, communities of practice, and learning organisations. Different modes of supervision (such as peer supervision and interprofessional supervision) will be examined along with creative action methods of supervision engagement.

**PROFSUPV 713**  
**Critical Issues in Counselling Supervision**  
An advanced examination of ethical, process and relational issues that may arise in the practice of counselling supervision. Topics include ethical issues for supervisors and supervisees, cultural issues and the relationship between culture and ethics in supervision, the influences of socio-political contexts, power in supervisory relationships, evaluation and accountability.  
*Restriction: PROFSUPV 705*

**PROFSUPV 714**  
**Managing and Developing People in Human Services**  
A critical examination of strategies for effective management and development of professional staff in the health and human services. Includes critical reflection on effective management processes; indigenous management frameworks; cultural issues and the relationship between culture and ethics in supervision, the influences of socio-political contexts, power in supervisory relationships, evaluation and accountability.  
*Restriction: PROFSUPV 706*

**PROFSUPV 715**  
**Practice Teaching and Learning**  
Explores the teaching and learning strategies required in the provision of high quality field education in social services and health settings. Critically examines theoretical and evidence informed pedagogies for student practice learning.

**PROFSUPV 716**  
**Group Supervision**  
Critically explores the benefits and challenges of group supervision. The parameters and value of group supervision are identified and promoted for practice within the current context of health and social services. Specific models of group supervision are developed to support critical reflection managing boundaries, tasks, roles, structure and the creation of a positive group learning.

**PROFSUPV 717**  
**Special Study**  

**PROFSUPV 718**  
**Special Topic**  

**PROFSUPV 720**  
**Professional Supervision Capstone Project - Level 9**  
A supervised capstone project, in which students critically apply advanced knowledge of professional supervision practice and scholarship to explore, develop, and/or refine cultural models/innovations of supervision within their own profession or setting.  
*Prerequisite: PROFSUPV 701*

**PROFSUPV 793**  
**Dissertation - Level 9**  
*To complete this course students must enrol in PROFSUPV 793 A and B, or PROFSUPV 793 B*

**PROFSUPV 794A**  
**Thesis - Level 9**  
*To complete this course students must enrol in PROFSUPV 794 A and B*

---

### Regional Development

**Postgraduate 700 Level Courses**

**REGDEV 702**  
**Regional Regeneration and Wellbeing**  
Examines how education provides a basis for rethinking regional development, community wellbeing and sustainability in an increasingly globalised world. The course explores the significance to community regeneration of indigenous and local knowledge, via mātauranga Māori, place-based learning, public pedagogy and the promotion of educational pathways, as well as how these traverse and intersect the local and the global.

**SOCCLead 700**  
**Leadership: Ethics and Actions**  
Effective social and community leadership requires a strong and critical ethical foundation. Topics include the professional identity and values of social and community sector leadership, social justice, ethical and authentic leadership, and human systems thinking. Leadership that honours the Treaty of Waitangi, diversity, and equity, and actions based on those values, will be explored.

**SOCCLead 701**  
**Leading Social Innovation**  
Evolving approaches to innovating social change will be examined. Topics include theories and change models of social innovation, venture creation, programme design and social enterprise development. Case study analysis will examine contemporary debates on and approaches to evidence-based programming, collaboration and co-design, social impact measurement, ethical social profit ventures, scaling impact and creating sustainable social change.

**SOCCLead 702**  
**Special Topic**

**SOCCLead 703**  
**Leadership, Ethics, Systems**  
Effective social and community leadership requires a
critical ethical and analytic foundation. Themes examined include ethical leadership values aligned to social justice, in combination with the capacity for analysis of complex social issues, systems, and change processes. Leadership that honours the Treaty of Waitangi, diversity, and equity, and formulates actions based on these values will be explored.

Restriction: SOCCLEAD 700

SOCCLEAD 704 30 Points
Special Study

SOCCLEAD 706 30 Points
Innovation, Design, Evaluation

Evolving approaches to innovating social change and evaluation practice are examined. Topics include contemporary debates on, and approaches to, co-design, collaboration, ethical social innovation, evidence-informed programme design, evaluation models and impact measurement. Using experiential learning, groups of students will be guided through a social innovation design process in response to user needs, and develop robust evaluation proposals.

Restriction: EDUC 726, SOCCLEAD 701

SOCCLEAD 707 30 Points
Programme Evaluation - Level 9

Advanced topics and approaches to programme evaluation. The course will examine high level evaluation specifications, plans and reports to identify methods and options for critical evaluation serving the specialised needs of programme managers, sponsors and publics. Through the lens of real-world issues, politics of innovation and change will be considered in preparing an independent programme evaluation.

SOCCLEAD 708 30 Points
Enacting Social Change - Level 9

Builds on critical knowledge of a range of theoretical and practice approaches to leadership, systems thinking, social innovation and evaluation. Establishes advanced practice understandings of either personal leadership or organisational contexts through an independent structured reflective inquiry grounded in theory.

Corequisite: SOCCLEAD 703 or 706

SOCCLEAD 794A 30 Points
SOCCLEAD 794B 60 Points
Thesis - Level 9
To complete this course students must enrol in SOCCLEAD 794 A and B

SOCCLEAD 795A 60 Points
SOCCLEAD 795B 30 Points
Thesis - Level 9
Restriction: SOCCLEAD 794
To complete this course students must enrol in SOCCLEAD 795 A and B

Social Work

Stage I

SOCWORK 100 30 Points
SOCWORK 100A 15 Points
SOCWORK 100B 15 Points

Ko Wai Au, Ko Wai Koe, Ko Wai Tātou?
Introduces historical and socio-political contexts, beginning with te ao Māori, tikanga Māori, and te Tiriti o Waitangi, that underpin analysis of a range of identities, diversities, aspirations, oppressions and cultures in contemporary Aotearoa. Fosters understanding of how one's cultural location and intersectional experiences can shape values and attitudes, including bias and prejudice, and the impact of 'self' on professional practice.

Restriction: EDPROMF 100, SOCWORK 113
To complete this course students must enrol in SOCWORK 100 A and B, or SOCWORK 100

SOCWORK 101 30 Points
SOCWORK 101A 15 Points
SOCWORK 101B 15 Points

Social Work and Social Justice
The Treaty of Waitangi underpins social work practice in Aotearoa. Social justice and human rights are critically considered alongside an examination of historical and contextual contributors to the development of social work. An introduction to the profession and practice of social work is provided. Relationship building and communication skills are taught within a growing awareness of self.

Restriction: SOCWORK 111, 112, 115
To complete this course students must enrol in SOCWORK 101 A and B, or SOCWORK 101

SOCWORK 102 30 Points
SOCWORK 102A 15 Points
SOCWORK 102B 15 Points

He Tangata: People in Context
Te ao Māori, ecological systems, psychological and lifespan development theories and frameworks are conceptual pillars for introducing human behaviour and experiences across the life course and the complex relationships between individuals and their social environments. Multi-dimensional aspects of human experience, identity and change are explored from a culturally conscientious, equity-oriented perspective.

Restriction: HUMSERV 101, 102
To complete this course students must enrol in SOCWORK 102 A and B, or SOCWORK 102

SOCWORK 111 15 Points
Professional Communication Skills
An introduction into effective personal and professional communication in human services. An experiential and collaborative approach will be used to assist students to explore the place of self in the communication process, to understand the stages, purpose and task of the communication process, and to develop effective interaction.

SOCWORK 180 15 Points
Special Study
Prerequisite: Programme Director approval, and EDPROMF 100 or SOCWORK 113

SOCWORK 181 15 Points
Special Study
Prerequisite: Programme Director approval

SOCWORK 182 15 Points
Special Study
Prerequisite: Programme Director approval

SOCWORK 183 15 Points
Special Study
Prerequisite: Programme Director approval, and HUMSERV 101 or 102
Stage II

SOCWORK 200 30 Points
SOCWORK 200A 15 Points
SOCWORK 200B 15 Points

Ngā Pou for Mana-enhancing Practice
Engages students in developing a framework for social work practice that supports individual, whānau and community aspirations to ora/wellbeing and enhances individual and collective mana. Focusing centrally on whānau-family-aiga systems, and emphasising critical intersectional analyses of the inequitable impact of socio-structural factors on whānau and communities, it builds core social work knowledge and skills applicable across diverse settings and groups.
Prerequisite: SOCWORK 101 and 102, or 111 and 115, or 181 or 182
Restriction: SOCCHFAM 215, SOCHLTH 231
To complete this course students must enrol in SOCWORK 200 A and B, or SOCWORK 200

SOCWORK 201 30 Points
SOCWORK 201A 15 Points
SOCWORK 201B 15 Points

Culturally Responsive Practice
An introduction to the study of the personal and professional impact of te Tiriti o Waitangi in social work practice and social workers’ obligations to bicultural and, more broadly, culturally responsive practice with Māori, Pasifika and other diverse communities. Development of critical understandings of cultural responsiveness and opportunities for experiential learning in community settings.
Prerequisite: SOCWORK 100 and 101, or 30 points from EDPROFM 100, SOCWORK 112, 113, 180
Prerequisite: SOCWORK 100 and 101, or 45 points from EDPROFM 100, SOCWORK 112, 113, 180
Restriction: SOCWORK 212
To complete this course students must enrol in SOCWORK 201 A and B, or SOCWORK 201

SOCWORK 202 30 Points
SOCWORK 202A 15 Points
SOCWORK 202B 15 Points

Law, Policy and Social Action
A critical exploration of the legislative and policy contexts for social work practice in Aotearoa, including the contradictions inherent between te Tiriti o Waitangi and settler capitalism, and tino rangatiratanga and the colonial doctrine of sovereignty. Exploration of social work ethics, and the challenging processes involved in working for change.
Prerequisite: SOCWORK 101 or 112
Restriction: SOCWORK 211, 216
To complete this course students must enrol in SOCWORK 202 A and B, or SOCWORK 202

SOCWORK 221 30 Points
SOCWORK 221A 15 Points
SOCWORK 221B 15 Points

Social Work Theories and Skills
An exploration of theories, models and skills for bicultural social work practice with individuals and whānau in a range of settings and cultural contexts. Informed by the ANZASW Code of Ethics and the SWRB Core Competence Standards, content includes critical engagement with current literature and research guiding assessment and intervention, active skill building, and exploration of personal and professional values.
Prerequisite: SOCWORK 100-102, or 111, 112 and 115
Restriction: SOCWORK 213, 214
To complete this course students must enrol in SOCWORK 221 A and B, or SOCWORK 221

Stage III

SOCWORK 310 15 Points
Special Topic

SOCWORK 311 15 Points
Social Work Process and Practice
Students are required to integrate a defined range of approaches to practice comprising work with individuals, families and small groups. Knowledge, skills, values and ethics associated with direct practice will be extended. Students will apply the social work process of reflection and use of self in preparation for becoming a mindful reflexive practitioner.
Prerequisite: SOCWORK 214 or 221 or 280

SOCWORK 312 15 Points
Applied Social Research
Social workers are reclaiming the research agenda in social work. Sound social work practice relies on evidence to inform theoretical frameworks, intervention decisions and practice evaluation. A practical introduction to the principles, theories and approaches that inform social research, with a particular emphasis on social work contexts.

SOCWORK 315 15 Points
Organisations and Management
Examines the variety of organisational frameworks from which human services are practised and the impact of these contexts on professional identity and practice in the workplace. Contemporary management approaches will be examined with reference to theory and roles and responsibilities assumed by human service managers in a complex and dynamic environment.
Prerequisite: SOCWORK 202 or 30 points from SOCWORK 211, 216, 283

SOCWORK 317 30 Points
Supervised Field Practice and Professional Development 1
A practicum course which focuses on developing a professional identity and a philosophy of practice that is shaped by integrating personal experience and professional knowledge, values and skills gained from the first two years of the Bachelor of Social Work programme. A significant part of this course includes a period of 12 weeks supervised agency-based practical experience for which the student
will be prepared through developing individual learning goals.  
*Prerequisite: EDUCSW199, and SOCW 200-202, or 212, 213 and 214*

**SOCWORK 383**  
**Special Topic**  

**Stage IV**  

**SOCWORK 401**  
**Statutory Social Work**  
An in-depth examination of contemporary issues in social work practice, focusing on evidence-based practice and intervention skills that have direct application to complex practice situations.  
*Prerequisite: SOCWORK 311, 317*  
*Restriction: SOCWORK 711, 712*

**SOCWORK 411**  
**Social Work Interventions for Best Practice**  
An in-depth examination of contemporary issues in social work practice, focusing on evidence-based practice and intervention skills that have direct application to complex practice situations.  
*Prerequisite: SOCWORK 311, 317*  
*Restriction: SOCWORK 711, 712*

**SOCWORK 413**  
**The Social Work Discourse**  
The application of sociological analysis to consideration of the role and characteristics of social work practice. An exploration of the professional discourse is framed and how major social trends impact on that discourse in practice and the public domain.  
*Restriction: SOCWORK 713*

**SOCWORK 414**  
**Research and Evaluation in Social Practice**  
An exploration of relevant social work research literature and approaches to data analysis, and the undertaking of a research project. Develops confidence and skills in the application of practice research principles, problem definition, critical review of relevant literature and analysis of existing qualitative data to inform professional practice in social work and social services.  
*Prerequisite: SOCWORK 312*  
*Restriction: SOCWORK 714, 734, 780*

**SOCWORK 415**  
**Supervised Field Practice and Professional Development 2**  
An advanced practicum course which provides an exposition of the relationship between critical reflection, professional supervision and ethical practice to the knowledge, skills and practice experience of the social work profession. A period of 16 weeks supervised agency-based practical experience is included in this course that builds on participant knowledge and skills.  
*Prerequisite: SOCWORK 317, 411, SOCHLTH 313, 334, SOCCHFAM 392*  
*Restriction: SOCWORK 715*

**SOCWORK 416**  
**Professional Practice Project**  
A student directed project intended to develop a field of proficiency applicable to current or future professional interests. The project will involve research investigation, critical reflection and analysis, evaluation, and the preparation of resources or development of new practice. On completion students will showcase their project in a verbal presentation.  
*Prerequisite: SOCWORK 311, 317*  
*Restriction: SOCWORK 411, 712*

**SOCWORK 426**  
**Practice with Communities**  
An introduction to change-oriented social work practice with communities, with particular emphasis on diverse and indigenous communities and critical analysis of current and historical factors shaping community well-being. Building their own theories of change, students learn models and skills for integrating partnerships with communities into their practice, including engagement, capacity building, community development, organising, activism, and policy advocacy.  
*Prerequisite: Any 60 points passed at Stage III*  
*Restriction: SOCWORK 356, 726*

**SOCWORK 484**  
**Special Topic**

**Postgraduate 700 Level Courses**  

**SOCWORK 700**  
**Clinical Social Work**  
Examines the area of clinical social work practice within the Aotearoa New Zealand context. Content will include a range of theoretical approaches to clinical practice. Theories will include Cognitive Behavioural theory, Narrative theory and Solution-Focused methods. There will be a strong focus on the use of clinical theories when working with Tangata whenua or when working across cultures. Individual, whānau/family, and group work methods will be explored.  
*Prerequisite: SOCCHFAM 332 or 314, SOCWORK 317*  
*Restriction: SOCWORK 701*

**SOCWORK 701**  
**Statutory Social Work**  
An advanced examination of social work practice in statutory settings and theoretical and research-informed intervention frameworks applicable across a range of fields of service. These include family violence, child welfare, youth justice, prisons, and working with vulnerable adults. Critical investigation of questions of context, relationships, power, ethics, human rights and social justice in authoritative settings will be undertaken.  
*Prerequisite: SOCCHFAM 332 or 314, SOCWORK 317*  
*Restriction: SOCWORK 701*

**SOCWORK 702**  
**Social Work with Older People**  
Critically explores advanced research, theories and practice of social work with older people from an ecological systems perspective. Content will examine opportunities and challenges presented as people live longer and develop the contributions of social work and social policy to positive aging strategies. Consideration will be given to the bicultural and diverse contexts of practice in Aotearoa New Zealand.  
*Prerequisite: SOCCHFAM 332 or 314, SOCWORK 317*  
*Restriction: SOCWORK 701*

**SOCWORK 703**  
**Supervised Field Practice and Professional Development 3**  
An advanced practicum course which provides an exposition of the relationship between critical reflection, professional supervision and ethical practice to the knowledge, skills and practice experience of the social work profession. A period of 16 weeks supervised agency-based practical experience is included in this course that builds on participant knowledge and skills.  
*Prerequisite: SOCWORK 317, 411, SOCHLTH 313, 334, SOCCHFAM 392*  
*Restriction: SOCWORK 715*
SOCWORK 712 15 Points
Social Work in Statutory Settings
An advanced examination of fields of practice in statutory social work. Will include areas such as family violence, child welfare, disability, health, mental health, and working with vulnerable adults. A critical investigation of context, relationships, power, ethics, interventions and best practice in these settings will be undertaken.
Prerequisite: SOCWORK 721, 722, 723, 724 and 725
Restriction: SOCWORK 411, 711

SOCWORK 713 15 Points
The Social Work Discourse
A critical analysis of contemporary social work practice, utilising sociological perspectives and contemporary social theory. An in-depth exploration of how the professional discourse of social work is framed and how major social trends impact on that discourse in practice and the public domain.
Restriction: SOCWORK 413

SOCWORK 715 30 Points
Supervised Field Practice and Professional Development
An advanced practicum course which includes a critical interrogation of the relationships between critical reflection, professional supervision and ethics and their application to professional social work practice. This course includes a minimum of 65 days supervised agency-based practical experience, building on the knowledge and skills gained in the first practicum and subsequent coursework.
Prerequisite: SOCWORK 317, 411, SOCHLTH 313, 334, SOCCHFAM 332
Restriction: SOCWORK 415

SOCWORK 718 30 Points
Applied Research in Social Services
Examines the role of applied research within professional practice. An in-depth examination of research methods, traditions and techniques particularly used in analysing, evaluating and auditing social service programmes and practices. Aims to enhance and develop the knowledge and understanding of students with regard to the nature and application of a broad range of research methods, the role of theory, ethics and politics in research and in developing a research proposal.

SOCWORK 719 30 Points
Special Study

SOCWORK 721A 15 Points
SOCWORK 721B 15 Points
Theories and Skills in Social Work Practice
An in-depth examination of theoretical perspectives, skills and approaches in social work practice related to interpersonal work with individuals, families and groups living through challenging situations. Content will include a critical engagement with contemporary literature and the examination of evidence-informed interventions and critically reflective strategies that help guide professional practice in collaborative and safe environments.
To complete this course students must enrol in SOCWORK 721 A and B

SOCWORK 722 30 Points
Developing Social Work Professional Identity
Examines contemporary and historical social work cultural identity, language and discourse as a global profession. Socialisation to the profession and its values is explored through a defined range of practice fields, premised on a human rights and social justice framework. Systemic models of practice are reviewed. Inter-professional practice, professional ethics, anti-oppressive and bicultural practice and registration are analysed in the New Zealand setting.

SOCWORK 723 15 Points
Social Work in the New Zealand Context
Examines the history, policy, law, social patterns, trends and issues that contribute to the working environment for bicultural social work practice in Aotearoa New Zealand. Content will encourage an understanding of the organisational, statutory and community context of social services, professional practice and the reflective social worker operating in settings that can be examined, challenged and changed.

SOCWORK 724 15 Points
Applied Social Work Research Methods - Level 9
Consolidates critical awareness of the role of research and knowledge in a specialised field of social work practice, leading to the development of an independent research proposal. Integrates advanced knowledge and critical reflection in understanding the nature and application of a range of applied research methods and traditions and links to social work practice.

SOCWORK 725 30 Points
Supervised Field Placement I
A first practicum course which focuses on developing a professional identity and a philosophy of practice that is shaped by integrating personal experience and professional knowledge, values and skills. A significant part of this course includes a period of a minimum of 50 days of supervised agency-based practical experience for which the student will be prepared through developing individual learning goals.
Prerequisite: SOCWORK 722, 723
Corequisite: SOCWORK 721, 724

SOCWORK 726 15 Points
Practice with Communities
An advanced consideration of change-oriented social work practice with communities, with particular emphasis on diverse and indigenous communities and critical analysis of current and historical factors shaping community well-being. Building their own theories of change, students learn models and skills for integrating partnerships with communities into their practice, including engagement, capacity building, community development, organising, activism, research and policy advocacy.
Prerequisite: 60 points passed at Stage III
Restriction: SOCWORK 356, 426

SOCWORK 734A 15 Points
SOCWORK 734B 15 Points
Professional Social Work Research in Practice - Level 9
An independent, applied research-based project relating to an aspect of social work practice and undertaken in a practice context. Students will gather and critically analyse authentic data using appropriate research strategies and ethical practice principles, and produce a substantial research report.
Prerequisite: SOCWORK 721-725
Restriction: SOCWORK 414, 714
To complete this course students must enrol in SOCWORK 734 A and B

SOCWORK 735 30 Points
Supervised Field Placement II
An advanced practicum course which includes a critical
interrogation of the relationships between critical reflection, professional supervision and ethics and their application to professional social work practice. Includes a minimum of 70 days supervised agency-based practical experience, building on the knowledge and skills gained in the first practicum and concurrent coursework.

Prerequisite: SOCWORK 721-725

SOCWORK 757 30 Points
Policy Appraisal and Innovation in Human Services
Enables students to assess the construction and performance of policy in fields of social and human service practice. Explores contemporary policy, comparative policy analysis, research-led policy development, programme monitoring and evaluation. Examines practitioner responsibility for policy appraisal to enable practitioners to become conversant with policy innovation and change in professional settings.

SOCWORK 758 30 Points
Special Topic

SOCWORK 759 15 Points
Special Topic

SOCWORK 780 30 Points
SOCWORK 780A 15 Points
SOCWORK 780B 15 Points
Research Project - Level 9
An integrated approach to social work research where students apply specialised practice research principles and data analysis software to existing qualitative and quantitative datasets to engage in problem definition, critical review of relevant literature, research strategies and design, generating data analysis and reporting of research findings to inform professional practice – in social work and social services.

Prerequisite: SOCWORK 312
Restriction: SOCWORK 414, 714, 734
To complete this course students must enrol in SOCWORK 780A and B, or SOCWORK 780

SOCWORK 796A 60 Points
SOCWORK 796B 60 Points
Thesis - Level 9
To complete this course students must enrol in SOCWORK 796 A and B

SOCWORK 797A 45 Points
SOCWORK 797B 45 Points
Research Portfolio - Level 9
To complete this course students must enrol in SOCWORK 797 A and B

Social Work Child and Family Practice

Stage III

SOCCHFAM 332 15 Points
Working with Children and Whanau
An exploration of effective approaches, policies, practices and principles used to engage with children and their whanau within the context of Aotearoa New Zealand. This course will develop the skills and knowledge necessary for working with children and their whanau in community and statutory settings and include consideration of poverty, family violence and child protection.

Prerequisite: SOCCHFAM 215 or SOCWORK 200

SOCCHFAM 382 15 Points
Special Topic

Stage IV

SOCCHFAM 431 15 Points
Child and Adolescent Mental Health Issues
A critical examination of specific diagnoses and disorders of childhood and adolescence that impact on their mental health and wellbeing, with emphasis on the current successful treatments for severely emotionally distressed children and young people within Aotearoa New Zealand.

Restriction: SOCCHFAM 731

SOCCHFAM 482 15 Points
Special Topic

Postgraduate 700 Level Courses

SOCCHFAM 700 30 Points
Domestic Violence: Challenges and Responses
An in-depth examination of the prevalence, consequences, risk and protective factors of domestic violence in Aotearoa New Zealand. Draws on local and international research to explore conceptual models, theories, practice and current research concerns, aimed at prevention and intervention activities at the individual, family/whānau, organisational, community and societal levels.

SOCCHFAM 710 15 Points
Special Topic

SOCCHFAM 731 15 Points
Child and Adolescent Mental Health Issues
An in-depth examination of specific diagnoses and disorders of childhood and adolescence that impact on their mental health and wellbeing, with emphasis on contemporary literature and evidence informed practice with children and young people within Aotearoa New Zealand.

Restriction: SOCCHFAM 431

SOCCHFAM 734 30 Points
Issues in Child Welfare and Protection
Explores the critical issues in child welfare and protection encountered by education, health and human services workers. The historical, social and conceptual basis for an understanding of child abuse and neglect is considered. Explores research-led strategies to address personal, professional, and societal responses to the needs of vulnerable children.

SOCCHFAM 735 15 Points
Intimate Partner Violence
An in-depth examination of the prevalence, consequences, risk and protective factors pertaining to intimate partner violence (IPV) in Aotearoa New Zealand. Draws on local and international research to explore conceptual models, theories, practice and current research concerns, aimed at prevention and intervention activities at the individual, family/whanau, organisational, community and societal levels.

Restriction: SOCCHFAM 700

**Mental Health in Social Practice**

An exploration of the dynamics of social practice with service users and their whānau/family with mental health issues. This course includes an examination of mental health policy and broad approaches to care and recovery. An overview of the major mental health illnesses and associated recovery strategies will be provided. The impact of mental health issues on Māori, Pasifika, people with disabilities, young people and refugee and migrant communities will be examined.

*Prerequisite:* SOCHLTH 231

**Effective Social Work in Health and Disability Services**

Explores the role of social work with people who have disabilities or experience disabling conditions through accident, illness and aging. Examines policy and strategies of support for recovery and rehabilitation. Develops skills to address the psychosocial impact of physical loss and change with individuals, carers and families.

*Prerequisite:* SOCHLTH 231 or SOCWORK 200

**Sport in Society**

Critically examines the socio-cultural, political and economic significance of sport within Aotearoa New Zealand. Examines how sport is embedded in the lives of people, constitutes identities, and is connected to major spheres of social life and various social issues. Through focusing on select sporting issues it analyses how New Zealanders negotiate understandings of self, ethnicity, gender, sexualities, health, and lifestyle.

*Restriction:* EDUC 104G
and recreation activities. Examines differential community provision and develops skills to liaise with and engage diverse participants using psychological and sociological theories. Considers emerging trends in the field. Students will participate in community mapping to identify existing and potential sport and recreation opportunities in diverse communities.

Stage II

SPORT 202 15 Points
Sport and Recreation
Explores sport, recreation, and physical activity environments and cultures in Aotearoa New Zealand, including organised and alternative sport. Examines how children, youth and adults engage with sport and physical culture. Explores issues of access, policy and leadership in the field and investigates how different concepts influence understandings of, and engagement with, sport and physical culture.

Prerequisite: Students are required to consent to the disclosure of criminal convictions and safety checks as required by the Children’s Act 2014

Restriction: EDCURRIC 237

SPORT 204 15 Points
Coaching Sport
Examines and applies effective coaching practices, including coaching principles and the nature of practice. Focuses on developmentally and culturally appropriate coaching contexts throughout the lifespan (including childhood, adolescence and adulthood). Attention is given to coaching for diverse players and inclusive practices. Applies player-centred coaching principles.

Prerequisite: SPORT 203, 202

Restriction: EDCURRIC 237

Stage III

SPORT 302 15 Points
Sport Leadership
Develops the knowledge and skills for leading people and organisations in sporting contexts. Involves the study of leadership theories and styles from a range of different cultures. Includes critical examination of contemporary leadership strategies, issues, politics and policy. Develops interpersonal skills and leadership philosophies.

Prerequisite: SPORT 203, 202

SPORT 303 15 Points
Managing Sport and Recreation
Critically examines the societal value and management of sport and recreation events at local, regional, national and international levels. Investigates aspects such as feasibility, community needs, site selection, scheduling, risk and volunteer management, logistics, publicity, marketing and evaluation. Emphasis is given to practice in applied settings.

Prerequisite: 30 points from SPORT 202, 203, 204, SPORTHPE 201, 202, 203

SPORT 304 15 Points
Sport Psychology and Coaching
Critically examines recognised principles and practices of coaching and managing sport teams, including contemporary knowledge and theories. Individual and team psychological and social practices are examined and critiqued. Explores how coaches analyse the playing environment and the needs of players, including life-sport balance.

Prerequisite: 30 points from SPORT 202, 203, 204, SPORTHPE 201, 202, 203

Restriction: EDCURRIC 239

SPORT 305 15 Points
Sport Media and Marketing
Explores the roles and consequences of media representations of sport and physicality. Develops knowledge of the discourses that influence how sport, the body, and health are understood. Develops skills in marketing communications used to promote sport and physical wellbeing. Investigates issues emerging from the use of social media by sporting organisations, groups and individuals.

Restriction: COMMS 303, SPORT 203

Sport, Health and Physical Education

Stage I

SPORTHPE 101 15 Points
Sociocultural Foundations
Explores the sociological, historical, psychological and philosophical foundations of health, sport and movement cultures. Examines how health and human movement are culturally and socially conceptualised with regard to contemporary concerns and trends. Includes studies of different cultural (Pākehā, Māori, Pacific, Asian) concepts of, and engagement with, health, sport and physical culture.

Restriction: EDCURRIC 135, EDUC 142

SPORTHPE 102 15 Points
Learning and Pedagogy
An introduction to how humans learn and how such learning is applied within the fields of health, physical education, and sport. Examines the way humans develop and apply knowledge, skills, and dispositions and their implications for pedagogical practices in health, physical education, and sport contexts.

SPORTHPE 103 15 Points
Biophysical Foundations
Introduces students to the anatomical, physiological and biomechanical foundations of human movement. Examines the functions of the musculo-skeletal system, the circulatory system and the nervous system, during rest and activity. Studies the biomechanical principles required to improve mechanical efficiency in human movement.

Restriction: EDCURRIC 133

SPORTHPE 104 15 Points
Biophysical Foundations of Human Movement
Introduces students to the biophysical foundations of human movement. Examines the role of the neuro-muscular and musculo-skeletal systems in movement. Examines knowledge of internal and external mechanics and how this is applied to understand human movement.

Stage II

SPORTHPE 201 15 Points
Whakatinanahia
Examines Māori approaches to embodiment, forms of physicality and movement valuable for educational and health settings in Aotearoa New Zealand. Students will gain
knowledge through engaging in forms of Māori physical culture in a range of contexts.

**Prerequisite:** EDUCSW 101 or EDPROFM 100

**SPORTHPE 202**  
**Skill Learning**  

**Prerequisite:** SPORTHPE 102  
**Restriction:** EDCURRIC 200

**SPORTHPE 203**  
**Physiology, Exercise, Fitness**  
Develops knowledge and understanding of exercise physiology. Examines physiological responses during and as a result of exercise. Examines the nature and purpose of deliberate exercise and fitness programmes. Explores the pedagogy of teaching exercise and fitness.

**Prerequisite:** SPORTHPE 103  
**Restriction:** EDCURRIC 200, 334

**Stage III**

**SPORTHPE 301**  
**School Health and Physical Education**  
Examines health education and physical education in primary and secondary school contexts. Develops knowledge of pedagogy, curriculum, and programming. Critically examines how contemporary issues in the fields of health, sport and physical education impact schools.

**SPORTHPE 303**  
**Health, Fitness and Culture**  
Critically examines the nature of incidental and deliberate exercise, lifestyle choices, and concepts of health. Critiques the veracity of evidence linking physical activity and health. Critically explores contemporary health issues associated with sedentary lifestyles, and the impact of twenty-first century lifestyle changes including globalisation and digitalisation. Examines how education can contribute to the diverse exercise and health needs of society.

**Prerequisite:** SPORTHPE 203  
**Restriction:** EDCURRIC 334

**Tertiary Foundation Certificate Māori**

**Foundation Courses**

**TFCMAORI 10F**  
**Te Pū**  
Introduction to functional and instructional Māori including everyday vocabulary, basic sentence structures, pronouns, possessives and positional language. Aspects of tikanga will include meeting and greeting people with waiata, karakia and hīmene, and values such as whānau, whakawhanaungatanga and aroha. Referring to their own hapū/iwi students will introduce and locate themselves in relation to their whakapapa and carry out a short mihi.

**Prerequisite:** EDFOUND 10F

**Stage Work**

**Stage I**

**YOUTHWRK 152**  
**Understanding New Zealand Youth**  
Examines the concept of 'youth' and the historical, economic and political contexts in which young people live and are schooled in New Zealand society. The concept of youth is explored as a fundamental aspect of human development, identity and culture. The ways that we learn about what it is to be a young person in New Zealand today, including sport, body image, media, music, technology and social networking will be explored.

**Stage II**

**YOUTHWRK 281**  
**Special Topic**

**Stage III**

**YOUTHWRK 381**  
**Special Topic**

**Tertiary Foundation Certificate Education**

**Foundation Courses**

**TFCEDUC 13F**  
**Child Development and Learning**  
Presents an overview of language and learning development, and examines strategies for helping children to develop as learners and readers.

**Restriction:** EDFOUND 13F

**TFCEDUC 14F**  
**An Introduction to the New Zealand Education System**  
Introduces students to the education system of New Zealand. Illustrates the historical development of the New Zealand education system, and addresses issues such as changes to governance and curriculum and ethnic diversity in New Zealand schools.

**Restriction:** EDFOUND 14F

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Aerospace Engineering

Postgraduate 700 Level Courses

AEROSPCE 720 15 Points
Space Dynamics and Missions
Classical orbital mechanics and dynamics of spacecraft. Application of this knowledge in mission design for achieving pre-specified objectives and adequate spacecraft pointing. Examples of past missions.

AEROSPCE 730 15 Points
Aerospace Systems Design
Systems engineering for aerospace systems including current practice and standard methods. Conceptual and detailed design of interfaces and subsystems for aerospace projects, including aircraft and spacecraft. Advanced computer-aided tools are used to complete team projects. Includes an overview of indigenous perspectives of space and aerospace based on Mātauranga Māori as a case study.

AEROSPCE 740 15 Points
Aerospace Structures and Mechanisms
Overview of the main issues to be addressed during the structural design process of aircraft and spacecraft, including space mechanisms. Includes requirements definition, analysis processes, materials selection, manufacturing, and typical aircraft and spacecraft configurations.

AEROSPCE 791 45 Points
AEROSPCE 791A 15 Points
AEROSPCE 791B 30 Points
Research Project (Aerospace Engineering) - Level 9
Prerequisite: Departmental approval
To complete this course students must enrol in AEROSPCE 791 A and B, or AEROSPCE 791

AEROSPCE 792A 45 Points
AEROSPCE 792B 45 Points
Thesis (Aerospace Engineering) - Level 9
Prerequisite: Departmental approval
To complete this course students must enrol in AEROSPCE 792 A and B

AEROSPCE 793A 30 Points
AEROSPCE 793B 60 Points
Thesis (Aerospace Engineering) - Level 9
Prerequisite: Departmental approval
To complete this course students must enrol in AEROSPCE 793 A and B

Bioengineering

Postgraduate 700 Level Courses

BIOENG 796A 60 Points
BIOENG 796B 60 Points
ME Thesis (Bioengineering) - Level 9
Students are required to submit a thesis on a topic assigned by the Director of Bioengineering.
To complete this course students must enrol in BIOENG 796 A and B

Biomedical Engineering

Stage II

BIOMENG 221 15 Points
Mechanics of Engineered and Biological Materials
Introduction to the laws of conservation of mass, linear momentum, angular momentum and energy and their application to engineering problems. Topics include control volume analysis, fluid statics, Bernoulli’s equation, heat conduction, diffusion, linear elasticity, stresses and strains specific to direct and torsional loading, material constitutive relationships (including anisotropy, nonlinearity, and viscoelasticity), axial and transverse loading, and pressure loading of engineering structures and biomaterials.
Prerequisite: ENNGEN 150, or ENGSCI 111, or a B+ or higher in MATHS 108 or 110, or a B+ or higher in MATHS 120 and 130

BIOMENG 241 15 Points
Instrumentation and Design
An introduction to engineering instrumentation related to the measurement of biological signals, including a group project on the design methodology of instrumentation systems. Topics include: fundamentals of measurement systems (electric circuits, basic electronics, frequency domain signal analysis and transient analysis, measurement systems), engineering design (teamwork, communication, safety in design and professional responsibility, software tools, material and manufacturing process selection).
Prerequisite: ELECTENG 101

BIOMENG 261 15 Points
Tissue and Biomolecular Engineering
Overview of molecular and tissue engineering principles emphasising biochemical kinetics, gene regulation, cell behaviour and biomedical ethics. Laboratory practice and design project in cell culture and molecular biology techniques. Topics include enzymes and regulation of metabolic pathways, thermodynamic principles of biochemical reactions, systems biology and regulatory motifs in biochemical networks, cell culture techniques, research and medical ethics.
Prerequisite: BIOSCI 107, ENGSCI 211
Restriction: BIOMENG 361

BIOMENG 299 0 Points
Workshop Practice
Restriction: ENNGEN 299

Stage III

BIOMENG 321 15 Points
Continuum Modelling in Bioengineering
An introduction to continuum modelling approaches to bioengineering problems across a range of spatial scales. Topics include: tensor analysis, molecular and cellular mechanics of striated muscle; finite deformation elasticity
and constitutive relations for soft biological materials; conservation equations for momentum, mass and heat transfer in fluids; viscous flow; boundary layers; pure conduction and diffusion; advective transport of mass and heat.

Prerequisite: BIOMENG 221, ENGSCI 211
Restriction: ENGSCI 343

CHEMMAT 121 Materials Science
Introduction to materials science starting with the fundamentals of atomic structure and bonding and how this builds up a microstructure to create a solid. Metals, polymers, ceramics, electronic materials, composite and biomaterials will be covered and the properties, advantages and disadvantages of each discussed. Considerations such as corrosion, degradation and failure will be studied with a focus on improving design and creating new materials for our future world.

Stage I

CHEMMAT 201 Process Engineering 1: Introduction
Materials and energy balances with and without chemical reaction, materials and energy balances in multiphase systems such as crystallisation, evaporation, drying, humidification, dehumidification, absorption, distillation, extraction and filtration. An introduction to the most important unit operations in the chemical industry, design concept and safety as applied to processing.

Prerequisite: CHEM 110 or 120 or ENNGEN 140
Restriction: CHEMMAT 211

CHEMMAT 202 Process Engineering 2: Energy and Processing
Introduction to thermodynamics for process engineering. The first and second laws of thermodynamics. Application of thermodynamic concepts in closed systems, flow processes and cycles, refrigeration and liquefaction. Classical chemical thermodynamics including concepts of chemical potential, fugacity and activities; their applications to vapour-liquid equilibria and reacting systems. Multi-component physical equilibria. Multiple reaction equilibria and system-free energy minimisation. Practical examples and applications.

Restriction: CHEMMAT 212

CHEMMAT 203 Process Engineering 3: Transfer Processes

Restriction: CHEMMAT 213

CHEMMAT 204 Process Engineering 4: Heat and Mass Transfer

Restriction: CHEMMAT 221

Postgraduate 700 Level Courses

BIOMENG 771 Musculoskeletal and Orthopaedic Biomechanics
Topics that biomechanical and orthopaedic engineers use in research and industry. Includes guest lectures from practitioners. Orthopaedic engineering topics cover implant design, material choice, implant stress shielding and bone loss, implant wear and bone remodelling. Musculoskeletal biomechanics topics cover motion capture, inverse kinematics and dynamics, muscle force evaluation, electromyography (EMG), inertial sensors and applications in sports medicine and rehabilitation.

Prerequisite: 15 points from ENGSCI 311, 313, 314

BIOMENG 791 Advanced Biomedical Engineering Design
An engineering project requiring the application and integration of material taught in technical and professional engineering courses to the design of medical devices and software to meet client needs. The project also requires consideration of ethical issues, social impact, safety in design, and international regulations.

Prerequisite: BIOMENG 341

BIOMENG 792 Special Topic

BIOMENG 793 Special Topic

BIOMENG 794 Special Topic

Chemical and Materials Engineering

Stage I

CHEMMAT 100G Materials of the Modern World
Every aspect of daily living is influenced in some way by the materials that surround us. Ceramics, metals, polymers, and composites; each has its own properties which have, over time, influenced the development of modern technological societies. Take a moment to imagine a world without metal, for example, to see how central the science of materials is to everyday life. This course will explore, at a non-specialist level, the basic principles governing the properties and behaviour of a wide variety of common materials and examine their applications and limitations.

Prerequisite: CHEMMAT 121
Restriction: CHEMMAT 221
CHEMMAT 205  
**Process Design 1**  
15 Points  
Mechanics of solids and analysis of stress and strain. Introduction to materials selection. Design of thin walled pressure vessels. Application to the design of vessels, tanks, reactors, piping and heat transfer equipment. Introduction to the chemical industry, unit operations, line diagrams and process equipment. Report writing and oral communication skills.  
Prerequisite: ENGGEN 121 or equivalent  
Restriction: CHEMMAT 231, 232

CHEMMAT 206  
**Applied Chemistry**  
15 Points  
Fundamental chemistry required for chemical engineering and materials engineering. Topics may include phase equilibrium, reaction kinetics, thermodynamics, surface chemistry, electrochemistry and polymer chemistry. This course will have an emphasis on problem definition and solution.  
Prerequisite: 15 points from ENGGEN 140, CHEM 110, 120  
Restriction: CHEMMAT 242

CHEMMAT 299  
**Workshop Practice**  
0 Points  
Restriction: ENGGEN 299

**Stage III**

CHEMMAT 301  
**Transfer Processes 2**  
15 Points  
Principles of continuous and staged processes. Mass transfer in various media, systems and phases. Interrelating equipment design to mass transfer processes. Studies of selected separation processes such as absorption, solvent extraction, distillation, and membrane processes.  
Prerequisite: CHEMMAT 203 or 213, and CHEMMAT 242 or 206  
Restriction: CHEMMAT 312

CHEMMAT 302  
**Advanced Process Engineering**  
15 Points  
An in-depth analysis of selected topics that influence the design, operation, and performance of process plants. Topics include: particulate technology, particle mechanics and particle motions, non-Newtonian fluid flow, two-phase solid-liquid and gas-liquid flow, computational fluid dynamics, flow through porous media and packed beds, filtration, centrifugation, fluidisation, variable-analysis of variations in materials and product processing, membrane separation methods and optimisation techniques.  
Prerequisite: CHEMMAT 203 or 213  
Restriction: CHEMMAT 313, 316, 411

CHEMMAT 303  
**Chemical Reactor Engineering**  
15 Points  
Prerequisite: CHEMMAT 202 and 206, or CHEMMAT 212 and 242  
Restriction: CHEMMAT 315

CHEMMAT 304  
**The Future of Energy**  
15 Points  
Discussion of topical and significant developments in the field of energy transformation, usage and storage in the context of climate change, both globally and in New Zealand. Topics include: energy efficiency, energy storage and applications, sustainability, non-renewable and renewable power generation.  
Prerequisite: CHEMMAT 201 or 211  
Restriction: CHEMMAT 317

CHEMMAT 305  
**Materials Processing and Performance**  
15 Points  
Materials processing and performance are critical components of a materials science and engineering degree. This course examines the processing and performance of metals, polymers and ceramics. Topics include metal-making, casting, forming, and forms of degradation, such as corrosion. Emphasis is placed on materials applications for process engineering.  
Prerequisite: CHEMMAT 204 or 221  
Restriction: CHEMMAT 321, 322, 421

CHEMMAT 306  
**Process Design 2**  
15 Points  
Prerequisite: CHEMMAT 201 or 211, and CHEMMAT 205 or 232  
Restriction: CHEMMAT 331, 756

**Postgraduate 700 Level Courses**

CHEMMAT 712  
**Directed Study in Chemical Engineering**  
15 Points

CHEMMAT 713  
**Advanced Chemical Engineering - Level 9**  
15 Points  
An independent study in advanced topics, current issues, new trends and developing technologies relevant to the field of chemical engineering, for example energy and environment, alternative fuels, process modeling and control. Topics are informed and supervised by leading researchers in the field and students develop critical assessment, report writing and oral communication skills through independent projects and seminars.

CHEMMAT 717  
**Electrochemical Engineering**  
15 Points  
The thermodynamics of aluminium electrolysis; heat and mass balance; components of the cell voltage; anode effect and its mitigation, resistance and voltage tracking; cell magnetics and magnetic modelling.  
Corequisite: CHEMMAT 718, 726, 727

CHEMMAT 718  
**Aluminium Reduction Process Operations**  
15 Points  
Monitoring overall aluminium cell performance – what are the appropriate parameters to measure, how are they measured and how are they used for process control? Optimising cell performance, scheduling of operations, dealing with process excursions, metal treatment and quality. Novel cell designs.  
Corequisite: CHEMMAT 717, 726, 727

CHEMMAT 720  
**Materials Design and Processing**  
15 Points  
Materials processing of metals, ceramics and polymers. Phase transformation. Microstructural development during
materials processing. Case studies of materials selection in product design.

CHEMMAT 721  
Advanced Materials - Level 9  
An advanced course with emphasis on new developments in materials science and engineering and their impact on technology and society, for example surface engineering, nanomaterials and composites, alloy development, high performance ceramics, powder processing, biomaterials. Students develop critical assessment, report writing and oral communication skills through independent projects and seminars.

CHEMMAT 722  
Directed Study in Materials  
Directed study in materials science and engineering.

CHEMMAT 723  
Industrial Materials Engineering  
Exploration of materials in an industrial context, including industrial metals and alloys, high temperature corrosion, surface engineering, welding, powder metallurgy and additive manufacturing.  
Restriction: CHEMMAT 754

CHEMMAT 724  
Advanced Materials Characterisation - Level 9  
The underlying theory essential to understanding modern methods of advanced materials analysis including; electron microscopy, surface analysis, atomic force microscopy and nanoindentation. Teaching is highly research informed with examples drawn from the Research Centre for Surface and Materials Science (RCSMS) and involves principles, practical experience and independent project work related to the application of these techniques.  
Prerequisite: CHEMMAT 305 or 322

CHEMMAT 725  
Advanced Functional Materials  
Restriction: CHEMMAT 755

CHEMMAT 726  
The Light Metals Industry  
An overview of the light metals, Ti, Al and Mg, their chemistry, metallurgy and processing. It also deals with trends in the global light metals production and uses and recent advances in extending applications for these materials; economics of feedstock and materials selection and availability; power supply and management; efficient use of equipment and resources; and environmental issues.  
Corequisite: CHEMMAT 717, 718, 727

CHEMMAT 727  
Materials Performance and Selection for Light Metals Processing  
Performance requirements of anodes, cathodes, cell refractories and other aluminium cell construction materials are assessed. Techniques for monitoring materials performance in operation and post operation (autopsies) are discussed. This course also covers materials specifications, how well they predict performance in the aluminium cell as well as the relationship between the fabrication of the cell components and their performance. New materials.  
Corequisite: CHEMMAT 717, 718, 726

CHEMMAT 732  
CHEMMAT 732A  
CHEMMAT 732B  
Advanced Design Project - Level 9  
An advanced design project utilising the application of the specialised knowledge required for the design and manufacture of a sophisticated product based on multiple plastics materials. Detailed considerations will include material and process selection, mould design, costing and economics, and environmental impact.  
To complete this course students must enrol in CHEMMAT 732 A and B, or CHEMMAT 732

CHEMMAT 750A  
CHEMMAT 750B  
Design Project  
Specification, planning and executing a specific process design project. The detailed considerations in the project to include environmental impact, safety and occupational health issues, material selection, process energy demand and efficiency, costing and economics, process start-up and operation.  
Prerequisite: CHEMMAT 306 or 331  
Restriction: CHEMMAT 431, 432  
To complete this course students must enrol in CHEMMAT 750 A and B

CHEMMAT 751A  
CHEMMAT 751B  
Research Project - Level 9  
Students are required to submit a report on independent investigation carried out on a topic assigned by the Head of Department of Chemical and Materials Engineering. The work shall be supervised by a member of staff.  
Restriction: CHEMMAT 441, 442  
To complete this course students must enrol in CHEMMAT 751 A and B

CHEMMAT 752  
Process Dynamics and Control - Level 9  
Application of simulation for understanding industry 4.0 focusing on digital twin and process control. Includes rigorous treatment of modelling and control fundamentals, advanced classical control and multiple loop control. Individual research is undertaken to apply advanced concepts and methods in modern chemical processes.  
Prerequisite: ENGSCI 211  
Restriction: CHEMMAT 311, 411, 412

CHEMMAT 753  
Biological Materials and Biomaterials - Level 9  
Fundamentals of biological materials from small-scale building blocks (genes, proteins) to large-scale biological entities (organs, joints). Biomaterial design, material selection and functionalisation and the interaction between biomaterials and the biological tissue. Critique and review recent research on selected topics. Individual and team research projects apply advanced concepts and methods to design and implement a scaffold or implant prototype.  
Prerequisite: BIOMENG 221, or CHEMMAT 204 and 205, or CHEMMAT 221 and 232  
Restriction: CHEMMAT 422

CHEMMAT 754  
Materials Performance Enhancement - Level 9  
Materials under extreme service conditions - surface engineering, high-temperature corrosion/oxidation. Nanomaterials and nanotechnology – special properties, synthesis and processing techniques, applications in
sensing, catalysis and biomedical areas. Advanced manufacturing technology – additive manufacturing, powder metallurgy, and sustainable/green manufacturing. Selected advanced concepts in materials performance enhancement are taught through research based individual projects. 
Prerequisite: CHEMMAT 121, and 305 or 322 or equivalent 
Restriction: CHEMMAT 423

**CHEMMAT 755 15 Points**
**Materials for Energy and Environmental Applications - Level 9**
Electronic properties of materials. Applications in energy storage. Smart materials and devices – magnetic and dielectric materials, sensors and actuators, recording devices. Materials for environmental applications – photocatalysis and environmental cleaning, membrane materials, and eco-materials. Core concepts related to energy and environmental applications are extended by individual research projects on selected topics. 
Prerequisite: CHEMMAT 121, and 305 or 322 or equivalent 
Restriction: CHEMMAT 424

**CHEMMAT 756 15 Points**
**Food Process Engineering**
Application of engineering principles to food processing. Topics include: heating and thermal processing, cooling, freezing and thawing, evaporation, dehydration, the use of membranes and packaging. Innovative food processes: high pressure, pulsed electric, UV, ultrasounds and ohmic heating/cooking, and fundamental areas of engineering relevant for food processing such as heat and mass transfer. Process impact on food safety, quality and preservation. 
Prerequisite: CHEMMAT 201 or 211, and 15 points from ENGGENG 150, ENGSCI 111, MATHS 108, 110 
Restriction: CHEMMAT 463, 772

**CHEMMAT 757 15 Points**
**Engineering Biotechnology**
Principles of biochemical engineering. Exploitation of bioreaction and bioprocess systems. Enzyme and microbial reaction kinetics, bioreactor design and downstream processing. Examples of biochemical process and food industry applications. 
Prerequisite: ENGSCI 111 or MATHS 108 or equivalent 
Restriction: CHEMMAT 361, 464, FOODSCI 704

**CHEMMAT 758 15 Points**
**Resource Recovery Technologies - Level 9**
Selection and application of resource recovery processes. Examination of a variety of resource recovery technologies. Critical evaluations of the latest research and development in innovative resource recovery techniques. Social and economic aspects as catalysts or obstacles to resource recovery. Includes an independent research project. 

**CHEMMAT 759 15 Points**
**Industry 4.0 for Chemical Engineering**
In-depth coverage of digitalisation and Industry 4.0 in the context of modern biological, chemical, food and materials processing industries. Topics include model building, digital models and digital twins using process simulators, scripting, open source software and data-driven analysis using machine learning concepts, and the application of these to modelling a virtual plant. 
Prerequisite: ENGSCI 311

**CHEMMAT 760 15 Points**
**Advanced Microbial Technology in Bioprocess Engineering**

**CHEMMAT 761 15 Points**
**Special Topic**

**CHEMMAT 762 15 Points**
**Special Topic**

**CHEMMAT 763 15 Points**
**Waste Reduction and Recycling Technologies**
Principles, concepts, and technologies in waste minimisation and recycling. Topics include implementation of waste management and recycling technologies, economic analysis of waste recycling and minimisation and the three pillars of sustainability.

**CHEMMAT 771 15 Points**
**Advanced Food Process Technology - Level 9**
Advanced knowledge essential for the application of food process technology. Topics include advanced food processing technology in specific food sectors strategic to New Zealand including dairy processing, meat processing, fruit and vegetable processing, seafood processing, wine processing. Teaching is highly research informed and involves principles, practice and independent project work related to the application of these skills.

**CHEMMAT 772 15 Points**
**Advanced Food Process Engineering - Level 9**
Critical evaluation of the latest research and development in innovative thermal and non-thermal food processing technology. Open-ended application of these latest developments to different specific end-point food processing requirements. Teaching is highly research informed with examples from the Industrial Information and Control Centre (I2C2) and includes an independent laboratory based project.

**CHEMMAT 773 15 Points**
**Food Process Systems Engineering - Level 9**
Advanced understanding of the theory and application of process systems engineering for the food industry. Includes advanced process analytical technology, real-time quality control, multivariate data analysis, advanced statistical process control, advanced control methods and strategies, and real-time optimisation. Teaching is highly research informed with examples from the Industrial Information and Control Centre (I2C2) and includes an independent laboratory based project.

**CHEMMAT 774A 15 Points**
**CHEMMAT 774B 45 Points**
**Dissertation in Food Process Engineering - Level 9**
A structured supervised research project addressing a topic relevant to the development and commercialisation of food process engineering technologies. 
Restriction: CHEMMAT 775, 776, 777 
To complete this course students must enrol in CHEMMAT 774 A and B
CHEMMAT 775A 30 Points  
CHEMMAT 775B 30 Points  
Dissertation in Food Process Engineering - Level 9
A structured supervised research project addressing a topic relevant to the development and commercialisation of food process engineering technologies.  
Restriction: CHEMMAT 774, 776, 777  
To complete this course students must enrol in CHEMMAT 775 A and B  
CHEMMAT 776A 30 Points  
CHEMMAT 776B 60 Points  
Research Portfolio - Level 9
A structured supervised research portfolio addressing a topic relevant to the development and commercialisation of process engineering technologies.  
Restriction: CHEMMAT 774, 775, 777  
To complete this course students must enrol in CHEMMAT 776 A and B  
CHEMMAT 777A 45 Points  
CHEMMAT 777B 45 Points  
Research Portfolio - Level 9
A structured supervised research portfolio addressing a topic relevant to the development and commercialisation of process engineering technologies.  
Restriction: CHEMMAT 774, 775, 776  
To complete this course students must enrol in CHEMMAT 777 A and B  
CHEMMAT 778 15 Points  
Dairy Process Engineering - Level 9
Industry-focused advanced topics in post-farm-gate processing of milk including liquid milk, powdered dairy and fermented products. Waste and high value product recovery from milk processing. Trends in global dairy industry including new development in food physics and chemistry, new products and processes, design and production of novel foods. Includes individual project-based work, laboratory work and completion of a group-based project. Includes independent research to create unique innovative solutions to an open-ended problem.  
CHEMMAT 779A 15 Points  
CHEMMAT 779B 15 Points  
Food Engineering Research Project - Level 9
A structured supervised research project addressing a topic relevant to the development and commercialisation of food process engineering technologies.  
Restriction: CHEMMAT 774, 775, 776, 777  
To complete this course students must enrol in CHEMMAT 779 A and B  
CHEMMAT 780 30 Points  
CHEMMAT 780A 15 Points  
CHEMMAT 780B 15 Points  
Research Project - Level 9
To complete this course students must enrol in CHEMMAT 780 A and B, or CHEMMAT 780  
CHEMMAT 787 15 Points  
Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval

CHEMMAT 788A 15 Points  
CHEMMAT 788B 15 Points  
Project Y - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
To complete this course students must enrol in CHEMMAT 788 A and B  
CHEMMAT 789 30 Points  
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
CHEMMAT 795 45 Points  
CHEMMAT 795A 15 Points  
CHEMMAT 795B 30 Points  
Research Project - Level 9
Students are required to submit a report on a topic relevant to the specialisation, as assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
To complete this course students must enrol in CHEMMAT 795 A and B, or CHEMMAT 795  
CHEMMAT 796A 60 Points  
CHEMMAT 796B 60 Points  
ME Thesis (Chemical and Materials) - Level 9
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
To complete this course students must enrol in CHEMMAT 796 A and B

Civil Engineering

Stage II

CIVIL 200 15 Points  
Introduction to Geotechnical Engineering
The basic concepts and principles governing the mechanical behaviour of soil. Engineering geology, site investigation and soil classification. The principle of effective stress, permeability and seepage, and soil shear strength.  
Restriction: CIVIL 220, 221

CIVIL 201 10 Points  
Land Information Systems
Aspects of elementary engineering surveying as used for gathering site information for the design and setting out of works. Land information systems, modern methods of gathering, processing and presenting information for engineering purposes.

CIVIL 202 15 Points  
Fluid Mechanics and Pipe Flow
Approaches to fluids: classification, dimensional analysis and similarity, integral and differential flow analysis; fluid properties; hydrostatics: pressure distribution in fluids, manometry, forces on plane and curved surfaces; conservation of mass; conservation of energy: Bernoulli equation, energy losses and gains, laminar and turbulent pipe friction losses, local losses, pipes in series and parallel, pipe networks, pumps, cavitation; conservation of momentum: Newton’s Second Law, dynamic forces, fluid transients, Joukowsky equation.  
Restriction: CIVIL 230, 331
CIVIL 203  
Transport Design and Geomatics  
Introduction to Transportation Engineering (mobility for people and goods, sea, land and air transportation systems). Design and construction of longitudinal infrastructure (plans, longitudinal sections and cross sections, earthworks, quantities, mass haul). Transport geometric design (horizontal, vertical and cross sectional design). Geomatic surveying systems (levelling, theodolites, GPS, drones, digital topographical survey systems and remote sensing).  
Restriction: CIVIL 201, 360

CIVIL 210  
Introduction to Structures  
Structural forms and systems. Analysis of determinate systems, elasticity. Engineering beam theory, elasticity, failure theories. Introduction to structural design.  
Prerequisite: ENGGEN 121 or 150  
Restriction: ENVENG 210

CIVIL 211  
Structures and Design 1  
Introduction to structural design – philosophy, loads, codes; design of simple structural elements in various materials.

CIVIL 220  
Introductory Engineering Geology  

CIVIL 221  
Geomechanics 1  
The basic concepts and principles governing the mechanical behaviour of soil, including phase relationships, permeability and seepage, the principle of effective stress, soil strength, compressibility and basic stability analysis.

CIVIL 230  
Fluid Mechanics 1  

CIVIL 250  
Civil Engineering Materials and Design  

CIVIL 270  
Directed Study

CIVIL 271  
Directed Study

CIVIL 299  
Workshop Practice  
Restriction: ENGGEN 299

Stage III

CIVIL 300  
Geotechnical Engineering  
Compaction, settlement and rate of consolidation. Stability analysis in geotechnical engineering, including slope stability, earth pressures on retaining structures and bearing capacity of shallow foundations. Environmental and sustainability considerations.  
Prerequisite: CIVIL 200  
Restriction: CIVIL 322

CIVIL 301  
Foundation Engineering  
Prerequisite: CIVIL 300, and STRCTENG 300 or 301 or 304  
Restriction: CIVIL 721

CIVIL 302  
Hydrology and Open Channel Flow  
Prerequisite: CIVIL 202  
Restriction: CIVIL 331, ENVENG 333

CIVIL 303  
Transport Operations and Pavements  
Traffic engineering, transportation planning and road pavement design. Topics include the main transport planning and traffic design techniques, criteria and fundamentals used in transportation engineering practice, traffic studies, public transport and active modes and transport modelling (micro and macro simulation). Additionally, pavement design, surfacings, traffic loading, mechanistic approaches and rehabilitation of road pavements, and environmental and sustainability considerations, are included.  
Prerequisite: CIVIL 203  
Restriction: CIVIL 360, 361

CIVIL 304  
Climate Adaptation Design  
Fundamental understanding of the impact of climate change on the built environment and strategies, and design for adaptation. Topic areas include assessing climate change impacts, vulnerability studies, and climate change adaptation strategies, adaptation design and asset management for major infrastructure and infrastructure networks. Awareness and consideration of holistic adaptation strategies including indigenous knowledge perspectives and nature-based solutions.  
Prerequisite: CIVIL 200, 203, ENVENG 200  
Corequisite: CIVIL 303

CIVIL 305  
Construction Informatics  
The application of digital and automation technologies
(such as building information modelling, virtual reality/ augmented reality, internet of things, laser scanning, drones, artificial intelligence, big data, robotics) in civil engineering and management.

**CIVIL 312**  
*Structures and Design 2*  
15 Points  
*Prerequisite: CIVIL 211*

**CIVIL 313**  
*Structures and Design 3*  
15 Points  
*Prerequisite: CIVIL 211*

**CIVIL 314**  
*Structural Dynamics*  
10 Points  
Dynamics of single and multi-degree-of-freedom systems. Ground motion, response spectra, time-history and spectral modal analysis; introduction to seismic design.

**CIVIL 322**  
*Geomechanics 2*  
10 Points  
Stability analysis in geotechnical engineering; slope stability, soil pressures on retaining structures, bearing capacity. Consolidation and settlement.  
*Prerequisite: CIVIL 221*

**CIVIL 324**  
*Geomechanics 3*  
10 Points  
*Prerequisite: CIVIL 322 or equivalent  
Restriction: CIVIL 420, 728*

**CIVIL 331**  
*Hydraulic Engineering*  
10 Points  
*Prerequisite: CIVIL 330 or equivalent*

**CIVIL 332**  
*Fluid Mechanics 2*  
10 Points  

**CIVIL 360**  
*Transportation Engineering 1*  
10 Points  
Highway alignment geometrics (horizontal, vertical and cross sectional design). Basis of the main pavement design techniques, pavement materials, stabilisation, compaction and bituminous surfacings.

**CIVIL 361**  
*Transportation Engineering 2*  
10 Points  

**CIVIL 370**  
*Directed Study*  
5 Points  

**CIVIL 371**  
*Directed Study*  
10 Points  

**Diploma Courses**

**CIVIL 660**  
*Traffic Engineering and Planning*  
15 Points  
A range of selected topics in traffic engineering and transportation planning which will provide a basis for extension into further studies.  
*Restriction: CIVIL 361, 460*

**CIVIL 661**  
*Highway and Pavement Engineering*  
15 Points  
A range of selected topics in highway and pavement engineering which will provide a basis for extension into further studies.  
*Restriction: CIVIL 360, 461*

**Postgraduate 700 Level Courses**

**CIVIL 700**  
*Geotechnical Analysis*  
15 Points  
Shear strength of soil – triaxial testing, measurement of pore water pressures, and interpretation of test data for use in analysis. Introduction to numerical modelling in geotechnical engineering. The use of traditional methods versus numerical modelling in design.  
*Prerequisite: CIVIL 300  
Restriction: CIVIL 324*

**CIVIL 701**  
*Studies in Civil Engineering 1*  
15 Points  
Advanced course on topics to be determined each year by the Head of Department of Civil and Environmental Engineering.

**CIVIL 702**  
*Design of Earthquake Resistant Foundations - Level 9*  
15 Points  
Observed behaviour of foundations during earthquakes. Site investigation and laboratory testing to estimate values for required soil parameters. Earthquake induced foundation actions. Shallow and deep foundations subject to earthquake excitation. Soil-foundation-structure-interaction. Force-based and displacement-based design. Earthquake induced earth pressures on stiff retaining structures. An independent foundation design project is required.  
*Prerequisite: CIVIL 301, STRCTENG 300 or 304*

**CIVIL 703**  
*Project Management in Built Environments*  
15 Points  
Application of different project management domains and principles in civil engineering projects, including the theory and practice of planning and control of civil engineering projects from inception to completion.  
*Restriction: ENGGEN 740, 742*

**CIVIL 704**  
*Advanced Topics in Project Management - Level 9*  
15 Points  
Advanced topics in project management are analysed such as: advanced scheduling techniques, integrated project delivery, lean construction, building-information
modelling, negotiation techniques, dispute resolution and innovative project delivery models. Independent research is undertaken in an advanced project in project management.

**CIVIL 705A** 15 Points
**CIVIL 705B** 15 Points
**Research Project - Level 9**
Restriction: CIVIL 408
To complete this course students must enrol in CIVIL 705 A and B

**CIVIL 706** 15 Points
**Special Topic: Water-sensitive Cities**

**CIVIL 707** 15 Points
**Construction Supply Chain Management - Level 9**
Advanced topics in construction supply chain management such as construction logistics, buffer management, relational contracts and behavioural dimensions, analytical models for construction, information technologies and sustainable supply chains. Independent research is undertaken by developing individual research projects in which students study logistics and supply chain problems by analysing real production scenarios or the current literature available in this topic.

**CIVIL 708** 15 Points
**Work Based Learning for Civil Engineers - Level 9**
Develops professional and interpersonal skills within the context of civil engineering competencies. Enhances ability to develop work procedures in the civil engineering industry. Studies the principles of professional ethics and the roles and liabilities of civil engineering professionals.
Restriction: ENGGEN 738
Note: Students must be in part-time professional employment or have completed at least three years' professional employment within engineering or construction.

**CIVIL 709** 15 Points
**Construction Cost Management**
Advanced knowledge of the key concepts, theories and principles used in quantity surveying and construction cost management. Construction applications in procurement, economics, and cost management. Best practices of cost management in built environments.
Restriction: ENGGEN 739

**CIVIL 710** 15 Points
**Advanced Structural Dynamics - Level 9**
Advanced topics in structural dynamics, such as wave guide representation, holistic consideration of structural behaviour including soil, main and secondary structures interaction, nonlinearities of soil-foundation-structure systems including uplift, pile-soil separation, plastic hinge or pounding. The core skills are taught and accompanied by an individual project in which independent research is undertaken to solve a challenging structural dynamics problem.
Prerequisite: Departmental approval

**CIVIL 711** 15 Points
**Structures Seminar**
Selected topics from recent developments in structural analysis and design, including an introduction to the advanced behaviour and design of thin-walled steel sections and composite components made from cold-formed sheet and light-weight fillers.

**CIVIL 713** 15 Points
**Structures and Design 4**
Continuation of the design and detailing of structural assemblages in structural steel, reinforced concrete, reinforced masonry and timber, including connections in steelwork, composite steel/concrete beams and reinforced masonry structures. Emphasis on good load paths, application of seismic design, techniques for the checking of existing structures and lessons learnt from failures. Introduction to the NZ Standard for light timber frame construction and concepts for light steel frame construction.
Prerequisite: either CIVIL 312 and 313, or STRCTENG 301 and 302 and 303
Restriction: CIVIL 411

**CIVIL 714** 15 Points
**Multistorey Building Design**
Techniques for the design of structures to resist seismic loading. Derivation of design actions, alternative structural systems for resisting these loads, design of structural components subject to cyclic inelastic action, detailing of members and joints to enhance earthquake resistance. Techniques of seismic isolation. Design project.
Prerequisite: either CIVIL 313, or STRCTENG 302 and 303

**CIVIL 715** 15 Points
**Advanced Structural Concrete - Level 9**
Design and detailing of prestressed and precast concrete components. Advanced mechanics of reinforced concrete members subject to axial, flexure, shear, and torsion actions. Design of state-of-art low-damage concrete structural systems. Includes an independent concrete design project and an independent research project on past failures of concrete structures.
Prerequisite: CIVIL 313 or STRCTENG 303

**CIVIL 716** 15 Points
**Construction Risk Management - Level 9**
A broad-based understanding of the critical elements of risk and risk management within the civil engineering industry. Risk analysis tools and techniques for the construction engineer, and risk response. Risk monitoring techniques, risk control and transference of risk methods. An independent project is undertaken in which students apply risk principles to civil engineering projects.
Restriction: ENGGEN 737

**CIVIL 717** 15 Points
**Advanced Structural Timber - Level 9**
Advanced topics in timber design such as: shearwalls, diaphragms, special glulam beams, bolted connections, new fasteners, engineered wood products, laminated bridges, inspection of timber structures. Focus on material and design development, latest international developments, design of structures subject to cyclic inelastic action, detailing of members and joints to enhance earthquake resistance. The core skills are taught and accompanied by an individual project in which independent research is undertaken to solve a challenging timber connection problem.
Prerequisite: CIVIL 451 or 750 or equivalent

**CIVIL 718** 15 Points
**Light Gauge Steel**
Use of thin steel load bearing structural components in walls, floors and roofs. Behaviour of members and connections under the full range of structural actions. Theory and design application including the Direct Strength Method of design. Use of light gauge steel acting compositely with other materials such as concrete and structural foams.
Prerequisite: CIVIL 313 or STRCTENG 302
CIVIL 719  
Matrix Structural Analysis  
15 Points  
Direct stiffness method applied to linear, nonlinear and stability analyses. Introduction to variational principles and finite element method. Projects in practical modelling of major structures such as bridges and multi-storey buildings. Use of commercial software.  
Restriction: CIVIL 416

CIVIL 720  
Earthquake Engineering  
15 Points  
Earthquakes and the effects on civil infrastructure. The passage of seismic waves from inception, propagation, arrival at site bedrock, site specific response, infrastructure response. Including engineering seismology, seismo-tectonic setting of NZ, probabilistic seismic hazard analyses, NZS 1170.5, infrastructure dynamics, base isolation, effects of site geology, geophysical and geotechnical site characterisation, concepts of soil-structure interaction, the Canterbury series of earthquakes.  
Prerequisite: either CIVIL 313 and ENGSCI 311, or ENGSCI 311 and STRCTENG 302 and 303

CIVIL 721  
Foundation Engineering  
15 Points  
Prerequisite: CIVIL 312 or equivalent  
Restriction: CIVIL 323, 421

CIVIL 722  
Slope Engineering  
15 Points  
Slope failure mechanisms, geological controls and classification. Shear strength of rock and soil materials. Laboratory testing of earth materials for slope stability. Limit equilibrium techniques, including analytical, numerical and graphical methods. Effects of water and earthquake on slope stability. Slope monitoring, stabilisation and remediation. Landslide risk management.  
Prerequisite: CIVIL 300 or 322  
Restriction: CIVIL 422, ENVENG 324

CIVIL 723  
Rock Mechanics and Excavation Engineering - Level 9  
15 Points  
Engineering rock behaviour including strength, stiffness and role of discontinuities. Stress-strain analysis, stability assessment of rock structures and support using advanced models of rock. Theoretical, practical and environmental aspects of ground excavation techniques as applied to tunnelling. An independent research project will develop skills and knowledge to solve a challenging engineering rock behaviour problem.  
Prerequisite: CIVIL 322 or equivalent

CIVIL 724  
Soil Behaviour - Level 9  
15 Points  
Advanced topics in soil behaviour including stress-strain-strength response of remoulded and natural geomaterials when subject to monotonic and cyclic loading; critical state soil mechanics; advanced soil testing; and partially saturated soils. Includes an independent research project related to an applied topic in soil behaviour.  
Prerequisite: CIVIL 324 or equivalent

CIVIL 725  
Geotechnical Earthquake Engineering - Level 9  
15 Points  
Advanced topics in earthquake effects on geotechnical structures, including: dynamic properties of soils; earthquake-induced ground response; seismic stability of slopes, embankments; earth-retaining structures; soil liquefaction; ground deformations; remediation and mitigation techniques. Design applications and advanced methods of analysis with case history analyses of major earthquakes. An independent research project will be used to solve a challenging geotechnical earthquake engineering problem.  
Prerequisite: CIVIL 300

CIVIL 726  
Engineering Geology  
15 Points  
Introduction to fundamentals in soil and rock mechanics and their application to engineering projects. Discussion of natural hazards and their implications on infrastructure design. Practical exercises in field mapping, core logging, aerial photograph interpretation, and basic laboratory tests.  
Restriction: CIVIL 404, EARTHSCI 372, GEOLOGY 372

CIVIL 727  
Dynamics of Structures in Earthquakes  
15 Points  
Dynamic behaviour of structures and the means of predicting their response to the effects of earthquakes. Fundamental principles of earthquake engineering, including the effects of structural properties, and the roles of ductility, damping and isolation in mitigating earthquake damage. An individual research project on the impact of earthquakes on civil infrastructure is undertaken.  
Prerequisite: Departmental approval  
Restriction: CIVIL 314 or equivalent

CIVIL 728  
Geotechnical Engineering in Professional Practice  
15 Points  
Shear strength of soil -- triaxial testing, measurement of pore water pressures, and interpretation of test data. Effective and total stress paths for drained and undrained loading in laboratory tests and field applications. Consolidation. Application of elastic solutions in geomechanics. Geotechnical numerical modelling. Includes a project.  
Prerequisite: Departmental approval  
Restriction: CIVIL 324

CIVIL 729  
Humanitarian Engineering  
15 Points  
Evaluate frameworks used in the humanitarian engineering field to assist with human crises, including shelter, standards, law, human rights, resilience, appropriate engineering. Rapid assessments, application of minimum international standards for engineering, engineered shelter solutions, water, sanitation and hygiene and the engineering management of humanitarian crises.

CIVIL 730  
Fluid Mechanics  
15 Points  
Examines topics from the areas of fluid dynamics, water resources engineering and statistics, and numerical methods.

CIVIL 731  
Water Resources Modelling  
15 Points  
Risk and uncertainty in water resources systems; evaluation of alternatives in water resources; hydrologic modelling; hydraulic modelling; river basin modelling; water resources economics.
CIVIL 732 15 Points
**Coastal Engineering Design**
Deriving design conditions, wave pressures and forces, design of structures, beaches and control structures, introduction to port, introduction to coastal modelling.
*Prerequisite: CIVIL 733*

CIVIL 733 15 Points
**Coastal Engineering Dynamics**
Waves, wave theories, surf zone processes, sediment transport, dynamics of coastal systems.
*Restriction: CIVIL 431*

CIVIL 734 15 Points
**River Engineering**
Scales; flows; fluvial processes; mixing; ecohydraulics.

CIVIL 735 15 Points
**Transport Modelling and Design**
The planning, modelling, design and operation of current and future transport systems. Topics include transport models and their applications, Intelligent Transport Systems and emerging technologies, transport planning process and travel demand modelling. Transport models are developed to plan, design and manage transport networks based on fundamental modelling concepts, New Zealand specifications and international best practices.
*Prerequisite: CIVIL 303
Restriction: CIVIL 758*

CIVIL 736 15 Points
**Transport Safety and Mobility**
Develop a sound understanding of safety and mobility of transport systems. Transport safety topics include safe systems, crash reduction studies, road safety audits and at-grade intersection geometric design, economic appraisal methods and transport infrastructure funding. Planning for transport mobility and sustainable transport systems, public transport systems, active modes and travel behaviour.
*Prerequisite: CIVIL 203
Restriction: CIVIL 759*

CIVIL 737 15 Points
**Coastal Modelling**
Computer simulation of coastal and wave processes. Introduces modelling software for coastal engineering, ranging from simplified wave propagation codes to sophisticated computational fluid dynamics (CFD) solvers. The learning approach is mostly hands-on, building on information delivered in lectures to allow the student to gain practical knowledge of the software in computer laboratory sessions.
*Prerequisite: CIVIL 733*

CIVIL 738 15 Points
**Construction 4.0: The Future of Construction - Level 9**
Advanced knowledge in Construction 4.0 and the deployment of related technologies (Internet of Things (IoT) smart construction sites, reality capture tools such as drones, 3D scanning, robotics, visualisation) in engineering and construction projects. Applications of technologies in addressing health and safety, productivity, efficiency and sustainability. Best practices of technology implementation in built environments. Independent research is undertaken in Construction 4.0.

CIVIL 740 15 Points
**Studies in Civil Engineering 3 - Level 9**
Advanced course on topics to be determined each year by the Head of Department of Civil and Environmental Engineering. The course will include the independent application of highly specialised knowledge and skills related to the study area.

CIVIL 741 15 Points
**Ground Improvements and Geosynthetics Engineering**
Advanced ground improvement techniques including: densification, consolidation, preloading and surcharge, soil reinforcement, stabilisation and thermal ground improvement.
*Prerequisite: CIVIL 300 or 322
Restriction: CIVIL 403*

CIVIL 742 15 Points
**Bridge Design**
Comprehensive overview of road and rail bridge typologies, design philosophies, performance requirements in key areas of strength and serviceability, calculation methods to address these topics and the analysis and strengthening of existing bridges. Bridge technology used in New Zealand and associated legislative requirements.
*Prerequisite: CIVIL 713, 715 or equivalent*

CIVIL 743 15 Points
**Special Topic: Building Information Modelling**
Introduction to the main principles and tools of Building Information Modelling (BIM) in the Architecture-Engineering-Construction (AEC) industry. This course is suitable for different AEC professionals such as civil and structural engineers, architects, among others.

CIVIL 744 15 Points
**Special Study in Earthquake Engineering**
An advanced course on topics in earthquake engineering to be determined each year by the Head of Department of Civil and Environmental Engineering.

CIVIL 745 15 Points
**Seismic Assessment of Existing Buildings - Level 9**
Principles of assessing the response of buildings to earthquakes and identification of vulnerabilities for different building types. Example buildings will be assessed using these advanced methodologies and independent research conducted on appropriate forms of retrofit.

CIVIL 746 15 Points
**Nonlinear Structural Analysis - Level 9**
Nonlinear behaviour of structures and the formulation of elements to model such behaviour; solution strategies; nonlinear material and section response; nonlinear dynamic analysis; nonlinear geometry; application of nonlinear analysis in engineering practice. Research and critically compare modeling approaches used for real buildings. Includes an independent research project involving nonlinear analysis of a real structure as a ‘blind prediction’.

CIVIL 750 15 Points
**Timber Engineering**
The practical understanding of timber and its use in the construction industry. Design and detailing techniques for connections in timber structures, plywood structures, pole structures, timber floor systems, bridges, multi-storey buildings, formwork and falsework, arches and cable stayed systems.
*Prerequisite: CIVIL 312 or STRCTENG 301
Restriction: CIVIL 451*

CIVIL 754 15 Points
**Geotechnical Modelling**
Analysis of stress and strain in two and three dimensions,

**CIVIL 756 15 Points**

### Capstone Project

Final year team exercise with students in multi-disciplinary civil and environmental roles integrating technical learning into realistic design outcomes. Comprehensive investigation of an open ended, complex, real or synthetic civil engineering problem with simulated professional design office constraints. Includes technical, economic, cultural, social, ethical, and environmental impact components to complete a scheme assessment report, incorporating safety in design concepts.  
**Prerequisite:** 90 points from Part III courses listed in the BE(Hons) Schedule for Civil Engineering or Structural Engineering

**CIVIL 758 15 Points**

### Traffic Systems Design

**Prerequisite:** CIVIL 361  
**Restriction:** CIVIL 403, 460, 660

**CIVIL 759 15 Points**

### Highway and Transportation Design

**Prerequisite:** CIVIL 360  
**Restriction:** CIVIL 461, 661

**CIVIL 761 15 Points**

### Planning and Design of Transport Facilities

Selected topics from: traffic signal practice/safety audits, two way highway planning, arterial traffic management, modelling and simulation and traffic flow.

**CIVIL 762 15 Points**

### Transportation Planning

Provides an in-depth exploration of various components of the urban transportation planning process, with emphasis on theories on modelling. The principle behind the conventional four-stage transport planning model, namely, trip generation, trip distribution, modal split and trip assignment, is covered in detail.

**CIVIL 763 15 Points**

### Smart Infrastructure Analytics

Develops fundamental knowledge in the use of computer programming and data analytics to solve real-world infrastructure problems, such as reducing traffic congestion, predicting water usage and infrastructure failures. Group and independent projects are undertaken in which students study complex smart infrastructure analytics problems using real-world data.

**CIVIL 764 15 Points**

### Highway Safety and Operations - Level 9

Advanced planning, design, operation and safety management of predominantly two way two lane highways, including: passing and overtaking models analysis and treatments, collision modification and mitigation, roadway design, skid resistance, delineation, temporary traffic control, evaluation methods, and environmental management measures. An independently applied research project will use advanced analytical skills to critically evaluate factors which impact highway safety.

**Prerequisite:** CIVIL 360, 361, and 15 points from 661, 759, or equivalent

**CIVIL 765 15 Points**

### Infrastructure Asset Management - Level 9

Advanced theories and techniques fundamental to the management of infrastructure assets, with a primary focus on Asset Management Plans. Covers the entire spectrum of infrastructure, including roads, water networks and buildings. A major independent project incorporates a literature review and selection, and then critical review, of an Asset Management Plan from industry.

**CIVIL 766 15 Points**

### Transportation Asset Management - Level 9

Focuses on advanced topics in transportation asset management. Develops a critical awareness of the key issues encountered, including those related to the evaluation of performance; risk management; predictive modelling and calibration; prioritisation and optimisation; and life cycle analysis. The core skills are extended by an independent applied project in which students undertake to solve a complex transportation asset management problem.

**CIVIL 767 15 Points**

### Pavement Analysis and Design

Selected topics from: pavement design philosophy; stresses, strains and deflections in pavements; pavement material properties and characterisation; traffic loading and volume; pavement failure mechanisms; structural and functional assessment of pavements; empirical and mechanistic pavement design methods; pavement overlay design; asphalt mix design.

**Prerequisite:** 15 points from CIVIL 661, 759, or equivalent

**CIVIL 768 15 Points**

### Highway Geometric Design - Level 9

An advanced course in highway geometric design techniques. Through the use of an independent applied project, students will apply advanced theory, methods, processes and design tools to the safe design of highway geometric alignments that includes an understanding of human / driver behaviour characteristics.

**Prerequisite:** CIVIL 360, 361, and 15 points from 661, 759, or equivalent

**CIVIL 769 15 Points**

### Transport Systems Economics - Level 9

Advanced specialist topics in transportation economics including economic analysis, the theory of demand and supply of transport, government intervention policies, and the theory of externalities and agglomeration. Students are required to undertake a major research project by analysing two major transportation infrastructure projects to determine the likely future social and real time benefits and dis-benefits which accrue to the wider community.
CIVIL 771 15 Points
Planning and Managing Transport - Level 9
An advanced course on integrating land use planning and transport provisions, including planning for different land use trip types and parking, travel demand management techniques, and intelligent transport systems applications. An independent project applies this specialised knowledge towards planning, designing and managing transport infrastructure in a Territorial Local Authority (TLA) area.

CIVIL 773 15 Points
Sustainable Transport: Planning and Design
Pedestrian planning and design; cycling facilities and planning; land use and trips; travel behaviour change and travel plans; integrated transport assessment; transport impact guidelines for site development.

CIVIL 774 15 Points
Studies in Transportation 1
A graduate course on a range of selected topics to be determined each year by the Head of the Department of Civil and Environmental Engineering.

CIVIL 775 15 Points
Studies in Transportation 2
A graduate course on a range of selected topics to be determined each year by the Head of the Department of Civil and Environmental Engineering.

CIVIL 779A 15 Points
Research Project in Transportation - Level 9
Students are required to submit a report on a topic in transportation assigned by the Head of Department.

CIVIL 781 15 Points
Construction Planning and Execution
Addresses the construction project life cycle including essential aspects of construction projects such as estimating, construction planning, logistics, budgeting, tendering, contracting, procurement, risk management, occupational health and safety, cultural issues, and legal constraints. Digital tools are used where relevant. Case studies are used to reinforce the application of theoretical ideas to the successful running of construction projects.

CIVIL 782 15 Points
Water Resources Engineering
A selection from the following: reservoir design and optimisation, flood control and design of flood control structures, micro to large scale hydroelectric, river engineering and sedimentation. A water resources engineering design project.

CIVIL 783 15 Points
Water Distribution System Modelling and Analysis
Fundamental theory of hydraulics and water quality in pipe networks, its implementation in software simulation tools and the application of models to the design and management of water distribution systems. Network theory, simulation practice, consumer and fire demand, water loss management, design, optimisation and master planning.

CIVIL 787 15 Points
Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.

CIVIL 788 30 Points
CIVIL 788A 15 Points
CIVIL 788B 15 Points
Research Project - Level 9
Prerequisite: Departmental approval required
To complete this course students must enrol in CIVIL 788 A and B, or CIVIL 788

CIVIL 789 30 Points
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.

CIVIL 790 15 Points
Civil Engineering Administration
The application of legal, cultural, social and ethical principles to problems in civil engineering and environmental engineering management. Examines the administration of national and international engineering contracts. Discusses statutes affecting engineering business, investigates the implications of resource management and natural resource allocation legislation on engineering projects. Analyses processes for resolving engineering disputes.

CIVIL 791 15 Points
Construction Management
Understanding topics necessary for effective construction management. Using a generic construction project life cycle, essential aspects of construction projects including the tendering process, planning, resource allocation, teamwork, site safety, and contract types are covered. Case studies are used to reinforce the application of theoretical ideas to the successful running of construction projects with considerations of cultural, social and ethical responsibilities.

CIVIL 792 15 Points
Discrete-event Simulation in Construction - Level 9
Application of discrete-event simulation (DES) modelling to advanced planning and design construction operations and management of the construction supply chain. Critical assessment of the improvements in efficiency of planning methods and decisions patterns in construction management using DES. Individual and team research projects will apply advanced DES concepts and methods to complex, real-world construction projects.

CIVIL 793A 30 Points
CIVIL 793B 60 Points
Thesis - Level 9
To complete this course students must enrol in CIVIL 793 A and B

CIVIL 794A 45 Points
CIVIL 794B 45 Points
Thesis - Level 9
To complete this course students must enrol in CIVIL 794A and B
CIVIL 795  45 Points  
CIVIL 795A  15 Points  
CIVIL 795B  30 Points  

**Research Project (Civil) - Level 9**  
Students are required to submit a report on a topic relevant to the specialisation, as assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
To complete this course students must enrol in CIVIL 795 A and B, or CIVIL 795  

CIVIL 796A  60 Points  
CIVIL 796B  60 Points  

**Thesis - Level 9**  
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.  
Prerequisite: Departmental approval  
To complete this course students must enrol in CIVIL 796 A and B  

**Stage II**  
COMPSYS 201  15 Points  
**Fundamentals of Computer Engineering**  
Digital systems and binary coding; binary numbers; Boolean algebra and computer logic; combinational logic circuits; sequential logic circuits; hardware description language; digital design flow; register transfer level descriptions and design; data paths and control units; from circuits to microprocessors; basic computer organisation; introduction to modern microprocessors; timers and interfacing; C and assembly language for microprocessors; designing digital systems using microprocessors.  
Prerequisite: ELECTENG 101  

COMPSYS 202  15 Points  
**Object Oriented Design and Programming**  
A project-based course with extensive hands-on programming experience. Includes: an introduction to object oriented design including UML, sequence diagrams, use-case analysis; an introduction to object oriented programming in a modern high level language, algorithms, data abstraction and elementary data structures.  
Prerequisite: ENNGEN 131 or ENGSCI 131  
Restriction: MECHENG 270  

COMPSYS 209  15 Points  
**Computer Systems Design**  
Project-based course introducing real-world design aspects of hardware and software components of computer systems using appropriate design methodology. Practical skills will be gained in computer aided design tools, printed circuit board design and construction. Professional issues introduced in ENNGEN 204 (health and safety, sustainability, cultural diversity/awareness, communication, leadership, teamwork, financial awareness) and design for repair are reinforced and developed.  
Prerequisite: COMPSYS 201 and ELECTENG 202, or COMPSYS 201 and ELECTENG 291, or PHYSICS 140 and 244  
Restriction: ELECTENG 209  

COMPSYS 299  0 Points  
**Workshop Practice**  
Restriction: ENNGEN 299  

**Stage III**  
COMPSYS 301  15 Points  
**Design: Hardware Software Systems**  
An appreciation of the engineering design process as applied to computer systems. Design skills are enhanced through engineering projects which typically include elements of: computer hardware/software design, system design and control, sensing, actuation and interfacing. Professional issues introduced in ENNGEN 204 and 303 (health and safety, ethics, sustainability, cultural diversity/awareness, communication, leadership, teamwork, financial awareness) are reinforced and developed.  
Prerequisite: COMPSYS 305, and COMPSYS 209 or ELECTENG 209, and COMPSYS 202 or SOFTENG 281  

COMPSYS 302  15 Points  
**Design: Software Practice**  
A project-based course to gain experience in software design emphasising problem solving techniques and applications in computer systems engineering. The course includes practical, real-world project(s) involving a representative subset of the following topics: algorithm and data structure selection and implementation, parsing and translation, object-oriented and multi-threaded programming, scripting languages, peer-to-peer communication over internet.  
Prerequisite: COMPSYS 202 or SOFTENG 281  

COMPSYS 303  15 Points  
**Microcomputers and Embedded Systems**  
Prerequisite: COMPSYS 201, and COMPSYS 202 or SOFTENG 251 or 281  

COMPSYS 304  15 Points  
**Computer Architecture**  
Modern processor architectures. Principles of modern processor design; pipelining; memory hierarchies; I/O and network interfacing; compiler and OS support; embedded processors; performance; multiprocessing.  
Prerequisite: COMPSYS 201  
Restriction: COMPSCI 313  

COMPSYS 305  15 Points  
**Digital Systems Design**  
Digital Systems implementation technologies with emphasis on hardware description languages and design abstraction levels: structural, architectural and behavioural modelling; register-transfer level design; datapath and control units; functional and timing simulations; FPGA-based implementation design flow and case studies.  
Prerequisite: COMPSYS 201  

COMPSYS 306  15 Points  
**Artificial Intelligence and Machine Learning**  
Fundamentals of artificial intelligence, including topics from artificial neural networks, fuzzy models, genetic algorithms. Using machine learning as an application of artificial intelligence to use data for training and inference, including topics from convolutional neural networks, deep learning, pattern classification and recognition.  
Prerequisite: COMPSYS 201, and COMPSYS 202 or SOFTENG 281
Postgraduate 700 Level Courses

COMPSYS 700A  
15 Points

COMPSYS 700B  
15 Points

Research Project - Level 9

Students are required to submit a report on project work carried out on a Computer Systems Engineering topic assigned by the Head of Department. The work shall be supervised by a member of staff.

Prerequisite: COMPSYS 301, and 45 points from COMPSCI 311, COMPSYS 302-305, ELECTENG 303, 331, 332

Restriction: COMPSYS 401

To complete this course students must enrol in COMPSYS 700A and B

COMPSYS 701  
15 Points

Advanced Digital Systems Design - Level 9

Advanced concepts in digital design including: System-on-Chip (system level description, behavioural and register-transfer descriptions); advanced modelling techniques and design flows; design space exploration and optimisation; hardware-software partitioning and trade-offs; component reusability; reconfigurable systems; low-power systems; case studies (speech, image, video algorithms implementation, application specific processor design); individual research projects to analyse the problem, model and implement the required hardware-software components.

Prerequisite: COMPSYS 305

COMPSYS 704  
15 Points

Advanced Embedded Systems - Level 9

Selected advanced topics from current research in embedded systems such as: embedded systems based on formal models of computation; centralised and distributed architectures for embedded systems; static and dynamic embedded systems; languages and frameworks for distributed embedded systems; actor and agent systems; verification. Includes a significant individual research project.

Prerequisite: COMPSYS 723, and 202 or SOFTENG 281

COMPSYS 705  
15 Points

Formal Methods for Safety Critical Software - Level 9

Formal methods for the validation/verification of safety critical software, including machine learning algorithms. Topics covered will include mathematical modelling for embedded, automation, and mechatronic systems; advanced techniques for validation and verification; techniques for formal specification; methods of verification such as Bisimulation and model checking; state space explosion problem and solutions such as BDDs, symbolic model checking, and modular verification; verification of HDL/C using model checking tools. Includes a significant individual research project.

Prerequisite: COMPSYS 202 or ENGSCI 233 or MECHENG 270 or 313 or SOFTENG 211 or 281 or 282

COMPSYS 710  
15 Points

Studies in Computer Systems Engineering 1

Advanced courses on topics to be determined each year by the Head of Department.

COMPSYS 711  
15 Points

Studies in Computer Systems Engineering 2

Advanced courses on topics to be determined each year by the Head of Department.

COMPSYS 713  
15 Points

Studies in Computer Systems Engineering 4

Advanced courses on topics to be determined each year by the Head of Department.

COMPSYS 714  
15 Points

Studies in Computer Systems Engineering 5

Advanced courses on topics to be determined each year by the Head of Department.

COMPSYS 715  
15 Points

Studies in Computer Systems Engineering 6

Advanced courses on topics to be determined each year by the Head of Department.

COMPSYS 721  
15 Points

Special Topic

An advanced course on topics to be determined each year by the Head of Department.

COMPSYS 722  
15 Points

Special Topic

An advanced course on topics to be determined each year by the Head of Department.

COMPSYS 723  
15 Points

Embedded Systems Design

Concurrency and models of computation, task models and race conditions, real-time operating systems based approach, synchronous approach, safe state machines, key properties: determinism and reactivity, SoPC and MPSoC, cyber-physical embedded systems, static analysis techniques, case studies in smart grid, automotive, medical devices and the like.

Prerequisite: COMPSYS 303 or 304 or SOFTENG 370

Restriction: COMPSYS 402, 403, 727

COMPSYS 725  
15 Points

Distributed Cyber-Physical Systems Design

Prerequisite: COMPSYS 201, and 202 or SOFTENG 281

Restriction: COMPSYS 405

COMPSYS 726  
15 Points

Robotics and Intelligent Systems - Level 9

Fundamentals of robotic and intelligent systems, including reactive and deliberative functionality, navigation techniques, planning and programming of robot actions, machine learning, artificial neural networks and may include topics in sensors and actuators, kinematic analysis, fuzzy systems, genetic algorithms. Core concepts are extended by an individual research project where a challenging robotics problem is analysed and a solution implemented and tested.

Prerequisite: 15 points from COMPSYS 302, 306, ENGSCI 331, MECHENG 313, SOFTENG 306

Restriction: COMPSYS 406

COMPSYS 727  
15 Points

Model-based Embedded Systems Design - Level 9

Traditional and advanced methods of embedded systems modelling and design, models of computation, hardware/software co-design, real-time and safety-critical systems, principles of embedded and real-time operating systems, design using the real-time operating systems approach and the synchronous approach, use of the networks in real-time...
embedded systems. The assessment includes a significant individual research project. 
Prerequisite: COMPSYS 303
Restriction: COMPSYS 402, 403, 723

COMPSYS 728 15 Points
Special Topic - Level 9
An advanced course on a topic to be determined each year by the Head of Department. Includes a substantial individual research project.
Prerequisite: Departmental approval

COMPSYS 729 15 Points
Special Topic - Level 9
An advanced course on a topic to be determined each year by the Head of Department. Includes a substantial individual research project.
Prerequisite: Departmental approval

COMPSYS 730 15 Points
Robots and Society
Explores the moral, ethical and societal impacts of increasing automation in our society, and how both work and leisure will be impacted as robots become more commonplace. Topics also include legal issues, privacy, safety, standards, and indigenous and cultural issues and opportunities.

COMPSYS 731 15 Points
Human-Robot Interaction
Human aspects of robotic systems, including how humans and robots can live and interact together. Cultural considerations around the perception of robots and expected robot behaviours in different domains such as agriculture, education, healthcare, and manufacturing.
Prerequisite: 15 points from COMPSYS 302, 306, ENGSCI 331, MECHENG 313, SOFTENG 306

COMPSYS 732 15 Points
Mobile Autonomous Robotics
Techniques and principles for designing and developing mobile robots that interact autonomously with their environment. Topics include sensors and actuators, kinematic analysis, computer vision, state estimation and planning. Includes significant hands-on experience through the design and development of a mobile robot.
Prerequisite: 15 points from COMPSYS 302, 306, ENGSCI 331, MECHENG 313, SOFTENG 306

COMPSYS 770 15 Points
Capstone Project
Final year team exercise with students in multi-disciplinary roles, with focus on computer systems engineering and integrating technical learning into realistic design outcomes. Comprehensive investigation of an open ended, complex, real or synthetic computer, electrical and software engineering problem with simulated professional design office constraints. Includes technical, economic and environmental impact components to complete a scheme assessment report.
Prerequisite: 75 points from Part III courses listed in the BE(Hons) Schedule for the Computer Systems Engineering specialisation

COMPSYS 787 15 Points
Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

COMPSYS 788A 15 Points
COMPSYS 788B 15 Points
Project Y - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in COMPSYS 788 A and B

COMPSYS 789 30 Points
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

COMPSYS 792 45 Points
COMPSYS 792A 15 Points
COMPSYS 792B 30 Points
Research Project (Robotics and Automation) - Level 9
Prerequisite: CHEMMAT 751 or CIVIL 705 or COMPSYS 700 or ELECTENG 700 or ENGGEN 769 or ENGSCI 700 or MECHENG 700 or SOFTENG 700
To complete this course students must enrol in COMPSYS 792 A and B, or COMPSYS 792

COMPSYS 795 45 Points
COMPSYS 795A 15 Points
COMPSYS 795B 30 Points
Research Project (Computer Systems) - Level 9
Students are required to submit a report on a topic relevant to the specialisation, as assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in COMPSYS 795 A and B, or COMPSYS 795

COMPSYS 796A 60 Points
COMPSYS 796B 60 Points
ME Thesis (Robotics and Automation) - Level 9
Prerequisite: Departmental approval
To complete this course students must enrol in COMPSYS 796 A and B

Disaster Management

Postgraduate 700 Level Courses

DISMGT 701 15 Points
Disaster Risk Management - Level 9
A broad based understanding of the critical elements of risk and risk management in pre- and post-disaster scenarios. Key elements include risk identification with regard to the forms and types of risk inherent in areas prone to disasters. Risk management approaches are explored and applied to different aspects of disaster management.

DISMGT 703 15 Points
Disaster Management and Resilience - Level 9
Disaster management concepts and approaches related to urban resilience, including societal and infrastructure resilience. Key elements include exploring holistic approaches to disaster management and assessment of the relationship between resilience and disaster management. This includes systems and complexity, policy and general regulatory environment. This course involves group work and a course project.
### DISMGT 704 15 Points
Supervised research project addressing a topic relevant to disaster management. To complete this course students must enrol in DISMGT 704 A and B, or DISMGT 704

### DISMGT 704A 15 Points

### DISMGT 704B 30 Points

### Research Project - Level 9
Supervised research project addressing a topic relevant to disaster management. To complete this course students must enrol in DISMGT 704 A and B, or DISMGT 704

### DISMGT 705 15 Points

### DISMGT 706 15 Points

### Electrical and Electronic Engineering

#### Stage I

**ELECTENG 101 15 Points**
**Electrical and Digital Systems**
An introduction to electrical, computer, and electronic systems and technology. Digital circuits and analysis techniques, computer organisation. Analog circuits and analysis techniques. Inductive power transfer, power systems, and electric machines. Communication systems. Restriction: ELECTENG 202, 204, 208, 210

**ELECTENG 202 15 Points**
**Circuits and Systems**
Aims to provide a good understanding of the way electrical circuits work. It covers DC and AC circuit theorems and analysis, transient analysis, including the Laplace transform; transfer functions; AC power calculations; and time and frequency representation of signals. Prerequisite: ELECTENG 101

**ELECTENG 204 15 Points**
**Engineering Electromagnetics**
Electrostatics (Coulomb’s and Gauss’s Laws, scalar potential, energy, capacitance, dielectrics), magnetostatics (Biot-Savart and Ampere’s Laws, moving conductors, magnetic forces/torques, ferromagnetic hysteresis, inductance, magnetic materials), electromagnetic induction (Faraday’s and Lenz’s Laws). Transmission lines subjected to pulse excitation, magnetic circuits and single-phase transformers. Introduction to computational electromagnetics. Prerequisite: ELECTENG 101

**ELECTENG 208 15 Points**
**Electric Circuit Analysis**
Aims to provide a good understanding of the way electrical circuits work. The course covers DC and AC circuit theorems and analysis. It also introduces some semiconductor devices (diodes, transistors and operational amplifiers) and gives examples of their applications. Prerequisite: ELECTENG 101 Restriction: ELECTENG 202 or 291

**ELECTENG 209 15 Points**
**Analogue and Digital Design**
Project-based course introducing the process of electrical engineering design. Students will research a diverse range of practical problems and develop solutions and prototypes, test and evaluate hardware and software solutions, and communicate the design and results. Professional issues introduced in ENGGEN 204 (health and safety, sustainability, cultural diversity/awareness, communication, leadership, teamwork, financial awareness) and design for repair are reinforced and developed. Prerequisite: COMPSYS 201 and ELECTENG 202, or COMPSYS 201 and ELECTENG 291, or PHYSICS 140 and 244

**ELECTENG 210 15 Points**
**Electronics I**
Semiconductor devices and applications, diodes, bipolar junction transistors and operational amplifiers. Elementary device physics. Linear and non-linear devices, terminal characteristics, small-signal modelling and analysis. Frequency-dependent behaviour of circuits and analysis methods. Linear and non-linear circuits such as amplifiers and switching circuits. Biasing, coupling and bypass techniques. Operational amplifiers, frequency-dependence and characteristic limitations, frequency selective and non-linear switching circuits. Prerequisite: ELECTENG 101

**ELECTENG 291 15 Points**
**Fundamentals of Electrical Engineering**
AC and DC circuit analysis in the context of linear electrical and electronic systems. Time and frequency domain approaches to describing and analysing electrical networks and systems. Prerequisite: ELECTENG 101 Restriction: ELECTENG 202

**ELECTENG 292 15 Points**
**Electronics**
Electronic devices and circuits for solving engineering problems. Analysis of linear and non-linear microelectronic circuits and their practical applications. Prerequisite: ELECTENG 202 or 291, or PHYSICS 121 and 244 Restriction: ELECTENG 210

**ELECTENG 299 0 Points**
**Workshop Practice**
Restriction: ENGGEN 299

#### Stage II

**ELECTENG 202 15 Points**
**Circuits and Systems**
Aims to provide a good understanding of the way electrical circuits work. It covers DC and AC circuit theorems and analysis; transient analysis, including the Laplace transform; transfer functions; AC power calculations; and time and frequency representation of signals. Prerequisite: ELECTENG 101

**ELECTENG 303 15 Points**
**Systems and Control**
Introduction to linear, time-invariant, continuous-time system theory from both a time-domain and frequency domain standpoint. This leads on to the fundamental body of knowledge underlying the control and enhancement of system behaviour, with application to the analysis and control of electrical systems. Prerequisite: ELECTENG 202

**ELECTENG 305 15 Points**
**Applied Electronics**
An advanced treatment of electronic circuits including a rigorous treatment of feedback, device limitations, noise effects, stability, and design considerations. Emphasis on common practical circuits taken from analog and switching applications. Prerequisite: ELECTENG 202 or 291, and 210 or 292

**ELECTENG 307 15 Points**
**Fields and Waves**
Transmission lines subjected to AC excitation, the Smith chart, introduction to matching network design and introduction to antennas for radio systems. Maxwell’s equations in differential and integral form, divergence and Stokes’ theorems, skin effect and uniform plane waves (lossless/lossy media, reflection and transmission,
polarisation). Case studies in computational electromagnetics.  
Prerequisite: ELECTENG 204

ELECTENG 309  
Power Apparatus and Systems  
15 Points  
Introduces students to three-phase electric machines and power system components. Covers theory, modelling and practical aspects for synchronous machines, induction machines, transformer connections, transmission lines and substation components.  
Prerequisite: ELECTENG 204

ELECTENG 310  
Electrical Engineering Design 1  
15 Points  
An appreciation of the design process as applied to electrical and electronic engineering systems. Design skills are enhanced through engineering projects which typically involve modelling, simulation and analogue/digital electronic hardware design. Professional issues introduced in ENGGEN 204, 303 and 403 (ethics, sustainability, cultural awareness, communication, leadership, teamwork, financial awareness, safety in design) and design for repair are reinforced and developed.  
Prerequisite: ELECTENG 204

ELECTENG 311  
Electrical Engineering Design 2  
15 Points  
The formal introduction to the design process is completed by one or more open-ended projects which typically include elements of design from concept to working prototype. Professional issues introduced in ENGGEN 303 (health and safety, sustainability, cultural diversity/awareness, communication, leadership, teamwork, financial awareness) and design for repair are reinforced and developed.  
Prerequisite: ELECTENG 310

ELECTENG 331  
Signals and Systems  
15 Points  
Introduction to continuous-time and discrete-time signals and systems. Spectral analysis and representation of analog and digital signals, and linear, time-invariant systems. Conversion between analog and digital signals. Systems for manipulating and filtering signals in hardware and software.  
Prerequisite: ELECTENG 202 or 291, or PHYSICS 140 and 244  
Restriction: ELECTENG 303

ELECTENG 332  
Control Systems  
15 Points  
Introduction to modelling in the time-domain and frequency domain. The fundamental body of knowledge underlying the control and enhancement of system behaviour, with application to the analysis and control of systems.  
Prerequisite: ELECTENG 202 or 291  
Restriction: ELECTENG 303

Postgraduate 700 Level Courses

ELECTENG 700A  
15 Points  
Research Project - Level 9  
Students are required to submit a report on project work carried out on a topic assigned by the Head of Department. The work shall be supervised by a member of staff.  
Prerequisite: ELECTENG 310, 311, and 30 points from ELECTENG 303, 305, 309, 331, 332  
Restriction: ELECTENG 401  
To complete this course students must enrol in ELECTENG 700 A and 8

ELECTENG 701  
Mobile Wireless Engineering  
15 Points  
Aspects of the design and planning of mobile radio systems. Radio propagation for mobile radio systems (multipath, narrowband and wideband channels, channel characterisation and measurements), propagation modelling (free-space, plane-earth, diffraction). Frequency reuse and interference, outage probabilities, system performance evaluation, space diversity, MIMO and millimetre-wave systems.  
Prerequisite: ELECTENG 307 or 721 or 737

ELECTENG 703  
Advanced Power Systems - Level 9  
15 Points  
Electricity markets: structure, pricing, optimisation, ancillary services; power system protection practices; distribution network development: smart grid, demand side participation; HVDC and FACT devices theory and application; renewable energy grid integration. Includes a substantial individual research project.  
Prerequisite: ELECTENG 731  
Restriction: ELECTENG 738

ELECTENG 704  
Advanced Control Systems - Level 9  
15 Points  
Advanced theory of modern control systems with emphasis on optimisation techniques for both deterministic and stochastic processes. State-space modelling of dynamic systems and choice of suitable performance criteria. Adaptive, nonlinear and sliding mode control systems. Core concepts are extended by an individual research project in which a challenging control problem is analysed and solved.  
Prerequisite: ELECTENG 722

ELECTENG 706  
Topics in Digital Signal Processing - Level 9  
15 Points  
An advanced treatment of digital signal processing topics with an emphasis on state of the art techniques. Case studies of digital signal processing methods used to solve practical problems in science and engineering. Includes a substantial individual research project.  
Prerequisite: ELECTENG 733

ELECTENG 711  
Studies in Electrical and Electronic Engineering 1  
15 Points  
Advanced course on topics to be determined each year by the Head of Department.

ELECTENG 712  
Studies in Electrical and Electronic Engineering 2  
15 Points  
Advanced course on topics to be determined each year by the Head of Department.

ELECTENG 713  
Studies in Electrical and Electronic Engineering 3  
15 Points  
Advanced course on topics to be determined each year by the Head of Department.

ELECTENG 714  
Studies in Electrical and Electronic Engineering 4  
15 Points  
Advanced course on topics to be determined each year by the Head of Department.
ELECTENG 715 15 Points
Studies in Electrical and Electronic Engineering 5
Advanced course on topics to be determined each year by the Head of Department.

ELECTENG 716 15 Points
Studies in Electrical and Electronic Engineering 6
Advanced course on topics to be determined each year by the Head of Department.

ELECTENG 721 15 Points
Radio Engineering
Matching networks, waveguides, transmitter/receiver design, noise, non-linear behaviour, antennas, applications in computational electromagnetics. Fundamentals of radio propagation, tropospheric effects, diffraction, link budgets, point-to-point link design, multipath propagation, introduction to area coverage (mobile radio) systems. Introduction to radar systems, the radio spectrum and exposure standards.
Prerequisite: ELECTENG 307
Restriction: ELECTENG 421, 737

ELECTENG 722 15 Points
Modern Control Systems
Prerequisite: ELECTENG 303 or 331 or 332
Restriction: ELECTENG 422, MECHENG 720, 724

ELECTENG 724 15 Points
Special Topic
An advanced course on topics to be determined each year by the Head of Department.
Prerequisite: Departmental approval

ELECTENG 726 15 Points
Digital Communications
Prerequisite: 15 points from ELECTENG 303, 331, 332
Restriction: ELECTENG 426, 741

ELECTENG 731 15 Points
Power Systems
Builds on the knowledge of three-phase power systems components to understand modelling, formulation and typical analysis carried out by electricity transmission, distribution and generation entities. Load flow, fault, stability and power quality. Supplemented by laboratories where students learn to use professional software to implement the theoretical aspects.
Prerequisite: ELECTENG 309
Restriction: ELECTENG 411

ELECTENG 732 15 Points
Communication Systems
Prerequisite: ELECTENG 303 or 331
Restriction: ELECTENG 412

ELECTENG 733 15 Points
Digital Signal Processing
Prerequisite: ELECTENG 303 or 331 or ENGSCI 311 or 313
Restriction: ELECTENG 413

ELECTENG 734 15 Points
Power Electronics - Level 9
Selected advanced concepts in power electronics are introduced through a practical and research based individual design project, utilising modern power converter topologies with supporting lectures that include: inductive power transfer and control, DC-DC converter design and control, high frequency magnetics design, semiconductor switches, practical design issues, controlled rectifiers and PWM converters with application to conventional and brushless DC motors.
Prerequisite: ELECTENG 305, 310, 311
Restriction: ELECTENG 414

ELECTENG 735 15 Points
Green Energy Technologies
Advanced green energy technologies with examples from current industry practice and cutting edge research developments. Topics include: renewable energy systems, distributed power generation, energy storage techniques, transportation electrification, power converters for renewable energy integration, soft-switched resonant converters, wireless power transfer, new semiconductor devices, motor drives, and LED lighting.
Prerequisite: ELECTENG 734

ELECTENG 736 15 Points
Analog and Digital Filter Synthesis
Filter concepts and network functions, a review of approximation techniques and frequency transformations, leading to a thorough treatment of passive, active and digital filter implementations.
Prerequisite: ELECTENG 303 or 331
Restriction: ELECTENG 416

ELECTENG 737 15 Points
Advanced Radio Engineering - Level 9
Advanced topics in radio system and high frequency electromagnetic design including: Matching networks, waveguides, transmitter/receiver design, noise, non-linear behaviour, antennas, applications in computational electromagnetics. Fundamentals of radio propagation, tropospheric effects, diffraction, link budgets, point-to-point link design, multipath propagation, introduction to area coverage (mobile radio) systems. Introduction to
radar systems, the radio spectrum and exposure standards. Students will also undertake an individual research project involving high frequency systems design.

Prerequisite: ELECTENG 307
Restriction: ELECTENG 421, 721

ELECTENG 738 15 Points
Selected Topics in Advanced Power Systems - Level 9
Electricity markets: structure, pricing, optimisation, ancillary services; Power system protection practices; Distribution Network Development: Smart Grids, Demand Side Participation, Integration of DG/renewable sources and Electric Vehicles. Core concepts are extended by an individual research project, a self-guided protection laboratory and industry engagement in advanced power system practices.

Prerequisite: ELECTENG 731
Restriction: ELECTENG 703

ELECTENG 739 15 Points
Special Topic - Level 9
An advanced course on a topic to be determined each year by the Head of Department. Includes a substantial individual research project.

Prerequisite: Departmental approval

ELECTENG 740 15 Points
Special Topic - Level 9
An advanced course on a topic to be determined each year by the Head of Department. Includes a substantial individual research project.

Prerequisite: Departmental approval

ELECTENG 741 15 Points
Advanced Digital Communications - Level 9
Advanced topics in modern digital communication systems and networks including: Advanced digital modulation theory and practice in single and multi-user communications systems; advanced information theory including single and multiple source coding; modern error control coding methods and applications; traffic theory and application in communication systems and networks. Theoretical knowledge is extended by an advanced laboratory programme and research projects.

Prerequisite: 15 points from ELECTENG 303, 331, 332
Restriction: ELECTENG 426, 726

ELECTENG 770 15 Points
Capstone Project
Final year team exercise with students in multi-disciplinary roles, with focus on electrical and electronic engineering, integrating technical learning into realistic design outcomes. Comprehensive investigation of an open-ended, complex, real or synthetic computer, electrical and software engineering problem with simulated professional design office constraints. Includes technical, economic and environmental impact components to complete a scheme assessment report.

Prerequisite: 75 points from Part III courses listed in the BE(Hons) Schedule for the Electrical and Electronic Engineering specialisation

ELECTENG 787 15 Points
Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.

Prerequisite: Departmental approval

ELECTENG 788A 15 Points
ELECTENG 788B 15 Points
Project Y - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.

Prerequisite: Departmental approval

To complete this course students must enrol in ELECTENG 788 A and B

ELECTENG 789 30 Points
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.

Prerequisite: Departmental approval

ELECTENG 795 45 Points
ELECTENG 795A 15 Points
ELECTENG 795B 30 Points
Research Project (Electrical and Electronic) - Level 9
Students are required to submit a report on a topic relevant to the specialisation, as assigned by the appropriate Head of Department.

Prerequisite: Departmental approval

To complete this course students must enrol in ELECTENG 795 A and B, or ELECTENG 795

ELECTENG 796A 60 Points
ELECTENG 796B 60 Points
ME Thesis (Electrical and Electronic) - Level 9
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.

Prerequisite: Departmental approval

To complete this course students must enrol in ELECTENG 796 A and B

ENERGY 721 15 Points
Energy Resources
Past, present and likely future uses of various forms of energy focused on electricity generation. Energy resources. Energy economics, prices and markets. Environmental considerations in energy production and use. Climate change, carbon sequestration, carbon trading and carbon taxes.

ENERGY 722 15 Points
Energy Technology

ENERGY 785A 15 Points
ENERGY 785B 30 Points
Research Project - Level 9
Supervised research project addressing a topic relevant to the technical, economic, environmental, regulatory or business aspects of energy.

Prerequisite: Departmental approval
Restriction: ENERGY 786

To complete this course students must enrol in ENERGY 785 A and B
ENERGY 786A 30 Points
ENERGY 786B 15 Points

Research Project - Level 9
Supervised research project addressing a topic relevant to the technical, economic, environmental, regulatory or business aspects of energy.
Prerequisite: Departmental approval
Restriction: ENERGY 785
To complete this course students must enrol in ENERGY 786 A and B

ENERGY 794A 30 Points
ENERGY 794B 60 Points
Thesis - Level 9
Prerequisite: Departmental approval
To complete this course students must enrol in ENERGY 794 A and B

ENERGY 795A 60 Points
ENERGY 795B 30 Points
Thesis - Level 9
Prerequisite: Departmental approval
To complete this course students must enrol in ENERGY 795 A and B

Energy Technology

Diploma Courses

GEOTHERM 601 15 Points
Geothermal Resources and their Use
Worldwide occurrence of geothermal systems, introductory geology, volcanoes and volcanic rocks, New Zealand geothermal systems, structure of the TVZ, hydrothermal alteration, permeability and porosity, introduction to geochemistry of geothermal systems, geothermal surface manifestations, water compositions, geothermometry, silica geochemistry, overview of geophysics for geothermal exploration, geothermal resource assessment.
Corequisite: GEOTHERM 602, and 603 or 620
Restriction: GEOTHERM 785

GEOTHERM 602 15 Points
Geothermal Energy Technology
Worldwide geothermal development, types of geothermal systems, thermodynamics, properties of water and steam tables, heat transfer, fluid mechanics, steam-field equipment, geothermal power stations, geothermal drilling, wellbore processes, completion tests, downhole measurements, reinjection, corrosion, stored heat, Darcy's law, cold groundwater, geothermal reservoirs, direct use, reservoir modelling, reservoir monitoring and steam-field management.
Corequisite: GEOTHERM 601
Restriction: GEOTHERM 785

GEOTHERM 603 15 Points
Geothermal Exploration
Hydrothermal alteration, clays, fluid inclusions, direct use, subsidence, scaling and corrosion in geothermal wells, production geochemistry, environmental aspects of geothermal development, feasibility study, physical properties of rocks and self-potential (SP), magnetics, thermal methods, gravity, seismic methods, electrical methods, magneto-tellurics (MT).
Corequisite: GEOTHERM 601, 602
Restriction: GEOTHERM 785

GEOTHERM 620 15 Points
Geothermal Engineering
Completion tests, wellbore flow, two-phase flow, geothermal power cycles, flow measurements, direct use of geothermal energy, environmental effects, scaling and corrosion in geothermal wells, drilling engineering, flow measurements, steam-field operation and maintenance, subsidence, waste heat rejection, heat exchangers, geothermal well-test analysis, stimulation, pipeline design, feasibility study, reservoir modelling theory, TOUGH2, reservoir modelling process, case study (data and conceptual model, natural state modelling), Wairakei model.
Corequisite: GEOTHERM 601, 602
Restriction: GEOTHERM 785

GEOTHERM 689 15 Points
Geothermal Project
Based on a study using field, lab or theoretical methods, students are required to submit a report on some aspect of geothermal exploration, development or exploitation.

Postgraduate 700 Level Courses

GEOTHERM 785 15 Points
Geothermal and Reservoir Engineering
Topics include: worldwide geothermal development, types of geothermal systems, geothermal geology, resource estimation, thermodynamics, properties of water and steam, steam-field equipment, geothermal power cycles, direct use of geothermal energy, completion tests, two-phase flow, flow measurements, geothermal reservoir engineering modelling theory, reinjection, scaling and corrosion, drilling engineering, heat exchangers, geothermal well-test analysis, stimulation, sedimentary geology, oil and gas formation, petroleum reservoir engineering.
Prerequisite: CHEMMAT 302 or 313 or ENGSCI 343 or MECHENG 311, and ENGSCI 311 or 313 or 314
Restriction: GEOTHERM 601, 602, 603, 620

Engineering General

Stage I

ENGEN 100G 15 Points
Technological Choices for the Future
A consideration of technological choices to support informed decision making in the use of technology in modern society. The course focuses on important questions such as: What is the future direction of power generation in New Zealand? How can we create a sustainable future? Where will current developments in robotics and mobile communications lead us?

ENGEN 101G 15 Points
Software, Data and Intelligent Automation
Introduces concepts of intelligent automation, robotic process automation, analytics and artificial intelligence/machine learning. Includes consideration of data privacy and sovereignty, and the ethics of AI. Students will engage in critical analysis of potential intelligent automation applications and solutions, and will build their own software robot through practical laboratory work.

ENGEN 115 15 Points
Principles of Engineering Design
An introduction to the principles of design as a fundamental part of engineering practice and a foundation for subsequent design courses. Students are also introduced
to essential drawing skills and CAD, and complete group-based design projects. Topics include systems life cycle, design, and introductions to professional issues such as health and safety, ethics, sustainability, cultural diversity, communication, leadership, and teamwork.

**ENNGEN 121**
*Engineering Mechanics*
An introduction to planar mechanics including: free body diagrams, planar equilibrium of rigid bodies, friction, distributed forces, internal forces, shear force and bending moment diagrams, kinematics and kinetics of particles, work and energy, relative motion, kinematics and kinetics of rigid bodies.
*Restriction: CIVIL 210, MECHENG 222*

**ENNGEN 131**
*Introduction to Engineering Computation and Software Development*
Introduction to problem solving in engineering through the use of the software package MATLAB, and the programming language C.
*Restriction: ENGSIC 233, 331*

**ENNGEN 140**
*Fundamentals of Engineering in Society*
An introduction to chemistry and biology as applied to solving fundamental engineering problems from first principles using conservation laws and with appropriate consideration for uncertainty. Problems will also be addressed from a social perspective, considering the environment, the Treaty of Waitangi, social license to operate, and the role of professional engineering skills in the community and society.

**ENNGEN 199**
*English Language Competency*
To complete this course students must attain a level of competency in the English language as determined by the Faculty of Engineering.

### Stage II

**ENNGEN 204**
*Professional Skills and Communication*
A system-wide view of the role of the professional engineer in society and business. The skills of advocacy, and individual and group-based communication are put into practice. Scenarios representative of real-world issues are addressed through team-based projects and problem solving. The professional issues introduced in ENNGEN 115 (health and safety, ethics, sustainability, cultural diversity, communication, leadership, and teamwork) are continued and developed.
*Prerequisite: ENNGEN 115, 199*

**ENNGEN 299**
*Workshop Practice*
*Restriction: BIOMENG 299, CHEMMAT 299, CIVIL 299, COMPSYS 299, ELECTENG 299, ENGSIC 299, MECHENG 299, MECHTRON 299, SOFTENG 299, STRCTENG 299*

### Stage III

**ENNGEN 303**
*Managing Projects and Innovation*
Introduction to theory and practice of managing projects, innovation, product development and service delivery. Students work in interdisciplinary teams to complete a project based on a complex real-world systems scenario.

Project management and innovation topics are integrated with design studies covered in previous courses, and extended to wider business issues of risk and opportunities, entrepreneurship, financial management, and regulatory issues.
*Prerequisite: ENNGEN 199, 204*

**ENNGEN 388**
*Leadership in Engineering*
Prepares engineers for roles as future leaders. Enhances skills in seeing problems from non-engineering perspectives and dealing with situations without ideal solutions. Develops skills from other disciplines and increases awareness of the broader context of how engineering supports society.
*Prerequisite: Programme Director approval*

### Stage IV

**ENNGEN 403**
*Managing a Business*
An introduction to the commercial drivers and business practices which prepare students for successful roles in the commercial, government, and non-profit sectors after graduation. Students are presented with a systems thinking approach to managing large, complex, multidisciplinary challenges. Professional issues (such as health and safety, sustainability, resilience, ethics, leadership, and cultural diversity) from previous courses are expanded.
*Prerequisite: BUSINESS 101 and 102, or BUSINESS 111 and 112, or DESIGN 220 or 221 or 222, or ECON 151 and GLOBAL 101, or COMMS 320 or ENNGEN 303 or LAW 241 or MUS 186 or 365 or PROPERTY 231 or SCIGEN 201 or 201G*

**ENNGEN 499**
*Practical Work*

### Diploma Courses

**ENNGEN 601**
*Case Studies in Engineering 1*
The case study may include aspects of design or analysis, a survey and/or evaluation of a problem in any branch of engineering. Students are required to submit a report.

**ENNGEN 602**
*Case Studies in Engineering 2*
The case study may include aspects of design or analysis, a survey and/or evaluation of a problem in any branch of engineering. Students are required to submit a report.

**ENNGEN 622**
*Advanced Topics in Engineering 1*
Courses on topics determined each year by the Associate Dean Postgraduate in the Faculty of Engineering.

**ENNGEN 623**
*Advanced Topics in Engineering 2*
Courses on topics determined each year by the Associate Dean Postgraduate in the Faculty of Engineering.

**ENNGEN 698**
*Practical Work for Experienced Engineers*
Students will demonstrate via formal records at least 800 hours of relevant practical work experience in Engineering completed in the last 5 years.
*Prerequisite: At least 800 hours of practical work in responsible engineering employment*
*Restriction: ENNGEN 699*
ENGEN 699
Practical Work
Students will complete 800 hours of relevant practical work experience in Engineering and reflect on the connections between their work and their studies. The work experience can be undertaken at any time during the degree programme or via a combination of some prior work experience and ongoing work experience gained concurrently with the degree.
Restriction: ENGEN 699

Postgraduate 700 Level Courses

ENGEN 701
Professional Project
A comprehensive investigation, analysis and reporting of a complex engineering design, development or professional engineering problem.
Prerequisite: Departmental approval
Restriction: ENGEN 401, 405, 410, 705

ENGEN 705
Engineering Product Development
Advanced topics in the engineering design and development of new manufactured products, taking an integrated approach including technical, commercial, and user aspects. Theory is linked to practice through multidisciplinary teams engaging in projects and case studies.
Prerequisite: 8 grade or higher in ENGEN 303
Restriction: ENGEN 401, 405, 410, 701, MGMT 305

ENGEN 720
Special Topic

ENGEN 721
Special Topic
Restriction: ENGEN 769

ENGEN 722
Special Study in Engineering Management 1
Directed study of an engineering management topic approved by the Programme Coordinator.
Restriction: CIVIL 716

ENGEN 723
Special Study in Engineering Management 2
Directed study of an engineering management topic approved by the Programme Coordinator.

ENGEN 724
Special Study in Technology Management 1
Directed study of an engineering technology topic approved by the Programme Coordinator.

ENGEN 725
Special Study in Technology Management 2
Directed study of an engineering technology topic approved by the Programme Coordinator.

ENGEN 726
Climate Adaptation of Infrastructure
Impacts of climate change on infrastructure and adaptation strategies to respond to these changes. Impact assessments, vulnerability studies, and development of adaptation strategies and techniques for whole of life asset management. Decision-making, management and climate resilience of transport, potable water provision, stormwater and wastewater systems, buildings and other physical infrastructure systems.

ENGEN 730
Management Skills for Project Professionals
Core theories and their implications for the art and practice of project management in organisations.

ENGEN 731
Agile and Lean Project Management
The culture, structures, roles, tools and techniques required for effective management of projects in uncertain, volatile and ambiguous environments where the project scope evolves or the timescale is the primary driver. Students will learn advanced techniques and apply them to reinforce their learning.
Restriction: ENGEN 740

ENGEN 732
Systems Thinking and Project Business Case
The business case as the tool of choice for many businesses for turning strategy into projects and the subsequent investment appraisals. Topics include systems thinking, the theory of constraints, value, cost/benefit analysis, quadruple bottom line, sensitivity analysis, risk analysis, investment appraisal, performance measurement and benefit realisation.

ENGEN 733
Strategy, Portfolios, Programmes and Projects
The practical application of strategic management principles to enable the successful delivery of portfolios, programmes and projects in demand and supply side organisations in the public and private sectors. Examination of international examples from different industry sectors illustrates how theoretical concepts and practical applications can relate to the success or failure of portfolios of resources, programmes of work, and individual projects, sometimes in conditions of uncertainty and ambiguity.
Restriction: ENGEN 741

ENGEN 734
Engineering Contracts for Project Managers
Theoretical concepts in engineering commercial contracts, how those concepts apply to the work environment and manifest in the contracts in use in the project environment. Students will study relevant case law, NZS3910, NEC3 and FIDIC.
Restriction: CIVIL 790

ENGEN 735
Project Management Case Studies
Examination of examples from industry to show how theoretical concepts relate to the success or failure of projects. Students will study a range of projects from across the world that highlight critical success factors.
Restriction: ENGEN 741

ENGEN 736
Research Implementation and Dissemination - Level 9
Critical reflections on undertaking a research project focussing on elements of project implementation and dissemination of research findings and outcomes. Leverage the benefits of the research project by focussing on the communicating the findings of the project to appropriate audiences and maximising the impact of the project for key stakeholders. Critically evaluate own performance in undertaking a project and adoption of a philosophy of continuous improvement during implementation stage of a project. Identification of lessons learned in order to inform future research.
Corequisite: ENGEN 792 or 794 (ENGEN 736 must be taken in the same semester as ENGEN 792 or 792B or 794 or 794B)
ENNGEN 737  
Engineering Risk Management - Level 9  
15 Points
The theory and practice of risk management, providing a comprehensive approach to identify, analyse, and treat risks inherent in engineering projects. Critical analysis and synthesis of risk management frameworks to deliver outcomes in scenarios of uncertainty and to communicate plans at a professional level. An independent project is undertaken in which students apply risk management theories to engineering projects. 
Restriction: CIVIL 708 
Note: Students must be in professional employment or have completed at least three years' professional employment within engineering.

ENNGEN 738  
Work Based Learning - Level 9  
15 Points
Studies in professional and interpersonal skills within the context of engineering and project management practice. Develops ability to critically self-assess competencies. Fosters and enhances competencies in preparation towards membership of a professional body via application of theory and exploration of work practices. Students prepare a portfolio of independent work demonstrating competencies required of a Chartered professional at an advanced level. 
Restriction: CIVIL 708 
Note: Students must be in professional employment or have completed at least three years' professional employment within engineering.

ENNGEN 739  
Cost Engineering - Level 9  
15 Points
Advanced topics in cost engineering such as engineering economics, cost planning, cost estimating, cost control, cost analysis and lifecycle costing. These topics are extended by independent and group applied projects in which students solve complex engineering management problems. The core taught skills are complemented by independent research to solve cost engineering problems or critically analyse alternative cost engineering approaches. 
Restriction: CIVIL 709

ENNGEN 740  
Project Management Bodies of Knowledge  
30 Points
A comprehensive and critical review of existing and emerging project management bodies of knowledge including Waterfall, Agile, Lean and Extreme Project Management approaches. Comparison of a range of project management frameworks and methodologies for management of risk, including the applied application of a range of tools, techniques and knowledge to open-ended project scenarios. 
Restriction: CIVIL 703, ENNGEN 731, 742

ENNGEN 741  
Project, Programme and Portfolio Management  
30 Points
Critical elements of project delivery including leadership, organisation, owner profile and participation, project objectives, investment decisions and change management. Project, Programme and Portfolio Management frameworks and their practical application to organisations in managing strategy implementation. Examples from industry show how theoretical concepts relate to the success or failure of projects, programmes and portfolios under conditions of uncertainty and ambiguity. 
Restriction: ENNGEN 733, 735

ENNGEN 742  
Project Management  
15 Points
Planning, organisation and control of projects in ordered environments. Application of project management principles, concepts, disciplines, tools, techniques and processes to the typical project lifecycle. Studies in the knowledge areas/domains defined by the Project Management Institute (PMI). Development of a range of skills, tools and techniques to become an effective project manager. 
Restriction: CIVIL 703, ENNGEN 740

ENNGEN 743  
Applied Creative Thinking  
15 Points
Application of inventive problem solving and creative thinking to formulate novel engineering solutions. Theories, tools and techniques to assist with generating innovative ideas. Techniques for improving the creativity of teams. Develops skills in the facilitation of workshops to help teams solve complex problems. Practical application of the concepts are synthesised to solve case study industry problems, and students' individual scenarios. 
Restriction: ENNGEN 722

ENNGEN 766  
Research Project in Engineering Management - Level 9  
45 Points
Restriction: CIVIL 705, COMPSYS 700, ELECTENG 700, ENNGEN 721, ENGSCE 700, MECHENG 700, SOFTENG 700

ENNGEN 766A  
Research Methods for Engineers  
15 Points
Development of research methods knowledge and skills including research philosophy and design, research ethics, data collection and analysis techniques, identification of limitations, and writing up and reporting. Qualitative and quantitative research methods are addressed. 
Restriction: CHEMMAT 751, CIVIL 705, COMPSYS 700, ELECTENG 700, ENNGEN 721, ENGSCE 700, MECHENG 700, SOFTENG 700

ENNGEN 769  
Research Methods for Engineers  
15 Points
Development of research methods knowledge and skills including research philosophy and design, research ethics, data collection and analysis techniques, identification of limitations, and writing up and reporting. Qualitative and quantitative research methods are addressed. 
Restriction: CHEMMAT 751, CIVIL 705, COMPSYS 700, ELECTENG 700, ENNGEN 721, ENGSCE 700, MECHENG 700, SOFTENG 700

ENNGEN 770  
Medical Device and Technology Development - Level 9  
15 Points
Clinical and technical aspects of medical device development. Identification and definition of a medical device, examples and case studies. Evidence based technology, justification and motivation for developing medical devices. Techniques and issues concerning medical device research and design processes. Includes individual research related to medical device and technology development.

ENNGEN 771  
Medical Device Industry Practice - Level 9  
15 Points
Commercial lifecycle considerations in medical device design. Clinical evaluation of systems; safety and ethics issues. Medical and regulatory requirements and international standards for medical devices; quality assurance and controlled design. Examples drawn from surgical assistance and medical intervention systems, training systems, prosthetics, orthotics, exoskeleton devices, and healthcare robotics.

ENNGEN 785A  
Professional Capstone - Level 9  
15 Points
An advanced course comprising an integrating project with
students working independently and inter-dependently in teams to research, investigate and apply engineering knowledge to develop solutions. A comprehensive investigation of an open-ended, complex, real or synthetic engineering problem within a simulated professional office. Completion of a comprehensive report and presentation covering technical, economic, environmental, health and safety and management components.

Prerequisite: 60 points from 700 level courses in the BE(Hons) and MProfEng Schedules

To complete this course students must enrol in ENGEN 785 A and B

ENGEN 790 45 Points
ENGEN 790A 15 Points
ENGEN 790B 30 Points

Research Project - Level 9
To complete this course students must enrol in ENGEN 785 A and B, or ENGEN 790

ENGEN 791A 30 Points
ENGEN 791B 30 Points

Dissertation in Medical Devices - Level 9
A structured supervised research project addressing a topic relevant to the development and commercialisation of medical devices and technologies.

Prerequisite: Departmental approval

To complete this course students must enrol in ENGEN 791 A and B

ENGEN 792 30 Points
ENGEN 792A 15 Points
ENGEN 792B 15 Points

Research Project - Level 9
A research project which requires students to undertake a practical application in a temporary endeavour to deliver a product, service or specified outcome. May take the form of surveys, interviews, action research, project implementation and evaluation of modern advances in project management practices, or a project management oriented case study. Projects conducted by students working in pairs. Each student must prepare a separate individual report.

To complete this course students must enrol in ENGEN 792 A and B, or ENGEN 792

ENGEN 793A 30 Points
ENGEN 793B 60 Points

Research Portfolio in Medical Devices - Level 9
A structured supervised research portfolio addressing a topic relevant to the development and commercialisation of medical devices and technologies.

Prerequisite: Departmental approval

To complete this course students must enrol in ENGEN 793 A and B

ENGEN 794 30 Points
ENGEN 794A 15 Points
ENGEN 794B 15 Points

Research Project - Level 9
A research project which requires a student to undertake a practical application in a temporary endeavour to deliver a product, service or specified outcome. May take the form of action research, project implementation and evaluation of modern advances in project management practices, or a project management oriented case study. Project will be conducted by students working individually within an existing project orientated team.

Prerequisite: Departmental approval

To complete this course students must enrol in ENGEN 794 A and B, or ENGEN 794

ENGEN 796A 60 Points
ENGEN 796B 60 Points

ME Thesis (Engineering) - Level 9
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.

Prerequisite: Departmental approval

To complete this course students must enrol in ENGEN 796 A and B

---

Engineering Science

Stage I

ENGSCI 111 15 Points

Mathematical Modelling 1
Introduction to mathematical modelling. Differentiation and integration (polynomials, trigonometric, exponential, logarithmic, and rational functions). Integration by parts, substitution and partial fractions. Differential equations and their solutions (including Euler’s method). Vector and matrix algebra, transformations, solving systems of linear equations. Prerequisite: ENGSCI 111, or MATHS 108 or 110.

Restriction: ENGSCI 111

Stage II

ENGSCI 205 15 Points

Special Topic

ENGSCI 211 15 Points

Mathematical Modelling 2

Prerequisite: ENGSCI 111, or MATHS 108 or 110, or a B+ grade or higher in MATHS 108 or 110, or a B+ grade or higher in MATHS 120 and 130

Restriction: ENGSCI 211

Computational Techniques and Computer Systems
Introduction to computer architecture and computational techniques. Data representation, memory, hardware, interfacing, and limitations. Numerical computation and algorithms, coding design and paradigms.

Prerequisite: ELECTENG 101 and ENGSCI 131, and ENGEN 150 or ENGSCI 111

Corequisite: ENGSCI 211 or 213

ENGSCI 235 15 Points

Modelling and Analytics in Operations Research
Emphasises the relationship between business and industrial applications and their associated operations research models. Software packages will be used to solve practical problems. Topics such as: linear programming, transportation and assignment models, network
algorithms, queues, inventory models, simulation, analytics and visualisation will be considered.

Prerequisite: 15 points at Stage I in Engineering General or Engineering Science or Mathematics or Statistics

Restriction: STATS 255

ENGSCI 263
Engineering Science Design I
Introduction to concepts of model design for engineering problems, including model formulation, solution procedures, validation, and shortcomings, with examples from topics in computational mechanics, operations research and data science. Further development of problem-solving skills, group project work, and group communication skills. The use of computational models to support design-focused decision making while considering ethical, societal, cultural, and environmental factors.

Prerequisite: ENNGEN 115 and ENGSCI 233
Corequisite: ENGSCI 211 or 213

ENGSCI 299
Workshop Practice
Restriction: ENNGEN 299

Stage III

ENGSCI 309
Image and Digital Signal Processing
Fundamentals of image processing and digital signal processing. One dimensional signals and digital filters. Digital filtering with FIR and IIR filters and the Digital Fourier Transform (DFT). Two-dimensional systems, signals and analysis methods. 2D images, spatial sampling, grey-scale quantification, point operations, spatial operations, high pass filtering, sharpening images, noisy images, nonlinear image processing.

Prerequisite: ENGSCI 211 or 213

ENGSCI 311
Mathematical Modelling 3
A selection from: ordinary differential equations, systems of equations, analytical and numerical methods, non-linear ODEs, partial differential equations, separation of variables, numerical methods for solving PDEs, models for optimisation, industrial statistics, data analysis, regression, experimental design reliability methods.

Prerequisite: ENGSCI 211
Restriction: ENGSCI 313, 314

ENGSCI 313
Mathematical Modelling 3ECE
Complex Analysis, including complex numbers, analytic functions, complex integration, Cauchy's theorem, Laurent series, residue theory; Laplace transforms; Modelling with partial differential equations, including electronic and electrical applications; Fourier Analysis, Fourier transform, Fast Fourier transform; Optimisation, including unconstrained and constrained models, linear programming and nonlinear optimisation.

Prerequisite: ENGSCI 211
Restriction: ENGSCI 311, 314

ENGSCI 314
Mathematical Modelling 3ES
Mathematical modelling using ordinary and partial differential equations, calculus of variations and statistical methods. Topics include: eigenvalues, eigenvectors, systems of equations, stability, separation of variables, wave and heat equations, Euler-Lagrange equation, Hamilton's Principle, probability, random variables, common distributions, Poisson process, exploratory data analysis, confidence intervals, hypotheses tests, linear models including one-way and two-way ANOVA, ANCOVA and multiple regression, introduction to logistic regression.

Prerequisite: ENGSCI 211
Restriction: ENGSCI 311, 313, 321

ENGSCI 331
Computational Techniques 2
Methods for computing numerical solutions of mathematical models and data analytics problems with focus on translating algorithms to computer code. A selection of topics from numerical solution of linear and non-linear equations, eigen problems, ordinary and partial differential equations, databases, inverse problems and parameter estimation.

Prerequisite: ENGSCI 233
Corequisite: ENGSCI 311 or 313 or 314

ENGSCI 343
Mathematical and Computational Modelling in Mechanics
Development of macroscopic models of physical systems using fundamental mathematical techniques and physical laws. Topics include vector and tensor calculus including indicial notation and integral theorems, conservation laws, control volumes and constitutive equations, continuum assumptions, isotropy and homogeneity. Possible applications include deformation, strain and stress, fluid flow, electromagnetism, reactive chemical transport, and kinetics.

Prerequisite: BIOMENG 221 or MECHENG 242, and ENGSCI 211 or 213
Restriction: BIOMENG 321

ENGSCI 344
Computational Design for Physical Systems
Integrate sustainability and environmental considerations into computational engineering. This will develop skills in: analysing complexity and selecting an appropriate model representation of the physical problem; choosing the correct computational tool with which to solve the model; designing and executing appropriate numerical experiments using the chosen tool; validating, interpreting and communicating the simulation results. Enhance skills in sustainable decision-making and addressing environmental challenges.

Prerequisite: BIOMENG 321 or ENGSCI 343
Restriction: ENGSCI 746

ENGSCI 355
Simulation Modelling for Process Design
Use of simulation models to design complex processes including consideration of cultural, environmental, societal and ethical factors as appropriate. Focus on practical problem solving, translational methods and the development of real-world modelling skills.

Prerequisite: ENGSCI 255 or STATS 255
Restriction: OPSRES 385

ENGSCI 363
Engineering Science Design II
Application of computational engineering methods combined with optimisation techniques to complex engineering design problems. Group-based integrated design, prototype and test projects that include consideration of societal, ethical and professional engineering factors.

Prerequisite: BIOMENG 241 or ENGSCI 263
Restriction: ENGSCI 773
ENGSCI 391

Optimisation in Operations Research

Linear programming, the revised simplex method and its computational aspects, duality and the dual simplex method, sensitivity and post-optimal analysis. Network optimisation models and maximum flow algorithms. Transportation, assignment and transhipment models, and the network simplex method. Introduction to integer programming.

Prerequisite: 15 points from ENGGEN 150, ENGSCI 111, MATHS 208, 250, 253, and 15 points from COMPSCI 101, ENGGEN 131, MATHS 162, STATS 220

Restriction: ENGSCI 765

Postgraduate 700 Level Courses

ENGSCI 700A

15 Points

Studies in Engineering Science

An advanced course on topics to be determined each year by the Head of Department of Engineering Science. A written report on the work must be submitted.

To complete this course students must enrol in ENGSCI 700 A and B

ENGSCI 701

15 Points

Advanced Mathematical Modelling

A selection of modules on mathematical modelling methods in engineering, including theory of partial differential equations, integral transforms, methods of characteristics, similarity solutions, asymptotic expressions, theory of waves, special functions, non-linear ordinary differential equations, calculus of variations, tensor analysis, complex variables, wavelet theory and other modules offered from year to year.

Prerequisite: 15 points from ENGSCI 311, 313, 314

ENGSCI 705

Special Topic

15 Points

ENGSCI 706

Special Topic

15 Points

ENGSCI 711

Advanced Mathematical Modelling

A selection of modules on mathematical modelling methods in engineering, including theory of partial differential equations, integral transforms, methods of characteristics, similarity solutions, asymptotic expressions, theory of waves, special functions, non-linear ordinary differential equations, calculus of variations, tensor analysis, complex variables, wavelet theory and other modules offered from year to year.

Prerequisite: 15 points from ENGSCI 311, 313, 314

ENGSCI 712

Computational Algorithms for Signal Processing

Advanced topics in mathematical modelling and computational techniques, including topics on singular value decomposition, Principle Component Analysis and Independent Component Analysis, eigen-problems, and signal processing (topics on neural network models such as the multi-layer perception and self organising map).

Prerequisite: 15 points from ENGSCI 311, 313, 314

ENGSCI 713

Mathematical Modelling for Professional Engineers

Mathematical modelling techniques required by professional engineers, such as partial and ordinary differential equations, differentiation and integration, vector calculus, linear algebra, analytical and numerical methods, industrial statistics, and data analysis.

Prerequisite: ENGSCI 211 or 213

Restriction: ENGSCI 311, 313, 314

ENGSCI 721

Data-centric Engineering for Physical Systems

Mathematical modelling of complex physical systems, including model development, parameterisation and evaluation, illustrated using examples from current research and industry. Inverse problems and uncertainty quantification for physical models in engineering and science, including principles of uncertainty propagation for linear and nonlinear physical models given real-world data, and connections to physics-informed machine learning.

Prerequisite: 15 points from COMPSCI 101, ENGGEN 131, MATHS 162, 199; and either 15 points from ENGSCI 311, 313, 314, or MATHS 260 and either STATS 210 or 225

ENGSCI 740

Computational Engineering for Physical Systems

Principles and practice for modelling complex physical systems. Applications in biomechanics, fluid mechanics and solid mechanics. Including topics such as large deformation elasticity theory applied to soft tissues, inviscid flow, compressible flows, viscous flows, meteorology, oceanography, coastal ocean modelling, mixing in rivers, fracture, composite materials and geomechanics. Underlying theories, computational techniques and industry applications explored using commercial software.

Prerequisite: BIOMENG 321 or ENGSCI 343

ENGSCI 741

Waves and Fracture

Advanced topics in mechanics including: waves and wave motion with applications to acoustics, optics, fluid flow problems and shock discontinuities using numerical methods. Fracture: modes of, displacement discontinuity in linear elasticity, stress intensity factor, spectral solution methods, finite friction. Applications include: hydraulic fracturing, earthquakes, macroscale strength of materials.

Prerequisite: BIOMENG 321 or ENGSCI 343

ENGSCI 742

Studies in Continuum Mechanics

An advanced course in continuum mechanics covering topics in the mechanics of solids and fluids and other continua.

Prerequisite: Departmental approval

ENGSCI 745

Petroleum Engineering

Interdisciplinary introduction to topics in geology, geophysics, reservoir engineering, drilling and production engineering relevant to the production of oil and gas. Mathematical models of multiphase fluid flow in porous media. Reservoir engineering tools for analysis and forecasting of reservoir performance. Unconventional petroleum resources.

Prerequisite: 15 points from ENGSCI 311, 313, 314

ENGSCI 746

Advanced Modelling and Simulation in Computational Mechanics

Solution of real-world continuum mechanics problems using computational tools commonly used in engineering practice. Develops skills in analysing complexity; selecting a model representation of the physical problem; choosing the correct computational tool to solve the model; designing and executing appropriate numerical experiments; validating, interpreting and communicating simulation results. Advanced solver methods, and modelling of
advanced materials such as large-deformation elastic/plastic materials.
Prerequisite: BIOMENG 321 or ENGSCI 343
Restriction: ENGSCI 344

ENGSCI 753
Computational Techniques in Mechanics and Bioengineering
Theoretical and applied finite element and boundary element methods for static and time dependent problems of heat flow, bioelectricity, linear elasticity and non-linear mechanics.
Prerequisite: ENGG 131 or equivalent, and 15 points from ENGSCI 311, 313, 314

ENGSCI 755
Decision Making in Engineering
Introduction to techniques for decision making in engineering systems including decision heuristics, simple prioritisation, outranking approaches, analytic hierarchy process, application to group decision making.
Prerequisite: ENGGSCI 211 or MATHS 250

ENGSCI 760
Algorithms for Optimisation
Meta-heuristics and local search techniques such as Genetic Algorithms, Simulated Annealing, Tabu Search and Ant Colony Optimisation for practical optimisation. Introduction to optimisation under uncertainty, including discrete event simulation, decision analysis, Markov chains and Markov decision processes and dynamic programming.
Prerequisite: 15 points from COMPSCI 101, ENGGSCI 131, MATHS 162, 199, and 15 points from COMPSCI 120, ENGGSCI 111, STATS 125

ENGSCI 761
Integer and Multi-objective Optimisation
Prerequisite: ENGSCI 391 or 765

ENGSCI 762
Scheduling and Optimisation in Decision Making
A course of advanced topics arising in the practical application of optimisation models for machine and resource scheduling, routing applications, staff rostering and performance measurement.
Prerequisite: ENGSCI 391 or 765

ENGSCI 763
Advanced Simulation and Stochastic Optimisation
Prerequisite: ENGSCI 391 or 765

ENGSCI 765
Advanced Optimisation in Operations Research
Linear programming, the revised simplex method and its computational aspects, duality and the dual simplex method, sensitivity and post-optimal analysis. Network optimisation models and maximum flow algorithms. Transportation, assignment and transhipment models, and the network simplex method. Integer programming. The implementation and solution of optimisation models for practical applications.
Prerequisite: 15 points from ENGGSCI 150, ENGSCI 111, MATHS 208, 250, 253, and 15 points from COMPSCI 101, ENGGSCI 131, MATHS 162, STATS 220
Restriction: ENGSCI 391

ENGSCI 768
Advanced Operations Research and Analytics
Advanced Operations Research and Analytics topics including selected theory, algorithms and applications for non-linear programming, smooth and non-smooth optimisation, equilibrium programming and game theory.
Prerequisite: ENGSCI 391 or 765

ENGSCI 772
Whole Organ Modelling
Prerequisite: BIOMENG 321 or ENGSCI 343

ENGSCI 773
Capstone Project
Group based projects involving the application and integration of knowledge in computational engineering, data analytics and operations research for design, prototyping and performance testing of a new product. Topics include social and Te Tiriti considerations, engineering design practice, optimisation methods in robust design, material selection and structural analysis, risk management, communication skills, prototype manufacturing and design validation.
Prerequisite: 60 points from courses listed in Part III of the BE(Hons) Schedule for Engineering Science
Restriction: ENGSCI 363

ENGSCI 787
Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

ENGSCI 788A
Project Y - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in ENGSCI 788 A and B

ENGSCI 789
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

ENGSCI 793A
45 Points
ENGSCI 793B
45 Points

Thesis (Operations Research and Analytics) - Level 9
Prerequisite: Departmental approval
To complete this course students must enrol in ENGSCI 793 A and B

ENVENG 706 15 Points
Special Topic
A course on a topic in environmental engineering to be determined each year by the Head of Department.
Restriction: ENVENG 403

ENVENG 707 15 Points
Advanced Water Treatment and Reuse - Level 9
Advanced water, wastewater, greywater, stormwater treatment technologies including advanced oxidation processes, photochemistry, electrochemistry, membrane treatment, and fundamentals of water reuse, applications, and case studies for potable reuse, industrial reuse, and aquifer recharge. Includes an individual research project.
Prerequisite: either ENVENG 300 and 331, or ENVENG 244 and 342

ENVENG 708 15 Points
Environmental Engineering for Sustainable Futures
Addresses emerging engineering solutions to challenges facing humankind including climate change, sustainability and resilience of our society, and persistent waste and pollution in the environment. Includes applications of systems modelling through a holistic thinking lens, sustainability innovations, risk assessment and impact in various technologies and processes, climate change adaptation and mitigation.

ENVENG 719 15 Points
Design Project
A design project requiring input from more than one engineering subdiscipline. The department will offer a number of projects from which the students may select. It will be possible for groups of students to work together on a project. Assessment will be based on a report and an oral presentation of the outcome of the project.
Restriction: ENVENG 419

ENVENG 740 15 Points
Water and Wastewater Engineering

ENVENG 744 15 Points
Environmental Engineering Processes Laboratory
Laboratory research methods (safety, sampling procedures, sample preservation, data analysis and report writing). Laboratory experiments exploring various physical, chemical and biological processes, such as sedimentation, chemical coagulation and precipitation, chlorination, reactor residence time distribution, activated carbon and anaerobic digestion.

ENVENG 746 15 Points
Surface Water Quality Modelling - Level 9
Advanced specialist topics in modelling of lakes and rivers. Specific topics covered include response to different loadings applied to surface water systems, and modelling of organic matter, dissolved oxygen consumption, eutrophication, and toxic substances. The core taught skills are extended by an individual project in which independent research is undertaken to solve a challenging surface water quality engineering problem.
Prerequisite: either ENVENG 300, or ENVENG 341 and 342

ENVENG 747 15 Points
Environmental Fate of Chemicals and Mitigation - Level 9
Focuses on modelling sorption, degradation kinetics, and leaching of chemicals in the soil environment. Topics include deriving sorption parameters, parent and metabolite fitting with statistical rigours, calculating degradation end-points, novel adsorbents for removing contaminants in soil and water. The core taught skills are extended by an individual project in which independent research is undertaken to solve an environmental issue.
Prerequisite: ENVENG 300 or 341

ENVENG 750 15 Points
Advanced Sustainability Engineering - Level 9
Focuses on an advanced understanding of the science of sustainability and its application to engineering practice and management, including complex systems thinking, tools to assess sustainability, management, leadership and decision making leading to sustainability, global directions towards sustainability across cultural systems. Develops critical analytical thinking and research based knowledge through debates and an applied research project.

ENVENG 752 15 Points
Sustainability and Life Cycle Assessment
Assessment and applications of sustainability principles in the design of products and/or infrastructures, including the use of sustainability tools. Provides an overview of life cycle assessment (LCA) based on ISO 14040 and ISO 14044 standards. Introduces LCA software to assist in analysing the data, interpreting the results and writing LCA reports.

ENVENG 760 15 Points
Water-Sensitive Cities
Examines pressures put on urban water systems, and explores their viability and effectiveness in the New Zealand context, both under current and future climate scenarios. Exploring population growth, climate change and economics put pressure on urban water systems, and the need for urban water systems design to be resilient to such pressures.

ENVENG 787 15 Points
Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

ENVENG 788A 15 Points
ENVENG 788B 15 Points
Project Y - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in ENVENG 788 A and B

ENVENG 789 30 Points
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

ENVENG 795 15 Points
ENVENG 795A 15 Points
ENVENG 795B 30 Points
Research Project (Environmental) - Level 9
Students are required to submit a report on a topic relevant
Mechanical Engineering

Stage II

MECHENG 201 15 Points
Introduction to Mechatronics
Introduces mechatronics to mechanical and mechatronics engineers. Covers sensors and actuators, analogue and digital circuit elements for signal processing and programming.
Prerequisite: ELECTENG 101, ENGGEN 131

MECHENG 211 15 Points
Thermofluids
The fundamentals of fluid mechanics, thermodynamics and heat transfer with practical applications to engineering devices and systems.

MECHENG 222 15 Points
Dynamics
Kinematics of particles, rectilinear and curvilinear motion, kinematics of rigid bodies in the plane. Kinetics of particles, systems of particles and rigid bodies. Impulse and momentum, mechanism motion in the plane. Vibration of a particle.
Prerequisite: ENGGEN 121 or 150

MECHENG 235 15 Points
Design and Manufacture 1
The engineering design process as a teamwork and problem-solving activity involving analysis, synthesis, evaluation and critical thinking. Design methodology and communicating design intent through written and graphical means. Introduction to selected motive power sources, machine elements for mechanical power systems, and production and fabrication processes.
Prerequisite: ENGGEN 115

MECHENG 236 15 Points
Design and Manufacture 2
Machine elements and their use in engineering design, including internal combustion engines, clutches, brakes, and basic hydraulic and pneumatic systems and components. Material-based production processes and fabrication methods. Design reliability and safety. Basic principles of "Design for X".
Prerequisite: MECHENG 235

MECHENG 242 15 Points
Mechanics of Materials 1
Prerequisite: ENGGEN 121 or 150

MECHENG 270 15 Points
Software Design
Fundamentals of software design and high-level programming making use of case studies and programming projects. Includes: requirements analysis, specification methods, software architecture, software development environments, software quality, modularity, maintenance, reusability and reliability; models of software development.
Prerequisite: ENGGEN 131
Restriction: COMPSYS 202, SOFTENG 281

MECHENG 299 0 Points
Workshop Practice
Restriction: ENGGEN 299

Stage III

MECHENG 306 15 Points
Design of Sensing and Actuating Systems
A range of projects on mechatronic elements and systems, involving sensors, actuators and microcontrollers, as well as their interfacing. The design of mechatronic sub-systems, including interfacing, signal conditioning and processing, sensors, actuators, control technologies, software, systems modelling, simulation, analysis and design.
Prerequisite: MECHENG 235 and 270
Restriction: MECHENG 312

MECHENG 311 15 Points
Thermal Engineering
Prerequisite: MECHENG 211

MECHENG 313 15 Points
Design of Real-Time Software
Introduces the principles of software design in a real-time environment. Main topics include computer/microcontroller architecture, programming in a real-time environment, software design and data acquisition systems.
Prerequisite: MECHENG 270

MECHENG 322 15 Points
Control Systems
An introduction to classical control of mechanical and mechatronic systems. Topics include: transfer functions, block diagrams, time response characteristics, stability, frequency response characteristics, and controller design (e.g., pole placement, lead-lag compensation, PID). Applications in MATLAB/Simulink and with physical systems.
Prerequisite: ENGSCE 211, MECHENG 222

MECHENG 325 15 Points
Dynamics of Fluids and Structures
3D rigid body dynamics - inertia tensor, Euler's equations, gyroscopic motion. Vibration of single and two degree of freedom systems. Applications to vibration engineering. Introductory acoustics and spectral analysis. Mass, linear momentum, angular momentum and energy equations. Application to internal and external flows, boundary layers, pumps, turbines and lifting bodies. Experimental and numerical methods, dimensional analysis, similarity, and flow measurement.
Prerequisite: MECHENG 211, 222
MECHENG 334  
Design and Manufacture 3  
15 Points  
Good practice and standard methods in mechanical engineering design. Conceptual and detailed design in projects involving machine elements, engineering sciences and engineering mechanics. Some of the advanced computer-aided tools (e.g., CAD, CAM, CAE) will be introduced and utilised in some projects. 
Prerequisite: MECHENG 235, 236, 242

MECHENG 340  
Mechanics of Materials 2  
15 Points  
Complex material behaviour and structural analysis, extending capability from two to three dimensions. States of stress and strain at a point in a general three-dimensional stress system. Generalised stress-strain relations for linearly elastic isotropic materials. Failure theories for ductile and brittle materials, elementary plasticity, and fatigue. Analytical techniques and numerical analysis of complex mechanical elements. 
Prerequisite: MECHENG 242

MECHENG 352  
Manufacturing Systems  
15 Points  
An introduction to the procedures and technological aspects of a typical manufacturing system; basic concepts and practice of plant and work design, automation, CAD/CAM, planning and simulation; selected IoT technologies; and project-based introduction to the tools and techniques applied by professional engineers in a modern manufacturing setting.

MECHENG 370  
Electronics and Signal Processing  
15 Points  
An introduction to the design, analysis and implementation of electronic circuits or systems for various applications such as signal generation and processing, interfacing, and high power electronics. 
Prerequisite: ELECTENG 101

MECHENG 371  
Digital Circuit Design  
15 Points  
Fundamental concepts in the design of combinational and sequential logic circuits. Modern approach to design using CAD tools that exploit the advantage of automation. Students will be exposed to the use of FPGA to rapid prototype digital systems using schematic and hardware description language entries. 
Prerequisite: ELECTENG 101

Postgraduate 700 Level Courses

MECHENG 700A  
15 Points

MECHENG 700B  
15 Points

Research Project - Level 9

Supervised research on a topic in engineering culminating in an independent written project report that includes a literature review, a description of the research and its findings, and a statement of research contribution. Further supporting technical material will be provided as a compendium. 
Prerequisite: 75 points from Part III courses in the BE(Hons) Schedule 
Restriction: MECHENG 407, 408, 461, 462, 762, 763 
To complete this course students must enrol in MECHENG 700 A and B

MECHENG 701  
Directed Study  
15 Points  
Supervised research on a topic or topics approved by the Academic Head or nominee.

MECHENG 702  
Directed Study  
15 Points  
Supervised research on a topic or topics approved by the Academic Head or nominee.

MECHENG 705  
Mechatronics Systems  
15 Points  
Fundamentals of digital control and signal processing as applied to mechatronics systems. Modelling and analysis of mechatronics systems that includes transducers and applications. Issues related to mechatronics systems such as thermal management, signal detection, filtering and integrity, etc. 
Prerequisite: MECHENG 322, 370

MECHENG 706  
Mechatronics Design Projects  
15 Points  
A range of projects that demonstrate the application and integration of engineering knowledge to create practical intelligent devices, machines and systems. AI based control techniques will be introduced. 
Prerequisite: MECHENG 306, 313, 370

MECHENG 707  
Special Topic  
15 Points

MECHENG 708  
Special Topic  
15 Points

MECHENG 709  
Industrial Automation  
15 Points  
Automation technologies widely used in manufacturing and processing industries. Topics include industrial robotics; programmable logic controllers (PLCs); pneumatics; machine vision systems; automated assembly; design for automation; and Industry 4.0 (such as machine-to-machine communications and data analysis). Students will participate in a number of hands-on labs throughout the course. 
Restriction: MECHENG 710

MECHENG 710  
Advanced Industrial Automation - Level 9  
15 Points  
Automation technologies widely used in manufacturing and processing industries. Topics include: industrial robotics; programmable logic controllers (PLCs); pneumatics; machine vision systems; automated assembly; design for automation; and Industry 4.0 (such as machine-to-machine communications and data analysis). Students will participate in a number of hands-on labs, including an individual research project related to the application of advanced automation techniques. 
Restriction: MECHENG 709

MECHENG 711  
Advanced Computational Fluid Dynamics - Level 9  
15 Points  
Application of computational methods to fluid dynamics and heat transfer. Finite volume and finite difference methods. Convergence and stability. Mesh generation and post-processing. Application of commercial computer programs to industrial problems. An individual project in which the student will be required to apply a commercial CFD code to a research problem of the student’s choice. 
Restriction: MECHENG 718
MECHENG 712 15 Points
Aerohydrodynamics
The study of fluid mechanics relevant to external flows, e.g., wind turbines, yachts, aircraft or wind loadings on buildings, boundary layers, computational fluid dynamics. 
Prerequisite: MECHENG 325

MECHENG 713 15 Points
Energy Technology
Industrial thermodynamics and energy conversion/efficiency, power cycles, availability and irreversibility, simple combustion analysis, mass transfer, energy studies, boiling and condensation. 
Prerequisite: MECHENG 311

MECHENG 714 15 Points
Wind Engineering - Level 9
Advanced specialist topics in wind engineering such as: the wind-loading chain - planetary boundary-layer flow, extreme winds, wind structure, wind loads, dynamic response, bluff body aerodynamics, vortex shedding, aerelasticity, wind-tunnel testing, pedestrian level winds, wind energy. The core taught skills are extended by an individual project in which independent research is undertaken to solve a challenging wind engineering problem. 
Prerequisite: MECHENG 712

MECHENG 715 15 Points
Building Services
Principles and practice of heating, ventilation, air-conditioning and refrigeration (HVAC&R), psychrometry, heating/cooling loads, mass transfer and air quality, refrigeration/heat pump systems, cooling towers, pumps, fans, valves, pipes and ducts. 
Prerequisite: MECHENG 325

MECHENG 717 15 Points
Advanced Thermal Systems
Fundamentals of advanced thermodynamics. Topics covered will include a selection from: cycles and applications, heat and mass transfer, psychrometry, refrigeration and air-conditioning, internal combustion engines, combustion, thermal system design and simulation.

MECHENG 718 15 Points
Computational Fluid Dynamics
Restriction: MECHENG 711

MECHENG 719 15 Points
Advanced Engineering Vibrations - Level 9
Selected topics in advanced vibration engineering: multiple degree of freedom and continuous systems, spectral analysis, analytical, approximate and numerical methods, including FEA, vibration instrumentation, measurement and testing, modal analysis, vibration treatment. Includes an individual project in which independent research is undertaken to solve a challenging advanced vibration problem. 
Prerequisite: MECHENG 325
Restriction: MECHENG 722

MECHENG 720 15 Points
Advanced Multivariable Control Systems - Level 9
Advanced control of mechanical and mechatronic systems. Topics include: state-space representations, linearisation, discretisation, stability, state feedback control design, optimal control, state estimation and Kalman filters. Applications in MATLAB/Simulink and with physical systems. Includes an individual research project related to the design of advanced control systems encountered in practice. 
Prerequisite: MECHENG 322
Restriction: ELECTENG 722, MECHENG 724

MECHENG 722 15 Points
Engineering Vibrations
Selected topics in vibration engineering: Multiple degree of freedom and continuous systems; Spectral analysis; analytical, approximate and numerical methods, including FEA; vibration instrumentation, measurement and testing; modal analysis; vibration treatment. 
Prerequisite: MECHENG 325 or equivalent
Restriction: MECHENG 719

MECHENG 724 15 Points
Multivariable Control Systems
Advanced control of mechanical and mechatronic systems. Topics include: state-space representations, linearisation, discretisation, stability, state feedback control design, optimal control, state estimation and Kalman filters. Applications in MATLAB/Simulink and with physical systems. 
Prerequisite: MECHENG 322
Restriction: ELECTENG 722, MECHENG 720

MECHENG 726 15 Points
Acoustics for Engineers
Prerequisite: ELECTENG 331 or MECHENG 325

MECHENG 728 15 Points
Advanced MEMS and Microsystems - Level 9
Working principles and fabrication of MEMS/microsystems such as microsensors, microactuators, microfluidics, etc. Exposure to engineering design principles including engineering mechanics, fluidics, materials, etc., at microscale. Includes an individual research project related to the design and fabrication of a device for an advanced application. 
Prerequisite: MECHENG 325
Restriction: MECHENG 735

MECHENG 730 15 Points
Advanced Biomechatronic Systems - Level 9
Advanced mechatronic principles and techniques for measuring and manipulating biological systems. Human biomechanics and motion control, advanced serial and parallel robots, compliant soft robots, software and functional safety, human robot interaction and force control, novel sensors and actuators, and biomechantronic design principles. Includes an individual research project related to the analysis, selection and successful implementation of one of these advanced technologies.
Restriction: MECHENG 736

MECHENG 731 15 Points
Mechanical Design Projects
A variety of engineering projects requiring the development and communication of design solutions to a professional
standard, and using a wide range of advanced engineering methods.
Prerequisite: MECHENG 334

MECHENG 735
15 Points
MEMS and Microsystems
Introduction to working principles and fabrication of MEMS/microsystems such as microsensors, microactuators, microfluidics, etc. Exposure to engineering design principles including engineering mechanics, fluidics, materials, etc. at microscale. Exposure to microfabrication processes as part of a laboratory component.
Prerequisite: MECHENG 325
Restriction: MECHENG 728

MECHENG 736
15 Points
Biomechatronic Systems
Mechatronic principles and techniques for measuring, assisting, augmenting and mimicking biological systems. Topics include: brain machine interfaces, sensors and actuators, biomechanics and motion control, wearable and assistive devices, bioinstrumentation, soft robotic technologies, human factors, safety/ethical aspects, and biomechatronic design principles. Significant hands-on experience through the design, modelling and development of paradigmatic biomechatronic systems.
Restriction: MECHENG 730

MECHENG 742
15 Points
Advanced Materials Manufacturing - Level 9
Properties and processing of polymers and polymer composites. Analysis of selected manufacturing processes such as injection moulding, extrusion and liquid composites moulding. Viscous flow, flow through porous media and heat transfer. Includes an individual research project related to recent developments in advanced composites in terms of processability/manufacturability, functionality and performance/potential.

MECHENG 743
15 Points
Composite Materials
Prerequisite: MECHENG 340

MECHENG 747
15 Points
Manufacturing and Industrial Processes
Analysis and design of manufacturing processes, with a focus on techniques to manipulate metals and polymers. Application of solid mechanics, fluid mechanics and heat transfer to current additive, subtractive, forming and injection/casting manufacturing technologies. Topics include: bulk and sheet forming, extrusion, injection moulding, 2D and 3D printing processes.
Prerequisite: MECHENG 340

MECHENG 751
15 Points
Advanced CAD/CAM/CNC - Level 9
Advanced computer-aided design (CAD), computer-aided manufacturing (CAM) and computer numerical control (CNC). Intelligent CAD, feature-based design and manufacturing, CAD data interoperability, advanced CAM methodologies, smart CNC systems, and integration of the above technologies. Includes an independent research project to demonstrate mastery of the philosophy, analysis, selection and successful implementation of manufacturing technologies.
Prerequisite: MECHENG 352 or 752

MECHENG 752
15 Points
Technology Management
An appreciation of the strategic systems and technology management aspects of manufacturing systems. Industry based projects that explore the design and optimisation of manufacturing operations form a major part of the course.
Prerequisite: B grade or higher in ENGGEN 303

MECHENG 753
15 Points
Advanced Industry 4.0 Smart Manufacturing - Level 9
New or emerging technologies and their applications in manufacturing enterprises, including Industry 4.0, product modelling technologies, smart manufacturing systems, industrial IoT (Internet of Things) sensing and data analysis technologies, digital twins, and applications of RFID (Radio Frequency Identification) and interoperability standards such as OPC UA in a modern manufacturing setting. Students will work on research projects individually and independently on a topic related to Industry 4.0.
Prerequisite: MECHENG 352 or 752
Restriction: MECHENG 709, 710, 754

MECHENG 754
15 Points
Industry 4.0 Smart Manufacturing
New information technologies and their applications in manufacturing enterprises, including introduction to Industry 4.0, product modelling technologies, smart manufacturing systems, industrial IoT sensing and data analysis technologies, digital twins and applications of RFID in a modern manufacturing setting.
Restriction: MECHENG 709, 710, 753

MECHENG 755
15 Points
Design for Additive Manufacturing
Design for additive manufacturing (AM), metal AM, polymer AM, AM technologies, material extrusion, powder bed fusion, vat photopolymerisation, material jetting, binder jetting, AM thought process, economics of AM, support generation, residual stress reduction, post-processing, computational design, light-weighting, topology optimisation, lattice structures, mass-customisation, tooling, conformal cooling, heat exchangers, part consolidation, specialised AM software: nTopology Magics, Inspire, CAD for AM.
Prerequisite: MECHENG 235

MECHENG 757
15 Points
Project X - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

MECHENG 787
15 Points
Project Y - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval

To complete this course students must enrol in MECHENG 788 A and B

MECHENG 789
30 Points
Project Z - Level 9
Students are required to submit a report on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
MECHENG 795  45 Points
MECHENG 795A  15 Points
MECHENG 795B  30 Points
Research Project (Mechanical) - Level 9
Students are required to submit a report on a topic relevant to the specialisation, as assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in MECHENG 795 A and B, or MECHENG 795

MECHENG 796A  60 Points
MECHENG 796B  60 Points
ME Thesis (Mechanical) - Level 9
Students are required to submit a thesis on a topic assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in MECHENG 796 A and B

Polymer Engineering

Postgraduate 700 Level Courses

POLYMER 700  15 Points
Polymer Materials Engineering
Microstructure and morphology of semi-crystalline and amorphous polymers, including alloys and thermoplastic elastomers. The study of structure/property/processing inter-relationships for polymer materials.
Restriction: CHEMMAT 740

POLYMER 704  15 Points
Advanced Polymer Processing
In-depth coverage of advanced polymer processing techniques. Study of additives, degradation processes and the prevention of degradation, formulation of products (thermosets and specialty polymers) and mixing of materials. Advanced moulding techniques, reaction injection moulding and processing biopolymers and specialty polymers as well as liquid moulding.
Restriction: CHEMMAT 741, 743

POLYMER 705  15 Points
Polymer Process and Product Design
Restriction: CHEMMAT 742

Software Engineering

Stage II

SOFTENG 206  15 Points
Software Engineering Design 1
Project work. Skills and tools in systematic development of software, including testing, version control, build systems, working with others. Professional issues introduced in ENNGEN 204 (ethics, communication, and teamwork) are reinforced and developed while simulating a client-facing software development process.
Prerequisite: SOFTENG 251 or 281

SOFTENG 211  15 Points
Software Engineering Theory
Prerequisite: ENNGEN 131 or COMPSCI 101

SOFTENG 250  15 Points
Introduction to Data Structures and Algorithms
Introduction to the analytical and empirical behaviour of basic algorithms and data structures.
Prerequisite: ENNGEN 131 or COMPSCI 101
Corequisite: ENGSCT 211

SOFTENG 251  15 Points
Object Oriented Software Construction
An introduction to Object Oriented software development. Programming with classes; objects and polymorphism. Evolutionary and test-driven development. Analysis and design. Modelling with UML. Design patterns. Design for reuse, for testing, and for ease of change.
Prerequisite: ENNGEN 131 or COMPSCI 101

SOFTENG 254  15 Points
Quality Assurance
Software verification and validation. Static and dynamic QA activities as part of the software lifecycle. Unit, integration, system, and usability testing. Use of visual notations, automation, and tools to support development activities. Metrics to quantify strength of testing and complexity of programs.
Prerequisite: SOFTENG 250, 251

SOFTENG 281  15 Points
Object-Oriented Programming
Computer programming using objects as the mechanism for modularity, abstraction, and code reuse. Review of control structures for conditionals and iteration. Instance variables, methods, and encapsulation. Interfaces, inheritance, polymorphism, and abstract classes. Exception handling. Introduction to basic data structures and basic algorithms including sorting and searching.
Prerequisite: COMPSCI 101 or ENNGEN 131
Restriction: COMPSCI 230, COMPYS 202, MECHENG 270, SOFTENG 251
Course Prescriptions

2024 Calendar Faculty of Engineering

SOFTENG 282  15 Points
Software Engineering Theory
Theoretical foundations of software engineering, including sets, formal languages, operations on languages, deterministic and non-deterministic automata, designing automata, determinisation, regular expressions, logic, induction, recursion, program correctness, computability, counting, elements of graph algorithms.
Prerequisite: COMPSCI 101 or ENGENG 131
Restriction: COMPSCI 225, SOFTENG 211

SOFTENG 283  15 Points
Software Quality Assurance
Software verification and validation. Static and dynamic quality assurance activities as part of the software lifecycle. Unit, integration, system, and usability testing. Metrics to quantify strength of testing and complexity of programs. Techniques for engineering of software systems including requirements, specification, validation, verification. Modelling paradigms including information, behaviour, domain, function and constraint models. Specification languages.
Prerequisite: COMPYS 202 or SOFTENG 251 or 281
Restriction: SOFTENG 254

SOFTENG 284  15 Points
Data Structures and Algorithms
Data structures including linked-lists, stacks, queues, trees, hash tables; graph representations and algorithms, including minimum spanning trees, traversals, shortest paths; introduction to algorithmic design strategies; correctness and performance analysis.
Prerequisite: COMPYS 202 or SOFTENG 251 or 281
Restriction: COMPSCI 220, 717, SOFTENG 250

SOFTENG 299  0 Points
Workshop Practice
Restriction: ENGENG 299

Stage III

SOFTENG 306  15 Points
Software Engineering Design 2
Working in project teams to develop software to meet changing requirements for a large application. Project planning, Requirements gathering. Estimating, costing and tracking. Acceptance and unit testing. Evolutionary design and development. Collaborative development tools. Professional issues introduced in ENGENG 204 and 303 (communication, leadership, teamwork, safety in design) are reinforced and developed.
Prerequisite: SOFTENG 206, and SOFTENG 254 or 283

SOFTENG 310  15 Points
Software Evolution and Maintenance
Design and maintenance of multi-version software, debugging techniques, design and documentation for software re-use, programme migration and transformation, refactoring, tools for software evolution and maintenance.
Prerequisite: SOFTENG 254 or 283

SOFTENG 325  15 Points
Software Architecture
Taxonomy of software architecture patterns, including client/server and multi-tier. Understanding quality attributes. Methodologies for design of software architectures. Technologies for architecture level development, including middleware.
Prerequisite: COMPYS 302 or SOFTENG 254 or 283
Restriction: COMPSCI 331

SOFTENG 350  15 Points
Human Computer Interaction
Human behaviour and humans' expectations of computers. Computer interfaces and the interaction between humans and computers. The significance of the user interface, interface design and user centred design process in software development. Interface usability evaluation methodologies and practice. Includes an evaluation project, group design project, and implementation using current techniques and tools.
Prerequisite: SOFTENG 206 or 283
Restriction: COMPSCI 345, 370

SOFTENG 351  15 Points
Fundamentals of Database Systems
Relational model, Relational algebra, Relational calculus, SQL, SQL and programming languages, Entity-Relationship model, Normalisation, Query processing, Query optimisation, Distributed databases, Transaction management, Concurrency control, Database recovery.
Prerequisite: SOFTENG 251 or 281
Restriction: COMPSCI 351

SOFTENG 364  15 Points
Networks and Security
Physical networks, TCP/IP protocols, switching methods, network layering and components, network services. Information security, computer and network security threats, defence mechanisms and encryption.
Prerequisite: COMPYS 201, and SOFTENG 251 or 281

SOFTENG 370  15 Points
Operating Systems
Prerequisite: COMPYS 201, and SOFTENG 251 or 281
Restriction: COMPSCI 340

Postgraduate 700 Level Courses

SOFTENG 700A  15 Points
SOFTENG 700B  15 Points
Research Project - Level 9
Students are required to submit a report on project work carried out on a Software Engineering topic assigned by the Head of Department.
Prerequisite: SOFTENG 306
To complete this course students must enrol in SOFTENG 700 A and B

SOFTENG 701  15 Points
Advanced Software Engineering Development Methods - Level 9
Advanced studies in methods and techniques for developing complex software systems including topics in software engineering environments, advanced software design, tool construction and software architectures. The core taught skills are extended by individual projects in which independent research is undertaken to address challenging software system problems.
Prerequisite: COMPYS 302 or SOFTENG 306

SOFTENG 702  15 Points
Advanced Human Computer Interaction
Advanced topics in human computer interaction and human
aspects of computer systems relevant to commercial solution development and computer science research. Sample topics: advanced evaluation methods; support of pen and touch-based interaction; trends with domain specific user interface design, such as interfaces for enterprise systems.

Prerequisite: SOFTENG 350
Restriction: COMPSCI 705

SOFTENG 710 15 Points
Studies in Software Engineering 1
Advanced courses on topics to be determined each year by the Head of Department.
Prerequisite: Departmental approval

SOFTENG 711 15 Points
Studies in Software Engineering 2
Advanced courses on topics to be determined each year by the Head of Department.
Prerequisite: Departmental approval

SOFTENG 715 15 Points
Special Topic

SOFTENG 750 15 Points
Software Development Methodologies
Software lifecycle; software process models; examples of software processes; software process improvement; project management; tool support for software development; issues in software engineering.
Prerequisite: COMPSCI 702 or SOFTENG 306
Restriction: COMPSCI 732

SOFTENG 751 15 Points
High Performance Computing - Level 9
Advanced parallel and high performance computing concepts and techniques such as parallel system architecture; parallelisation concepts, algorithms and methodology; parallel programming paradigms and technologies. Core concepts and skills are deepened by a hands-on research project in which a challenging parallel computing problem is analysed and solved.
Prerequisite: COMPSCI 702 or SOFTENG 306

SOFTENG 752 15 Points
Formal Specification and Design - Level 9
Formal specification, design, and (automatic) analysis of software systems. Quality assurance through precise description and rigorous verification on the design. Introduction to the Z, OCL and CSP notations. Comparison of approaches, with emphasis on their practical application. Includes a substantial individual research project.
Prerequisite: COMPSCI 702 or SOFTENG 306

SOFTENG 753 15 Points
Machine Learning Techniques and Applications
Examines classic and state of the art algorithms in the field of machine learning. Topics may include: Bayesian classification, regression and state estimation; clustering and mixture models; kernel-based methods; sequential models; graphical models; neural networks and deep architectures.
Prerequisite: COMPSCI 702 or SOFTENG 306

SOFTENG 754 15 Points
Advanced Software Requirements Engineering - Level 9
Advanced software engineering concepts focusing on techniques for requirements analysis and requirements engineering (RE) of software systems. Topics will include: requirements elicitation, analysis, specification, validation, verification, user experience design, test-driven development and continuous integration. Includes a substantial individual research project.
Prerequisite: COMPSCI 702 or SOFTENG 306

SOFTENG 755 15 Points
Special Topic

SOFTENG 761 15 Points
Advanced Agile and Lean Software Development - Level 9
Advanced software engineering concepts focussing on Agile and Lean software development; including hands-on iterative and incremental software development, self-organising teamwork, project management, and an individual research component to explore challenging issues in this discipline.
Prerequisite: COMPSCI 702 or SOFTENG 306

SOFTENG 762 15 Points
Robotics Process Automation
Covers the fundamentals of Robotic Process Automation (RPA) systems. Students explore what RPA is and where it is useful, how RPA fits into current information technology setups, extracting and manipulating data from both external and internal sources, generating reports and statistics, and orchestrating multi-robot installations.
Prerequisite: COMPSCI 702 or SOFTENG 306

SOFTENG 770 15 Points
Capstone Project
Final year team exercise with students in multi-disciplinary roles, with focus on software engineering, integrating technical learning into realistic design outcomes. Comprehensive investigation of an open ended, complex, real or synthetic computer, electrical and software engineering problem with simulated professional design office constraints. Includes technical, economic and environmental impact components to complete a scheme assessment report.
Prerequisite: 75 points from Part III courses listed in the BE(Hons) Schedule for the Software Engineering specialisation

SOFTENG 787 15 Points
Project X - Level 9
Students are required to submit a report on a topic assigned by the Head of Department.
Prerequisite: Departmental approval

SOFTENG 788A 15 Points
SOFTENG 788B 15 Points
Project Y - Level 9
Students are required to submit a report on a topic assigned by the Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in SOFTENG 788 A and B

SOFTENG 789 30 Points
Project Z - Level 9
Students are required to submit a report on a topic assigned by the Head of Department.
Prerequisite: Departmental approval

SOFTENG 795 45 Points
SOFTENG 795A 15 Points
SOFTENG 795B 30 Points
Research Project (Software Engineering) - Level 9
Students are required to submit a report on a topic relevant
to the specialisation, as assigned by the appropriate Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in SOFTENG 795 A and B, or SOFTENG 795

SOFTENG 796A 60 Points
SOFTENG 796B 60 Points
ME Thesis (Software Engineering) - Level 9
Students are required to submit a thesis on a topic assigned by the Head of Department.
Prerequisite: Departmental approval
To complete this course students must enrol in SOFTENG 796 A and B

Structural Engineering

Stage II

STRCTENG 200 15 Points
Introductory Structural Mechanics
Introduction to structural analysis for civil engineers. Equilibrium, internal actions and deformations, structural forms, structural systems, analysis of determinate systems, plane section properties, elasticity, engineering beam theory, failure theories. Prepares students to embark on further studies in structural design.
Prerequisite: ENNGEN 121
Restriction: CIVIL 210

STRCTENG 201 15 Points
Civil Engineering Materials and Design
Properties and manufacturing of civil engineering material including concrete, steel, timber structural products and roading material. Design principles and examples for concrete, steel and timber members.
Restriction: CIVIL 250

STRCTENG 299 0 Points
Workshop Practice
Restriction: ENNGEN 299

Stage III

STRCTENG 300 15 Points
Design Loads and Dynamic Response of Structures
Determination of design loads according to AS/NZS1170 and the response of structures under dynamic loadings.
Prerequisite: CIVIL 210 or STRCTENG 200
Restriction: CIVIL 314

STRCTENG 301 15 Points
Timber Structures Design
Structural analytical techniques including computer based approaches to simple indeterminate structures. Design procedures for members and structural systems of timber and engineered wood products including environmental and sustainability considerations in design. Design project.
Prerequisite: CIVIL 210 or STRCTENG 200
Restriction: CIVIL 312

STRCTENG 302 15 Points
Steel Structures Design
Mechanical properties of steel and contextualises the application of steel and steel/concrete into buildings and bridges including material environmental and sustainability considerations. Comprehensive introduction to design of structural steel members and connections and their use in structures. Application to vertical load carrying systems and steel building behaviour in earthquake and fire.
Prerequisite: CIVIL 210 or STRCTENG 200
Restriction: CIVIL 313

STRCTENG 303 15 Points
Concrete Structures Design
Design of reinforced concrete members including beams, columns, walls, foundations. Introduction to prestressed and precast concrete design and applications. Use of the New Zealand Concrete Structures Standard, NZS 3101. Discussion of environmental and sustainability considerations when using concrete as a building material.
Prerequisite: CIVIL 210 or STRCTENG 200
Restriction: CIVIL 313

STRCTENG 304 15 Points
Structural Design for Civil Engineers
Structural loading for gravity and wind in accordance with the loading code AS/NZS1170. Design principles and examples for concrete and timber members and design for timber framed buildings using NZS3604 including the concept of safety in design. Discussion of sustainability and environmental implications of selecting different building materials. Introduction to seismic building behaviour at a conceptual level.
Prerequisite: CIVIL 210 or STRCTENG 200
Restriction: CIVIL 312, 313

Postgraduate 700 Level Courses

STCRTEG 710 15 Points
Low Rise Structures Design
Structural systems for low-rise buildings, including seismic design and analysis techniques. Design and detailing of low-rise structures in structural steel, reinforced concrete, reinforced masonry, and timber including discussion of sustainability and environmental impacts of design decisions. Strut and tie for reinforced concrete. Introduction to fire engineering. Techniques in ensuring safety in design, checking of existing structures, lessons from failures, and design for repair.
Prerequisite: STRCTENG 302, and CIVIL 313 or STRCTENG 303
Restriction: CIVIL 713

STCRTEG 711 15 Points
Multistorey Structures Design
Techniques for the design of multistorey structures to resist seismic loading. Derivation of design actions and design of structural components subject to cyclic inelastic action. Includes identifying alternative structural systems for resisting seismic loads, incorporating sustainable design into seismic structural systems, detailing of members and joints to enhance earthquake resistance, design for repair, seismic isolation, and ensuring safety in design.
Prerequisite: STRCTENG 302, and CIVIL 313 or STRCTENG 303
Restriction: CIVIL 714

STCRTEG 760 15 Points
Forensic Structural Engineering
Investigation of structural failures and disasters extending to the evaluation and assessment, restoration, and strengthening of modern and historic structures. Provides an understanding of the forensic engineering process that applies to the investigation and assessment of structural failures. Business practices including standards of care, performing critical self-assessment of capabilities,
assembling a team, and professional ethics, legal testimony, and media relations are also discussed.

Prerequisite: STRCTENG 302, 303
Restriction: CIVIL 744

Faculty of Law

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Commercial Law

Postgraduate 700 Level Courses

COMLAW 740A 15 Points
COMLAW 740B 15 Points

The Tax Base - Level 9
An advanced study of the breadth of the New Zealand income tax base, including the different concepts of income, its timing and recognition. Comparisons between the nature of capital and income, and the differing treatment of each, provides a deeper understanding of the policy behind the New Zealand income tax regime. Provides a theoretical background and detailed technical knowledge of the scope and application of the most significant regimes for income, deduction and timing in the Income Tax Act 2007. Involves individual research resulting in a substantial individual research essay.

To complete this course students must enrol in COMLAW 740 A and B

COMLAW 747 15 Points

Goods and Services Tax
An advanced study of Goods and Services Tax. Provides both a theoretical background and high level of technical knowledge of the GST Act 1985. Comparisons with other indirect taxes and overseas variations of GST (notably Australian GST and UK VAT) provide a deeper understanding of the policy behind the New Zealand GST regime. Major topics include taxable activities, input tax, output tax, registration, adjustments, taxable supplies, timing and the GST anti-avoidance provisions.

Law

Stage I

LAW 121G 15 Points

Law and Society
An introduction to theories of the nature, functions and origins of law and legal systems, including sources of law; comparative concepts of law; an overview of constitutional and legal arrangements in New Zealand, including the role of the courts; the operation of the legal system in historical and contemporary New Zealand with a focus on concepts of property rights, the Treaty of Waitangi, Treaty Settlements and proposals for constitutional change. Note: Does not meet the General Education requirement for LLB(Hons), LLB conjoint or LLB(Hons) conjoint degrees.

Restriction: LAW 101

LAW 131 15 Points

Legal Method
An introductory study of how law is made and applied in New Zealand - an overview of the law-making roles of the legislative, executive and judicial branches of government; other influences on the development of the law; an introduction to case law, including judicial reasoning and the doctrine of precedent; an introduction to statute law, including the legislative process and techniques of statutory interpretation and application; the interaction between case law and legislation.

Prerequisite: LAW 121 or 121G

LAW 141 15 Points

Legal Foundations
An overview of the classification, sources and operation of core aspects of New Zealand law, including state law and tikanga Māori. An introduction to other sources, perspectives and explanations of law.

Prerequisite: LAW 121 or 121G

Corequisite: LAW 131

Stage II

LAW 201A 15 Points
LAW 201B 15 Points

Criminal Law
An introduction to the principles and practice of criminal law in Aotearoa New Zealand, including an analysis of a selection of offences, criminal defences and the rules attributing criminal liability. Apart from the rules concerning burden of proof and an introduction to the principles and process of sentencing, no detailed study is made in this course of the law of evidence or procedure.

Corequisite: LAW 298 or 299

To complete this course students must enrol in LAW 201 A and B

LAW 211A 15 Points
LAW 211B 15 Points

Public Law
The principles and workings of the New Zealand constitution; the powers, privileges and immunities of the three branches of government; the exercise and control of public power; and the relationship between the individual and the State (including the position of Māori under the Treaty of Waitangi).

Corequisite: LAW 298 or 299

To complete this course students must enrol in LAW 211 A and B

LAW 231A 15 Points
LAW 231B 15 Points

Law of Torts
The general principles of civil liability for non-consensual wrongs. The principles of liability applying to selected torts, including the intentional torts such as: assault, battery, false imprisonment, intentionally inflicting emotional distress, trespass to land, wrongs to goods, negligence, strict liability, nuisance and defamation. The law relating to compensation for personal injury.

Corequisite: LAW 298 or 299

To complete this course students must enrol in LAW 231 A and B

LAW 241A 15 Points
LAW 241B 15 Points

Law of Contract
The general principles of contract law including: the formation of contracts at common law, New Zealand contract legislation, breach of contract, and remedies
for breach of contract. An introduction to the general principles of agency.  
Corequisite: LAW 298 or 299  
To complete this course students must enrol in LAW 241 A and B
LAW 298A 5 Points  
LAW 298B 5 Points  
Legal Research, Writing and Communication  
Legal research, writing, mootng and other requirements, as determined by the Dean of Faculty of Law.  
Restriction: LAW 299  
To complete this course students must enrol in LAW 298 A and B
Stage III  
LAW 301A 10 Points  
LAW 301B 10 Points  
Land Law  
A study of the history and principles of land law including: estates and interests in land, the effect of registration and indefeasibility of title, leasehold estates, easements and profits, mortgages, and concurrent interests in land, and covenants affecting freehold land.  
Prerequisite: LAW 201, 211, 231, 241  
To complete this course students must enrol in LAW 301 A and B
LAW 306A 10 Points  
LAW 306B 10 Points  
Equity  
A study of the central principles and remedies of equity including: the fiduciary principle, relationships of confidence, unconscionable conduct, undue influence, estoppel, assignments, trusts (express, resulting and constructive), charities, tracing, third-party liability, the assignment in equity of choses in action, and priorities. Basic principles of the law of succession and of the administration of estates.  
Prerequisite: LAW 201, 211, 231, 241  
To complete this course students must enrol in LAW 306 A and B
LAW 316 15 Points  
Jurisprudence  
A study of the nature of law, including the nature of legal reasoning, its sources, and methodologies; fundamental legal concepts and the structure of a legal system; law’s relations to the State, politics and morality; critical and pluralist challenges to State law’s claims to neutrality and supremacy in the administration of justice in Aotearoa New Zealand.  
Prerequisite: LAW 201, 211, 231, 241
LAW 398 15 Points  
Ethical Practice  
Develops advanced research skills by using multi-jurisdictional legal sources within the context of the study of legal ethics. Examines the concept of professional responsibility by considering the nature of the legal profession and the wider responsibilities of lawyers in the community, various theories of ethics and ethical conduct, and specific duties of practitioners, including conflicts of interest, confidentiality, duties of disclosure, fiduciary responsibilities to clients, and duties to the court.  
Corequisite: LAW 301 or 306  
Restriction: LAW 458  
LAW 399 10 Points  
Legal Research 2  
An introduction to multi-jurisdictional legal information sources and advanced research skills.  
Prerequisite: LAW 201, 211, 231, 241, 298 or 299  
Stage IV  
LAW 400 10 Points  
Legal Research 3  
Completion of legal research requirements as approved by the Faculty of Law, including moot participation and opinion writing.  
LAW 410 15 Points  
Special Topic  
Special Topic  
LAW 411 15 Points  
Special Topic  
LAW 456 15 Points  
Supervised Research  
A research paper, approved by the Dean of Faculty of Law, written under the supervision of a teacher in the Faculty of Law.  
LAW 458 10 Points  
Legal Ethics  
A study of legal ethics and professional responsibility including: an introduction to ethical analysis which examines various theories of ethics; the applicability of ethical analysis to legal practice; the concept of a profession and the ethical and professional duties of practitioners (which will include, amongst other topics, conflicts of interest, confidentiality, duties to the court, duties of loyalty and fidelity); the wider responsibilities of lawyers in the community.  
LAW 498 0 Points  
Advanced Legal Research, Writing and Communication  
Satisfactory completion of such advanced legal research, writing, communication and other requirements as determined by the Dean of Faculty of Law.  
Prerequisite: LAW 201, 211, 231, 241  
Restriction: LAW 400, 499
LAW 499 0 Points  
Legal Practice  
Such work and practical experience in the detailed application of the law and in relation to the provision of legal services as approved by the Faculty of Law.  
Postgraduate 700 Level Courses  
LAW 700 0 Points  
Legal Research Methodology and Advanced Writing - Level 9  
Multi-jurisdictional legal information sources and advanced legal research, research problem formulation and refinement, legal and social science research methodologies, research ethics and evaluative research trail. Legal writing for different purposes and different audiences.  
LAW 701 30 Points  
The Legal System: Sources, Structure and Method - Level 9  
Examination of the core substantive components of the New Zealand legal system, in comparison with other
municipal legal systems and international law. Analysis of the sources of New Zealand law, including statute, case law and custom, and the influence of international law. Legal methodology in theory and practice, including: judicial reasoning and the doctrine of precedent, techniques of statutory interpretation, and the resolution of disputes. Different modes of legal analysis and approaches to legal theory.

LAW 760 15 Points
Directed Study - Level 9
Supervised research paper on an advanced legal topic, approved by the Dean of Faculty of Law.

LAW 790 30 Points
Dissertation - Level 9
A dissertation of approximately 15,000 words resulting from original research of the student, having the scope, and depth of research, of a competent law review article.

LAW 794A 45 Points
LAW 794B 45 Points
Research Portfolio 1 - Level 9
Supervised research comprising a portfolio of research work within an area of specialisation culminating in a linking paper that together creates a coherent body of scholarly work.
To complete this course students must enrol in LAW 794 A and B

LAW 796A 45 Points
LAW 796B 45 Points
Thesis 1 - Level 9
A thesis of approximately 30,000 words resulting from original research of the student, displaying at a minimum: thorough research, a competent advanced understanding of the topic studied, and an ability to present the student's understanding of that topic in an orderly way.
To complete this course students must enrol in LAW 796 A and B

LAW 797A 60 Points
LAW 797B 60 Points
Thesis 2 - Level 9
A thesis of approximately 40,000 words resulting from original research of the student, displaying comprehensive understanding of the topic studied and an ability to contribute to the better understanding of that topic.
To complete this course students must enrol in LAW 797 A and B

LAW 798A 60 Points
LAW 798B 60 Points
Research Portfolio 2 - Level 9
Supervised research comprising a portfolio of research work within an area of specialisation culminating in a linking paper that together creates a coherent body of scholarly work.
To complete this course students must enrol in LAW 798 A and B

Law Commercial

Stage IV

LAWCOMM 400 15 Points
Contemporary Commercial and Private Law Litigation
Detailed study of contemporary private law issues in the context of commercial litigation, with a dual focus on substance and litigation practice. Topics (selected based on recent cases) will include discrete legal issues across areas like contract, equity, tort and restitution.
Prerequisite: LAW 201, 211, 231, 241

LAWCOMM 401 20 Points
Commercial Law
An introduction to selected areas of business law, in particular relating to the sale of goods and personal property securities but extending to aspects of consumer laws, guarantees and the impact of new business methods.
Prerequisite: LAW 201, 211, 231, 241
Corequisite: LAW 301, 306
Restriction: LAW 415, LAWCOMM 452, 456

LAWCOMM 402 20 Points
Company Law
A general introduction to the law relating to companies incorporated under the Companies Act 1993 including the nature of corporate personality, the organisation of decision-making within companies, the making of contracts by companies, the duties of directors and the rights and remedies of shareholders.
Prerequisite: LAW 201, 211, 231, 241
Restriction: LAW 417, LAWCOMM 464

LAWCOMM 406 20 Points
International Sales and Finance
Study of the law relating to international trade and transnational business transactions, including international sales contracts and international trade finance, and conflict of laws issues arising out of international trade.
Prerequisite: LAW 211, 231, 241
Restriction: LAW 476

LAWCOMM 408 20 Points
Special Topic

LAWCOMM 409 20 Points
Special Topic

LAWCOMM 410 15 Points
Special Topic

LAWCOMM 411 15 Points
Special Topic

LAWCOMM 412 15 Points
Restitution
A study of the general principles of the law of restitution, including an analysis of the concept of unjust enrichment, selected applications of restitutory principle for the recovery of value upon a flawed or conditioned transfer, recovery outside contract for labour expended on another's behalf, and stripping wrong-doers of profits.
Prerequisite: LAW 201, 211, 231, 241
Restriction: LAW 366, 451, LAWCOMM 405, LAWHONS 726

LAWCOMM 413 15 Points
Conflict of Laws
An introduction to private international law (i.e., the body of law dealing with international civil or commercial issues or disputes that are not governed by substantive conventions) including: a study of the jurisdiction of the New Zealand courts, recognition and enforcement of foreign judgments and decrees, and choice of the governing legal system.
Prerequisite: LAW 201, 211, 231, 241
Restriction: LAW 420, 477, LAWCOMM 407
LAWCOMM 414  
**Law of Personal Property**
Introduction to the concepts and legal rights associated with personal property, covering: possessory rights and relationships, including bailment, reservation of title and security interests in goods, and principles relevant to the transfer and acquisition of personal property.

*Prerequisite: LAW 231*  
*Restriction: LAW 311, LAWCOMM 442*

LAWCOMM 415  
**Financial Markets Law**
An examination of the law regulating the promotion of companies, duties and liabilities of directors and promoters for the promotion of a company, public fund raising in New Zealand, insider trading laws and takeovers, and limited liability partnerships.

*Corequisite: LAW 417 or LAWCOMM 402 or 464*  
*Restriction: LAW 487, 490, LAWCOMM 444*

LAWCOMM 416  
**Tax Law**
A general introduction to tax law including: aspects of tax policy; the structure of the tax system; residence; source; the meaning of income; the deductibility of expenditure; the distinction between capital and revenue; depreciation; avoidance; disputes and rulings; GST.

*Prerequisite: LAW 211, 241*  
*Restriction: LAW 429, LAWCOMM 403*

LAWCOMM 420  
**Advanced Tax Law**
A more advanced study of tax law covering topics such as tax history; tax theory; the taxation of companies; dividends; imputation; groups; losses; qualifying companies; trusts; withholding obligations; accruals; avoidance; international tax; profit reduction techniques; transfer pricing; controlled foreign corporations (CFCs); foreign investment funds (FIFs); tax treaties.

*Prerequisite: LAWCOMM 403*  
*Restriction: LAW 429, COMLAW 311*

LAWCOMM 421  
**Commercial Arbitration**
The law and procedure relating to the settlement of domestic and international commercial disputes by arbitration, including a study of key arbitration principles, governing law issues, appointment and duties of arbitrators, the conduct of proceedings, enforcement and judicial review of awards, and international investment arbitration.

*Prerequisite: LAW 211, 231, 241*  
*Restriction: LAW 414*

LAWCOMM 422  
**Competition Law**
A study of the principles of competition law in New Zealand including the effect on competition law of the CER Agreement with Australia. Comparison with the competition laws of other countries including the United States, the European Union and Australia.

*Prerequisite: LAW 241 or COMLAW 201 and 203*  
*Restriction: LAW 419*

LAWCOMM 423  
**Company Liquidations**
Examination of the legal process by which companies are placed in liquidation including: the law on corporate insolvency, and the procedures and the enforcement mechanisms used to give effect to the law; current law and new approaches to insolvency.

*Prerequisite: LAW 241*  
*Restriction: LAW 422*

LAWCOMM 424  
**Insurance Law**
A consideration of the law governing insurance contracts, including the duty of utmost good faith; the interpretation of the policy; the scope of cover; warranties and conditions; the claims process and fraudulent claims; and quantification of the insurer’s obligations; subrogation and recoupment; and third party rights.

*Prerequisite: LAW 231, 241*  
*Restriction: LAW 431, LAWCOMM 453, LAWHONS 734*

LAWCOMM 425  
**International Trade**
Study of the law relating to international trade and transnational business transactions; contracts of carriage; the law and policy surrounding the regulation of the international transportation of goods by sea, land and air.

*Prerequisite: LAW 211, 231, 241*  
*Restriction: LAW 436*

LAWCOMM 426  
**Law and Information Technology**
An introduction to the use of information systems in legal practice and research and the impact of the law on information technology including: computer crimes, torts, intellectual property, evidence, privacy, and the assistance given to lawyers by information retrieval, office management and litigation support systems.

*Prerequisite: LAW 201, 231*  
*Restriction: LAW 438*

LAWCOMM 427  
**Vendor and Purchaser**
A study of the law relating to contracts for the sale and purchase of land, including the formation of the contract, the application of relevant statutes, the basic terms of such contracts and their significance, matters of title, settlement and completion, and remedies for breach.

*Corequisite: LAW 301*  
*Restriction: LAW 454*

LAWCOMM 428  
**Maritime Law**
An introduction to shipping law, including an overview of the contracts commonly used for maritime activity; charterparty contracts for the use of ships; contracts for the carriage of goods with a focus on bills of lading; New Zealand domestic legislation relevant to maritime activity; marine insurance; admiralty jurisdiction and the practice of Admiralty law; collision between vessels; the law of salvage, general average and towage.

*Prerequisite: LAW 211, 231, 241*  
*Restriction: LAW 459*

LAWCOMM 429  
**Advanced Tort**
Explores in depth issues touched on in LAW 231 and introduces new causes of action. Topics will include some or all of the following: the recovery of economic loss in negligence, negligent misrepresentation, vicarious liability, factual causation, nonfeasance, the economic torts, the effect of statutes and contracts on the law of tort, and damages.

*Prerequisite: LAW 231*  
*Restriction: LAW 484*

| LAWCOMM 432     | Corporate Transactions               | 15     | A study of corporate transactions in operation, with particular reference to the legal and practical processes involved in the formation and implementation of such major business transactions as are typical in the life cycle of a business. The particular transactions focused upon may vary from year to year. | Prerequisite: LAW 241  
Restriction: LAW 493 |
| LAWCOMM 433     | Copyright and Design                 | 15     | An in-depth examination of the law of copyright and registered designs in New Zealand and Australia, including the relationship between copyright and design protection. | Prerequisite: LAWCOMM 404 or LAWCOMM 458 |
| LAWCOMM 434     | Advanced Contract                    | 15     | Advanced studies in selected areas of Contract Law.                                                   | Prerequisite: LAW 241 |
| LAWCOMM 435     | European Commercial Litigation       | 15     | A study of jurisdiction, choice of law and enforcement of judgments in cross-border commercial litigation within the European Union; consideration of specific EU Regulations, such as Brussels I, Rome I and Rome II. | Prerequisite: LAW 241  
Restriction: LAWCOMM 443, LAW 475 |
| LAWCOMM 436     | Advanced Company Law                 | 15     | Study in selected areas of company law including theories of the company, companies viewed from a law and economics perspective, the relationship between the board and shareholders, the place of corporate social responsibility, comparative corporate law and current issues in company law. | Prerequisite: LAWCOMM 402 |
| LAWCOMM 437     | Iwi Corporate Governance             | 15     | An examination of the common governance structures employed by iwi, why those structures are chosen and the legal and practical issues that arise as a result. Aspects of the law related to trusts, limited partnerships, charities and Māori Authorities, and how they may be interwoven within one overarching structure. | Prerequisite: LAW 211, 241  
Restriction: LAW 497 |
| LAWCOMM 440     | Guarantees and Indemnities           | 10     | An introduction to the law regarding guarantees and indemnities in New Zealand. The course will mainly focus on guarantees, although indemnities will also be covered. | Prerequisite: LAW 241  
Restriction: LAW 401 |
| LAWCOMM 441     | Creditors’ Remedies                  | 10     | Examination of the diverse and seemingly unrelated areas of the law as they concern the rights of unsecured judgement creditors. | Prerequisite: LAW 241  
Restriction: LAW 461 |
| LAWCOMM 445     | Takeovers                            | 10     | A consideration of the role of takeovers in the economy and the manner in which they are regulated. The principal focuses will be upon the Takeovers Code and upon the workings of the Takeover Panel. | Co requisite: LAW 417 or LAWCOMM 402 |
| LAWCOMM 446     | Special Topic: Aspects of Iwi Corporate Governance | 10 | | Prerequisite: LAW 211, 241 |
| LAWCOMM 450     | International Tax Law                | 15     | The globalisation of business presents a significant challenge to governments and revenue authorities and opportunities for multinational businesses to be able to locate productive activities, risks, and importantly, profits to any jurisdiction that they wish. This course looks at cross border taxation with emphasis on double tax treaties. | Prerequisite: LAW 211, 241 |
| LAWCOMM 451     | Construction Law                     | 15     | Examines the law applicable to the lifecycle of a construction and/or infrastructure project, including foundational concepts; the project; post-project claims and latent defects. Covers the statutory and regulatory framework, the contractual matrix, and the law of tort, equity and limitation (as these are applicable to construction and infrastructure projects). Covers legal concepts and jurisprudence unique to construction law. | Prerequisite: LAW 201, 211, 231, 241 |
| LAWCOMM 452     | Commercial and Consumer Law          | 15     | A study of the law relating to commercial and consumer law including; the general regime on the sale of goods and its contrast to the Consumer Guarantees Act 1993, selected aspects of carriage of goods and of agency, and the basic disciplines of the Fair Trading Act 1986. | Prerequisite: LAW 201, 211, 231, 241  
Corequisite: LAW 301, 306  
Restriction: LAW 415, LAWCOMM 401 |
| LAWCOMM 453     | Aspects of Insurance Law              | 10     | Covers aspects of the law governing insurance contracts, including the duty of utmost good faith; the interpretation of the policy; the scope of cover; warranties and conditions; the claims process; and quantification of the insurer’s obligation. | Prerequisite: LAW 231, 241  
Restriction: LAW 431, LAWCOMM 424, LAWHONS 734 |
| LAWCOMM 456     | Secured Credit                       | 15     | A detailed study of the law relating to securities over personal property, and related aspects of credit contracts. | Prerequisite: LAW 201, 211, 231, 241  
Corequisite: LAW 301, 306  
Restriction: LAW 415, LAWCOMM 401 |
| LAWCOMM 457     | Consumer Law                         | 15     | An in-depth examination of selected aspects of consumer law, including (but not limited to) misleading and deceptive conduct, other unfair practices, unfair contract terms in standard form consumer contracts, consumer guarantees and uninvited direct sales. | Prerequisite: LAW 201, 211, 241 |
LAWCOMM 458 15 Points
**Intellectual Property**
Study of the laws which protect the products of intellectual endeavour including: passing-off (and section 9 Fair Trading Act), the Trade Marks Act, the Copyright Act, the action for ‘breach of confidence’, the Designs Act and the Patents Act.
Prerequisite: LAW 231
Restriction: LAW 432, LAWCOMM 404

LAWCOMM 459 10 Points
**Special Topic: Franchise Law**
Introduction to the concept of franchising including definitions and alternatives, advantages and disadvantages, the business format franchise model, intellectual property protection, elements of a franchise agreement, cartels legislation and its impact, covenants against competition, unconscionable conduct, unfair contract terms, mediation, and international franchising.
Prerequisite: LAW 241

LAWCOMM 460 10 Points
**Special Topic**

LAWCOMM 461 15 Points
**Corporate Insolvency**
A study of New Zealand corporate insolvency law, focusing on the commencement of the liquidation and administration process, the inter-relationship of those processes and liquidators’ and administrators’ powers and liabilities. Topics covered: reckless trading and recovery from directors, the disclaimer of onerous contracts and voidable transactions. Comparative material will be drawn from Australian, Canadian and United Kingdom jurisprudence.
Prerequisite: LAW 231, 241, 298 or 299
Corequisite: LAW 306, and LAWCOMM 402 or 464

LAWCOMM 462 15 Points
**Patents and Related Rights**
Australian and New Zealand law relating to patents, including patentable subject matter, ownership, inventorship, validity requirements, patent specification requirements and the law governing infringement. The law relating to the protection of confidential information. A brief introduction to the law relating to plant variety rights.
Prerequisite: LAWCOMM 404 or LAWCOMM 458
Restriction: LAWCOMM 449

LAWCOMM 463 15 Points
**Trade Marks and Related Rights**
An examination of the law related to the protection of registered trade marks in Australia and New Zealand. Other legal mechanisms that protect symbols, including the law of passing off, consumer protection legislation, special events legislation and the law relating to geographical indications and domain names.
Prerequisite: LAWCOMM 404 or LAWCOMM 458
Restriction: LAWCOMM 454

LAWCOMM 464 15 Points
**Company Law**
A general introduction to the law relating to companies incorporated under the Companies Act 1993 including the nature of corporate personality, the organisation of decision-making within companies, the making of contracts by companies, the duties of directors and the rights and remedies of shareholders.
Prerequisite: LAW 201, 211, 231, 241
Restriction: LAWCOMM 402, LAW 417

LAWCOMM 465 15 Points
**Theories of Contract Law**
Survey and analysis of the main schools of thought and positions in contemporary contract law theory, including: promise theory, transfer theory, economic analysis, communitarian theories and distributive justice theories. Examination of key questions in contract law, such as formation, interpretation and remedies in light of said theories.
Prerequisite: LAW 241
Corequisite: LAW 316
Restriction: LAWCOMM 455

LAWCOMM 466 15 Points
**Special Topic**

LAWCOMM 467 15 Points
**Special Topic: Corporate Governance**

---

**Postgraduate 700 Level Courses**

LAWCOMM 700 15 Points
**Special Topic: Foundations of Tax Law - Level 9**
Provides a theoretical background and detailed technical knowledge of the scope and application of the most significant regimes for income, deduction and timing in the Income Tax Act 2007. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 702 30 Points
**International Arbitration - Level 9**
A comparative study of negotiation, litigation, arbitration and mediation in commercial contexts; New Zealand law relating to arbitration, international arbitration; and the operating and utility of mediation in commercial contexts. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 706 30 Points
**Competition Law and Policy - Level 9**
Advanced studies in competition law and its application to international transactions and commercial relationships, with comparative study of New Zealand law with that of other countries. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 707 30 Points
**Conflict of Laws - Level 9**
An advanced study of private international law, including a study of the jurisdiction of the New Zealand courts and arbitrators, the recognition and enforcement of foreign judgments and decrees and arbitral awards, and choice of the governing legal system.
Restriction: LAW 712

LAWCOMM 709 30 Points
**Corporate Governance - Level 9**
The principles of the law as to corporations with special reference to companies, directors’ duties and the status and rights of shareholders. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 710 30 Points
**Dispute Resolution - Level 9**
The history and current practice of dispute resolution outside the courtroom, dispute settlement theories, and the principles of negotiation and mediation in the context of family, commercial, environmental, international and urban community disputes.
Restriction: LAW 717
LAWCOMM 713
**Intellectual Property - Level 9**
Aspects of the law protecting the products of intellectual endeavour selected from: the law of trade marks and passing off, the law of copyright, patent law and the law of breach of confidence. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 720
**Law of Insurance Contracts - Level 9**
The principles and operation of the law relating to insurance. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 721
**Patent Drafting - Level 9**
The law and practice of drafting patent specifications to accompany patent applications. Involves individual research resulting in a substantial piece of research writing.

LAWCOMM 724
**Mergers and Acquisitions - Level 9**
Advanced study in the law relating to business and corporate acquisitions and corporate mergers, takeovers and amalgamations, including issues affecting choice of method, directors’ duties, and public and private regulation. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 730
**Special Topic: Regulation of International Trade - Level 9**

LAWCOMM 731
**Special Topic: Commercial Law in Asia - Level 9**

LAWCOMM 732
**Special Topic: Financial Markets Regulation - Level 9**

LAWCOMM 733
**Special Topic: Comparative Corporate Governance - Level 9**

LAWCOMM 735
**Special Topic: Artificial Intelligence: Law and Policy - Level 9**

LAWCOMM 736
**Special Topic: The Corporation as a Social Actor - Level 9**

LAWCOMM 737
**Special Topic: Theories of Company Law - Level 9**

LAWCOMM 738
**Special Topic: Trade Finance Law - Level 9**

LAWCOMM 739
**Special Topic: Mergers and Acquisitions - Level 9**

LAWCOMM 740
**Special Topic: Corporate Governance - Level 9**

LAWCOMM 741
**Secured Transactions - Level 9**
Technical and practical aspects of the law of secured transactions. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 742
**Remedies Law - Level 9**
Advanced study of selected aspects of civil remedies for breach of civil obligations including those arising at common law and under statute, and discretionary relief in equity, and the assessment of damages and compensation. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 744
**Selected Topics in Taxation - Level 9**
Selected topics in taxation including: works of some of the great tax theorists and their relevance to modern tax policy formulation; current debates on questions of tax policy; aspects of international taxation; aspects of international tax planning. These are examined by reference to the tax systems of a variety of jurisdictions (such as New Zealand, the UK, the USA, Hong Kong and China). Involves individual research resulting in a substantial individual research essay.

LAWCOMM 745
**Public Law in Commercial Contexts - Level 9**
Selected topics in the application of judicial review and other parts of public law in commercial contexts. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 746
**Data Privacy and the Law - Level 9**
A comparative study of evolving global and New Zealand standards governing data privacy, the challenges they face from technological developments and the implications for business, government.

LAWCOMM 747
**Special Topic: International Business Law - Level 9**

LAWCOMM 748
**Special Topic: Contentious Tax Disputes - Level 9**

LAWCOMM 749
**Special Topic: Franchise Law - Level 9**

LAWCOMM 755
**Corporate Finance - Level 9**
Detailed study of the law relating to corporate finance. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 758
**Franchising Law - Level 9**
A study of the law relating to franchising. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 767
**Special Topic: Transfer Pricing - Level 9**

LAWCOMM 768
**Special Topic: Economic Analysis of the Law - Level 9**

LAWCOMM 769
**Special Topic: Economic Regulation: Principles and Practice - Level 9**

LAWCOMM 770
**Private International Law - Level 9**
The theory and practice of transnational jurisdiction, choice of law and recognition and enforcement of foreign judgments. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 772
**Intellectual Property and Practice**
An in-depth and detailed examination of the main intellectual property rights and laws and the complexities of their operation within the broader context of the New Zealand and Australian legal systems, including Te Tiriti o Waitangi, its place in the New Zealand legal system and its impact on intellectual property law.
LAWCOMM 773 15 Points
Corporate Governance in New Zealand - Level 9
The governance of companies in New Zealand, with a focus on the role of directors and the board. Topics include corporate theory, legal characteristics of the company and internal governance. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 774 15 Points
Comparative Corporate Governance - Level 9
A comparison of corporate governance regimes across the world. Current issues in corporate governance are examined – topics may include directors’ remuneration, corporate scandals and responses to corporate scandals. Discussion of convergence of corporate governance regimes is included. Involves individual research resulting in a substantial individual research essay.

LAWCOMM 775A 15 Points
LAWCOMM 775B 15 Points
International Taxation
Tests of residence for individuals and corporations. The wider tax base for off-shore income of New Zealand residents. Income derived by overseas residents from New Zealand activities. The Double Tax Treaty System. Selecting the country of residence. Anti-avoidance measures directed at transnational activity. The use of tax havens. As well as New Zealand taxation law, the course also examines the municipal revenue law of some of our trading partners. Involves individual research resulting in a substantial individual research essay.
Restriction: COMLAW 741

LAWCOMM 778 15 Points
Special Topic: Selected Topics in Tort Law - Level 9

LAWCOMM 779 15 Points
Special Topic: Asia Pacific Tax - Level 9

LAWCOMM 780 15 Points
Corporation and Investor Taxation
An advanced study of the tax liability and issues affecting companies and their shareholders. Considers the different corporate tax regimes, including dividends, imputations, losses and groupings, amalgamations, LTCs and Unit Trusts. Consideration is also given to the role of modern corporate scandals and the allocation of the tax burden between companies, shareholders and other investors.
Restriction: COMLAW 746

LAWCOMM 782 15 Points
Trade Mark Practice
The law and practice of filing and registering trade mark applications in New Zealand, Australia and other international jurisdictions. The law and practice of maintaining and enforcing registered trade mark rights.
Corequisite: LAWCOMM 796

LAWCOMM 783 15 Points
Avoidance Provisions
An advanced study of all aspects of the general anti-avoidance provision contained in the Income Tax Act 2007. Provides a detailed analysis of the structure, function and application of the general anti-avoidance provision and its relationship to the "black-letter" tax law. Comparisons with the statutory and common law responses to tax avoidance in other jurisdictions, including Australia, Canada, the UK and US provide a deeper understanding of the policy behind New Zealand's general anti-avoidance provision.
Restriction: COMLAW 749

LAWCOMM 784 15 Points
Taxation of Property Transactions
Examines all of the tax consequences of acquiring, holding, developing, building on, leasing or otherwise dealing with land and personal property.
Restriction: COMLAW 751

LAWCOMM 785 15 Points
Patent Practice
The law and practice of obtaining, maintaining and enforcing patent rights in New Zealand, Australia and other international jurisdictions.
Corequisite: LAWCOMM 793

LAWCOMM 786 15 Points
Tax Administration and Disputes
An advanced study of the Public Law and procedural issues arising from administration of the Revenue Acts in New Zealand. Provides an analysis of the powers, discretions and responsibility of the Commissioner and the Inland Revenue Department. Major topics include the Department's assessment function and taxpayer self-assessment, the Binding Ruling regime, the Commissioner's statutory powers of investigation and information gathering, the exercise of discretions and administrative decisions, and the role of judicial review.
Restriction: COMLAW 753

LAWCOMM 787 15 Points
Taxation of Trusts and Non-corporate Entities
An advanced study of the tax liability of different business structures and their members, particularly non-corporate entities. Considers the different tax regimes applicable to trusts, partnerships and limited partnerships, Portfolio Investment Entities (PIEs), charities and Māori authorities. Comparison between these entities provides a deeper understanding of the policy behind New Zealand's tax regimes and the allocation of the tax burden between companies and other entities.
Restriction: COMLAW 756

Trade Marks and Related Rights - Level 9
An examination of the law related to the protection of registered trade marks in Australia and New Zealand. Other legal mechanisms that protect symbols, including the law of passing off, consumer protection legislation, special events legislation and the law relating to geographical indications and domain names. Involves individual research resulting in a substantial piece of research writing.
Corequisite: LAWCOMM 772
Restriction: LAWCOMM 463

LAWCOMM 797 15 Points
Interpretation and Validity of Patent Specification
The law and practice of interpreting a patent specification for validity and infringement purposes.

Law Environmental

Stage IV

LAWENVIR 402 20 Points
Special Topic

LAWENVIR 403 20 Points
Special Topic

LAWENVIR 404 15 Points
Climate Change Law
An introduction to and critical examination of multi-sourced climate change law from a New Zealand perspective. Against the relevant international law backdrop, the course critically surveys and assesses domestic New Zealand climate change law including the ‘zero-carbon’ legislative framework, emissions trading, common law, climate change under planning and environmental law, and the emerging legal regime on managed retreat.
Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or LAW 201, 211, 231, 241

LAWENVIR 420 15 Points
Global Environmental Law
Concepts, principles, customs, and treaties of international law as related to the protection of the global environment including: prevention of pollution, protection of the marine environment, ozone layer protection, climate change, biodiversity, the UNCED process and the legal framework for sustainable development.
Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or LAW 201, 211, 231, 241
Restriction: LAW 433

LAWENVIR 421 15 Points
Energy and Natural Resources Law
An examination of the common law principles, legislation, and administrative controls in New Zealand relating to ownership of, prospecting for, extraction and use of, minerals (including oil and gas), alternative energy resources, forestry and fisheries resources.

Environmental Constitutionalism
Comparative constitutional examination into concepts and principles of the law related to environmental protection and sustainable development. Key areas include environmental ethics, sustainability, human rights and responsibilities, and state obligations.
Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or LAW 211

LAWENVIR 431 10 Points
Special Topic

LAWENVIR 432 10 Points
Special Topic

LAWENVIR 433 15 Points
Resource Management Law
An examination of the law relating to resource management and environmental regulation including: evolution of the sustainable management concept, consideration of national objectives, application of the Treaty of Waitangi, national standards, coastal policies, regional statements and plans, district plans, designations, heritage and conservation powers, resource consent procedures, and remedial powers and enforcement procedures.
Prerequisite: LAW 211
Restriction: LAWENVIR 401 or LAW 349 or 450 or 457

Postgraduate 700 Level Courses

LAWENVIR 710 30 Points
International Environmental Law - Level 9
Selected problems of international law as related to the protection of the global environment including the present concept of international environmental law and current trends toward a global law of sustainable development, law on climate changes, the ozone layer,
the marine environment, biodiversity and the implications of international environmental issues for municipal law. Involves individual research resulting in a substantial individual research essay.

**LAWENVIR 712**  
**Mining and Energy Law - Level 9**  
An examination of the legal principles, government policy, regulation, and administrative control relating to ownership and exploitation of minerals (including oil and gas), and alternative energy resources in New Zealand.  
*Restriction: ENVLAW 710, 723, LAWENVIR 713*

**LAWENVIR 713**  
**Mining, Energy and Natural Resource Law - Level 9**  
Study of the common law, legislation and administrative controls in New Zealand relating to ownership, prospecting for, extraction and use of minerals (including oils and gas), alternative energy resources, forestry and fisheries resources. Involves individual research resulting in a substantial individual research essay.  
*Restriction: LAWENVIR 712, 714*

**LAWENVIR 714**  
**Natural Resources Law - Level 9**  
An examination of the legislative framework and legal principles relating to agriculture, forestry, and fisheries activities in New Zealand. Selected topics will include: legal ownership and interests in rural land and natural resources, the role of government, Māori claims and resource development conflict resolution. Involves individual research resulting in a substantial individual research essay.  
*Restriction: LAWENVIR 713*

**LAWENVIR 716**  
**Resource Management Law - Level 9**  
Studies in the New Zealand law relating to resource management and environmental regulation including: evolution of the sustainable management concept, consideration of national objectives, Treaty of Waitangi application, national standards, coastal policies, regional statements and plans, district plans, designations, heritage and conservation powers, resource consent procedures, and remedial powers and enforcement procedures. Involves individual research resulting in a substantial individual research essay.

**LAWENVIR 719**  
**Special Topic: Food Law - Level 9**  
**LAWENVIR 720**  
**Special Topic - Level 9**  
**LAWENVIR 721**  
**Special Topic: Ocean Governance Law - Level 9**  
**LAWENVIR 723**  
**Climate Change Law - Level 9**  
Explores the interconnected science, policy and legal issues involved in addressing climate change. Involves individual research resulting in a substantial individual research essay.

**LAWENVIR 726**

**Law General**

**Stage IV**

**LAWGENRL 403**  
**Special Topic**  
**LAWGENRL 404**  
**Special Topic**
LAWGENRL 405 15 Points
Community Law Internship
Participation in and report on an approved internship involving at least 150 hours internship with an approved organisation in a community context, and evaluation of the issues arising therefrom.
Prerequisite: LAW 201, 211, 231, 241, 298 or 299
Restriction: LAWGENRL 447
LAWGENRL 406 15 Points
Complex Litigation
The rise of globalisation and technology has created complex litigation challenges for victims of mass harms nationally and internationally. This course examines comparative theoretical, ideological and economic policies which underpin complex litigation systems with a particular focus on the use of regulatory actions, class actions and litigation funding entities. It also examines major procedural and substantive issues that arise in the context of national and international complex civil litigation.
Prerequisite: LAW 201, 211, 231, 241, 301, 306, 316
Restriction: LAWGENRL 457
LAWGENRL 408 15 Points
Special Topic: Indigenous Peoples, Criminal Law and Justice
An examination of contemporary issues in criminal law and justice concerning Indigenous peoples in Aotearoa New Zealand and internationally. Topics covered include: Indigenous peoples’ experiences of state criminal justice systems, efforts to incorporate Indigenous law and cultural practices into state criminal law and criminal justice systems, and Indigenous legal responses to wrongdoing.
Prerequisite: LAW 201
LAWGENRL 409 10 Points
Special Topic
LAWGENRL 410 15 Points
Special Topic: Comparative Health Law and Policy
An examination of domestic health care systems using a transdisciplinary lens with a specific focus on the roles that legal, economic, political, cultural, and ethical forces play in the development and regulation of health care systems around the world. Students will analyse the use of law and regulation to design and reform health care.
Prerequisite: LAW 201, 211, 231, 241, 298 or 299
LAWGENRL 411 15 Points
History of the Law of Obligations
The doctrinal history of the law of contract, tort and unjust enrichment from the twelfth century to the twentieth century. Original primary materials in the form of case law and legal treatises are considered.
Prerequisite: LAW 231, 241
Restriction: LAWGENRL 445, LAWHONS 740
LAWGENRL 412 15 Points
Special Topic
LAWGENRL 413 15 Points
Animals and the Law
The history, philosophy, and ethics of humanity's treatment of animals; relevant legislation and case law. Topics include: the development of the humane movement; consideration of whether all animals should be treated as property and the justification for such an approach; the development of animal protection legislation and what it does for animals; and the emergence of a concept of Animal Rights; the use of animals in farming, entertainment, research, and in a companion animal context; enforcement and sentencing of animal welfare offending; and international trends and developments in animal law.
Prerequisite: LAW 211
Restriction: LAW 462, LAWGENRL 442
LAWGENRL 414 15 Points
“Justice” in Sentencing
Concepts of “Justice” in the sentencing process in Aotearoa are examined and critiqued from multiple perspectives with a particular focus on te ao Māori and an emphasis on the practical elements involved in sentencing advocacy.
Prerequisite: LAW 201
Restriction: LAWGENRL 456
LAWGENRL 415 15 Points
Evidence
An overview of the rules related to the presentation of proof in New Zealand courts (civil and criminal) and tribunals, including the rules relating to hearsay, opinion evidence, privilege, examination of witnesses, confessions and the exclusion of illegally obtained evidence.
Prerequisite: LAW 201, 231
Restriction: LAW 425, LAWGENRL 401
LAWGENRL 417 15 Points
Community Law Internship
Participation in and report on an approved internship involving at least 115 hours internship with an approved organisation in a community context, and evaluation of the issues arising therefrom.
Prerequisite: LAW 201, 211, 231, 241
LAWGENRL 418 15 Points
Advocacy
An introduction to the general principles of trial and appellate advocacy in civil and criminal cases, the study of trial preparation and performance with a focus on practical instruction (including demonstrations and exercises which are videotaped and critiqued) and the study of tactical and ethical issues facing litigators.
Prerequisite: LAW 301, 306
Restriction: LAW 347, 410
LAWGENRL 420 15 Points
Civil Procedure
Studies in civil processes and procedures, with a focus on the New Zealand Senior Courts (High Court, Court of Appeal, Supreme Court). Covers commencement of proceedings (stating a case and a defence), case management processes, interlocutory steps, discovery, evidence and trial processes, costs and appellate procedures.
Prerequisite: LAW 201, 211, 231, 241
Restriction: LAW 413
LAWGENRL 422 15 Points
Women and the Law
A study of the dual role of law in addressing and maintaining
gender inequality, feminist thought on the gendered nature of law, and specific legal issues relevant to the status and interests of women in society.
Prerequisite: LAW 201, 211
Restriction: LAW 437

LAWGENRL 423
Legal History
Historical analysis of problems currently facing the law in Aotearoa New Zealand with reference to both English sources and indigenous developments.
Prerequisite: LAW 211
Restriction: LAW 441

LAWGENRL 424
Negotiation, Mediation and Dispute Resolution
An introduction to negotiation, mediation and dispute resolution covering: (i) a conceptual study of these processes including the study of the function of law, roles of lawyer, ethics, analysis, cultural and socio-economic factors; and (ii) a practical study of these processes including criteria for choosing resolution methods, techniques, attitudes, problem solving strategies, communication techniques, and effectiveness.
Restriction: LAW 447

LAWGENRL 425
Psychiatry and the Law
A general introduction to the formal relationship between psychiatry and law; the legal processes affecting compulsory assessment and treatment, including consideration of constitutional and cultural issues, patients rights and the review process; and the law and practice concerning forensic patients.
Prerequisite: LAW 201
Restriction: LAW 448

LAWGENRL 426
Roman Law
The significance of Roman Law as an enduring legacy from the ancient world to the modern; a study of the sources and historical development of Roman law; and a study of selected aspects of Roman law with a focus on the law of obligations: contract, quasi-contract, delict, quasi-delict. Translations of original primary materials in the form of the Institutes of Gaius, Justinian’s Institutes and Justinian’s Digest are considered.
Prerequisite: LAW 231, 241

LAWGENRL 427
Equitable Remedies
Examination of the more important remedies and orders granted in the court’s equitable jurisdiction (excluding constructive trusts). Particular attention is directed to remedies in aid of judgment and interlocutory orders to maintain the court’s authority over the parties or their property.
Prerequisite: LAW 306
Restriction: LAW 481

LAWGENRL 428
South Pacific Legal Studies
Legal study of Pacific Island states located in the regions of Micronesia, Melanesia and Polynesia. Distinctive features of law arising in Pacific states, for example sources of law; relationships between custom and imported concepts of law; legal pluralism; corruption and anti-corruption measures; democracy and governance; land law; constitutional crises and constitutional developments; environmental and trade issues; regional issues; human rights issues.
Prerequisite: 30 points at Stage II in International Relations and Business or LAW 211
Restriction: LAW 486

LAWGENRL 429
Law of Family Property
Advanced study of the law of property in family contexts, including trusts, succession, and matrimonial property.
Corequisite: LAW 306
Restriction: LAW 445

LAWGENRL 430
Advanced Family Law
Advanced problems in selected areas of family law.
Prerequisite: LAWGENRL 402 or 433
Restriction: LAW 407

LAWGENRL 431
Healthcare Law
An introduction to the legal and ethical issues related to health care delivery including: the purchase and provision of health services, the relationship between health providers and consumers, professional accountability, codes of rights, legal and ethical issues at the start and end of life, and biomedical research.
Prerequisite: LAW 211, 231
Restriction: LAW 427

LAWGENRL 432
Family Law
The law relating to cohabitation and marriage, the establishment of parenthood, and the relationship between parent and child. Study of the interrelationship between the state, the family and child protection and support.
Prerequisite: LAW 211
Restriction: LAW 426, LAWGENRL 402

LAWGENRL 433
Trial Advocacy
Examiners the principles of trial advocacy in both civil and criminal cases; practical instruction; related procedural, tactical and ethical issues.
Prerequisite: LAW 301, 306
Corequisite: LAWGENRL 401
Restriction: LAW 347, 410, LAWGENRL 420, LAWHONS 707

LAWGENRL 434
Theories of Private Law
Different theories of private law and how it leads to different solutions to concrete legal questions. This course explores some of the main schools of normative thought in contemporary private law theory. It examines the key concepts and values associated with each theory before considering different theoretical frameworks for understanding two of the main categories of private law: property and contract.
Prerequisite: LAW 231, 241
Restriction: LAWHONS 739

LAWGENRL 435
Air and Space Law
Examiners important aspects of international air and space law using examples of how the international law has been implemented and applied in the New Zealand legal system including topical aviation industry issues.
Prerequisite: LAW 211, 241
LAWGENRL 438 10 Points
Housing Law and Policy
An examination of the law and the policy considerations that relate to residential housing including: the historical development and current state of residential tenancy protection legislation; the relationship between social policy and housing regulation; human rights and social equity considerations; economic measures to achieve government policy objectives for housing; regulating the private rental market; property rights and security of tenure issues; ‘consumer protection’ measures to ensure safe and habitable housing; housing and natural disasters; retirement housing; new forms of housing ownership; and dispute resolution.
Prerequisite: LAW 301
Restriction: LAWGENRL 438

LAWGENRL 439 15 Points
Housing Law and Policy
An examination of the law and policy relating to residential housing including: human rights and social equity considerations; the role of government and social policy on housing; forms of housing ownership; residential tenancy legislation; regulating the private rental market; measures to ensure safe and habitable housing; retirement housing; housing for disabled persons; and housing following natural disasters.
Prerequisite: LAW 301
Restriction: LAWGENRL 438

LAWGENRL 440 10 Points
Youth Justice
An examination of why children and young people may be treated differently by criminal justice systems; comparison of the unique New Zealand youth justice system with international developments; consideration of particular topics, including the response to Māori young people and issues arising from the gender of young offenders.
Prerequisite: LAW 201, 211
Restriction: LAWGENRL 443, LAWHONS 707

LAWGENRL 443 10 Points
Introduction to Common Law
The history, nature and evolution of the Common Law; common law reasoning; the interaction of case law and legislation in a common law system.
Restriction: LAW 472

LAWGENRL 444 10 Points
Contemporary Issues in Land Law
Study of selected contemporary issues in real property. Topics may include: legal theory of real property; the constitution and takings of private property; state regulation of private property; the law of public recreational access, particularly to the waterfront; indigenous challenges to Crown ownership and governance of land, including the beds of water bodies and national parks; the aims of the Torrens system; and implications of reform of the Land Transfer Act 1952, in particular relating to land covenants, fraud and exceptions to indefeasibility.
Prerequisite: LAW 301

LAWGENRL 445 10 Points
The History of the Law of Obligations
The doctrinal history of the law of contract, tort and unjust enrichment from the twelfth century to the twentieth century. Original primary materials in the form of case law and legal treatises are considered.
Prerequisite: LAW 231, 241
Restriction: LAWGENRL 423, LAWHONS 740

LAWGENRL 446 10 Points
Pacific People in Aotearoa: Legal Peripheries
Examines and critiques certain areas and aspects of the law and legal system in New Zealand of particular relevance for Pacific people and communities.
Prerequisite: LAW 211

LAWGENRL 447 10 Points
Community Law Project
Participation in and report on an approved project involving at least 75 hours with an approved organisation in a community context, and evaluation of the issues arising therefrom.
Prerequisite: LAW 201, 211, 231, 241, 298 or 299
Restriction: LAWGENRL 405

LAWGENRL 448 10 Points
Selected Topics in Health Care Law
A selection of topics designed to consolidate and advance understanding of the theory and practice of health care law. The topics covered will vary according to current legal developments, but are likely to include: the law relating to human research and experimentation; legal and ethical issues in abortion, human reproduction, and assisted reproductive technologies; organ and tissue donation; the sterilisation of mental incompetents; the regulation of health professions, medical manslaughter and the disciplinary process; legal issues arising in human genetics, stem cell research, human reproductive cloning. An opportunity for an in-depth examination of relevant, current legal developments relating to health professional practice and patients' rights.
Prerequisite: LAW 211, 231
Restriction: LAWGENRL 448

LAWGENRL 449 10 Points
Selected Topics in Media Law
The law governing the media and journalists. Topics to be covered will include some of: defamation, contempt of court, breach of confidence, privacy, the broadcasting legislation, censorship and copyright.
Prerequisite: LAW 211, 231
Restriction: LAWHONS 721

LAWGENRL 450 10 Points
Public Authority Liability
Detailed consideration of the bases in both public and private law on which public authorities or the Crown may be liable to compensate private individuals or entities, and the debates surrounding this issue; the interface between private and public law.
Prerequisite: LAW 201, 211, 231, 241
Restriction: LAWGENRL 450, LAWPUBL 450, LAWHONS 742

LAWGENRL 452 15 Points
Appellate Advocacy
General principles of appellate advocacy in both civil and criminal cases; practical instruction; related procedural, tactical and ethical issues.
Prerequisite: LAW 301, 306
Corequisite: LAWGENRL 401
Restriction: LAW 347, 410, LAWGENRL 420, LAWHONS 707

LAWGENRL 453 15 Points
Privacy Law
An examination of the Law relating to privacy in New Zealand with special reference to the common law protection of privacy; the protection of privacy under the
Broadcasting Act 1989; and the scope and application of the Privacy Act 2020.
Prerequisite: LAW 211, 231
Restriction: LAWGENRL 453, LAWHONS 744

LAWGENRL 454 15 Points
Youth Justice
A study of how children and young people interact with and are treated by the criminal justice system of Aotearoa New Zealand, with comparison to developments in other jurisdictions. Topics may include: causes and responses to youth offending; youth as victims and participants in the criminal process; responses to Māori youth; gender; Family Group Conferences; Rangatahi Courts; and child imprisonment.
Prerequisite: LAW 201
Restriction: LAWGENRL 440

LAWGENRL 455 10 Points
Economic Analysis of Public and Private Law
Examines the role economic thinking can play in legal reasoning. Key economic concepts. Economic analysis applied to tort and contract law, constitutional and public international law, and judicial decision-making.
Prerequisite: LAW 211, 231, 241

LAWGENRL 457 10 Points
Special Topic: Complex Litigation
The rise of globalisation and technology has created complex litigation challenges for victims of mass harms nationally and internationally. This course examines comparative theoretical, ideological and economic policies which underpin complex litigation systems with a particular focus on the use of regulatory actions, class actions and litigation funding entities. It also examines major procedural and substantive issues that arise in the context of national and international complex civil litigation.
Prerequisite: LAW 201 and 211 and 231 and 241 and 298; or LAW 201 and 211 and 231 and 241 and 299

LAWGENRL 458 15 Points
Pasifika Peoples and the Law
Undeniably, Pasifika peoples in Aotearoa experience a number of inequalities. However, the complex relationships between these inequalities and the law are rarely explored in legal education and scholarship. Therefore, this course aims to give students an understanding of these relationships by encouraging the use of critical perspectives to examine a range of socio-legal issues facing Pasifika communities in Aotearoa today.
Prerequisite: LAW 201, 211, and 298 or 299

LAWGENRL 459 15 Points
Race and the Law
Explores the relationship between race, power and the law in Aotearoa and beyond. Areas of focus will include the changing conceptualisations of race, racism, discrimination, implicit and institutional bias. Students will also examine approaches to racial justice (from Critical Race Theory to Abolition movements) and consider how they understand and address the issues facing communities of colour today.
Prerequisite: LAW 201, 211, 231, 241, 298 or 299

LAWGENRL 460 15 Points
International Mooting
Students selected to represent the Faculty of Law in approved international mooting competitions will complete independent research, draft written submissions and present oral argument on complex areas of international law which will be overseen by faculty advisers.
Prerequisite: LAW 201, 211, 231, 241, 298 or 299

LAWGENRL 461 15 Points
Special Topic

LAWGENRL 464 15 Points
Introduction to Common Law
The history, nature and evolution of the Common Law; common law reasoning; the interaction of case law and legislation in a common law system.
Restriction: LAW 472, LAWGENRL 443

Postgraduate 700 Level Courses

LAWGENRL 702 30 Points
Foundations of Human Rights - Level 9
A study of the moral and jurisprudential basis for human rights and for their protection through law including a study of the major theories of justice and rights. Involves individual research resulting in a substantial individual research essay.

LAWGENRL 711 30 Points
Special Topic: Corruption: Comparative and International Approaches - Level 9

LAWGENRL 712 30 Points
Therapeutic Jurisprudence - Level 9
The role of the law as a therapeutic agent. The impact of the law on emotional life and psychological wellbeing. Investigation of different areas of the practice of law that may be susceptible to a therapeutic jurisprudence analysis, including drug treatment and mental health courts. Involves individual research resulting in a substantial individual research essay.

LAWGENRL 715 30 Points
Special Topic: Comparative Crime - Level 9

LAWGENRL 716 15 Points
Special Topic: Secured Transactions: Practical - Level 9

LAWGENRL 717 15 Points
Special Topic: Employment Law: Personal Grievance - Level 9

LAWGENRL 719 30 Points
Special Topic: Law and Computer Science - Level 9

LAWGENRL 720 30 Points
Law of Evidence - Level 9
Fundamental principles and policies central to the law of evidence in modern times; consideration of how successfully these competing principles and policies are balanced within New Zealand’s legislation governing the admission of evidence: the Evidence Act 2006. Using examples from New Zealand and abroad, consideration of how these principles and policies interact in particular cases in criminal proceedings. Involves individual research resulting in a substantial individual research essay.

LAWGENRL 721 30 Points
Mediation - Level 9
The nature of mediation and its strategic advantages and disadvantages, the legal framework of mediation (including the limits of confidentiality and privilege), negotiation theory and effective client representation in mediation.
A central focus on current theoretical issues in dispute resolution such as ethical dilemmas, power dynamics in mediation and the future of the justice system. Involves individual research resulting in a substantial individual research essay.

**LAWGENRL 722** 15 Points  
Comparative Law - Level 9  
Comparative law, theory and methodology. Involves individual research resulting in a substantial individual research essay.

**LAWGENRL 723** 15 Points  
Special Topic: Selected Topics in Law of Evidence and Criminal Procedure - Level 9

Special Topic - Level 9

**LAWGENRL 770** 15 Points  
Ideas of Land - Level 9  
An exploration of the challenges posed to legal thinking by social and environmental issues in the twenty-first century. Examination of some central tensions in the theory of property law. The history of common law ideas of land. Debates about theories of property in light of selected current issues in the law. Involves individual research resulting in a substantial individual research essay.

**LAWGENRL 771** 15 Points  
Mediation Theory and Practice - Level 9  
The mediation process, advantages and disadvantages of mediation, the landscape of mediation in New Zealand and internationally, some basic legal framework issues, the role of mediation in the civil justice system, consideration of some issues surrounding ethics, gender and race dynamics and online mediation. Involves individual research resulting in a substantial individual research essay.

**LAWGENRL 772** 15 Points  
Mediation Advocacy - Level 9  
A study of the practice and skills of representing clients effectively in mediation including tactical and ethical issues facing mediators. The relevant legal framework in detail, including the enforceability of mediation agreements, confidentiality and privilege issues, power dynamics and how to deal with common problems in mediation. Involves individual research resulting in a substantial individual research essay.

**LAWGENRL 773** 15 Points  
Theoretical Issues in Therapeutic Jurisprudence - Level 9  
An exploration of the theoretical underpinnings of the idea of law as a therapeutic agent. Involves individual research resulting in a substantial individual research essay.

**LAWGENRL 774** 15 Points  
The Practice of Therapeutic Jurisprudence - Level 9  
Building on Theoretical Issues in Therapeutic Jurisprudence, this course investigates different areas of the practice of law that may be susceptible to a therapeutic jurisprudence analysis, including drug treatment and mental health courts. Involves individual research resulting in a substantial individual research essay.  
Prerequisite: LAWGENRL 773

**To complete this course students must enrol in LAWHONS 733 A and B**

LAWHONS 734A 10 Points
LAWHONS 734B 10 Points

**Issues in Insurance Law**
A consideration of the law governing insurance contracts, including the duty of utmost good faith; the interpretation of the policy; the scope of cover; warranties and conditions; the claims process and fraudulent claims; and quantification of the insurer’s obligations; subrogation and recoupment; and third party rights.

**Restriction:** LAW 384, 431, LAWSOCIAL 424, 453
**Corequisite:** LAWSOCIAL 424, 453
**To complete this course students must enrol in LAWHONS 734 A and B**

LAWHONS 735A 10 Points
LAWHONS 735B 10 Points

**Corruption and Democracy**
Corruption has devastating implications for self-government. This seminar explores how corruption manifests within democracies specifically: the impact of corruption on democratic values and priorities; the inequalities it creates within political and economic systems; the environmental destruction and the potential for human rights violations it creates - all from the perspective of distinct sources of law including constitutions and treaties.

**Restriction:** LAW 385, LAWSOCIAL 467
**To complete this course students must enrol in LAWHONS 735 A and B**

LAWHONS 736A 10 Points
LAWHONS 736B 10 Points

**Topics in International Law**
An in-depth analysis of selected topics in historical and contemporary international law, the aim of which is to provide students with a deeper appreciation of the theoretical debates in the discipline, as well as a broader understanding of the topics being studied.

**Corequisite:** LAWSOCIAL 435 or LAWSOCIAL 402
**To complete this course students must enrol in LAWHONS 736 A and B**

LAWHONS 737A 10 Points
LAWHONS 737B 10 Points

**Law of Agency**
A study of the principles of agency law and selected applications thereof.

**To complete this course students must enrol in LAWHONS 737 A and B**

LAWHONS 738A 10 Points
LAWHONS 738B 10 Points

**Studies in Company Law and Contract Law**
An advanced study of selected topics in the areas of company law and contract law, including the relationship between directors, theories of the company, comparative corporate law, shareholders and the company, consideration of the history of contract law, various jurisprudential and/or comparative approaches to contract law, various doctrines of contract law and potential statutory reform of contract law.

**Corequisite:** LAWSOCIAL 402
**To complete this course students must enrol in LAWHONS 738 A and B**

LAWHONS 739A 10 Points
LAWHONS 739B 10 Points

**Theoretical Foundations of Private Law**
Examines the key concepts and values associated with each of the main categories of private law: property and contract.

**To complete this course students must enrol in LAWHONS 739 A and B**
LAWHONS 740A 10 Points
LAWHONS 740B 10 Points
The History of the Law of Obligations
The doctrinal history of the law of contract, tort and unjust enrichment from the twelfth century to the twentieth century. Original primary materials in the form of case law and legal treatises are considered.
Restriction: LAW 356, LAWGENRL 445
To complete this course students must enrol in LAWHONS 740 A and B

LAWHONS 741A 10 Points
LAWHONS 741B 10 Points
Indigenous Peoples and the Law
An overall consideration of Indigenous peoples in international, constitutional and human rights law in New Zealand and internationally.
Restriction: LAW PUBL 446
To complete this course students must enrol in LAWHONS 741 A and B

LAWHONS 742A 10 Points
LAWHONS 742B 10 Points
Public Authority Liability
Covers the various public and private law bases for monetary liability of public authorities (with a focus on Torts); the doctrinal and policy debates surrounding such liability; the uncertain interface between private and public law.
Restriction: LAW 466, LAWGENRL 450, LAW PUBL 450
To complete this course students must enrol in LAWHONS 742 A and B

LAWHONS 743A 10 Points
LAWHONS 743B 10 Points
Refugee and Immigration Law
Advanced studies on a range of refugee and immigration law matters including; the history and development of the international refugee system, changing understandings of refugees, detention systems and camps, people smuggling, themes in New Zealand immigration law history, the securitisation of immigration law and prospects of a borderless world. The course will incorporate history, theory, policy and critical analysis.

LAWHONS 744 20 Points
LAWHONS 744A 10 Points
LAWHONS 744B 10 Points
Special Topic: Privacy Law
To complete this course students must enrol in LAWHONS 744 A and B, or LAWHONS 744

LAWHONS 745 20 Points
Corporate Governance
A study of the governance of corporations adopting comparative, and law-and-economics perspectives including the role and obligations of the board, the legal and economic relationships between corporate constituents, and trends and developments in corporate governance.

LAWHONS 746A 10 Points
LAWHONS 746B 10 Points
Concepts in Law and Security
An in-depth analysis of theoretical concepts related to law and security. The aims of the course are to introduce students to key concepts in the relevant academic discourse, to explore the ways in which these concepts frame discussions regarding law and security in the post-9/11 era, and to examine the extent to which those concepts influence policy, practice and discourse.
To complete this course students must enrol in LAWHONS 746 A and B

LAWHONS 747A 10 Points
LAWHONS 747B 10 Points
Law of Restitution
A study of the law of just restitution, including its general principles, the concept of unjust enrichment, and the relationship of the subject with other areas of law, including the law of property, contract law, and the law of tort. Consideration is also given to selected areas of practical application, such as the reversal of transfers for mistake, impaired judgement, duress and failure of conditions, and profiting from wrongs.
To complete this course students must enrol in LAWHONS 747 A and B

LAWHONS 748A 10 Points
LAWHONS 748B 10 Points
Special Topic: International Taxation
Tests of residence for individuals and corporations. The wider tax base for off-shore income of New Zealand residents. Income derived by overseas residents from New Zealand activities. The Double Tax Treaty System. Selecting the country of residence. Anti-avoidance measures directed at transnational activity. The use of tax havens. As well as New Zealand taxation law, the course also examines the municipal revenue law of some of our trading partners. Involves individual research resulting in a substantial individual research essay.
To complete this course students must enrol in LAWHONS 748 A and B

LAWHONS 749A 10 Points
LAWHONS 749B 10 Points
Special Topic: Global Environmental Law
Examines environmental law and governance from the international, regional and national levels. The global coverage includes international environmental law and draws on experiences from the European Union, United States, Canada, South America, Australia and New Zealand. The topics include state sovereignty, the UN system, principles and sources of international environmental law, climate change, biodiversity, human rights and current developments in global and domestic environmental governance.
To complete this course students must enrol in LAWHONS 749 A and B

LAWHONS 750A 10 Points
LAWHONS 750B 10 Points
Special Topic: Tax Law and Policy
Covers tax law and policy generally including; theoretical aspects of tax system design; New Zealand’s system of income tax and GST; problems such as tax avoidance and the taxation of large, heavily digitalized multinational enterprises; and possibilities for reform such as capital gains tax and death duties.
Corequisite: LAW COMM 403
To complete this course students must enrol in LAWHONS 750 A and B

LAWHONS 751A 10 Points
LAWHONS 751B 10 Points
Special Topic: International Peace and Security
Covers the principal schools of political thought on the
place of private law in modern society, including libertarian, Marxist, egalitarian, and neo-liberal theories. Discusses the political stakes involved in structuring and regulating private transactions. Evaluates the appropriateness of different modalities of generating private law, including traditional adjudication, democratic legislation, and the work of private legislatures.
Restriction: LAWCOMM 465
To complete this course students must enrol in LAWHONS 751 A and B

LAWHONS 752A 10 Points
LAWHONS 752B 10 Points
Special Topic: Complex Litigation
The rise of globalisation and technology has created complex litigation challenges for victims of mass harms. This course examines comparative theoretical, ideological and economic policies which underpin complex litigation systems with a particular focus on the use of regulatory actions, class actions and litigation funding entities. It also examines major procedural and substantive issues that arise in complex civil litigation.
Restriction: LAWGENRL 406, 457
To complete this course students must enrol in LAWHONS 752 A and B

LAWHONS 753A 10 Points
LAWHONS 753B 10 Points
Special Topic: Restorative and Therapeutic Justice
To complete this course students must enrol in LAWHONS 753 A and B

Mātauranga Māori and Taonga
A study of indigenous intellectual property and cultural property. Considers how Māori and the Crown may address the Crown's breaches of its guarantee in Te Tiriti o Waitangi 1840 to allow Māori to exercise tino rangatiratanga (the unqualified exercise of chieftainship) over mātauranga Māori (the body of knowledge originating from Māori ancestors) and taonga (tangible and intangible treasures).
Restriction: LAWPPUBL 468
To complete this course students must enrol in LAWHONS 755 A and B

LAWHONS 755A 10 Points
LAWHONS 755B 10 Points

Dissertation - Level 9
A dissertation of approximately 15,000 words resulting from original research of the student, having the scope, and depth of research, of a competent law review article. The topic of the dissertation needs the approval of the Dean of Faculty of Law.
Restriction: LAW 789

Law Public

Stage IV

LAWPUBL 400 15 Points
Social Justice Lawyering
A clinical legal education course that provides students with real-life lawyering opportunities under the mentorship of experienced practitioners. Students will attend preparatory seminars and trainings and then work alongside legal practitioners to apply these skills in a real-life context.
Prerequisite: LAWPUBL 201, 211, 231, 241, 398 or 458

LAWPUBL 402 International Law
An introduction to the basic principles and nature of public international law and its role in contemporary society including an overview of the current legal framework, the sources of international law, the law of treaties, issues surrounding international personality, international dispute resolution and the use of force.
Prerequisite: 30 points at Stage II in Global Politics and Human Rights or LAWPUBL 211, 231, 241
Restriction: LAW 435

LAWPUBL 403 Special Topic: Advanced International Law

LAWPUBL 404 Special Topic

LAWPUBL 405 Special Topic: Law and Social Justice
The role of law and legal practice in the advancement of social justice, including an introduction to theories of social justice and their application in diverse areas of social policy including criminal justice, housing, welfare, immigration, tax, and in relation to the Māori and Pasifika dimensions of Aotearoa New Zealand.
Prerequisite: LAWPUBL 201 and 211

LAWPUBL 406 Advanced Criminal Law
An examination of a selected range of the more difficult but significant areas of legal doctrine and policy that arise in the criminal law and which are not covered in the introductory Part II course on criminal law. Topics covered in this course include: the law on inchoate offences, property offences (other than theft), the insanity defence and party liability.
Prerequisite: LAWPUBL 201

LAWPUBL 407 Advanced Employment Law
Prerequisite: LAWPUBL 425
Restriction: LAW 460, LAWPUBL 457

LAWPUBL 408 Special Topic: International Organisations
An introduction to the law, practice, and politics of international organisations such as the United Nations, technical agencies, and international financial institutions, including: the historical evolution of international organisations; and cross-cutting doctrinal issues such as membership, organs, decision-making, legal powers, and accountability.
Prerequisite: LAWPUBL 201

LAWPUBL 409 15 Points
LAWPUBL 409A 10 Points
LAWPUBL 409B 5 Points
Special Topic
Prerequisite: LAWPUBL 201, 211, 231, 241
Restriction: LAW 470
To complete this course students must enrol in LAWPUBL 409 A and B

LAWPUBL 410 International Law
An introduction to public international law including an
overview of the current legal framework, the sources of international law, the law of treaties, international personality, state responsibility, international dispute resolution and selected current issues.

**Prerequisite:** 30 points at Stage II in Global Politics and Human Rights or LAW 211, 231, 241

**Restriction:** LAW 435, LAWPUBL 402

**LAWPUBL 411**

Local Government Law

The law relating to the structure, powers and service delivery functions of local government. Examines the history of local government, powers and administrative principles, civil liability, elections, council procedures, works contracts, land valuation, rating systems, environmental functions, bylaws, licensing, roads, public reserves, community services, and civil defence.

**Prerequisite:** LAW 201, 211, 231, 241

**LAWPUBL 413**

Protecting Refugees and Forced Displacement in the 21st Century: Contemporary Law and Practice

Detailed study of contemporary law and practice relating to the protection of refugees and forcibly displaced people. The intersection of international law with other disciplines, including international relations, development, peace and security, and social studies, provides a broad base to understand applicable legal, political and social policies and discourse to protect displaced people in the twenty-first century.

**Prerequisite:** 30 points at Stage II in Global Politics and Human Rights or LAW 201, 211, 231, 241

**LAWPUBL 414**

Administrative Law

A study of the general principles of judicial review of administrative action, including the ultra vires principle, the substantive and procedural restraints on the exercise of public power, and the remedies available for breach of these principles.

**Prerequisite:** LAW 201, 211, 231, 241

**Restriction:** LAW 402, 440, LAWPUBL 401, 426

**LAWPUBL 420**

Contemporary Issues in Criminal Justice

An examination of selected contemporary issues in criminal justice in Aotearoa New Zealand. Topics may include: whether the criminal justice system in Aotearoa is fit for purpose; punishment and imprisonment; victims and the criminal process; restorative justice; therapeutic jurisprudence; solution-focused courts; family violence; Indigenous peoples and the criminal justice system; media and crime. The focus is on law-in-action and law-in-context.

**Prerequisite:** LAW 201

**Restriction:** LAW 406, LAWPUBL 463

**LAWPUBL 421**

Advanced International Law

Advanced studies in selected areas of the law of nations; a critical analysis of existing and developing international law, and consideration of the relationship between law, economics, politics and international diplomacy.

**Prerequisite:** LAW 435 or LAWPUBL 402

**Restriction:** LAW 408, LAWPUBL 459

**LAWPUBL 422**

Contemporary Tiriti/Treaty Issues

Contemporary legal issues arising under Te Tiriti o Waitangi.

**Prerequisite:** LAW 211

**Restriction:** LAW 421

**LAWPUBL 423**

Criminology

The study of major theories of criminology; the definition, nature and causes of criminal behaviour; the administration of criminal justice; and the interrelation of specific crimes and the criminal justice system.

**Prerequisite:** LAW 201, or 121G and either CRIM 201 or 202

**Restriction:** LAW 363, 423, LAWHONS 723

**LAWPUBL 424**

Immigration and Refugee Law

A consideration of the basic features of the Immigration Act 1987 with emphasis on the role of administrative law in the immigration field, an introduction to the law of refugee status, and the jurisprudence of the New Zealand. Refugee Status Appeals Authority.

**Prerequisite:** LAW 211

**Restriction:** LAW 428

**LAWPUBL 425**

Employment Law

**Prerequisite:** LAW 231, 241

**Restriction:** LAW 430

**LAWPUBL 426**

Judicial Review

A study of the general principles of judicial review of administrative action, and remedies available for breach of those principles.

**Prerequisite:** LAW 211

**Restriction:** LAW 402, 440, LAWPUBL 401

**LAWPUBL 427**

Māori Land Law

Customary Māori land tenure and legal issues arising under Te Ture Whenua Māori Act 1993. Corequisite: LAW 301

**Restriction:** LAW 359, 444, LAWHONS 719

**LAWPUBL 428**

Rights and Freedoms

The legal modes for protection of civil rights including study of the New Zealand Bill of Rights Act 1990, the Human Rights Act 1993, freedom of speech and religion, criminal procedural rights, equality and the prohibited grounds of discrimination.

**Prerequisite:** LAW 211

**Restriction:** LAW 342, 452, LAWHONS 702

**LAWPUBL 429**

Law and Policy

An introduction to different theoretical perspectives on the role of the State and the policy-making process; the policy-making process and the techniques for analysing policy; the process, substance and effects of key policy changes since 1984.

**Prerequisite:** LAW 211

**Restriction:** LAW 480

**LAWPUBL 430**

Criminal Procedure

The rules governing the conduct of criminal trials and the investigation of crime. Changes to criminal procedure brought about by judicial interpretation of the New Zealand
Bill of Rights Act 1990. Selected topics which may include: search and seizure, name suppression, right to counsel, exclusion of evidence, bail, juries, trial delay.
Prerequisite: LAW 201
Restriction: LAW 482

LAWPUBL 431 15 Points
Advanced Public Law
Advanced studies in selected areas of Public Law.
Prerequisite: LAW 211
Restriction: LAW 483

LAWPUBL 432 15 Points
International Economic Regulation
The growing array of trade and investment, or economic integration, agreements at the multilateral, regional and bilateral levels. Core concepts, theories, institutions and rules from the perspective of public international law, as well as the realpolitik of trade negotiations.
Prerequisite: 30 points at Stage II in International Relations and Business or LAW 211
Restriction: LAW 485

LAWPUBL 434 15 Points
International Criminal Law
The evolution of international criminal law, from the Nuremberg and Tokyo Tribunals to the International Criminal Court. Topics include: the nature and sources of international criminal law; jurisdiction; individual and collective responsibility; substantive crimes and defences; alternatives to criminal trials, such as truth commissions and amnesties.
Prerequisite: LAW 201
Corequisite: LAW 435 or LAWPUBL 402
Restriction: LAW 489

LAWPUBL 435 15 Points
Law of the Sea and Antarctica
A foundational study of the Law of the Sea and the law relating to Antarctica, with specialised work on contemporary legal and policy issues.
Prerequisite: 30 points at Stage II in International Relations and Business, or LAW 211
Restriction: LAW 494, LAWPUBL 462

LAWPUBL 436 15 Points
International Human Rights
An outline of the growing jurisprudence relating to international human rights law, with a particular focus on the case law of the UN Human Rights Committee and the European Court of Human Rights; consideration of the core human rights protected, and the practicalities of how human rights cases are brought before the main adjudicatory bodies.
Prerequisite: 30 points at Stage II in Global Politics and Human Rights or LAW 211
Restriction: LAW 496

LAWPUBL 438 15 Points
European Public Law
An introduction to the unique organisational structure of the European Union and to its fundamental principles. Topics include: the fundamental structure of the EU; how EU law is made and by whom; the role of the European Courts, and the relationship between EU and national law; and selected areas of EU substantive law, such as the free movement of persons and goods.
Prerequisite: 30 points at Stage II in BGlobalSt courses or LAW 211
Restriction: LAW 498

LAWPUBL 441 15 Points
Nga Tikanga Māori
A study of Māori customary law. Topics that may be covered include: the content of Customary Law as it relates to Māori social and political organisation and land tenure; Customary Law’s interaction with the general (e.g., through statute or the common law); Customary Law and legal pluralism and culture theory; and the role of Customary Law in contemporary Crown-iwi relations.
Prerequisite: LAW 211

LAWPUBL 442 15 Points
Researching Indigenous Rights Theory, Law and Practice
Aims to provide students with the opportunity to develop their research and writing skills, while also acquiring substantive knowledge about indigenous rights law in the context of international law; comparative law; and the domestic law of states. Students will also learn how to research indigenous rights law, for example by learning how to access materials, academic papers, and information.
Prerequisite: LAW 211

LAWPUBL 443 15 Points
Refugee Law
An overview of the international and New Zealand refugee law systems including who is a refugee, the pathways and processes for becoming a refugee, the rights of refugees. Critical approaches to the field of refugee law; discussion of contemporary challenges in the field.
Prerequisite: 30 points at Stage II in Global Politics and Human Rights or LAW 211
Restriction: LAW 428, LAWPUBL 424

LAWPUBL 444 15 Points
Immigration Law
An overview of the immigration issues in New Zealand. The history of immigration law; examination of some of the key issues in immigration law today including the immigration law system, citizenship, visas, deportation, appeals and judicial review of immigration decisions and national security issues. Contemporary challenges in the field.
Prerequisite: LAW 211
Restriction: LAW 428, LAWPUBL 424

LAWPUBL 445 15 Points
European Union Law
The law related to the European Union and its institutional, economic and social structure as well as the general economic and political implications of the present status of the European Union.
Prerequisite: 30 points at Stage II in BGlobalSt courses or LAW 211
Restriction: LAW 424

LAWPUBL 446 15 Points
Indigenous Peoples in International Law
An introduction to international law as it relates to indigenous peoples including: third world approaches to international law; the United Nations Declaration on the Rights of Indigenous peoples; the relationship between international human rights and Indigenous peoples’ rights; the universal human rights regime and Indigenous peoples; regional human rights systems and Indigenous peoples’ rights; international economic institutions and Indigenous peoples; business and Indigenous peoples’ rights and special topics relevant to Indigenous peoples in the Pacific.
Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or Global Politics and Human Rights, or LAW 211
LAWPUBL 447 10 Points
Statutory Interpretation: Theory and Practice
The normal mode of legal reasoning and legal argumentation proceeds by way of interpretation: of statutes, of precedents, of contracts etc. This course takes up the systematic study of statutory interpretation. Drawing on examples from different common law jurisdictions, it surveys the traditional techniques employed in the interpretation of statutes and analyses the contemporary debate between different theoretical schools such as textualism, intentionalism, purposivism and pragmatism.
Restriction: LAW 488

LAWPUBL 451 10 Points
Counterterrorism Law and Policy
An examination of various legal issues arising out of the 'global war on terror', including: different paradigms for dealing with emergencies; difficulties of legally defining terrorism; detention of terrorist suspects; ethnic/racial profiling; electronic surveillance; coercive interrogation and torture; targeted killing; criminalisation of offences related to terrorism.
Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or Global Politics and Human Rights, or LAW 201, 211
Restriction: LAW 467

LAWPUBL 452 10 Points
Law of Armed Conflict
The legal rules governing the conduct of hostilities; historical and contemporary operation; associated issues, including treaties and UN peace operations.
Corequisite: LAW 435 or LAWPUBL 402
Restriction: LAW 473

LAWPUBL 454 10 Points
International Disputes Settlement
Topics are likely to include: the international law obligation to settle disputes peacefully; legal and political mechanisms for settling international disputes; the establishment and functions of the International Court of Justice; global dispute settlement bodies; dispute settlement system of the World Trade Organization, the Permanent Court of Arbitration, and the International Tribunal for the Law of the Sea; regional tribunals; international criminal courts and tribunals; mixed investor-state dispute settlement.
Prerequisite: LAW 211
Corequisite: LAW 435 or LAWPUBL 402

LAWPUBL 455 10 Points
The Law of Disarmament
A legal analysis of the framework governing disarmament and arms control in the international sphere, including (but not limited to) treaties such as the Nuclear Non Proliferation Treaty, the Comprehensive Test Ban Treaty, the Chemical Weapons Convention, and the Landmines Convention. Relevant case law of the International Court of Justice. The role of civil society in disarmament campaigns.
Prerequisite: 30 points at Stage II in Global Politics and Human Rights, or LAW 211
Restriction: LAWPUBL 466

LAWPUBL 456 10 Points
Introduction to Criminology
A study of classical and contemporary theories concerning the nature, causes and effects of crime and delinquency; the varieties of behaviour that society chooses to control or regulate; formal and informal methods and institutions used to achieve crime control; and the operation of various law enforcement, security, correctional and judicial organisations. Throughout the course attention is given to the relationship between theory and practice and students are encouraged to think critically about the implications of criminological research for criminal justice policy.
Prerequisite: LAW 201
Restriction: LAWPUBL 423

LAWPUBL 457 10 Points
Advanced Employment Law
Advanced study of both collective and individual aspects of employment law, including comparative treatment of good faith in collective bargaining and ILO conventions. Comparative treatment of tenure in employment, the 'contingent' workforce and transfer of undertakings.
Prerequisite: LAWPUBL 425
Restriction: LAW 460

LAWPUBL 458 10 Points
Comparative Indigenous Law Topics
Study of law and legal issues affecting indigenous peoples in various jurisdictions.
Prerequisite: 30 points at Stage II in Global Environment and Sustainable Development or Global Politics and Human Rights, or LAW 211
Restriction: LAW 463

LAWPUBL 459 10 Points
Aspects of Advanced International Law
Advanced studies in selected aspects of international law.
Prerequisite: LAW 435 or LAWPUBL 402
Restriction: LAW 408, LAWPUBL 421

LAWPUBL 460 10 Points
Comparative Constitutional Law
Through a comparative approach to constitutional structures, history and constitution-making, this course aims to prepare students both theoretically and practically to evaluate New Zealand’s constitution and to consider its future.
Prerequisite: LAW 211
Restriction: LAW 483, LAWPUBL 431

LAWPUBL 461 15 Points
Indigenous Rights Legal Clinic
Explores substantive international and domestic human rights law and associated legal skills taught through a combination of seminars and experiential learning.
Prerequisite: LAW 211 or 30 points at Stage II in Global Politics and Human Rights

LAWPUBL 462 15 Points
Law of the Sea
An examination of the history of the development of the law of the sea; the sources of the contemporary law of the sea, leading to the adoption of the 1982 United Nations Convention on the Law of the Sea; and the legal regime of various maritime zones (territorial sea, exclusive economic zone, high seas etc). Particular issues such as the settlement of disputes, maritime delimitation, maritime security, fisheries and bioprospecting are also addressed.
Prerequisite: 30 points at Stage II in International Relations and Business, or LAW 211
Restriction: LAW 494, LAWPUBL 435

LAWPUBL 463 10 Points
Advanced Topics in Criminal Law
An examination of selected topics in criminal law and the criminal justice process of Aotearoa New Zealand, with comparison to developments in other jurisdictions. Topics may include: victims and the criminal process; restorative justice; therapeutic jurisprudence; solution-focused courts;
family violence; indigenous peoples and the criminal justice system; media and crime; and imprisonment. The focus is on law-in-action and law-in-context.

**Prerequisite:** LAW 201

**Restriction:** LAW PUBL 420

LAW PUBL 464 10 Points

**Special Topic**

LAW PUBL 465 10 Points

**Special Topic: International Law in Aotearoa/New Zealand**

Students will consider international law from a New Zealand perspective. The course evaluates how international law shapes New Zealand and operates with (in) its legal system, and focuses on New Zealand's interaction with, contribution to, and attitude towards different areas of international law.

**Corequisite:** LAW PUBL 402

LAW PUBL 466 15 Points

**Contemporary Issues in Disarmament Law**

A study of the legal and humanitarian issues relating to arms control and disarmament, including both conventional weapons (landmines, small arms, incendiary weapons for example) and "weapons of mass destruction" (chemical, biological and nuclear weapons). Themes include the role of civil society in law-making, difficulties of verification and dispute resolution and the role of law in disarmament.

**Prerequisite:** 30 points at Stage II in Global Politics and Human Rights or LAW 211

**Restriction:** LAW PUBL 455

LAW PUBL 467 15 Points

**Anti-corruption Law and Democracy**

The global significance of corruption and its implications for self-government are explored within the context of rising economic and political inequality and illiberal populism. This course asks whether anti-corruption law can respond to democracy's vulnerabilities and decline. It examines current economic and political trends, anti-corruption law domestically and internationally, and the potential for enhancing the law to better-protect political integrity.

**Prerequisite:** LAW 201, 211

**Restriction:** LAW HONS 735

LAW PUBL 468 15 Points

**Special Topic: Mātauranga Māori and Taonga/Cultural Property and Indigenous Intellectual Property**

Cultural property topics include: the preservation of cultural heritage; the protection of cultural property during armed conflict; and the restitution and repatriation of cultural objects. Indigenous intellectual property topics include: Māori claims to mātauranga Māori and taonga, with a particular emphasis on Wai 262; and the interface between intellectual property norms and proposals for reform.

**Prerequisite:** LAW 211

LAW PUBL 469 10 Points

**Special Topic**

LAW PUBL 471 15 Points

**Special Topic: Local Government Law**

The law relating to the structure, powers and service delivery functions of local government. This course examines the history of local government, powers and administrative principles, civil liability, elections, council procedures, works contracts, land valuation, rating systems, environmental functions, bylaws, licensing, roads, public reserves, community services, and civil defence.

**Prerequisite:** LAW PUBL 477

**Comparative Indigenous Law Topics**

Study of law and legal issues affecting indigenous peoples in various jurisdictions.

**Prerequisite:** 30 points at Stage II in Global Environment and Sustainable Development or Global Politics and Human Rights, or LAW 211

**Restriction:** LAW 463, LAW PUBL 458

LAW PUBL 477 15 Points

**Postgraduate 700 Level Courses**

**LAW PUBL 700**

**The International Legal System - Level 9**

A discussion of the framework, development and theory of international law. An examination of the key concepts and fundamental principles of international law. Involves individual research resulting in a substantial individual research essay.

**LAW PUBL 705**

**Criminal Law and Policy - Level 9**

The history and principles of criminal law, analysis of current issues in substantive and procedural criminal law, criminal justice theory, including the theory of punishment, and criminal law reform. Involves individual research resulting in a substantial individual research essay.

**Restriction:** LAW 715

**LAW PUBL 707**

**Employment Law - Level 9**

Selected and comparative studies in employment law. Involves individual research resulting in a substantial individual research essay.

**Restriction:** LAW 725

**LAW PUBL 720**

**Local Government Law - Level 9**

The law relating to the structure, powers and service delivery functions of local government including: the history of local government, reorganisation schemes, powers and administrative principles, civil liability, elections, council procedures, staff employment, works contracts, financial accountability, land valuation, rating systems, environmental functions and bylaws. Consideration of related public bodies, e.g., education and health authorities. Involves individual research resulting in a substantial individual research essay.

**LAW PUBL 725**

**Privacy Law - Level 9**

The law governing data surveillance and techniques of social control through the use of information technology, privacy aspects of the prevention of credit and insurance fraud, criminal investigation and the balance between individual rights and commercial and/or public interests. Involves individual research resulting in a substantial individual research essay.

**LAW PUBL 726**

**Public International Law - Level 9**

The principles of international law and their application to municipal law. Involves individual research resulting in a substantial individual research essay.

**LAW PUBL 730**

**Indigenous Peoples' Rights in National Law - Level 9**

A study of the application of indigenous peoples' rights in national jurisdictions including New Zealand, Canada, the United States and select Latin American states. Involves
individual research resulting in a substantial individual research essay.

LAWPUBL 733
Comparative Indigenous Rights Law - Level 9
Study of the nature and legal protection of the rights of indigenous persons and groups in international and comparative perspective, including rights to self-government, cultural, religious and linguistic rights. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 736
Human Rights Litigation - Level 9
Study of international conventions and customary international law on human rights, including: free speech, exercise of religion, privacy and nondiscrimination, enforcement mechanisms, human rights theories in international law, third generation human rights including rights to development and a functioning environment, and the recognition of these in international law. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 740
Special Topic: Advanced Employment Law - Level 9
LAWPUBL 741
Special Topic: International Peace and Security - Level 9
LAWPUBL 743
International Criminal Law - Level 9
The evolution of international criminal law, from the Nuremberg and Tokyo Tribunals to the International Criminal Court. Topics include the nature and sources of international criminal law, jurisdiction, individual and state responsibility, substantive crimes and defences, and alternatives to criminal trials such as truth commissions and amnesties. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 744
Special Topic: Freedom of Speech as Constitutional Principle - Level 9
LAWPUBL 745
Special Topic: Constitution and Custom in the South Pacific - Level 9
LAWPUBL 746
Special Topic: Comparative Health Law and Policy - Level 9
LAWPUBL 747
Special Topic: Patients' Rights - Level 9
This wide-ranging course examines key current issues in patients’ rights. Topics may include: access, quality and information, rights to access health care, how the quality of health care is assessed, limits of information disclosure, outcomes data, complaint history, resolution of patient concerns and access to justice, patient protection from incompetence and abusive practitioners and the role of professional discipline.

LAWPUBL 748
Special Topic: South Pacific Legal Studies: Critical Issues - Level 9
LAWPUBL 749
Special Topic: Indigenous Persons: Law and Policy - Level 9
LAWPUBL 750
Special Topic: International Peace and Security - Level 9
LAWPUBL 751
Special Topic: Litigating Human Rights - Law and Practice in Comparative Perspective - Level 9
LAWPUBL 752
Special Topic: Contemporary Issues in International Law - Level 9
LAWPUBL 753
Special Topic: Comparative Health Law and Policy - Level 9
LAWPUBL 754
Special Topic: Comparative Human Rights Law - Level 9
LAWPUBL 755
Special Topic: Comparative Criminology - Level 9
LAWPUBL 756
Special Topic: International Disarmament Law - Level 9
LAWPUBL 757
Selected Issues in Public International Law - Level 9
Explores a selection of contemporary issues in international law. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 758
Indigenous Peoples' Rights in International Law - Level 9
An in-depth study of the international law relevant to the protection of the rights of indigenous peoples. The history of the development of indigenous peoples’ rights in international law; analysis of those rights; the mechanisms in place for indigenous peoples to advocate for their rights in international fora. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 759
Theory and History of Criminal Law and Policy - Level 9
Explores the history and principles of criminal law, criminal justice theory, including the theory of punishment with analysis of some current issues in substantive criminal law. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 760
Advanced Criminal Procedure: Selected Topics - Level 9
An in-depth examination of selected laws governing police investigations and criminal trial practice in New Zealand. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 761
Comparative Criminal Procedure - Level 9
An examination of the law related to police investigations and criminal trial practice in Canada, United States and New Zealand. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 762
Advanced Evidence Law in Criminal Cases - Level 9
An in-depth examination of the law governing the presentation of evidence in criminal trial proceedings under the New Zealand Evidence Act 2006. Involves individual research resulting in a substantial individual research essay.

LAWPUBL 763
Human Rights - Level 9
The legal framework for the protection of human rights including a consideration of the moral and jurisprudential
underpinnings of modern human rights. Involves significant individual research resulting in a substantial individual research essay.

LAWPUBL 775 15 Points
Human Rights Remedies - Level 9
A study of human rights dispute mechanisms and remedies available for breach of rights. Involves individual research resulting in a substantial individual research essay.
Prerequisite: LAWPUBL 774

LAWPUBL 776 15 Points
Human Rights: Selected Topics - Level 9
A study of selected contemporary human rights issues. Involves individual research resulting in a substantial individual research essay.
Prerequisite: LAWPUBL 774

LAWPUBL 777 15 Points
Human Rights in Mental Health Law - Level 9
A study of human rights issues arising in the specific context of mental health law. Involves individual research resulting in a substantial individual research essay.
Prerequisite: LAWPUBL 774

LAWPUBL 778 15 Points
Issues in Search and Surveillance - Level 9
A study of current search and surveillance issues in the context of human rights law. Involves significant individual research resulting in a substantial individual research essay.
Prerequisite: LAWPUBL 774

LAWPUBL 779 15 Points
Special Topic: International Dispute Settlement - Level 9

Faculty of Medical and Health Sciences

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Audiology

Postgraduate 700 Level Courses

AUDIOL 701 15 Points
Auditory Neuroscience
The anatomy and physiology of the auditory system, including the central nervous system. Topics include: the anatomy and neuroanatomy of the ear, the role of the middle ear, cochlear mechanics and micromechanics, transduction in the cochlea and vestibular system, responses of the auditory nerve and cochlear homeostasis.

AUDIOL 702 15 Points
Basic Diagnostic Audiology
The basic principles and techniques of diagnostic audiology in adults and children. Topics studied include: basic audiometric techniques (history-taking, pure tone audiometry, speech audiometry, immittance audiometry, traditional site-of-lesion tests, paediatric assessment, non-organic hearing loss). Emphasis is placed on critical assessment of current literature.

AUDIOL 704 15 Points
Central Auditory Function
Auditory neurophysiology and electrophysiology of central auditory pathways, psychoacoustics, and speech and language. Topics include: the use of electrophysiology, imaging technologies and psychoacoustics to probe the function of the auditory system. Central processes involved in speech and language.

AUDIOL 713 15 Points
Clinical Otolaryngology and Related Sciences
An introduction to otolaryngology and speech pathology. Topics include: principles of pathology and mechanisms of disease, imaging techniques, diseases of the ear, head and neck, the genetics of deafness, neurological disorders that affect hearing and balance, occupational deafness and hearing conservation, speech pathology.

AUDIOL 714 15 Points
Hearing Aids and Other Devices for the Hearing Impaired
An introduction to the design and technology of analogue and digital hearing aids, cochlear implants and assistive devices for children and adults with hearing impairment. Analysis of the signal processing techniques and strategies used in digital hearing aids and cochlear implants.

AUDIOL 715 15 Points
Physics and Acoustics for Audiology
The basic physics of sound; and instrumentation and the principles of digital signal processing involved in audiological research. Topics include: the physics of sound waves, room acoustics, the measurement of reverberation time; the nature of acoustic impedance; the nature of filters and amplifiers, acoustics of speech, calibration.

AUDIOL 716A 15 Points
AUDIOL 716B 15 Points
Clinical Practicum I
Introduces the clinical practice of Audiology. Topics include communication skills; ethics; cultural issues; and the clinical practice of audiology, including counselling, understanding the effects of aging, tinnitus and hyperacusis management. Students will obtain the skills and knowledge to take a clinical history and to perform a basic audimetric assessment of adults and children. Particular emphasis is placed on critical evaluation and independent learning. Involves clinical work including a nine week practicum during the summer semester between Part I and Part II.

To complete this course students must enrol in AUDIOL 716A and B

AUDIOL 718A 15 Points
AUDIOL 718B 15 Points
Clinical Practicum II
The advanced clinical practice of audiology with particular emphasis on paediatric audiology and case management of children and adults. Topics include assessment of hearing in the paediatric population, including clinical electrophysiology, development of speech, auditory processing disorders and management of hearing loss in children. Particular emphasis is placed on critical evaluation and independent learning. The course involves substantial clinical work.

Prerequisite: AUDIOL 716
To complete this course students must enrol in AUDIOL 718A and B

AUDIOL 796A 45 Points
AUDIOL 796B 45 Points
Thesis - Level 9
To complete this course students must enrol in AUDIOL 796A and B

Clinical Education

Postgraduate 700 Level Courses

CLINED 703 15 Points
Learning in Small Groups
Explores how clinicians operate as members and leaders of groups, and the conditions underlying effective group function both in education and the workplace.

CLINED 705 15 Points
Simulation and Clinical Skills Teaching
Theory and practice around the use of simulators in clinical education. Addresses underlying theory, research, course design, acquisition of clinical skills, scenario-based learning, scenario design, simulator programming, and feedback after simulated performance.

CLINED 706 15 Points
Interprofessional Learning, Teamwork and Patient Safety
Explores and evaluates the evidence-base on interprofessional learning in the health professions. Evaluates the role of interprofessional learning in building effective healthcare teams.
**CLINED 707**
**Advanced Studies in Clinical Education**
Supervised research on a topic approved by the Head of School of Medicine.

**CLINED 710**
**Special Studies**
Independent study on a topic approved by the Head of School of Medicine.

**CLINED 711**
**E-learning and Clinical Education**
Develops the knowledge and skills to critically evaluate e-learning in the clinical setting. Addresses underlying theoretical constructs, practical skills, sourcing and selection of learning objects, course design and assessment.

**CLINED 712**
**Curriculum and Course Design**
Theory, concepts, and processes that underlie curriculum development and the design of short courses for a clinical setting. Addresses outcome-based course design and the development of objectives, content, methods, materials, assessment and evaluation for a course or curriculum.

**CLINED 713**
**Clinical Supervision**
Students will explore theories of workplace learning and models of supervision of students and trainees in the clinical workplace, understand the different roles of clinical supervisors, and develop knowledge and skills to improve the effectiveness of clinical supervision in their own context.

**CLINED 715**
**Theory and Practice of Clinical Education**
Examines the conceptual frameworks for learning in a clinical setting. The course will explore learning theory as it relates to the clinical experience, programme design, learner preparation, practical skills in enhancing learning in the clinical setting, and translation of theoretical knowledge into clinical practice.

**CLINED 716**
**Assessing Clinical Performance**
Examines the purpose, criteria, methods, scoring methods and examiner training for a range of assessments of health professionals, with a focus on ensuring competence to practice. This will include concepts of reliability and validity, standard setting as well as advanced techniques to compare and effectively implement different types of clinical assessments.

**CLINED 717**
**Advanced E-Learning in Clinical Education**
To advance and refine competencies to develop online and blended teaching materials in health professions education. To develop and refine theoretical knowledge, learning design experience, and assessment practices. Gain hands-on experience with a range of learning technologies and platforms, including web-design, learning management systems, and digital communication.

**Prerequisite:** CLINED 711 or approval of Course Director

**CLINED 718**
**Professionalism in Clinical Education**
Students will examine and critically reflect on the notion of professionalism in clinical education to ascertain how professionalism is fostered in health care settings. The course will address methods of teaching and learning professionalism.

**CLINED 719**
**Clinical Education in Action**
Takes a broad look across essential topics in clinical education of relevance to all clinical teachers involved in teaching with patients, assessing students and planning lessons. Application to practice and peer observation are key components of this course.

**CLINED 720**
**Special Topic: Teaching and Assessment of Cultural Safety**
Explores the principles and practice of cultural safety in health professions education in Aotearoa. This will include the specific proficiencies required for culturally safe health professionals, and the development of learning techniques and assessment modalities to teach and assess cultural safety.

**CLINED 790**
60 Points

**CLINED 790A**
30 Points

**CLINED 790B**
30 Points

**Dissertation - Level 9**
Corequisite: POPLHLTH 701 or equivalent experience
To complete this course students must enrol in CLINED 790 A and B, or CLINED 790

**CLINED 795A**
45 Points

**CLINED 795B**
45 Points

**Research Portfolio - Level 9**
Prerequisite: POPLHLTH 701
To complete this course students must enrol in CLINED 795A and B

**CLINED 796A**
60 Points

**CLINED 796B**
60 Points

**Thesis - Level 9**
Prerequisite: POPLHLTH 701 or equivalent experience
To complete this course students must enrol in CLINED 796 A and B

**CLINED 797A**
60 Points

**CLINED 797B**
60 Points

**Research Portfolio - Level 9**
Supervised research that represents the personal scholarly work of a student based on a coherent area of inquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or scope of practice.

**Prerequisite:** POPLHLTH 701 or equivalent experience
To complete this course students must enrol in CLINED 797 A and B

---

**Clinical Imaging**

**Stage II**

**CLINIMAG 201**
15 Points

**Radiographic Clinical Practice I**
Introduces the fundamental knowledge and clinical skills necessary to perform a range of routine radiographic examinations with a patient-centred focus.

**Stage III**

**CLINIMAG 303A**
15 Points

**CLINIMAG 303B**
15 Points

**Radiographic Clinical Practice II**
Extends the fundamental knowledge and clinical skills necessary to perform a range of routine and non-routine
radiographic examinations, including specialised views and adaptive techniques. Provides the knowledge and clinical skills to perform a range of advanced radiographic imaging examinations with a patient centred focus, incorporating an evidence-based approach.

Restriction: CLINIMAG 301, 302

To complete this course students must enrol in CLINIMAG 303 A and B

Stage IV

CLINIMAG 402A 30 Points
CLINIMAG 402B 30 Points

Radiographic Clinical Practice IV
Consolidates the knowledge and clinical skills necessary to perform all radiographic imaging examinations, with a patient-centred focus.

To complete this course students must enrol in CLINIMAG 402 A and B

Postgraduate 700 Level Courses

CLINIMAG 706 15 Points
Nuclear Medicine Specialised Clinical Applications
Addresses normal and altered radiopharmaceutical biodistribution appearances, and protocol selection and development, associated with cardiovascular, lymphatic and oncological applications in Nuclear Medicine, in addition to investigating new and evolving techniques and applications. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making and clinical competence.
Prerequisite: MEDIMAGE 720

CLINIMAG 707 15 Points
CT Clinical Practice
Provides students with a sound understanding of CT technology and its application including radiation safety and dose reduction. Addresses normal and abnormal Computed Tomography (CT) imaging appearances, protocol selection and modification, in relation to a range of standard clinical applications. Students will develop the knowledge, competencies, skills and attitudes needed to enable clinical competence in both academic and professional capability in CT practice and application to clinical practice.
Restriction: CLINIMAG 717, MEDIMAGE 710

CLINIMAG 708 15 Points
Mammographic Clinical Practice
Addresses normal and abnormal mammographic imaging appearances, technique evaluation and adaptation, and includes reflection on clinical practice relating to mammography. The course will ensure students develop the knowledge, competencies, skills and attitudes needed to demonstrate mastery in academic and professional mammographic practice.
Prerequisite: MEDIMAGE 707

CLINIMAG 709 15 Points
Principles of Clinical Ultrasound
Addresses normal and abnormal ultrasound imaging appearances, scanning techniques and applications associated with abdominal ultrasound examinations. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making and clinical competence. Develops clinical competence to the level expected of a trainee sonographer during the initial phase of clinical training.
Corequisite: MEDIMAGE 716
Restriction: CLINIMAG 719

CLINIMAG 710 15 Points
MRI Clinical Applications 1
Addresses normal and abnormal imaging appearances, protocol selection and development, and applications associated with a range of MRI examinations. Students will examine standard and advanced pulse sequences, in addition to investigating new and evolving techniques and applications. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical decision making and clinical competence.
Prerequisite: MEDIMAGE 714
Restriction: CLINIMAG 701, 702

CLINIMAG 711 15 Points
MRI Clinical Applications 2
Addresses normal and abnormal imaging appearances, protocol selection and development, and applications associated with a range of MRI examinations. Students will examine standard and advanced pulse sequences in addition to investigating new and evolving techniques and applications. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical decision making and clinical competence.
Prerequisite: MEDIMAGE 714
Restriction: CLINIMAG 702

CLINIMAG 712 15 Points
MRI Clinical Practice
Develops the knowledge, competencies, skills and attitudes needed to demonstrate mastery in both academic and professional capability in MRI practice.
Prerequisite: Departmental approval

CLINIMAG 713 15 Points
Ultrasound in Women’s Health
Addresses normal and abnormal ultrasound imaging appearances, scanning techniques and applications relating to women’s health. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making and clinical competence.
Prerequisite: MEDIMAGE 716
Restriction: CLINIMAG 703

CLINIMAG 714 15 Points
Ultrasound Clinical Applications
Addresses normal and abnormal ultrasound imaging appearances, adaptation of scanning techniques relating to the abdomen, musculoskeletal system, vascular system, small parts and paediatric imaging. Students will develop theoretical knowledge and reflect on competencies, skills and attitudes required for mastery in academic and professional ultrasound practice.
Prerequisite: CLINIMAG 709 or MEDIMAGE 716
Restriction: CLINIMAG 704

CLINIMAG 715 15 Points
Ultrasound Clinical Practice
Develops the knowledge, competencies, skills and attitudes needed to demonstrate mastery in both academic and professional capability in ultrasound practice.
Prerequisite: Departmental approval

CLINIMAG 716 15 Points
Nuclear Medicine Clinical Practice
Develops the knowledge, competencies, skills and attitudes
needed to demonstrate mastery in both academic and professional capability in Nuclear Medicine practice.

Prerequisite: Departmental approval

**CLINIMAG 717** 15 Points

CT Clinical Applications
Addresses normal and abnormal Computed Tomography (CT) imaging appearances, protocol selection and modification, and application to clinical practice.

Restriction: CLINIMAG 707

**CLINIMAG 718** 15 Points

Special Topic

**CLINIMAG 719** 15 Points

Ultrasound Abdominal Clinical Applications
Addresses normal and abnormal ultrasound imaging appearances, scanning techniques and applications associated with abdominal ultrasound examinations. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical decision making and clinical competence.

Prerequisite: MEDIMAGE 716

Restriction: CLINIMAG 704, 714

**CLINIMAG 720** 15 Points

Ultrasound Specialised Clinical Applications
Addresses normal and abnormal ultrasound imaging appearances, scanning techniques and applications associated with specialised ultrasound imaging. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making and clinical competence.

Prerequisite: MEDIMAGE 716

Restriction: CLINIMAG 704, 714

**CLINIMAG 721** 30 Points

Mammographic Practice
An in-depth understanding of mammographic imaging of breast anatomy and pathology, and the principles of mammographic technology and image quality. Addresses the knowledge, skills and attributes needed to demonstrate competence in clinical mammographic practice.

**CLINIMAG 722** 30 Points

Extended Mammographic Practice
An in-depth understanding of mammography assessment, interventional techniques and quality assurance. Addresses the knowledge, skills and attributes needed to demonstrate competence in academic and extended clinical mammographic practice.

**CLINIMAG 723** 15 Points

PET-CT Imaging
Addresses the fundamentals of PET-CT and hybrid imaging including equipment, normal and altered radiopharmaceutical biodistribution appearances and a range of clinical applications. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning and decision-making.

Prerequisite: MEDIMAGE 720

---

**Dietetics**

**Postgraduate 700 Level Courses**

**DIETETIC 703** 15 Points

Clinical Nutrition: Disease Pathophysiology and Management - Level 9
Provides basic and practical material for professional application of clinical nutrition knowledge to dietetic practice and case management. Includes the aetiology and pathophysiology of disease states that are relevant to, and underpin, nutritional management and/or treatment. Includes assessment of nutritional status and nutritional requirements, fluid and electrolyte management, nutrition therapy by tube feeding, and dietetic management of various disease states.

**DIETETIC 707** 30 Points

**Professional Skills 1**
Evaluates professional communication, organisation and management skills that will enable students to work effectively as dietitians. Students will describe and appraise nutrition information, dietetic expertise, judgement and reasoning to the nutrition assessment, intervention and evaluation of nutrition and dietetic process plans. Introduces the principles of food service systems and public health to optimise nutrition, health and well-being.

Restriction: DIETETIC 704

**DIETETIC 708** 30 Points

**Professional Skills 2**
Integrates professional communication, organisation and management skills that will enable students to work effectively as dietitians. Students will apply nutrition knowledge, dietetic expertise, judgement and reasoning to the nutrition assessment, intervention and evaluation of nutrition and dietetic process plans. Applies the principles of food service systems and public health to optimise nutrition, health and well-being.

Prerequisite: DIETETIC 707

Restriction: DIETETIC 705

**DIETETIC 709A** 15 Points

**DIETETIC 709B** 15 Points

**Professional Skills 3**
Advances effective communication skills to optimise nutrition, health, well-being for individuals and communities. Integrates and appraises the dietetic process as it applies to clinical and dietetic practice. Critically evaluates the scientific principles of clinical nutrition to enable the translation of the evidence to best practice. Apply communication and organisation principles, which will ensure effective, management and leadership within varied environments.

Prerequisite: DIETETIC 708

Restriction: DIETETIC 706

To complete this course students must enrol in DIETETIC 709 A and B

**DIETETIC 710** 15 Points

**Research Methods in Human Nutrition**
An overview of research design and techniques used in human nutrition research. Including the formation and critique of research design, data procedures, analysis and ethical issues.

**DIETETIC 793A** 45 Points

**DIETETIC 793B** 45 Points

**Thesis - Level 9**
Prerequisite: DIETETIC 703, 708
To complete this course students must enrol in DIETETIC 793 A and B
**Digital Health**

**Postgraduate 700 Level Courses**

**DIGIHLTH 701 15 Points**

**Principles of Digital Health**

The study of information technology and information management concepts relevant to the delivery of high quality and cost-effective healthcare. Theoretical frameworks such as data management, decision support, strategic planning and implementation, change management, knowledge management and privacy and other ethical aspects of digital health are included.

*Restriction: HLTHINFO 728*

**DIGIHLTH 702 15 Points**

**Health Knowledge Management**

Analyses the role and dynamics of knowledge in the working environment in the health sector, and develops aspects of knowledge infrastructure.

*Restriction: HLTHINFO 723*

**DIGIHLTH 703 15 Points**

**New Zealand Health Data Landscape**

An overview of key issues to support the appropriate and effective use of large volumes of routinely collected data to drive improvements in the delivery of health care. Ethical and equitable use of health data, critical evaluation of health data, identification of analytic methods and appropriate interpretation to support health care decision-making are discussed. Specific datasets are not analysed.

*Restriction: HLTHINFO 725*

**DIGIHLTH 704 15 Points**

**Healthcare Decision Support Systems**

Familiarises students with the main developments of decision support systems in healthcare. The theoretical concepts and the technology including data mining, clinical decision support systems, diagnostic systems and decision support in managed care are outlined. Ethical issues are also addressed.

*Restriction: HLTHINFO 730*

**DIGIHLTH 705 15 Points**

**Digital Health Design and Evaluation**

Examines the design and development of digital health tools to meet end-user and health service needs. A series of case studies are used to illustrate the different stages of digital health tool development, evaluation, and implementation. Health service, researcher and end-user perspectives are covered.

**DIGIHLTH 706 15 Points**

**Health Data Analytics**

Analyses, interprets, and presents quantitative data to assist decision making in the health sector. Fundamental elements of statistics, data management, visualisation, epidemiology and computing are covered.

**Health Management**

**Postgraduate 700 Level Courses**

**HLTHMGT 721 15 Points**

**Health Management**

The application of general management principles to health organisations and resources, with particular reference to the nature of health organisations and health professional teams. Includes theory and concepts supporting the effective management of health human resources and financial resources.

*Restriction: POPLHLTH 721*

**HLTHMGT 729 15 Points**

**Strategic Health Management**

The importance and contribution of strategic management to the health sector is established through the application of strategic management thinking and theory to complex systems. Skills in strategy formulation are developed through application of the logic and processes of strategy.

*Restriction: POPLHLTH 729*

**HLTHMGT 754 15 Points**

**Health Leadership**

Establishes the conceptual foundation of health leadership related to the self, others and organisations. Contemporary leadership frameworks are compared and linked to leadership theory and concepts in the context of improving health and outcomes.

*Restriction: NURSING 732, POPLHLTH 754*

**HLTHMGT 755 45 Points**

**HLTHMGT 755A 15 Points**

**HLTHMGT 755B 30 Points**

**Project in Health Leadership - Level 9**

An applied research-based project in an aspect of health leadership. The project provides a capstone experience to the degree. Students critically analyse real-world cases and problems and develop evidence-informed and innovative solutions through expert consultation and literature research.

To complete this course students must enrol in HLTHMGT 755 A and B, or HLTHMGT 755..

**Health Psychology**

**Stage I**

**HLTHPSYC 122 15 Points**

**Behaviour, Health and Development**

Introduction to the relationship between behaviour and the major biological, cognitive and social-emotional processes, applying them to health and development across the life span. Focuses on aspects of behaviour and development particularly relevant for the healthcare professional.

*Restriction: POPLHLTH 122*

**HLTHPSYC 714 15 Points**

**Health Psychology**

A review of the psychological factors involved in health and illness. Topics include: the understanding of patient behaviour in medical settings, preventative health behaviour, cognitive models of illness, stress and illness, communication and adherence to treatment, the psychology of physical symptoms and coping with chronic disease.

**HLTHPSYC 715 15 Points**

**Research Methods in Health Psychology**

A review of the principal methods used in the design, conduct and analysis of studies in the health psychology area. This will focus on quantitative research, but qualitative methodologies will also be addressed.
Psychoneuroimmunology
Outlines the nature of the human immune system, its measurement and limitations of current practices and models. The main focus of the course is the extent to which psychological processes such as stress, emotions, and social interactions have been found to influence immune behaviour and the implications of these findings for health and wellbeing. Various theoretical frameworks through which psycho-immune relationships might be understood are presented and discussed.

Emotions, Emotion Regulation, and Health
Extends content knowledge in health psychology by focussing on the expanding literature linking emotions and emotion regulation with health outcomes. The course provides an overview of the nature and functions of emotions, discrete versus dimensional approaches, developmental and cultural considerations, and the links between emotions and cognitive processes. Specific topics include direct and indirect pathways linking emotions and health, links between emotions and health-deleterious behaviours, symptom detection, screening behaviour, treatment decision-making, and adherence.

Health Psychology Assessment
Extends content knowledge in health psychology through the development of skills in the assessment and evaluation of constructs commonly used in health psychological research and practice. Includes consideration of general issues in psychometric theory and the specific assessment issues commonly confronting widely-used health psychological research designs, as well as detailed coverage of specific content areas including illness cognitions, health-related psychophysiology, emotions, and health outcomes.

Health Psychology Interventions
Reviews the underpinning theory base for approaches commonly used in health psychology interventions such as CBT, and applies these approaches to examples from the field of health psychology. Individual and group/community treatment targets will be considered, including common difficulties that impact on disease occurrence or management, and the psychological consequences of disease.

Professional Practice in Health Psychology
Focuses on the professional intervention skills necessary to practice health psychology. Topics include: interviewing and assessment skills, formulation of problems, design and evaluation of interventions and models for interdisciplinary and multidisciplinary functioning. Relevant contexts include: hospitals, hospices, consultancies, general practice etc.

Research Topic in Health Psychology
Offers the opportunity for academic staff to provide a specific course of study for one or several students. It is available only by arrangement between the staff member(s) and students.

Practicum in Health Psychology - Level 9
A practical component of supervised applied work of not less than 1,500 hours in approved health settings, and other work as required. A detailed written report of the work undertaken will be required of the student.

Pre-internship Placement
Requires students to undertake 300+ hours in at least two approved clinical placements in addition to associated workshops and training over a twelve month period.

Special Study

Psychosomatic Processes
Focuses on the psychological, social and biological mechanisms behind illnesses that present with medically unexplained symptoms. Such illnesses include: chronic fatigue syndrome, chronic pain, irritable bowel syndrome and the somatoform disorders. The diagnostic controversy surrounding these disorders and treatment approaches for these conditions will be addressed.

Technology and Health
Explores the growing field of digital health and the impact that technology is having on psychological treatments and healthcare delivery. The course will cover a range of eHealth interventions in patient populations as well as discuss issues surrounding the development and implementation of digital health interventions.

Postgraduate 700 Level Courses

Working with People with Long-term Conditions - Level 9
Long-term conditions present one of the most challenging global epidemics of the twenty-first century. This course is designed to support the development of a responsive person-centred healthcare workforce to meet the needs of
people living with long-term conditions and to work with them to improve their self-efficacy and health outcomes.

Restriction: NURSING 738

HLTHSCI 701 30 Points
Self-management for People Living with Long-term Conditions - Level 9
Self-management is a key strategy to maximise quality of life for individuals and their families living with long-term conditions. This course is designed to strengthen assessment of self-management, collaborative person-centred goal setting and planning. It focuses on developing motivational communication skills and collaborative strengths-based approaches which support efficacy and activation.

Restriction: NURSING 771

HLTHSCI 702 30 Points
Principles of Primary Health Care - Level 9
Assists primary healthcare professionals working in diverse settings to put population health into practice through primary healthcare. Determinants of health, equity, community empowerment, partnerships and effective ways to care for people with long-term conditions in communities will be explored.

Restriction: NURSING 760, 781

HLTHSCI 703 30 Points
Psychological Interventions in Health Care - Level 9
Focuses on increasing health professionals' skills in the use of psychological interventions for people who have acute or long term mental health or physical health problems. Explores evidence-based psychological models, such as Cognitive and Behaviour Therapy and Motivational Interviewing. Illness beliefs that impact on the person's ability to engage effectively with treatment plans, and self-management of their health problem/s, will also be critiqued.

Restriction: NURSING 716, 788

HLTHSCI 704 30 Points
Primary Health Care of Children and Young People - Level 9
Equips healthcare professionals with the knowledge to provide primary and community health care, from a global to a national and local level, for well children and young people and those with long-term conditions. All aspects of the course will be underpinned by the United Nations Convention on the Rights of the Child (UNCRC). Epidemiology, whānau (family) focused partnerships and interventions will be addressed along with the management of common conditions in the 0–25 year age range.

Restriction: NURSING 716, 788

HLTHSCI 705 30 Points
Mental Health and Addiction for Health Professionals - Level 9
Uses a person-focused theoretical framework to explore mental health and addiction problems presenting in non-specialist mental health settings. Conceptualises mental health and addiction problems as frequently co-occurring. Engagement, assessment, collaborative solution focused interventions, referral and care coordination will be explored.

HLTHSCI 706 30 Points
Special Topic

HLTHSCI 707 30 Points
Special Topic
HLTHSCI 790  60 Points
HLTHSCI 790A  30 Points
HLTHSCI 790B  30 Points

Dissertation - Level 9

Restriction: HLTHSCI 792
To complete this course students must enrol in HLTHSCI 790 A and B, or HLTHSCI 790

HLTHSCI 792  45 Points

Research Project - Level 9

Clinical knowledge and research skills are applied to undertake a practice-oriented research project. Students will work under the direct supervision of a staff member to define their research question, plan and execute their research activities.

Prerequisite: HLTHSCI 710-714

HLTHSCI 793A  45 Points
HLTHSCI 793B  45 Points

Research Portfolio - Level 9

Supervised research that represents the personal scholarly work of a student based on a coherent area of inquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or scope of practice.

To complete this course students must enrol in HLTHSCI 793 A and B

HLTHSCI 795  45 Points
HLTHSCI 795A  22.5 Points
HLTHSCI 795B  22.5 Points

Research Project in Health Practice - Level 9

An applied research-based project relating to an aspect of health practice in a specialised community development setting. Students will critically analyse real-world cases and problems and develop evidence-informed, innovative solutions to community health issues through literature search, consultation with community leaders and relevant health professionals and through application of relevant community development and change frameworks.

Prerequisite: 15 points from POPLHLTH 701, 704, 705

To complete this course students must enrol in HLTHSCI 795 A and B, or HLTHSCI 795

HLTHSCI 796A  60 Points
HLTHSCI 796B  60 Points

Thesis - Level 9

To complete this course students must enrol in HLTHSCI 796 A and B

HLTHSCI 797A  60 Points
HLTHSCI 797B  60 Points

Research Portfolio - Level 9

Supervised research that represents the personal scholarly work of a student based on a coherent area of inquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or scope of practice.

To complete this course students must enrol in HLTHSCI 797 A and B

HLTHSCI 800  30 Points

Research in Action

Extend scholarly capabilities and in-depth understanding in the critique of the major methodological approaches to research investigations in the health sector. This will include Mātauranga Māori and will provide the rationale for the selection of their methodological approach to the investigation of their identified health issue that is the focus of their thesis research.

HLTHSCI 801  30 Points

Healthcare Strategy and Planning

Provides advanced skills in key areas necessary for high-performing health leaders at senior and/or executive levels. It will support the development of students’ ability to sustained commitment to the development of new ideas and practices at the forefront of health service delivery in Aotearoa New Zealand and internationally and integration of these concepts into their proposed thesis.

Prerequisite: HLTHSCI 800

HLTHSCI 802A  15 Points
HLTHSCI 802B  15 Points

Critical Synthesis of Health Issue

Critically appraise and synthesise the relevant evidence to demonstrate independent and original investigation of the health issue that is the focus of the student’s thesis research, including consideration and integration of Mātauranga Māori.

Prerequisite: HLTHSCI 800, 801

HLTHSCI 803  30 Points

Research Proposal

Integrates detailed understanding of the theory, methodology and professional context for investigating a defined issue within healthcare. The focus of the course is on the development of the proposal for the thesis research. Students will critically review and demonstrate the integration of the proposed research within healthcare practice and service development and the implications of for health equity.

Prerequisite: HLTHSCI 800-802

HLTHSCI 897A  120 Points
HLTHSCI 897B  120 Points

Thesis

Prerequisite: HLTHSCI 800-803

MBChB

Part II

MBCHB 221A  60 Points
MBCHB 221B  60 Points
MBCHB Part II

Through clinical scenarios, lectures and laboratories, students are introduced to human health and the description and pathogenesis of disease processes as a basis for the systematic study of human illness. This is integrated with the study of human organ systems through components focusing on musculoskeletal, digestive, genitourinary, cardiovascular and respiratory systems, linked with practical work in anatomy, physiology, pathology, medical imaging, and professional, clinical and communication skills.

Restriction: MBCHB 203, 205, 206, 209, 210, 211

To complete this course students must enrol in MBCHB 221 A and B
## Part III

**MBCHB Part III**

Through clinical scenarios, lectures, laboratories and problem-solving sessions, students explore human health and illness in a multidisciplinary manner with particular focus on the nervous system, blood, immunity and infection, reproduction, development and aging, and how bodily systems are regulated. This is integrated with practical work in anatomy, physiology, pathology, medical imaging and professional, clinical and communication skills, as well as ward-based learning experiences.  
*Prerequisite: MBCHB 221*  
*Restriction: MBCHB 303, 305, 312, 313*

To complete this course students must enrol in MBCHB 321 A and B

## Stage IV

**MBCHB Part IV**

During Part IV, students spend 33 weeks in eight clinical attachments: emergency medicine, anaesthesiology, musculoskeletal, surgery, general and specialty medicine, geriatrics and general practice. These attachments are complemented by four weeks of topic teaching on campus. There is also a compulsory Māori and Pacific Health module.  
*Prerequisite: MBCHB 311, 321*

To complete this course students must enrol in MBCHB 401 A and B

## Stage V

**MBCHB Part V**

Students will complete academic study of forty one weeks of which thirty one are in clinical placements. These are: general practice, obstetrics and gynaecology, psychiatry, paediatrics, specialty surgery and a selective. There are three weeks of formal learning on campus including a Population Health week. Other projects and asynchronous learning also needs to be completed. Students may undertake the majority of study in a regional rural setting in Northland.  
*Prerequisite: MBCHB 401*

To complete this course students must enrol in MBCHB 501 A and B

**MBCHB Part VI**

Students undertake patient care, under supervision, in the disciplines of general practice, medicine, surgery, emergency medicine, psychiatry, paediatrics, and obstetrics and gynaecology. Students also complete a week of clinical imaging, a compulsory course in core resuscitation skills and a revision course in procedural skills. The 44-week year includes an optional element for students to undertake study in areas of medicine of their choice (the Elective), or complete a substantial research project, for a period of 10 weeks.  
*Prerequisite: MBCHB 501*

To complete this course students must enrol in MBCHB 551 A and B

## Medical Imaging

### Stage I

**MEDIMAGE 199**  
0 Points

**English Language Competency**

To complete this course students must attain a level of competency in the English language as determined by the School of Medical Sciences. This course must be completed prior to enrolling in Part III of the Bachelor of Medical Imaging (Honours) degree.

### Stage II

**MEDIMAGE 201**  
15 Points

**Fundamentals of Medical Imaging**

Provides a fundamental understanding of Medical Imaging practice. Students will examine components of the clinical setting including patient care, cultural competency, and ethical considerations, to prepare them for the clinical learning environment. Students will apply these concepts to radiographic imaging in the context of routine radiographic examinations.

**MEDIMAGE 202**  
15 Points

**Medical Imaging Science**

Provides students with a fundamental understanding of ionising radiation in the context of medical imaging. Addresses x-ray production, instrumentation, x-ray detection, digital imaging and the principles of quality assurance. Also examines the biological effects of ionising radiation, dose, and radiation protection.  
*Corequisite: MEDIMAGE 203*

**MEDIMAGE 203**  
15 Points

**Radiographic Imaging I**

Develops student knowledge of routine radiographic examinations in a Medical Imaging department. The anatomical relationships of the body and the imaging examinations are explored with reference to the appendicular and axial skeleton.  
*Prerequisite: MEDIMAGE 201*  
*Corequisite: MEDIMAGE 202*

### Stage III

**MEDIMAGE 300**  
15 Points

**Medical Imaging for Biomedical Science**

Examines the physical principles of image production, instrumentation and safety considerations of specialised medical imaging modalities, including magnetic resonance imaging (MRI), ultrasound and nuclear medicine. Students will compare normal and abnormal imaging appearances associated with each of these modalities, and investigate a range of clinical and research applications.  
*Prerequisite: MEDSCI 201, 203*  
*Restriction: MEDIMAGE 306*

**MEDIMAGE 301**  
15 Points

**Radiographic Imaging II**

Extends knowledge of radiographic examinations and procedures in a Medical Imaging department. The
anatomical relationships of the body and the imaging examinations are explored with focus on specialist views and adaptive techniques.

**Prerequisite:** MEDIMAGE 199, 203

**MEDIMAGE 302**

**Sectional Imaging Anatomy and Pathology**

15 Points

Develops understanding of anatomy and pathology as applied in Medical Imaging. Focuses on sectional imaging anatomy, normal variants and common pathologies as demonstrated on CT (computed tomography), MRI (Magnetic Resonance Imaging) and ultrasound images.

**Prerequisite:** MEDSCI 201, 203

**MEDIMAGE 304**

**Advanced Radiographic Imaging**

15 Points

Develops understanding of advanced radiographic imaging examinations including mammography, angiography, interventional procedures, and computed tomography. Addresses the physical principles of image production, instrumentation and dose considerations. Students will investigate a range of clinical applications, and normal and abnormal imaging appearances associated with each of these modalities.

**Prerequisite:** MEDIMAGE 202, 203

**MEDIMAGE 305**

**Professional Practice in Medical Imaging**

15 Points

Develops fundamental concepts of professionalism, reflective practice and communication to patient-centred care and professional practice in Medical Imaging.

**Prerequisite:** MEDIMAGE 201

**MEDIMAGE 306**

**Specialised Medical Imaging**

15 Points

Examines specialised medical imaging modalities including ultrasound, nuclear medicine, and magnetic resonance imaging (MRI). Addresses the physical principles of image production, instrumentation and safety considerations. Students will investigate a range of clinical applications, and normal and abnormal imaging appearances associated with each of these modalities.

**Prerequisite:** MEDIMAGE 202, 203

**MEDIMAGE 307**

**Research Methods**

15 Points

An introduction to the principles of research methodology and evidence-based practice as applied to medical imaging. Addresses the knowledge required to evaluate research and the development of skills and research ethics necessary to conduct medical imaging research.

**Restriction:** MEDIMAGE 723

**Postgraduate 700 Level Courses**

**MEDIMAGE 701**

**Imaging Anatomy and Pathology**

15 Points

Addresses the principles of medical science at whole body, organ, tissue, cellular and sub cellular levels by developing an integrated understanding of anatomy and pathology as it applies to medical imaging in the clinical context. Specific anatomical regions and pathologies will be investigated to explain imaging appearances and evaluate the role of a variety of imaging modalities in patient pathways.

**MEDIMAGE 702**

**Professional Issues in Medical Imaging**

15 Points

Students will investigate the concept of professional practice leading to an exploration of current professional issues relevant to medical imaging. The course will develop students’ ability to reflect on, and respond to, the wide variety of professional, ethical, medico-legal and clinical workplace issues generated in a rapidly changing environment.

**MEDIMAGE 707**

**Mammographic Technology**

15 Points

Provides students with an in-depth understanding of mammographic technology and its application. The course addresses the scientific principles of the modality including image formation, technical parameters, radiation safety specific to mammography, image quality, artefacts, and quality assurance. Equipment developments and new and evolving techniques will be examined.

**MEDIMAGE 708**

**Nuclear Medicine Technology**

15 Points

Extends students’ specialised theoretical knowledge and understanding of the underlying scientific principles of nuclear medicine technology. Students will develop the ability to apply this knowledge to obtain images of optimal diagnostic quality.

**Prerequisite:** MEDIMAGE 720

**MEDIMAGE 710**

**CT Imaging Technology**

15 Points

Provides students with specialised theoretical knowledge and understanding of the underlying scientific principles of CT technology. Students will develop the ability to apply this knowledge to obtain images of optimal diagnostic quality.

**Restriction:** CLINIMAG 707

**MEDIMAGE 711**

**Musculoskeletal Trauma Image Evaluation**

15 Points

Provides students with the knowledge to evaluate radiographs of common musculoskeletal trauma in the clinical setting. Using a systematic method of image interrogation and a critical approach, students will develop the ability to provide a preliminary clinical image evaluation of common musculoskeletal trauma radiographs.

**MEDIMAGE 712**

**Musculoskeletal Pathology Image Evaluation**

15 Points

Provides students with the knowledge to evaluate radiographs of common musculoskeletal pathologies in the clinical setting. Using a systematic method of image interrogation and a critical approach, students will develop the ability to provide a preliminary clinical image evaluation of common musculoskeletal pathology radiographs.

**MEDIMAGE 713**

**Special Studies**

15 Points

**MEDIMAGE 714**

**Fundamentals of Clinical MRI**

15 Points

Provides students with knowledge of the fundamental scientific principles of MRI. Students will examine components of the clinical environment in the context of patient care and safety. In addition, students will evaluate common clinical applications, developing the ability to analyse standard imaging protocols and explain normal and abnormal MR imaging appearances.

**MEDIMAGE 715**

**MRI Technology**

15 Points

Extends students’ specialised theoretical knowledge and understanding of the underlying scientific principles of MR technology. Students will develop the ability to apply this knowledge to obtain images of optimal diagnostic quality.

**Prerequisite:** MEDIMAGE 714

**Restriction:** MEDIMAGE 703, 704
MEDIMAGE 716  
Fundamentals of Clinical Ultrasound  
Provides students with knowledge of the fundamental scientific principles of ultrasound. Students will develop the ability to apply this knowledge to different patient populations. In addition, students will investigate standard sonography imaging techniques and analyse sonographic imaging appearances.

MEDIMAGE 717  
Ultrasound Imaging Technology  
Explores the principles of ultrasound physics and instrumentation. Students will learn about the properties of sound waves and their behaviour with tissues in the production of ultrasound images, including the construction of artefacts, and develop the ability to manipulate and optimise image production by refining components and controls of the ultrasound machine, while considering the importance of bioeffects and safety.

MEDIMAGE 718  
Acute Chest Image Interpretation  
Provides students with the knowledge to evaluate acute chest radiographs in the clinical setting. Using a systematic method of image interrogation and a critical approach, students will develop the ability to provide a preliminary clinical image evaluation of common acute chest radiographs.

MEDIMAGE 719  
Paediatric Image Evaluation  
Provides students with the knowledge to evaluate radiographs of common paediatric trauma and pathologies in the clinical setting. Using a systematic method of image interrogation and a critical approach, students will develop the ability to provide a preliminary clinical image evaluation of common paediatric radiographs.

MEDIMAGE 720  
Fundamentals of Clinical Nuclear Medicine  
Provides students with knowledge of the fundamental scientific principles of nuclear medicine. Students will examine components of the clinical environment in the context of patient care and safety. In addition, students will evaluate common clinical applications, developing the ability to apply standard imaging protocols and explain normal and altered biodistribution and nuclear medicine imaging appearances.

MEDIMAGE 721  
MRI Safety  
Extends students' understanding of the underlying physical principles related to a range of MRI safety issues. The course will provide students with the opportunity to explore these safety issues in greater depth and to apply this knowledge in critically evaluating current policies and practices. New and emerging safety topics will also be examined.  
Prerequisite: MEDIMAGE 714

MEDIMAGE 722  
Special Topic: Introduction to Cardiac Ultrasound  
Introduces cardiac ultrasound by exploring the analysis and interpretation of the 2D, M-mode, spectral Doppler, and colour Doppler components of the normal cardiac ultrasound examination. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making and clinical competence.

MEDIMAGE 723  
Research Methods  
Provides students with a comprehensive understanding of the principles of research methodology and evidence based practice as applied to medical imaging. Addresses the knowledge required to evaluate research and the development of skills and research ethics necessary to conduct medical imaging research.  
Restriction: MEDIMAGE 307

MEDIMAGE 724  
Ultrasound Assessment of Heart Disease 1  
Expands on comprehension of the normal cardiac ultrasound examination, by developing the specialised skills and knowledge required to critically analyse and interpret ventricular function and complex forms of heart disease including cardiomyopathies and pericardial diseases, using various ultrasound modalities. An emphasis will be placed on integrating theory and clinical practice elements to facilitate sound clinical reasoning, decision-making, and clinical competence.  
Prerequisite: MEDIMAGE 717, 722

MEDIMAGE 725  
Cardiac Pathophysiology  
Explores cardiovascular disease as it pertains to a disturbance in the normal structure and function of the heart. Students build on an introduction to normal cardiac structure and function to gain extensive knowledge of the changes to anatomy and physiology that lead to cardiovascular conditions. Students can integrate this knowledge of aetiology, clinical features, and treatment options, into the clinical setting.

MEDIMAGE 740  
Research Project - Level 9  
To complete this course students must enrol in MEDIMAGE 740 A and B, or MEDIMAGE 740

Medical Science

Stage I

MEDSCI 100G  
Human Mind and Body Relationships  
Humans share with other living things the features of physical self-generation and adaptation to the environment. Humans also live in a mental (mind) world and maintain relationships with our perceived environments. Minds and bodies mutually affect one another. This mind/body dance, which is explored in this course, is what gives rise to all of human behaviour from simple daily activities to the highest forms of creativity.

MEDSCI 101G  
Environmental Threats to Human Health  
Our environment sustains our lives but at times threatens our health. These threats may occur naturally, or arise from damage we have inflicted on the environment. This course considers health impacts of climate change, pollution, lifestyle choices, poverty and affluence, workplace hazards, emerging infectious diseases, and dangers affecting cancer risk.

MEDSCI 142  
Biology for Biomedical Science: Organ Systems  
Introduction to human biology with particular emphasis
on integrated organ function. The course will deal with: structures and processes associated with the function of the nervous, locomotor, cardiovascular, respiratory, digestive, renal, endocrine, musculoskeletal and reproductive systems.

*Restriction: PHARMACY 205*

**Prerequisite:** BIOSCI 107, MEDSCI 142

- Energy use, and the delivery of oxygen and metabolites.
- Control of fluid and electrolytes, cardiovascular control, mechanisms to multiple organ systems. Topics include: the physiology of vital physiological processes, from cellular control the challenge of life. Drawing on examples of normal and development. Selected drug examples will be studied to illustrate key principles of clinical pharmacology.

- Pharmacology and Toxicology
  - A solid grounding in the principles underlying pharmacology and toxicology, including the nature of drug targets, their interaction and response (pharmacodynamics), the fate of drugs within the body (pharmacokinetics), toxicity classification and testing, poisons and antidotes, adverse drug reactions, selective toxicity, drug discovery and development. Selected drug examples will be studied to illustrate key principles of clinical pharmacology.

- The Physiology of Human Organ Systems
  - An integrative approach is used to study fundamental physiological processes which enable the body to overcome the challenge of life. Drawing on examples of normal and abnormal function, the course examines the interaction of vital physiological processes, from cellular control mechanisms to multiple organ systems. Topics include: control of fluid and electrolytes, cardiovascular control, energy use, and the delivery of oxygen and metabolites.

### Stage II

**MEDSCI 201**

**Human Structure and Function**

Presents the structure of biological systems with special reference to human biology, from the levels of histology through to gross anatomy. Specific examples of the correlation between structure and function will be considered. An introduction to current techniques for the visualisation of biological structure will be presented.

*Prerequisite:* BIOSCI 107, MEDSCI 142

**MEDSCI 202**

**Microbiology and Immunology**

An introduction to the nature and roles of bacteria, viruses, fungi and parasites as the causative agents of human diseases. Topics include: the defence mechanisms of the body, the immune system including autoimmunity and allergy, control of disease by antimicrobials, sterilisation, disinfection and infection control practice.

*Prerequisite:* BIOSCI 107, MEDSCI 142

**MEDSCI 203**

**Mechanisms of Disease**

Outlines the basic mechanisms, operating at the molecular, cellular and tissue levels, by which human disease develops. These include genetic factors, cell injury, inflammation, repair, circulatory disturbances, and neoplastic change. These mechanisms are illustrated by descriptions of the pathogenesis of specific diseases that are relevant to the New Zealand situation, or are the focus of current biomedical research.

*Prerequisite:* BIOSCI 107, MEDSCI 142

**MEDSCI 204**

**Pharmacology and Toxicology**

A solid grounding in the principles underlying pharmacology and toxicology, including the nature of drug targets, their interaction and response (pharmacodynamics), the fate of drugs within the body (pharmacokinetics), toxicity classification and testing, poisons and antidotes, adverse drug reactions, selective toxicity, drug discovery and development. Selected drug examples will be studied to illustrate key principles of clinical pharmacology.

*Prerequisite:* CHEM 110, MEDSCI 142, and 15 points from BIOSCI 106 or 107

**MEDSCI 205**

**The Physiology of Human Organ Systems**

An integrative approach is used to study fundamental physiological processes which enable the body to overcome the challenge of life. Drawing on examples of normal and abnormal function, the course examines the interaction of vital physiological processes, from cellular control mechanisms to multiple organ systems. Topics include: control of fluid and electrolytes, cardiovascular control, energy use, and the delivery of oxygen and metabolites.

*Prerequisite:* BIOSCI 107, MEDSCI 142

*Restriction: PHARMACY 205*

**MEDSCI 206**

**Principles of Neuroscience**

The impact of neuroscience revolution on our understanding of human physiology and biomedical research is reviewed. Topics include: mechanisms of neurotransmission, learning, memory, sensory perception (vision, hearing, touch and smell) and application of gene therapy for treating neurological diseases. Special emphasis is placed on the integration and control of physiological function by the nervous system. Examples include control of movement and coordination, regulation of reproduction, blood pressure, breathing, appetite, body weight and sexuality. Developmental neuroscience is also considered. Laboratory exercises provide insight into neural structure and function and include application of neuroimaging technologies.

*Prerequisite:* BIOSCI 107, MEDSCI 142

### Stage III

**MEDSCI 300**

**Analytical Anatomy and Visualisation**

Examines the analysis, description and quantification of anatomical structures, including visualisation methodologies and the challenges of imaging subcellular to whole organ anatomy. Emphasis is placed on emerging applications and technology, including computational anatomy, surgical planning and research applications. Appropriate uses of human tissue, modern imaging technologies, tissue preparation, imaging artefacts, and novel visualisation techniques will be explored.

*Prerequisite:* MEDSCI 201

**MEDSCI 301**

**Molecular Basis of Disease**

An in-depth analysis of the cellular and molecular basis of disease, including the role of environmental and inherited risk factors, as well as mechanisms of response to cell injury and inflammation in the disease process. A number of examples will be studied including cancer and infectious disease.

*Prerequisite:* MEDSCI 203

**MEDSCI 302**

**Cancer Biology**

A study of the scientific basis of cancer including: mechanisms underlying the pathogenesis of cancer, carcinogenesis, DNA damage and repair, properties of cancer cells (including abnormalities of growth and cell cycle control), the growth of tumours, the classification and histopathology of cancers, and an introduction to therapeutic strategies.

*Prerequisite:* BIOSCI 356 or MEDSCI 203

**MEDSCI 309**

**Biophysics of Nerve and Muscle**

An advanced treatment of the physiology of excitable cells. Topics include: the biophysical basis of membrane potential, the spread of electrical activation and synaptic transmission, structure, excitation, mechanics and energetics of muscle and functional differences among muscle types. The approach is quantitative with particular emphasis on current advances in the field.

*Prerequisite:* MEDSCI 205, 206, or for BE(Hons) students, 15 points from MEDSCI 205 and 15 points from courses at Stage II listed in Part II of the Biomedical Engineering specialisation in the BE(Hons) Schedule
MEDSCI 311  
**Cardiovascular Biology**  
15 Points  
An advanced treatment of the human cardiovascular system that provides an integrated framework for understanding the structure, function and regulation of the heart and circulation, and their modification by drugs. Topics include: the energetics and mechanics of the heart, the regulation of heart rhythm and the control of blood pressure and the regulation of flow through the microcirculation. The course is illustrated using examples drawn from current research in the field and from representative disease states.  
Prerequisite: MEDSCI 205

MEDSCI 312  
**Neuroendocrinology of Growth and Metabolism**  
15 Points  
An introduction to the mechanism controlling the production of hormones and how these achieve their effects in regulating body function. The course focuses in particular on the hormone systems controlling growth and metabolism and contrasts the differences between fetal and adult life. It also highlights how defects in endocrine systems are associated with conditions such as obesity and diabetes.  
Prerequisite: MEDSCI 205

MEDSCI 313  
**Reproductive Biology**  
15 Points  
Aspects of reproductive biology including: regulation of gonadal function, the menstrual and oestrus cycles, ovulation, spermatogenesis, feto-maternal physiology including placental function, animal reproduction and assisted reproductive technologies.  
Prerequisite: 15 points from BIOSCI 107, 203, MEDSCI 142

MEDSCI 314  
**Immunology**  
15 Points  
The biology, cellular and molecular events underlying the immune response. The nature and characteristics of antibody-mediated and cell-mediated immunity including antigen recognition and presentation, antibody and T cell receptor structure, immune regulation and cytokines, immunogenetics and histocompatibility. The relationships of the immune system to the activities of pathogenic organisms. Applied immunology including biotechnology, infection, autoimmunity, tumour immunology, transplantation and immunodeficiency.  
Prerequisite: MEDSCI 202 or BIOSCI 201

MEDSCI 315  
**Nutrition, Diet and Gene Interactions**  
15 Points  
Gene-X environment interactions are increasingly being recognised to play an important role in the risk and pathogenesis of various diseases. The interaction between genetics and dietary factors in modulating mechanism of gut, bone, cancer and metabolic disease will be considered in this course, as well as the technologies required to understand such interactions.  
Prerequisite: BIOSCI 202 or 203

MEDSCI 316  
**Sensory Neuroscience: From Molecules to Disease**  
15 Points  
The physiology of neurosensory systems in health and disease with an emphasis on clinical relevance and current advances in research. The course will provide in-depth coverage of mechanisms involved in each system at a broad systemic level, down to the molecular level. Topics include vision, hearing, balance, olfaction, taste, touch and pain.  
Prerequisite: MEDSCI 206

MEDSCI 317  
**Integrative Neuroscience: From Fetus to Adult**  
15 Points  
The development and function of the central nervous system in health and disease. Topics include development of the CNS, functional imaging of the human brain, synaptic function in health and disease, development and pathophysiology of motor systems, perinatal and adult brain ischemia, stroke, and sleep related disorders. The topics are covered at an advanced level with emphasis on current advances in the fields.  
Prerequisite: MEDSCI 206

MEDSCI 318  
**Pharmacokinetics and Drug Toxicity**  
15 Points  
Considers the biochemical processes involved in achieving clinically-relevant drug concentrations that result in therapeutic effects and drug toxicity, from drug input, distribution, and elimination plus the ways in which these processes are described (pharmacokinetic modelling). Explores factors such as drug-drug interactions, pharmacogenetics, dosing and pharmacokinetic considerations in selected populations and that may influence both clinical effectiveness and drug toxicity.  
Prerequisite: MEDSCI 204 and 30 points from MEDSCI 203, 205, BIOSCI 203  
Restriction: MEDSCI 303, 306, 321

MEDSCI 319  
**Molecular Pharmacology**  
15 Points  
Explores the cellular and molecular mechanisms of drug action with a focus on G-protein coupled receptors and biochemical targets for cancer therapy. Drug design is considered from the perspective of in silico modelling, biochemical assessment and intracellular signalling.  
Prerequisite: MEDSCI 204 and 30 points from MEDSCI 203, 205, BIOSCI 203  
Restriction: MEDSCI 304, 321

MEDSCI 320  
**Pharmacology of the Brain and Body**  
15 Points  
Expands the principles of pharmacology acquired at Stage II to discuss how diseases can be treated in a variety of organ systems including the cardiovascular, gastrointestinal, endocrine, reproductive, and respiratory systems with emphasis on the central nervous system. Covers the mechanisms of action of drugs, and the influence of anatomy, physiology and pathology.  
Prerequisite: MEDSCI 204 and 30 points from MEDSCI 203, 205, 206, BIOSCI 203  
Restriction: MEDSCI 305, 307

MEDSCI 321  
**Special Topic: Concepts in Pharmacology**  
15 Points  
Explores the cellular and molecular mechanisms of drug action plus drug discovery and development from the perspective of in silico modelling, biochemical assessment, intracellular signalling and human disease. Considers the pharmacokinetic processes of input, distribution and elimination involved in achieving clinically-relevant drug concentrations. Describes the link between concentration and effect and the time course of effect. Explores factors such as disease progression, drug metabolism, drug-drug interactions, pharmacogenetics, use in selected populations and in various pathological conditions that may influence both clinical effectiveness and drug toxicity.  
Prerequisite: MEDSCI 204 and 30 points from BIOSCI 203, MEDSCI 203, 205  
Restriction: MEDSCI 303, 306, 318, 319, 735
MEDSCI 399  
**Capstone: Medical Sciences**  
Students will integrate and communicate knowledge attained during their study of medical sciences ranging from normal physiology through pathological process to the safe and effective use of medicines to treat diseases. Students will consider wider societal issues involved in research, such as human and animal ethics, within the context of Aotearoa and Te Tiriti o Waitangi.  
Prerequisite: 15 points from MEDSCI 318-320 and 15 points from MEDSCI 301-321  
Restriction: BIOMED 399, BIOSCI 399, PHARMCOL 399, PHYSIOL 399

---

**Postgraduate 700 Level Courses**

MEDSCI 700  
**Drug Discovery Biology**  
Reviews recent studies on the use of chemical and genetic methods to characterise the role of proteins in disease and their potential as drug targets. Topics will include proteins involved in regulation of immune response, lipid mediated cell signalling pathways, drug-protein interactions, some discovery methods, and pre-clinical studies on mechanism of action.

MEDSCI 701  
**Special Studies in Medical Science**  
The critical review and analysis of research literature relating to a research topic. Components include an extensive literature review article defining the current knowledge relevant to a particular research area, a research proposal outlining proposed Masters research topic and its significance, and a formal presentation of the proposal. Suitable for students intending to undertake a Masters thesis.  
Restriction: MEDSCI 702, 744

MEDSCI 703  
**Advanced Biomedical Imaging**  
Theory and practice of biomedical imaging from the subcellular to whole body level with specific emphasis on recent developments. Principles of digital image-processing and image analysis (including quantitative morphology), computed tomography and volume rendering and analysis. Imaging modalities including atomic force microscopy, light and confocal microscopy, electron microscopy, X-ray, CT, ultrasound and magnetic resonance imaging.

MEDSCI 704  
**Stem Cells and Development**  
Stem cell biology and the genetic regulation of developmental processes will be examined in normal and disease settings. Blood, immunity, vascular networks and the kidney will be used as systems to explore important concepts in organ development and regeneration. This knowledge will be applied in understanding disease processes such as leukaemia, inflammation and kidney disorders, and in designing new therapeutic strategies.

MEDSCI 705  
**Infection, Immunity and Disease**  
Examines the ways in which host immune mechanisms control infection, infectious organisms evade host defence mechanisms, and the consequences of these processes for the host. Examples of human infectious diseases will include: HIV, hepatitis B, influenza, tuberculosis and streptococcal infections. Consideration of the consequences of infection will incorporate discussion of immune self/non-self discrimination, immune tolerance and autoimmune mechanisms, including the impact of response against infections on autoimmunity.

MEDSCI 706  
**Genomic Medicine**  
Examines a range of medical genetic disorders that illustrate principles of disease mechanisms, diagnosis and management. These will include: haemophilia, familial cancer, late-onset neurological disorders and mitochondrial disease.

MEDSCI 707  
**Antimicrobials and Resistance**  
Antimicrobial resistance is a public health concern developing worldwide. The nature of antimicrobial agents will be explored by examining their discovery, development and mechanisms of action. Antimicrobial resistance will be studied to understand both mechanisms of resistance and the factors that drive resistance. Emphasis will be placed on recent advances in the discovery of antimicrobials and the development of novel strategies for the control of infectious agents.

MEDSCI 708  
**Advanced Immunology and Immunotherapy**  
Explores recent advances in immunology including the genes, proteins and cell types involved in the innate and adaptive immune response, with a focus on how key components are integrated at a systems level to determine immune outcomes. Examines a range of inflammatory and immune mediated diseases, together with methods of immunotherapy, including the latest approaches to combat cancer and autoimmune disease.

MEDSCI 709  
**Nutrition in Health and Disease**  
The influence that dietary patterns, foods and food components have on the promotion and protection against the common nutrition-related diseases in New Zealand. The relevant epidemiological, clinical, and biochemical/physiological aspects of each disease are covered.

MEDSCI 710  
**Nutrition Mechanisms**  
The mechanisms by which food and food components can influence disease processes. Topics covered include: the interaction between genotype and nutrition, antioxidants and oxidation protection mechanisms, dietary toxicology, the process of atherosclerosis, and the influence of the intra-uterine environment on growth and disease.

MEDSCI 711  
**Clinical Nutrition**  
Prevention of malnutrition and maintenance of nutritional status during acute and chronic illness through 'artificial' or 'interventional' means. Diagnosis and quantitation of malnutrition, and monitoring of nutrition support therapy. Practical techniques, common complications and quality assurance through a multidisciplinary team approach. Includes treatment of anorexia nervosa and cancer cachexia.

MEDSCI 712  
**Critical Evaluation of Nutritional Therapies**  
The suggested roles for micronutrients, 'nutriceuticals' and functional foods in general health, exercise performance and disease are evaluated using an evidence-based approach. The roles of micronutrients as dietary supplements and the potential actions of nutriceuticals and functional foods are
also critically evaluated. Regulatory and ethical issues in the use of nutritional remedies are considered, including their use as supplements in chemotherapy or other conventional therapies, or in individuals with no symptoms.

**MEDSCI 713**

**Principles of Cancer Therapy**

Examines the molecular and cellular processes underlying cancer treatment and the development of tumour-selective therapy; the principles of radiotherapy and chemotherapy; DNA and the basis for its interactions with anticancer drugs; recognition of DNA by proteins; exploitation of these processes by anticancer drugs, oncogenes and other regulatory gene products; signal transduction mechanisms and strategies for changing cell cycle control; cytokines and the role of host responses in cancer therapy; new approaches to cancer therapy including gene therapy and photodynamic therapy.

*Prerequisite: MEDSCI 302*

**MEDSCI 714**

**Advanced Cancer Biology**

Advanced studies of concepts related to the biology of cancer. These will include: molecular mechanisms, signal transduction pathways, genomic instability, telomeres and telomerase, anoikis, DNA damage sensing mechanisms, and hypoxia and tumour progression.

*Prerequisite: MEDSCI 302*

**MEDSCI 715**

**Molecular Toxicology**

Covers the current understanding of mechanisms implicated in toxicity of drugs and environmental chemicals plus the basis of inter-individual susceptibility. The course identifies strategies used to predict and prevent adverse reactions during drug development.

**MEDSCI 716**

**Advanced Drug Disposition and Kinetics**

Advanced study of the absorption, distribution, metabolism and excretion of drugs, and the analysis of these processes. Also included are: in vivo/in vitro techniques in drug ADME studies used in drug development; drug analysis in biological matrices; and pharmaco-genomic aspects related to drug disposition.

**MEDSCI 717**

**Advanced Neuroscience: Neuropharmacology**

An advanced study of current research topics in neuroscience. Involves critical analysis of the literature within the context of a series of major research themes that encompass models from molecular and cellular to systems level. Themes will be selected from the following areas: neurogenesis, neurodegeneration and/or addiction.

**MEDSCI 718**

**Pharmacology of Anaesthetics and Analgesics**

General aspects of anaesthetics and analgesics. Topics covered include the development of modern anaesthesia, the mechanisms of action of drugs used in general and local anaesthesia, and issues surrounding safety and efficacy of anaesthesia, including drug error and circadian variation in drug action.

**MEDSCI 719**

**Pharmacometrics**

An introduction to the application of mathematical models used in the interpretation of pharmacological observations. Computer-based analysis methods are investigated using individual and population-oriented approaches.

**MEDSCI 720**

**Biomedical Research Techniques**

An introduction to some of the most commonly used techniques used in today's research laboratories; from tissue culture to confocal microscopy, RT-PCR to mass spectrometry, immunoassay to cloning. Emphasis is placed on understanding the principles behind the techniques, how they are applied to address specific questions, and how to evaluate and use the data they generate.

**MEDSCI 721**

**Advanced Toxicology**

Focuses on classes of drugs associated with idiosyncratic adverse reactions and studies to define their metabolic basis and assessment of toxic risk.

**MEDSCI 722**

**Clinical Pharmacology**

The disposition and action of medicines in humans of all ages will be explored, as well as adverse reactions, effects of pregnancy, medicine classification, and evaluation of clinical trials. Emphasis is placed on understanding the sources of variability of medicines and the use of target concentration intervention.

**MEDSCI 723**

**Cancer Pharmacology**

The pharmacological basis of the action of anti-tumour drugs relevant to human cancer therapy, emphasising the variability of chemotherapy effects, interactions between anti-cancer agents and early phase clinical trials.

**MEDSCI 724**

**Advanced Neuroscience: Neurophysiology**

An advanced treatment of selected topics in neurophysiology and brain pathophysiology. Includes presentations and critical analysis by the students of the current scientific literature within the context of several major research themes that encompass models from molecular and cellular to systems level. Themes will be selected from the following areas: (1) motor control and motor disorders; (2) synapse physiology and pathophysiology; (3) advances in neural stem cell research; and (4) physiology and pathophysiology of CNS glia.

*Prerequisite: MEDSCI 206, 317*

**MEDSCI 725**

**Clinical Pharmacology**

Focuses on classes of drugs associated with idiosyncratic adverse reactions and studies to define their metabolic basis and assessment of toxic risk.

**MEDSCI 726**

**Advanced Toxicology**

An advanced treatment of selected topics in neurophysiology and brain pathophysiology. Includes presentations and critical analysis by the students of the current scientific literature within the context of several major research themes that encompass models from molecular and cellular to systems level. Themes will be selected from the following areas: (1) motor control and motor disorders; (2) synapse physiology and pathophysiology; (3) advances in neural stem cell research; and (4) physiology and pathophysiology of CNS glia.

*Prerequisite: MEDSCI 206, 317*

**MEDSCI 727**

**Advanced Toxicology**

Focuses on classes of drugs associated with idiosyncratic adverse reactions and studies to define their metabolic basis and assessment of toxic risk.

**MEDSCI 728**

**Perinatal Physiology and Medicine**

Fetal development has long-term consequences for health. This advanced course offers a wide range of research themes relating to fetal development and future health. Topics include: placental development, fetal physiology, and endocrine regulation and metabolic function during fetal and postnatal life. The course explores pathogenesis of disease and injury of the fetus and newborn, and how biomedical research leads to potential clinical treatment strategies.

**MEDSCI 730**

**Reproductive Science**

Molecular regulation and coordination of normal reproduction. The reproductive disorders that arise when normal biological processes are disrupted. Recent molecular methods have enabled us to study these processes and to understand how they can go wrong. Genomic and proteomic approaches to the understanding of reproduction and reproductive disorders will be presented. Examination of the new technologies that allow us to overcome some of these reproductive problems.
MEDSCI 731 15 Points
**Advanced Reproductive Biology**
Focusses on recent scientific advances in the field of human reproductive biology and medicine, with an emphasis on developing critical thinking skills. Examines the scientific approaches used to understand normal and pathological pregnancies, recent advances in reproductive medicine, and the ethical implications and considerations of assisted reproductive technologies.

MEDSCI 732 15 Points
**Molecular Aspects of Endocrinology and Metabolism**
Explores how hormones are able to control such a wide range of physiological processes. Covers molecular aspects of hormone action with particular reference to the neuroendocrine and peripheral endocrine systems that control appetite and metabolism. Other topics covered include how defects in hormone action lead to diseases such as cancer, obesity, Type-2 diabetes and cardiovascular disease.

MEDSCI 733 15 Points
**Advanced Methods in Cell Physiology**
The theoretical basis underpinning electrophysiological and live cell imaging techniques used to probe cellular function will be addressed. Emphasis will be placed on the instrumentation, data acquisition, and data analysis associated with each technology. The approach is practical and computer-based software programmes are used to analyse pre-recorded data, and data produced by the students themselves.
*Prerequisite: 15 points from MEDSCI 309, 311, 312, 316, 317
Restriction: MEDSCI 726*

MEDSCI 734 15 Points
**Advanced Cardiovascular Science**
Examines the current state of the field of research relating to cardiovascular physiology, including critical analysis of the literature. This course portrays how an integrative physiological approach can reveal new levels of understanding in the field of cardiovascular research. Examples of this approach will be drawn from research programmes within the broad area of cardiovascular biology.
*Prerequisite: 15 points from MEDSCI 309, 311, 312, 316, 317*

MEDSCI 735 15 Points
**Concepts in Pharmacology**
Explores cellular and molecular mechanisms of drug action and drug discovery and development from the perspective of in silico modelling, biochemical assessment, intracellular signalling and human disease. Considers the pharmacokinetic processes involved in achieving clinically-relevant drug concentrations, the link between concentration and effect, the time course of effect and factors that may influence both clinical effectiveness and drug toxicity.
*Restriction: MEDSCI 321*

MEDSCI 737 15 Points
**Biomedical MRI**
Provides students with a thorough understanding of a range of biomedical MRI techniques as well as advanced clinical MRI applications such as functional imaging of the brain and cardiovascular system. Laboratories will cover MRI applications in basic science, and MRI applications in clinical medicine.

MEDSCI 738 15 Points
**Biological Clocks**
Chronobiology – the study of biological rhythms and the clocks that control them. Theory, anatomical location and molecular machinery of biological clocks will be covered, as well as the control of rhythms of different time scales from days (circadian rhythms) to years (circannual rhythms). The influence the human circadian clock has on physiology and drug efficacy, and the effect hospitalisation has on the control of sleep cycles will be given special attention.

MEDSCI 739 15 Points
**Advanced Sensory Neuroscience**
Advanced study of the physiology of neurosensory systems in health and disease. Provides an in-depth coverage of the molecular, cellular and systemic mechanisms underlying vision and hearing.
*Prerequisite: MEDSCI 316*

MEDSCI 740 15 Points
**Stem Cell Biology and Transgenesis**
Explores the use of embryonic and adult stem cells in research and for potential therapeutic applications. The development and recent technical advances in the fields of cellular reprogramming and embryonic stem cell-based transgenesis will also be covered.
*Prerequisite: BIOSCI 356, MEDSCI 301*

MEDSCI 741 15 Points
**Medical Imaging Technology - Level 9**
Study of the physical processes underlying current clinical imaging techniques. Topics include: physical principles of image acquisition, processing and display; artefacts, image acquisition methods and parameters and their impact upon patient safety and image quality; management of radiation exposure; principles of X-Ray, fluoroscopic, mammographic, computed tomography, magnetic resonance imaging (MRI), nuclear medicine, ultrasound imaging; MRI safety; dose estimation and quality assurance. Emphasis is placed on patient and practitioner care, image quality and artefacts in relation to image interpretation.

MEDSCI 742 15 Points
**Anatomy for Medical Imaging - Level 9**
Study of clinical and radiographic human anatomy, as demonstrated by current imaging techniques. Topics include: developmental anatomy, surface anatomy, functional anatomy and cross sectional anatomy. Emphasis is placed on normal variants and range of normality, and how to give a structured account of anatomy in relation to image analysis and identification.

MEDSCI 743 15 Points
**Design and Analysis in Biomedical Research**
An in-depth exploration of the principles of experimental design and data analysis in biomedical contexts. A focus on critical appraisal of choice of statistical tests to address experimental questions and appropriateness and limitations of analysis and interpretation of results will be undertaken. Practical and computer statistical packages are used.
*Restriction: MEDSCI 725*

MEDSCI 744 15 Points
**Project Design in Biomedical Science**
An individualised course of study in which each student will provide an exposition of the background to a specific research question in the biomedical sciences combined with a proposal of the best methods to investigate that specific question. A holistic consideration, including the
ethical, regulatory, budgetary as well as, any other relevant aspects, of the chosen methods will be documented. 
Prerequisite: 30 points from Medical Science at Stage III or higher with a B– or better
Restriction: BIOSCI 761, MEDSCI 701, OBSTGYN 705

Examines approaches for bringing potential new therapeutic drugs from the discovery bench into the clinic and the drug development process. Explores a variety of drugs and uses case studies to provide a practical understanding. Integrates multidisciplinary perspectives, drawn from academic and industry experiences, on practices that contribute to the development of safe and effective drug therapies.

Prerequisite: 30 points from Biological Sciences, Medical Sciences or Pharmacology at Stage III or higher, or equivalent

**Introduction to Biology**
An introduction to the structure, function and processes of the human body at cellular and tissue levels. Special emphasis on the four primary tissues including membrane
transport, muscle types and function, blood and the immune response, and basic neurobiology. Provides foundational knowledge of development post fertilisation and the anatomy and physiology of selected mammalian organ systems. Exposes students to the laboratory environment, particularly microscopy and dissection.

**MAORIHTH 23H**  
**Introduction to Anatomy and Physiology**  
Introduction to human biology through a study of the structure and function of mammalian organ systems. Topics of focus include: skin and derivatives, digestive, nervous, reproductive and urinary, bone, endocrine and circulatory systems. This course also exposes students to learning in a laboratory environment with a strong focus on microscopy and dissection.

**MAORIHTH 24H**  
**Introduction to Chemistry 1**  
An overview of general chemistry principles with an emphasis on the language of chemistry and the use of mathematics to determine answers to chemical problems. An emphasis is placed on the atomic scale of matter so that students are able to describe the macroscopic world using a molecular perspective and relate chemical structures to functions. Laboratory work includes techniques of simple qualitative and quantitative measurements.

**MAORIHTH 25H**  
**Introduction to Population Health 1**  
Introduction to key concepts and foundational knowledge in population health. Concepts include models for conceptualising health, the aggregate health of groups, social determinants of health, social gradients in health outcomes, and health inequalities and inequities, and foundational understanding of health care systems.

**MAORIHTH 26H**  
**Introduction to Population Health 2**  
Explores patterns and distributions in health events, causal effects on health, and strategies for addressing health inequalities and inequities at a population level. Exposure to a foundational overview of epidemiology and population health concepts and relevant skills, including understanding and measuring the distribution of disease and illness in well-defined populations, will also be provided.

**MAORIHTH 27H**  
**Academic and Professional Development in Māori and Pacific Health 1**  
Presents study and academic writing skills essential for successful transition from secondary education or community contexts into tertiary study. Content focuses on a practical application of Population Health and Māori and Pacific health workforce development, while engaging students in their professional practice, cultural growth and leadership and communication.

**MAORIHTH 28H**  
**Academic and Professional Development in Māori and Pacific Health 2**  
Provides study and academic skills necessary for transition from foundation study to first year bachelor level study. Content areas focus on Māori and Pacific relevant examples of population health topics including: health status, determinants of health, barriers to access and quality of care and health interventions targeted at Māori and Pacific populations.

**MAORIHTH 29H**  
**Introduction to Mathematics**  
Provides foundation skills in mathematics and develops mathematical competence. Topics covered include measurement, notation, functions, equations, exponential growth/decay, logarithms and statistics. Examples used in the course will revolve around applications of mathematics in the health sciences.

**MAORIHTH 30H**  
**Introduction to Health Psychology**  
Introduction to key concepts and foundational knowledge in health psychology. Concepts include models and theories of behaviour change and development, including the relationship between major biological, cognitive and social-emotional processes. Broader social science approaches to behaviour, health and development across the lifespan will also be explored, as well as the application of health psychology for those wishing to pursue a career in health.

**MAORIHTH 31H**  
**Introduction to Physics**  
An introduction to physics relevant to health studies, including examples and illustrations that revolve around human physiology. Topics include mechanics, optics, waves, thermal physics, radiation and electricity.

**MAORIHTH 32H**  
**Special Topic**  

---

**Stage II**

**MAORIHTH 201**  
**Introduction to Māori Health**  
Māori society, culture and values are explored. Historical processes are reviewed within the context of the Treaty of Waitangi. The course will examine how these factors underpin the basic determinants of health and shape contemporary Māori health status in Aotearoa. Different approaches to improving Māori health and reducing inequalities will be critically examined.  
*Prerequisite: POPLHLTH 111*

---

**Stage III**

**MAORIHTH 301**  
**Māori Health and Practice**  
Māori health knowledge is used to develop effective public health practice for Māori contexts. Areas of focus include critical thinking, reflective practice, advocacy and the application of Kaupapa Māori principles.  
*Prerequisite: MAORIHTH 201*  
*Restriction: POPLHLTH 201*

---

**Postgraduate 700 Level Courses**

**MAORIHTH 701**  
**Foundations of Māori Health**  
Provides an overview of the many dimensions of Māori
Health. It examines the historical and contemporary determinants of Māori health status, and outlines strategies for improving Māori health in the context of the Treaty of Waitangi, and reducing health inequalities.

*Prerequisite: MAORIHTH 301 or 701*

**MAORIHTH 705**  
**Māori Health Promotion and Early Intervention**  
Discusses the importance of health promotion and early intervention for Māori. Models of health promotion used by different Māori providers will be presented as well as assisting students to design and implement health promotion and interventions which are likely to be effective for Māori individuals, families, and communities.

*Prerequisite: MAORIHTH 301 or 701*

**MAORIHTH 706**  
**Māori Health: Policy and Practice**  
Critically examines public health policy and practice in Aotearoa/New Zealand with respect to Māori health and equity. Provides insights into the application of Kaupapa Māori principles in different areas of public health practice to advance Māori health.

*Prerequisite: MAORIHTH 301 or 701*

**MAORIHTH 707**  
**Practicum in Māori Health**  
Provides the opportunity to develop social assessment and critical analysis skills through the documentation of an approved practicum. Students will be expected to be able to use and demonstrate knowledge of different Māori views, concepts and frameworks. Each student will have supervision and practicum developed appropriate to their learning interests.

**MAORIHTH 708**  
**Special Studies**

**MAORIHTH 709**  
**Transformational Research for Māori Health**  
Provides a critical analysis of research and research processes with regard to their potential to colonise or liberate. Drawing on Kaupapa Māori Theory, the course examines how research can be undertaken in ways that are safe for Māori and that contribute to positive Māori development.

*Prerequisite: MAORIHTH 301 or 701*

**MAORIHTH 710**  
**Kaupapa Māori Theory**  
Kaupapa Māori Theory (KMT) underpins a range of approaches employed to ensure policy, research and intervention processes emphasise Māori ways of knowing and being and work to prevent the further marginalisation of Māori. Students learn about the development of KMT and its use in the context of Māori health and development, and will experience and learn from a range of initiatives and projects that have KMT at their core.

*Prerequisite: MAORIHTH 301 or 701  
Restriction: MAORIHTH 702*

**MAORIHTH 711**  
**Special Topic: Māori Quantitative Methods**  
Provides students with an understanding of how to apply a Kaupapa Māori Research (KMR) approach to quantitative research methods (study design, analysis and dissemination) in the health sciences. It will expose students to a range of analytic and practical tools that can be drawn on in the design and conduct of quantitative research with Māori.

*Prerequisite: MAORIHTH 301 or 701*

---

**Nursing**

### Stage I

**NURSING 104**  
Applied Science for Nurses  
Provides an opportunity for the application of specific and selected topics from the biological and physical sciences to be related to beginning nursing practice.

**NURSING 105**  
Nursing in Practice  
An introduction to nursing as a profession including concepts of nursing practice, and communication skills. The theoretical basis for nursing practice as well as legal and ethical boundaries are introduced. The role of the nurse in health maintenance and health promotion is explored. Skills in assessment of clients and planning client care are introduced.

**NURSING 199**  
English Language Competency  
To complete this course students must attain a level of competency in the English language as determined by the School of Nursing. This course must be completed prior to enrolling in Part II of the Bachelor of Nursing degree.

### Stage II

**NURSING 201**  
Nursing Clients with a Pathophysiological Problem  
A problem-based course where students acquire the skills associated with nursing clients requiring medical and surgical interventions and subsequent rehabilitation. Understanding the mechanisms of disease and prevention of such diseases is the basis for the course. Students are introduced to the principles of pharmacology and pharmacokinetics. Issues such as caring for clients with chronic pain and an understanding of death and grief are included. Practicums and teaching take place in a variety of clinical settings.

*Prerequisite: 120 points at Stage I of the Bachelor of Nursing or equivalent*

**NURSING 202**  
Mental Health, Addiction, (Dis)Ability and Enablement  
Allows students to understand perspectives of mental health and illness, the crisis nature of mental illness and the therapeutic models of mental health management. Students acquire the specific nursing skills required to care for people with mental health problems and also those who have a long-term disability. Students undertake a range of clinical attachments in hospital and community settings.

*Prerequisite: NURSING 201*
Stage III

NURSING 301 60 Points
Community Health and Wellbeing
Concepts related to health and wellbeing for individuals, families and communities are addressed within the context of social, political and lifespan influences. Current national and global population health priorities for women, children and older people are explored, with focus on childbirth, childhood illness and ageing well. Clinical attachments are in a variety of acute and community settings.
Prerequisite: NURSING 201, 202

NURSING 302 60 Points
Professional Nursing Practice
Allows the student to make the transition from student to professional nurse. A period of practice in an elected area of clinical speciality is included. Issues such as the development of nursing knowledge, autonomy of practice, accountability for practice, and the legal and ethical parameters of competency as a nurse are emphasised.
Prerequisite: NURSING 301

Postgraduate 700 Level Courses

NURSING 700 30 Points
Special Topic

NURSING 701 30 Points
Research Project - Level 9
A personal scholarly exploration of an area of clinical nursing practice that reflects an understanding of research purpose and process. The project includes a critical and comprehensive review of relevant literature which results in new insights and understandings and considers how the application of these might affect existing service delivery or clinical practice models.

NURSING 732 30 Points
Leading and Managing Changes in Healthcare
Theoretical and practice principles of leadership and management in the context of healthcare organisations. Utilises an action based learning model, mentorship and project work.

NURSING 735 30 Points
Clinical Education Practicum
Application and critical analysis of educational theories and concepts in a clinical learning environment. Utilises an action based learning model and project work.

NURSING 740 30 Points
Nurse Practitioner Prescribing Practicum - Level 9
Clinical practicum facilitating mastery of the Nursing Council of New Zealand Nurse Practitioner (NP) competencies for autonomous clinical practice in the Nurse Practitioner scope of practice. Critically analyse clinical cases and develop evidence-informed and innovative solutions through expert consultation and primary literature review. Students will prepare a portfolio demonstrating expert autonomous clinical practice for complex medical and nursing problems.
Prerequisite: NURSING 743

NURSING 741 30 Points
Education for Clinical Practice
Professional learning is essential to enable healthcare professionals to function competently in the complex world of clinical practice. Health care professionals are required to become actively involved in teaching colleagues involved in healthcare and patients. Effective clinical teaching and learning is enabled by laying a foundation in educational theory and practice.

NURSING 742 30 Points
Biological Science for Practice
Focuses on common pathologies acknowledging the New Zealand Health Strategy, giving particular attention to areas where health promotion, preventative care, chronic disease management and cost impact for New Zealand.

NURSING 743 30 Points
Nurse Practitioner Advanced Practicum
Synthesises advanced clinical decision making within the Nurse Practitioner competency framework and prepares for autonomous clinical practice.
Prerequisite: NURSING 785

NURSING 744 30 Points
Special Topic: Whānau Ora – Tahi

NURSING 744A 15 Points
Principles of Medication Management
Focuses on the principles and practice of medication management to improve and extend the knowledge and skills of registered nurses in clinical specialty roles and prepare them for delegated prescribing roles in partnership with clients and collaborating with medical colleagues and the health care team. It is not the intention of this course to prepare nurses for authorised prescribing (nurse practitioner).
Restriction: NURSING 761

NURSING 744B 15 Points
Evidence-based Practice and Implementation - Level 9
Considers the types of evidence that inform nursing practice and implementation, and examines barriers and enablers to the application of evidence to practice. Provides students with the tools to locate and appraise evidence and requires the student to engage in research activities resulting in a substantial research essay.
Restriction: NURSING 720

NURSING 745 30 Points
Primary Health Care Nursing
Assists primary healthcare nurses working in diverse settings to put population health principles into practice through primary healthcare. Determinants of health, equity, community empowerment, partnerships and effective ways to care for people with long-term conditions in communities will be explored.
Restriction: HLTHSCI 702, NURSING 772

NURSING 746 30 Points
Special Topic: Whānau Ora – Tahi
The concept of Whānau Ora is to achieve maximum health and well-being for whānau. Students' knowledge of the concept will be extended and an understanding of Whānau Ora in nursing praxis will be demonstrated.
Through guided learning experiences, clinical and academic support, students will self-reflect on nursing praxis and explore equity and social justice in the context of Te Tiriti o Waitangi.

**NURSING 770**  
Clinical Practice Development  
30 Points

Develops knowledge, practice and skills within the scope of a beginning registered nurse; enhances client assessment, planning and delivery of client-centred care within a specific healthcare context. Also fosters critical exploration of knowledge and skills appropriate to professional, socio-political, legal-ethical, cultural aspects of practice.  
Restriction: NURSING 725, 773

To complete this course students must enrol in NURSING 770 A and B, or NURSING 770

**NURSING 773**  
Advanced Assessment and Clinical Reasoning  
30 Points

Nurses make a variety of diagnoses in their daily practice. Advanced nursing practice requires skilled health assessment, estimation of probabilities and evidence based diagnostic reasoning. This complex cognitive process is developed in relation to skills and knowledge required for sound clinical reasoning.  
Restriction: NURSING 770

**NURSING 774**  
Nursing People in Acute Mental Health Crisis  
30 Points

The concept of recovery forms the basis of exploring nursing care of people in states of acute crisis. The course focuses on models of acute care, collaborative care, risk assessment and management, and maintaining a safe, non-coercive environment. Students will be expected to engage in critical reflection and analysis of practice issues and case studies.

**NURSING 775**  
Leadership and Management for Quality Health Care  
30 Points

Builds management and leadership knowledge, competence and business acumen through project based learning. Focuses on critical thinking, quality service delivery and improvements and maximises organisational performance and change management.

**NURSING 778**  
Health Promotion and Early Detection of Cancer  
30 Points

Examines the latest knowledge and research available around health promotion, risk assessment and early intervention for cancer and consider the implications for nursing practice. Content addressed includes epidemiology, genetic risk, nutrition, lifestyle and environmental screening, surveillance, government policies and interventions.  
Restriction: NURSING 767

**NURSING 779**  
Special Studies  
30 Points

**NURSING 780**  
Mental Health and Addiction Nursing  
30 Points

Introduces a person-focused theoretical framework to explore mental health and addiction problems in healthcare. Conceptualises mental health and addiction problems as frequently co-occurring. Engagement, assessment, collaborative solution focused interventions, referral and care coordination will be explored.

**NURSING 782**  
Research Methods in Nursing and Health  
30 Points

Explores the philosophical underpinnings of research methodologies and assists students to understand the major distinctions between quantitative and qualitative approaches. Students will critique research studies and apply research findings to practice. They will gain a practical appreciation of research ethics. By the end of the course, students will be able to apply their learning to the development of a basic research proposal.  
Restriction: NURSING 768

**NURSING 783**  
Special Topic: Pae Ora  
30 Points

Pae Ora encourages the wider health sector to work collaboratively, to provide high-quality and effective health and disability services at all levels. This course has been designed for those who wish to develop and consolidate a sophisticated understanding of the principles of Pae Ora (Mauri Ora – healthy individuals; Whānau Ora – healthy families; Wai Ora – healthy environments) in their practice area.

**NURSING 784**  
Advanced Emergency Nursing Practicum  
30 Points

Specialty Emergency nurses provide advanced nursing care and need expertise in assessment, diagnostic processes and therapeutic decision making. Advanced assessment skills along with injury and condition specific management models are taught with a focus on clinical decision making for clients in emergency and accident and medical clinic settings. Designed to refine advanced emergency nursing skills for nurses working in specialty emergency nursing roles.  
Prerequisite: NURSING 773 or equivalent, and practising in an advanced nursing role

**NURSING 785**  
Clinical Reasoning in Pharmacotherapeutics - Level 9  
30 Points

Builds on prior knowledge to establish an advanced understanding of pharmacotherapeutics and the application of the principles of pharmacokinetics, pharmacodynamics to prescribing practice in advanced practice roles; and develops nursing skills in clinical reasoning for safe and effective prescribing.  
Prerequisite: NURSING 742, and 770 or 773 or NURSPRAC 720

Restriction: NURSING 706, 722

**NURSING 787**  
Fundamentals of Nursing Care  
30 Points

Introduces the novice student to professional and theoretical knowledge in nursing; including clinical assessment skills, cultural awareness and specific ethical issues in nursing. Provides an overview of theories, policies and structures related to the New Zealand health context.

**NURSING 789**  
Research Project - Level 9  
30 Points

**NURSING 790A**  
45 Points

**NURSING 790B**  
45 Points

**Research Portfolio - Level 9**

Supervised research that represents the personal scholarly work of a student based on a coherent area of inquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or scope of practice.  
To complete this course students must enrol in NURSING 790 A and B

---

**Course Prescriptions**

**NURSPRAC 701 Cardiac Specialty Nursing**

Students will be expected to integrate evidence from a range of sources and apply this to the practice of cardiac nursing.

**NURSPRAC 702 Critical Care Specialty Nursing**

Students will be expected to integrate evidence from a range of sources and apply this to the practice of critical care nursing.

**NURSPRAC 703 Paediatric Cardiac Specialty Nursing**

Students will be expected to integrate evidence from a range of sources and apply this to the practice of paediatric cardiac nursing.

**NURSPRAC 704 Cancer Specialty Nursing**

Students will be expected to integrate evidence from a range of sources and apply this to the practice of cancer nursing.
patients undergoing an endoscopy procedure. Students will be expected to integrate evidence from a range of sources and apply this to the practice of endoscopy nursing.

Restriction: NURSING 730

NURSPRAC 716
Ophthalmology Specialty Nursing
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of ophthalmology patients. Students will be expected to integrate evidence from a range of sources and apply this to the practice of ophthalmology nursing.

Restriction: NURSING 719

NURSPRAC 717
Practicum for RN Designated Prescribers
Prepares registered nurses to apply for prescribing rights as Designated Prescribers. Provides nurses with the opportunity to develop knowledge and skills in the application of pharmacotherapeutic concepts to prescribing as a designated prescriber. This includes direct supervision of prescribing activities in the clinical area and the ability to work closely and effectively in a multidisciplinary team environment.

Restriction: NURSING 742, 773, 785

NURSPRAC 718
Contemporary Mental Health and Addictions Nursing Practice
Explores contemporary mental health and addictions nursing practice from both socio-political and practice-skills perspectives. Focuses on developing awareness of the unique mental health and addictions context of Aotearoa/New Zealand and the cultural and values based practices and policies which have emerged. Builds on foundational therapeutic and interpersonal skills and develops knowledge and skills in contemporary, evidence-based mental health and addictions nursing interventions.

Restriction: NURSING 786

NURSPRAC 719
Clinical Practice in Mental Health and Addictions
A clinically based course focusing on history taking, assessment, formulation and nursing care planning. There is an emphasis on mental health, physical health and addictions assessment and the development of nursing formulation skills.

NURSPRAC 720
Advanced Mental Health Assessment - Level 9
A clinically based course covering history taking, assessment and case formulation in advanced clinical practice for mental health nurses. There is an emphasis on comprehensive mental health assessment, and negotiation of a client-focused plan of care.

NURSPRAC 721
Integrative Nursing Practice
A problem-based course where students develop the knowledge and assessment skills associated with nursing clients across a variety of clinical settings. The course provides learning opportunities for students to gain knowledge, skills and develop attitudes that will ensure safe nursing practice. Principles of medication management to prepare students for practice as a registered nurse are integrated into the course.

NURSPRAC 722
Transition to Professional Nursing Practice
 Enables students to transition from student to registered nurse through an extended period of clinical practice. Integration of nursing knowledge and legal and ethical parameters of competency will occur alongside the development of autonomy and accountability of practice.

NURSPRAC 723
Special Topic: Paediatric Intensive Care
Extends specialised nursing skills for the nurse in paediatric cardiac and intensive care settings. Through guided learning experiences and support from clinical and academic mentors, students set and achieve individual learning goals. Focus is on practice development and clinical leadership, demonstrating understanding of quality healthcare and the socio-political and cultural contexts of health and wellbeing.

Restriction: NURSING 730, 744

NURSPRAC 724
Special Topic: RN First Surgical Assist Practicum
Refines specialised nursing skills for expanded scope of practice for a Registered Nurse First Surgical Assistant. Through guided learning experiences and support from clinical and academic mentors, students set and achieve individual learning goals. Focus is on practice development and clinical leadership, demonstrating an understanding of quality healthcare and socio-political and cultural contexts of health and wellbeing.

Restriction: NURSING 730, 744

NURSPRAC 725
Special Topic: Endoscopy Nursing Practicum
Refines specialised nursing skills for the expanded scope of practice for Nurses performing endoscopy. Through guided learning experiences and support from clinical and academic mentors, students set and achieve individual learning goals. Focus is on the development of practice and clinical leadership, demonstrating understanding of quality healthcare standards and the socio-political and cultural contexts of health and wellbeing.

Restriction: NURSING 730, 744

NURSPRAC 726
Mental Health Nursing Practicum
Extends mental health nurses’ knowledge and skills in clinical practice, scholarly activity, and leadership to improve health outcomes. Through guided learning experiences and support from clinical and academic mentors, students set and achieve individual learning goals. Focus is on the development of person-centred, reflective practice demonstrating understanding of the socio-political and cultural contexts of health and wellbeing.

Restriction: NURSING 744

NURSPRAC 727
Special Topic: Perioperative Nursing Specialty
Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of patients across the perioperative continuum. Students will integrate evidence from a range of sources and apply this to the practice of caring for people requiring surgical intervention.

NURSPRAC 728
Special Topic: Frailty in Aged Care Nursing
Frailty is an age-related, progressive geriatric syndrome related to pathological changes in underlying physiological and psycho-social function and the leading cause of
mortality and morbidity in older people. Draws on evidence from biomedical and social science research to equip nurses for the care and treatment of older people affected by frailty.

NURSPRAC 729 30 Points
Special Topic

NURSPRAC 730 30 Points
Special Topic

Obstetrics and Gynaecology

Postgraduate 700 Level Courses

OBSTGYN 705 15 Points
Special Topic in Obstetrics and Gynaecology

OBSTGYN 712 15 Points
Contraception and Pre and Early Pregnancy
An evidence-based approach to contraception and pre and early pregnancy care. Mechanisms, side effects and contraindications of methods of contraception are covered. Pre pregnancy care will include preconceptual counselling and the psycho-social aspects of pregnancy care such as effects of drugs, alcohol, smoking and travel. Best practise and referral guidelines for early pregnancy ante natal care will be covered including diagnosis and management of early pregnancy problems such as recurrent miscarriage, ectopic pregnancy, gestational trophoblastic disease and hyperemesis.

OBSTGYN 713 15 Points
Pregnancy and Postnatal Care in the Community
Common problems of pregnancy for primary care. Includes pregnancy care in the community, obstetric emergencies, common disorders in pregnancy, birth matters, the immediate postpartum period, the newborn.

OBSTGYN 715 15 Points
Medical Gynaecology 1
Women's health and sexually transmitted diseases, menstrual disorders, pelvic pain and dyspareunia, vulva problems and vaginal discharge, menopause management.

OBSTGYN 716 15 Points
Medical Gynaecology 2
Pathophysiology and clinical management of infertility, gynaecological malignancies, family violence, adolescent gynaecology, termination of pregnancy, urogynaecology.

OBSTGYN 717 30 Points
OBSTGYN 717A 15 Points
OBSTGYN 717B 15 Points
Practical Obstetrics and Gynaecology
Practice of obstetrics and medical gynaecology, practical procedures in obstetrics and gynaecology including competency in examinations, cervical smear taking, and insertion of intrauterine contraceptive devices. Competency in normal labour and delivery and minor surgical procedures encountered in obstetric practice. Requires the completion of a logbook approved by the Clinical Supervisor and Head of Department.
Corequisite: OBSTGYN 721 and 722, or 724 and 725
To complete this course students must enrol in OBSTGYN 717 A and B, or OBSTGYN 717

OBSTGYN 722 15 Points
Gynaecology Residential
Approaches to women's health issues, history and examination principles and procedures, issues of screening, hormone replacement therapy and case-based studies. This course must be completed prior to students sitting the clinical and written examinations.
Restriction: OBSTGYN 719

OBSTGYN 723 15 Points
Special Studies

OBSTGYN 724 15 Points
Obstetrics Residential
Attitudes to women's health, including cultural and ethical issues. History-taking techniques and techniques for minor procedures are developed.
Restriction: OBSTGYN 721

OBSTGYN 725 15 Points
Gynaecology Residential
Approaches to women's health issues, principles and procedures associated with history-taking and examination. Issues of screening, hormone replacement therapy and other case-based studies are addressed.
Restriction: OBSTGYN 722

Ophthalmology

Postgraduate 700 Level Courses

OPHTHAL 703 30 Points
Special Topic: Research Methods and Skills for Eye Research
A comprehensive overview, focusing primarily on the ophthalmic arena. Includes: research, methodologies, literature reviews, implementation and appraisal of qualitative and quantitative research, developing research questions and writing up of research for presentation and publication. Provides skills specific to eye research that may not be relevant to other health care professionals.

OPHTHAL 704 30 Points
Special Topic: Ophthalmic Technology
The theory, basic principles, techniques and interpretation of results for ophthalmic technology used in the diagnosis and treatment of eye disease. Technology covered includes: slit lamp biomicroscopy, tonometry, A-scan ultrasound, keratometry; IOL master, HRT, OCT, computerised topography, anterior segment photography, FFA, autorefraction and therapeutic lasers. The latest advances in ophthalmic technology will also be included.

OPHTHAL 705 30 Points
Special Topic: Management of Acute Eye Disease
Overview of the diagnosis and management of 'acute eye conditions' in the community and hospital settings including: signs and symptoms, differential diagnosis, treatment modalities and medium term management.

OPHTHAL 706 30 Points
Special Study in Ophthalmology
To provide an opportunity to study a selected field of ophthalmology at an advanced level by undertaking a detailed review of a selected topic or undertaking a research project in a field related to ophthalmology.
Optometry and Vision Science

Stage I

OPTOM 101G 15 Points
How We See
Overview of the interdisciplinary study of human vision. The course introduces the biological/physiological organisation of the visual system, discusses the subjective nature of perception, and the implications of studies of biological visual systems for machine vision. Interdisciplinary understandings of vision will be enriched by the examination of historical paintings and artists’ visual experiences.

Stage II

OPTOM 216A 15 Points
OPTOM 216B 15 Points
Introduction to Optometry
A clinically-focused course introducing students to optometric practice and addressing, at an introductory level, the ethical, cultural, theoretical and clinical aspects of the optometric examination. Topics covered include: preliminary tests from the eye examination, communication skills and clinical problem solving. The course will emphasise assessment utilising advanced equipment and the production of clinically relevant outcomes and diagnosis-supportive hypotheses.

OPTOM 263A 15 Points
OPTOM 263B 15 Points
Essential Optics
An introduction to optics relevant to optometry and necessary to understand the optical performance of the eye, the design of ophthalmic lens applications, and the principles of operation of clinical instrumentation. Topics include: the basic principles of physical optics, the principles of image formation by lenses and lens systems, mirrors and prisms, optics of the eye, ocular ametropia and aberrations.

Stage III

OPTOM 316A 30 Points
OPTOM 316B 30 Points
Optometry
An integrative approach to the scope of optometric practice, addressing both the theoretical basis and clinical practice of the optometric examination, correction of refractive error and dispensing of optical appliances. Topics covered include: visual acuity, visual fields, colour vision, biomicroscopy, ophthalmoscopy, refractive examination, binocular examination, optical correction, lens materials and coatings, history taking, communication skills and clinical problem solving.

OPTOM 345A 7.5 Points
OPTOM 345B 7.5 Points
Principles of Ocular Pharmacology

OPTOM 353A 7.5 Points
OPTOM 353B 7.5 Points
Ocular Pathology

OPTOM 375A 7.5 Points
OPTOM 375B 7.5 Points
Visual Science 2
To provide an understanding of visual information processing in human brain. In particular the cortical processing of shape, motion and colour, and development of the visual cortex will be addressed. A problem-oriented approach will develop critical thinking and problem solving skills. Students will acquire the ability to seek, evaluate
and retrieve scientific information on which to base their clinical practice.

Restriction: OPTOM 270

To complete this course students must enrol in OPTOM 375 A and B

OPTOM 392A 7.5 Points
OPTOM 392B 7.5 Points

Issues in Optometry 2

Prerequisite: Permission of Head of School

Restriction: OPTOM 291

To complete this course students must enrol in OPTOM 392 A and B

Stage IV

OPTOM 416A 15 Points
OPTOM 416B 15 Points

Clinical Optometry

Facilitates the transition from student to professional optometrist. Topics addressed include: structuring the routine optometric examination in a clinical setting, diagnosis and management of disorders of the visual system, case analysis, myopia control, visual ergonomics, vision screening, and visual standards. This course culminates in students examining and managing clients in the public University Clinics under supervision.

Restriction: OPTOM 312, 415

To complete this course students must enrol in OPTOM 416 A and B

OPTOM 430A 7.5 Points
OPTOM 430B 7.5 Points

Contact Lens Practice

Principles of contact lens fitting and clinical procedures used in contact lens practice. Topics include: current designs of contact lenses, soft and rigid materials used in contact lens manufacture, contact lens optics and verification techniques, contact lens fitting, patient contact lens care, and complications associated with contact lens wear.

Restriction: OPTOM 330

To complete this course students must enrol in OPTOM 430 A and B

OPTOM 442A 7.5 Points
OPTOM 442B 7.5 Points

Optometry for Special Populations

An advanced clinical course including consideration of visual disorders specific to children, adults with binocular vision abnormalities, or those with visual impairment including the older population. Topics include: developmental aspects and assessment of infants/children, investigation and management of binocular eye-movement disorders; and diagnosis and management of vision problems in visually impaired patients including electronic, optical and non-optical low vision appliances.

Restriction: OPTOM 341, 440, 441

To complete this course students must enrol in OPTOM 442 A and B

OPTOM 450A 15 Points
OPTOM 450B 15 Points

Diseases of the Eye and Visual System: Diagnosis and Management

Signs, symptoms and diagnosis of diseases of the eye, ocular adnexa and visual system, including neurological dysfunction and signs of systemic disease. Management of diseases of eye, ocular adnexa and visual system, including the use of therapeutic agents. Indications, contraindications and side effects of therapeutic agents for the treatment of ocular disease.

Restriction: OPTOM 351, 352, 355

To complete this course students must enrol in OPTOM 450 A and B

OPTOM 492A 7.5 Points
OPTOM 492B 7.5 Points

Issues in Optometry 3

Prerequisite: Permission of Head of School

Restriction: OPTOM 391

To complete this course students must enrol in OPTOM 492 A and B

Stage V

OPTOM 510A 15 Points
OPTOM 510B 15 Points

Advanced Clinical Optometry 1

Clinical work with responsibility, under supervision, for patients.

Restriction: OPTOM 410

To complete this course students must enrol in OPTOM 510 A and B

OPTOM 520A 15 Points
OPTOM 520B 15 Points

Advanced Clinical Optometry 2

Clinical work with greater emphasis on particular areas in optometry including: contact lenses, low vision, binocular vision, paediatric optometry and practice management.

Restriction: OPTOM 420

To complete this course students must enrol in OPTOM 520 A and B

OPTOM 560A 15 Points
OPTOM 560B 15 Points

Optometry in Practice

Supervised clinical work in locations external to the Grafton Campus Optometry Clinic. These locations may include University satellite clinics, private optometry practice, hospital eye departments, overseas institutions, or experience in other approved locations. Lectures address; legislation relevant to healthcare including registration and competency, occupational safety and health, ethics, practice management, small business management.

Restriction: OPTOM 462

To complete this course students must enrol in OPTOM 560 A and B

OPTOM 561A 30 Points
OPTOM 561B 30 Points

Optometry in Practice

Advanced clinical work experience in locations external to the Grafton Campus Optometry Clinic. These locations may include University satellite clinics, private optometry practices, hospital eye departments, private ophthalmology practices, overseas institutions, or other approved locations. Topics include; therapeutic management of eye disease, legislation relevant to healthcare including registration and competency, occupational safety and health, ethics, practice management, small business management.

Restriction: OPTOM 462, 560

To complete this course students must enrol in OPTOM 561 A and B

</table>
PAEDS 707A 30 Points
PAEDS 707B 30 Points

Clinical Portfolio
Students will draw on their paediatric clinical exposure to reflect and modify clinical practice to meet best practices. Students will be given the opportunity to apply complex clinical theory in a structured framework. Students will develop a deep understanding of the theoretical underpinnings in paediatric clinical medicine and proficiency to apply relevant skills.
To complete this course students must enrol in PAEDS 707 A and B

PAEDS 708 15 Points
Population Youth Health
Youth injury prevention, resiliency factors and reproductive issues, and advocacy for young people. How do you make a difference in youth health? This course introduces key concepts in population youth health and utilises an evidence based approach and New Zealand practice examples to consider how youth health can be improved in communities and populations.
Restriction: POPLHLTH 732

PAEDS 710 15 Points
Clinical Care of Gender Diverse Youth
To develop and advance skills, knowledge and expertise in the clinical care of young transgender people.
Corequisite: PAEDS 712

PAEDS 712 15 Points
Youth Health Clinical Skills
Develops and extends knowledge and skills in clinical interviewing, comprehensive assessments and effective interventions with young people.

PAEDS 714 15 Points
Emergency Paediatrics
Designed for health care providers involved in the delivery of acute emergency care to children, this course combines theoretical knowledge with clinical practice. Students will learn to recognise and manage the important paediatric medical and surgical emergencies including the approach to the febrile child, management of seizures and the recognition and management of other acute medical and surgical paediatric conditions.

PAEDS 719 15 Points
Health, Education and Youth Development
Examines the overlap of health and education in the context of youth development by exploring the impact of past and current developments and strategies in both sectors on the wellbeing of young people. It reviews the ‘business’ of schools, the Health and Physical Education curriculum, school-based health and support services, whole school approaches to health, and the health and education needs of students not engaged with the school system.

PAEDS 720 15 Points
Advanced Youth Health
Extends students' knowledge of youth health and well-being and develops knowledge and skills for supporting or leading improvements or projects in youth health. Will include advanced understandings of youth development and develop youth health project ideas or service improvements for clinical, research or policy settings.

PAEDS 721 15 Points
Clinical Care of Adolescents and Young Adults with Cancer
To develop and advance skills, knowledge and expertise in the clinical care of adolescents and young adults with cancer.
Prerequisite: PAEDS 712

PAEDS 722 15 Points
Youth Health Practicum
Aims to give clinicians the opportunity to extend their professional youth health skills and expertise through a supervised self-directed learning practicum in youth health.
Prerequisite: PAEDS 720

PAEDS 792 45 Points
PAEDS 792A 15 Points
PAEDS 792B 30 Points
Research Project - Level 9
To complete this course students must enrol in PAEDS 792 A and B, or PAEDS 792

Pharmacology

Stage III

PHARMCOL 399 15 Points
Capstone: Integrated Pharmacology
A capstone that applies fundamental principles of pharmacology and toxicology to the safe, effective and responsible use of drugs through investigation of a current area of pharmacological research. Emphasises experimental design, data collection, analysis, interpretation and presentation, as the scientific basis for rational, evidence-based decision-making.
Prerequisite: MEDSCI 204 and 30 points from MEDSCI 203, 205, 206, BIOSCI 203, and 30 points from MEDSCI 318-320
Restriction: MEDSCI 399

Postgraduate 700 Level Courses

PHARMCOL 787 60 Points
PHARMCOL 787A 30 Points
PHARMCOL 787B 30 Points

Dissertation - Level 9
Restriction: PHARMCOL 788, 789
To complete this course students must enrol in PHARMCOL 787 A and B, or PHARMCOL 787

PHARMCOL 788 45 Points
PHARMCOL 788A 22.5 Points
PHARMCOL 788B 22.5 Points

BSc(Hons) Dissertation - Level 9
Restriction: PHARMCOL 789
To complete this course students must enrol in PHARMCOL 788 A and B, or PHARMCOL 788

PHARMCOL 796A 60 Points
PHARMCOL 796B 60 Points

MSc Thesis in Pharmacology - Level 9
To complete this course students must enrol in PHARMCOL 796 A and B
Pharmacy

Stage I

PHARMACY 111G 15 Points
Drugs and Society
The use of drugs in society including historical perspectives. Selected examples of the use of medicines in disease, recreational drug use and drug misuse, and cultural and ethnic influences on drug use. Differences between conventional and complementary medicines. The role of the pharmaceutical industry in drug discovery, manufacture and promotion. Legal and ethical issues pertaining to access to pharmaceuticals.

PHARMACY 199 0 Points
English Language Competency
To complete this course students must attain a level of competency in the English language as determined by the School of Pharmacy. This course must be completed prior to enrolling in PHARMACY 213.

Stage II

PHARMACY 211 30 Points
Applied Science for Pharmacy
Specific and selected aspects of chemistry, biochemistry, anatomy, physiology, immunology, microbiology, pathophysiology and pharmacology are explored in the context of beginning clinical pharmacy practice.

PHARMACY 212 30 Points
Pharmaceutical Science and Practice
The properties of materials, principles of pharmaceutical formulation, design of drug delivery systems and routes of administration of drugs are considered. The skills for competent pharmacy practice in New Zealand, including law, ethics, medicines information, clinical communication, cultural competence and elements of human behaviour are introduced.

PHARMACY 213 60 Points
Pharmacy 1
The optimal drug treatment of dermatological, infectious and gastrointestinal diseases and disorders is explored through an integrated multidisciplinary systems-based approach. Clinical and professional skills in law and ethics, critical appraisal, medicines information, pharmaceutical compounding and calculations, clinical communication and cultural competence are introduced. Introductory experiential learning placements in industry, hospital and community pharmacy sites are provided.
Prerequisite: PHARMACY 199, 211, 212

Stage III

PHARMACY 311 60 Points
Pharmacy 2
Optimal drug treatment of respiratory, cardiovascular, renal and hepatic diseases and disorders are explored through an integrated multidisciplinary systems-based approach. Clinical pharmacy skills in law and ethics, dispensing, medicines information, adherence support, clinical communication, physical assessment and management are further developed. Experiential learning placements focus on development of pharmacy practice skills in community/hospital pharmacy settings throughout New Zealand.
Prerequisite: PHARMACY 211-213

PHARMACY 312 60 Points
Pharmacy 3
Optimal drug treatment of endocrine, musculoskeletal and women’s/men’s health issues are explored through integrated multidisciplinary systems-based approaches. Clinical pharmacy skills in law, ethics, dispensing, medicines information, clinical communication, management, quality and safety, and research skills are further developed. Further experiential learning placements focus on development of pharmacy practice skills in community/hospital pharmacy settings throughout New Zealand.
Prerequisite: PHARMACY 311

Stage IV

PHARMACY 413A 15 Points
PHARMACY 413B 15 Points
Research Inquiry in Pharmacy
Research methodologies for health, pharmaceutical sciences and pharmacy practice. Students gain foundations in research methods and ethics, capabilities in synthesising literature, analysing data and presenting research findings. Students work in groups to explore, conduct, and present results of research inquiries in appropriate written and oral formats.
Prerequisite: PHARMACY 312
Restriction: PHARMACY 410
To complete this course students must enrol in PHARMACY 413 A and B

Postgraduate 700 Level Courses

PHARMACY 701 45 Points
Medicine Optimisation 1
Evaluation of theoretical frameworks to assess health service design. Optimal drug treatment of cancers, neurological and psychiatric diseases and disorders are explored underpinned by critical appraisal of evidence. Clinical pharmacy skills in law, ethics, dispensing, aseptic compounding, medicines information, teamwork and leadership are consolidated. Advanced experiential learning placement opportunities are undertaken in sites throughout New Zealand and overseas locations.
Prerequisite: PHARMACY 312
Restriction: PHARMACY 411

PHARMACY 702 45 Points
Medicine Optimisation 2
Theories and critical appraisal of evidence applied to design health service innovations. Optimal treatment of musculoskeletal diseases, disorders and pain, children’s and older persons’ health issues, patients with multiple morbidities explored through an integrated multidisciplinary systems-based approach. Clinical pharmacy skills in law, ethics, dispensing, medicines information, teamwork, leadership, pharmacoeconomics and health technology are further developed. Advanced experiential learning placement opportunities.
Prerequisite: PHARMACY 701
Restriction: PHARMACY 412

PHARMACY 750 30 Points
Pharmaceutical Formulation
Physiological and physicochemical factors in drug delivery and formulation of pharmaceutical products. Consideration of both traditional (e.g., solutions, semi-solids, solids, aerosols) and novel (e.g., liposomal) drug delivery systems based on the experimental literature.
PHARMACY 751 30 Points
Pharmaceutical Techniques
Experimental and analytical techniques in the assessment of pharmaceutical products and of drug action in biological systems. Consideration of pharmacopeial and official standards, drug stability and drug metabolism.

PHARMACY 752 15 Points
Pharmaceutical Quality Assurance
Principles of good manufacturing practice (GMP), quality assurance and quality control as applied to pharmaceutical products and processes. Consideration of relevant industrial processes, legislation, safety issues, packaging, labelling, stability and regulatory requirements.

PHARMACY 753 15 Points
Pharmaceutical Regulatory Affairs
To synthesise knowledge pertaining to the registration and licensing of pharmaceutical products nationally and internationally and to effectively apply regulatory principles to the introduction of new pharmaceutical products to the New Zealand and global market.

PHARMACY 754 15 Points
Pharmaceutical Science Research Proposal
A comprehensive critical study of the literature pertaining to the proposed thesis research. This will include a review of the relevant methodologies, the analysis of research results and the relationship of published work to the proposed research.

PHARMACY 760 15 Points
Literature Review in Pharmaceutical Sciences
A thorough investigation of the current literature in a specified area leading to a comprehensive review with the intent of a review publication.

PHARMACY 762 15 Points
Literature Review in Pharmacy Practice
A thorough investigation of the current literature in a specified area of pharmacy practice or pharmacotherapy leading to a comprehensive review with the intent of a review publication.

PHARMACY 763 15 Points
Case Studies in Pharmacy Practice
The investigation and construction of case studies in a current area of pharmacy practice to a quality suitable for submission for publication.

PHARMACY 764 30 Points
Medicines Information and Critical Appraisal
Develops advanced skills in the retrieval, evaluation and dissemination of medicines information, as well as the ability to critically evaluate clinical literature in the context of selected common therapeutic areas.

PHARMACY 765 30 Points
Medicines Management and Pharmaceutical Care
Explores the concepts of medicines management and pharmaceutical care planning in the context of selected common therapeutic areas. The course will emphasise the role of the pharmacist in the optimisation of medicines therapy for individual patients.
Prerequisite: PHARMACY 764

PHARMACY 766 30 Points
Applied Pharmacotherapy
Embellies evidence-based practice and the philosophy of pharmaceutical care to achieve optimum therapeutic outcomes in patients with endocrine, cardiovascular, respiratory, mental health, neurological and gastrointestinal disease states.
Prerequisite: PHARMACY 764, 765

PHARMACY 767 30 Points
Advanced Pharmacotherapy
Explores current pharmacotherapeutics in the context of patients with complex pathologies and complex clinical needs, allowing for some specialisation in the student’s areas of interest.
Prerequisite: PHARMACY 764, 765

PHARMACY 769 30 Points
Principles of Prescribing
Legal and ethical considerations; communication with patients and other health professionals; clinical reasoning and decision-making; physical assessment and diagnostic skills; ‘mechanics’ of prescribing; pharmacoeconomic considerations.

PHARMACY 770 30 Points
Prescribing Practicum
A practicum for prescribing: an experiential placement where the pharmacist develops experience in prescribing under the overarching guidance of a designated medical prescriber.
Prerequisite: PHARMACY 769

PHARMACY 771 15 Points
Special Studies

PHARMACY 772 15 Points
Special Studies

PHARMACY 773 30 Points
Special Topic

PHARMACY 774 30 Points
Special Topic

PHARMACY 789A 15 Points
Research Project - Level 9
Supervised research that represents the personal scholarly work of a student based on a coherent inquiry at an advanced level into an approved topic related to pharmacy or health scholarship under supervision of School of Pharmacy academic staff and collaborators. Develop understanding about the nature and practice of research and capabilities in data analysis, academic writing and dissemination of research.
Prerequisite: PHARMACY 312
Restriction: PHARMACY 410, 413
To complete this course students must enrol in PHARMACY 789 A and B

PHARMACY 792 60 Points

PHARMACY 792A 30 Points

PHARMACY 792B 30 Points

Dissertation - Level 9
To complete this course students must enrol in PHARMACY 792 A and B, or PHARMACY 792

PHARMACY 796A 60 Points

PHARMACY 796B 60 Points

Thesis - Level 9
To complete this course students must enrol in PHARMACY 796 A and B
PHARMACY 797A  60 Points
PHARMACY 797B  60 Points

Research Portfolio - Level 9
Supervised research that represents the personal scholarly work of a student based on a coherent area of enquiry. Culminates in a conclusive piece of work related to a specific area of specialisation or aspect of practice in health.
To complete this course students must enrol in PHARMACY 797 A and B, or PHARMACY 797 Physiotherapy.

Physiology

Stage III

PHYSIOL 399  15 Points
Capstone: Physiology
Advancements in science come through integrating knowledge and excellence in experimental design. Students will integrate and communicate knowledge attained during their physiology degree by developing a research proposal. Working in small groups, and in research group placements will explore scientific knowledge, and experimental design, as well as wider issues such as ethics, health economics, and Māori and Pasifika health advancement.
Prerequisite: 30 points at Stage III in Physiology
Restriction: BIOMED 399, MEDSCI 399, PHARMCOL 399

Postgraduate 700 Level Courses

PHYSIOL 787  60 Points
PHYSIOL 787A  30 Points
PHYSIOL 787B  30 Points
Dissertation - Level 9
Restriction: PHYSIOL 788, 789
To complete this course students must enrol in PHYSIOL 787 A and B, or PHYSIOL 787

PHYSIOL 788  45 Points
PHYSIOL 788A  22.5 Points
PHYSIOL 788B  22.5 Points
BSc(Hons) Dissertation - Level 9
Restriction: PHYSIOL 789
To complete this course students must enrol in PHYSIOL 788 A and B, or PHYSIOL 788

PHYSIOL 796A  60 Points
PHYSIOL 796B  60 Points
MSc Thesis in Physiology - Level 9
To complete this course students must enrol in PHYSIOL 796 A and B

Population Health

Stage I

POPLHLTH 101  15 Points
Introduction to Health Systems
Provides an overview and understanding of the New Zealand health system, including: history of health and health service delivery in New Zealand; the role and functioning of hospitals; primary care; purchasers and funders of health services; the role of insurance and private healthcare providers.
Prerequisite: POPLHLTH 102

POPLHLTH 102  15 Points
Social Determinants of Health
A description and analysis of health within a social context.

POPLHLTH 103G  15 Points
Epidemics: Black Death to Bioterrorism
Epidemics have devastated human populations and will continue to do so. This course looks at how epidemics can run rampant through society and how we can control them. It will include examples from the past and present, as well as outline future threats. A diversity of epidemics will be covered, from the plague, gambling, depression, pandemics, nun-biting and alien abduction.

POPLHLTH 111  15 Points
Population Health
To introduce frameworks and tools for measuring and understanding and improving the health of populations, both locally and globally. These frameworks and tools are derived from epidemiology, demography, public health, environmental health and global health sciences.

Stage II

POPLHLTH 202  15 Points
Research Methods in Health
Examines the different ways of approaching, designing and undertaking population health science research, covering research paradigms and methodologies, including both quantitative and qualitative methods.

POPLHLTH 203  15 Points
Health Promotion: Philosophy and Practice
Explains in detail the theoretical basis of health promotion; calling on current practice examples to bring the theory to life. Introduces international and New Zealand health promotion concepts and tools. Explains how health promotion practice rests on particular approaches, values and ethical considerations which directly link to a political analysis of deprivation and powerlessness.

POPLHLTH 204  15 Points
Health Care Ethics
An introduction to healthcare and medical ethics. A theoretical foundation of ethics in addition to the practical ethical issues relevant to healthcare professionals.

POPLHLTH 206  15 Points
Life Cycle Nutrition
Provides students with a general background and introduction to: the New Zealand diet; food preparation and meal patterns; dietary requirements during pregnancy and lactation, childhood and adolescence, lifestyle changes, maturity and ageing.

POPLHLTH 207  15 Points
Community and Cultural Development
An introduction to the study of community and cultural development as both philosophical approach and programme of practice for building active and sustainable communities from grassroots. Real world examples of effective practice will demonstrate the interdependence of theory, research and practice in health development. Emphasis is placed on collaboration and participation.
Prerequisite: POPLHLTH 102

POPLHLTH 208  15 Points
Mental Health Development
The importance of mental health to overall health and well-being is explored. Major threats to mental health
FACULTY OF MEDICAL AND HEALTH SCIENCES

Course Prescriptions

**Stage III**

**POPLHLTH 300**

*Health Sector Professional Competencies*

Develops core skills in areas of project management, financial management, communication, leadership, team development, and cultural competence. An integrated project development approach is used to expose students to the key principles in these areas and to enable them to build a development plan.

*Prerequisite: POPLHLTH 204*

**POPLHLTH 301**

*Strengthening Health Systems*

*Prerequisite: POPLHLTH 202, 215*

**POPLHLTH 302**

*Health Services Placement*

The placement with a health service organisation provides students with the opportunity for experiential learning and the development of competencies needed in the workplace. Theory and skills learned in previous courses are integrated and extended as students apply prior knowledge to a local health organisation and carry out tasks asked of them.

*Prerequisite: HLTHPSYC 122, MAORIHTH 201, POPLHLTH 101, 102, 111, 202, 204, 210, 216*

**POPLHLTH 303**

*Health Informatics*

Students will explore the development and management of information systems in contemporary New Zealand healthcare services. Health informatics concepts, conceptualised in different healthcare settings, are critically reviewed in terms of their practical application.

*Prerequisite: POPLHLTH 101, 202*

**POPLHLTH 304**

*Principles of Applied Epidemiology*

The application of an epidemiological approach in population health, including study of the principles of epidemiological thinking, epidemiological study design and analyses, and the application of these findings to population health. Modules will be taught through specific themes for example, a life course approach or injury prevention.

*Prerequisite: POPLHLTH 111, 202, 216*

**POPLHLTH 305**

*Community Nutrition*

This course builds on POPLHLTH 206 ‘Life Cycle Nutrition’ by providing students with a general overview of the determinants of population eating behaviours and the implications of current dietary behaviours and patterns on health.

*Prerequisite: POPLHLTH 111, 206*

**POPLHLTH 306**

*Health Promotion 2*

Builds on the theory and practice in POPLHLTH 203, and examines in depth the relationship between economic and political processes and health status. The course also looks at the most effective strategies to put health promotion theory into practice. Mixed in with this will be an in-depth introduction to some of the emerging issues in health promotion, and a look at some of the specific areas of health promotion practice.

*Prerequisite: POPLHLTH 203*
POPLHLTH 307 15 Points
**Communities and Addictions**
Examines how addictions such as tobacco, alcohol, drugs and gambling seriously undermine the health of individuals and the communities in which they live and/or work. Case studies are used to understand the primary elements of community and cultural health development.
Prerequisite: 30 points at Stage II in Population Health

POPLHLTH 311 15 Points
**Shaping Health Policy**
Investigates recent changes to the ways in which governments seek to intervene to improve a population's health. NZ case studies will be used to illustrate the interrelationships between research, policy and practice in a devolved health system and the changing relationships between government agencies and health providers.
Prerequisite: POPLHLTH 202

POPLHLTH 312 15 Points
**Health and Pacific People in NZ**
An overview of the major health issues facing Pacific peoples, including analysis of the key determinants of health status, focusing on approaches to improving health for Pacific peoples through research, policy, public health programmes and health services. A critique of dominant paradigms of health and well-being in relation to Pacific communities in Aotearoa New Zealand is included with consideration of their effect on health outcomes.
Prerequisite: POPLHLTH 210
Restriction: POPLHLTH 201

POPLHLTH 313 15 Points
**Health in Asian Communities**
An overview of Asian health issues, including the biological, ecological cultural, economic social and psychological factors that determine health for Asian New Zealanders is provided. Current practice, policy development and research priorities for Asian communities are included.
Prerequisite: POPLHLTH 210

POPLHLTH 315 15 Points
**Special Topic: Systematic Reviews and Meta-analysis**
The principles of interventional systematic reviews and meta-analysis and their role in evidence-based health practice. Topics include understanding the population of interest, developing search strategies, appraising quality of included studies, data extraction, understanding synthesis (meta-analysis) and interpretation of results in the health context.
Prerequisite: POPLHLTH 211 and 216

POPLHLTH 316 15 Points
**Translating Health Information**
To lead to improvements in health, information needs to be translated appropriately to influence decision makers. Builds the skills and knowledge to be able to both critique and synthesise existing health information as well as to apply analytical methods and presentation approaches to data in order to effectively communicate findings to different decision-making communities.
Prerequisite: POPLHLTH 202

---

Postgraduate 700 Level Courses

POPLHLTH 700 15 Points
**Community Health Development**
Provides a comprehensive overview of the principles, theories, and frameworks for undertaking community-level health development. Special emphasis on empowering and critical perspectives and the implications for health and determinants at a community-level of focus. Informed by current research and a comparative case study approach, the paper examines the opportunities and challenges in the delivery of health for, and by, diverse communities in New Zealand and globally.
Corequisite: POPLHLTH 722

POPLHLTH 701 15 Points
**Research Methods in Health**
A comprehensive overview, in relation to health, of theoretical underpinnings of research; the asking of research questions; literature reviews; the design, implementation and appraisal of qualitative and quantitative research; and the writing up and dissemination of research.
Restriction: CLINED 714, NURSING 768, POPLHLTH 202

POPLHLTH 704 15 Points
**Undertaking Qualitative Health Research**
Provides practical experience in the appraisal and use of qualitative methods in research in health. The development of studies from research questions through design, conduct, and analysis and interpretation of such studies are examined in detail. Students are required to prepare a portfolio examining the use of a specific methodological approach in qualitative health research.

POPLHLTH 705 15 Points
**Evaluation Research Methods**
Provides a comprehensive outline of the nature of programme evaluation in the health sector and an overview of a variety of approaches to programme evaluation and the appropriate use of research tools. Includes logic models, stakeholder analysis, the development of objectives, indicators, client surveys and interviews. Emphasis on mixed methods evaluation designs involving qualitative and quantitative data gathering.

POPLHLTH 706 15 Points
**Statistics in Health Science**
Provides an overview of statistics and statistical methods for health scientists. Covers a range of methods and tests, including regression.

POPLHLTH 708 15 Points
**Epidemiology**
Examines epidemiological study design, measures of effect, screening, appropriate statistics for epidemiology, with a focus on public health epidemiology.

POPLHLTH 709 15 Points
**Evidence for Best Practice**
Evidence based practice uses epidemiological data derived from valid and clinically relevant research. This includes the accuracy of diagnostic tests, the power of prognostic markers and the efficacy and safety of therapeutic, rehabilitative or preventive interventions. This evidence is integrated with relevant contextual evidence such as patient and practitioner values, social, cultural and economic considerations to inform best practice.

POPLHLTH 711 15 Points
**Systematic Reviews and Meta-analysis**
The principles and critical appraisal of interventional systematic reviews and meta-analysis and their role in evidence-based practice. Topics include: protocol development, question formulation, identification of evidence, selection of studies for inclusion, appraisal and quality of included studies, extraction and recording of
data, synthesis (meta-analysis) and interpretation of results and application.

**Prerequisite:** POPLHLTH 708 or 709 or equivalent experience

**POPLHLTH 715**

**Global Public Health**
Explores global health from a public health perspective, with a strong emphasis on health and its determinants in developing countries. Topics covered include the global burden of risk and disease, global environmental challenges to health, international health governance, international healthcare financing and international health promotion.

**POPLHLTH 718**

**Health and Public Policy**
A discussion of policy studies frameworks, and how these can be used to analyse policy issues and processes relevant to health and healthcare.

**POPLHLTH 719**

**Health Economics**
Fundamental economic concepts and their application to healthcare. Provides students with some analytical skills with which to address issues and problems in the funding and organisation of health services.

**POPLHLTH 720**

**Cost Effectiveness Evaluation**
The application of economic methods to the evaluation of health services and programmes. The principles and techniques of economic evaluation, the process of measuring costs and benefits of health services, quality of life measurement.

**POPLHLTH 722**

**Organisation of Health Systems**
The principles, structure, financing and organisation of health systems. Current issues and challenges facing health systems from a national and international perspective.

**POPLHLTH 724**

**Quality in Health Care**
Quality healthcare is examined with an emphasis on strategies that enable individuals, teams, and services within healthcare organisations to implement and sustain performance improvement. Allows students to explore the quality principles to an area of their own choice.

*Restriction: NURSING 775*

**POPLHLTH 725**

**Environmental Health**
Explores ways in which the environment affects human health. Studies links between industrial and agricultural development, environmental change and public health at local, national and global levels. Topics include the role of policies, legislation and public health actions in reducing environmental health risks.

**POPLHLTH 726**

**Health Protection**
Current issues will be used to illustrate principles of health protection as an element of public health at local and national levels. The main inter-related topic areas within health protection (communicable disease control and surveillance; non-communicable disease control; food safety; alcohol and tobacco; air and water quality) will be discussed, along with identification of health hazards, development of prevention strategies, and field implementation methods.

**POPLHLTH 733**

**Health Promotion Theory and Models**
Examines the values, theories and practice models of health promotion and in particular, an approach to the social determinants of health and health equity that seeks to empower individuals and groups to deal with these issues.

**POPLHLTH 734**

**Health Promotion Strategies**
An overview of key strategies designed to promote health, with an emphasis on healthy public policy, partnerships, community action and advocacy and ways to link local, national and global actions. Practical and creative approaches to health promotion planning are explored through case studies, invited practitioners and the development of a group project with outcomes of empowerment and health gain.

**POPLHLTH 735**

**Mental Health Development: Theory and Principles**
Mental Health Development (MHD) represents an emergent paradigm in the mental health sector, one which emphasises strengths, resilience and positive quality of life. It is applicable to all people, including those with mental illness, and to all aspects of mental health and social services. The course has a particular focus on the treatment and recovery for individuals affected by mental health problems.

**POPLHLTH 736**

**Mental Health Promotion**
Examines the central role that positive mental health and well-being plays in the health of populations. It focuses on understanding the determinants of mental health and the processes by which these determinants affect mental health. The theory and application of mental health promotion practice, encompassing strategies for action at the societal, community and individual level, are discussed.

**POPLHLTH 737**

**Alcohol, Tobacco and Other Drug Studies**
Provides an introduction and overview to studies on alcohol and other drugs. Incorporates theory and research developed within public health, mental health, and specialised treatment frameworks. Topics will include: coverage of historical developments, a review of major theoretical issues and an overview of current trends.

**POPLHLTH 738**

**Biology of Addiction**
Explores the genetic and neurobiological factors that predispose individuals to develop addiction. The neuropharmacology of the main drugs of abuse and factors that are responsible for the variability in drug response (i.e. pharmacokinetics) will be presented. Current neurobiological models of addiction will be considered.

**POPLHLTH 739**

**Pacific Health**
Examines a wide range of health issues related to Pacific health. Provides an in-depth analysis with evidence of the global, regional and local issues that determines the health of the Pacific population both in the Pacific region and in New Zealand.

**POPLHLTH 746**

**Ethics, Culture and Societal Approaches to Death**
Approaches to death by Māori and other cultures. Resource and legal issues in the New Zealand context. Ethical issues:
POPLHLTH 751 15 Points
Special Studies

POPLHLTH 758 15 Points
Theoretical Concepts of Health
A number of theoretical explanations of public health are considered in order to address health issues in diverse communities. An ecological perspective of health will be explored and the specific models of population health will be critiqued.

POPLHLTH 760 15 Points
Principles of Public Health
Consideration of the principles underlying the modern practice of public health. Students examine the major core concepts in public health, including determinants of health, health equity, environments and health, health promotion and health systems.
Restriction: POPLHLTH 300, 302

POPLHLTH 763 15 Points
Human Vaccinology
Provides an examination of vaccinology as applied to humans and its application in the health sector. Includes consideration of immunology, vaccine form and function and vaccine design; through to vaccine development and manufacture, vaccine safety, immunisation controversies, policy and schedule. A core theme throughout the course will be communication of vaccine science including risk communication to different audiences including health professionals and the community.
Restriction: POPLPRAC 755

POPLHLTH 765 15 Points
Nutrition Interventions in Public Health - Level 9
Explores the use of community-based nutrition interventions to reduce nutrition-related health inequalities, and focuses on the use of appropriate theories to understand the nutrition issue; the use of data and research in the design of evidence based nutrition interventions; and the design of rigorous evaluation plans to determine the effectiveness of the intervention.

POPLHLTH 766 15 Points
Special Topic

POPLHLTH 767 15 Points
Health Services Research Methods
Focuses on teaching the knowledge and practical skills to conduct health services research. The course follows through the typical research process drawing on a range of different methodologies and methods, both quantitative and qualitative, to develop and answer research questions relating to the accessibility, quality and cost of health care and the improvement of health outcomes.
Restriction: POPLHLTH 702

POPLHLTH 768 15 Points
Special Studies in Addiction and Mental Health

POPLHLTH 769 30 Points
Interpersonal and Family Violence
Explores the magnitude and consequences of the problem of, and contributing factors to, interpersonal and family violence. Examines some of the major violence prevention and intervention activities currently undertaken in New Zealand. Considers how effective practices and policies might be disseminated at the individual, community, and national levels. Themes include: the epidemiology of violence, causes of violence, developing and evaluating interventions, and violence as a health issue.
Restriction: SOCHLTH 751

POPLHLTH 770 30 Points
Special Topic - Level 9

POPLHLTH 774 15 Points
Addictive Consumptions and Public Health
Focuses on the extensive health impacts of addictive consumptions, particularly in relation to the legalised consumptions of tobacco, alcohol and gambling. Outlines applications of public health principles to reducing harm from these consumptions. Critically examines the role of corporate industrial complexes in promoting these consumptions and in preventing policy and legislative reforms.
Restriction: POPLPRAC 709

POPLHLTH 776 15 Points
Public Health in Practice
Students will apply population health concepts, principles and methodologies from formal course work to current public health problems, and develop skills in communicating their solutions to a range of diverse audiences, while critically reflecting on their own position.
Prerequisite: 45 points from Master of Public Health Schedule

POPLHLTH 777 30 Points
Ethics and Societal Approaches to Death
Covers the approaches to death of different cultures, exploring resource and legal issues. Addresses ethical issues: euthanasia versus palliative care, privacy, living wills and end of life medical decision-making, treatment abatement, duties after death, the nature of teamwork, the multidisciplinary nature of palliative care, the role of volunteers, self-care for palliative care providers and home versus residential care.
Restriction: POPLHLTH 746

POPLHLTH 780 60 Points
POPLHLTH 780A 30 Points
POPLHLTH 780B 30 Points
Dissertation - Level 9
To complete this course students must enrol in POPLHLTH 780 A and B, or POPLHLTH 780

POPLHLTH 790 60 Points
POPLHLTH 790A 30 Points
POPLHLTH 790B 30 Points
Dissertation - Level 9
To complete this course students must enrol in POPLHLTH 790 A and B, or POPLHLTH 790

POPLHLTH 796A 60 Points
POPLHLTH 796B 60 Points
Thesis - Level 9
Restriction: COMHLTH 796
To complete this course students must enrol in POPLHLTH 796 A and B
Population Health Practice

Postgraduate Health Level Courses

POPLPRAC 702  15 Points
Adult Mental Health and CBT Skills for Primary Care
A clinically focused course providing an overview of the recognition and management of adult mental health in primary care and other healthcare settings. Topics and content will enable an examination of mental illness in New Zealand including cultural approaches and epidemiology, assessment, identification, treatment and management options. Content covers high prevalence conditions (depression, anxiety) and long term conditions (bipolar disorder and schizophrenia). Topics will include recovery, resilience, CBT techniques and the effect of alcohol and drugs.

POPLPRAC 707  15 Points
Theory and Skills in Counselling Practice
The theory, research and practice regarding counselling and psycho-therapeutic approaches used in mental health and addiction service contexts. Approaches will be critically examined in terms of history, theory, social context and trends in research. Particular attention will focus on counselling methods currently in use in within services.

POPLPRAC 708A  15 Points
POPLPRAC 708B  15 Points
Assessment and Intervention with Addiction
Develops understanding and competency in assessment and intervention work with clients having co-existing problems, specifically those most affected by alcohol and drug issues. It focuses on comprehensive assessment, effective clinical interventions, drug-specific interventions and culturally-specific approaches working with individuals, whānau, and communities. It will involve regular review of practice using case-based scenarios filmed with feedback from tutors, mentors and peers.
Corequisite: POPLHLTH 737, POPLPRAC 707
To complete this course students must enrol in POPLPRAC 708 A and B

POPLPRAC 710  15 Points
Community Health Development Practicum
Theoretical and practical principles of health promotion processes, combined with practical experience, in the context of relevant organisations, community groups and research projects. Students are expected to find their own placement for the practicum.

POPLPRAC 711  15 Points
Health Promotion in Pacific Community Development
Allows supervised experience for students in a Pacific-specific service. A course of study relevant to the area of placement will be prescribed.

POPLPRAC 712  15 Points
Project Planning for Lifestyle Change
Focuses on the planning and development of interventions aimed at addressing lifestyle issues such as alcohol and other dangerous consumptions, obesity, lack of exercise and mental trauma. Students synthesise strategies from published literature and adapt them pragmatically for application in local contexts. Interventions will include those occurring in communities, primary and mental healthcare settings, hospitals, workplaces, and educational institutions.

POPLPRAC 720  15 Points
Psychosocial Issues in Palliative Care
The psychological and social study of patients with cancer or active, progressive disease, unresponsive to curative treatment. Existential philosophy and models of coping with suffering, communication in palliative care, psychiatric disorders in palliative care, and bereavement.

POPLPRAC 722  15 Points
Symptom Management in Palliative Care
Assessment and management of pain, nausea and vomiting, respiratory symptoms, delirium, and other symptoms commonly encountered in palliative care and at the end of life, together with an overview of palliative care emergencies, the role of radiotherapy in symptom management, and issues around nutrition and hydration at the end of life.

POPLPRAC 723  15 Points
Advanced Symptom Management in Palliative Care
Advanced concepts in the assessment and management of symptoms and situations, including the more challenging ones encountered within the palliative care approach to malignant and non-malignant advanced diseases.
Prerequisite: POPLPRAC 722

POPLPRAC 724  15 Points
Child and Adolescent Palliative Care
An examination of specific palliative care issues related to the care of children, adolescents, and their families.

POPLPRAC 729  15 Points
Urgent Primary Medical Care
Assessment and management of a broad range of acute conditions and related issues including: chest pain, dyspnoea, collapse, coma, anaphylaxis, diabetes, toxicology, psychiatry and environmental conditions.

POPLPRAC 740  15 Points
Urgent Primary Surgical Care
Assessment and management of acute surgical and subspecialty conditions and related issues including: trauma, head injury, abdominal pain, ophthalmology, ENT, gynaecology, pregnancy, and genito-urinary conditions.

POPLPRAC 753  15 Points
Special Studies

POPLPRAC 754  15 Points
Infant, Child and Adolescent Primary Mental Health
Provides an overview of the recognition and primary care management of mental health in the under-eighteen age group. A clinically focused course for primary care practitioners. The content covers attachment, early intervention, development, risk assessment, resilience and families. Topics include depression, anxiety disorders, substance use, eating disorders, first episode psychosis, pain, somatic presentations, disruptive behaviour disorders and common behavioural problems.

POPLPRAC 756  30 Points
Adult Rehabilitation Studies
Focuses on the rehabilitation of adults with an acquired or traumatic condition; including an in-depth exploration of the philosophy of rehabilitation interwoven with the development of clinical rehabilitation skills. The concepts addressed in rehabilitation reflect the eclectic nature of the discipline.
Restriction: POPLPRAC 728
Course Prescriptions

An overview of key symptoms commonly encountered in Palliative Care

POPLPRAC 773 30 Points
Special Topic
Challenges in Symptom Management in Palliative Care
An overview of key symptoms commonly encountered in malignant and non-malignant patients in palliative care and at end of life. Addresses assessment and management of these common symptoms using evidenced-based learning. Prerequisite: POPLPRAC 772 Restriction: POPLPRAC 723

POPLPRAC 774 30 Points
Psychosocial Issues in Palliative Care
An overview of the psychological and social study of patients with cancer or active, progressive disease, unresponsive to curative treatment. Covers existential philosophy and models of coping with suffering, spirituality, communication in palliative care, family systems, psychosocial assessments, psychiatric disorders in palliative care and bereavement. Restriction: POPLPRAC 720

Psychiatry

Postgraduate 700 Level Courses

PSYCHIAT 713 15 Points
Special Study in Mental Health

PSYCHIAT 721 15 Points
Special Topic

PSYCHIAT 722 15 Points
Special Topic

PSYCHIAT 730 30 Points
Child and Adolescent Psychopathology
Explores conceptualisations of mental disorder in children and adolescents from a biopsychosocial and developmental perspective. The DSM-5 classification is used as a framework, with consideration of the benefits and disadvantages of an illness model.

PSYCHIAT 740 15 Points
Child and Adolescent Psychopathology
Explores conceptualisations of mental disorder in children and adolescents from a biopsychosocial and developmental perspective. The DSM-5 classification is used as a framework, with consideration of the benefits and disadvantages of an illness model.

PSYCHIAT 741 15 Points
Therapy in Child and Adolescent Mental Health – Theory
Covers the range of treatment modalities used in child and adolescent mental health. Rationale and nature of current therapies will be covered. Students will undertake critical appraisal of the evidence base for therapy pertinent to specific clinical situations. Prerequisite: PSYCHIAT 740

PSYCHIAT 747 15 Points
Child and Adolescent Development
Critically appraises and applies theoretical models and research literature on aspects of child and adolescent development important to mental health. For each of four age ranges, the main aspects of development are reviewed and developmentally appropriate ways of working with children are identified.

PSYCHIAT 766 15 Points
Youth Addiction and Co-existing Problems
An overview of key principles required to manage alcohol
and drug problems within a Child and Adolescent Mental Health (CAMH) context. Includes a range of topics including aspects of screening, assessment and brief interventions, harm reduction, an introduction to motivational interviewing, and CBT in addiction treatment.

PSYCHIAT 767 15 Points
Special Studies

PSYCHIAT 768 30 Points
PSYCHIAT 768A 15 Points
PSYCHIAT 768B 15 Points

Assessment, Formulation and Treatment Planning in ICAMH

Involves a combination of theory and practice. Different methods of assessment, including developmentally appropriate history taking and mental state examination, and of formulation and treatment planning, are applied to a range of infant, child, and adolescent mental health (ICAMH) problems.
Corequisite: PSYCHIAT 740, 747
Restriction: PSYCHIAT 748, 749
To complete this course students must enrol in PSYCHIAT 768 A and B, or PSYCHIAT 768

PSYCHIAT 769 15 Points
CBT with Children, Adolescents and their Families 1

Explores Cognitive Behavioural Therapy (CBT) as an evidence-based treatment for children, adolescents and their families, and covers both theoretical and practical applications of CBT. Specifically designed for New Zealand based practitioners working clinically and/or therapeutically with families, students will learn the CBT model, treatment packages and strategies for depression and anxiety. There is also a strong focus on culturally appropriate interventions (especially those appropriate for Māori).
Prerequisite: PSYCHIAT 740, 747

PSYCHIAT 770 15 Points
CBT with Children, Adolescents and their Families 2

Examines advanced knowledge and skills applied to complex disorders. Builds on PSYCHIAT 769 and further extends the practitioner's knowledge and skill base to include more complex issues of Trauma, Anger, DBD, Self-esteem, OCD and Personality. The strong cultural focus continues, with issues for Māori families being considered in more depth. Students will also have access to New Zealand CBT resources and practice more in-depth CBT skills.
Prerequisite: PSYCHIAT 769

PSYCHIAT 773 30 Points
PSYCHIAT 773A 15 Points
PSYCHIAT 773B 15 Points

Youth Forensic Psychiatry

Students develop an in-depth understanding of offending, particularly for youth offenders, and the relationship to mental illness. Addresses key roles and responsibilities of key stakeholders and members of the multidisciplinary team in the justice and youth justice systems.
To complete this course students must enrol in PSYCHIAT 773 A and B, or PSYCHIAT 773

Faculty of Science

Academic Integrity

**ACADINT A01 0 Points**

**Academic Integrity Course**

An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Astrosciences

**Stage I**

**ASTRO 100 15 Points**

**ASTRO 100G 15 Points**

**Planets, Stars and Galaxies**

The story of our place in the Universe. Key topics are the exploration of the solar system, searches for planets around other stars, the structure and evolution of stars and galaxies, high-energy astrophysics, and the origin and overall properties of the Universe. No background in physics or mathematics is assumed.

**ASTRO 110 15 Points**

**Introduction to Rocket Science**

An introduction to spaceflight and space technology. Topics include rocketry, orbits, spacecraft design and systems, space-based technologies, space exploration, ethical and legal issues and the present and future scientific, technological and social impacts of spaceflight. No background in physics or mathematics is assumed.

**Stage II**

**ASTRO 200 15 Points**

**ASTRO 200G 15 Points**

**Astrobiology**

Astrobiology examines the potential of the universe to harbour life and is interdisciplinary, combining Geology, Biology, Astronomy, Chemistry, Physics, Philosophy, Ethics. Course focus is on how these disciplines combine with technology, addressing questions of life in the universe. Key topics include origin and evolution of life, definitions and environmental limits of life, and how to search for life beyond Earth.

**Prerequisite: 60 points passed**

Postgraduate 700 Level Courses

**ASTRO 720 15 Points**

**Planetary Science**

Explores celestial bodies and planetary systems and the processes of their formation. Emphasis is on planetary geology and geophysics over the 4.6-billion-year-history of our solar system, evaluating the origination, evolution, and habitability of diverse worlds, using varied tools and techniques. Also addressed are modes of scientific enquiry, knowledge perspectives and the ethics of space exploration.

Bioinformatics

**Postgraduate 700 Level Courses**

**BIOINF 789A**

**BIOINF 789B**

**Dissertation - Level 9**

**Prerequisite:** COMPSCI 220 and approval of Programme Director

**Restriction:** COMPSCI 789, STATS 789

To complete this course students must enrol in BIOINF 789 A and B

**BIOINF 796A**

**BIOINF 796B**

**MSc Thesis in Bioinformatics - Level 9**

To complete this course students must enrol in BIOINF 796 A and B

Biological Sciences

**Stage I**

**BIOSCI 100 15 Points**

**BIOSCI 100G 15 Points**

**Antarctica: The Frozen Continent**

A general introduction to Antarctica and its environs including the Southern Ocean and the sub-Antarctic islands. Emphasis will be placed on the evolution of Antarctica and how resident plants, animals and micro-organisms have adapted to cope with the extreme environment. Specific topics to be addressed include: the history of Antarctic exploration and its impact on the development of Antarctic science, Antarctic ecosystems, Antarctica as a wilderness region, and the impact of humans including the exploitation of resources and the effects of pollution. This course is suitable for students with both science and non-science backgrounds.

**BIOSCI 101 15 Points**

**Life! Origins and Mechanisms**

Questions what life is and explores its machinery. Speculates on how life arose from the flow and capture of solar energy, to power growth, movement, replication and storage of genetic information. Describes how genes interact with environments, and how mutations can be catastrophic or transformational. These processes underpin life as we know it.

**BIOSCI 106 15 Points**

**Foundations of Biochemistry**

An introduction to the core elements of biochemistry, investigating biological processes at the chemical and molecular level. Key themes include the molecular structure of proteins, enzyme kinetics, biochemical energetics, carbohydrate and lipid metabolism, nutrition, cell signalling, vision and aspects of plant biochemistry including world food production. These themes provide a framework for discussion of mechanisms underpinning human disease including diabetes and obesity, antibiotic resistance, drug development and plant medicinals.

**BIOSCI 107 15 Points**

**Biology for Biomedical Science: Cellular Processes**

The cellular basis of mammalian form and function. Particular emphasis will be placed on cellular components and processes of blood, neural, muscular, reproductive, immune and supporting systems and how they contribute to the structure and function of the body as a whole.
BIOSCI 108 15 Points
Biodiversity: Patterns of Life
Knowledge of biodiversity is fundamental to understanding our world. Students will become familiar with biological diversity and whakapapa beginning with viruses and leading through to microbes, plants, fungi and animals. Defining characteristics of major organismal groupings will be highlighted to provide students with an overview of the diversity of life on Earth, and the critical role that kaitiakitanga and maintaining biodiversity has for the future.

BIOSCI 109 15 Points
Ecology and Evolution: The Continuum of Life
Explores the ecological mechanisms that determine the distribution and abundance of organisms, and the evolutionary mechanisms which drive change over time. Also explores the role of society and mātauranga Māori in recognising and seeking solutions for human-induced environmental change. Course components emphasise critical thinking and scientific communication skills.
Restriction: BIOSCI 104

Stage II

BIOSCI 201 15 Points
Cellular and Molecular Biology
The fundamental processes of the cell are examined to understand how cells reproduce and use information stored within the genome, express proteins for specific functions, and function within larger tissues. Specific modules examine stem cells, tissues and cellular development, cancer progression and the biology of tumours and the basis of immunity.
Prerequisite: BIOSCI 101, and 15 points from BIOSCI 106-109, MEDSCI 142, and 15 points from CHEM 110, 120, 150

BIOSCI 202 15 Points
Genetics
The basic principles of mutation, recombination and genetic mapping are established in this course. These principles are developed in a variety of prokaryotic and eukaryotic organisms. Laboratory work uses molecular, microbial and eukaryotic material to explore the key features of heredity.
Prerequisite: BIOSCI 101 and 15 points from BIOSCI 106-109

BIOSCI 203 15 Points
Biochemistry
Presents core areas of modern biochemistry. Emphasis is on macromolecular structure and function. Areas covered include protein structure, oxygen and carbon dioxide transport in humans and other species, metabolism in mammals, proteases and human disease, cholesterol metabolism and transport and signal transduction.
Prerequisite: BIOSCI 101, 106 and 15 points from CHEM 110, 120

BIOSCI 204 15 Points
Principles of Microbiology
An introduction to the diversity, physiology and functions of microorganisms (prokaryotes, eukaryotes, viruses) as individuals and as communities. The fundamental roles of microorganisms in ecosystems, health and disease are considered alongside methods for their isolation and study. Microbial applications in biotechnology, food production, agriculture and industry are also discussed.
Prerequisite: BIOSCI 101 and 15 points from BIOSCI 106-109

BIOSCI 205 15 Points
Plant, Cell and Environment
Unlike animals, plants cannot move to respond to changes in their environment. Plants have evolved diverse signaling systems and the ability to grow towards their essential resources. Explores the intricate ways plants function and how they are able to respond to developmental and environmental signals at the whole plant and cellular level.
Prerequisite: BIOSCI 101, 108

BIOSCI 206 15 Points
Principles of Ecology
An examination of ecosystem processes, factors that affect distribution and interactions of organisms, population ecology, and applications of ecology such as restoration and conservation. The key principles of ecology are taught in a New Zealand context emphasising an experimental approach.
Prerequisite: BIOSCI 108, 109 and STATS 101 or 108

BIOSCI 207 15 Points
Adaptive Form and Function
Investigates the diverse biological adaptations of animals, with a focus on generating adaptive hypotheses and ways to test them. Topics covered include comparative physiology, behavioural ecology, hormones and predator/prey interactions.
Prerequisite: BIOSCI 108, and BIOSCI 101 or 109

BIOSCI 208 15 Points
Invertebrate Diversity
Invertebrates make up over 95 percent of animal species. This course explores the biology of invertebrates with an emphasis on structure, function, life histories, behaviour and ecology. Invertebrate diversity is examined in a variety of environments, using New Zealand examples where possible, and provides the basis for advanced courses in conservation and marine ecology.
Prerequisite: BIOSCI 108, and BIOSCI 101 or 109

BIOSCI 210 15 Points
Evolution and the Origin of Life
Covers basic concepts in evolutionary biology including Darwin and the theory of evolution by natural selection, phylogenetics, population genetics, molecular evolution, speciation and extinction. The extent to which Darwin’s theory of evolution by natural selection can explain the origins of biological complexity is explored.
Prerequisite: BIOSCI 109, and 15 points from BIOSCI 101-108

BIOSCI 220 15 Points
Quantitative Biology
An introduction to mathematical, statistical and computational literacy as required for contemporary biologists. Topics include fundamentals of experimental design, data exploration and visualisation, model-based inference to process biological data into biological information, comparing statistical models, prediction using mathematical models of biological processes, critical thinking about models and effective communication of findings. Data analysis and generation is taught using the R programming language. Recommended preparation: STATS 101
Prerequisite: 30 points from BIOSCI 101-109

Stage III

BIOSCI 300 15 Points
Directed Study

BIOSCI 322 15 Points
Evolution of Genes, Populations and Species
Advanced concepts in evolutionary biology and their application to current research in molecular evolution,
Not only is the earth predominantly oceanic, but higher marine biodiversity occurs on the shallower continental shelf/coastal areas. Students will learn the key groups of marine organisms within New Zealand's waters. Attention will be given to understanding their diversity, distribution and adaptations to thrive within the dynamic marine environment.

**Prerequisite:** BIOSCI 108, 109 and 15 points from BIOSCI 206, 207, 208

**BIOSCI 335**
**Ecological Physiology**
Focuses on the strategies used by animals to cope with physical and biological challenges in the environment. Accordingly, we work at the level of the individual and the interface between physiological, biochemical or molecular approaches on the one hand, and ecology on the other. The adaptive strategies employed by a range of species, with an emphasis on aquatic organisms, in response to physical factors such as temperature, oxygen and food availability, are considered. Energetics and nutrition are emphasised. The course aims to meet the needs of students with ecological interests wishing to recognise the experimental approach to solving problems in environmental biology. The practical work is project oriented rather than laboratory based.

**Prerequisite:** 15 points from BIOSCI 207, 208

**BIOSCI 337**
**Animal Behaviour**
Animal Behaviour Proximate and ultimate causes of behaviour are investigated experimentally in the field and the laboratory. Responses by animals to variations in the physical environment and to other organisms are studied. The development and organisation of behaviour and the theoretical background to topics of current interest are covered, using both New Zealand and overseas examples.

**Prerequisite:** BIOSCI 220, and BIOSCI 207 or 208

**BIOSCI 338**
**Biology of Terrestrial Animals**
The animals of Aotearoa and Tāmaki Makaurau are iconic. We explore the biology, diversity and whakapapa of our native invertebrate and vertebrate animals. Along with a detailed coverage of biology, we focus on practical techniques for sampling and identifying species. This course involves both fieldwork (with the option to conduct this either on campus, or on an overnight fieldtrip) and labwork and training in using biodiversity data for hypothesis testing and scientific communication.

**Prerequisite:** 15 points from BIOSCI 206-208
**Restriction:** BIOSCI 320

**BIOSCI 347**
**Environmental Microbiology and Biotechnology**
The ecology and physiology of micro-organisms in natural and engineered environments. Key themes include marine microbiology, the importance of microbial symbioses to life on Earth, and contemporary research methods in microbiology. Processes such as wastewater treatment and the production of bioactives are used to emphasise exploitation of microbial metabolism for environmental biotechnology purposes.

**Prerequisite:** BIOSCI 204 or MEDSCI 202

**BIOSCI 348**
**Applied Microbiology**
Microorganisms and microbial-derived products have been used by humans for millennia. Explores the interface of microorganisms and engineering, including how microorganisms interact with food products in
beneficial and unfavourable ways, identifying and utilising microorganisms to produce chemicals, therapeutics, and materials and how to use innovative methods to engineer microorganisms to perform novel functions or produce novel products.

**Prerequisite:** BIOSCI 204 or MEDSCI 202

**BIOSCI 349**

**Biomedical Microbiology**

**Prerequisite:** BIOSCI 201 and either BIOSCI 204 or MEDSCI 202

**BIOSCI 350**

**Protein Structure and Function**

The relationship of molecular structure to protein function will be emphasised. Techniques for the purification, characterisation, production of native and recombinant proteins and three-dimensional structure determination will be combined with a description of protein structure. Specific groups of proteins will be selected to illustrate structure/function relationships and protein evolution.

**Prerequisite:** BIOSCI 201, 203

**BIOSCI 351**

**Molecular Genetics**

The analysis of genetic material in prokaryotes, viruses, yeast, plants and humans is addressed. The means by which genetic information is transferred and the mechanisms underlying genome diversity will be examined, together with the study of eukaryote genomes at the level of chromosome structure and organisation. The molecular mechanisms underpinning selected inherited human disorders will be discussed as well as the role of model species in understanding normal and perturbed biological pathways.

**Prerequisite:** BIOSCI 201, 202

**BIOSCI 353**

**Molecular and Cellular Regulation**

The molecular mechanisms which mediate intracellular sorting and targeting of biochemically active molecules and the networks of intracellular and extracellular signals which regulate cell function form the focus of this course. The roles of growth factors, oncogenes, plasma membrane receptors, nuclear receptors, ion channels and membrane transporters are emphasised.

**Prerequisite:** BIOSCI 201, 203

**BIOSCI 355**

**Genomics and Genome Biology**

Biological information is coded in and expressed from genomes. This course explores methods for detecting structural and functional elements of genomes, plus the wider genome biology of eukaryotic and prokaryotic systems. Students will learn how genomic data is generated and analysed, how genomes evolve, and how genomic information is expressed and regulated.

**Prerequisite:** BIOSCI 202

**Restriction:** BIOINF 301, BIOSCI 354

**BIOSCI 356**

**Developmental Biology and Cancer**

Molecular, cellular and genetic aspects of normal and abnormal development focusing on a variety of model systems including drosophila, the zebrafish and the mouse. Molecular events underlying the development of body form, the differentiation of specific tissues such as the blood, and abnormalities of development which contribute to diseases of the body such as cancer. Implications of transgenic techniques on development.

**Prerequisite:** BIOSCI 201

**BIOSCI 358**

**Nutritional Science**

The scientific basis of nutrition focusing on its biochemistry and physiology in health and disease. Nutritional aspects of carbohydrates, fats, proteins, vitamins and trace nutrients are covered in an integrated manner. The methodologies which underpin nutritional science and its applications are included. Reference will be made to a broad range of examples, and a number of specific nutritional topics of current interest will also be included.

**Prerequisite:** BIOSCI 203

**BIOSCI 359**

**Pacific Biogeography and Biodiversity**

Island biogeography and insular biodiversity across the Pacific. A multi-disciplinary approach involving the study of both plant and animal systematics and biogeography.

**Prerequisite:** BIOSCI 109 or GEOG 101

**BIOSCI 395**

**Capstone: Biology: The Science of the 21st Century**

Major advances in biology have added immensely to the understanding of our world. These advancements will continue, and biological science will influence our future lives and world. Students will enhance their scientific skills by envisioning the innovative future of biology, and its likely cultural, political and economic impacts, globally, and within the context of Aotearoa and Te Tiriti o Waitangi.

**Prerequisite:** 30 points at Stage III in Biological Sciences

**Postgraduate 700 Level Courses**

**BIOSCI 700**

**Phylogenetics**

Students will learn advanced computational methods for inferring phylogenetic trees and studying macroevolutionary processes, including phylogenetic dating, coalescence, epidemic phylogeography, and estimation of ancestral traits and biogeography. Relevant skills in computation (BEAST, command-line programs, R) and statistics (Bayesian methods, model-based inference) will also be taught.

**Restriction:** BIOINF 702

**BIOSCI 701**

**Practical Approaches in Genomics - Level 9**

Genomics provides insights into the diversity, evolution, adaptation and function of organisms. Students will complete a research project to apply the advanced practical aspects of genomics across taxa and topics such as conservation, health and ecosystem function.
Recommended preparation: BIOSCI 322, 351 or 355 or equivalent.

Restriction: BIOINF 701

BIOSCI 702 15 Points

Modelling Biological Processes

Modelling and simulation are increasingly important aspects of the biological sciences. A variety of biological modelling approaches are introduced through a series of practical exercises to build and analyse models of biological processes. Topics include modelling in ecology and systems biology, agent-based modelling of complex biological systems, and molecular dynamics of biological molecules.

Restriction: BIOINF 703

BIOSCI 704 15 Points

Practical Applications of Cell Analysis - Level 9

Application of highly specialised technologies for cell analysis relevant to a wide range of biotechnology-based disciplines including immunology, infectious diseases, stem cells, neuroscience and cancer. Advanced skill development in technologies including high dimensional flow cytometry, cell sorting and microscopy/imaging.

BIOSCI 724 15 Points

Marine Ecology

The ocean covers 70% of the surface area of Earth, provides 50% of the oxygen and much of the food consumed. This course considers marine ecology at the local, hemispheric and global levels with a focus on habitat and ecosystem connectivity and the impacts of anthropogenic change.

BIOSCI 725 15 Points

Ecological Physiology

Physiological and biochemical processes enable animals to occupy diverse habitats. Highly variable and extreme environments provide an opportunity to study the functional attributes of animals, particularly ectotherms, with respect to their metabolic, respiratory, and nutritional adaptations. A sound understanding of BIOSCI 335 or equivalent is assumed.

BIOSCI 727 15 Points

Aquaculture

Current assessment of the national and global status of aquaculture and consideration of future prospects. Examples of aquaculture in New Zealand are examined and a review of general environmental and biological problems and the role of scientific knowledge in aquaculture management. A sound knowledge of BIOSCI 328 or equivalent is assumed.

BIOSCI 729 15 Points

Evolutionary Biology

A contemporary approach to central issues in evolutionary biology including mechanisms that produce macroevolutionary patterns. Current research using phylogenetic methods for testing evolutionary hypotheses will be discussed, encompassing the role of selection, the origin of mutations, and concepts of heredity. A sound understanding of BIOSCI 322 or equivalent is assumed.

BIOSCI 730 15 Points

Entomology and Biosecurity

More than half of all described species are insects, and even more species await discovery and description. Insects at every trophic level above plants dominate terrestrial and freshwater food chains. Examines the evolution of insects, the importance of their role in terrestrial ecosystems, and the problems posed by insects as biosecurity invaders in non-native environments. A sound understanding of BIOSCI 320 or 338 or equivalent is assumed.

BIOSCI 731 15 Points

Biogeography

Examines the patterns of animal and plant distribution, and the processes that influence these patterns. Topics covered include equilibrium theory, island succession, vicariance and dispersal, insular speciation, and human migration and colonisation. A sound understanding of BIOSCI 395 or equivalent is assumed.

BIOSCI 733 15 Points

Molecular Evolution and Conservation Genomics

Using the molecular archive to address ecological and evolutionary questions. Provides a broad theoretical and practical basis for undertaking studies in fields ranging from conservation genetics/genomics and connectivity, and biosecurity and forensics, to phylogenetics and molecular evolution. Topics may include the neutral theory of molecular evolution, molecular identification of species, gene flow, selection at the molecular level, and inbreeding depression.

BIOSCI 734 15 Points

Terrestrial Plant Ecology

Plants form the autotrophic basis of terrestrial food chains and their distribution, diversity and abundance is a critical determinant of ecosystem functioning. Topics covered include both plant population ecology - including population growth and structure, seed and seedling dynamics, and life history strategies - and community ecology - including vegetation structure, dynamics, and species interactions. Methods to survey, analyse, and model plant populations and communities will also be discussed.

BIOSCI 735 15 Points

Advanced Behavioural Ecology

Focuses on organisms interacting in natural environments. Both the mechanistic underpinnings of behaviour and the fitness consequences of such behavioural traits will be examined. Behavioural ecology is not limited to questions of behaviour, but draws in issues of energetics and physiology as these factors are often used as proxies for fitness traits such as differences in survival and reproduction. A sound understanding of BIOSCI 337 or equivalent is assumed.

BIOSCI 736 15 Points

Microbial Genomics and Metabolism

Cross-disciplinary issues involved in the understanding of microbial genome structure, gene regulation and metabolism. Includes: the genetic basis of microbial interactions and horizontal gene transfer, the effect of stress and mutation on microbial and viral evolution and modern approaches used to link gene sequence to biological function and phenotypes.

BIOSCI 737 15 Points

High Resolution Imaging of Biological Molecules

X-ray crystallography and electron microscopy are two of the principal techniques used by biologists to determine molecular structure. The theory and practice of X-ray crystallography and electron microscopy, including a laboratory component where 3D structure are determined using the principal techniques used by biologists to determine molecular structure. The theory and practice of X-ray crystallography and electron microscopy, including a laboratory component where 3D structure are determined from experimental data, are addressed. Accessible to students with a variety of backgrounds, including Biology, Bioengineering, Chemistry and Physics. This course complements CHEM 738 and BIOSCI 757.
BIOSCI 758
Advanced Biological Data Analysis
15 Points
Building on a strong foundation in quantitative biology, fundamental statistical methods and basic R programming, students will learn an array of advanced biostatistical methods for data analysis. Topics covered include: data wrangling, methods for the analysis of designed experiments, regression analysis, including mixed effect models, and the analysis of multivariate data, including advanced supervised and unsupervised learning techniques. Requires students to apply their knowledge across a myriad of complex biological datasets.

BIOSCI 739
Dialogues in Biology
15 Points
Social, ethical and other philosophical issues in the life sciences will be debated and explored. Topics may include: animal and environmental ethics, conservation and biodiversity, the history and philosophy of science, ethical and commercial issues underpinning science, scientific publishing and advocacy, medical and agricultural biotechnology.

BIOSCI 741
Applied Microbiology and Biotechnology
15 Points
Explores recent advances in microbial biotechnology across the environmental, industrial and medical sectors, highlighting the diversity and complexity of applications. Features of experimental design and data analysis will be discussed. A sound understanding of BIOSCI 348 or equivalent is assumed.

BIOSCI 746
The Molecular Machinery of The Cell
15 Points
The experimental investigation and modelling of protein behaviour at the molecular level, in order to explain cellular biology and facilitate protein engineering. Topics addressed may include binding, transport, catalysis, chemical modification, and dynamics. A sound understanding of BIOSCI 350 or equivalent is assumed.

BIOSCI 747
Biosecurity and Invasion Biology
15 Points
The science of invasion biology, including stages of the invasion process and ecological interactions between species. The impacts of invasive alien species in different ecosystems. Population and community ecology, in relation to biosecurity.

BIOSCI 748
Weed and Pest Management
15 Points
Techniques for the management of invasive plants and animals (vertebrates and invertebrates) in different ecosystem types, including terrestrial and aquatic ecosystems. Approaches to the prevention, control and eradication of invasive species in different situations.

BIOSCI 749
Microbiomes
15 Points
The roles of microbial communities (microbiomes) and current research methods to study these are considered in different contexts including the environment (natural and biotechnological systems) and the human microbiome. A sound understanding of BIOSCI 347 or equivalent is assumed.

BIOSCI 751
Plant-microbial Interactions
15 Points
Addresses selected topics in plant microbial interactions. Modern research on issues relating to plant pathogens and biosecurity, plant disease spread (epidemiology) and plant-microbial interactions (both pathogenic and mutualistic) will be investigated and discussed. A basic understanding of microbiology and molecular biology is assumed.

BIOSCI 752
Plant Genomics and Biotechnology
15 Points
How genomics and gene transfer technologies could be used to achieve improved plant growth and to develop food with new traits. Includes: plant genomics methods, engineering fruit colour, control of fruit ripening and texture, biotechnology project design. A sound understanding of BIOSCI 354 or 340 or 326 or equivalent is assumed.

BIOSCI 753
Synthesis of Plant Products and Foods
15 Points
Includes the biosynthesis of: selected plant cell-wall components important in dietary fibre or biomass for the production of biofuels, including lignins, cellulose or non-cellulosic polysaccharides; antioxidant pigments in food plants and their possible impacts on human health. The manipulation of nitrogen assimilation in plants to increase the yield and quality of agricultural and horticultural plant products. A sound understanding of BIOSCI 340 or equivalent is assumed.

BIOSCI 754
Plant Genomes and Gene Expression
15 Points
The analysis of plant genomes and regulation of gene expression in plant biology includes: inferences from whole plant genome sequences, genetic control of nitrogen fixation, uptake and use, flowering time, hormone signalling pathways, sugar metabolism and its regulation. A sound understanding of BIOSCI 354 or 340 or 326 or equivalent is assumed.

BIOSCI 755
Genomics and Gene Expression
15 Points
The analysis of genomes and gene expression as a means of understanding biological processes. Aspects of functional and chemical genomics will be presented, as well as gene expression profiling using microarray technology. In terms of the latter, features of experimental design and data analysis will be discussed in the context of disease and developmental processes. A sound understanding of BIOSCI 351 or equivalent is assumed.

BIOSCI 757
Molecular Form, Function and Design
15 Points
Biological systems highlight a complex interplay of thousands of molecules. Reviews fundamental studies focusing on molecular structure and function (structural biology), and designer molecules with applications in nanotechnology and biomedicine. Topics may include: enzyme evolution and engineering, protein design and assembly, rational drug and vaccine discovery, and protein structure and dynamics.

BIOSCI 758
Development, Differentiation and Disease
15 Points
A critical analysis of normal and perturbed gene expression in selected model organisms as a means of understanding biological pathways and disease processes. Includes the development and use of transgenic organisms as models for human disease. A sound understanding of BIOSCI 356 or equivalent is assumed.

BIOSCI 759
Cell and Molecular Biomedicine
15 Points
Explores recent advances in cell biology that have led to a greater understanding of a variety of cellular processes at the molecular level. Emphasis will be placed on biochemical
and genetic approaches to understand disease mechanisms at the cellular level. A sound understanding of either BIOSCI 349 or 353 or MEDSCI 314 or equivalent is assumed.

**BIOSCI 760 15 Points**  
**Biosystematics**  
Exploration of key concepts and processes that form the professional discipline of biosystematics. Introduction and familiarisation with advanced concepts in biosystematics, and knowledge of methods to manage biosystematics collections, to develop accessible biodiversity databases, and to study and characterise biodiversity. Previous experience with basic taxonomic principles and the systematics of a taxonomic group is desirable.

**BIOSCI 761 15 Points**  
**Research Practice - Level 9**  
Students will complete an advanced literature review to produce a research output that applies their knowledge to a novel context or application. Students will develop skills to synthesise and communicate their research output including the significance, potential limitations and context within the wider discipline to an academic audience using both written and verbal platforms.  
*Restriction: BIOSCI 762, ENVSCI 701, MEDSCI 701*

**BIOSCI 762 15 Points**  
**BSc(Hons) Dissertation Proposal - Level 9**  
A review of the literature associated with the dissertation topic and an overview of the proposed research. Students will also be required to present an overview of the proposal in a seminar.

**BIOSCI 763 15 Points**  
**Professional Applications of Ecology**  
Exploration of key concepts that form the professional discipline of ecology. Introduction and familiarisation with relevant policy, advanced ecological community and population survey and monitoring, use of Geographic Information Science (GIS) and remote sensing, accessing biosystematics resources, data management, effective engagement with mana whenua, and effective communication skills. Some previous knowledge of ecology is desirable.

**BIOSCI 764 15 Points**  
**Human Virology**  
The COVID-19 pandemic was a global health crisis without parallel in the modern era and has evoked an unprecedented scientific response. Explores aspects of virus biology to illustrate principles of emergence, transmission and disease caused by viruses with pandemic potential and discusses how emerging pandemics can reshape our ability to respond to future viral threats with pandemic potential.

**BIOSCI 765 15 Points**  
**Translating Biomedical Science into Therapeutic Strategies**  
Explores the research involved in development of currently available and potential future cell based biomedical therapeutics. The challenges and wider societal issues which need to be considered when conducting this research will be discussed. Emphasis will also be placed on guiding students as they develop their critical evaluation and communication skills.

**BIOSCI 766 15 Points**  
**Global Change Ecology**  
Discusses the profound impacts global change processes have on ecological systems, including climate change, land use change, biodiversity loss and changes in biogeochemical cycles. Covers the complex concepts of global change and approaches for planning and mitigation. Some previous knowledge of ecology is desirable.

**BIOSCI 767 15 Points**  
**Biomedical Science**  
**Stage III**

**BIOMED 399 15 Points**  
**Capstone: Biomedical Science**  
Students will synthesise knowledge and reflect on learning experiences attained during their studies in Biomedical Science. Students will engage in debate on contemporary issues and use their scientific reasoning to counter misunderstandings and misrepresentation. Students will consider wider societal issues involved in research, such as human and animal ethics, Māori and Pacific health advancement, and public health relevance and economic benefits.  
*Prerequisite: 30 points from BIOSCI 347-358, MEDSCI 300-320, MEDIMAGE 300, 302*

**BIOSCI 794 15 Points**  
**Biosecurity and Conservation**  
**Postgraduate 700 Level Courses**

**BIOSEC 796A 60 Points**  
**BIOSEC 796B 60 Points**  
**Thesis in Biosecurity and Conservation - Level 9**  
To complete this course students must enrol in BIOSEC 796 A and B

**BIOTECH 792 45 Points**  
**BIOTECH 792A 15 Points**  
**BIOTECH 792B 30 Points**  
**Dissertation - Level 9**  
To complete this course students must enrol in BIOTECH 792 A and B.
BIOTECH 794A 45 Points
BIOTECH 794B 45 Points
MSc Thesis in Biotechnology - Level 9
To complete this course students must enrol in BIOTECH 794 A and B

Chemistry

Preparatory Courses

CHEM 91P 15 Points
Preparatory Chemistry 1
Preparatory introduction to elements, compounds, the periodic table, atomic structure, covalent bonding, molecular shape and polarity. Quantitative chemistry, including balancing equations, calculating moles and particles present, calculation of concentration in mol L⁻¹. Energy and thermo-chemistry. Laboratories include practical skills and qualitative analysis, and simple modelling.
Restriction: CHEM 91F

Stage I

CHEM 100 15 Points
CHEM 100G 15 Points
Molecules that Changed the World
The impact of chemistry on the modern world will be explored by focusing on the stories of specific molecules, including penicillin, DDT and nylon. Their discovery, the underlying chemical principles that explain their behaviour, their impact on our lives including social and scientific issues that arise from their use, and their likely impact on the future will be investigated. No formal prerequisite, but the course assumes a science background at Year 11 or higher.

CHEM 110 15 Points
Chemistry of the Living World
A foundation for understanding the chemistry of life is laid by exploring the diversity and reactivity of organic compounds. A systematic study of reactivity focuses on the site and mechanism of reaction including application of chemical kinetics. A quantitative study of proton transfer reactions features control of pH of fluids in both living systems and the environment. It is recommended that students with a limited background in chemistry take CHEM 150 prior to CHEM 110.

CHEM 120 15 Points
Chemistry of the Material World
The chemistry of the elements and their compounds is explored. The relationship between molecular structure and reactivity, the role of energy, concepts of bond formation and chemical equilibrium are discussed. Issues such as sustainability, energy and fuels, and the creation of new materials are also discussed. It is recommended that students with a limited background in chemistry take this course prior to CHEM 110 or CHEM 120.
Restriction: Cannot be taken at the same time as any other chemistry course, or after any successfully completed chemistry course, other than CHEM 100/CHEM 100G

Stage II

CHEM 200 15 Points
Special Topic

CHEM 251 15 Points
Structure and Spectroscopy
To study chemicals it is important to understand the stereochemical and electronic properties of molecules. Molecular orbital techniques and the application of approaches based on molecular symmetry and group theory to the understanding of molecular properties, bonding and spectroscopy will be studied. Application of these concepts to spectroscopic characterisation and quantification of materials by various spectroscopic techniques will be discussed.
Prerequisite: CHEM 120 and 15 points from MATHS 108, 110, 120, 130, PHYSICS 120, 160, STATS 101, 108
Restriction: CHEM 220

CHEM 252 15 Points
Properties and Analysis of Matter
Understanding the physico-chemical properties of matter is crucial for modern chemistry. Fundamental processes to the analysis and understanding of chemical systems, including thermodynamics, equilibria, acid and bases will be covered. Applications of modern electrochemistry, physical chemistry of modern materials and methods for assessing the reliability of results will be described while the laboratory course emphasises the obtaining and understanding of chemical measurements.
Prerequisite: CHEM 110, 120, and 15 points from MATHS 108, 110, 120, 130, PHYSICS 120, 160, STATS 101, 108
Restriction: CHEM 240

CHEM 253 15 Points
Making Molecules: Synthesis and Isolation
Creation of chemicals and compounds is at the heart of synthetic chemistry and is fundamental for the preparation of new materials and medicines. Students will learn organic, organometallic and inorganic synthesis with an emphasis on how and why reactions occur. Students will study separation strategies and characterisation techniques such as NMR spectroscopy to determine reaction outcomes. Provides experience in synthesising, purifying and characterising compounds.
Prerequisite: CHEM 110
Restriction: CHEM 230

CHEM 254 15 Points
CHEM 254A 7.5 Points
CHEM 254B 7.5 Points
Modelling Chemical Processes
From quantum mechanics to enzyme active sites, statistical analysis to the greenhouse effect, models are essential to our understanding of chemical phenomena. But what makes a good model? How are they developed and tested? After exploring the concept of models and their relationship to the scientific method, students will investigate several currently accepted models used in the chemical sciences.
Prerequisite: CHEM 110, 120 and 15 points from MATHS 108, 110, 130, 150, PHYSICS 120
To complete this course students must enrol in CHEM 254 A and B, or CHEM 254

**CHEM 330**

**Contemporary Organic Chemistry**

Topics in advanced organic chemistry, including the synthesis, reactions and uses of compounds containing phosphorus, selenium, boron and silicon. Organotransition metal chemistry. Asymmetric synthesis. Heterocyclic chemistry and pericyclic reactions. Laboratories emphasise synthetic and structural methods.

**CHEM 340**

**Advanced Analytical Chemistry**

Principles and applications of modern instrumental analytical chemistry. Statistical methods, quality control and assurance, sampling, instrumentation, chromatographic and other separation methods, spectrophotometric methods, electro-analytical methods.

**CHEM 350**

**Topics in Chemistry**

Topics in modern chemistry. Students will select three of the modules offered, details of which are available in the School of Chemical Sciences Undergraduate Handbook. 

**CHEM 351**

**Chemicals Big and Small: Nano-material to Biomacromolecules**

Chemical materials are found with a broad range of shapes, sizes and physical properties. Students will study the synthesis of chemical materials; including polymeric materials using radical chemistry, inorganic materials and proteins and peptides using synthetic and biological chemical approaches. Methods to characterise materials will be investigated, including a range of physical and computational techniques giving insight into molecular interactions.

**CHEM 352**

**Advanced Concepts in Chemistry**

Comprises various topics in the chemical sciences related to current research interests in the School, which may vary from year to year. Students will be exposed to cutting-edge research concepts and will study four separate modules over two semesters.

**CHEM 360**

**Contemporary Green Chemistry**

Covers topics central to contemporary Green Chemistry such as sustainable syntheses, energy production, catalysis, pollution control, and basic toxicology. The integral laboratory course provides valuable practical experience in relevant areas of the chemical sciences.

**CHEM 380**

**Materials Chemistry**

Synthesis, properties characterisation and applications of advanced materials. Includes a review of current trends in materials research. Important aspects of solid inorganic materials and organic polymers are covered.

**CHEM 390**

**Medicinal Chemistry**

**CHEM 392**

**Issues in Drug Design and Development**

Intellectual property and patent law in the pharmaceutical industry. An overview of the legal and regulatory framework for drug design and development. Clinical trials: formulation of a drug; phase I, phase II and phase III
Covers modern areas of research in physical chemistry.

CHEM 710 15 Points
Capstone: Green Chemical Science
Explores green chemical processes, principles, applications and development. Students will examine the ethical, social and commercial implications of green chemical processes.

Prerequisite: 30 points from CHEM 351, 360, ENVSCI 301

CHEM 701 15 Points
Capstone: Medicinal Chemistry
Integrates and applies the foundations of medicinal chemistry to popular science-related themes, working individually and in groups and producing written and oral reports. Comprises an open-ended drug discovery research project that will require students to work in groups and individually.

Prerequisite: CHEM 390 and 15 points from CHEM 310, 320, 340, 351, 360, 380, 392

CHEM 399 15 Points
Capstone: Chemistry
Using a combination of skills learnt throughout their major, students will investigate key chemistry-related phenomena, working individually and in groups, producing both written and oral reports. Along with the chemistry behind the phenomena, the social, environmental, economic and ethical considerations will be explored.

Prerequisite: 30 points from CHEM 251, 252, 253, 260 and 255 points passed

Diploma Courses

CHEM 690A 15 Points
CHEM 690B 15 Points

Graduate Diploma Research Project
To complete this course students must enrol in CHEM 690 A and B

CHEM 691 30 Points
CHEM 691A 15 Points
CHEM 691B 15 Points

Postgraduate Diploma Research Project
Restriction: CHEM 790
To complete this course students must enrol in CHEM 691 A and B, or CHEM 691

Postgraduate 700 Level Courses

CHEM 701 15 Points
Directed Study
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of chemistry.

CHEM 702 15 Points
Directed Study
A directed reading and individual study course to prepare students in the methodologies in a selected sub-discipline of chemistry.

CHEM 710 15 Points
Advanced Physical Chemistry
Covers modern areas of research in physical chemistry and may include: solid-state nuclear magnetic resonance spectroscopy (NMR), X-ray spectroscopic techniques commonly used in materials science (including synchrotron-based X-ray absorption, emission and scattering techniques), and computational chemistry with applications in heterogeneous catalysis.

CHEM 712 15 Points
Nanomaterials and Nanotechnology
Introduces a range of modern methods used in the synthesis and characterisation of nanomaterials (including metal nanoparticles, polymers, ceramics and their nanocomposites), with the application of these nanomaterials in energy conversion, optical devices and biosensing also being explored. Potential risks of nanomaterials in the environment will be discussed.

CHEM 720 15 Points
Advanced Inorganic Chemistry
Covers modern areas of research in inorganic chemistry, and may include main-group catalysis, medicinal inorganic chemistry, supramolecular chemistry and/or inorganic cluster compounds.

CHEM 730 15 Points
Modern Methods for the Synthesis of Bioactive Molecules
The use of modern methods for the construction of complex molecules with an emphasis on carbon-carbon bond formation and control of stereochemistry. Principles and practice of synthesis design based on retrosynthetic analysis. Each student will present and discuss a recent synthesis of a complex bioactive organic compound. No formal prerequisite, but knowledge of organic chemistry at the level covered in CHEM 330 will be assumed.

CHEM 735 15 Points
Advanced Medicinal Chemistry
A selection of topics dealing with aspects of medicinal chemistry, including anticancer agents, metals in medicine, antibacterial and antiviral chemotherapy, contemporary topics in medicinal and/or bio-organic chemistry.

CHEM 738 15 Points
Biomolecular Chemistry
Discusses how techniques including NMR spectroscopy, calorimetry, neutron scattering and computational modelling, can characterise the molecular structure, dynamics, and interactions of biological macromolecules. The principles of each technique will be presented and complemented with examples of where these methods have made major advances in understanding important biochemical processes. Accessible to students with a background in chemistry, biology, bioengineering, or physics.

CHEM 740 15 Points
Current Topics in Analytical Chemistry
Principles and applications of modern analytical chemistry. Emphasis will be on the solution of problems met by analytical chemists, including a study of the development of instrumentation, and a study of current trends in analytical research. No formal prerequisite, but knowledge of analytical chemistry at the level covered in CHEM 340 will be assumed.

CHEM 741 15 Points
Chemometrics and Quality Assurance in Chemistry
Explores a range of different chemometric processes including statistical analysis techniques, and methods and strategies for experimental design. Concepts related to method validation for analysis will be covered, as well as
quality management of chemistry experimental data and principles of Good Laboratory Practice (GLP).

**Mathematics for Computer Science**

Basic mathematical tools and methods needed for computer science are introduced. Elementary mathematical skills for defining, analysing and reasoning with abstract objects used in programming are developed. Topics include integers and rational numbers, strings and sets, methods of proof (including induction), algorithms and functions,
and elementary introductions to graphs, trees, counting and probability.

Course Prescriptions

2024 Calendar

Faculty of Science

Course Prescriptions

COMPSCI 130
Introduction to Software Fundamentals
Fundamental programming techniques and processes, such as conditionals, iteration, recursion, functions, testing and debugging. Efficient ways to organise and manipulate data, including sorting and searching algorithms. Writing software that uses and implements common abstract data types such as lists, stacks, queues, dictionaries and trees.

Prerequisite: COMPSCI 101, or B+ or higher in ENNGEN 131, or Achievement Standard NCEA Level 3 Digital Technologies and Programming: 91906 Use complex programming techniques to develop a computer program, or 91637 Develop a complex computer program for a specified task

Restriction: Cannot be taken with, or after, COMPSCI 225, MATHS 254

15 Points

Stage II

COMPSCI 210
Computer Organisation
The low level representation of data and algorithms in the computer. An introduction to computer organisation. The instruction execution model. Assembly and disassembly of instructions. Assembly language programming. How a high-level language is implemented at the machine level. The memory subsystem. Hardware support necessary to implement a secure multi-user operating system.

Prerequisite: COMPSCI 110, 130

15 Points

COMPSCI 215
Data Communications and Security
An introduction to data communications: the OSI reference model, particularly how the lower layers combine to implement the application layer. An introduction to secure communication and computer systems.

Prerequisite: COMPSCI 110, 130, PHYSICS 140

15 Points

COMPSCI 220
Algorithms and Data Structures

Prerequisite: COMPSCI 120, 130

Restriction: COMPSCI 717, SOFTENG 284

15 Points

COMPSCI 225
Discrete Structures in Mathematics and Computer Science
An introduction to the foundations of computer science, mathematics and logic. Topics include logic, principles of counting, mathematical induction, recursion, sets and functions, graphs, codes, and finite automata.

Prerequisite: COMPSCI 120 or MATHS 120

Restriction: MATHS 254, SOFTENG 282

15 Points

COMPSCI 230
Object Oriented Software Development
The design and implementation of object-oriented programmes. Analysis and design. Modelling with UML.

Design for reuse, for testing, and for ease of change. Programming with classes, objects and polymorphism.

Prerequisite: COMPSCI 130

Restriction: SOFTENG 281

15 Points

COMPSCI 235
Software Development Methodologies
An introduction to software development, including processes, best practices, tools and quality assurance techniques such as testing.

Prerequisite: COMPSCI 130

Restriction: COMPSCI 280

15 Points

COMPSCI 289
Research Seminar in Computer Science
An introduction to research topics in computer science. Students will be expected to prepare and deliver a review of research in a topic of their choice. Research articles will be provided during the course, and will consist of key scientific publications.

Prerequisite: Minimum GPA of 5.0 and COMPSCI 110, 120, 130

15 Points

Special Topic

Stage III

COMPSCI 290

15 Points

COMPSCI 313
Cyber Security
Introduces various concepts related to software, system and network security. Covers a range of topics including attacks on privacy and attack surface, static and dynamic analysis of malware, hardware security (trusted computing base, secure boot, and attestation), network security and some hot topics in cryptography including elliptic curve, blockchain and bitcoin.

Prerequisite: COMPSCI 210, 215 or COMPSCI 304

15 Points

COMPSCI 315
Data Communications Technologies
The structure of data communications and networks, including the internet, covering all levels of the communications architecture. The layerd protocol model, data transmission and coding, link-level and local area network protocols, wide-area internet working, routing, transport and security protocols. Basic application protocols as the foundation for distributed computing.

Prerequisite: COMPSCI 210, PHYSICS 140

Restriction: SOFTENG 363, COMPSCI 304

15 Points

COMPSCI 316
Applied Algorithmics
Fundamental design techniques used for efficient algorithmic problem-solving and software development. Methods that yield algorithms that are both provably correct and efficient. Efficiency of algorithms to provide a basis for deciding which algorithm is best for the job. Limits on the power of computers and the theory of NP-completeness. An introduction to methods whose correctness or performance is not guaranteed.

Prerequisite: COMPSCI 220, and COMPSCI 225 or MATHS 254

15 Points
COMPSCI 321
Large-Scale Software Development
15 Points
Students will understand how to develop large-scale software systems, and learn about the issues associated with large-scale software systems and techniques for addressing them.
Prerequisite: COMPSCI 230, 235
Restriction: SOFTENG 225

COMPSCI 335
Web Programming and Distributed Services
15 Points
Covers web programming concepts, with applications to data integration from heterogeneous and asynchronous collections. Building web and cloud clients and services, with emphasis on high-level declarative and functional techniques. Dynamic web applications. Security and performance as overarching factors of web application development.
Prerequisite: COMPSCI 230 and 15 points at Stage II in Computer Science, or SOFTENG 281

COMPSCI 340
Operating Systems
15 Points
Prerequisite: COMPSCI 210, 230
Restriction: SOFTENG 370

COMPSCI 345
Human-computer Interaction
15 Points
Human behaviour and humans' expectations of computers. Computer interfaces and the interaction between humans and computers. The significance of the user interface, interface design and user centred design process in software development. Interface usability evaluation methodologies and practice. Includes a group development and evaluation project using current implementation techniques and tools.
Prerequisite: COMPSCI 230 or SOFTENG 206
Restriction: SOFTENG 350

COMPSCI 350
Mathematical Foundations of Computer Science
15 Points
The aim of this course is to present mathematical models for programming languages and computation, and derive some theorems regarding what can and cannot be computed. Abstract programming languages (finite automata, context-free grammars, Turing and register machines) are studied. Basic concepts for programming languages, limits on computational power and algorithmic complexity are presented. Church-Turing thesis and quantum computing are briefly and critically discussed.
Prerequisite: COMPSCI 220 or PHIL 222, and COMPSCI 225 or MATHS 254

COMPSCI 351
Fundamentals of Database Systems
15 Points
Database principles. Relational model, Relational Algebra, Relational Calculus, SQL, SQL and Programming Languages, Entity Relationship Model, Normalisation, Query Processing and Query Optimisation, ACID Transactions, Transaction Isolation Levels, Database Recovery, Database Security, Databases and XML.
Prerequisite: COMPSCI 220, and COMPSCI 225 or MATHS 254
Restriction: COMPSCI 751, SOFTENG 351

COMPSCI 361
Machine Learning
15 Points
Machine learning is a branch of artificial intelligence concerned with making accurate, interpretable, computationally efficient, and robust inferences from data to solve a given problem. Understand the foundations of machine learning, and introduce practical skills to solve different problems.
Prerequisite: COMPSCI 220, and 15 points from DATASCI 100, STATS 101, 108, and 15 points from COMPSCI 225, MATHS 254, 255
Restriction: COMPSCI 762

COMPSCI 367
Artificial Intelligence
15 Points
Covers algorithms and representational schemes used in artificial intelligence. AI search techniques (e.g., heuristic search, constraint satisfaction, etc.) for solving both optimal and satisficing tasks. Tasks such as game playing (adversarial search), planning, and natural language processing. Discusses and examines the history and future of AI and the ethics surrounding the use of AI in society.
Prerequisite: COMPSCI 220 and COMPSCI 225 or MATHS 254, or SOFTENG 282 and 284
Restriction: COMPSCI 761

COMPSCI 369
Computational Methods in Interdisciplinary Science
15 Points
Many sciences use computational methods that involve the development and application of computer algorithms and software to answer scientific questions. This course looks at how to tackle these interdisciplinary problems through methods like probabilistic computer modelling, computer-based statistical inference, and computer simulations. The material is largely motivated by the life sciences but also uses examples from other sciences. It focuses on modelling and analysing real-world data with an emphasis on analysing DNA sequence data. No background in physical or life sciences is assumed.
Prerequisite: COMPSCI 220, and COMPSCI 225 or MATHS 254

COMPSCI 372
Computer Graphics and Image Processing
15 Points
Basic geometric processes including transformations; viewing and projection; back projection and ray tracing. Graphics modelling concepts: primitives, surfaces, and scene graphs, lighting and shading, texture mapping, and curve and surface design. Graphics and image processing fundamentals: image definition and representation, perception and colour models, grey level and colour enhancement, neighbourhood operations and filtering. Use of the OpenGL graphics pipeline.
Prerequisite: COMPSCI 210, 230, or COMPSYS 201 and SOFTENG 281
Restriction: COMPSCI 771

COMPSCI 380
Project in Computer Science
15 Points
Each student taking one of these courses will be expected to do an individual practical project under the supervision of a member of staff. Only students with excellent academic records will be allowed to take these courses, and only
after a supervisor and topic have been agreed upon by the Head of Department.

**Prerequisite:** Approval of Academic Head or nominee

**Restriction:** COMPSCI 690

To complete this course students must enrol in COMPSCI 380 A and B, or COMPSCI 380

**COMPSCI 389**

**Research Methods in Computer Science**

An overview of research methods and techniques used across the discipline of Computer Science, including formal proof techniques and empirical methods that involve quantitative and/or qualitative data. Students will be expected to apply the research methods in a collaborative research project.

**Prerequisite:** GPA of 5.0 or higher and COMPSCI 289 and 30 points at Stage II in Computer Science

**COMPSCI 390**

**Special Topic**

**COMPSCI 391**

**Special Topic**

**COMPSCI 392**

**Special Topic**

**COMPSCI 393**

**Special Topic**

**COMPSCI 399**

**Capstone: Computer Science**

Students work in small groups to complete a substantial problem applying the knowledge learnt from the different courses in the Computer Science major. Teams are expected to reason on a problem, devise a solution, produce an artefact and present their work. The capstone provides an opportunity for students to further develop their technical and communication skills.

**Prerequisite:** 30 points at Stage III in Computer Science and COMPSCI 210, 220, 230

---

**Diploma Courses**

**COMPSCI 601**

**Special Topic**

**Prerequisite:** Approval of the Academic Head or nominee

**COMPSCI 690A**

**15 Points**

**COMPSCI 690B**

**15 Points**

**Graduate Diploma Research Project**

**Restriction:** COMPSCI 380

To complete this course students must enrol in COMPSCI 690 A and B

**COMPSCI 691A**

**15 Points**

**COMPSCI 691B**

**15 Points**

**Postgraduate Diploma Research Project**

**Restriction:** COMPSCI 780

To complete this course students must enrol in COMPSCI 691 A and B

---

**Postgraduate 700 Level Courses**

**COMPSCI 700**

**Special Topic**

**COMPSCI 701**

**Creating Maintainable Software**

Developing maintainable software has been an ongoing challenge in the software industry. This course presents the principles and practices that have been proposed for developing maintainable software systems. It will evaluate and critique these principles and practices through examining their application in practice and through understanding the research on their effectiveness.

**Prerequisite:** Approval of the Academic Head or nominee

---

**COMPSCI 702**

**15 Points**

**Security for Smart-devices**

Covers security features supported by the different platforms for smart devices. Provides an overview of the most popular OS platforms in the market and focuses on security for Android and iOS. Recommended preparation: COMPSCI 340

**COMPSCI 703**

**15 Points**

**Generalising Artificial Intelligence**

AI deep learning has significantly advanced image understanding, language modelling, speech recognition, game playing, and more. These developments enable near-human capabilities in text and image generation. Explores highly specialised knowledge in planning, reasoning, explanation, natural language understanding, and knowledge acquisition, and assess their contribution to highly competent, general AI systems. Includes a significant individual research project.

**Prerequisite:** 15 points from COMPSCI 361, 367, 761, 762, or COMPSCI 713 and 714

**COMPSCI 704**

**Special Topic**

**Prerequisite:** Approval of the Academic Head or nominee

**COMPSCI 705**

**15 Points**

**Advanced Topics in Human Computer Interaction**

Human aspects of computer systems, relevant to commercial solution development and computer science research. Sample topics: advanced evaluation methods; support of pen and touch-based interaction; trends with domain specific user interface design, such as interfaces for enterprise systems. Recommended preparation: COMPSCI 345 or SOFTENG 350.

**Restriction:** SOFTENG 702

**COMPSCI 706**

**Special Topic**

**Prerequisite:** Approval of the Academic Head or nominee

**COMPSCI 707**

**Special Topic**

**Prerequisite:** Approval of the Academic Head or nominee

**COMPSCI 710**

**Directed Study**

**Prerequisite:** Approval of the Academic Head or nominee

**COMPSCI 711**

**15 Points**

**Parallel and Distributed Computing**

Computer architectures and languages for exploring parallelism, conceptual models of parallelism, principles for programming in a parallel environment, different models to achieve interprocess communication, concurrency control, distributed algorithms and fault tolerance.

**Prerequisite:** COMPSCI 320 or 335

**COMPSCI 712**

**AI Agency, Ethics and Society**

Introduces students to a range of philosophical and normative topics relating to artificial intelligence. Examines key ideas of intelligence, privacy, consent, and discusses other ethical issues that arise in the development and use of AI. The importance of Māori rights and interests in AI and data are explored. Possible approaches to addressing these various concerns are considered.

<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPSCI 713</td>
<td><strong>AI Fundamentals</strong></td>
<td>15</td>
<td>Examines the core concepts and techniques in AI, including breakthroughs in symbolic AI, machine learning, and neural networks. Real-world applications are presented, with a focus on AI research in Aotearoa/NZ and ethical considerations. The course is designed to be accessible to students with limited programming experience.</td>
</tr>
<tr>
<td>COMPSCI 714</td>
<td><strong>AI Architecture and Design</strong></td>
<td>15</td>
<td>Equips students with the ability to develop AI applications by introducing well-established AI frameworks and using web-based interactive computing platforms. Students will acquire the skills to implement simple AI techniques using these frameworks and evaluate their performance. Introduces basic practical technologies to investigate artificial intelligence techniques.</td>
</tr>
<tr>
<td>COMPSCI 715</td>
<td><strong>Advanced Computer Graphics</strong></td>
<td>15</td>
<td>An advanced look at current research issues in computer graphics. Typical topics include: ray-tracing acceleration methods; radiosity; subdivision surfaces; physically-based modelling; animation; image-based lighting and rendering; non-photorealistic rendering; advanced texturing. Recommended preparation: COMPSCI 373. Prerequisite: Approval of the Academic Head or nominee.</td>
</tr>
<tr>
<td>COMPSCI 717</td>
<td><strong>Fundamentals of Algorithmics</strong></td>
<td>30</td>
<td>Fundamental techniques are covered for the design of algorithms such as greedy algorithms, divide-and-conquer, and dynamic programming. Data structures are explored that help implement algorithms. Essential tools are taught for analysing algorithms, for example worst- and average-case analyses of space and time. Recommended preparation: COMPSCI 120, 130. Restriction: COMPSCI 220, 320, SOFTENG 250, 284.</td>
</tr>
<tr>
<td>COMPSCI 718</td>
<td><strong>Programming for Industry</strong></td>
<td>30</td>
<td>An examination of object-oriented programming and design. Key principles of object-oriented programming: typing, encapsulation, inheritance, polymorphism and composition. Fundamental object-oriented modelling and design techniques. Students will develop application software of reasonable complexity that draws on object-oriented language features, and contemporary APIs, frameworks and tools.</td>
</tr>
<tr>
<td>COMPSCI 719</td>
<td><strong>Programming with Web Technologies</strong></td>
<td>30</td>
<td>An examination of developing web-based applications. Client-side technologies: HTML, CSS and Javascript. Server-side technologies to support dynamic Web pages and data access. Fundamental relational database concepts and design techniques. Principles of Web-application design. HCI considerations and mobile clients. Students will build a Web-based application that dynamically generates content involving relational database access.</td>
</tr>
<tr>
<td>COMPSCI 720</td>
<td><strong>Advanced Design and Analysis of Algorithms</strong></td>
<td>15</td>
<td>Selected advanced topics in design and analysis of algorithms, such as: combinatorial enumeration algorithms; advanced graph algorithms; analytic and probabilistic methods in the analysis of algorithms; randomised algorithms; methods for attacking NP-hard problems. Recommended preparation: COMPSCI 320.</td>
</tr>
<tr>
<td>COMPSCI 725</td>
<td><strong>Usable Security and Privacy Engineering</strong></td>
<td>15</td>
<td>The human aspect of cyber security and privacy engineering is relevant to commercial solution development and cyber security and privacy research. Sample topics: secure systems design; usable security systems evaluation; privacy-preserving software systems; threat modelling; economics of usable security and privacy; OWASP Top 10 vulnerabilities. Recommended preparation: 30 points from COMPSCI 313, 314, 320, 335, 340, 351, 702, 734, 742.</td>
</tr>
<tr>
<td>COMPSCI 726</td>
<td><strong>Network Defence and Countermeasures</strong></td>
<td>15</td>
<td>Focuses on the use and deployment of protective systems used in securing internal and external networks. Examines in detail the widely used protocols including SSL, IPSec, DNSSEC as well as covers infrastructure platform protocols including wireless security (IEEE 802.11). Explores current research and developments in the area of network defence and countermeasures. Recommended preparation: COMPSCI 314, 315.</td>
</tr>
<tr>
<td>COMPSCI 727</td>
<td><strong>Cryptographic Management</strong></td>
<td>15</td>
<td>Focuses on cryptographic systems used in securing communications and data storage. Provides an overview of encryption algorithms including symmetric key cryptography, public key infrastructure, digital signatures and certificate technologies. The course covers management issues related to cryptography and explores current research and developments in this area. Recommended preparation: COMPSCI 210 or MATHS 120.</td>
</tr>
<tr>
<td>COMPSCI 732</td>
<td><strong>Software Tools and Techniques</strong></td>
<td>15</td>
<td>An advanced course examining research issues related to tools and techniques for software design and development. Topics include: techniques for data mapping and data integration, software architectures for developing software tools, issues in advanced database systems. Recommended preparation: COMPSCI 331 or SOFTENG 325 or COMPSCI 718 and 719. Restriction: SOFTENG 750.</td>
</tr>
<tr>
<td>COMPSCI 734</td>
<td><strong>Web, Mobile and Enterprise Computing</strong></td>
<td>15</td>
<td>Examines advanced and emerging software architectures at the confluence of XML, web services, distributed systems, and databases. Includes advanced topics in areas such as: mobile computing, remoting, web services for enterprise integration, workflow orchestrations for the enterprise, peer-to-peer computing, grid computing. Recommended preparation: COMPSCI 335 or 718.</td>
</tr>

| COMPSCI 747 | **Computing Education**                   | 15     | An overview of topics related to the use of technology in education and how people learn computer science concepts. Topics include research methodologies used in computer science education, how novices learn to program, and how technology can engage students in active learning, facilitate collaboration and enhance traditional educational
practice. Recommended preparation: 30 points at Stage III in Computer Science or COMPSCI 718

COMPSCI 750

Computational Complexity
Definitions of computational models and complexity classes: time complexity (e.g., P and NP), space complexity (e.g., L and PSPACE), circuit and parallel complexity (NC), polynomial-time hierarchy (PH), interactive complexity (IP), probabilistic complexity (BPP), and fixed-parameter complexity. Recommended preparation: COMPSCI 320 or 350

COMPSCI 751

Advanced Topics in Database Systems
Database principles. Relational model, relational algebra, relational calculus, SQL and programming languages, entity-relationship model, normalisation, query processing and query optimisation, ACID transactions, transaction isolation levels, database recovery, database security, databases and XML. Research frontiers in database systems. Recommended preparation: COMPSCI 220, 225 or COMPSCI 718
Restriction: COMPSCI 351, SOFTENG 351

COMPSCI 752

Big Data Management
The deep diversity of modern-day data from many companies requires data scientists to master many technologies that rely on new principles to represent, describe, access, and analyse data. The course will provide insight into the rich landscape of big data modelling, management, and analysis in distributed and heterogeneous environments. Recommended preparation: COMPSCI 220, 351

COMPSCI 753

Algorithms for Massive Data
Modern enterprises and applications such as electronic commerce, social networks, location services, and scientific databases are generating data on a massive scale. Analysis of such data must be carried out by scalable algorithms. This course exposes data science practitioners and researchers to various advanced algorithms for processing and mining massive data, and explores best-practices and state-of-the-art developments in big data. Recommended preparation: COMPSCI 320

COMPSCI 760

Advanced Topics in Machine Learning
An overview of the learning problem and the view of learning by search. Covers advanced techniques for learning such as: decision tree learning, rule learning, exhaustive learning, Bayesian learning, genetic algorithms, reinforcement learning, neural networks, explanation-based learning and inductive logic programming. Advanced experimental methods necessary for understanding machine learning research.
Prerequisite: COMPSCI 361 or 762

COMPSCI 761

Advanced Topics in Artificial Intelligence
Examines the cornerstones of AI: representation, utilisation, and acquisition of knowledge. Taking a real-world problem and representing it in a computer so that the computer can do inference. Utilising this knowledge and acquiring new knowledge is done by search which is the main technique behind planning and machine learning. Research frontiers in artificial intelligence.
Prerequisite: COMPSCI 220 and 225, or COMPSCI 220 and MATHS 254, or COMPSCI 713 and 714, or COMPSCI 718
Restriction: COMPSCI 367

COMPSCI 762

Foundations of Machine Learning
Machine learning is a branch of artificial intelligence concerned with making accurate, interpretable, computationally efficient, and robust inferences from data to solve a given problem. Students will be introduced to the foundations of machine learning and will gain practical skills to solve different problems. Students will explore research frontiers in machine learning.
Prerequisite: COMPSCI 713 and 714, or COMPSCI 718, or 15 points from DATASCI 100, STATS 101, 108 and COMPSCI 220 or 717 and COMPSCI 225 or MATHS 254
Restriction: COMPSCI 361

COMPSCI 764

Deep Learning - Level 9
Critically analyses the fundamentals of deep neural networks alongside current state-of-the-art advancements in this field. Students will acquire specialised knowledge in state-of-the-art deep learning architectures and gain the ability to apply deep learning in various fields, including natural language processing and computer vision. Includes a significant individual research project.
Prerequisite: COMPSCI 361 or 762, or COMPSCI 713 and 714

COMPSCI 765

Modelling Minds
How can researchers of artificial intelligence effectively model subjective aspects of minds, such as emotional states, desires, perceptual experience and intrinsic goals? This course draws upon interdisciplinary methods and considers classic and emerging approaches to try to answer this question. Recommended preparation: COMPSCI 367

COMPSCI 767

Intelligent Software Agents
An introduction to the design, implementation and use of intelligent software agents (e.g., knowbots, softbots etc). Reviews standard artificial intelligence problem-solving paradigms (e.g., planning and expert systems) and knowledge representation formalisms (e.g., logic and semantic nets). Surveys agent architectures and multi-agent frameworks.
Prerequisite: COMPSCI 367 or 762, or COMPSCI 713 and 714

COMPSCI 769

Natural Language Processing - Level 9
Examines the progress in enabling AI systems to use natural language for communication and knowledge storage. Explores knowledge formalisation, storage, multiple knowledge systems, theory formation, and the roles and risks of belief, explanation, and argumentation in AI. Includes a significant individual research project.
Prerequisite: COMPSCI 361 or 762, or COMPSCI 713 and 714

COMPSCI 771

Advanced Topics in Computer Graphics and Image Processing
Basic geometric processes including transformations; viewing and projection; back projection and ray tracing. Graphics modelling concepts: primitives, surfaces, and scene graphs, lighting and shading, texture mapping, and curve and surface design. Graphics and image processing fundamentals: image definition and representation, perception and colour models, grey level and colour
enhancement, neighbourhood operations and filtering. Use of the OpenGL graphics pipeline. Research frontiers in computer graphics and image processing. Recommended preparation: COMPSCI 210, 230
Restriction: COMPSCI 373

Postgraduate 700 Level Courses

DATASCI 709 30 Points
Data Management

Data management is the practice of collecting, preparing, organising, storing, and processing data so it can be analysed for business decisions. The course will use R and SQL to illustrate the process of data management. This will include principles and best practice in data wrangling, visualisation, modelling, querying, and updating.

Prerequisite: COMPSCI 130, MATHS 108, and 15 points from STATS 101, 108, or equivalent
Restriction: COMPSCI 351, 751, STATS 383, 707, 765

DATASCI 792 45 Points
DATASCI 792A 15 Points
DATASCI 792B 30 Points
Dissertation - Level 9
To complete this course students must enrol in DATASCI 792 A, B, or C, or DATASCI 792

Earth Sciences

Stage I

EARTHSCI 105 15 Points
EARTHSCI 105G 15 Points

Earth's Natural Hazards

New Zealand experiences many natural hazards caused by the Earth's natural processes through earthquakes, volcanic eruptions, weather storms, storm surge, tsunami, flooding and wildfires. Focuses on spatial and temporal occurrences of hazards, hazard preparedness and recovery, and societal responses that affect and, sometimes, compound the magnitude of disasters. Case studies are drawn from contemporary and ancient societies.

EARTHSCI 120 15 Points

Planet Earth

Examination of geologic processes that have shaped Earth and life through time, and their impact on modern society. Topics include: earthquakes, plate tectonics, volcanic eruptions, tsunamis, landslides, meteorites and planets, mass extinctions and evolution of life. A practical introduction to rocks, minerals and fossils provides insights into Earth's past and important modern resources.

Restriction: EARTHSCI 103

Stage II

EARTHSCI 202 15 Points

Earth History

Explores the evolution of the Earth from its molten beginnings to the dynamic planet we live on today. Topics include: stratigraphy (litho-, bio-, cyclo-, magneto-); evolution; paleoecology; Precambrian Earth (formation, first continents and beginnings of life); development of the Earth and life through the Phanerozoic Eon. Knowledge of geological mapping equivalent to EARTHSCI 201 or 220 will be assumed.

Prerequisite: 75 points, including at least 15 points from EARTHSCI 103, 120

EARTHSCI 203 15 Points

Rock and Minerals

The formation of igneous, metamorphic and sedimentary rocks, the minerals they contain, and how they can be used to interpret major Earth Science processes such as crustal evolution, volcanism, mountain building, deformation, and sedimentation.

Prerequisite: 15 points from EARTHSCI 103, 120

EARTHSCI 205 15 Points
EARTHSCI 205G 15 Points

New Zealand: Half a Billion Years on the Edge

Take a 500 million year journey through time following the geologic and biologic development of New Zealand from humble beginnings on the edge of the ancient supercontinent Gondwana to the present day geologically dynamic land mass beset by volcanic eruptions, earthquakes and massive erosion as a consequence of being located on the edge of the Earth's largest tectonic plate.

Prerequisite: 75 points passed

EARTHSCI 208 15 Points

Earth Structure

A foundation course that introduces students to descriptive and analytical methods in structural geology. Geological maps are used to help students analyse structural features (e.g., folds, faults, contacts). On completion of this course, students should be able to interpret geological maps, construct cross-sections, and synthesise analytical results into a structural history.

Prerequisite: 15 points at Stage I in Earth Sciences
Restriction: EARTHSCI 204

EARTHSCI 209 15 Points

Special Topic

EARTHSCI 220 15 Points

Practice in Earth Sciences 1

A practical and field based course that introduces and develops theory and work flows to enable students to read, document and interpret landforms and landscapes in 4-D. Students will be required to participate in a residential field experience and undertake independent field work.

Prerequisite: 15 points from EARTHSCI 120, GEOG 101
Restriction: EARTHSCI 201, 260

Stage III

EARTHSCI 303 15 Points

Sedimentary Systems

An advanced course that critically examines ancient and contemporary sedimentary systems. State of the art techniques and technologies (sedimentology, geomorphology, modelling) are used to examine the physical and biological processes in freshwater and marine environments. The application of sedimentary systems in the context of Earth's resources and the current energy transition are highlighted.

EARTHSCI 307 15 Points

Earth's Changing Climate

An exploration of long-term climatic and environmental variability from deep time to the present - all placed in the context of our warming world. Emphasis is on the nature and drivers of climate change, and the tools used for analysis of past climate impacts on Earth landscapes, the hydrosphere and the biosphere.

Prerequisite: 45 points at Stage II, including 15 points from EARTHSCI 201, 202, 220, GEOG 260-263, or equivalent

EARTHSCI 308 15 Points

Tectonic and Magmatic Systems

Explores the tectonic and magmatic evolution of Earth and planetary systems, including their formation, composition, and how they deform. Students are exposed to seminal
Students will undertake an independent research project of skills, as practised in research and industry careers. Conducting an Earth Science investigation involving a range of topics, including landslides, dewatering, geochemistry, sedimentology, structural geology, and geophysics. Activities focus around a residential geological field-trip, where students develop advanced quantitative field skills in geologically diverse settings, and provide a report synthesising and interpreting their collected data. 

**Prerequisite:** EARTHSCI 220, 30 points from EARTHSCI 202, 203, 208, 262 and a Grade Point Average of 5.0 or higher

**Special Topic**

**EARTHSCI 309**

**15 Points**

**Analytical Skills in Geology**

A laboratory and field-based course expanding a student’s ability to collect, synthesise and analyse the range of datasets encountered in Earth Sciences, in disciplines such as geochemistry, sedimentology, structural geology and geophysics. Activities focus around a residential geological field-trip, where students develop advanced quantitative field skills in geologically diverse settings, and provide a report synthesising and interpreting their collected data. 

**Prerequisite:** EARTHSCI 220, 30 points from EARTHSCI 202, 203, 208, 262 and a Grade Point Average of 5.0 or higher

**EARTHSCI 315**

**15 Points**

**Practice in Earth Sciences 2**

A practical and field based course that embeds theory and work flows to enable students to read, document and interpret complex and vulnerable landforms and landscapes in 4-D. Students will be required to participate in a residential field experience and undertake independent field work.

**Prerequisite:** EARTHSCI 220

**Restriction:** EARTHSCI 301, GEOG 330

**EARTHSCI 320**

**15 Points**

**Imaging the Subsurface**

Geophysical imaging of the subsurface utilises contrasting rock and fluid properties. Applications include environmental, engineering, resource, hazard, and tectonic studies. Students will acquire and interpret geophysical data by attending a one-day field trip and through laboratory sessions.

**Prerequisite:** 15 points at Stage II in Earth Sciences, Environmental Physics, Geophysics

**Restriction:** GEOLOGY 361, GEOPHYS 361

**EARTHSCI 361**

**15 Points**

**Engineering Geology**

An integration of quantitative and qualitative concepts in geology as applied to engineering projects. Fundamentals of soil and rock mechanics will be introduced. Topics covered in the course include landslides, dewatering schemes, contaminant transport, foundations, mines (open-pit and underground), dams, tunnels, urban geology, and transportation infrastructures. Case studies are used in lectures to demonstrate the importance of geology and water to engineering projects. Fieldwork is required.

**Prerequisite:** CIVIL 220 or EARTHSCI 201 or 220 or GEOLOGY 201, and 30 points from EARTHSCI 201-263, GEOG 260-263, GEOLOGY 202-205

**Restriction:** CIVIL 726, GEOLOGY 372

**EARTHSCI 372**

**15 Points**

**Directed Study**

**Prerequisite:** Permission of Academic Head

**EARTHSCI 390**

**15 Points**

**Capstone: Earth Sciences**

Conducting an Earth Science investigation involving a range of skills, as practised in research and industry careers. Students will undertake an independent research project involving field, desktop and/or laboratory work, and communicate the results in written and oral formats. Skills gained include ability to design a research project, collect and analyse qualitative and quantitative Earth Science data, and research communication. 

**Prerequisite:** 30 points at Stage III in Earth Sciences

**Postgraduate 700 Level Courses**

**EARTHSCI 703**

**15 Points**

**Hydrothermal Systems**

Active hydrothermal systems are dynamic and significant to national energy requirements, hazards assessment and understanding planetary evolution. Geologic, hydrologic, and geochronological features of hydrothermal systems are considered with an emphasis on hydrothermal systems, sustainable geothermal energy extraction, mechanisms underpinning hydrothermal eruptions, and the potential role of hydrothermal systems in origin of/early life scenarios and the search for extra-terrestrial life.

**EARTHSCI 704**

**15 Points**

**Directed Study in Earth Sciences**

**Prerequisite:** Head of School approval

**EARTHSCI 705**

**15 Points**

**Geohazards**

Contemporary methods used to identify and assess natural hazards, techniques used for the probabilistic forecasting, spatial representation and communication of hazards. How the relationship between hazard information, risk mitigation and emergency management is addressed. There will be a strong focus on the use of case studies.

**EARTHSCI 709**

**15 Points**

**Special Topic**

**EARTHSCI 714**

**15 Points**

**Faults and Fluids**

Fault-fluid interaction is critical in earthquake dynamics and hydrothermal systems that have implications for geothermal energy, ore mineralisation and, via hydrothermal alteration, land stability. We will explore the fundamentals of these interactions and their relevance to hazard and resource challenges of society today. This course will be anchored by a strong in-person field component.

**Restriction:** EARTHSCI 706

**EARTHSCI 720**

**15 Points**

**Environmental Geochronology**

Provides a broad overview of applications of geochronology across multiple disciplines. In addition, this course will help determine the suitability of different analytical techniques to different problems while providing practical experience in collecting and evaluating geochemical data. Subject areas are wide-reaching and include, geology, environmental science, biology, archaeology, and forensic sciences. No formal prerequisite but knowledge of introductory chemistry will be assumed.

**EARTHSCI 732**

**15 Points**

**Exploring Environmental Change**

Sedimentary and biological records show that extreme, rapid and short-lived climatic and environmental changes occurred in the past. Case studies are used to introduce the tools used to identify and interpret abrupt environmental changes during the Last Glacial Period and Holocene that may have implications for the present and our future.
EARTHSCI 752 15 Points
Volcanoes
Volcanoes were an important part in the formation of Earth's crust and atmosphere and influenced the evolution of life. Today, volcanoes play an important role in society from hazards and resources to recreation. This course covers how and why volcanoes erupt from magma processes in the mantle to eruption at the surface.

EARTHSCI 754 15 Points
Integrated Sedimentology and Tectonics
Develops an advanced and practical understanding of how sedimentary and tectonic processes relate to one another. Case studies, field work, guest lectures and discussions will allow critical examination of the latest research into the dynamics of tectonic and sedimentary environments.

EARTHSCI 770 15 Points
Engineering Geological Mapping
A field-based course which provides hands-on experience in outcrop mapping, geomorphic mapping, and simple field testing of rocks and soils for geotechnical purposes.

EARTHSCI 771 15 Points
Advanced Engineering Geology
Advanced engineering geology focused on engineering practice. Interpretation of in-situ testing and laboratory test data (including groundwater) for the derivation of design parameters for input into numerical modeling software. The topics covered include, but are not limited to, design and analysis of site investigation, advanced core logging, slope stability analysis, rock fall assessment, introduction to numerical modeling, liquefaction and seismic hazard assessment for engineering design.

EARTHSCI 772 15 Points
Hydrogeology
Introduces aquifers and aquifer properties; the various processes and techniques utilised in the discovery, development and assessment of groundwater resources; groundwater in construction; groundwater contamination.

EARTHSCI 785 60 Points
EARTHSCI 785A 30 Points
EARTHSCI 785B 30 Points
BAdvSci(Hons) Dissertation in Geology - Level 9
Prerequisite: Approval of Programme Director or Major/Specialisation Lead
To complete this course students must enrol in EARTHSCI 785 A and B, or EARTHSCI 785

EARTHSCI 789 30 Points
EARTHSCI 789A 15 Points
EARTHSCI 789B 15 Points
Honours Research Project - Level 9
To complete this course students must enrol in EARTHSCI 789 A and B, or EARTHSCI 789

EARTHSCI 794A 30 Points
EARTHSCI 794B 60 Points
Thesis in Engineering Geology - Level 9
To complete this course students must enrol in EARTHSCI 794 A and B

EARTHSCI 796A 60 Points
EARTHSCI 796B 60 Points
MSc Thesis in Earth Sciences - Level 9
To complete this course students must enrol in EARTHSCI 796 A and B

Ecology

Stage III

ECOLOG 301 15 Points
Advanced Research Skills in Ecology
Research design and associated methods from the component fields of ecology. A series of field trips to differing habitats are a central component of the course. During these trips students will be supervised in small groups and apply selected research methods and techniques to complete a research project.
Prerequisite: BIOSCI 206

Postgraduate 700 Level Courses

ECOLOG 789 60 Points
ECOLOG 789A 30 Points
ECOLOG 789B 30 Points
Dissertation - Level 9
Prerequisite: 15 points from BIOSCI 761, 762, ENVSCI 701
To complete this course students must enrol in ECOLOG 789 A and B, or ECOLOG 789

Environmental Change

Stage III

ENVCHG 300 15 Points
Environmental Change
An exploration of the nature and causes of change in the physical environment, including: natural processes driving environmental change and variability; humans as agents of change; and biophysical and societal sensitivity to change. Past, present and future interactions between society and environmental change with examples drawn from climatology and ecology. Principles of scientific writing and communication will also be addressed.
Prerequisite: Approval of Programme Director or Major/Specialisation Lead
Restriction: GEOG 334

Postgraduate 700 Level Courses

ENVCHG 789 60 Points
ENVCHG 789A 30 Points
ENVCHG 789B 30 Points
BAdvSci(Hons) Dissertation in Environmental Change - Level 9
Prerequisite: Programme Coordinator approval
To complete this course students must enrol in ENVCHG 789 A and B, or ENVCHG 789

Environmental Management

Postgraduate 700 Level Courses

ENVMGT 701 15 Points
Environmental Management in Practice - Level 9
Research and practice in Environmental Management. Students will explore alternative perspectives and methodologies applied in environmental management and develop a research proposal that includes a critical review of a contemporary practice.

ENVMGT 741 15 Points
Social Change for Sustainability
Explores the concept of sustainability through different theoretical frameworks and how social and environmental
movements have mobilised around this concept over time. Critically interrogates what is sustainable, what is social change, and how can social change be sustainable in a global economy. Draws on case studies of current environmental issues and associated popular social movements.

**ENVMGT 742** 15 Points  
**Social Dimensions of Global Environmental Change**  
An examination of the social dimensions of global environmental change. This includes a review of the history of climate science, the interaction of science with other knowledges, and contemporary debates surrounding climate change as well as other forms of environmental change. It also examines the different ways in which people respond to environmental risks and changes, and the challenges associated with mitigation and adaptation policies.

**ENVMGT 743** 15 Points  
**Environmental Policy**  
Debates surrounding environmental policy and governance provide insights into the complexities of environmental management issues. Examples of environmental governance will be considered at global and local scales. The roles of international agencies, nation-states, civil society and corporations in shaping environmental policy and governance are examined.

**ENVMGT 744** 15 Points  
**Resource Management**  
A review of advanced principles, concepts and approaches to the sustainable management of natural resources. Case studies emphasise the need for conflict resolution, equitable allocation, and decentralised decision-making to address the social and environmental impacts of resource utilisation.

**ENVMGT 746** 15 Points  
**Collaborative Environmental Management**  
An exploration of participatory management and its potential for engaging communities, resource users and stakeholders in the pursuit of sustainable development. Students will examine strategies for incorporating local knowledge within conservation practices and for reconciling natural resource management with human welfare, social justice and indigenous rights.

**ENVMGT 748** 15 Points  
**Coastal Management**  
Explores the physical, social and policy dimensions of coastal management. The nature of coastal environments is a function of physical coastal dynamics, the history of human occupation and utilisation of the coast, and governmental decision making. Discusses shifts in management approaches in the coastal environment, using national and international examples to highlight key coastal management issues.

**ENVMGT 749** 15 Points  
**Ethical Environmental Futures**  
We face urgent environmental challenges that require innovative responses to affect better environmental futures. This course will analyse environmental uncertainty and its implications; examine the interface between environmental technologies and society; consider environmental responsibilities, values and ethics; and situate environmental solutions within their wider sociopolitical and economic context. Students will engage with strategies to achieve sustainable and just outcomes.

**ENVMGT 750** 15 Points  
**Special Topic**

**ENVMGT 751** 15 Points  
**River Management**  
Explores biophysical, socio-economic, cultural and institutional dimensions of river management, contextualising the situation in Aotearoa New Zealand in global terms. A proactive and precautionary approach engages generatively with river futures, scoping sustainable solutions to contemporary environmental problems. Policy, planning and on-the-ground applications are outlined.

**ENVMGT 760** 15 Points  
**Special Topic**

**ENVMGT 761** 15 Points  
**Directed Study**  
Prerequisite: Approval of Programme Director or Major/Specialisation Lead

**ENVMGT 762** 15 Points  
**Directed Study**  
Prerequisite: Approval of Programme Director or Major/Specialisation Lead

**ENVMGT 791** 30 Points  
**Research Project - Level 9**

To complete this course students must enrol in ENVMGT 791 A and B, or ENVMGT 791

**ENVMGT 791A** 15 Points  
**ENVMGT 791B** 15 Points  
**MSc Thesis in Environmental Management - Level 9**

To complete this course students must enrol in ENVMGT 796 A and B

### Environmental Physics

#### Stage I

**ENVPHYS 100** 15 Points  
**ENVPHYS 100G** 15 Points  
**Sun, Sand, Surf: Science of Aotearoa**

The atmosphere, oceans and land make up the dynamic environment of Aotearoa New Zealand. A range of phenomena with natural beauty can be described elegantly with simple scientific laws. This course establishes the physical principles underlying nature, empowering students to explain everyday environmental phenomena. These principles provide the foundation to unravel the science of Earth, climate and environmental change, and energy systems.

#### Stage II

**ENVPHYS 200** 15 Points  
**Earth Observations and Models**

An experiential study of climate and environmental physics. The analysis and modelling of laboratory, field and remote sensing observations to explain the state and behaviour of the atmosphere, oceans and the solid earth. Topics include radiation, cloud and aerosol processes, energy balance, circulations and seismic waves. It develops transferable skills in acquiring measurements, data analytical methods and laboratory techniques.

Prerequisite: 15 points from ENVPHYS 100, PHYSICS 100, 102,
ENVPHYS 300 15 Points
Atmosphere, Ocean and Earth Physics
The physics basis for dynamical behaviours of the atmosphere, ocean and solid earth. Topics include the planetary general circulation, development of storms and convection, emergence of climate states, gravity, magnetism and seismology. An emphasis is placed on the fundamental conservation laws and processes that control geophysical systems.
Prerequisite: PHYSICS 201, and ENVPHYS 200 or GEOPHYS 213, and 15 points from ENGSCI 211, MATHS 253, 260
Restriction: GEOPHYS 310, 311

ENVPHYS 301 15 Points
Special Topic

ENVPHYS 370 15 Points
Directed Study
Prerequisite: Departmental approval

ENVPHYS 399 15 Points
Capstone: Environmental Physics
Students will employ core methodologies (experimental, observational, numerical) to investigate some aspect of climate and environmental systems such as key atmospheric, ocean or solid earth geophysical phenomenon. They will relate their findings to contemporary research in the field, considering wider societal aspects and issues. Students will develop their skills in communication, critical thinking, teaching and creative problem solving.
Prerequisite: ENVPHYS 300
Restriction: EARTHSCI 399, GEOG 399, PHYSICS 399

Postgraduate 700 Level Courses

ENVPHYS 700 15 Points
Frontiers in Climate Science
An up-to-date assessment of the state of the climate system that highlights changes in climate pertinent to future change. Evaluates climate using the latest scientific discoveries, evaluates information from observations and models of past, present and future climate. Leverages findings from scientific synthesis efforts and emphasises understanding Earth's climate as a basis for evaluating impacts of climate on wider environment and society.
Prerequisite: ENVPHYS 300

ENVPHYS 701 15 Points
Atmosphere and Ocean Dynamics
Explores physical processes underlying Earth's climate using observations, modelling and predictions. Spanns geophysical fluid dynamics, Earth's energy budget, the meridional and vertical heat imbalances, and processes linked to seasonal and long-term climate variations and changes. Explores quasi-geostrophic and wave theory to describe general circulation, Hadley and midlatitude circulations in the atmosphere, Sverdrup balance and western boundary currents in the ocean.
Prerequisite: ENVPHYS 300 or 30 points from PHYSICS 201-203, 231, 240, 244, 251, 261
Restriction: GEOPHYS 711

ENVPHYS 702 15 Points
Subsurface Characterisation with Geophysical Methods
Pertains to subsurface characterisation through the inversion of geophysical observations. The course covers a combination of rock physics, seismic methods, ground-penetrating radar, as well as gravity, magnetic and electrical methods.
Prerequisite: 15 points from EARTHSCI 361, ENVPHYS 300, GEOPHYS 310
Restriction: GEOPHYS 761

ENVPHYS 703 15 Points
Special Topic

ENVPHYS 770 15 Points
Directed Study
Prerequisite: Departmental approval

ENVPHYS 780 15 Points
ENVPHYS 780A 15 Points
ENVPHYS 780B 15 Points
Research Project - Level 9
To complete this course students must enrol in ENVPHYS 780 A and B, or ENVPHYS 780

ENVPHYS 796A 60 Points
ENVPHYS 796B 60 Points
Thesis - Level 9
To complete this course students must enrol in ENVPHYS 796 A and B

Environmental Science

Stage I

ENVSCI 101 15 Points
ENVSCI 101G 15 Points
Environment, Science and Management
Explores the science behind key environmental issues to recognise the role environmental science plays in understanding the interaction between humans and the environment. The complexity of environmental problems and the difficult task of integrating science, knowledge and values are discussed.

Stage II

ENVSCI 201 15 Points
Natural and Human Environmental Systems
An examination of current environmental issues in coupled natural and human systems such as urban environments. Interactions among biological, physical and social processes are discussed and means of measuring and managing the environmental outcomes of their interactions are addressed.
Prerequisite: At least 45 points at Stage I

ENVSCI 203 15 Points
Modelling Environmental Systems
An introduction to the philosophy and use of models in the study of a range of environmental systems, including coastal, ecological, fluvial, atmospheric and social. Students will develop skills in designing, communicating and critically assessing models of the environment.
Prerequisite: STATS 101 or 108
Restriction: ENVSCI 310

ENVSCI 204 15 Points
Special Topic
Stage III

ENVSCI 301 15 Points
Environmental Science in Practice
Advances in environmental science, technology, and policy are explored using case studies of global environmental issues and proposed solutions. Students apply environmental science to assess how science is used to inform environmental intervention and policy, and understand environmental responses.
Prerequisite: ENVSCI 201 or equivalent

ENVSCI 303 15 Points
Environmental Science, Risk and Society
An examination of the contemporary topics that shape the ways in which environmental science may be communicated and understood. Topics of discussion include issues of scientific uncertainty, risk communication, public trust and the role of media.

ENVSCI 304 15 Points
Directed Study
Prerequisite: Academic Head approval

ENVSCI 390 15 Points
Directed Study
Prerequisite: Approval of Programme Director or Major/ Specialisation Lead

ENVSCI 399 15 Points
Capstone: Environmental Science
Students will engage with the research process, as practised in environmental science. Independent or small group research projects will be undertaken under the guidance of an academic mentor. Students will design and complete an independent research project and communicate their findings. The emphasis is on research skills and assisting students in developing and implementing their independent academic research project.
Prerequisite: 30 points at Stage III in Environmental Science or 15 points at Stage III in Environmental Science and 15 points from other Stage III courses included in the major

Postgraduate 700 Level Courses

ENVSCI 701 15 Points
Research Practice in Environmental Science
An understanding of research in Environmental Science. Students will be introduced to a range of methodologies and will be challenged to critically analyse information and data. Principles of scientific writing and communication will also be addressed. Students will apply these skills by developing and writing a research proposal or critical review.

ENVSCI 704 15 Points
Modelling of Environmental Systems
The design and application of models for the investigation of environmental problems; understanding the role and utility of modelling in environmental science; the analysis and representation of environmental phenomena. Provides an understanding of modelling concepts, approaches and applications. An understanding of the material in ENVSCI 310, GEOG 250, MATHS 108 and STATS 101 will be assumed.

ENVSCI 705 15 Points
Handling Environmental Data
Contemporary approaches to understanding and analysing environmental data with an emphasis on developing skills to support the ‘transformation, visualisation, modelling’ cycle. The importance of adopting reproducible research practices (eg, data and code archiving) will be emphasised. The course focuses on an applied laboratory component and will be taught in open-source software. Assessment will be via projects analysing environmental data. No formal prerequisites but an understanding of basic statistical methods equivalent to STATS 101 will be presumed.

ENVSCI 706 15 Points
Special Topic

ENVSCI 707 15 Points
Directed Study in Environmental Science
Prerequisite: Approval of Programme Director or Major/ Specialisation Lead

ENVSCI 708 15 Points
Ecosystem Dynamics
Ecosystems have a critical role in regulating climate, soil, water, and air quality. Basic concepts of ecosystem ecology are introduced and the effects of human-induced changes on ecosystem processes are examined. The dynamics of key ecosystem processes (e.g. carbon and water cycling) and their driving factors are investigated. Students will conduct a research project linking theoretical and practical aspects of ecosystem science.

ENVSCI 711 15 Points
Environmental Impact Assessment - Level 9
A focus on the interdisciplinary, scientific assessment of environmental impacts with specific reference to applying this discipline in New Zealand. Methodologies used in the assessment, monitoring and regulation of environmental impacts will be discussed and critically evaluated. The contribution of Environmental Impact Assessment to policy and regulatory decisions in environmental management, including consenting procedures and planning processes and the roles and duties of public and professional participants, will be covered. A key component of the assessment is the preparation of an individual Environmental Impact Assessment report.

ENVSCI 713 15 Points
Air Quality and Atmospheric Processes
Monitoring, modelling and management will be considered with emphasis on air quality standards and guidelines and applications of science and technology to indoor and outdoor air pollution prevention, mitigation and remediation. Case studies and practical work will link the theoretical and practical aspects of air quality science.

ENVSCI 714 15 Points
Environmental Pollution
Contaminants of soil and water emitted by point and non-point sources. Monitoring of legacy and emerging contaminants, and impact assessment. Application of science and technology to pollution prevention, mitigation and remediation.

ENVSCI 716 15 Points
Applied Freshwater Ecology
Applied freshwater management and restoration issues considered in light of general ecological processes in freshwater systems. Contemporary issues in New Zealand and overseas such as eutrophication, invasive species and climate change are considered. Students will be introduced to methods of measuring ecological health of streams and lakes. Field and laboratory experience in data collection and analysis relevant to environmental management.

ENVSCI 734 15 Points
Restoration and Landscape Ecology
Restoration ecology is the scientific study of repairing degraded, damaged or destroyed ecosystems. It is a young
but rapidly growing field that represents fundamental changes in human relationships to nature. Restoration draws on concepts from landscape ecology, and the two disciplines are inextricably linked. The course covers the issues of habitat fragmentation and edge effects in a restoration framework.

**ENSCI 737**
**Applied Terrestrial Ecology**
The dynamics of change in terrestrial ecosystems with a focus on forest and wetland environments. Students will be introduced to methods for vegetation assessment and ecosystem ecology, including multivariate statistical methods. Students are required to participate in a residential field course. No formal prerequisite but a knowledge of ecology equivalent to Stage II, including associated quantitative analysis, is assumed.

**ENSCI 738**
**Water Sensitive Cities**
This course probes experiments with radical urban change to examine the co-constitution of water-society in the pursuit of improved futures. A case study is built around the aspiration to become a Water Sensitive City. Students first employ quantitative methods to design a water sensitive neighbourhood. Students then critique reductionist approaches to becoming sustainable. The aim is to better understand the sustainable city debate and its emerging logics.

**Stage I**

**EXERSCI 103**
**Human Anatomy**
The study of the gross anatomical organisation of the neural, muscular and skeletal systems, with particular reference to the neck, limbs, back and abdominal wall. Practical work includes gross anatomy laboratories and CD-ROM study.

**EXERSCI 105**
**Exercise Prescription**
An introduction to the risks and benefits of exercise, exercise policy and safety, physical fitness testing, guidelines for exercise test administration, principles of exercise prescription, cardiorespiratory and neuromuscular training.

**Stage II**

**EXERSCI 201**
**Exercise Physiology 1**
Introduction to the physiological and biochemical requirements and provision of energy for acute exercise and recovery. A key focus is on the mechanisms involved in physiological system responses to aerobic and anaerobic exercise. Practical experiences will cover experimental and scientific procedures of measuring and reporting on physiological responses to acute exercise. 

**EXERSCI 203**
**Biomechanics 1**
Covers the mechanical basis of human movement, using quantitative and qualitative modelling approaches. Focuses on the analysis of sporting performance, locomotion, and musculoskeletal stress. Practical work explores key techniques in measurement and data analysis of human movement and the forces involved.

**EXERSCI 205**
**Motor Learning**
Introduction to the principles and stages of motor skill acquisition, and their application to sport and exercise. Key concepts include the structure of practice tasks, feedback, individual differences, growth and development, aging, injury, and relationships to the underlying neurobiology. Develops practical skills in the measurement of human motor performance, and in the development and assessment of individualised training programmes to improve skill.

**EXERSCI 206**
**Exercise Nutrition**
A cross-disciplinary focus on nutrition, examining nutritional enhancement of sports performance, diet and physiological function, eating disorders, energy balance,
body composition and the role of diet in growth and exercise.
Prerequisite: 30 points from MEDSCI 100-320 or BSc courses
Restriction: SPORTSCI 206

EXERSCI 207 15 Points
Sport Psychology
An introduction to the study of psychology as it relates
to human behaviour and performance in sport settings.
Key concepts include achievement motivation, individual
differences, performing under pressure, psychological skills
training, team dynamics, and their relationships to human
motor behaviour and performance.
Prerequisite: 45 points passed at Stage I or II
Restriction: EXERSCI 304, SPORTSCI 304

EXERSCI 210 15 Points
Special Topic
EXERSCI 271 15 Points
Advanced Exercise Assessment and Prescription
This theoretical and workplace-based course integrates
behavioural competencies in the application of advanced
physical fitness assessment and design, and implementation
of evidence-based, effective and individualised exercise
programmes for the maintenance of health and physical
fitness in apparently healthy individuals. Supervised
practice of not less than 70 hours is provided.
Prerequisite: 45 points: EXERSCI 101, 103, 105

Stage III
EXERSCI 301 15 Points
Exercise Physiology 2
Systemic physiological responses and adaptations to
exercise training and physical inactivity relevant to selected
athletic and medical populations and across the lifespan.
Skills will be developed in the interpretation of experimental
methods and findings in human exercise physiology.
Prerequisite: 15 points from EXERSCI 201, MEDSCI 205,
SPORTSCI 201
Restriction: SPORTSCI 301

EXERSCI 303 15 Points
Biomechanics 2
Advanced quantitative techniques in biomechanics used
to study human movement including mathematical
modelling and signal processing. An application area such
as occupational ergonomics or clinical gait analysis will be
used to demonstrate the biomechanical techniques.
Prerequisite: 15 points from ENGG 121, PHYSICS 160, EXERSCI
203, SPORTSCI 203
Restriction: SPORTSCI 303

EXERSCI 304 15 Points
Sport Psychology
The study of psychology as it relates to human behaviour
and performance in sport settings. Key concepts include
achievement motivation, individual differences, performing
under pressure, psychological skills training, team dynamics,
and their relationships to human motor behaviour and performance.
Prerequisite: EXERSCI 204 or SPORTSCI 204, or 45 points
passed at Stage II or III
Restriction: EXERSCI 207, SPORTSCI 304

EXERSCI 305 15 Points
Movement Neuroscience
Examines brain and spinal cord organisation and function
related to movement, and the neurological mechanisms
involved in the planning, execution and control of
movement in health and disease. Introduces the concept
of neural plasticity as it relates to motor skill learning and
recovery after injury in both healthy and neurologically
impaired populations. An understanding of human anatomy
at the level covered in EXERSCI 103 will also be assumed.
Prerequisite: 15 points from EXERSCI 201, 205, MEDSCI 206,
309, 320, PSYCH 202, SPORTSCI 201
Restriction: SPORTSCI 305

EXERSCI 307 15 Points
Psychology of Physical Activity
Introduction to the study of psychology as it relates to
physical activity, sedentary behaviour and health. Key
concepts include exercise motivation, mental health
benefits of exercise, models of behaviour change,
intervention design, special populations, and the
relationship to the underlying neurophysiology and
implications for physical activity behaviour.
Prerequisite: 45 points passed at Stage II or III
Restriction: EXERSCI 204, SPORTSCI 204

EXERSCI 309 15 Points
EXERSCI 309A 7.5 Points
EXERSCI 309B 7.5 Points
Project in Exercise Sciences
A supervised individual practical project in a clinical or
other research laboratory setting to explore and assess
how science underpins practical skills.
Prerequisite: 15 points at Stage II or III in Exercise Sciences and
Departmental approval
Restriction: SPORTSCI 309
To complete this course students must enrol in EXERSCI 309 A
and B, or EXERSCI 309

EXERSCI 310 15 Points
Special Topic
EXERSCI 371 15 Points
Practicum in Exercise and Sport Sciences
A workplace-based course of supervised practice of not
less than 100 hours. Competencies will be developed in
the application of advanced physical fitness assessment
and design of evidence-based, effective and individualised
exercise programmes for the maintenance of health and
physical fitness in apparently healthy individuals.
Prerequisite: EXERSCI 271

EXERSCI 399 15 Points
Capstone: Applying Exercise Sciences
A supervised individual practical project that will focus on applying
theoretical knowledge to practical skills. Opportunities
will include laboratory and clinic-based research
projects, science communication or public engagement
projects. Students will work in groups, but will also
engage in individual activities to demonstrate their own
understanding of topics.
Prerequisite: 15 points from EXERSCI 301, 303, 305, 307

Diploma Courses
EXERSCI 690A 15 Points
EXERSCI 690B 15 Points
Graduate Diploma Research Project
To complete this course students must enrol in EXERSCI 690
A and B

Postgraduate 700 Level Courses
EXERSCI 702 15 Points
Projects in the Exercise Sciences
Provides students with an opportunity to collect data in an
area of interest, with the aim of validating an area of study towards their theses.

Restriction: EXERSCI 702

EXERSCI 703 15 Points
Cardiac Rehabilitation
Seminal literature is used to explore the effects of exercise, physical activity and sedentary behaviour on cardiovascular physiology and pathophysiology within the context of disease prevention and rehabilitation.

Restriction: EXERSCI 720, 721, SPORTSCI 703

EXERSCI 704 15 Points
Advanced Techniques in Biomechanics
A laboratory-based course which explores the current biomechanics methodology for quantifying human movements. Emphasis on motion capture, force measurement, accelerometers, clinical gait analysis, balance assessment, and electromyography. Students will apply biomechanical methods to clinical assessment.

Restriction: SPORTSCI 704

EXERSCI 705 15 Points
Research in the Exercise Sciences
Examines the nature and value of research contributions in the Exercise Sciences and their application to further research and evidence-based practice. Evaluates the process of research, inclusive of the development of research questions and hypotheses, the planning and collection of data in an ethical and unbiased manner, the analysis, interpretation and presentation of data and the dissemination of results.

Restriction: SPORTSCI 705

EXERSCI 706 15 Points
Seminar in Advanced Exercise Physiology
A seminar-based course examining the physiological responses and adaptations to physical exercise or inactivity. Students evaluate, present, and discuss seminal and contemporary research publications on selected topics largely focusing on the cardiovascular, metabolic, and musculoskeletal systems. Emphasis will be placed upon investigations of the explanatory elements of adaptation, from the level of the genome to the living human, and the use of relevant contemporary experimental techniques.

Restriction: PHYSIOL 706, SPORTSCI 706

EXERSCI 708 15 Points
Advanced Seminar in Movement Neuroscience
Seminar based course which examines brain organisation and function related to movement in health and disease. Emphasis is placed on contemporary techniques and paradigms in the field of movement neuroscience, with special emphasis on clinical populations that exhibit impaired movement. Neural plasticity is a central theme.

Restriction: SPORTSCI 708

EXERSCI 710 15 Points
Exercise Rehabilitation
The role of exercise and physical activity in the rehabilitation of people living with chronic and long-term health conditions. Professional practice in Aotearoa New Zealand. Evidence-based exercise prescription and outcome measurement for selected client populations.

Restriction: EXERSCI 720, 721, SPORTSCI 710

EXERSCI 711 15 Points
Exercise and Performance Psychology
Examines the basis of exercise motivation and to examine how psychological states can influence movement control and performance in work, sports, and daily life. The course covers theoretical foundations and involves active discussion of recent empirical studies.

EXERSCI 714 15 Points
Special Topics in the Exercise Sciences
Prerequisite: Head of Department approval
Restriction: SPORTSCI 714

EXERSCI 715 15 Points
Research Planning and Reporting
The theoretical, methodological, and practical skills for designing and reporting clinical research studies. Assignments will assess the student’s ability to critically evaluate relevant literature, prepare an ethics application, and write clearly and effectively. A final report will be submitted, formatted as if it is a manuscript being offered for publication.

EXERSCI 720 15 Points
Clinical Exercise Physiology 1
Develops specialist knowledge in clinical exercise physiology practice, clinical exercise testing, and the effects of medication on exercise responses in people with cardiovascular, pulmonary and metabolic health conditions. Explores the evidence-based, physiological foundations underlying exercise assessment and prescription for people with these chronic health conditions.

EXERSCI 721 15 Points
Clinical Exercise Physiology 2
Develops specialist knowledge in the evidence-based, physiological foundations underlying exercise assessment and prescription for people with orthopaedic, musculoskeletal, neuromuscular, neoplastic, immunologic and mental health-related chronic conditions. Covers treatment planning and reporting, and the critical analysis of the role of exercise in short and long-term chronic disease management.

EXERSCI 723 15 Points
Musculoskeletal Outpatients
Students will evaluate assessments, planning and delivery of interventions for clients with musculoskeletal, orthopaedic, women’s health and rheumatologic conditions across the lifespan. Client scenarios will develop clinical reasoning skills underpinning safe, effective and holistic delivery
of therapy. Students will learn to formulate differential diagnoses, prioritise clinical problems and implement an evidence-based treatment plan, using manual therapy, exercise and modality-based interventions.

EXERSCI 734 15 Points
Physiotherapy Practice
Students will assess, plan and deliver interventions for case-studies with spinal musculoskeletal, orthopaedic, and rheumatological conditions across the lifespan. Students will formulate differential diagnoses, prioritise clinical problems and generate solutions using knowledge and skills of physiotherapy practice. Students will implement culturally safe, evidence-based treatment plans to a range of clinical case scenarios across the lifespan.

EXERSCI 735 15 Points
Neurological Rehabilitation
Students will apply specialist knowledge to develop skills in evidence-based assessment and intervention across health care settings, focusing on interdisciplinary rehabilitation of neurological and neurodevelopmental conditions through the lifespan. The emphasis will be on normal development and milestones to underpin learning in paediatric rehabilitation. Motor learning principles will be applied to rehabilitate mobility, walking, balance and upper-limb function, including integration of assistive technology.

EXERSCI 736 15 Points
Acute Care
Students will apply advanced knowledge in physiotherapy management of acute respiratory, cardiac, surgical and neurological conditions across the lifespan, and to operate effectively in an interdisciplinary healthcare team. Students will learn to provide cardiopulmonary care for medical, surgical and acute neurological patients and the fundamentals of managing patients in an intensive care unit (ICU) including the role of physiotherapist in an ICU.

EXERSCI 737 15 Points
Physiotherapy in the Community
Students will advance generic skills to manage chronic conditions commonly delivered by healthcare services in urban and rural communities. Learning will include manual therapy and exercise interventions for spinal conditions, chronic pain management, falls prevention, movement disorders, amputees, cancer survivors and paediatric respiratory conditions. Students will learn to deliver e-health rehabilitation and to deliver whānau-centred care for Māori and Pasifika communities.

EXERSCI 738 15 Points
Professional Practice
Students will apply specialist knowledge and skills to support graduate practice. Topics include: advanced professional practice, registration and ongoing professional competency, reflections to enhance critical consciousness, and strategies to maintain physical and mental health. Students will gain essential knowledge for business practices such as Accident Compensation Corporation, private insurance, legal and ethical obligations and occupational health and safety.
Prerequisite: EXERSCI 741, 752, 753

EXERSCI 741 15 Points
Advanced Physiotherapy Practice - Level 9
Students will apply advanced knowledge and skills in specialised and emerging areas of physiotherapy practice, including advanced practitioner roles. Applying critical thinking and evidence-based practices, students will independently develop and evaluate management plans for complex cases. Case scenarios include integration of Hauora Māori, paediatric/neonatal ICU, burns/plastics, spinal cord injury, gender health, hand therapy, palliative care and emergency department physiotherapy.
Prerequisite: EXERSCI 735-737

EXERSCI 751 15 Points
Physiotherapy Practicum 1
Students will undertake supervised practice in clinical settings. This is the first of 5 clinical practicums across different physiotherapy settings. Students will complete supervised practice for 25 days, usually during a 5- or 6-week block, following a compulsory pre-clinical programme. Students will develop competencies in assessment of clients' problems, analysis of findings, goal setting and implementation and evaluation of interventions.

EXERSCI 752 15 Points
Physiotherapy Practicum 2
Students will undertake supervised practice in a clinical setting. This is the second of 5 clinical practicums across different physiotherapy settings. Students will complete supervised practice for 25 days over a 5-week block. Students will develop competencies in assessment of clients' problems, analysis of findings, goal setting and implementation and evaluation of interventions appropriate to the specific clinical setting.
Prerequisite: EXERSCI 751

EXERSCI 753 15 Points
Physiotherapy Practicum 3
Students will undertake supervised practice in a clinical setting. This is the third of 5 clinical practicums across different physiotherapy practice settings. Students will complete supervised practice for 25 days over a 5-week block. Students will develop competencies in assessment of clients' problems, analysis of findings, goal setting and implementation and evaluation of interventions appropriate to the specific clinical setting.
Prerequisite: EXERSCI 751

EXERSCI 754 15 Points
Physiotherapy Practicum 4
Students will undertake supervised practice in a clinical setting. This is the fourth of 5 clinical practicums across different physiotherapy practice settings. Students will complete supervised practice for 25 days over a 5-week block. Students will develop competencies in assessment of clients' problems, analysis of findings, goal setting and implementation and evaluation of interventions appropriate to the specific clinical setting.
Prerequisite: EXERSCI 751-753

EXERSCI 755 15 Points
Physiotherapy Practicum 5
Students will undertake supervised practice in a clinical setting. This is the final of 5 clinical practicums across different physiotherapy practice settings. Students will complete supervised practice for 25 days over a 5-week block. Students will develop competencies in assessment of clients' problems, analysis of findings, goal setting and implementation and evaluation of interventions appropriate to the specific clinical setting.
Prerequisite: EXERSCI 751-753

EXERSCI 775 15 Points
Seminar in Clinical Exercise Physiology
A body of advanced theoretical and administrative work related to exercise prescription and service delivery.
The principles of exercise physiology related to clinical populations, especially individuals who have cardiac, musculoskeletal, neurological, pulmonary, immunological, neoplastic, mood, and metabolic disorders, post-surgical cases, the elderly, and for individuals at risk of developing diseases as a consequence of inactivity. Professional and inter-professional relations will be addressed.

Restriction: SPORTSCI 775, 783

EXERSCI 776
Clinical Exercise Practicum 1
Individual and interdisciplinary practice in exercise screening, exercise and physical activity assessment, exercise prescription and supervision, exercise and physical activity counselling and health education and promotion in clinical populations. The course integrates ethical, safe, reflective and culturally responsive practice through supervised clinical work of not less than 200 hours.
Prerequisite: EXERSCI 776
Restriction: EXERSCI 771, SPORTSCI 771, 781

EXERSCI 777
Clinical Exercise Practicum 2
Individual and interdisciplinary practice in exercise screening, exercise and physical activity assessment, exercise prescription and supervision, exercise and physical activity counselling and health education and promotion in clinical populations. The course integrates ethical, safe, reflective and culturally responsive practice through supervised clinical work of not less than 200 hours.
Prerequisite: EXERSCI 776
Restriction: EXERSCI 772, SPORTSCI 772, 781

EXERSCI 778
Clinical Exercise Practicum 3
Individual and interdisciplinary practice in exercise screening, exercise and physical activity assessment, exercise prescription and supervision, exercise and physical activity counselling and health education and promotion in clinical populations. The course integrates ethical, safe, reflective and culturally responsive practice through supervised clinical work of not less than 200 hours.
Prerequisite: EXERSCI 771 and 772, or EXERSCI 776 and 777
Corequisite: EXERSCI 777
Restriction: EXERSCI 773, SPORTSCI 773, 782

EXERSCI 779
Clinical Exercise Practicum 4
Individual and interdisciplinary practice in exercise screening, exercise and physical activity assessment, exercise prescription and supervision, exercise and physical activity counselling and health education and promotion in clinical populations. The course integrates ethical, safe, reflective and culturally responsive practice through supervised clinical work of not less than 200 hours.
Prerequisite: EXERSCI 771 or 776, and EXERSCI 772 or 777, and EXERSCI 773 or 778
Restriction: EXERSCI 774, SPORTSCI 774, 782

FOODSCI 100
Foundations of Food and Nutrition
Introduces students to the multifaceted nature of Food Science and Nutrition with a focus on the interplay between food, nutrition and health. Introduce the chemical, biological, sensory, and processing aspects of foods. Societal, economic, legislative and regulatory aspects will also be introduced. Concepts will be illustrated using real food systems with a focus on lipids, water and vitamin C.
Restriction: FOODSCI 201

FOODSCI 110
Concepts in Food and Nutrition
Introduces students to the multifaceted nature of food science and nutrition with a focus on the interplay between food, nutrition and health. Provides general insights relating food molecules to food function and health. Societal,
economic, legislative and regulatory aspects will also be explored. No background in science is assumed.
Restriction: FOODSCI 100

**Stage II**

**FOODSCI 200 15 Points**

**Food Composition and Nutrition**

Covers the composition and structure of food. The approach will extend the FOODSCI 100 content from lipids to proteins, carbohydrates and key minor food components. There will be a focus on the molecular structure of the major food components and how they relate to the physical, sensory and nutritional properties of foods.
Prerequisite: 15 points from BIOSCI 106, CHEM 110, FOODSCI 100
Restriction: FOODSCI 201

**FOODSCI 202 15 Points**

**Food Preservation**

Food is spoilt by microbiological, chemical, biochemical and physical processes. It is important to understand the mechanism of spoilage caused by each of these processes in order to prevent or minimise such degradation. This course includes fundamental principles covering the preservation and processing of different food products. The principles involved in the development of food safety and HACCP programmes, as well as New Zealand food laws are also covered.
Prerequisite: 15 points from FOODSCI 200, 201, 15 points from MATHS 108, 110
Restriction: FOODSCI 302

**Stage III**

**FOODSCI 301 15 Points**

**Food Quality Attributes**

Attributes that make food attractive, such as colour, flavour, and texture, and how they alter during processing are studied. Texture measurement and methods of studying food structure will be discussed. Lectures will be given on non-destructive testing of food.
Recommended preparation: BIOSCI 203
Prerequisite: FOODSCI 200 or 201

**FOODSCI 303 15 Points**

**Sensory Science**

Human perception and preference of food products. Design of experiments, statistical methodologies and applications in industry and research. Sampling of foods is undertaken in this course.
Prerequisite: 15 points from STATS 101, 108 and 15 points from FOODSCI 200, 201
Corequisite: FOODSCI 301 or Permission of the Programme Director/Course Coordinator

**FOODSCI 306 15 Points**

**Principles of Food Processing**

The fundamental principles of freezing and thawing, thermal processing and canning, fermentation and dehydration are studied. The fundamental areas of engineering relevant for food processing such as heat and mass transfer, are covered. Process impact on food safety, quality and preservation is also discussed.
Prerequisite: FOODSCI 202
Restriction: CHEMMAT 756

**FOODSCI 310 15 Points**

**Theory of Food Product Design**

Examines the science underpinning human sensory perception and food preferences and how this science interfaces with the design and development of food products as well as the fundamental aspects of food product development.
Prerequisite: FOODSCI 100, 200 and STATS 101 or 108
Restriction: FOODSCI 303, 304

**FOODSCI 399 15 Points**

**Capstone: Food and Nutrition**

Food and Nutrition pathway students will work together in groups to identify and develop a new food product or food system that addresses or responds to a nutritional issue. Students will focus on the interplay between the nutritional aspects of the product or system and the sensory, stability, convenience, cost, regulatory and processing aspects of the product.
Prerequisite: FOODSCI 303 or 310 and a further 30 points at Stage III in Food Science and Nutrition

**Diploma Courses**

**FOODSCI 691 30 Points**

**FOODSCI 691A 15 Points**
**FOODSCI 691B 15 Points**

**Postgraduate Diploma Research Project**

To complete this course students must enrol in FOODSCI 691 A and B, or FOODSCI 691

**Postgraduate 700 Level Courses**

**FOODSCI 703 15 Points**

**Food Processing**

Preservation of food by standard methods including freezing, dehydration and thermal processing. New developments in food preservation. Unit operations, mass and energy balance, and heat transfer are covered. Chemical and physical changes food undergoes during processing.

**FOODSCI 705 15 Points**

**Project in Food Science**

Prerequisite: Permission of Programme Director

**FOODSCI 706 15 Points**

**Food Safety**

An understanding of the changing regulations that apply to the New Zealand food industry is of paramount importance. Pathogen awareness and control from an industry perspective are examined. HACCP and risk management plans will be generated.
Prerequisite: Permission of Programme Director

**FOODSCI 707 15 Points**

**Food Science**

Chemical, biological and physical aspects of foods. The decomposition of food due to lipid oxidation. Integrated study of selected basic foods.

**FOODSCI 708 15 Points**

**Advanced Food Science**

Prerequisite: Permission of Programme Director

**FOODSCI 709 15 Points**

**FOODSCI 709A 7.5 Points**
**FOODSCI 709B 7.5 Points**

**Selected Topics in Food Science and Technology**

Modules will be organised by the staff and invited lecturers. Topics offered will usually be based on the specialist interests of the lecturers, although controversial issues
may be included (for example, genetically modified food, irradiated food). Students may be required to participate actively by contributing seminars. Topics may vary from year to year.

*To complete this course students must enrol in FOODSCI 709 A and B, or FOODSCI 709*

**FOODSCI 710**  
**Industrial Internship - Level 9**  
The industrial internship is an opportunity for students to experience the food industry at first hand. While the placement would normally be in New Zealand, overseas internships are possible. The student will work in the food organisation on a defined project under the supervision of a suitably qualified person. A detailed written report on the assignment must be submitted.  
**Restriction:** FOODSCI 301, 610  
**Prerequisite:** Permission of Programme Director

**FOODSCI 715**  
**Food Allergens and Intolerants**  
An understanding of the epidemiology, management, regulation and classification of food allergens and intolerants in accordance with Food Standard 1.2.3 (Australia New Zealand Food Standards Code). This includes the study of foods or food groups with the major food allergens as identified in the Food Allergen Labeling and Consumer Protection Act (FALCPA), and application to new product development and labeling.  
**Restriction:** FOODSCI 301, 610  
**Prerequisite:** Permission of Programme Director

**FOODSCI 740**  
**Food Analysis**  
Students are provided with an opportunity to experience a range of analytical techniques that are used in food industry laboratories and in food science research.  
**Restriction:** FOODSCI 301, 610

**FOODSCI 750**  
**Advanced Topics in Food Science 1**  
A modular course consisting of topics chosen from the diverse research interests of the Food Science staff and academic visitors which may vary from year to year.  
**Restriction:** FOODSCI 709

**FOODSCI 751**  
**Advanced Topics in Food Science 2**  
A modular course consisting of topics chosen from the diverse research interests of the Food Science staff and academic visitors which may vary from year to year.  
**Restriction:** FOODSCI 709

**FOODSCI 752**  
**Research Proposal - Level 9**  
A review of the literature and research methods associated with a selected research topic assigned to an individual student. This will be at internationally recognised academic standards and demonstrate a capacity for independent thinking. It will include a consideration of the project from a Vision Mātauranga perspective.  
**Restriction:** FOODSCI 709

**FOODSCI 755**  
**Special Topic**  
**Prerequisite:** Programme Director approval

**FOODSCI 788**  
**FOODSCI 788A**  
**FOODSCI 788B**  
**BSc(Hons) Dissertation in Food Science - Level 9**  
A research proposal will be prepared on the dissertation topic. Students will be required to present an overview of the proposal in a seminar. Students will participate in the critical analysis of scientific papers. The student will carry out an original piece of research. The results will be presented and discussed in a dissertation. A seminar on the research will be given.  
**Restriction:** FOODSCI 789  
**To complete this course students must enrol in FOODSCI 788 A and B, or FOODSCI 788**

**FOODSCI 790**  
**FOODSCI 790A**  
**FOODSCI 790B**  
**Research Project - Level 9**  
**Prerequisite:** Permission of Programme Director  
To complete this course students must enrol in FOODSCI 790 A and B, or FOODSCI 790

**FOODSCI 791**  
**FOODSCI 791A**  
**FOODSCI 791B**  
**Dissertation - Level 9**  
**Prerequisite:** Permission of Programme Director  
To complete this course students must enrol in FOODSCI 791 A and B, or FOODSCI 791

**FOODSCI 796**  
**FOODSCI 796A**  
**FOODSCI 796B**  
**MSc Thesis in Food Science - Level 9**  
**Prerequisite:** Permission of Programme Director  
To complete this course students must enrol in FOODSCI 796 A and B

### Forensic Science

#### Postgraduate 700 Level Courses

**FORENSIC 701**  
**Fundamental Concepts in Forensic Science**  
Ethics and quality assurance in forensic science. Principles of criminal law, principles of evidence and procedure, expert evidence, interpretation of scientific evidence, probability and statistics. Forensic pathology, psychology and psychiatry.  
**15 Points**

**FORENSIC 702**  
**Introduction to Forensic Science**  
Forensic biology, documents, fingerprints, physical evidence, toolmarks, fire examination, explosives, hairs and fibres, drugs, toxicology, alcohol (including blood and breath alcohol), crime scene examination, firearms identification.  
**15 Points**

**FORENSIC 703**  
**Statistics and Molecular Biology for Forensic Science**  
Statistics: data summarisation and reduction, laws of probability, conditional probability, likelihood ratios and Bayes theorem. Interpretation of statistical results. Forensic biology: basic principles of population genetics, genomic structure, conventional blood grouping. DNA profiling: structure, enzymology and basic chemistry of nucleic acids, PCR and microsatellites, interpretation of DNA profiles, developing forensic DNA technologies.  
**15 Points**

**FORENSIC 704**  
**Techniques and Applications for Forensic Science**  
Analytical techniques: GC, HPLC, GC-MS chromatography, IR and UV spectroscopy. Applications: toxicology, illicit drugs, sports drugs, racing chemistry. Physical and trace evidence.  
**15 Points**
FORENSIC 706
Environmental Forensic Science
15 Points
Concepts of environmental science. Environmental monitoring and spill analysis, environmental legislation, criminal and environmental law. Case studies and practical work.

FORENSIC 707
30 Points
FORENSIC 707A
15 Points
FORENSIC 707B
15 Points

Project in Forensic Science
A research essay on an aspect of forensic science.
Restriction: FORENSIC 705
To complete this course students must enrol in FORENSIC 707 A and B, or FORENSIC 707

FORENSIC 708
15 Points
Special Topic: Forensic Science in a Digital World
Principles and applications of data science and statistics to forensic science. Methods may include machine learning, artificial intelligence, Bayesian inference, data visualisation, data security and the ethical use of data. Applications may include wastewater analysis, DNA sequencing, drug identification, biometrics, and crime detection and prevention. Prior knowledge of basic statistics is assumed. Familiarity with statistical programming language R is beneficial.

FORENSIC 710
15 Points
FORENSIC 710A
7.5 Points
FORENSIC 710B
7.5 Points

Advanced Topics in Forensic Science
A modular course comprising topics in Forensic Science related to staff research interests.
To complete this course students must enrol in FORENSIC 710 A and B, or FORENSIC 710

FORENSIC 796A
60 Points
FORENSIC 796B
60 Points

MSc Thesis in Forensic Science - Level 9
Note: The Forensic Science MSc thesis research courses are mounted with the assistance of the Institute of Environmental Science and Research Ltd (ESR) and ESR facilities and databases will be used for some research. As ESR facilities and databases are relied on in Court proceedings, appropriate steps must be taken to ensure the integrity of ESR’s analyses. This means students wishing to use ESR laboratory facilities as part of the MSc programme will be subject to the same type of access requirements as ESR employees. This includes a security clearance (essentially a check of any convictions recorded against you) and a drug test prior to being given access to ESR resources. Students will normally be required to provide a DNA sample to ensure that any allegations of cross-contamination of a DNA sample can be properly investigated. The DNA profile will be retained by ESR. All other information will be returned to the students at the completion of their studies. Students who would like further details of these conditions should contact the Programme Director.
Prerequisite: Permission of Programme Director
To complete this course students must enrol in FORENSIC 796 A and B

Geographic Information Science

Stage I
GISCI 140
15 Points
Geographic Information and Spatial Thinking
An introduction to the conceptual base of Geographic Information Science, the practical use of geo-spatial data and various societal issues related to the use of Remote Sensing and Geographic Information Systems. This course will introduce students to a range of contemporary geospatial technologies. It covers key concepts and principles behind the development and application of these technologies. The course exercises cover a range of application of GIS for analysis and display of spatial data, focusing on non-programmable solutions.
Restriction: GEOG 210

Stage II
GISCI 241
15 Points
Principles of Remote Sensing
An introduction to remote sensing tools and techniques and their application within the earth, environmental and urban environments. The course focuses on the processing, analysis and interpretation of data collected by government and commercial satellites, Unmanned Aerial Vehicles (UAV) and aerial photography. The course introduces image interpretation, multispectral images, supervised and unsupervised image classification and change detection. Techniques for analysing remote sensing data are introduced through a series and lab-based activities and are applied during an independent project.
Prerequisite: 60 points passed

GISCI 242
15 Points
Principles of GIScience
Spatial analysis and GIScience applications of spatial data handling for built and natural environments within the context of theoretical frameworks for understanding human-driven and physical phenomena. Develops advanced practical knowledge of methodology and applications for changing environments. Focus topics include climate change, air pollution, healthcare access, transportation, and 3D game worlds.
Prerequisite: 60 points passed
Restriction: GEOG 318

GISCI 243
15 Points
Special Topic

Stage III
GISCI 341
15 Points
Remote Sensing of Surface Processes
Key concepts of geographic information science as applied to earth and environmental sciences. Monitoring, analysis, visualisation and modelling of landscape change for terrestrial and coastal environments, using imagery from satellites, airplanes (LiDAR) and UAVs. Principles and practice of field techniques, including RTK-GPS, LiDAR and UAV piloting will be reviewed with application to catchment management, conservation, natural hazards and civil infrastructure.
Prerequisite: GISCI 241
Restriction: GEOG 317

GISCI 343
15 Points
GIScience Programming and Development
Programming and scripting-based techniques for spatial big
data analysis, spatial data handling, modelling, automation, and development for the GIScience domain.

Prerequisite: 15 points from GISCI 241, 242, GEOG 317, 318

GISCI 344 15 Points
Special Topic

GISCI 390 15 Points
Directed Study
Prerequisite: Approval of Programme Director or Major/Specialisation Lead

GISCI 399 15 Points
Capstone: GIScience
Students will independently demonstrate domain knowledge through applying their skills as members of groups completing a community-based GIScience projects serving needs identified by community stakeholders. Groups will be assembled based on skill sets of individual students (e.g., programming, remote sensing, advanced vector analysis, etc.), and students will be assessed on their independent contributions to the group project.
Prerequisite: 30 points at Stage III in Geographic Information Science

Geography

Stage I

GEOG 101 15 Points
Earth Surface Processes and Landforms
Understanding of the functioning of natural systems at the Earth's surface and human interactions with these systems. Examines the operation and interaction between Atmospheric, Hydrological, Ecological and Geomorphic systems. Environmental processes are an integrating theme. Topics include: climate and hydrological systems, ecological processes; surface sediment cycle; and processes governing development and dynamics of major landform types.

GEOG 102 15 Points
Geography of the Human Environment
Examines the relationships among personal geographies and global geographies of uneven development, economic, environmental and socio-cultural change. Using a variety of examples from New Zealand and the world we illustrate the connection between local places and global issues.

GEOG 103 15 Points
GEOG 103G 15 Points
Mapping Our World
An introduction to contemporary geospatial technologies such as web-mapping, GPS and tracking devices (such as your phone), Remote Sensing and GIS. Covers key concepts and principles behind these tools and their use, along with practical experiences through laboratories. Critical and theoretical perspectives on the tools, their use, and their social impacts will be discussed.
Restriction: GEOG 140, GISCI 140

GEOG 104 15 Points
GEOG 104G 15 Points
Cities and Urbanism
What makes a great city? This course explores 'urbanism' in both historical and contemporary cities to determine the essence of urbanity and the way that citizens (and visitors) experience city life. The dynamics and character of cities are considered in terms of their built environment, environmental systems, population, social diversity, and planning policies and practices.

GEOG 106 15 Points
Geographies of the Pacific
Examines the diverse geographies of Pacific peoples, their world views and ways of living. Case studies are used to place these geographies in entangled environmental, economic, historical, social, cultural and political contexts and to identify contradictory dynamics of change.

Stage II

GEOG 202 15 Points
Cities, Regions and Communities
A critical examination of geographic processes and consequences in contemporary society. Topics are selected from the instructors' research interests, which include: the transformation of urban places and spaces; the forms and location of industries and retailing; social geographies of the city; New Zealand's linkages with the global economy and society; urban historical geographies; and demographic and social changes in New Zealand and the Pacific region.
Prerequisite: 60 points

GEOG 205 15 Points
Environment and Society
A critical exploration of the interconnectedness of environment and society. The course highlights the importance of understanding how different views and attitudes influence people's interactions with the environment. Key themes include governance, management and development, which are addressed through issues such as conservation, climate change adaptation, disasters and resource use. Classes draw on a variety of case studies from New Zealand and overseas.
Prerequisite: 60 points

GEOG 250 15 Points
Geographical Research in Practice
A critical exploration of the research experience in geography. Case studies and field work demonstrate approaches to understanding the complex interactions of social and environmental processes. Students will develop practical skills in problem identification, research methodologies, ethics and analytical practices.
Prerequisite: 60 points

GEOG 261 15 Points
Climate and Society
Exploration of themes in climatology, meteorology, hydro-climatology and oceanography with a focus on the nature and role of key processes. These will be examined in relation to key issues for society such as extreme weather events, drought, floods, air pollution and climate change.
Prerequisite: GEOG 101
Restriction: EARTHSCI 261

GEOG 262 15 Points
Geomorphology
Introduces fundamental concepts in geomorphology for geologists and physical geographers. Key aspects of geomorphology, sedimentology, and earth surface processes are introduced by studying the temporal and spatial development of coastal and river landforms. Applied techniques for earth and environmental sciences, including field, remote sensing, GIS mapping, and modelling.
Prerequisite: GEOG 101
Restriction: EARTHSCI 262
## Stage III

### GEOG 305 Population, Health and Society

A survey of major themes in population, health and social geography. An examination of the dynamics of population complements analyses of health and healthcare, the education sector, the welfare state, and the changing character of urban places.  
Prerequisite: 30 points at Stage II

### GEOG 306 Special Topic

### GEOG 307 Urban Geography

Analysis of key processes shaping socio-cultural geographies of contemporary cities. Using international and local examples, issues such as the economy of cities, the culture of cities, home and housing, segregation and polarisation, the imaging of cities and sustainability are explored.  
Prerequisite: 30 points at Stage II

### GEOG 308 Geopolitics and Indigenous Rights

Examines indigenous peoples as agents of geopolitical change. Introduces colonial/decolonial geographies to demonstrate the geopolitical implications of indigenous ways of knowing, being and doing. Key themes include: territory and geopolitics; Indigenous identities, subject-formation and intersectionality; Indigenous knowledges, rights and political agency; and, Indigenous relationships with non-Indigenous peoples.  
Prerequisite: 30 points at Stage II  
Restriction: GEOG 312

### GEOG 309 Resources and Environmental Management

Examines the development and conservation of the environment in its use as a resource base, with particular reference to the way in which institutional structures in society determine provision and allocation. Attention is balanced between international experience and the policy framework in New Zealand. The course provides an understanding of key concepts, practices and methods.  
Prerequisite: 30 points at Stage II

### GEOG 315 The Human Dimension of Disasters

An overview of the human dimension of disasters which covers crucial concepts and theories, vulnerability and the causes of disasters, disaster risk reduction and management, post-disaster recovery and transversal issues such as culture and gender. The discussions encompass not only theoretical but also policy and practical materials and draw on examples and case studies from throughout the world with a particular focus on the most vulnerable and marginalised areas and communities.  
Prerequisite: 30 points at Stage II

### GEOG 320 Politics, Markets and Economies

Uses geographical insights to explore the interrelationship between politics, economy and culture. The course focuses attention on institutions, subjectivity and the making of markets. It examines political projects and economic spaces such as higher education, food and creative economies at the regional, national, and global level.  
Prerequisite: 30 points at Stage II

---

### GEOG 325 Applied Physical Geography

Examines the challenges of ‘doing science’ in the real world. With particular emphasis on climate, fluvial and coastal processes, the types of data, knowledge and information needed for decision making in environmental contexts are examined. Examines the ways human activities effect, and are affected by, the environmental settings of humans. Seeks improved understanding, and prediction, of the world around humans framed as both a resource and hazard.  
Prerequisite: 45 points at Stage II in Geography

### GEOG 342 Technology, Power and Social Change

Technology, algorithms, and Big data are changing our relationships with reality, space and power. This course explores how we know each other, society, and ourselves in this period of unprecedented technological change.  
Prerequisite: 45 points at Stage II

### GEOG 351 Coastal and Marine Studies

Focuses on the development of coastal landforms across a range of temporal and spatial scales. Introduces natural processes such as waves, tides and circulation, as well as geological-scale coastal evolution driven by changes in sea level and sediment supply. The course has an applied focus with specific emphasis on coastal management problems that affect society. Issues considered include coastal erosion during storms, the impacts of shoreline engineering, climate change and accelerating sea level rise.  
Prerequisite: 45 points at Stage II, including EARTHSCI 262 or GEOG 262, or equivalent

### GEOG 352 Landscape, Environment and Heritage

An examination of environmental change from a historical geography perspective. Approaches to investigating and understanding the transformation of environments are explored, and processes driving creation of different types of landscapes including heritage places are considered. The course enables students to place the modern environment within a historical context.  
Prerequisite: 30 points at Stage II

### GEOG 355 Directed Study

Prerequisite: Approval of Programme Director or Major/ Specialisation Lead

### GEOG 359 Capstone: Geography

An engagement with the research process, as practised in geography. Students will undertake an independent research project and communicate their findings, with due attention to research design, methodology, research ethics, information sources, field practise, data analysis, and research communication. Independent or small group research projects may involve residential or local fieldwork, laboratory analysis, desktop analysis or other research activities.  
Prerequisite: GEOG 250 and 30 points at Stage III in Geography

---

<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>GEOG 701</td>
<td>Research in Practice</td>
<td>15</td>
</tr>
</tbody>
</table>

### GEOG 701 Research in Practice

A reflection on the process of developing research projects from theory to methods, analysis, and the presentation of findings. Attention is directed to the ways in which research is shaped by intellectual histories, pressing social and
environmental challenges, and contemporary academic and political debates. The course allows students to develop specialised interests in geography or environmental management.

GEOG 714 15 Points
**Mobilities and Wellbeing**
An exploration of place-based human mobilities and their influence on health and wellbeing, employing current theoretical perspectives. No formal prerequisite, but an understanding of material in Stage III courses in human geography will be assumed.

GEOG 719 15 Points
**Geographies of Housing and Urban Change**
Advanced study of housing and urban issues, including the topics of homeownership, asset-based welfare, the politics of housing affordability, housing reforms and the changing dynamics of gentrification. Contemporary issues such as mortgage market dynamics and social rented housing reforms are examined. The course will consider also urban governance, office property investment and development processes, and sites of consumption and spectacle.

GEOG 725 15 Points
**People, Participation and Development**
A critical overview of issues associated with people’s participation in development in their geographical context, including processes and outcomes, accountability, empowerment and transformation in the context of livelihood strengthening, resource management, health and sanitation, education and disaster risk reduction. The course provides the students with theoretical knowledge but also practical skills through the use in class of participatory tools as both contents and teaching aids. Discussions rely upon concrete examples from throughout the world with a particular focus on marginalised places.

GEOG 737 15 Points
**Geographies of Public Policy**
Exploring ‘policy’ — an all too familiar and taken for granted term — by focusing on how policies get made, how different actors and varieties of expertise influence the policy process, and how policies shape people and place. It introduces students to transdisciplinary conversations involving geographers, anthropologists, sociologists and urbanists.

GEOG 738 15 Points
**Future Food and Biological Economies**
Investigates contemporary understandings, issues and strategies relating to the development of biological economies and food networks in the context of the globalising food economy. Addresses transformations in agro-food complexes and questions of nature-society relationships to do with ‘sustainable’ and ‘resilient’ food production and consumption.

GEOG 746 15 Points
**Applied Coastal Geomorphology**
An advanced course on the process-form relationships that shape coastlines over a range of spatial and temporal scales. Coastal processes are examined with field experiments in which principles of experiment design and field deployment are demonstrated. Long-term evolutionary perspectives are examined using a range of field techniques. These short- and long-term approaches are then merged to address examples of applied coastal management problems. No formal prerequisite but an understanding equivalent to GEOG 351 will be assumed.

GEOG 749 15 Points
**Applied Climate Science**
An examination of climate themes relevant to society. Themes will vary but may include hydrology and water resources, agriculture, human health, ocean-atmosphere interaction and energy in the climate system. The sensitivity of selected biophysical and human activity systems to climate will be explored and the actual and potential impacts of climatic variability and change (past and future) investigated.

GEOG 750 15 Points
**Environment and Landscape**
Environmental change in New Zealand since European settlement, including exploitation of natural resources, the creation of different cultural landscapes, and recognition of places as natural and cultural heritage. Different approaches to investigating and understanding recent environmental change are addressed. The course is suitable for physical and social science students, and will enable them to place the modern environment within a historical context. The course may include short guided walks and a one day or two half-day fieldtrips.

GEOG 759 15 Points
**Research Topics in Geography**
Directed research on an approved topic or topics.

GEOG 760 15 Points
**Directed Study in Geography**
Directed studies on an approved topic or topics.

GEOG 761 15 Points
**Special Topic: Monitoring Change from Space with Machine Learning**
Remotely sensed (satellite) data and machine learning techniques will be used to classify and analyse both commercial and environmental targets through time. Techniques will focus on both pixel classification and object detection and students will experience the latest in satellite imagery analysis with a focus on deriving actionable information.

GEOG 771 15 Points
**Spatial Analysis and Geocomputation**
Approaches to and challenges in analysing spatial data. Specific techniques will include geographical regression, point pattern analysis, interpolation, and newer geocomputation and machine learning methods. Students will gain an advanced knowledge of spatial analysis. An understanding equivalent to GISCI 242 will be assumed.

GEOG 774 15 Points
**Advanced Spatial Data Handling**
Advanced approaches to spatial data handling (processing,
management, visualisation, and analysis) in web-based environments, including theoretical debates and implications as well as applications for spatial data handling in integrated open-source and web-based mapping/GIS environments. There will be an applied laboratory component and lecture/seminar component where the broader social and theoretical implications of developments in spatial data handling will be engaged. No formal prerequisite, but an understanding equivalent to GEOG 318 will be assumed.

GEOG 789 30 Points
GEOG 789A 15 Points
GEOG 789B 15 Points
Honours Research Project - Level 9
To complete this course students must enrol in GEOG 789 A and B, or GEOG 789

GEOG 793 60 Points
Dissertation - Level 9
GEOG 796A 60 Points
GEOG 796B 60 Points
Masters Thesis in Geography - Level 9
To complete this course students must enrol in GEOG 796 A and B

Geophysics

Stage II

GEOPHYS 213 15 Points
The Geophysical Environment
This course explores the physical principles governing – and the connections between – the Earth’s atmosphere, oceans and interior. Topics include the structure of the solid earth, ocean currents and tides, and fundamental aspects of weather and climate.
Prerequisite: 15 points from PHYSICS 120, 121, 150, 160, and either 15 points from ENGSCI 111, MATHS 108 or MATHS 120 and 130
Restriction: PHYSICS 213

Stage III

GEOPHYS 310 15 Points
Physics of the Earth
Covers the physics of the solid earth from the surface to the core. Specifically, the course explores the Earth’s gravitational field (including the rotation and figure of the earth), seismology, heat flow, the magnetic and electromagnetic field to unravel the properties, processes, and structure of the Earth’s interior.
Prerequisite: 15 points from EARTHSCI 103, 120, GEOLOGY 103, and 15 points from GEOPHYS 213, PHYSICS 213, and 15 points from ENGSCI 211, MATHS 253, 260, PHYSICS 211
Restriction: GEOPHYS 330

GEOPHYS 311 15 Points
Atmosphere, Ocean, and Climate Physics
Examines the physical and dynamic processes shaping the atmosphere and oceans, covering the thermodynamics of the climate system and the dynamics of global atmospheric and oceanic circulations. Explores the fundamental physical processes that control Earth’s climate and investigates the dilemmas they present in our current understanding of climate.
Prerequisite: 15 points from PHYSICS 201, 231, and 15 points from GEOPHYS 213, PHYSICS 213, and 15 points from ENGSCI 211, MATHS 253, 260, PHYSICS 211
Restriction: GEOPHYS 330

GEOPHYS 339 15 Points
Special Topics in Geophysics

GEOPHYS 361 15 Points
Fundamentals and Applications of Geophysical Exploration
The fundamentals of geophysical exploration methods and their application. The course will provide a comprehensive overview of seismic techniques, geophysical borehole methods, and an introduction to gravity, electric, magnetic, electromagnetic, and radar techniques. Applications of these will be considered including hydrocarbon, mineral and geothermal exploration. Geophysical data will be acquired and analysed through field and laboratory work.
Prerequisite: 15 points from EARTHSCI 103, 120, GEOLOGY 103, and GEOPHYS 213 or PHYSICS 213 and MATHS 208 or equivalent
Restriction: EARTHSCI 361, GEOLOGY 361

GEOPHYS 399 15 Points
Capstone: Geophysics
Students will employ core methodologies (experimental, observational, computational, numerical) to investigate some aspect of a key geophysical phenomenon, and relate their findings to contemporary research in the field, considering wider societal aspects and issues. Students will develop their skills in communication, critical thinking, teaching and creative problem solving.
Prerequisite: 30 points from GEOPHYS 310, 311, 361
Restriction: EARTHSCI 399, PHYSICS 399

Diploma Courses

GEOPHYS 690 30 Points
GEOPHYS 690A 15 Points
GEOPHYS 690B 15 Points
Graduate Diploma Research Project
To complete this course students must enrol in GEOPHYS 690 A and B, or GEOPHYS 690

GEOPHYS 691 30 Points
GEOPHYS 691A 15 Points
GEOPHYS 691B 15 Points
Postgraduate Diploma Research Project
To complete this course students must enrol in GEOPHYS 691 A and B, or GEOPHYS 691

Postgraduate 700 Level Courses

GEOPHYS 780 15 Points
Directed Study

GEOPHYS 789 30 Points
GEOPHYS 789A 15 Points
GEOPHYS 789B 15 Points
Honours Research Project - Level 9
To complete this course students must enrol in GEOPHYS 789 A and B, or GEOPHYS 789

GEOPHYS 796A 60 Points
GEOPHYS 796B 60 Points
MSc Thesis in Geophysics - Level 9
To complete this course students must enrol in GEOPHYS 796 A and B
Information Management

Stage I

INFOMGMT 192 15 Points
Information Tools for Business
The ability to manage and analyse information is essential in many aspects of business. This course provides a practical introduction to a variety of information tools used to analyse and visualise data relating to aspects of information management. Through these tools and methods students explore using data to inform decisions related to a variety of activities.

Stage III

INFOMGMT 399 15 Points
Capstone: Information Management
Students work in a small group to solve a substantial problem. Groups are expected to reason on a problem, devise a solution, produce an artefact and present their work. The capstone provides an opportunity to students to further develop their technical and communication skills.
Prerequisite: BUSAN 201 or INFOMGMT 292, and COMPSCI 230 or INFOSYS 320, and 15 points from COMPSCI 215, INNOVENT 203, OPSMTG 258, SCI 201, and 30 points from BUSAN 300-305, COMPSCI 345, INFOMGMT 390, 392, 393, INFOSYS 300, 320-323, 330, 338, 339, 341, MKTG 308, OPSMTG 357

Marine Science

Stage I

MARINE 100 15 Points
MARINE 100G 15 Points
The Oceans Around Us
A multidisciplinary approach to understanding the importance of our oceans in terms of natural processes and human uses and values. It includes an understanding of the physical and biological processes in the ocean and how they are addressed through ocean management in New Zealand and internationally, allowing informed debate about the future of the ocean realm.

Stage II

MARINE 202 15 Points
Principles of Marine Science
An introduction to the physical and biological structure of the oceans, sea floor, coastlines and the biological communities that inhabit them. Subject matter includes an overview of the nature and scope of marine science globally and within the New Zealand and Auckland contexts. A wide coverage of marine science issues are presented with an emphasis on multidisciplinary examples.
Prerequisite: 30 points at Stage I in BSc courses

MARINE 203 15 Points
Special Topic

Stage III

MARINE 302 15 Points
Dynamics of Marine Systems
Fundamental processes in the marine environment with an emphasis on interdisciplinary linkages in the functioning of marine ecosystems. Topics include: the role of fluid dynamics in the lives of marine animals and in shaping the physical marine environment, and interdisciplinary studies of marine ecosystems.
Prerequisite: MARINE 202

MARINE 303 15 Points
Freshwater and Estuarine Ecology
The structure, biodiversity and ecology of lakes, streams, wetlands and estuaries and linkages with near-shore marine habitats. Emphasis is placed on the role of science in monitoring and managing these ecosystems. Case studies include the impact of Auckland’s urban sprawl on stream, estuarine and near-shore marine habitats, and local estuaries as nurseries for fish.
Prerequisite: 15 points from BIOSCI 206, ENVSCI 201, MARINE 202
Restriction: BIOSCI 330

MARINE 304 15 Points
Advanced Concepts in Marine Science
Independent study on current topics in marine science under the guidance of an individual academic with similar interests to the student, focusing on specialist research techniques in chosen subfields of marine science.
Restriction: MARINE 399

MARINE 305 15 Points
Practical Skills in Marine Science
Development of practical skills in a range of marine science disciplines. Includes a residential field trip at the Leigh Marine Laboratory.
Prerequisite: MARINE 202

MARINE 306 15 Points
Special Topic

MARINE 307 15 Points
Directed Study

MARINE 399 15 Points
Capstone: Marine Science
A capstone course for those enrolled in the Marine Science major, in which students demonstrate mastery of concepts and skills learnt during their degree through the production and presentation of an independent project developed in conjunction with a mentor from the academic staff.
Prerequisite: MARINE 202 and 30 points at Stage III in BSc courses
Restriction: MARINE 304

Postgraduate 700 Level Courses

MARINE 701 15 Points
Current Issues in Marine Science
An exploration of current topics in Marine Science. The topics and material will recognise the wide range of undergraduate experience across participants and emphasise the value of cross-disciplinary approaches to Marine Science.

MARINE 702 15 Points
Field Techniques in Marine Science
An advanced course in the development of practical skills in research design, implementation and analysis in Marine Science.

MARINE 703 15 Points
Marine Protected Areas - Level 9
Current research related to marine protected areas is reviewed, including planning principles and processes for designing marine protected areas, and its role in science, conservation of biological diversity, and fisheries. Practical components include visits to marine reserves, exposure to
planning software, and analysis of marine protected related data. The knowledge and skills gained are applied with an independent research project.

\textit{Restriction: ENVSCI 726}\\

\textbf{MARINE 704} \hspace{1cm} 15 \hspace{1cm} \textbf{Points}\\
\textbf{Special Topic}\\

\textbf{MARINE 705} \hspace{1cm} 15 \hspace{1cm} \textbf{Points}\\
\textbf{Ocean Management and Planning}\\
Approaches to management and conservation of global oceans are changing rapidly to address increasingly complex social, economic and environmental issues. Reviews current ocean governance, policy, planning and management approaches, modern ocean management and planning tools using examples from recent international ocean conservation projects.\\

\textbf{MARINE 706} \hspace{1cm} 15 \hspace{1cm} \textbf{Points}\\
\textbf{Special Topic}\\

\textbf{MARINE 707} \hspace{1cm} 15 \hspace{1cm} \textbf{Points}\\
\textbf{Applied Estuarine Ecology}\\
Emphasises multi-disciplinary science that integrates across different empirical and theoretical approaches to better understand the functioning of soft-sediment ecosystems. Covers fundamental ecological principles of soft-sediment systems through to the impacts associated with human activities. Includes practical exercises in experimental field ecology which will introduce students to key research methods. No formal prerequisite but knowledge of Stage III marine ecology or science will be assumed.\\

\textit{Restriction: ENVSCI 702}\\

\textbf{Mathematics}\\

\textbf{Stage I}\\

\textbf{MATHS 102} \hspace{1cm} 15 \hspace{1cm} \textbf{Points}\\
\textbf{Functioning in Mathematics}\\
An introduction to calculus that builds mathematical skills and develops conceptual thinking. MATHS 102 works as a refresher course for those who haven’t studied Mathematics for some time, a confidence builder for those lacking Mathematical confidence and a preparation course for further study in Mathematics.\\

\textit{Restriction: MATHS 102 may not be taken concurrently with any other Mathematics course, except MATHS 190 and may not be taken after ENGSCI 111 or any Mathematics course at Stage I or above, except MATHS 190/190G}\\

\textbf{MATHS 108} \hspace{1cm} 15 \hspace{1cm} \textbf{Points}\\
\textbf{General Mathematics 1}\\
A general entry to Mathematics for commerce and the social sciences, following Year 13 Mathematics. Covers selected topics in algebra and calculus and their applications, including: linear functions, linear equations and matrices; functions, equations and inequalities; limits and continuity; differential calculus of one and two variables; integral calculus of one variable.\\

\textit{Prerequisite: MATHS 102 or 110 or at least 13 credits in Mathematics at NCEA Level 3 including the Differentiation Standard 91578, or D in CIE A2 Mathematics or C in CIE AS Mathematics or 3 out of 7 in IB Mathematics: Analysis and Approaches (SL or HL)\\

\textit{Restriction: ENGGEN 150, ENGSCI 111, MATHS 120, 130, 208, 250}\\

\textbf{MATHS 110} \hspace{1cm} 15 \hspace{1cm} \textbf{Points}\\
\textbf{Mathematics for Natural Sciences}\\
A general entry to Mathematics for the natural sciences, following Year 13 Mathematics. Covers selected topics in algebra and calculus and their application to chemistry, biology and other natural sciences.\\

\textit{Prerequisite: MATHS 102 or 108 or at least 13 credits in Mathematics at NCEA Level 3, or D or better in Cambridge A2 Mathematics, C or better in AS Mathematics, pass in IB Mathematics: Analysis and Approaches (SL or HL)\\

\textit{Restriction: ENGGEN 150, ENGSCI 111, MATHS 208, 250. More than 15 points from MATHS 120 and 130}\\

\textbf{MATHS 120} \hspace{1cm} 15 \hspace{1cm} \textbf{Points}\\
\textbf{Algebra}\\
A foundation for further mathematics courses, essential for students intending to major in Mathematics, Applied Mathematics, Statistics, Physics, or who want a strong mathematical component to their degree. Develops skills and knowledge in linear algebra, together with an introduction to mathematical language and reasoning, including complex numbers, induction and combinatorics.\\

\textit{Recommended preparation: Merit or excellence in the Differentiation Standard 91578 at NCEA Level 3.\\

\textit{Prerequisite: MATHS 208, or B- or higher in MATHS 108, or A- or higher in MATHS 110, or A+ in MATHS 102, or at least 18 credits in Mathematics at NCEA Level 3 including at least 9 credits at merit or excellence, or B in CIE A2 Mathematics, or 5 out of 7 in IB Mathematics: Analysis and Approaches (SL or HL)\\

\textbf{MATHS 121} \hspace{1cm} 15 \hspace{1cm} \textbf{Points}\\
\textbf{Calculus}\\
A foundation for further mathematics courses, essential for students intending to major in Mathematics, Applied Mathematics, or who want a strong mathematical component to their degree. Develops skills and knowledge in differential and integral calculus, including: linear functions, linear equations and matrices; functions, equations and inequalities; limits and continuity; differential calculus of one and two variables; integral calculus of one variable.\\

\textit{Prerequisite: MATHS 120, or at least 13 credits in Mathematics at NCEA Level 3, or D in CIE A2 Mathematics or 3 out of 7 in IB Mathematics: Analysis and Approaches (SL or HL)\\

\textit{Restriction: ENGGEN 150, ENGSCI 111, MATHS 208, 250. More than 15 points from MATHS 120 and 130}\\

\textbf{MATHS 122} \hspace{1cm} 15 \hspace{1cm} \textbf{Points}\\
\textbf{Statistics}\\
A foundation for further mathematics courses, essential for students intending to major in Mathematics, Applied Mathematics, or who want a strong mathematical component to their degree. Develops skills and knowledge in data analysis, including: linear functions, linear equations and matrices; functions, equations and inequalities; limits and continuity; differential calculus of one and two variables; integral calculus of one variable.\\

\textit{Prerequisite: MATHS 120, or at least 13 credits in Mathematics at NCEA Level 3, or D in CIE A2 Mathematics or C in CIE AS Mathematics or 3 out of 7 in IB Mathematics: Analysis and Approaches (SL or HL)\\

\textit{Restriction: ENGGEN 150, ENGSCI 111, MATHS 208, 250. More than 15 points from MATHS 120 and 130}
MATHS 130  
Calculus  
A foundation for further mathematics courses, essential for students intending to major in Mathematics, Applied Mathematics, Statistics, Physics, or who want a strong mathematical component to their degree. Develops skills and knowledge in calculus of functions of a single variable. Recommended preparation: Merit or excellence in the Differentiation Standard 91578 at NCEA Level 3. 
Prerequisite: MATHS 208, or B- or higher in MATHS 108, or A- or higher in MATHS 110, or A+ in MATHS 109, or at least 9 credits in Mathematics at NCEA Level 3 including at least 18 credits in MATHS 108 and 120, or at least 9 credits at merit or excellence, or B in CIE A2 Mathematics, or 5 out of 7 in IB Mathematics: Analysis and Approaches (SL or HL) 

MATHS 162  
Computational Mathematics  
An introduction to computational mathematics and programming in MATLAB. The course will introduce some basic concepts in computational mathematics and give applications that include cryptography, difference equations, stochastic modelling, graph theory and Markov chains. 
Corequisite: ENGG 150 or ENGSCI 111 or MATHS 108 or 120. 
Restriction: MATHS 199

MATHS 190  
15 Points

MATHS 190G  
15 Points

Great Ideas Shaping our World  
Mathematics contains many powerful and beautiful ideas that have shaped the way we understand our world. This course explores some of the grand successes of mathematical thinking. No formal mathematics background is required, just curiosity about topics such as infinity, paradoxes, cryptography, knots and fractals. 
Restriction: MATHS 190 may not be taken after any Mathematics course at Stage III

MATHS 199  
15 Points

Advancing in Mathematics  
An introduction to University level mathematics, for high-achieving students currently at high school. The numerical computing environment MATLAB is used to study beautiful mathematics from algebra, analysis, applied mathematics and combinatorics. Students will learn to write mathematical proofs and create mathematical models to find solutions to real-world problems. 
Prerequisite: Departmental approval

Stage II

MATHS 200  
15 Points

Special Topic

MATHS 208  
15 Points

General Mathematics 2  
This sequel to MATHS 108 features applications from the theory of multi-variable calculus, linear algebra and differential equations to real-life problems in statistics, economics, finance, computer science, and operations research. 
Prerequisite: 15 points from MATHS 108, ENGSCI 111, ENGG 150, or MATHS 120 and MATHS 130, or a B- or higher in MATHS 110. 
Restriction: Cannot be taken, concurrently with, or after MATHS 250, 253

MATHS 250  
15 Points

Algebra and Calculus 2  
Designed for all students who plan to progress further in mathematics, this course follows directly from MATHS 120 and 130. Covering topics from multivariable calculus and linear algebra, which have many applications in science, engineering and commerce, Students will learn mathematical results and procedures as well as the underpinning ideas and mathematical proofs. 
Prerequisite: MATHS 120 and 130, or ENGGEN 150 or ENGSCI 111

MATHS 253  
15 Points

Algebra and Calculus 3  
A sequel to MATHS 250, further developing and bringing together linear algebra and calculus. Students will learn about quadratic forms, projections, spectral decomposition, methods of multicriteria optimisation, double, triple and line integrals, Green’s theorem and applications. 
Prerequisite: MATHS 250

MATHS 254  
15 Points

Fundamental Concepts of Mathematics  
Explores fundamentals of mathematics important to many branches of the subject and its applications. Topics include equivalence relations, elementary number theory, counting techniques, elementary probability, geometry, symmetry and metric spaces. This is an essential course for all students advancing beyond Stage II in pure mathematics, and highly suitable for other students in the mathematical sciences. 
Corequisite: MATHS 250

MATHS 260  
15 Points

Differential Equations  
The study of differential equations is central to mathematical modelling of systems that change. This course develops methods for understanding the behaviour of solutions to ordinary differential equations. Qualitative and elementary numerical methods for obtaining information about solutions are discussed, as well as some analytical techniques for finding exact solutions in certain cases. Some applications of differential equations to scientific modelling are discussed. A core course for Applied Mathematics. 
Prerequisite: MATHS 208 or 250 or ENGSCI 211 or a concurrent enrolment in MATHS 250

MATHS 270  
15 Points

Numerical Computation  
Many mathematical models occurring in Science and Engineering cannot be solved exactly using algebra and calculus. Students are introduced to computer-based methods that can be used to find approximate solutions to these problems. The methods covered in the course are powerful yet simple to use. This is a core course for students who wish to advance in Applied Mathematics. 
Prerequisite: MATHS 120 and 130, or 15 points from ENGG 150, ENGSCI 111, MATHS 108, 110 and 15 points from COMPSCI 101, 105, 130, INFOSYS 110, 120, MATHS 162, 199

Stage III

MATHS 302  
15 Points

Perspectives in Mathematics Education  
For people interested in thinking about the social, cultural, political, economic, historical, technological and theoretical ideas that influence mathematics education, who want to understand the forces that shaped their own mathematics education, or who are interested in teaching. Students will develop their ability to communicate ideas in essay form. Recommended preparation: At least 45 points from courses in Mathematics or Statistics.
MATHS 307  
Special Topic  
15 Points

MATHS 308  
Special Topic  
15 Points

MATHS 315  
Mathematical Logic  
Logic addresses the foundations of mathematical reasoning. It models the process of mathematical proof by providing a setting and the rules of deduction. This course builds a basic understanding of first order predicate logic, introduces model theory and demonstrates how models of a first order system relate to mathematical structures. Recommended for high level computer science or mathematical logic.  
Prerequisite: MATHS 250, 254 or PHIL 222

MATHS 320  
Algebraic Structures  
This is a framework for a unified treatment of many different mathematical structures. It concentrates on the fundamental notions of groups, rings and fields. The abstract descriptions are accompanied by numerous concrete examples. Applications abound: symmetries, geometry, coding theory, cryptography and many more. This course is recommended for those planning graduate study in pure mathematics.  
Prerequisite: MATHS 250, 254

MATHS 326  
Combinatorics  
Combinatorics is a branch of mathematics that studies collections of objects that satisfy specified criteria. An important part of combinatorics is graph theory, which is now connected to other disciplines including bioinformatics, electrical engineering, molecular chemistry and social science. The use of combinatorics in solving counting and construction problems is covered using topics that include algorithmic graph theory, codes and incidence structures, and combinatorial complexity.  
Prerequisite: MATHS 254, or 250 and a B+ or higher in COMPSCI 225

MATHS 328  
Algebra and Applications  
The goal of this course is to show the power of algebra and number theory in the real world. It concentrates on concrete objects like polynomial rings, finite fields, groups of points on elliptic curves, studies their elementary properties and shows their exceptional applicability to various problems in information technology including cryptography, secret sharing, and reliable transmission of information through an unreliable channel.  
Prerequisite: MATHS 250 and 254, or a B+ or higher in COMPSCI 225 and 15 points from MATHS 250, 253

MATHS 332  
Real Analysis  
A standard course for every student intending to advance in pure mathematics. It develops the foundational mathematics underlying calculus, it introduces a rigorous approach to continuous mathematics and fosters an understanding of the special thinking and arguments involved in this area. The main focus is analysis in one real variable with the topics including real fields, limits and continuity, Riemann integration and power series.  
Prerequisite: MATHS 250, 254

MATHS 333  
Analysis in Higher Dimensions  
By selecting the important properties of distance many different mathematical contexts are studied simultaneously in the framework of metric and normed spaces. This course examines carefully the ways in which the derivative generalises to higher dimensional situations. These concepts lead to precise studies of continuity, fixed points and the solution of differential equations. A recommended course for all students planning to advance in pure mathematics.  
Prerequisite: MATHS 332 or a B or higher in MATHS 254

MATHS 334  
Algebraic Geometry  
Algebraic geometry is a branch of mathematics studying zeros of polynomials. The fundamental objects in algebraic geometry are algebraic varieties i.e., solution sets of systems of polynomial equations.  
Prerequisite: MATHS 332, and at least one of MATHS 320, 328 and Departmental approval

MATHS 340  
Real and Complex Calculus  
Calculus plays a fundamental role in mathematics, answering deep theoretical problems and allowing us to solve very practical problems. This course extends the ideas of calculus to two and higher dimensions, showing how to calculate integrals and derivatives in higher dimensions and exploring special relationships between integrals of different dimensions. It also extends calculus to complex variables. Recommended preparation: MATHS 253  
Prerequisite: MATHS 250

MATHS 341  
Complex Analysis  
Explores functions of one complex variable, including Cauchy’s integral formula, the index formula, Laurent series and the residue theorem. Many applications are given including a three-line proof of the fundamental theorem of algebra. Complex analysis is used extensively in engineering, physics and mathematics. Strongly recommended: MATHS 333  
Prerequisite: MATHS 332 and Departmental approval

MATHS 350  
Topology  
Aspects of point-set, set-theoretic and algebraic topology including: properties and construction of topological spaces, continuous functions, axioms of separation, countability, connectivity and compactness, metrisation, covering spaces, the fundamental group and homology theory. Recommended preparation: MATHS 333.  
Prerequisite: MATHS 332 and Departmental approval

MATHS 361  
Partial Differential Equations  
Partial differential equations (PDEs) are used to model many important applications of phenomena in the real world such as electric fields, diffusion and wave propagation. Covers linear PDEs, analytical methods for their solution and weak solutions. Recommended preparation: MATHS 253  
Prerequisite: MATHS 250, 260

MATHS 362  
Methods in Applied Mathematics  
Covers a selection of techniques to analyse differential equations including the method of characteristics and
asymptotic analysis. These methods are fundamental in the analysis of traffic flows, shocks and fluid flows. Introduces foundational concepts to quantify uncertainty in parameters of differential equations and is recommended for students intending to advance in Applied Mathematics. Recommended preparation: MATHS 253, 361

**Prerequisite**: MATHS 250, 260

**MATHS 383** 15 Points

**Advanced Computational Mathematics**

Finite element methods, calculus of variations and control theory are key mathematical tools used to model, compute approximations to model solutions and to understand the control of real-world phenomena. These topics share the same mathematical foundations and can all be described as variational methods. The course offers advanced techniques to handle complicated geometries and optimise desired objectives in applications modelled using differential equations. Recommended preparation: MATHS 253

**Prerequisite**: MATHS 260 and 270

**MATHS 381** 15 Points

**Directed Study**

**MATHS 382** 15 Points

**MATHS 382A** 7.5 Points

**MATHS 382B** 7.5 Points

**Directed Study**

To complete this course students must enrol in MATHS 382 A and B, or MATHS 382

**MATHS 383** 15 Points

**Special Topic**

**MATHS 384** 15 Points

**Special Topic**

**MATHS 386** 15 Points

**MATHS 386A** 7.5 Points

**MATHS 386B** 7.5 Points

**Directed Study**

Directed study on a topic or topics approved by the Academic Head or nominee.

To complete this course students must enrol in MATHS 386 A and B, or MATHS 386

**MATHS 387** 15 Points

**Directed Study**

**MATHS 388** 15 Points

**Special Topic**

**MATHS 389** 15 Points

**Special Topic**

**MATHS 399** 15 Points

**Capstone: Mathematics**

An exploration of the role of mathematics in society and culture, and the activities performed by mathematicians as teachers, critics, and innovators. Students will develop their skills in communication, critical thinking, teaching, and creative problem solving.

**Prerequisite**: MATHS 250 and 30 points at Stage III in Mathematics

---

**Postgraduate 700 Level Courses**

**MATHS 701** 15 Points

**Introduction to Research in Mathematics Education**

What is Mathematics Education research, and how can it inform practice? This course introduces a range of skills and methods for conducting and critically consuming research in mathematics education. Students will explore issues and techniques in Mathematics Education research as they design their own research studies to inform their teaching and learning practice.

**Prerequisite**: MATHS 302 or significant teaching experience or department approval

**MATHS 702** 15 Points

**Mathematical Processes in the Curriculum**

Historically, mathematics curricula have emphasised the what of mathematics (content), at the expense of considering the how. This course uses hands-on experiences and research literature to explore how to teach, learn and do mathematics through processes such as communication, modelling, problem solving, and proving.

**MATHS 703** 15 Points

**What Can Be More Practical Than a Good Theory?**

An analysis of theoretical perspectives that inform research in mathematics education, with a focus on learning theories, both social and psychological, and their implications for teaching and learning in mathematics.

**Prerequisite**: MATHS 302 or significant teaching experience or department approval

**MATHS 705** 15 Points

**Contemporary Issues in Mathematics Education**

This course explores contemporary topics in mathematics education research and their impact on teaching and learning. Students will investigate and critically examine research and scholarly literature, and consider the implications of current knowledge for their own practice.

**Prerequisite**: MATHS 302 or significant teaching experience or department approval

**MATHS 706** 15 Points

**Technology and Mathematics Education**

Practical and theoretical perspectives on ways that technology can enhance teaching and learning of mathematics. Students will consider and critically examine affordances, constraints and obstacles in the use of technology.

**Prerequisite**: MATHS 302 or significant teaching experience or department approval

**MATHS 707** 15 Points

**Special Topic**

**Prerequisite**: MATHS 302 or significant teaching experience or department approval

**MATHS 708** 15 Points

**Special Topic**

**Prerequisite**: MATHS 302 or significant teaching experience or department approval

**MATHS 709** 15 Points

**Special Topic**

**Prerequisite**: MATHS 302 or significant teaching experience or department approval

**MATHS 710** 15 Points

**Directed Study in Mathematics Education**

Prerequisite: MATHS 302 or significant teaching experience or department approval
### MATHS 711
**30 Points**

**Directed Study in Mathematics Education**

Prerequisite: MATHS 302 or significant teaching experience or department approval

To complete this course students must enrol in MATHS 711 A and B, or MATHS 711

**MATHS 712**

**15 Points**

**Teaching and Learning in Algebra**

Recent theoretical perspectives on the teaching and learning of school and university mathematics are linked to the learning of either calculus or algebra. The focus is on the mathematics content, applications, and effective learning at school and university. Students taking this course should normally have studied mathematics or statistics at 200 level.

Prerequisite: MATHS 302 or significant teaching experience or department approval

**MATHS 713**

**15 Points**

**Logic and Set Theory**

A study of the foundations of pure mathematics, formalising the notions of a 'mathematical proof' and 'mathematical structure' through predicate calculus and model theory. It includes a study of axiomatic set theory.

Prerequisite: MATHS 315 or PHIL 305

**MATHS 714**

**15 Points**

**Number Theory**

A broad introduction to various aspects of elementary, algebraic and computational number theory and its applications, including primality testing and cryptography.

Prerequisite: B+ in MATHS 328 or 320

**MATHS 715**

**15 Points**

**Graph Theory and Combinatorics**

A study of combinatorial graphs (networks), designs and codes, illustrating their application and importance in other branches of mathematics and computer science.

Prerequisite: 15 points from MATHS 320, 326, 328 with a B or higher

**MATHS 720**

**15 Points**

**Group Theory**

A study of groups focusing on basic structural properties, presentations, automorphisms and actions on sets, illustrating their fundamental role in the study of symmetry (for example in crystal structures in chemistry and physics), topological spaces, and manifolds.

Prerequisite: MATHS 320

**MATHS 721**

**15 Points**

**Representations and Structure of Algebras and Groups**

Representation theory studies properties of abstract groups and algebras by representing their elements as linear transformations of vector spaces or matrices, thus reducing many problems about the structures to linear algebra, a well-understood theory.

Prerequisite: MATHS 320

**MATHS 725**

**15 Points**

**Lie Groups and Lie Algebras**

Symmetries and invariants play a fundamental role in mathematics. Especially important in their study are the Lie groups and the related structures called Lie algebras. These structures have played a pivotal role in many areas, from the theory of differential equations to the classification of elementary particles. Strongly recommended for students advancing in theoretical physics and pure mathematics.

Recommended preparation: MATHS 333.

Prerequisite: MATHS 320 and 322

**MATHS 730**

**15 Points**

**Measure Theory and Integration**

Presents the modern elegant theory of integration as developed by Riemann and Lebesgue. This course includes powerful theorems for the interchange of integrals and limits, allowing very general functions to be integrated, and illustrates how the subject is both an essential tool for analysis and a critical foundation for the theory of probability. Strongly recommended: MATHS 333

Prerequisite: MATHS 332

**MATHS 731**

**15 Points**

**Functional Analysis**

Provides the mathematical foundations behind some of the techniques used in applied mathematics and mathematical physics; it explores how many phenomena in physics can be described by the solution of a partial differential equation, for example the heat equation, the wave equation and Schrödinger's equation. Recommended preparation: MATHS 730 and 750.

Prerequisite: MATHS 332 and 333

**MATHS 734**

**15 Points**

**Algebraic Geometry**

Algebraic geometry is a branch of mathematics studying zeros of polynomials. The fundamental objects in algebraic geometry are algebraic varieties i.e., solution sets of systems of polynomial equations.

Prerequisite: MATHS 332 and at least one of MATHS 320, 328

Restriction: MATHS 334

**MATHS 735**

**15 Points**

**Analysis on Manifolds and Differential Geometry**

Studies surfaces and their generalisations, smooth manifolds, and the interaction between geometry, analysis and topology; it is a central tool in many areas of mathematics, physics and engineering. Topics include Stokes' theorem on manifolds and the celebrated Gauss Bonnet theorem. Strongly recommended: MATHS 333 and 340.

Prerequisite: MATHS 332

**MATHS 740**

**15 Points**

**Complex Analysis**

An introduction to functions of one complex variable, including Cauchy's integral formula, the index formula, Laurent series and the residue theorem. Many applications are given including a three line proof of the fundamental theorem of algebra. Complex analysis is used extensively in engineering, physics and mathematics. Strongly recommended: MATHS 333.

Prerequisite: MATHS 332

Restriction: MATHS 341

**MATHS 750**

**15 Points**

**Topology**

Aspects of point-set, set-theoretic and algebraic topology including: properties and construction of topological spaces, continuous functions, axioms of separation, countability, connectivity and compactness, metrization, covering spaces, the fundamental group and homology theory. Strongly recommended: MATHS 333.

Prerequisite: MATHS 332

Restriction: MATHS 350
MATHS 761 15 Points
Dynamical Systems
Mathematical models of systems that change are frequently written in the form of nonlinear differential equations, but it is usually not possible to write down explicit solutions to these equations. This course covers analytical and numerical techniques that are useful for determining the qualitative properties of solutions to nonlinear differential equations.
Prerequisite: B- in both MATHS 340 and 361

MATHS 762 15 Points
Nonlinear Partial Differential Equations
A study of exact and numerical methods for non-linear partial differential equations. The focus will be on the kinds of phenomena which only occur for non-linear partial differential equations, such as blow up, shock waves, solitons and special travelling wave solutions.
Prerequisite: B- in both MATHS 340 and 361

MATHS 763 15 Points
Advanced Partial Differential Equations
A study of exact and approximate methods of solution for the linear partial differential equations that frequently arise in applications.
Prerequisite: B- in both MATHS 340 and 361

MATHS 764 15 Points
Mathematical Biology
A course introducing central concepts in mathematical biology, with emphasis on modelling of physiological systems and gene dynamics.
Prerequisite: B- in both MATHS 340 and 361

MATHS 765 15 Points
Mathematical Modelling
Advanced topics in mathematical modelling, including selected topics in a range of application areas, principally taken from the physical and biological sciences.
Prerequisite: At least B- or better in both MATHS 340 and 361

MATHS 766 15 Points
Inverse Problems
Covers the mathematical and statistical theory and modelling of unstable problems that are commonly encountered in mathematics and applied sciences.
Prerequisite: At least B- in both MATHS 340 and 363, or PHYSICS 701

MATHS 769 15 Points
Stochastic Differential and Difference Equations
Differential and difference equations are often used as preliminary models for real world phenomena. The practically relevant models that can explain observations are, however, often the stochastic extensions of differential and difference equations. This course considers stochastic differential and difference equations and applications such as estimation and forecasting. Recommended preparation: MATHS 363.
Prerequisite: B- in both MATHS 340 and 361

MATHS 770 15 Points
Advanced Numerical Analysis
Covers the use, implementation and analysis of efficient and reliable numerical algorithms for solving several classes of mathematical problems. The course assumes students have done an undergraduate course in numerical methods and can use Matlab or other high-level computational language.
Prerequisite: B- in MATHS 270, 340 and 361

MATHS 776 30 Points
MATHS 776A 15 Points
MATHS 776B 15 Points
Honours Research Project - Level 9
Restriction: MATHS 791
To complete this course students must enrol in MATHS 776 A and B, or MATHS 776

MATHS 777 15 Points
Project in Mathematics 1 - Level 9
A supervised investigation or research project including seminar presentation in pure or applied mathematics.
MATHS 781 Special Topic
MATHS 782 Special Topic
MATHS 783 Special Topic
MATHS 784 Special Topic
MATHS 785 45 Points
MATHS 785A 15 Points
MATHS 785B 30 Points
Dissertation in Mathematics Education - Level 9
To complete this course students must enrol in MATHS 785 A and B, or MATHS 785

MATHS 786 15 Points
Special Topic
MATHS 787 15 Points
Special Topic: Inverse Problems and Stochastic Differential Equations
Covers deterministic inverse problems: Hilbert spaces and linear operator theory, singular value decomposition and pseudoinverses, Tikhonov regularisation, nonlinear problems and iterative methods, continuous time processes, stochastic differential equations, random walks and Wiener processes, Itô calculus, and applications of SDE's.
Prerequisite: B- or higher in MATHS 340 and 361
Restriction: MATHS 769, 766

MATHS 788 15 Points
Special Topic
MATHS 789 15 Points
Special Topic
MATHS 793 15 Points
Project in Mathematics 2 - Level 9
An investigation into a topic from pure or applied mathematics, under the supervision of one or more staff members.

MATHS 794 30 Points
Project in Mathematics 3 - Level 9
An investigation into a topic from pure or applied mathematics, under the supervision of one or more staff members.

MATHS 795A 60 Points
MATHS 795B 60 Points
MSc Thesis in Applied Mathematics - Level 9
To complete this course students must enrol in MATHS 795 A and B

**Prerequisites:**
- PHYSICS 120, or 24 credits in the Mechanics (91524), Electricity (91526), Differentiation (91578), Integration (91579) standards in NCEA Level 3 at merit or excellence, or equivalent with departmental approval.
- Restriction: PHYSICS 150

### PHYSICS 140: Digital Fundamentals
An introduction to the physical basis of modern computing for Computer Science students and anyone with an interest in modern Information Technology. Key topics are Boolean Algebra, logic circuits, and digital information processing. Hands-on laboratory work is a key component of the course. No prior electronics or programming knowledge is assumed.

**Restriction:** PHYSICS 219, 243

### PHYSICS 160: Physics for the Life Sciences
Designed for students intending to advance in the biomedical and life sciences, this course is focused on physical principles relevant to biological systems. Key topics are motion, waves, thermal physics, electricity and instrumentation. The course is primarily algebra-based and includes lectures, laboratories and tutorials. Recommended preparation is NCEA Level 2 Physics and Mathematics, or equivalent.

**Restriction:** PHYSICS 120

Electromagnetism. Advanced Laboratory work is included in relevant topics.

**Prerequisite:** Departmental approval

**Restriction:** PHYSICS 331

**PHYSICS 625**

**Lasers and Electromagnetic Waves**

Surveys the basic principles of lasers and explains how the behaviour and propagation of light can be understood in terms of electromagnetic waves described by Maxwell's equations. The theory and applications of several key optical components will be described, including lasers and resonators. Advanced Laboratory work is included in relevant topics.

**Prerequisite:** Departmental approval

**Restriction:** PHYSICS 333

**PHYSICS 626**

**Quantum Physics**

Develops non-relativistic quantum mechanics with applications to the physics of atoms and molecules and to quantum information theory. Topics include the Stern-Gerlach effect, spin-orbit coupling, Bell's inequalities, interactions of atoms with light, and the interactions of identical particles. Advanced Laboratory work is included in relevant topics.

**Prerequisite:** Departmental approval

**Restriction:** PHYSICS 335

**PHYSICS 681**

**Directed Study**

Directed study on a research topic approved by the Academic Head or nominee.

**PHYSICS 690A**

15 Points

**PHYSICS 690B**

15 Points

**Graduate Diploma Research Project**

To complete this course students must enrol in PHYSICS 690 A and B

**PHYSICS 691**

30 Points

**PHYSICS 691A**

15 Points

**PHYSICS 691B**

15 Points

**Postgraduate Diploma Research Project - Level 9**

To complete this course students must enrol in PHYSICS 691 A and B, or PHYSICS 691

---

**Postgraduate 700 Level Courses**

**PHYSICS 703**

**Advanced Quantum Mechanics**

An advanced development of nonrelativistic quantum mechanics in the Dirac formulation is presented. Emphasis is placed on the simplicity and generality of the formal structure, lifting the reliance of introductory courses on wave mechanics.

**PHYSICS 715**

**Directed Study**

Enrolment requires approval of the Head of Department and the choice of subject will depend on staff availability or on the needs of particular students.

**Prerequisite:** Departmental approval

**PHYSICS 741**

**Advanced Classical Mechanics and Electrodynamics**

Develops and deepens students' knowledge and understanding of advanced topics in classical mechanics and electromagnetism, including variational and least action principles in mechanics, the physical basis of magnetism; and the four-vector treatment of special relativity and electromagnetism.

**Restriction:** PHYSICS 331, 705

**PHYSICS 742**

**Advanced Statistical Mechanics and Condensed Matter**

Advanced concepts in statistical mechanics and condensed matter. Topics to be covered include the theory of magnetism, mean field theory, the Ising model, superconductivity, phase transitions, complex systems, and networks.

**Restriction:** PHYSICS 708

**PHYSICS 743**

**Waves and Potentials**

Presents the universal mathematical physics of waves and potential fields and discusses related applications. Topics include derivations and solutions for electromagnetic and elastic wave equations, propagation of waves in media, reflection and transmission of waves at interfaces, guided waves in geophysics and optics, and fundamentals of potential theory.

**PHYSICS 746**

**Relativistic Quantum Mechanics and Field Theory**

Examines quantum field theory. Covers the relativistic generalisations of the Schrödinger equation and many-particle quantum mechanics, quantum electrodynamics is explored using Feynman diagram techniques. Extensions of scalar field theory to include path integrals, statistical field theory, broken symmetry, renormalisation and the renormalisation group.

**Restriction:** PHYSICS 706, 755

**PHYSICS 748**

**General Relativity**

Discusses Einstein’s General Theory of Relativity with application to astrophysical problems, drawn from black hole physics, gravitational waves, cosmology, astrophysical lensing and solar system and terrestrial tests of the theory. The course includes the mathematical background needed to describe curved spacetimes in arbitrary coordinate systems and the covariant description of fundamental physical relationships.

**PHYSICS 751**

**Special Topic**

**PHYSICS 752**

**Photonics**

Advanced topics in photonics including optical detection, semiconductor and modelocked lasers, the propagation of light in optical fibres, and the physics and applications of nonlinear optics.

**Restriction:** PHYSICS 726, 727

**PHYSICS 753**

**The Dynamic Universe**

Covers topics in modern astronomy and astrophysics relating to the evolution and dynamics of key astrophysical systems. Topics will be drawn from: stellar structure and stellar evolution; the formation of planets and the evolution of planetary systems; stellars and galactic dynamics; the large scale dynamical behaviour of the expanding universe.

**PHYSICS 754**

**Condensed Matter Physics**

Covers topics and methods that are important for current condensed matter research. Topics include ferroelectricity, soft condensed matter, experimental materials physics,
electronic structure theory, techniques for condensed matter simulation, and renormalisation group theory.

**PHYSICS 757**

**Quantum Optics and Quantum Information**
The nonrelativistic quantum treatment of electromagnetic radiation (light) and its interaction with matter (atoms, quantum dots, superconducting qubits) is presented. Emphasis is placed on what is strictly quantum mechanical about light compared with a description in terms of Maxwell waves, and on the concepts and methods underlying modern advances in quantum measurement theory and quantum technologies, e.g., quantum communication/crypology and quantum simulation/computation.

*Restriction: PHYSICS 760*

**PHYSICS 780**

**Advanced Imaging Technologies**
Covers the physical basis and use of new imaging technologies and data processing in medicine, biomedicine and biotechnology. Makes use of practical examples from techniques such as computer assisted tomography, nonlinear microscopy, optical coherence tomography, fluorescence or microarray analysis. No formal prerequisite, but an understanding of material to at least a B grade standard in PHYSICS 244, 340, and 15 points from PHYSICS 211, MATHS 253, 260, ENGS 211 is recommended.

**PHYSICS 786**

**BAdvSci(Hons) Dissertation in Physics - Level 9**

**PHYSICS 787**

**PHYSICS 787A**

**PHYSICS 787B**

**Dissertation - Level 9**
To complete this course students must enrol in PHYSICS 787 A and B, or PHYSICS 787

**PHYSICS 788**

**Project in Physics**

**PHYSICS 789**

**PHYSICS 789A**

**PHYSICS 789B**

**Honours Research Project - Level 9**
To complete this course students must enrol in PHYSICS 789 A and B, or PHYSICS 789

**PHYSICS 791**

**Special Topic**

**PHYSICS 792**

**Special Topic**

**PHYSICS 796A**

**PHYSICS 796B**

**MSc Thesis in Physics - Level 9**
To complete this course students must enrol in PHYSICS 796 A and B

**Psychology**

### Stage I

**PSYCH 108**

**Individual, Social and Applied Psychology**
Topics covered may include: developmental and social psychology including group behaviour, the measurement of mental abilities, intelligence, models of personality, clinical and health psychology, methods of therapeutic intervention, and the psychological similarities and differences between cultures. A laboratory component, in which students are required to participate as subjects, forms part of the course.

**PSYCH 109**

**PSYCH 109G**

**Mind, Brain and Behaviour**
Topics covered may include: the nature of sensory and perceptual processes, the cause of perceptual illusions, the structure and function of the human brain, approaches to animal and human learning, models of human language and memory, and the design of psychological experiments. A laboratory component, in which students are required to participate as subjects, forms part of the course.

### Stage II

**PSYCH 200**

**Foundations of Developmental Psychology**
How do children’s minds develop, how do they work, and how do they influence children’s behaviour? Students will learn the theoretical perspectives and methods that scientists use to investigate the developing mind in infancy through late childhood. Topics of particular focus include learning and memory, concepts and categories, language, the self and identity, social cognition, attachment, and emotion.

*Prerequisite: 30 points at Stage I in Psychology*

**PSYCH 201**

**Perception and Cognition**
An introduction to a variety of topics in human experimental psychology. Topics covered may include: perceptual processes, attention, memory, mental imagery, language development, theory of mind, problem solving and decision making. Participation in the laboratory component of this course is compulsory.

*Prerequisite: 30 points at Stage I in Psychology*

**PSYCH 202**

**Biopsychology**
Provides a basic introduction to the structure and function of the brain, neuropsychology, and genetic and hormonal influences on behaviour. This course includes a compulsory laboratory component.

*Prerequisite: 30 points at Stage I in Psychology or 15 points from BIOSCI 101, 103*

**PSYCH 203**

**Learning and Behaviour**
A consideration of the environmental factors that control and modify animal (including human) behaviour. Generally, an experimental laboratory approach is taken, and quantitative theories are stressed. Topics include: classical and operant conditioning, theories of reinforcement, the stimulus control of operant behaviour, behavioural analyses of problem solving, concept learning and language, choice, self control, remembering and experimental design. This course includes a compulsory laboratory component.

*Prerequisite: 30 points at Stage I in Psychology or 15 points from BIOSCI 101, 103*

**PSYCH 204**

**Social Psychology**
Focuses on humans as social beings. Covers topics such as social cognition, attitudes, group processes, interpersonal relationships, and language communication. The course may include participation in and completion of a research project.

*Prerequisite: 30 points at Stage I in Psychology*

**Course Prescriptions**

**Theories of Personality and Development**

The major personality theories are presented including: Behavioural, Cognitive, Social-Cognitive, Psychodynamic, Humanistic/Phenomenological, Trait/Dispositional and Biological/Evolutionary. The hypotheses generated by these theories, about development from early childhood onwards and about 'normal' and 'abnormal' behaviour, will be discussed and evaluated in terms of empirical evidence and utility. Attention will be paid to cultural issues of relevance in a New Zealand context.

Prerequisite: 30 points at Stage I in Psychology

**Producing Psychological Knowledge**

How do you go about answering a research question? What is a research question anyway? Which research methodology and method will best provide the types of answers you are looking for? Examines what we do and can know in psychology, and why and how we know it, including philosophy of science, methodology, ethics, research outcomes, and particular methods.

Prerequisite: 30 points at Stage I in Psychology

**Psychology for Society**

Examines what we do and can know in psychology, and why and how we know it, including philosophy of science, methodology, ethics, research outcomes, and particular methods. Embeds a focus on the cultural context of Aotearoa/New Zealand within which psychological knowledge is applied. Introduces broad content in preparation for more advanced study.

Prerequisite: 30 points at Stage I in Psychology

**Applied Psychology**

Discusses psychological issues relating to illnesses and well-being of people in the workplace. Consideration will be given both to the theoretical models which have been developed and to the types of methodology used in their investigation. Emphasis is given to the interplay between science and practice.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

**Research Methods in Psychology**

Deals with principles and practices relevant to psychological research, including philosophy of science, research ethics, research design, measurement of dependent variables, describing and analysing data, and interpreting results. Participation in the laboratory component of this course is compulsory.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

**Human Neuroscience**

Covers material relating to the neural basis of cognitive processes, including perception, attention, memory and language. Students will be introduced to different methods of inferring mind-brain relations in normal and neurologically-impaired individuals, and different ways of conceptualising mind-brain relations, such as connectionism and modularism.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125, or MEDSCI 206 or PHYSIOL 220

**Directed Study**

A course of research supervised by a staff member and written up as a course for publication instead of a final examination.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

Corequisite: Student must be enrolled in (or have completed) an additional 45 points at Stage III in Psychology courses and Programme Director approval

To complete this course students must enrol in PSYCH 308 A and B, or PSYCH 308

**Learning**

A discussion of how behaviour is controlled and modified by discriminative stimuli and by consequential reinforcers and punishers. The emphasis is on laboratory research with animals, but with some human data also considered. Topics include: choice behaviour, punishment, avoidance, psychophysics, memory, and cognition. This course includes a compulsory laboratory component.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125, or 45 points at Stage II in Biological Sciences

Restriction: PSYCH 362

**Introduction to Clinical Psychology**

Describes and evaluates psychological approaches to the assessment and treatment of those mental health problems, in adults and children, most commonly encountered by clinical psychologists. Consideration is given to work in mental health, corrections, child protection and neuropsychology rehabilitation. Issues relevant to Māori mental health, gender, cross-cultural work and prevention are included.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125
Advanced Topics in Social Psychology

Focuses on a number of key topics in social psychology. Modules examine interpersonal influence and close relationships, collective behaviour, prejudice and social issues, and social identity and well-being. 

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

Psychology of Communication

Studies the links between psychological processes and communication difficulties. Hearing, speech, language and voice will be covered. A range of communication difficulties and communication differences will be introduced and the psychosocial aspects will be discussed, including impact on self-esteem, health-related quality of life, peer/interpersonal relationships and educational and behavioural consequences in children and adults.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

Evolution, Behaviour and Cognition

How does behaviour in non-human animals evolve? Do other animals have language? Do they have culture? Can human behaviour be explained in evolutionary terms? This course addresses these questions and the methods that can be used to answer them.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125, or 45 points at Stage II in Biological Sciences

Psychology and Gender

The study of gender is crucial to understanding many everyday aspects of our lives, as well as many contemporary social issues. This course provides an introduction to selected key issues in the critical psychology of gender, from a social constructionist perspective. Topics that will be covered include gendered bodies, masculinity and femininity, sexuality, rape, and mental health.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125, or 30 points at Stage II in Gender Studies

Culture and Psychology

It is through culture that we make sense of ourselves and our world. Of key interest is how culture, ethnicity and communication difficulties affect human experience including behaviour, thoughts, and emotions. Emphasis is placed on critical thinking and analytic skills, and helping students think about their own values and norms from a cultural perspective.

Prerequisite: 45 points at Stage II in Psychology and 15 points from STATS 100-125

Changes across the Lifespan

Development is a lifelong process. Classic and modern theories of development provide a foundation for understanding changes and continuities across the lifespan. Students will learn how we develop key social, emotional, and cognitive abilities across infancy, childhood, adolescence, and adulthood. Developmental psychology will then be applied to understand developmental challenges, atypical development, and the role of social context.

Prerequisite: PSYCH 211
activities to demonstrate their own understanding of the topics explored by them and others in this course.

Prerequisite: 30 points at Stage III in Psychology and 15 points from STATS 100-125

**Diploma Courses**

PSYCH 651A 30 Points
PSYCH 651B 30 Points

**Practicum**

This includes a practical component of up to 1,500 hours of supervised work in an approved applied psychology setting, with an emphasis on the application of research principles and designs. Evaluation is by internal assessment and assessment by field supervisors.

*Restriction: PSYCH 650*

To complete this course students must enrol in PSYCH 651 A and B

PSYCH 690A 15 Points
PSYCH 690B 15 Points

**Graduate Diploma Research Project**

To complete this course students must enrol in PSYCH 690 A and B

PSYCH 691A 15 Points
PSYCH 691B 15 Points

**Postgraduate Diploma Research Project**

To complete this course students must enrol in PSYCH 691 A and B

**Postgraduate 700 Level Courses**

PSYCH 700 15 Points

**Political Psychology**

Provides an overview of the intersecting fields of psychology and political science. Seminar-based topics include personality and politics, political socialisation, voting behaviour, media effects, rational choice vs. symbolic politics, the competency of the electorate, the psychology of legitimacy, and other timely issues. Attention will be paid to the international literature, though New Zealand-based research will also be discussed.

PSYCH 707 15 Points

**Psychology of Offending**

Covers psychological theories of crime and violence, empirical research relevant to the assessment and treatment of youth and adult offending, with particular emphasis on violent and sexual offending, and the range of roles for psychologists in forensic and correctional settings such as prisons, community and forensic psychiatric hospitals.

PSYCH 708A 15 Points
PSYCH 708B 15 Points

**Clinical Neuropsychology**

Consists of: an introduction to neuroanatomy and neuropathology, seminars on the major areas of neuropsychological dysfunction, introduction to community-used test materials and theoretical issues of neuropsychological assessment, neuropsychological dysfunction, individual assessment and individual case studies.

*To complete this course students must enrol in PSYCH 708 A and B*

PSYCH 714 15 Points

**Cognitive Neuroscience**

An advanced seminar on cognitive neuroscience. Topics may include: neuroanatomy, neuroimaging methodologies, neurological and developmental disorders, and the organisation of higher cognitive functions such as attention, language, memory and executive functions. Emphasis will be placed on current developments relevant to the understanding of human psychological processes.

PSYCH 715 15 Points

**Psychology and Sustainability**

Human behaviour and thinking is central to both the sustainability problem and viable solutions. This course considers the psychological barriers to thinking and acting sustainably and how theories and research on emotions, modelling, identity, belonging, moral development and the evolution of cooperation can be applied to overcome these barriers. There will be particular emphasis on how to develop 'sustainability consciousness' in individuals and organisations.

PSYCH 716 15 Points

**Social Psychology and Interpersonal Processes**

Key empirical and theoretical areas in contemporary social psychology form the basis of this seminar-based course. Topics will include social cognition, interpersonal influence, communication, and close personal relationships. Students will also conduct small research projects investigating central topics covered in the course.

PSYCH 717 15 Points

**Community Psychology**

The application of psychological knowledge and research skills to issues faced by communities. Students will design an intervention relevant to a social issue. Theoretical approaches to working in community settings and the practical challenges involved will be discussed.

PSYCH 718 15 Points

**Psychotherapeutic Assessment and Formulation**

Major theories used in clinical practice to understand psychological problems will be discussed, including behavioural, cognitive-behavioural, systems and psychodynamic models. Emphasis is on assessment and formulation of clients' problems rather than therapeutic intervention. Approaches covered are those that are most commonly employed by psychologists practicing in New Zealand.

*Prerequisite: PSYCH 723*

*Restriction: PSYCH 709*

PSYCH 720A 15 Points
PSYCH 720B 15 Points

**Directed Study**

To complete this course students must enrol in PSYCH 720 A and B

PSYCH 721 15 Points

**Consciousness and Cognition**

Discusses recent research on consciousness from the perspective of cognitive neuroscience. Topics covered may include: implicit learning, implicit memory, blindsight, the split-brain syndrome, amnesia and hemineglect.

PSYCH 722 15 Points

**Human Learning and Development**

Focuses on the processes and factors that influence human learning in infancy through childhood. Topics discussed may include: early social cognition, language development and the factors that influence school and life success. Consideration will be given to diverse contexts and populations.
PSYCH 723  15 Points
**Mental Health Problems: Aetiology and Assessment**
Provides an overview of common mental health problems in childhood and adulthood and the methods that clinical psychologists use to assess these. Examines theories of causation and risk factors for a number of mental health problems. Also introduces and critiques diagnostic tools and psychometric instruments used in assessment.
*Corequisite: PSYCH 718*

PSYCH 725  15 Points
**Evolution and Human Behaviour**
Investigates the psychology of humans from an evolutionary perspective. Specific topics may include the evolution of language, religion, mental time travel, social learning, and cognitive nudges, biases and heuristics.

PSYCH 726  15 Points
**Emotion and Identity**
Explores current psychological theory and research on emotion, adding perspectives from sociology, history and cultural studies as well as neuroscience. Topics include the embodied nature of affect; emotion, relationships and social life; emotion and sense of self, subjectivity, narrative and personal history; emotional contagion in crowds and groups; and the power of social norms around public emotional expression.

PSYCH 727  15 Points
**Functional MRI**
A comprehensive overview of functional magnetic resonance imaging (fMRI) with a focus on its use in the cognitive neuroscience of memory and aging. Designed for beginners, topics include experimental design, image acquisition and pre-processing, analysis methods, localisation/anatomy and interpretation. Classes will include a lecture and/or a seminar followed by a hands-on laboratory working with fMRI data to consolidate learning.

PSYCH 728  30 Points
PSYCH 728A  15 Points
PSYCH 728B  15 Points
**Portfolio in ABA**
A series of written clinical assessment and intervention projects in applied behaviour analysis demonstrating appropriate use of the scientist-practitioner model. Projects will be completed within each of the placements completed during the internship course PSYCH 651. The portfolio should provide evidence of appropriate mastery of basic behaviour-analytic skills, client-centred responsibilities, and foundational knowledge of applied behaviour analysis.
*Prerequisite: PSYCH 750, 751, 754*
*Corequisite: PSYCH 651, 757*
*To complete this course students must enrol in PSYCH 728 A and B, or PSYCH 728*

PSYCH 730  15 Points
**Professional Psychology Practice in New Zealand**
Aims to equip students with knowledge and skills required for registration as a psychologist with the New Zealand Psychologists Board. Topics include the structure and functions of the Psychologists Board/Health and Disability Commissioner, cultural competency (obligations under the Treaty of Waitangi and cultural safe practice), professional ethics (Code of Ethics for Psychologists Working in Aotearoa/New Zealand) and related legislation.

PSYCH 731  15 Points
**Social Psychology and Intergroup Processes**
Focuses on the application of social psychological knowledge and theory to the understanding of broad social and cultural processes and phenomena, such as violence, prejudice, group behaviour and conflict, intergroup dynamics, collective behaviour, social beliefs, cultural differentiation and contact.

PSYCH 733  15 Points
**Critical Health Psychology**
Utilising the frameworks of critical psychology, including gendered, indigenous and intersectional frameworks, this course examines ways of theorising, understanding and promoting health for individuals, communities and societies.

PSYCH 736  15 Points
**Human Brain Mapping**
Introduces human brain mapping based on structural magnetic resonance imaging (MRI). Topics include MRI data acquisition, processing and analysis, as well as interpretation of analysis outcomes and fundamentals of neuroanatomy.

PSYCH 737  15 Points
**Work and Well-Being**
Reviews concepts, methods, applications and current research relevant to the impact of work on employee well-being, including topics such as the employee lifecycle, stress, well-being, positive psychology, emotion, bullying and work-life balance.

PSYCH 741  15 Points
PSYCH 741A  7.5 Points
PSYCH 741B  7.5 Points
**ABA: Communicating Behaviourally**
Provides the opportunity to gain practical experience with a range of mediums for communicating behavioural concepts.
*To complete this course students must enrol in PSYCH 741 A and B, or PSYCH 741*

PSYCH 742  15 Points
**Neuroscience of Awareness**
An advanced seminar on the neuroscience of awareness and related topics. The course will primarily consist of student-led discussion of original research, with particular emphasis on areas of active controversy or debate. In addition to the theoretical discussion of human awareness, there will be a strong focus on the methods and practice of research in human neuroscience.

PSYCH 743  15 Points
**Critical Qualitative Research in Aotearoa**
Equips students with conceptual, theoretical, political and practical understandings of what it means to do critical, qualitative research in psychology in Aotearoa. Situates methods in relation to who researchers are, where we are, and how we collaborate, including obligations and opportunities provided by Te Tiriti o Waitangi, and Indigenous-led approaches.

PSYCH 744  15 Points
**Experimental Design and Quantitative Methods for Psychology**
Covers applications of the general linear model to research design and analysis. Topics include: univariate techniques (analysis of variance, analysis of covariance, regression) and multivariate techniques (multivariate analysis of variance, discriminant analysis, multivariate regression, and factor analysis).
*Prerequisite: PSYCH 306*
PSYCH 746 15 Points
Perception, Cognition, Action
Seminar-based introduction to theories and models linking human, animal and machine perception, cognition and action, with emphasis on competing approaches to perceptual-motor control and learning, using evidence from classic and contemporary research in experimental psychology and cognitive neuroscience.

PSYCH 749 15 Points
PSYCH 749A 7.5 Points
PSYCH 749B 7.5 Points
Applied Behaviour Analysis Ethics
Investigates the similarities and differences between the NZPB and BACB codes and discusses how to reconcile the two in practical situations. Discusses the current legislation and frameworks that apply to clinicians working with vulnerable people, and the impact of culture when applying codes and working ethically. Different methods of ethical problem solving are covered.
To complete this course students must enrol in PSYCH 749 A and B, or PSYCH 749.

PSYCH 750A 15 Points
PSYCH 750B 15 Points
ABA: Methods and Measurement
A study of the underlying concepts and principles involved with modifying an individual human or animal’s behaviour in some applied setting. Appropriate and effective applications of scientific principles of learning will be taught, as will pertinent topics researched in the Experimental Analysis of Behaviour. Topics will include the application of research into associative learning, reinforcement, punishment, extinction, avoidance, stimulus control and choice.
To complete this course students must enrol in PSYCH 750 A and B.

PSYCH 751A 15 Points
PSYCH 751B 15 Points
ABA: Concepts and Principles
A study of the techniques and issues involved with modifying an individual human or animal’s behaviour in some applied setting. Appropriate and effective applications of scientific principles of learning will be taught, as will pertinent topics researched in the Experimental Analysis of Behaviour. Topics will include the application of research into associative learning, reinforcement, punishment, extinction, avoidance, stimulus control and choice.
To complete this course students must enrol in PSYCH 751 A and B.

PSYCH 754 15 Points
Developmental and Intellectual Disabilities
Study of the behavioural aspects, aetiologies and therapeutic interventions for disorders usually diagnosed during childhood that are associated with reduced abilities to learn. Examples include intellectual disabilities (mental retardation) and pervasive developmental disorders (e.g., autism).
Restriction: PSYCH 752

PSYCH 755 15 Points
Gender, Power, and Sexuality
This seminar-based course will allow students to explore a broad range of topics such as: sexual coercion, prostitution, rape, pornography, safer sex, lesbian and gay sexuality, heterosexuality, bisexuality, sexology, sex therapy, intersex, transgender, sexuality and culture. The emphasis will be on looking at questions from the perspective of theoretical approaches such as Foucault’s work on sexuality and feminist theories.

PSYCH 756 15 Points
Dynamics of Brain and Behaviour
Examines the behavioural and neural changes that result from normal development, those that may arise in the context of neurological diseases and disorders, and the changes that can be elicited via interventions. Topics include the design and implementation of interventions to improve mental and physical health, methods to evaluate characteristics of change, and the precise mechanisms of neural and behavioural change. Recommended preparation: PSYCH 305

PSYCH 757 15 Points
PSYCH 757A 7.5 Points
PSYCH 757B 7.5 Points
Advanced Applied Behaviour Analysis
Advanced education and training in applied behaviour analysis (ABA) in preparation for a professional career. Topics include ethical, professional, and practical issues confronting behaviour analysts in employment; recent research in ABA and other sciences with respect to clinical, educational, and other populations with whom behaviour analysts typically work.
Prerequisite: PSYCH 750, 751
Corequisite: PSYCH 651
Restriction: PSYCH 753
To complete this course students must enrol in PSYCH 757 A and B, or PSYCH 757.

PSYCH 758 15 Points
Ethnicity, Identity and Culture
Students will draw upon Indigenous and cultural psychological frameworks to examine how psychological research is conducted with ethnic communities, and will examine the influences of culture, values and beliefs across selected topics (e.g. resiliency, language and masculinity).

PSYCH 759 15 Points
Advanced Behavioural Psychology
Examination of selected topics in contemporary behavioural psychology. The specific topics covered depend partly on student interest, exploring research on the relation between behaviour and environment, considering both animal and human behaviour, and both lab-based research and translation of that research into understanding behaviour of significance to society.

PSYCH 761 15 Points
Organisational Psychology
Focuses on attitudes and behaviours at work that reflect or impact on the relationship between the employee and employer, with a particular emphasis on topics that are proposed to impact on employee well-being and productivity (e.g., job satisfaction, motivation, leadership). Students will be encouraged to adopt a scientist-practitioner perspective, through class discussions and assignments.

PSYCH 763A 22.5 Points
PSYCH 763B 22.5 Points
Portfolio of Professional Practice Reports
A portfolio of original reports associated with the student’s practicum experience and demonstrating the ability to make appropriate use of the scientific literature in solving
problems in professional practice, as required by the New Zealand Psychologists Board for the practice of psychology. Corequisite: PSYCH 651
To complete this course students must enrol in PSYCH 763 A and B

PSYCH 764 15 Points
Dual Process Theories of Human Cognition
Explores how dual-process theories in cognitive, social and developmental psychology account for human thought and action in terms of the interaction between automatic (implicit, parallel) and controlled (explicit, serial) processes. Topics of focus include memory, learning, numerical cognition, theory of mind, moral reasoning, attribution, executive functioning and decision making.

PSYCH 765 15 Points
Special Topic: Pacific Psychologies
Explores how Pacific knowledges and worldviews shape and are shaped by Pacific communities to make meaning of and respond to a broad range of topics relevant to psychology.

PSYCH 766 15 Points
Occupational Health Psychology
Students will focus on the in-depth treatment of this area, focusing primarily on occupational stress, including coverage of topics such as: work, life, and family, job insecurity, workplace incivility, abusive supervision, positive aspects of workplaces, as well as stress management interventions.

PSYCH 767 15 Points
Gender Violence
What does it mean to say that violence is gendered? How does a gender analysis shape our understanding of the nature of problems like sexual violence, domestic violence, street harassment and online abuse? And how does it guide our responses to the harm of violence and our strategies for prevention? This course will bring a critical feminist lens to understanding key questions, theories and debates in research on gender violence.

PSYCH 768 15 Points
Special Topic: Sex and Well-Being

PSYCH 769 15 Points
Special Topic: Developmental Psychology: A Critical Lens

PSYCH 770 15 Points
Behavioural Insights
Explores how cognitive biases and errors cause us to behave in irrational ways and how nudging and debiasing can mitigate these effects. Introduces students to methods to run behavioural insight analyses in real-world settings.

PSYCH 771A 30 Points
PSYCH 771B 30 Points
Clinical Practice 1 and Professional issues
Consists of two parts: First, psychological assessment and therapy for diverse clinical populations, including adult, and child and family. Cognitive behaviour therapy and family therapy are central, but other models are included. Consideration of psychotherapy research and practical exercises are incorporated. Secondly, ethics, bicultural and cross-cultural practice, and other professional issues relevant to the practice of clinical psychology are covered. Evaluation is by internal assessment.
To complete this course students must enrol in PSYCH 771 A and B

PSYCH 772A 30 Points
PSYCH 772B 30 Points
Clinical Practice 2
Advanced psychological assessment and therapy for diverse clinical populations, including adult, and child and family. Cognitive behaviour therapy, narrative therapy, psychodynamic therapy, and the trauma model are emphasised. Includes two, 200 hour placements, in either an adult setting or a child and family setting. Evaluation is by internal assessment, including assessment by field supervisors.
To complete this course students must enrol in PSYCH 772 A and B

PSYCH 773A 60 Points
PSYCH 773B 60 Points
Clinical Internship
Includes a practical component of supervised clinical work of not less than 1500 hours in an approved health setting. Emphasis is placed on the application of research principles and designs in routing clinical practice. A university-based seminar series that covers topics relevant to advanced, intern-level practice is included. Evaluation is by internal assessment, and assessment by field supervisors.
To complete this course students must enrol in PSYCH 773 A and B

PSYCH 774A 30 Points
PSYCH 774B 30 Points
Clinical Internship Part Time
Includes a practical component of supervised clinical work of not less than 1500 hours in an approved health setting. Emphasis is placed on the application of research principles and designs in routing clinical practice. A university-based seminar series that covers topics relevant to advanced, intern-level practice is included. Evaluation is by internal assessment, and assessment by field supervisors.
To complete this course students must enrol in PSYCH 774 A and B

PSYCH 775 15 Points
Special Topic: Visual perception in brains and machines
Explores current debates on how to build and assess computational models of human visual perception. Students will learn how state-of-the-art artificial systems perform visual tasks, and gain hands-on experience interacting with these systems. Literature from the field of visual neuroscience will examine the ways in which these models may work similarly to, and differently from, human vision.

PSYCH 776 15 Points
Special Topic: Psychology of Music
Music is a cultural signature of our species, appearing frequently in daily life, across human societies, and throughout our history with striking diversity. This course will provide an in-depth exploration of the psychology of music.

PSYCH 777 15 Points
Special Topic: Illusory Line Motion

PSYCH 778 15 Points
Topics in Sensation and Perception
A range of topics in Sensation and Perception will be explored, including those of applied interest, experimental approaches, and methods. Examples include cross-modal effects on taste perception, misophonia and misokinesia, the five basic tastes, false memory for foods, threshold
estimation, preference testing, the auditory sensory meridian response, and other contemporary topics.

**PSYCH 779A** 7.5 Points
**PSYCH 779B** 7.5 Points

**Research and Communication Skills - Level 9**
Advanced skills associated with developing innovative research designs and communicating information about research designs, outcomes, and the implications of one’s findings are essential to the research process. Students will undertake exercises designed to develop these advanced skills, including writing a research proposal, presenting a seminar on their research project, preparing and presenting a research poster, and additional seminar-based exercises directed at research skill development.

Corequisite: PSYCH 780
Restriction: PSYCH 788, 789
To complete this course students must enrol in PSYCH 779 A and B

**PSYCH 780A** 15 Points
**PSYCH 780B** 15 Points

**Honours Research Project - Level 9**
Corequisite: PSYCH 779
Restriction: PSYCH 788, 789
To complete this course students must enrol in PSYCH 780 A and B

**PSYCH 788A** 22.5 Points
**PSYCH 788B** 22.5 Points

**Honours Dissertation in Psychology - Level 9**
Restriction: PSYCH 789
To complete this course students must enrol in PSYCH 788 A and B

**PSYCH 790** 45 Points
**PSYCH 790A** 15 Points
**PSYCH 790B** 30 Points

**Dissertation in Organisational Psychology - Level 9**
To complete this course students must enrol in PSYCH 790 A and B, or PSYCH 790

**PSYCH 793** 60 Points
**PSYCH 793A** 30 Points
**PSYCH 793B** 30 Points

**Dissertation - Level 9**
To complete this course students must enrol in PSYCH 793 A and B, or PSYCH 793

**PSYCH 794A** 30 Points
**PSYCH 794B** 60 Points

**Thesis in Organisational Psychology - Level 9**
To complete this course students must enrol in PSYCH 794 A and B

**PSYCH 796A** 60 Points
**PSYCH 796B** 60 Points

**Masters Thesis in Psychology - Level 9**
To complete this course students must enrol in PSYCH 796 A and B

**Psychology**

**Postgraduate 700 Level Courses**

**PSYCHOL 700** 15 Points

**Special Topic: Wairua, Wellbeing and Cultural Considerations**
Wairua is multi-faceted and central to holistic wellbeing. This course privileges Mātauranga Māori in the exploration of wairua and wellbeing and will provide a strong foundation for working with Māori. Students engage with topics relevant to indigenous cultural considerations in psychological research and practice. Includes self-reflection and group work in a wānaga/noho marae setting.

**PSYCHOL 701** 15 Points

**Special Topic**

**Named Doctoral Courses**

**PSYCH 800** 120 Points

**Scientist-practitioner Model**
Advanced research based psychological assessment and therapy skills for diverse ages, cultures and clinical settings, and for complex clinical issues. Cognitive, behavioural, systemic, and mātauranga Māori models are central. Development of leadership, integrity, cultural sensitivity and other professional competences to allow registration with the New Zealand Psychologists Board. Supervised practicum experience includes three 200-hour placements and a 1,500 hour internship.

**PSYCH 801** 30 Points

**Scientist-practitioner Model 1**
Research based psychological assessment and therapy skills for diverse clinical populations, including adult, child and family. Cognitive-behaviour therapy and family therapy are central, but other models are included. Advanced clinical research design, ethics, bicultural and cross-cultural practice, supervision practice, and other professional issues relevant to the practice of clinical psychology are covered. Evaluation is by internal assessment. Includes one 200-hour placement in either an adult or a child and family setting. Evaluation is by internal assessment, including assessment by field supervisors.

**PSYCH 802** 30 Points

**Scientist-practitioner Model 2**
Advanced psychological assessment and therapy skills for diverse clinical populations, including adult, and child and family. Cognitive-behaviour therapy, family therapy, narrative therapy, psychodynamic therapy, and the trauma model are emphasised. Includes two 200-hour placements, in either an adult setting or child and family setting. One of these may, depending on staff availability, be in a specialist setting. Options may include: clinical neuropsychology, forensic psychology, assessment and psychological treatment of psychoses, child and adolescent clinical psychology, drug and alcohol addiction, and others. Evaluation is by internal assessment, including assessment by field supervisors.

Prerequisite: PSYCH 801

**PSYCH 803** 60 Points

**Internship**
This includes a practical component of supervised clinical work of not less than 1,500 hours in an approved setting. Emphasis is placed on the application of research principles and designs in routine psychological clinical practice. A university based seminar course that covers topics relevant to advanced, intern-level practice is included. Evaluation is by internal assessment, and assessment by field supervisors.

Prerequisite: PSYCH 801, 802
PSYCH 897  
**Portfolio of Clinical Research**  
Five original research projects demonstrating appropriate use of the scientist-practitioner model (single case design, programme evaluation or group research may be included). One project will be conducted within each of the three placements associated with the courses PSYCH 801 and 802, and two within the Internship, PSYCH 803. At least one project should be related to research with an adult population, and at least one with a child and family population. The Portfolio will be examined by two internal academic psychologists and assessed by the two external Thesis examiners.  
*Restriction: PSYCH 894, 895*

PSYCH 899  
**Thesis**  
An original research dissertation completed over the three years of the degree (75 points in year 1, 60 points in year 2, and 15 points in year 3). The research may be basic or applied, but must be relevant to some area of clinical psychology and represent a significant contribution to knowledge in the field.  
*Restriction: PSYCH 896*

---

**Pūtaiao**

**Stage II**

PŪTAIAO 200  
**Mātauranga and Kaupapa Māori Science**  
Mātauranga is central to the future practice of science in Aotearoa New Zealand. Explores foundational understandings of mātauranga Māori and Kaupapa Māori for scientists. Students will meaningfully and respectfully engage with te ao Māori through place-based relational learning and case studies grounded in whanaungatanga. Students will experience Māori ways of being, knowing, and doing.  
*Prerequisite: 60 points at Stage I*

---

**Regional Development**

**Postgraduate 700 Level Courses**

REGDEV 701  
**Regional Futures**  
Examines the changing nature of the region as a spatial category of social and political economy. The course draws on place-based understandings of regional development to address how regions are being reassembled and what that means for the futures of people and place. Particular reference, in the New Zealand context, is made to the interconnections between regional and iwi developments.

---

**Science Enterprise**

**Postgraduate 700 Level Courses**

SCIENT 701  
**Accounting and Finance for Scientists**  
Builds upon scientific numeracy in exploring the sources, uses and reporting of accounting and financial information in science-based enterprises; application of capital budgeting and valuation theory to science-relevant situations; and key bases for financially-informed project and enterprise decision-making and the management of economic resources.

SCIENT 702  
**Marketing for Scientific and Technical Personnel**  
Examines the intermediaries and end-users of technical and research-related applications, products and services; their 'customers', 'value chain', 'marketing', and related concepts in both highly-regulated and open markets; and how effective science-related marketing strategies and promotional efforts are developed and communicated.

SCIENT 703  
**Frontiers in Biotechnology - Level 9**  
An examination of how breakthrough discoveries in contemporary life sciences develop through to commercialisation. Students will integrate their advanced biological skills with business knowledge to critically analyse the commercialisation of scientific discoveries and communicate their findings effectively to both scientists and industry stakeholders.

SCIENT 704  
**Law and Intellectual Property**  
An explanation of the legal system including basic concepts of contract and corporate law in a biotechnology context. Emphasis will be upon intellectual property laws in particular patent law and practice and other means of protecting new ideas, discoveries and inventions. Also covered will be technology licensing and basic competition and marketing law.

SCIENT 705  
**Research Commercialisation**  
Integrative exploration of common theories, processes and models involved in commercialising scientific research. Topics include technology transfer, technological entrepreneurship, commercial potential, risk, and valuation assessment and related tools. Utilises multiple learning approaches including case studies and a 'hands-on' term project.  
*Prerequisite: SCIENT 701, 702*

SCIENT 706  
**Commercialisation Project**  
A supervised practical application of the theories, concepts and techniques of commercialisation, covered in courses SCIENT 701-705, to a research-based opportunity and its related intellectual property estate.  
*Prerequisite: SCIENT 701, 702, 704  
Corequisite: SCIENT 703, 705*

SCIENT 707  
**Special Topic**

SCIENT 720  
**Science Enterprise Research Methods**  
Students will become familiar with underlying theory and best practices in the principal qualitative and quantitative methods applicable to, and useful in, thesis research on commercialisation and science-based enterprise.

SCIENT 721  
**Product Development and Regulatory Environments**  
Aims to give students an understanding of the stages of product development for therapeutics, diagnostics and medical devices, as well as the regulatory requirements affecting product development in the Life Sciences. Project management tools and processes will also be covered in the context of product development.

SCIENT 722  
**Current Issues in Bioscience Enterprise**  
An exploration of trends and developments of importance
Science to Life Sciences-related enterprises and industries. Utilises multiple learning approaches, e.g., independent reading, case studies, projects, guest speakers, presentations and related discussions.

**SCIENT 794A** 45 Points  
**SCIENT 794B** 45 Points  
**Thesis - Level 9**  
Research project addressing a topic relevant to the commercialisation of research. Overseen jointly by both academic and industry supervisors.  
*To complete this course students must enrol in SCIENT 794 A and B*

**SCIENT 795A** 30 Points  
**SCIENT 795B** 60 Points  
**Thesis - Level 9**  
Research project addressing a topic relevant to the commercialisation of research. Overseen jointly by both academic and industry supervisors.  
*To complete this course students must enrol in SCIENT 795 A and B*

### Science General

#### Stage I

**SCIGEN 101** 15 Points  
**SCIGEN 101G** 15 Points  
**Communicating in a Knowledge Society**  
Effective communication is required for specialists in all fields to engage meaningfully with society. In this course students gain an understanding of the important role communication plays in a knowledge society. Through case studies and practical experience students learn about the responsibilities and skills required to communicate with a variety of audiences. They learn how to effectively manage and present data and practice oral, written, visual and electronic communication.

**SCIGEN 102** 15 Points  
**SCIGEN 102G** 15 Points  
**Contemporary Science in Aotearoa New Zealand**  
What does it mean to do science here and now? This course considers how knowledge of place enhances your learning, the significance of Te Tiriti o Waitangi, and how knowledge systems frame understanding. Students will think critically about the relationships between science and our environment, along with the ethics of science in practice.

**SCIGEN 189** 10 Points  
**Special Topic**  
Selected topics in Science designed as a short credit course for exchange students coming to New Zealand. This course is only available to inbound exchange students.  
*Prerequisite: Permission of Head of Department*

#### Stage II

**SCIGEN 201** 15 Points  
**SCIGEN 201G** 15 Points  
**Innovating in a Knowledge Society**  
Interdisciplinary examination of science innovation at policy, organisational and project levels including context, impacts and roles of business and research organisations, and ways innovations are presented and received. Case study analysis of the business environment including how innovation is both enabled and constrained in science-based organisations and society, and innovation strategies in science-based organisations.

### Stage III

**SCIGEN 301** 15 Points  
**SCIGEN 301G** 15 Points  
**Engaging in a Knowledge Society**  
Addressing complex issues requires knowledge experts to engage with a variety of people. Solutions will be gained from collaborations that co-produce knowledge in transdisciplinary partnerships that lead to new ways of thinking. This course explores meaningful ways to engage with communities, and reassesses current ways of knowing and doing.  
*Prerequisite: Any 180 points*

**SCIGEN 310** 15 Points  
**Directed Study**  
Directed study on a topic or topics approved by the Academic Head.  
*Prerequisite: Approval of Academic Head or nominee and Dean or nominee*

**SCIGEN 311** 0 Points  
**Scholarship Research Project**  
*Prerequisite: Approval of Academic Head or Nominee*

**SCIGEN 399** 15 Points  
**Capstone: Science**  
A multidisciplinary capstone for students coming from any science discipline. Students apply their cumulative knowledge and skills to a scientific phenomenon from a list of topics, considering the science in the context of sociocultural, ethical, or environmental challenges. Emphasises team as well as self-directed work to support mastery of academic competencies and key transferable skills.  
*Prerequisite: 45 points passed at Stage III and Associate Dean (Academic) or nominee approval*  
*Restriction: Any other BSc capstone*

### Science Scholars

#### Stage I

**SCISCHOL 100** 15 Points  
**SCISCHOL 100A** 7.5 Points  
**SCISCHOL 100B** 7.5 Points  
**Science in Action**  
An introduction to the big questions in science, approaches to scientific research, and how science and scientists play a role in society. Students will explore scientific knowledge and enquiry from a broad, cross-disciplinary perspective.  
*Prerequisite: Programme Director approval*  
*Restriction: SCISCHOL 101*

**SCISCHOL 101** 0 Points  
**Science in Action 1**  
An introduction to the big questions in science, approaches to scientific research, and how science and scientists play a role in society. Students will explore scientific knowledge and enquiry from a broad, cross-disciplinary perspective.  
*Prerequisite: Programme Director approval*

**SCISCHOL 102** 0 Points  
**Science in Action 2**  
An advanced introduction to the big questions in science,
approaches to scientific research, and how science and scientists play a role in society. Students will explore scientific knowledge and enquiry from a broad, cross-disciplinary perspective.

Prerequisite: Programme Director approval

Stage II

SCISCHOL 201 0 Points
Introduction to Science and Innovation
An exploration of issues affecting Science in Society, including governance, funding and policies. Students will also explore the development of modern scientific method and the challenges of engaging in scientific research.

Prerequisite: Programme Director approval

SCISCHOL 202 15 Points
SCISCHOL 202A 7.5 Points
SCISCHOL 202B 7.5 Points
Research and Discovery
An exploration of scientific research skills and communication. Students will develop an understanding of the impact of culture on scientific discovery, the skills to develop and document a research proposal, and how to communicate scientific work in an area of choice.

Prerequisite: Programme Director approval

To complete this course students must enrol in SCISCHOL 202 A and B, or SCISCHOL 202

Stage III

SCISCHOL 301 0 Points
Advanced Science and Innovation
Explores the role of science in relation to the New Zealand and global economy and discusses issues including ownership, exploitation and stewardship of resources, indigenous science, biodiversity and National Science Challenges. Students will also explore the position of science nationally and globally and current scientific debates.

Prerequisite: Programme Director approval

SCISCHOL 302 15 Points
SCISCHOL 302A 7.5 Points
SCISCHOL 302B 7.5 Points
Science Scholars Project
Building on the research proposal developed in SCISCHOL 202, students will respond to a research question requiring data collection, analysis and interpretation, discussion and presentation of project outcomes.

Prerequisite: Programme Director approval

To complete this course students must enrol in SCISCHOL 302 A and B, or SCISCHOL 302

Speech Science

Postgraduate 700 Level Courses

SPCHSCI 701 15 Points
Dysphagia for Speech Language Therapists
Assessment, analysis and intervention for children and adults with dysphagia. This is a fully online course for qualified Speech-language Therapists.

Restriction: SPCHSCI 721

SPCHSCI 711 15 Points
Introduction to Communication in Children and Adults
Communication development and disorders. Normal communication development across the lifespan, in the context of total child development, of major changes in expectations such as school and literacy, and of variations such as cultural differences and multilingualism. Applications of these concepts in an introduction to the assessment and management of communication disorders in children and of acquired disorders in adults.

SPCHSCI 712 15 Points
Linguistics for Speech Language Therapy
The study of articulatory phonetics, phonemic transcription using the International Phonetic Alphabet, and the relationship between phonetics and phonology. Additional language analysis covering morphology, syntax, semantics and pragmatics.

SPCHSCI 713 15 Points
Anatomy and Physiology for Speech Language Therapy
Anatomy and physiology of speech, language and hearing, including the respiratory, phonatory, articulatory, auditory and peripheral and central nervous systems underlying spoken communication. Application of this knowledge is through manipulation of human models and supported computer laboratories.

SPCHSCI 714 15 Points
Speech Language Therapy Clinical Practicum 1
Clinical observation under supervisor guidance in a variety of settings, establishing links between theory and practice. This course is supported by weekly tutorial sessions.

SPCHSCI 721 15 Points
Dysphagia - Level 9
Assessment and management of dysphagia (adult and paediatrics). Critical evaluation and synthesis of knowledge are presented in a substantial individual report.

Prerequisite: SPCHSCI 713

Restriction: SPCHSCI 701

SPCHSCI 722 15 Points
Speech, Language and Communication Needs in Children
The nature of speech, language and communication needs in children is introduced by focusing on pre-verbal and very early communication, the development of speech, language and communication through preschool and primary school ages, and adolescence. Topics will include developmental language disorders and phonological disorders in children as well as contextual approaches to assessment and intervention, incorporating clinical decision-making, cultural and linguistic diversity and evidence-based practices.

Prerequisite: SPCHSCI 711

SPCHSCI 723 15 Points
Communication Disorders in Adults
This course examines theoretical, research and clinical issues in the field of acquired neurogenic communication disorders. It builds on existing knowledge and presents the process of assessment, differential diagnosis, intervention procedures and treatment specifically designed for these conditions. Skills are developed in analysing client-specific approaches, therapeutic programmes and incorporating measures of efficacy into therapy plans.

Prerequisite: SPCHSCI 713

SPCHSCI 724 15 Points
Speech Language Therapy Clinical Practicum 2
Clinical observation and practice in a variety of settings, enabling students to work with clients under supervision. This course is supported by weekly tutorials.

Prerequisite: SPCHSCI 714
SPCHSCI 733 15 Points

Audiology for Speech Language Therapy
Study of types of hearing impairment, pathologies of the hearing mechanism, tests and clinical procedures used in audiological evaluations and hearing instrumentation. 
Prerequisite: SPCHSCI 713
Restriction: SPCHSCI 732

SPCHSCI 734 15 Points
Speech Language Therapy Clinical Practicum 3 - Level 9
Clinical practice in a variety of settings with students taking responsibility for the assessment and management of cases with supervisor guidance. The management plan and decision-making process for the client and their family are outlined and the project outcomes after analysis are presented, in a substantial report. Weekly tutorials support the course.
Prerequisite: SPCHSCI 724

SPCHSCI 736 15 Points
Topics in Communication Disorders in Adults - Level 9
Advanced study of speech-language therapy (SLT) in adult populations including working with Māori, bilingualism, progressive conditions, palliative care, lifelong disability and ageing effects on audition and language. It includes highly specialised theoretical and clinical approaches which underpin the content, with implications for SLT practice in the New Zealand context being the predominant focus. Involves an individual management plan for a client resulting in a substantial individual report.
Prerequisite: SPCHSCI 723
Restriction: SPCHSCI 741

SPCHSCI 743 15 Points
Speech, Language and Communication in Needs in Children 2 - Level 9
Extends topics introduced in SPCHSCI 722 by focusing on advanced topics in speech, language and communication needs in children. This includes in-depth learning in speech sound disorders, oromotor difficulties, intellectual and/or physical disability, autism spectrum disorder as well as language disorders in adolescents. Consolidating and extending knowledge of evidence-based practice in child speech and language will include critical evaluation and synthesis of terminology and concepts.
Prerequisite: SPCHSCI 722
Restriction: SPCHSCI 732

SPCHSCI 744 15 Points
Speech Language Therapy Clinical Practicum 4 - Level 9
Clinical practice in a variety of settings with the student demonstrating independent practice and problem solving skills. Involves an individual e-portfolio which includes management session plans with clients as well as peer and supervisor feedback. Supervisory guidance will be given and the course will be supported by weekly tutorials.
Prerequisite: SPCHSCI 734

SPCHSCI 746 15 Points
Voice and Fluency - Level 9
Voice - study of the voice and the assessment and management of voice disorders (adult and paediatrics). Fluency - assessment and management of dysfluency disorders (adult and paediatrics). Critical evaluation and synthesis of knowledge are presented in substantial individual case reports.
Prerequisite: SPCHSCI 713, 733
Restriction: SPCHSCI 731

SPCHSCI 751 15 Points
Special Topic

SPCHSCI 752 15 Points
Research Project

SPCHSCI 753 15 Points
Special Topic

SPCHSCI 754 15 Points
Special Topic

SPCHSCI 790 30 Points
SPCHSCI 790A 15 Points
SPCHSCI 790B 15 Points
Research Project - Level 9
Restriction: SPCHSCI 735, 742, 745
To complete this course students must enrol in SPCHSCI 790 A and B, or SPCHSCI 790

SPCHSCI 796A 60 Points
SPCHSCI 796B 60 Points
MSc Thesis in Speech Science - Level 9
To complete this course students must enrol in SPCHSCI 796 A and B

Statistics

Stage I

STATS 100 15 Points
Concepts in Statistics
A first exposure to statistics that builds data handling and literacy skills and develops conceptual thinking through active participation in problems using real data, computer simulations and group work. STATS 100 makes full use of appropriate technology and prepares students to use statistics in their own disciplines.
Restriction: May not be taken with, or after passing, any other Statistics course

STATS 101 15 Points
STATS 101G 15 Points
Introduction to Statistics
Intended for anyone who will ever have to collect or make sense of data, either in their career or private life. Steps involved in conducting a statistical investigation are studied with the main emphasis being on data analysis and the background concepts necessary for successfully analysing data, extrapolating from patterns in data to more generally applicable conclusions and communicating results to others. Other topics include probability: confidence intervals, statistical significance, t-tests, and p-values; nonparametric methods; one-way analysis of variance, simple linear regression, correlation, tables of counts and the chi-square test.

STATS 108 15 Points
Statistics for Commerce
The standard Stage I Statistics course for the Faculty of Business and Economics or for Arts students taking Economics courses. Its syllabus is as for STATS 101, but it places more emphasis on examples from commerce.
Restriction: STATS 101, 102, 107, 191

STATS 125 15 Points
Probability and its Applications
Probability, conditional probability, Bayes theorem, random walks, Markov chains, probability models. Illustrations will be drawn from a wide variety of applications including:
Conditional expectation as a random variable, the use of the laws of large numbers and central limit theorem, classical limit theorems of probability and statistics known methods, and applications. Topics should include the

**Covers the fundamentals of probability through theory,**

**Probability: Theory and Applications**

**STATS 225** 15 Points

Prerequisite: 15 points at Stage I in Computer Science or equivalent

Technologies that perform these processes.

Experience with and understanding of the computer manipulation, and management. Students will also gain experience with and understanding of the computer technologies that perform these processes.

**Data Technologies**

Explores the processes of data acquisition, data storage and data processing using current computer technologies. Students will gain experience with and understanding of the processes of data acquisition, storage, retrieval, manipulation, and management. Students will also gain experience with and understanding of the computer technologies that perform these processes.

**Prerequisite:** 15 points at Stage I in Computer Science or Statistics

**STATS 225** 15 Points

**Probability: Theory and Applications**

Covers the fundamentals of probability through theory, methods, and applications. Topics should include the classical limit theorems of probability and statistics known as the laws of large numbers and central limit theorem, conditional expectation as a random variable, the use of generating function techniques, and key properties of some fundamental stochastic models such as random walks, branching processes and Poisson point processes.

**Prerequisite:** B+ or higher in ENGGEN 150 or ENGSCI 111 or STATS 125, or a B+ or higher in MATHS 190 and 130

**Corequisite:** 15 points from ENGSCI 211, MATHS 208, 250

**STATS 240** 15 Points

**Design and Structured Data**

An introduction to research study design and the analysis of structured data. Blocking, randomisation, and replication in designed experiments. Clusters, stratification, and weighting in samples. Other examples of structured data.

**Prerequisite:** STATS 101 or 108

**Restriction:** STATS 240

**STATS 255** 15 Points

**Optimisation and Data-driven Decision Making**

Explores methods for using data to assist in decision making in business and industrial applications. Software packages will be used to solve practical problems. Topics such as linear programming, transportation and assignment models, network algorithms, queues, Markov chains, inventory models, simulation, analytics and visualisation will be considered.

**Prerequisite:** ENGS 255 or equal

**Restriction:** STATS 255

**Stage III**

**STATS 302** 15 Points

**Applied Multivariate Analysis**

Covers the exploratory analysis of multivariate data, with emphasis on the use of statistical software and reporting of results. Topics covered include: techniques for data display, dimension reduction and ordination, cluster analysis, multivariate ANOVA and associated methods.

**Prerequisite:** ENGS 314 or STATS 201 or 208

**Restriction:** STATS 767

**STATS 310** 15 Points

**Introduction to Statistical Inference**

Estimation, likelihood methods, hypothesis testing, multivariate distributions, linear models. **Prerequisite:** STATS 201 or 255, and 15 points from MATHS 208, 250 or equivalent

**Restriction:** STATS 732

**STATS 313** 15 Points

**Advanced Topics in Probability**

Characterisations of and relations between different kinds of random objects including random functions, random paths and random trees. Modes of convergence; the Law of Large Numbers and Central Limit Theorem.

**Prerequisite:** STATS 225

**Restriction:** STATS 710

**STATS 320** 15 Points

**Applied Stochastic Modelling**

Construction, analysis and simulation of stochastic models, and optimisation problems associated with them. Poisson process, Markov chains, continuous-time Markov processes. Equilibrium distribution, reaching probabilities and times, transient behaviour. Use of R to simulate simple stochastic
processes. Examples drawn from a range of applications including operations research, biology, and finance.

**STATS 325**

**Stochastic Processes**
Introduction to stochastic processes, including generating functions, branching processes, Markov chains, random walks.
Prerequisite: 8+ or higher in STATS 210 or B or higher in ENGS 314 or STAT 210 or 225 or 320, and 15 points from ENGS 211, MATHS 208, 250
Restriction: STATS 721

**STATS 326**

**Applied Time Series Analysis**
Components, decompositions, smoothing and filtering, modelling and forecasting. Examples and techniques from a variety of application areas.
Prerequisite: 15 points from ECON 211, ENGS 314, STATS 201, 208
Restriction: STATS 727

**STATS 330**

**Statistical Modelling**
Application of the generalised linear model and extensions to fit data arising from a range of sources including multiple regression models, logistic regression models, and log-linear models. The graphical exploration of data.
Prerequisite: ENGS 314 or STATS 201 or 208

**STATS 331**

**Introduction to Bayesian Statistics**
Introduces Bayesian data analysis using the WinBUGS software package and R. Topics include the Bayesian paradigm, hypothesis testing, point and interval estimates, graphical models, simulation and Bayesian inference, diagnosing MCMC, model checking and selection, ANOVA, regression, GLMs, hierarchical models and time series. Classical and Bayesian methods and interpretations are compared.
Prerequisite: ENGS 314 or STATS 201 or 208

**STATS 369**

**Data Science Practice**
Modern predictive modelling techniques, with application to realistically large data sets. Case studies will be drawn from business, industrial, and government applications.
Prerequisite: STATS 220 and STATS 210 or 225 and 15 points from ECON 221, STATS 201, 208, or ENGS 233 and 263
Restriction: STATS 765

**STATS 370**

**Financial Mathematics**
Mean-variance portfolio theory; options, arbitrage and put-call relationships; introduction of binomial and Black-Scholes option pricing models; compound interest, annuities, capital redemption policies, valuation of securities, sinking funds; varying rates of interest, taxation; duration and immunisation; introduction to life annuities and life insurance mathematics.
Prerequisite: 15 points at Stage II in Mathematics and 15 points at Stage II in Statistics
Restriction: STATS 722

**STATS 380**

**Statistical Computing**
Statistical programming using the R computing environment. Data structures, numerical computing and graphics.
Prerequisite: 15 points from ENGS 314, STATS 201, 208, 220

**STATS 383**

**The Science and Craft of Data Management**
A structured introduction to the science and craft of data management, including: data representations and their advantages and disadvantages; workflow and data governance; combining and splitting data sets; data cleaning; the creation of non-trivial summary variables; and the handling of missing data. These will be illustrated by data sets of varying size and complexity, and students will implement data processing steps in at least two software systems.
Prerequisite: ENGS 314 or STATS 201 or 208, and COMPSCI 101 or ENGS 233 or STATS 220

**STATS 392**

**Directed Study**
Directed study on a topic from Data Science, Statistics or Probability approved by the Academic Head or nominee.

**STATS 399**

**Capstone: Statistics in Action**
Provides opportunities to integrate knowledge in statistics and data science, and collaborate with others through a succession of group projects and activities.
Prerequisite: 30 points at Stage III in Statistics

### Postgraduate 700 Level Courses

**STATS 700**

**Spatial Statistics**
Advanced techniques in the analysis of spatial and spatiotemporal data. Modelling spatial dependence; hierarchical models with latent stochastic components using likelihood approximation techniques and Bayesian methodology.
Prerequisite: 15 points from STATS 325, 330, 331
Corequisite: 15 points from STATS 720, 762, 731

**STATS 701**

**Advanced SAS Programming**
A continuation of STATS 301, with more in-depth coverage of programming in the SAS language. Topics covered will include advanced use of the SAS language, advanced data step programming, macros, input and output, connectivity to other software platforms, SAS SQL.
Prerequisite: STATS 301

**STATS 702**

**Special Topic in Statistics 2**

**STATS 703**

**Special Topic in Statistics 1**

**STATS 705**

**Topics in Official Statistics**
Official statistics, data access, data quality, demographic and health statistics, other social statistics, economic statistics, analysis and presentation, case studies in the use of official statistics.

**STATS 707**

**Computational Introduction to Statistics**
An advanced introduction to statistics and data analysis, including testing, estimation, and linear regression.
Prerequisite: 15 points from STATS 101, 108 and 15 points from COMPSCI 101, MATHS 162
Restriction: ENGS 314, STATS 201, 207, 208, 210, 225

**STATS 708**

**Topics in Statistical Education**
Covers a wide range of research in statistics education at the school and tertiary level. There will be a consideration
of, and an examination of, the issues involved in statistics education in the curriculum, teaching, learning, technology and assessment areas.

STATS 709 30 Points
Predictive Modelling
Predictive modelling forecasts likely future outcomes based on historical and current data. Following an advanced introduction to statistics and data analysis, the course will discuss concepts for modern predictive modelling and machine learning.
Prerequisite: COMPSCI 130, MATHS 108, and 15 points from STATS 101, 108, or equivalent. Restriction: STATS 201, 207, 208, 210, 225, 707, 765

STATS 710 15 Points
Probability Theory
Fundamental ideas in probability theory; sigma-fields, laws of large numbers, characteristic functions, the Central Limit Theorem.
Prerequisite: B+ or higher in STATS 225 or 15 points from STATS 310, 320, 325

STATS 720 15 Points
Stochastic Processes
Prerequisite: STATS 320 or 325

STATS 721 15 Points
Foundations of Stochastic Processes
Fundamentals of stochastic processes. Topics include: generating functions, branching processes, Markov chains, and random walks.
Prerequisite: 15 points from STATS 125, 210, 225, 320 with at least a B+ and 15 points from MATHS 208, 250, 253. Restriction: STATS 325

STATS 722 15 Points
Foundations of Financial Mathematics
Fundamentals of financial mathematics. Topics include: mean-variance portfolio theory; options, arbitrage and put-call relationships; introduction to binomial and Black-Scholes option pricing models; compound interest, annuities, capital redemption policies, valuation of securities, sinking funds; varying rates of interest, taxation; duration and immunisation; introduction to life annuities and life insurance mathematics.
Prerequisite: 15 points at Stage II in Statistics or BIOSCI 209, and 15 points at Stage II in Mathematics. Restriction: STATS 370

STATS 723 15 Points
Stochastic Methods: Theory and Applications
Essential probabilistic techniques underlying discrete and continuous stochastic models and their applications. Markov processes in discrete and continuous time, diffusion processes, Ito's lemma, stochastic differential equations, and martingales. Applications may include models from biology and population genetics, physics, engineering, chemistry, finance, economics, and statistics.
Prerequisite: 15 points from ENGSCI 314, STATS 313, 325, or 15 points with a B+ or higher from STATS 210, 225, or B+ or higher in MATHS 250 and 15 points from STATS 125, 320, 370

STATS 724 15 Points
Operations Research
Continuous-time Markov processes; optimisation for jump Markov processes; Markov decision processes; queueing theory and stochastic networks.
Prerequisite: 15 points from STATS 320, 325, 720 with at least B+

STATS 725 15 Points
Special Topic

STATS 726 15 Points
Time Series
Stationary processes, modelling and estimation in the time domain, forecasting and spectral analysis.
Prerequisite: STATS 210, and 15 points from STATS 326, 786

STATS 727 15 Points
Foundations of Applied Time Series Analysis
Fundamentals of applied time series analysis. Topics include: components, decompositions, smoothing and filtering, modelling and forecasting. Examples and techniques from a variety of application areas are presented.
Prerequisite: 15 points from ECON 221, STATS 201, 207, 208, 707. Restriction: STATS 326

STATS 730 15 Points
Statistical Inference
Fundamentals of likelihood-based inference, including sufficiency, conditioning, likelihood principle, statistical paradoxes. Theory and practice of maximum likelihood. Examples covered may include survival analysis, GLM's, nonlinear models, random effects and empirical Bayes models, and quasi-likelihood.
Prerequisite: STATS 310 or 732

STATS 731 15 Points
Bayesian Inference
A course in practical Bayesian statistical inference covering: the Bayesian approach specification of prior distributions, decision-theoretic foundations, the likelihood principle, asymptotic approximations, simulation methods, Markov Chain Monte Carlo methods, the BUGS and CODA software, model assessment, hierarchical models, application in data analysis.
Prerequisite: STATS 331 and 15 points from STATS 210, 225

STATS 732 15 Points
Foundations of Statistical Inference
Fundamentals of statistical inference including estimation, hypothesis testing, likelihood methods, multivariate distributions, joint, marginal, and conditional distributions, vector random variables, and an introduction to decision theory and Bayesian inference.
Prerequisite: STATS 210 or 225, and 15 points from MATHS 208, 250. Restriction: STATS 310

STATS 735 15 Points
Statistics in Ecology and Population Genetics
Concepts of population modelling and inference from ecological and genetic data. Topics covered include estimation of population size, spatial models, genetic structure and assignment. No previous knowledge of ecology or genetics is required. Recommended preparation: STATS 730
Prerequisite: STATS 310 or 732

STATS 737 15 Points
Modern Bayesian Methods
Concepts and tools underlying Bayesian methods in many modern areas of statistics. Advanced Markov-chain
Monte Carlo, model evaluation using information criteria and Bayesian cross-validation, robustness, Bayesian non-parametrics. Applications may include hierarchical modelling, time-series, spatial data, Bayesian networks, genetics, approximate Bayesian computation for big data, artificial intelligence.

Prerequisite: STATS 731

STATS 740: 15 Points
Sample Surveys
The design, management and analysis of sample surveys. Topics such as the following are studied: Types of Survey. Revision of statistical aspects of sampling. Preparing surveys. Research entry: problem selection, sponsorship and collaboration. Research design: methodology and data collection; Issues of sample design and sample selection. Conducting surveys: Questionnaires and questions; Non-sampling issues; Project management; Maintaining data quality. Concluding surveys: Analysis; Dissemination.

Prerequisite: 15 points from STATS 240, 330, 340, and 15 points from Stage II Mathematics

STATS 741: 15 Points
Sample Surveys and Experimental Design
Design, implementation and analysis of sample surveys and of experiments. This course covers the foundations of both areas.

Prerequisite: 15 points from STATS 201, 207, 208
Restriction: STATS 340

STATS 747: 15 Points
Statistical Methods in Marketing
Stochastic models of brand choice, applications of General Linear Models in marketing, conjoint analysis, advertising media models and marketing response models.

Prerequisite: 15 points from STATS 201, 207, 208, 210, 707

STATS 750: 15 Points
Experimental Design
The design and analysis of data from experiments involving factorial and related designs and designs which have the property known as general balance (this includes most of the standard designs), and more general designs with blocking and replication. Response surface methodology. Sequential experimentation.

Prerequisite: 15 points from STATS 240, 330, 340, 762

STATS 760: 15 Points
A Survey of Modern Applied Statistics
A survey of techniques from modern applied statistics. Topics covered will be linear, non-linear and generalised linear models, modern regression including CART and neural networks, mixed models, survival analysis, time series and spatial statistics.

Prerequisite: STATS 310, 330

STATS 761: 15 Points
Mixed Models
Linear mixed effect models for the analysis of data from small experiments, particularly those cases where the data are unbalanced. Methods include restricted maximum likelihood for the estimation of variance components.

STATS 762: 15 Points
Regression for Data Science
Application of the generalised linear model to fit data arising from a wide range of sources, including multiple linear regression models, Poisson regression, and logistic regression models. The graphical exploration of data. Model building for prediction and for causal inference. Other regression models such as quantile regression. A basic understanding of vector spaces, matrix algebra and calculus will be assumed.

Prerequisite: 15 points from STATS 210, 225, 707, and 15 points from ENGSCI 314, STATS 201, 207, 208
Restriction: STATS 330

STATS 763: 15 Points
Advanced Regression Methodology

Prerequisite: STATS 210 or 225, and 15 points from STATS 330, 762 and 15 points at Stage II in Mathematics

STATS 765: 15 Points
Statistical Learning for Data Science
Concepts of modern predictive modelling and machine learning such as loss functions, overfitting, generalisation, regularisation, sparsity. Techniques including regression, recursive partitioning, boosting, neural networks. Application to real data sets from a variety of sources, including data quality assessment, data preparation and reporting.

Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208 and 15 points from STATS 210, 225, 707
Corequisite: May be taken with STATS 707
Restriction: STATS 369

STATS 766: 15 Points
Multivariate Analysis
A selection of topics from multivariate analysis, including: advanced methods of data display (e.g., Correspondence and Canonical Correspondence Analysis, Biplots, and PREFMAP) and an introduction to classification methods (e.g., various types of Discriminant Function Analysis).

Prerequisite: STATS 310 or 732

STATS 767: 15 Points
Foundations of Applied Multivariate Analysis
Fundamentals of exploratory analysis of multivariate data, with emphasis on the use of statistical software and reporting of results. Topics covered include: techniques for data display, dimension reduction and ordination, clustering analysis, multivariate ANOVA and associated methods.

Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208, 707
Restriction: STATS 302

STATS 768: 15 Points
Longitudinal Data Analysis
Exploration and regression modelling of longitudinal and clustered data, especially in the health sciences: mixed models, marginal models, dropout, causal inference.

Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208, 210, 707

STATS 769: 15 Points
Advanced Data Science Practice
Databases, SQL, scripting, distributed computation, other data technologies.

Prerequisite: 15 points from STATS 290, 369, 380 and 15 points from ENGSCI 314, STATS 201, 207, 208, 707

STATS 770: 15 Points
Introduction to Medical Statistics
An introduction to ideas of importance in medical statistics, such as measures of risk, basic types of medical study,
causation, ethical issues and censoring, together with a review of common methodologies.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208 and 15 points from STATS 210, 225, 707

STATS 771 15 Points  
Special Topic

STATS 773 15 Points  
Design and Analysis of Clinical Trials  
The theory and practice of clinical trials, including: design issues, data management, common analysis methodologies, intention to treat, compliance, interim analyses and ethical considerations.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208, 707

STATS 776 15 Points  
Estimating Animal Abundance  
Fundamentals of the statistical methods that underly capture-recapture, distance sampling and occupancy analysis, focusing on the critical role that p, the probability of detection, plays in estimating n, the number of animals, or psi, the probability of species presence. Extensions to these fundamental tools including spatially explicit, genetic, and hierarchical methods will be covered.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208, 707

STATS 779 15 Points  
Professional Skills for Statisticians  
Statistical software, data management, data integrity, data transfer, file processing, symbolic manipulation, document design and presentation, oral presentation, professional ethics.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 208, 707

STATS 780 15 Points  
Statistical Consulting  
Students will learn about the practicalities of statistical consulting. Students will carry out a statistical consulting project, including the writing of a report, under the supervision of a member of the academic staff.  
Prerequisite: STATS 330 or 762

STATS 781 30 Points
STATS 781A 15 Points
STATS 781B 15 Points
Research Project - Level 9  
Restriction: STATS 789  
To complete this course students must enrol in STATS 781 A and B, or STATS 781

STATS 782 15 Points  
Statistical Computing  
Professional skills, advanced statistical programming, numerical computation and graphics.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 208, 707

STATS 783 15 Points  
Simulation and Monte Carlo Methods  
A practical introduction to modern simulation and Monte Carlo techniques and their use to simulate real situations and to solve difficult statistical inferential problems whose mathematical analysis is intractable.

STATS 784 15 Points  
Statistical Data Mining  
Data cleaning, missing values, data warehouses, security, fraud detection, meta-analysis, and statistical techniques for data mining such as regression and decision trees, modern and semiparametric regression, neural networks, statistical approaches to the classification problem.  
Prerequisite: 15 points from STATS 210, 225, and 15 points from STATS 330, 762

STATS 785 15 Points  
Foundations of Statistical Data Management  
SAS statistical software with an emphasis on using SAS as a programming language for purposes of database manipulation, simulation, statistical modelling and other computer-intensive methods.  
Prerequisite: 15 points from ENGSCI 314, STATS 201, 207, 208, 707  
Restriction: STATS 301

STATS 786 15 Points  
Time Series Forecasting for Data Science  
Delivers a comprehensive understanding of widely used time series forecasting methods, illustrates how to build models to uncover the structure in time series and perform model diagnostics to assess the fit of models, and develops analytical and computer skills that are necessary for analysing time series data. Familiarity with coding in R is recommended.  
Prerequisite: 15 points from STATS 201, 208  
Restriction: STATS 326, 727

STATS 787 15 Points  
Data Visualisation  
Effective visual presentations of data. Topics may include: how to present different types of data; human perception; graphics formats; statistical graphics in R; interactive graphics; visualising high-dimensional data; visualising large data.  
Prerequisite: 15 points from STATS 290, 369, 380 and 15 points from ENGSCI 314, STATS 201, 207, 208, 707

STATS 790 30 Points
STATS 790A 15 Points
STATS 790B 15 Points
Research Project - Level 9  
Restriction: STATS 796  
To complete this course students must enrol in STATS 790 A and B, or STATS 790

STATS 792 45 Points
STATS 792A 22.5 Points
STATS 792B 22.5 Points
Dissertation in Statistics Education - Level 9  
To complete this course students must enrol in STATS 792 A and B, or STATS 792

STATS 793 45 Points
STATS 793A 22.5 Points
STATS 793B 22.5 Points
Dissertation - Level 9  
To complete this course students must enrol in STATS 793 A and B, or STATS 793

STATS 798A 45 Points
STATS 798B 45 Points
Masters Thesis in Statistics - Level 9  
Prerequisite: 15 points from STATS 310, 732 and 15 points from STATS 330, 762, or approval of Head of Department  
Restriction: STATS 790, 796  
To complete this course students must enrol in STATS 798 A and B
Sustainability

Stage I

SUSTAIN 100  15 Points  
SUSTAIN 100G  15 Points

Sustainability and Us
What is sustainability? Discusses what sustainability means, and its underpinning values, history and operation within complex physical systems. Students complete a group project to develop skills in collective decision making with a solution focus. Two sustainability issues, such as food and water, are discussed in depth.

Stage II

SUSTAIN 200  15 Points

The Sustainable Community
What is the sustainable community? We unpack the nature of complex social and ecological systems with a particular focus on large organisations and cities. Students undertake a group project to enhance their skills in collective decision making, and to develop skills in integrating information and presenting sustainability solutions. Two sustainability issues, such as climate change and fisheries, are discussed in depth.

Prerequisite: 60 points passed

Stage III

SUSTAIN 300  15 Points

A Sustainable World
Is it possible to have a sustainable global system? We focus on large scale social institutions including politics, the media, national and international law and economics. Students undertake a group project to develop skills in researching and integrating information from a range of experts and recommending sustainability solutions to policy makers. Two sustainability issues, such as population and plastic, are discussed in depth.

Prerequisite: 30 points passed at Stage II

Tertiary Foundation Certificate Biological Science

Foundation Courses

TFCBIO 91F  15 Points

Foundation Biology 1
An introduction to biological sciences with an emphasis on organism diversity, which includes bacteria, plants, fungi and animals. Fundamentals of classification, ecology and evolution are introduced and the study of a current topic in biology is used to develop research and critical thinking skills. Practical classes are both laboratory-based and field based.

Restriction: BIOSCI 91F, 91P

TFCBIO 92F  15 Points

Foundation Biology 2
Concepts introduced in TFCBIO 91F are further developed with an emphasis on the structures and processes of living things at cellular and molecular levels. Cell biology, genetic principles and biochemistry are explored and further developed in a human biological context. Laboratories focus on students developing key practical skills.

Restriction: BIOSCI 91F, 92F, 91P, 92P

Tertiary Foundation Certificate Environmental Studies

Foundation Courses

TFCENV 91F  15 Points

Geography
How does geography effect both how we live today and our future? An introduction to human and physical geography with an emphasis on population, migration, social inequality, uneven development, climate change, sustainability and geospatial thinking. We examine these geographical topics using a variety of local and global case studies.

TFCENV 92F  15 Points

Earth and Environmental Sciences
How do biophysical processes shape the Earth and the environmental issues we face on it? Introduces students to the physical processes that shape our world, from earthquakes deep underground to glaciers on mountain tops. Explores how physical and biological processes on Earth interact in pressing environmental issues like climate change, pollution and species conservation.

Tertiary Foundation Certificate Mathematics

Foundation Courses

TFCMATHS 89F  15 Points

Mathematics for Arts
Includes several important mathematical ideas within historical, environmental, societal, political, financial, justice, entertainment and cultural contexts. Will also be guided by the interests of its learners as citizens and consumers, who will be encouraged to draw on the mathematics they are already familiar with. Aimed at linking mathematics to the world of students who are likely to be non-STEM majors.
TFCMATHS 90F 15 Points
Preparatory Skills in Mathematics
Development of fundamental mathematics concepts including an understanding of arithmetic ideas as expressed in fractions, decimals and percentages, ratio and proportion, measurement and algebraic thinking. Application of these concepts in contexts such as financial literacy, problem solving, and real-life mathematics will form the basis of this course.
Restriction: EDFOUND 15F, TFCEDUC 15F

TFCMATHS 91F 15 Points
Foundation Mathematics 1
This mathematics course aims to promote an understanding of number skills, including an introduction to algebra. Students will learn how to use simple technology and develop their problem solving abilities.
Restriction: MATHS 91P, 92F

TFCMATHS 92F 15 Points
Foundation Mathematics 2
This mathematics course aims to use the skills learnt in TFCMATHS 91F to develop an understanding of functions in their tabular, algebraic and graphical representations. Prepares students for MATHS 102. Recommended preparation: TFCMATHS 91F or TFCMATHS 93F.
Restriction: MATHS 92F

TFCMATHS 93F 15 Points
Foundation Mathematics 3
This mathematics course aims to promote an understanding of numerical and algebraic skills at a deeper level than TFCMATHS 91F. Students will learn how to use simple technology and develop their problem solving abilities.
Restriction: MATHS 93F, 93P

TFCMATHS 94F 15 Points
Foundation Mathematics 4
This mathematics course aims to use the skills learnt in TFCMATHS 93F to develop an understanding of functions, including differential functions, in their tabular, algebraic and graphical representations. This course prepares students for MATHS 102.
Restriction: MATHS 94F

Tertiary Foundation Certificate Statistics

Foundation Courses
TFCSTATS 92F 15 Points
Foundation Statistics
Provides an introduction to statistics for anyone who will ever have to collect, analyse or interpret data, either in their career or private life. Statistical skills will be developed through Exploratory Data Analysis of real data using appropriate technology and statistical techniques. An important aspect of the course will involve communication of results.

Transdisciplinary Environmental Futures

Stage I
TDENVF 100 15 Points
Our Environmental Futures: Te Taiao Tāngata
Explores the complex relationships between environmental systems and humans. Working in teams, students examine environmental, social, economic and cultural perspectives in the real-world contexts of waitā (sea), waitī (freshwater) and whenua (land). Students will respond to environmental issues by recognising ora (wellbeing) and Ki Uta ki Tai (the interconnectedness of ecosystems) and develop a transdisciplinary mindset to tackle current and future environmental challenges.

Wine Science

Stage II
WINESCI 201 15 Points
Introduction to Wine Science
An introduction to grape growing and wine. Topics covered include history of wine, geography and terroir, grape growing, winemaking technology, microbiology, sensory evaluation, and health considerations of wine. A special emphasis on grape growing and winemaking in New Zealand.
Prerequisite: Any 120 points passed

Postgraduate 700 Level Courses
WINESCI 701 15 Points
Winemaking in a New Zealand Setting
The principles and practices of local winemaking are reviewed and compared with international counterparts to highlight the distinctive characteristics of winemaking in New Zealand. A microvinification project is undertaken in which students begin with an allotment of grapes, monitor the fermentation using a range of analytical techniques, and make decisions which affect the style of wine they produce.

WINESCI 702 15 Points
The Science Behind Grape Production
Develops understanding of the contemporary scientific knowledge and research that is of relevance to grape production for winemaking. The application of traditional and modern molecular methods in plant science and plant pathology will be discussed in relation to the selection, improvement and management of vines and grape attributes. Research issues of national and international relevance to viticulture will also be addressed.
WINESCI 703  
**The Science Behind Winemaking**  
15 Points  
Follows on from 702 and focuses on the contemporary scientific knowledge and research that is of relevance to winemaking, commencing from the point of grape harvest. The application of traditional and modern methods in biochemistry and microbiology will be discussed. Research issues of national and international relevance to winemaking will also be addressed.

WINESCI 704  
**Sensory Evaluation and Statistical Methods**  
15 Points  
The principles of sensory science, sensory analysis of wine, differences among wine types, regional styles and grape types will be covered. Emphasis will be placed on those components which influence sensory appeal. The application of statistical methods to wine sampling and to the design of sensory panels will be overviewed.

WINESCI 705  
**Project in Wine Science**  
15 Points  
**WINESCI 705A**  
7.5 Points  
**WINESCI 705B**  
7.5 Points  
Students will gain a thorough understanding of the current knowledge on a selected topic associated with wine science and have experience in writing a research proposal and in giving a presentation to the peer group.  
*To complete this course students must enrol in WINESCI 705 A and B, or WINESCI 705*

WINESCI 706  
**The Business of Wine Production**  
15 Points  
Students will be introduced to the economics of grape growing, winemaking, winery design and management. Distribution and marketing will be introduced. Special topics including wine law, use and negotiation of contracts small business development, stock valuation, issues of appellations, labelling and brand development will be taught. Environmental and resource management issues and health and safety regulations will be covered.

WINESCI 707  
**Topics in Wine Science**  
15 Points  
**WINESCI 707A**  
7.5 Points  
**WINESCI 707B**  
7.5 Points  
A number of advanced or special topics in wine science. This course may not be offered every year; further information may be obtained from the School of Chemical Sciences.  
*To complete this course students must enrol in WINESCI 707 A and B, or WINESCI 707*

WINESCI 708  
**Post-fermentation Processes in Winemaking**  
15 Points  
Covers the theory and practice of fining, filtration and other methods of wine clarification. Chemical and sensory effects of barrel and tank aging of red and white wine will be covered as well as blending decisions and stabilisation. Quality control methods used during processing, aging and packaging will also be addressed.

WINESCI 792  
**Research Project - Level 9**  
45 Points  
**WINESCI 792A**  
22.5 Points  
**WINESCI 792B**  
22.5 Points  
*To complete this course students must enrol in WINESCI 792 A and B, or WINESCI 792*

General Education

Academic Integrity

ACADINT A01 0 Points

Academic Integrity Course
An online course designed to increase student knowledge of academic integrity, university rules relating to academic conduct, and the identification and consequences of academic misconduct. Students work through a series of modules, outlining scenarios that they may encounter while studying at university. Each scenario provides information on relevant rules, resources and expected behaviour.

Accounting

Stage I

ACCTG 151G 15 Points

Financial Literacy
People who understand the basic principles of finance are likely to get much more mileage out of their money – whether spending, borrowing, saving or investing – than those who do not. Develop an understanding of how to be in control of spending and saving; understand borrowing; make informed investment decisions; know broadly what to insure and what not to; recognise scams and consider whether money is the key to happiness.

Restriction: May not be taken by students with a concurrent or prior enrolment in Accounting or Finance courses

Anthropology

Stage I

ANTHRO 106G 15 Points

Global Sound Cultures: Musics, Places and People
Examines a wide range of sound and music cultures, from popular transnational mediations to locally produced, community-based traditions. We consider the ways that music takes on meaning, represents identities and places, and interacts with the world. We trace the historical/economic processes by which music cultures emerge and are sustained (or not). We look at the emotional and economic roles that music plays in the lives of musicians, composers and listeners. Using theories from ethnomusicology, anthropology, musicology and cultural studies we show how music is affected by and reflects social change, colonisation and indigeneity, technology and local/global economic processes.

Architectural History, Theory and Criticism

Stage I

ARCHHTC 102G 15 Points

Modern Architecture and Urbanism
Examines through case studies the cultural contexts that shaped the development of architecture, urban design, landscape and the environment during the twentieth century. Emphasis is placed on the historical developments that influenced changes in style and the theoretical contexts that shaped attitudes towards inhabitation, social organisation, national identity, and cultural self-expression, amongst other things.

Restriction: ARCHHTC 100

Art History

Stage I

ARTHIST 114G 15 Points

Understanding Art: Leonardo to Warhol
Visual intelligence is crucial in navigating the world of images that convey coded messages, and the history of ideas fundamental to all disciplines. How do we read such images? This course decodes artworks, photographs, advertising, digital images, and architecture, providing tools to analyse artists from Leonardo to Warhol: experts at moving the eye around the image for meaning to emerge.

Restriction: ARCHHTC 109

ARTHIST 115G 15 Points

Global Art Histories
A broad survey of visual art spanning from the early modern period to the contemporary. Students will be introduced to a range of art practices situated within a global context and will consider art works produced in Māori and Pacific cultures alongside Indian, South Asian, Middle Eastern, European and American traditions.

Arts General

Stage I

ARTSGEN 103G 15 Points

Ko Wai Tātou? Who Are We?
Ko wai tātou? Who are we? Who are our people and communities? What do our ideas about who we are mean for relations of in/equality or how we experience belonging individually and collectively? In addressing these questions, this course considers how knowledge of place enhances your learning, the significance of Te Tiriti o Waitangi, and how knowledge systems frame understanding.

Asian Studies

Stage I

ASIAN 140G 15 Points

New Zealand and Asia
Explores Asia and its interrelationship with New Zealand, including Asia’s growing presence in New Zealand in all its manifestations, and the evolving political, social, economic, cultural, and strategic relations between this country and Asia. Topics will include historical and contemporary ties with Asia, Asian migration, literature, media and films. The course will focus especially on South-East and East Asia.

Astrosciences

Stage I

ASTRO 100G 15 Points

Planets, Stars and Galaxies
The story of our place in the Universe. Key topics are the exploration of the solar system, searches for planets around other stars, the structure and evolution of stars and galaxies, high-energy astrophysics, and the origin and overall properties of the Universe. No background in physics or mathematics is assumed.

Restriction: PHYSICS 107, 107G
Stage II

ASTRO 200G 15 Points
Astrobiology
Astrobiology examines the potential of the universe to harbour life and is interdisciplinary, combining Geology, Biology, Astronomy, Chemistry, Physics, Philosophy, Ethics. Course focus is on how these disciplines combine with technology, addressing questions of life in the universe. Key topics include origin and evolution of life, definitions and environmental limits of life, and how to search for life beyond Earth.
Prerequisite: 60 points passed

Biological Sciences

Stage I

BIOSCI 100G 15 Points
Antarctica: The Frozen Continent
A general introduction to Antarctica and its environs including the Southern Ocean and the sub-Antarctic islands. Emphasis will be placed on the evolution of Antarctica and how resident plants, animals and micro-organisms have adapted to cope with the extreme environment. Specific topics to be addressed include: the history of Antarctic exploration and its impact on the development of Antarctic science, Antarctic ecosystems, Antarctica as a wilderness region, and the impact of humans including the exploitation of resources and the effects of pollution. This course is suitable for students with both science and non-science backgrounds.

Chemical and Materials Engineering

Stage I

CHEMMAT 100G 15 Points
Materials of the Modern World
Every aspect of daily living is influenced in some way by the materials that surround us. Ceramics, metals, polymers, and composites; each has its own properties which have, over time, influenced the development of modern technological societies. Take a moment to imagine a world without metal, for example, to see how central the science of materials is to everyday life. This course will explore, at a non-specialist level, the basic principles governing the properties and behaviour of a wide variety of common materials and examine their applications and limitations.

Chinese

Stage I

CHINESE 100G 15 Points
Beginning Modern Chinese 1
Introduces students to modern Standard Chinese (Mandarin, Putonghua) through exercises and activities to develop speaking, listening, reading and writing skills. Also introduces the social and cultural background of the language.
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed
### Classical Studies and Ancient History

#### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>ANCIENT 110G</td>
<td>Classical Mythology</td>
<td>15</td>
</tr>
</tbody>
</table>

A study of ancient mythology – its gods, heroes and monsters – through the works of major writers and artists from Greece and either Rome or Egypt. 

**Restriction:** CLASSICS 110, 110G

### Communication

#### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMMS 104G</td>
<td>Advertising and Society</td>
<td>15</td>
</tr>
</tbody>
</table>

A critical examination of advertising and advertisements focusing on the role advertising plays in consumer culture. Advertisements from a diverse range of media are studied in order to analyse how advertisements construct and disseminate meaning. The course investigates how advertising engages with the logic of wider cultural and global transformations with consideration given to both consumer and industry perspectives.

### Computer Science

#### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMPSCI 111G</td>
<td>An Introduction to Practical Computing</td>
<td>15</td>
</tr>
</tbody>
</table>

A practical introduction to computing. Topics include: web design, an overview of computer hardware and operating systems, effective use of common applications, using the internet as a communication medium, applying programming concepts, and social implications of technology.

### Cook Islands Māori

#### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>COOKIS 101G</td>
<td>Introduction to Cook Islands Māori</td>
<td>15</td>
</tr>
</tbody>
</table>

Gives students an introduction to the structure of Cook Islands Māori as well as allowing them to develop basic skills in listening, speaking, reading and writing. Designed for students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition. 

**Restriction:** May not be taken if a more advanced language acquisition course in this subject has previously been passed

### Dance Studies

#### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>DANCE 101G</td>
<td>Introduction to Dance and Creative Processes</td>
<td>15</td>
</tr>
</tbody>
</table>

To develop an understanding of our moving bodies through movement awareness, dance improvisation, choreography and creative and analytic writing. Students will undertake both theoretical and practical classes focusing on a range of practices that dancers and movement practitioners use to facilitate kinaesthetic awareness, experimentation, communication and choreography. Students will explore somatic theory and practice, choreography and dance analysis. DANCE 101G not available for BDanceSt.

### Design

#### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>DESIGN 102G</td>
<td>Design for Sustainable Futures</td>
<td>15</td>
</tr>
</tbody>
</table>

New opportunities are continually emerging in the field of design. This course introduces design as strategy, demonstrating how contemporary design practices have evolved, responded to, and influenced change. By developing a design project that responds to the United Nations Sustainable Development Goals, students will learn how design thinking complements current practice and expands career prospects.

### Disability Studies

#### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>DISABLTY 113G</td>
<td>Making Disabilities: The Construction of Ideas</td>
<td>15</td>
</tr>
</tbody>
</table>

Examines the expression of social and cultural ideas of disability in popular culture through film, television and print media. The course aims to develop skills to examine the construction and maintenance of concepts of disability and disabling identities in popular culture. The consequences of these processes are also discussed and their implications for perpetuating social devaluation, discrimination, and disadvantage.

### Drama

#### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>DRAMA 100G</td>
<td>Presentation and Performance Skills: Taking the Stage</td>
<td>15</td>
</tr>
</tbody>
</table>

Focuses on enhancing oral communication and performance skills through interactive workshops with speakers and performers highlighting the transferable skills of acting in three main areas: public speaking, improvising and group-devised performance.

### Earth Sciences

#### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>EARTHSCI 105G</td>
<td>Earth's Natural Hazards</td>
<td>15</td>
</tr>
</tbody>
</table>

New Zealand experiences many natural hazards caused by the Earth's natural processes through earthquakes, volcanic
eruptions, weather bombs, storm surge, tsunami, flooding and wildfires. Focuses on spatial and temporal occurrences of disasters, hazard preparedness and recovery, and societal responses that affect and, sometimes, compound the magnitude of disasters. Case studies are drawn from contemporary and ancient societies.

Stage II

EARTHSCI 205G 15 Points
New Zealand: Half a Billion Years on the Edge
Take a 500 million year journey through time following the geologic and biologic development of New Zealand from humble beginnings on the edge of the ancient supercontinent Gondwana to the present day geologically dynamic land mass beset by volcanic eruptions, earthquakes and massive erosion as a consequence of being located on the edge of the Earth’s largest tectonic plate. 
Prerequisite: 75 points passed

Economics

Stage I

ECON 151G 15 Points
Understanding the Global Economy
Economics affects our daily lives and the global environment in many ways. Through the media we are constantly made aware of price increases, interest rate changes, exchange rate movements and balance of payments problems, growth and recessions, standard of living comparisons, regional trading agreements. What does it all mean and how does it all work?
Restriction: ECON 101, 111, 152, 191

Education

Stage I

EDUC 100G 15 Points
The Creative Process
Theories and practices of creativity will be examined and practically explored through a variety of disciplines, such as the arts, biology, psychology, sociology, philosophy and education. What is creativity? Can creativity be learnt? What happens in the brain when we are creative? These are some of the questions addressed in this course.

EDUC 105G 15 Points
Teaching: Tales and Traditions
Introduction to key ideas on teachers and teaching. Explores teaching traditions, their origins, stories of teaching in New Zealand; stories of teachers that generate change; and how teaching and teachers are understood in a variety of disciplines such as Science, Health, Arts, and Sport. Considers the following: How should we teach? What counts as knowledge? What contradictions do teachers encounter?

EDUC 121G 15 Points
How People Learn
Focuses on learning in formal and informal settings and addresses such questions as: why do some things seem easier to learn than others, why do we forget things we once knew, and why do some people learn faster or better than others? Examines the nature of intelligence and how to help personal learning or the learning of others.
Restriction: EDUC 111, 117

EDUC 122G 15 Points
Learning Sexualities
How and what do we learn about sexualities in New Zealand? Learning about sexualities is viewed as occurring both formally (e.g., through sexuality education) and informally (e.g., through the media) in a diversity of social sites. Schools are examined as one significant site where students are offered sexual meanings. The historical derivation and current context of contemporary education about sexuality along with its social effects are investigated.

Engineering General

Stage I

ENGEN 100G 15 Points
Technological Choices for the Future
A consideration of technological choices to support informed decision making in the use of technology in modern society. The course focuses on important questions such as: What is the future direction of power generation in New Zealand? How can we create a sustainable future? Where will current developments in robotics and mobile communications lead us?

ENGEN 101G 15 Points
Software, Data and Intelligent Automation
Introduces concepts of intelligent automation, robotic process automation, analytics and artificial intelligence/machine learning. Includes consideration of data privacy and sovereignty, and the ethics of AI. Students will engage in critical analysis of potential intelligent automation applications and solutions, and will build their own software robot through practical laboratory work.

English

Stage I

ENGLISH 102G 15 Points
Great Books: Seduction and Betrayal
Surveys a selection of literary masterpieces by major authors from different periods in the history of English literature. Selection of texts is organised around the theme of seduction and betrayal, understood more particularly as a story-arc exploring attitudes to love and sex, to politics and ambition, to ethical conduct, and to the activity of reading itself.

ENGLISH 121G 15 Points
Reading/Writing/Text
Develops University-wide skills of reading, writing and analysis. Addresses the needs of students in both English and other disciplines where both writing and reading have an important role in learning. The course fosters personal writing skills and also introduces writing as a subject of study in itself.
## Environmental Physics

### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENVPHYS 100G</td>
<td>Sun, Sand, Surf: Science of Aotearoa</td>
<td>15</td>
</tr>
</tbody>
</table>

The atmosphere, oceans and land make up the dynamic environment of Aotearoa New Zealand. A range of phenomena with natural beauty can be described elegantly with simple scientific laws. This course establishes the physical principles underlying nature, empowering students to explain everyday environmental phenomena. These principles provide the foundation to unravel the science of Earth, climate and environmental change, and energy systems.

## Environmental Science

### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENVSCI 101G</td>
<td>Environment, Science and Management</td>
<td>15</td>
</tr>
</tbody>
</table>

Explores the science behind key environmental issues to recognise the role environmental science plays in understanding the interaction between humans and the environment. The complexity of environmental problems and the difficult task of integrating science, knowledge and values are discussed.

## European Studies

### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>EUROPEAN 100G</td>
<td>Europe and the World</td>
<td>15</td>
</tr>
</tbody>
</table>

An introduction to the study of Europe, organised around a number of major themes, including linguistic and ethnic groupings, historical periods, literary and cultural movements, religious and philosophical traditions, and political and cultural figures. An ideal course for students wishing to explore European culture and civilisation.

## Exercise Sciences

### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>EXERSCI 100G</td>
<td>Exercise and Fitness: Myths and Reality</td>
<td>15</td>
</tr>
</tbody>
</table>

An introduction to the principles of physical exercise, with a focus on understanding how the body moves and responds to exercise, how performance can be measured, and how fitness can be developed and maintained to optimise health. Particular emphasis will be placed on the debunking of common myths about exercise, and offering evidence-based advice on the benefits of appropriate physical activity.

**Restriction:** BIOSCI 107, EXERSCI 101, 105, SPORTSCI 100G, 101, 105, MEDSCI 142

## Fine Arts

### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>FINEARTS 109G</td>
<td>Introduction to Photographic Practice</td>
<td>15</td>
</tr>
</tbody>
</table>

Introduces the methods, concepts and contemporary contexts of photographic practice alongside the development of a photographic portfolio. Students will use their own camera, (this can include cell phone cameras) to develop a portfolio of photographic work and explore the ways in which contemporary arts and cultural practices in Aotearoa enable a critical reflection on the production of images.

## French

### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>FRENCH 101G</td>
<td>Introductory French Language 1</td>
<td>15</td>
</tr>
</tbody>
</table>

Introduces students to spoken and written French. It is delivered through two 90-minute sessions per week on campus, blended with an on-line component that uses up-to-date methodology and extensive multimedia materials. It is open to beginners or near beginners. Students who have achieved 24 recent credits in Level 1 NCEA French or 12-16 recent credits in Level 2 NCEA French (or equivalent previous study) should enrol in FRENCH 102. FRENCH 101 does not count towards a major in French. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

## Gender Studies

### Stage I

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Title</th>
<th>Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>GENDER 101G</td>
<td>Gender: Global and Local</td>
<td>15</td>
</tr>
</tbody>
</table>

Develops an understanding of key concepts that underlie gender analysis, and how they are expressed in politics, culture and society. Examines the meaning of gender across a range of subjects and issues on the global stage and in our everyday lives.

**Restriction:** GENDER 100
Geography

Stage I

GEOG 103G 15 Points
Mapping Our World
An introduction to contemporary geospatial technologies such as web-mapping, GPS and tracking devices (such as your phone), Remote Sensing and GIS. Covers key concepts and principles behind these tools and their use, along with practical experiences through laboratories. Critical and theoretical perspectives on the tools, their use, and their social impacts will be discussed.

GEOG 104G 15 Points
Cities and Urbanism
What makes a great city? This course explores ‘urbanism’ in both historical and contemporary cities to determine the essence of urbanity and the way that citizens (and visitors) experience city life. The dynamics and character of cities are considered in terms of their built environment, environmental systems, population, social diversity, and planning policies and practices.

German

Stage I

GERMAN 101G 15 Points
German Language Introductory 1
Written and oral use of German for students with no previous knowledge of the language or with fewer than 16 credits in NCEA Level 2 German.
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

Global Studies

Stage I

GLOBAL 101G 15 Points
Global Issues, Sustainable Futures
The basis for sustainability - social issues such as population and consumption, environmental issues such as climate change, limited resources and environmental degradation. Discusses the roles that various disciplines (law, business, engineering and urban planning) will play in developing solutions, including consideration of human rights and good governance, new concepts in economics and business management which will lead to sustainable businesses, developments in science and technology which will change how we manage resources and new visions for cities and communities which will support sustainable ways of life.
Restriction: GENED 101G

History

Stage I

HIST 103G 15 Points
Global History
It is only since the fifteenth century that a truly global dimension to history can be identified. This course examines key determinants that have bound the fate of peoples together including the emergence of world trade networks, the growth of world religions, the spread of epidemic diseases, the formation of empires, and the migration of peoples across continents.

Humanities

Stage I

HUMS 100G 15 Points
Digital Humanities: From Text to txt
An interdisciplinary course designed to introduce students to the Humanities using digital tools and resources. Students will study the approaches, texts and digital technologies of disciplines in the Humanities such as Art History, English, History, Philosophy, and Theological and Religious Studies. Students will expand their knowledge of the Humanities, extend their digital literacy and build critical and creative thinking skills.
Restriction: ARTSGEN 100G

Innovation

Stage I

INNORATE 100G 15 Points
Innovation through Design
Introduces design thinking and develops a user-centred approach to innovation, emphasising the importance of a deep understanding of user needs throughout an iterative ideation and prototyping process. Utilising the maker space at the Unleash Space and a range of digital tools, students will develop practical making and early stage prototyping skills.

Innovation and Entrepreneurship

Stage II

INNOVENT 203G 15 Points
The Entrepreneurial Mindset
Stimulates new ways of thinking about enterprising behaviour in a multi-disciplinary manner relevant to understanding and addressing real world challenges of today. Introduces skills needed to identify and assess opportunities, solve problems creatively, communicate persuasively, work effectively in teams, and understand individual and organisational impact.
Prerequisite: 15 points from BUSINESS 102, 103, 112, 113, MGMT 101, or 90 points passed, or 60 points from Part I of the BE(Hons) Schedule

International Business

Stage I

INTBUS 151G 15 Points
Business across Borders
Business on a global scale presents unique challenges and unrivalled opportunities to companies equipped to cross national boundaries. Set against a background of current events, the course explores the influence of international trade and multinational corporations on the contemporary global economy.
Restriction: BUSINESS 101, 111, INTBUS 201, 202
Italian

Stage I

ITALIAN 100G 15 Points
Introductory Italian Language
Learn basic Italian language structures and communication skills, including common words and basic phrases concerning everyday life. Acquire skills of interacting verbally by asking and answering straightforward questions on familiar topics. The course is delivered through a combination of class instruction and interactive online activities. For students with no previous knowledge of Italian.

Restriction: ITALIAN 106. May not be taken if an equivalent or more advanced language acquisition course in this subject has previously been passed.

ITALIAN 106G 15 Points
Italian Language for Beginners 1
Students learn to speak, read and write Italian, studying aspects of contemporary Italian society and thought. This course does not count towards a major in Italian. For students with no previous knowledge of Italian.

Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Japanese

Stage I

JAPANESE 130G 15 Points
Japanese Language 1A
An integrated basic course in modern Japanese covering reading, writing, speaking and listening.

Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Korean

Stage I

KOREAN 110G 15 Points
Korean for Beginners 1
Basic written and spoken skills in modern Korean. Through the practice of listening to and reading basic Korean sentences, fundamental grammar and vocabulary are taught so that students will be able to carry out basic conversation and comprehend simple Korean texts.

Restriction: KOREAN 100, 250. May not be taken if a more advanced language acquisition course in this subject has previously been passed.

Latin

Stage I

LATIN 100G 15 Points
Introduction to Latin Language 1
An introduction to the vocabulary and the grammar of simple sentences in Latin.

Law

Stage I

LAW 121G 15 Points
Law and Society
An introduction to theories of the nature, functions and origins of law and legal systems, including sources of law; comparative concepts of law; an overview of constitutional and legal arrangements in New Zealand, including the role of the courts; the operation of the legal system in historical and contemporary New Zealand with a focus on concepts of property rights, the Treaty of Waitangi, Treaty Settlements and proposals for constitutional change. Note: Does not meet the General Education requirement for LLB, LLB(Hons), LLB conjoint or LLB(Hons) conjoint degrees.

Restriction: LAW 101

Linguistics

Stage I

LINGUIST 101G 15 Points
Language, Mind and Society
A survey of three areas: the interaction between language structure and use on the one hand, and social structure and social norms on the other (sociolinguistics); the relationship between linguistic and cultural knowledge (anthropological linguistics); and the inter-relationship of language and other cognitive structures, especially as it is revealed through language acquisition (psycholinguistics).

Marine Science

Stage I

MARINE 100G 15 Points
The Oceans Around Us
A multidisciplinary approach to understanding the importance of our oceans in terms of natural processes and human uses and values. It includes an understanding of the physical and biological processes in the ocean and how they are addressed through ocean management in New Zealand and internationally, allowing informed debate about the future of the ocean realm.

Marketing

Stage I

MKTG 151G 15 Points
Essential Marketing
Introduces fundamental marketing ideas and skillsets. Explores the world of customer value creation and marketing communications through the eyes of marketing and creative experts. Covers current topics in marketing including digital and social media, social entrepreneurship, big data analytics, green marketing and sustainability.

Mathematics

Stage I

MATHS 190G 15 Points
Great Ideas Shaping our World
Mathematics contains many powerful and beautiful ideas that have shaped the way we understand our world.
This course explores some of the grand successes of mathematical thinking. No formal mathematics background is required, just curiosity about topics such as infinity, paradoxes, cryptography, knots and fractals.

**Medical Science**

**Stage I**

**MEDSCI 100G 15 Points**

**Human Mind and Body Relationships**
Humans share with other living things the features of physical self-generation and adaptation to the environment. Humans also live in a mental (mind) world and maintain relationships with our perceived environments. Minds and bodies mutually affect one another. This mind/body dance, which is explored in this course, is what gives rise to all of human behaviour from simple daily activities to the highest forms of creativity.

**MEDSCI 101G 15 Points**

**Environmental Threats to Human Health**
Our environment sustains our lives but at times threatens our health. These threats may occur naturally, or arise from damage we have inflicted on the environment. This course considers health impacts of climate change, pollution, lifestyle choices, poverty and affluence, workplace hazards, emerging infectious diseases, and dangers affecting cancer risk.

**Music**

**Stage I**

**MUS 144G 15 Points**

**Turning-points in Western Music**
A study of significant people, major discoveries and inventions, and key factors (artistic, intellectual, social, technical) that were important agents of change in Western music. No previous knowledge of music is assumed.

**MUS 149G 15 Points**

**Rock to Reggae: Tracking Popular Music in New Zealand**
An introduction to New Zealand's home-grown popular music, from the 1950s to the present day. A broad range of musical styles will be considered and situated within various social contexts. The issue of cultural identity in music – at national and local levels – will also be explored.

**Māori Studies**

**Stage I**

**MAORI 101G 15 Points**

**Introduction to Written Māori**
An introduction to listening, reading, writing and translation techniques used in the composition, reading and understanding of basic Māori. Designed for students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition. *Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed*

**MAORI 103G 15 Points**

**Introduction to Spoken Māori**
An introduction to spoken Māori for those with no previous knowledge of the language. Concentrates on the acquisition of aural and oral skills, developing the ability to understand and speak Māori. *Restriction: MAORI 106. May not be taken if a more advanced language acquisition course in this subject has previously been passed*

**Optometry and Vision Science**

**Stage I**

**OPTOM 101G 15 Points**

**How We See**
Overview of the interdisciplinary study of human vision. The course introduces the biological/physiological organisation of the visual system, discusses the subjective nature of perception, and the implications of studies of biological visual systems for machine vision. Interdisciplinary understandings of vision will be enriched by the examination of historical paintings and artists’ visual experiences.

**Pacific Studies**

**Stage I**

**PACIFIC 100G 15 Points**

**Te Moana-nui-a-Kiwa/Pacific Worlds**
Introduces students to Pacific Studies and the worlds of Te Moana-nui-ā-Kiwa (The Pacific). Through the study of taonga or cultural treasures drawn from specific cultures and societies, insights into Indigenous Pacific knowledges and practices are developed. Spanning deep history and the contemporary moment, this course provides a critical understanding of change in the Pacific over time and space.

**Pharmacy**

**Stage I**

**PHARMACY 111G 15 Points**

**Drugs and Society**
The use of drugs in society including historical perspectives. Selected examples of the use of medicines in disease, recreational drug use and drug misuse, and cultural and ethnic influences on drug use. Differences between conventional and complementary medicines. The role of the pharmaceutical industry in drug discovery, manufacture and promotion. Legal and ethical issues pertaining to access to pharmaceuticals.

**Philosophy**

**Stage I**

**PHIL 105G 15 Points**

**Critical Thinking**
An introduction to reasoning, argument, and explanation
that emphasises the development of practical skills and their use in everyday life. The course introduces different forms of reasoning and explains techniques to evaluate them. It will enable students to distinguish good arguments and explanations from bad ones, to explain the difference, and thereby to improve critical thinking abilities.

**Physics**

**Stage I**

<table>
<thead>
<tr>
<th>COURSE CODE</th>
<th>CREDITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>PHYSICS 100G</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Models and Reality**

Explore the role of models in physical science and what they contribute to our understanding of the world, and the concepts of reductionism and emergence. Topics include particle physics, materials science, and climate; and the use of models that explain dynamics of populations and artificial systems, including epidemiology, flocking in birds and fish, and the spread of information in social networks.

**Politics and International Relations**

**Stage I**

<table>
<thead>
<tr>
<th>COURSE CODE</th>
<th>CREDITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>POLITICS 107G</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**New Zealand Politics**

An introduction to understanding who governs New Zealand and in whose interests. Topics include national identity, institutions of government, leadership, voting and elections, the place of Māori within the political system, parties and political participation. The course draws on current research in NZ politics and provides knowledge that can be applied to a variety of careers, including law, business and public service.

**Population Health**

**Stage I**

<table>
<thead>
<tr>
<th>COURSE CODE</th>
<th>CREDITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>POPHLTH 103G</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Epidemics: Black Death to Bioterrorism**

Epidemics have devastated human populations and will continue to do so. This course looks at how epidemics can run rampant through society and how we can control them. It will include examples from the past and present, as well as outline future threats. A diversity of epidemics will be covered, from the plague, gambling, depression, pandemics, nun-biting and alien abduction.

**Psychology**

**Stage I**

<table>
<thead>
<tr>
<th>COURSE CODE</th>
<th>CREDITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSYCH 109G</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Mind, Brain and Behaviour**

Topics covered may include: the nature of sensory and perceptual processes, the cause of perceptual illusions, the structure and function of the human brain, approaches to animal and human learning, models of human language and memory, and the design of psychological experiments. A laboratory component, in which students are required to participate as subjects, forms part of the course.

**Science General**

**Stage I**

<table>
<thead>
<tr>
<th>COURSE CODE</th>
<th>CREDITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCIGEN 101G</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Communicating in a Knowledge Society**

Effective communication is required for specialists in all fields to engage meaningfully with society. In this course students gain an understanding of the important role communication plays in a knowledge society. Through case studies and practical experience students learn about the responsibilities and skills required to communicate with a variety of audiences. They learn how to effectively manage and present data and practice oral, written, visual and electronic communication.

<table>
<thead>
<tr>
<th>COURSE CODE</th>
<th>CREDITS</th>

</thead>
<tbody>
<tr>
<td>SCIGEN 102G</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Contemporary Science in Aotearoa New Zealand**

What does it mean to do science here and now? This course considers how knowledge of place enhances your learning, the significance of Te Tiriti o Waitangi, and how knowledge systems frame understanding. Students will think critically about the relationships between science and our environment, along with the ethics of science in practice.

**Stage II**

<table>
<thead>
<tr>
<th>COURSE CODE</th>
<th>CREDITS</th>
</tr>
</thead>
<tbody>
<tr>
<td>SCIGEN 201G</td>
<td>15 Points</td>
</tr>
</tbody>
</table>

**Innovating in a Knowledge Society**

Interdisciplinary examination of science innovation at policy, organisational and project levels including context, impacts and roles of business and research organisations, and ways innovations are presented and received. Case study analysis of the business environment including how innovation is both enabled and constrained in science-based organisations and society, and innovation strategies in science-based organisations.
Stage III

SCIGEN 301G 15 Points
Engaging in a Knowledge Society
Addressing complex issues requires knowledge experts to engage with a variety of people. Solutions will be gained from collaborations that co-produce knowledge in transdisciplinary partnerships that lead to new ways of thinking. This course explores meaningful ways to engage with communities, and reassesses current ways of knowing and doing.

Sociology

Stage I

SOCIOL 101G 15 Points
Understanding Aotearoa New Zealand
Provides an introduction to the sociological analysis of New Zealand society. Looks at familiar events, institutions, social processes from a sociological point of view and offers ways to understand them in new and different ways. Focuses on the structure of New Zealand society and on social and political changes which affect the lives of New Zealanders and shape their society.

Spanish

Stage I

SPANISH 104G 15 Points
Beginners’ Spanish 1
Provides a solid grounding in the basic grammar and vocabulary of Spanish for beginners or near beginners, emphasising communicative competence in the present tense. Develops speaking, listening, reading and writing skills, and prepares students at the A1 Level of the Common European Framework of Reference for Languages. Restriction: SPANISH 107. May not be taken if a more advanced language acquisition course in this subject has previously been passed

Sport Studies

Stage I

SPORT 100G 15 Points
Sport in Society
Critically examines the socio-cultural, political and economic significance of sport within Aotearoa New Zealand. Examines how sport is embedded in the lives of people, constitutes identities, and is connected to major spheres of social life and various social issues. Through focusing on select sporting issues it analyses how New Zealanders negotiate understandings of self, ethnicity, gender, sexualities, health, and lifestyle. Restriction: EDUC 104G

Statistics

Stage I

STATS 101G 15 Points
Introduction to Statistics
Intended for anyone who will ever have to collect or make sense of data, either in their career or private life. Steps involved in conducting a statistical investigation are studied with the main emphasis being on data analysis and the background concepts necessary for successfully analysing data, extrapolating from patterns in data to more generally applicable conclusions and communicating results to others. Other topics include probability; confidence intervals, statistical significance, t-tests, and p-values; nonparametric methods; one-way analysis of variance, simple linear regression, correlation, tables of counts and the chi-square test. Restriction: STATS 102, 107, 108, 191

STATS 150G 15 Points
Communicating Statistics
Examines the uses, limitations and abuses of statistical information in a variety of activities such as polling, public health, sport, law, marketing and the environment. The statistical concepts and thinking underlying data-based arguments will be explored. Emphasises the interpretation and critical evaluation of statistically based reports as well as the construction of statistically sound arguments and reports. Some course material will be drawn from topics currently in the news.

Sustainability

Stage I

SUSTAIN 100G 15 Points
Sustainability and Us
What is sustainability? Discusses what sustainability means, and its underpinning values, history and operation within complex physical systems. Students complete a group project to develop skills in collective decision making with a solution focus. Two sustainability issues, such as food and water, are discussed in depth.

Theological and Religious Studies

Stage I

THEOREL 101G 15 Points
The Bible and Popular Culture
An exploration of biblical themes, images, and metaphors in contemporary film, music and cultural arts through which religion and culture intersect. It develops tools appropriate for analysing popular culture, as it moves from the local to the national to the global. Restriction: THEOLOGY 101, 101G

THEOREL 106G 15 Points
Islam and the Contemporary World
Since the religion of Islam has become a very significant aspect of contemporary global and local societies, this course seeks to introduce students to an understanding of key aspects of Islam and an analysis of its significant contribution to New Zealand society as well as to societies and cultures across the world. Restriction: THEOLOGY 106, 106G

Tongan

Stage I

TONGAN 101G 15 Points
Tongan Language 1
Gives students an introduction to the structure of Tongan as well as allowing them to develop basic language skills in listening, speaking, reading and writing. Designed for
students with little or no knowledge of the language, and for those with some fluency wishing to understand simple sentence structure and composition. 
Restriction: May not be taken if a more advanced language acquisition course in this subject has previously been passed

Translation Studies

Stage I

TRANSLAT 100G 15 Points
Translation for Global Citizens
Covers the foundations of translation and interpreting as an academic discipline and as a critically important communication enabler which serves a multicultural and multilingual society. The course is designed to equip monolingual students, as well as students with language skills, with the literacy in translation and interpreting increasingly needed to navigate today’s globalised world and to detect and overcome communication gaps in diverse business and private contexts.

Urban Planning

Stage I

URBPLAN 101G 15 Points
Introduction to Urban Planning
An introduction to the discipline of urban planning, examining its evolution, theory, practice, profession, ethics, values and future trends. Offers a critical exploration of the challenges facing urban planners today and into the future. 
Restriction: PLANNING 100G

Youth Work

Stage I

YOUTHWRK 152G 15 Points
Understanding New Zealand Youth
Examines the concept of 'youth' and the historical, economic and political contexts in which young people live and are schooled in New Zealand society. The concept of youth is explored as a fundamental aspect of human development, identity and culture. The ways that we learn about what it is to be a young person in New Zealand today, including sport, body image, media, music, technology and social networking will be explored.
**Micro-credentials**
A micro-credential certifies the achievement of a specific set of skills and knowledge. Micro-credentials can be stand-alone units and can also potentially be used as credit towards a formal qualification.

Appointed by the Minister of Education
Jonathan Mason, BA Beloit, MA MBA Yale (Term ends 28.02.26)
Julia Arnott-Neenee, BA BCom Cant. (Term ends 27.05.27)
Rajen Prasad, MA DipSocialWork Well., PhD Massey (Term ends 25.02.24)
Cathy Quinn, LLB Well. (Term ends 25.02.24)

Māori Member
John Paitai (Term ends 31.12.25)

Elected Academic Staff Member
Julia R. Tolmie, LLM Harv., LLB(Hons) (Term ends 31.12.2027)

Elected Professional Staff Member
Gemma Skipper, BVA MAD Auck.UT (Term ends 31.12.2027)

Elected Student Member
Hala Barakat (Term ends 31.10.25)

Alumnus of the University of Auckland
Cecilia Tarrant, LLM UC Berk., BA LLB(Hons) (Term ends 31.12.24)

Skills-based Appointee
Robert McDonald (Term ends 02.06.25)

The Senate of the University

Chair: The Vice-Chancellor
Provost
Deputy Vice-Chancellor (Research)
Deputy Vice-Chancellor (Strategic Engagement)
Deputy Vice-Chancellor (Operations) and Registrar
Pro Vice-Chancellor (Education)
Pro Vice-Chancellor (Māori)
Pro Vice-Chancellor (Equity)
Pro Vice-Chancellor (Pacific)
All Distinguished Professors, Professors and Emeritus Professors employed on 0.1 FTE or more

Academic Heads
Deans (not being members of the Professorial staff)
One Deputy Dean from each faculty and School of Graduate Studies
One Associate Dean Academic, Associate Dean Teaching and Learning, Associate Dean Research and Associate Dean Postgraduate Research from each faculty

One Associate Director Academic, Associate Director Research, Associate Director Postgraduate Research from each Large Scale Research Institute
One Deputy Director from each Large Scale Research Institute
Directors of Large-scale Research Institutes
Director of Learning and Teaching
Director of Libraries and Learning Services
The two elected permanent members of Academic and Professional staff on Council, if not already members

Elected Members of the sub-professorial staff (two each from the Faculties of Arts, Business and Economics, Education and Social Work, Medical and Health Sciences and Science; and one each from the Faculties of Creative Arts and Industries, Engineering and Law; and six from the sub-professorial staff at large)
Deans

Faculty of Arts

2012 Alice Mills, BA(Hons) MSc PhD Cardiff
2010 James Oleson, MPhil PhD Camb., JD UC Berk.
2016 Tamasailau Suvalu-Sauni, MNZM, LLB MA PhD

**Senior Lecturers in Criminology**
2013 Ronald Kramer, BA La Trobe, MA MPhil PhD Yale
2015 Claire Meehan, BSc(Hons) PhD Ulster, MSSc PGCE Belf.
2013 Robert Webb, MA PhD
2020 Susann Wiedlitzka, BS Cal. Polytech., MA Hamburg, PhD Qld.

**Development Studies**

**Professor**
2014 Andreas Neef, MSc PhD Hohenheim

**Senior Lecturer**

**Senior Research Fellow**
Chapika Sangkapitux, MSc NIDA, PhD Monash

**Politics and International Relations**

**Professors**
2006 Jennifer Curtin, MA Waik., PhD ANU
1992 Martin Wilkinson, MA DPhil Oxf.

**Associate Professors**
2006 Jennifer Lees-Marshment, MA Manc., PhD Keele
2013 Stephen Noakes, BA(Hons) Qu., MA Br.Col., PhD Qu.
2004 Katherine Smits, BA(Hons) BJur W.Aust., MPhil Camb., PhD Cornell

**Senior Lecturers**
2014 Maria Armoudian, BA SW Oklahoma State, PhD S.Calif.
2018 Timothy Fadgen, BA Mass., MA Syracuse, JD Maine, PhD

**Public Policy**

**Professor**
2006 Jennifer Curtin, MA Waik., PhD ANU

**Associate Professor**
2022 Juan Tauri, MPhil Camb., PhD W’gong

**Senior Lecturer**
2018 Timothy Fadgen, BA Mass., MA Syracuse, JD Maine, PhD

**Lecturers**
2021 Sarah Bickerton, MA Cant.
2021 Mohammad Salimifar, MA Ferdowsi, PhD

**Quantitative Social Sciences**

**Associate Professor**
2008 Barry Milne, BA(Hons) MSc Otago, PhD King’s Coll. Lond.

**Senior Lecturer**
2015 Stephanie D’Souza, BSc(Hons) PhD

**Sociology**

**Professors of Sociology**
2022 Francis Collins, MA PhD
2000 Steve Matthewman, MA PhD

**Associate Professors in Sociology**
2008 Bruce M. Z. Cohen, BSc(Hons) Tees., MSc Hudd., PhD Brad.
2000 Vivienne Elizabeth, BA PhD Cant.
2011 Campbell Jones, BA MCom Otago, PhD Keele

**Senior Lecturers in Sociology**
2009 Ciara Cremin, MA PhD Leeds
2011 Manuel Vallee, MA PhD UC Berk.

**Senior Lecturer in Sociology and Gender Studies**
2015 Carisa R. Showden, AB Syracuse, MA PhD N.Carolina

**Lecturers in Sociology**
2022 Karly Burch, PhD Otago
2020 Moeata Keil, MA PhD
2020 Sereana Naepi, PhD Br.Col., MA

Faculty Management Team

Dean
Susan M. Watson, LLB(Hons) MJur

Deputy Deans
Carla Houkamau, BA(Hons) BCom PhD
Andrew J. Patterson, MCom Otago

Associate Dean (Academic Programmes and International)
Susan S. Laurenson, MCom MA

Associate Dean (Postgraduate Research)
Maureen Benson-REA, BA(Hons) Lanc., MBA Brun., PhD

Associate Dean (Research), Associate Dean (PBRF)
Snejina Michailova, MSc UNWE Sofia, PhD Copenhagen Bus. Sch.

Associate Dean (Teaching and Learning)
Douglas G. Carrie, BCom Br.Col., MBA Thunderbird, PhD Lond.

Associate Dean (Equity and Diversity)
Barbara Plester, MBS PhD Massey, DipTchg Cant.

Associate Dean (Māori)
RCarla Houkamau, BA(Hons) BCom PhD

Associate Dean (Pacific)
Sione Taufa, MCom

Associate Dean (Professional Programmes), Associate Dean (Technology)
Andrew Eberhard, BCom PGDipCom; SFHEA

Associate Dean (External Engagement)
Deborah S. Levy, BLE Aberd., MPA PhD; FPINZ FRICS

Associate Dean (Faculty)

Kaiārahi
John Arohaina T. Thorpe, BSc Well., HigherDipTchg Waik., BCom

Assistant Dean (Learning and Teaching)
Lesley A. Gardner, MSc PhD LSE; CITPNZ, FRGS SFHEA

Assistant Dean (PBRF)
Ryan Greenaway-McGrevy, BA BCom(Hons) PhD

Assistant Dean (Research)
Yuri Seo, MCom PhD

Assistant Dean (Professional Programmes)
Michael S. W. Lee, MSc PhD

Assistant Dean (Postgraduate Research)
Alan R. Toy, LLM PhD

Director of Faculty Operations
Steven McLean, MBA Brun.; CA

Director of Faculty Finance
Patience Douglas; CA

Director of Doctoral Studies
Karen V. Fernandez, BCom Melb., MBA Pittsburg State, PhD Kansas

Research Units, Centres and Institutes

Dame Mira Szászy Research Centre for Kaimahi Hauora

Director
Maree Roche, BSocSci MMS PhD PGDipOB Waik.

New Zealand Asia Institute

Director
Natasha Hamilton-Hart, BA(Hons) Otago, MA PhD Cornell

Associate Director
Antje Fiedler, Dipl.-Kffr. Giessen, PhD

Research Fellow
Xin Chen, MA Peking, MA PhD Hawaii

Director, China Studies Centre
Stephen Noakes, BA(Hons) Qu., MA Br.Col., PhD Qu.

Director, Japan Studies Centre
Mark R. Mullins, BA Alabama, MCS Regent Coll., PhD McM.

Director, Korea Studies Centre
Yuri Seo, MCom PhD

Co-directors, New Zealand APEC Study Centre
Asha Sundaram, BA Mumbai, M.Phil Oxf., MA PhD Syracuse
Haiping Zhang, MA UIBE, PhD Bonn

Director, Southeast Asia Studies Centre
Benjamin P. Fath, Dipl.-Kfm. Giessen, PhD

Schools and Departments

Accounting and Finance

Head of Department
Prasanna Gai, BEcon(Hons) ANU, MPhil DPhil Oxf.

Group Services Team Leader
Jennifer Tham, BA(Hons) Herts.

2018 ’Ilaisaane Fifita, BBIM MCom PhD

Property

Head of Department
Prasanna Gai, BCon(Hons) ANU, MPhil DPhil Oxf.

Group Services Coordinator
Myriam Benito, BSc St Louis, MM UP Baguio, MCom

Professor
1986 Deborah S. Levy, BLE Aberd., MPA PhD; FPINZ FRICS

Associate Professors
2016 Abdul-Rasheed Amidu, BSc Kwame Nkrumah UST, MPhil A.Wolowo, PhD Birm., MRICS
2017 William K. S. Cheung, BSc MPhil CUHK, MSc PhD HK; MPINZ MRICS
2005 Olga Filippova, BArch Kazakh Arch. Cons., MS PhD Texas A&M
2005 Michael J. Rehm, BArch Houston, MS PhD Texas A&M
2019 Edward C. Y. Yiu, BSc MPhil PhD HK; FRICS, MHKIS MIFMA

Senior Lecturers
2017 Kiri Dell, BA Massey, MMgt PhD
2008 Zhi Dong, BE Tongji, MSc PhD NU Singapore, PGCertAcadPrac

Lecturer
2019 Raewyn Hills, BA BProp(Hons) PhD
Associate Dean (Research Strategy)
Nicholas Rowe, PhD Kent

Associate Dean (Teaching and Learning)
Paola Boarin, MSc PhD Ferrara

Assistant Dean (Academic)
Mark Harvey, GradDipTchg PhD Auck.UT, BA MCPA

Assistant Dean (Curriculum Framework Transformation)
Allan Fowler, BBM BMA RMIT, MED S. Qld., PhD Auck.UT

Assistant Dean (International)
Sarah Foster-Sproull, DipDancePerf NZSD, MDanceSt

Assistant Dean (Māori)
Ayla Hoeta, BCom(Hons) Auck.UT

Assistant Dean (Pacific)
Lama Tone, BAS MArch

Assistant Dean (Postgraduate Research)
Iresh Jayawardena, BSc(Hons) Moratuwa, MSc Sri Jay., PhD; Assoc.NZPI

Assistant Dean (Teaching and Learning)
Sarah Knox, DipDancePerf NZSD, MDanceSt

Kaiārahi
Wikuki Kingi

Director of Faculty Operations
Sharon Peace, BA

Director of Faculty Finance
Arlette Galich, BCom GradDipCom, CA

Research Centres
MĀPIHI: Māori and Pacific Housing Research Centre

Directors
Deidre Brown, MArch PhD; FNZIA FRSNZ
Karamia Muller, MArch PhD

Schools and Departments
Te Pare | Architecture and Planning

Head of School
Lee Beattie, MSc Lond., BPlan BSc PhD DipEnvMgt, GradCertUrbDes Syd.; MNZPI MRSNZ

Group Services Coordinators
Alexandra de Beer
Portia Elmer

Professors
2009 Andrew Barrie, MArch, DEng Tokyo; FNZIA FRSNZ
2004 Deidre Brown, MArch PhD; FNZIA FRSNZ
2020 Anthony Hoete, MArch UC Lond., PhD RMIT; ARB RIBA SBA

Associate Professors
2008 Lee Beattie, MSc Lond., BPlan BSc PhD
DipEnvMgt, GradCertUrbDes Syd.; MNZPI MRSNZ
2015 Paola Boarin, MSc PhD Ferrara

2006 Michael J. Davis, MArch AA Lond., PhD RMIT, BArch(Hons); ANZIA
2006 Julia Gatley, MArch Well., PhD Melb.; FNZIA
2005 Kai Gu, BArch Zhengzhou, MArch SCUT, PhD Waterlooo
2009 Manfredo Manfredini, MSc PhD Milan Tech.
2006 Uwe Rieger, Dipl.-Ing Arch TU Berlin; NZIA

Senior Lecturers
1997 Elizabeth Aitken Rose, BA Well., MTP PhD; MNZPI
1987 Patricia M. Austin, BSc Sus., BPhil Newcastle(UK)

Assistant Professors
2006 Michael J. Davis, MArch AA Lond., PhD RMIT, BArch(Hons); ANZIA
2006 Julia Gatley, MArch Well., PhD Melb.; FNZIA
2005 Kai Gu, BArch Zhengzhou, MArch SCUT, PhD Waterlooo
2009 Manfredo Manfredini, MSc PhD Milan Tech.
2006 Uwe Rieger, Dipl.-Ing Arch TU Berlin; NZIA

Lecturers
2019 Anthony Brand, BArch(Hons) DipArch Nott., PhD
2020 I-Ting Chuang, BArch(Hons) MDes Harv., PhD SUTD
2013 Emilio Garcia, BArch Urb Tucuman, MArch UNAM, PhD Well.
2010 Lena Henry, BPlan(Hons) MPlan
2021 Iresh Jayawardena, BSc(Hons) Moratuwa, MSc Sri Jay., PhD; Assoc.NZPI
2018 Karamia Muller, MArch PhD
2021 Lama Tone, BAS MArch

Ngā Akoranga Kanikani | Dance Studies

Head of Programme
Ralph Buck, BEd Newcastle(NSW), MA Sur., PhD Otago

Group Services Coordinator
Kristie Mortimer, MDanceSt PhD
Te Waka Tūhura | Fine Arts and Design

Head of School
2008 Fiona Jack, BGD Auck.UT, MFA CalArts

Group Services Coordinators
Kim Ellis, MA
Janette McKibbin, BFA

Professor
1997 Nuala Gregory, BA Ulster, PhD

Associate Professors
2007 Joyce Campbell, BFA Cant., MFA PhD
2008 Gavin Hipkins, MFA Br.Col., BFA
2003 Sean Kerr, DocFA
2008 Alexandria Monteith, DocFA
2003 Peter Robinson, BFA DipTchg Cant.
1994 Peter Shand, LLM King’s Coll. Lond., LLB PhD
2002 Jim Speers, BFA Cant., DipTchg

Senior Lecturers
2004 Jon Bywater, BA(Hons) Cant.
2021 Angus Campbell, MTech DLitt et phil Jo’burg
2008 James Cousins, BFA DipTech Cant., MFA
2002 Lisa Crowley, MFA
2020 Allan Fowler, BBM BMA RMIT, MEDS Qld., PhD Auck.UT

2006 Ruth Watson, BFA Cant., MVA Syd., PhD ANU, PCAS Cant.
2002 Tara Winters, MFA

Lecturers
2020 Gabriela Baron, BA(Hons) Cuyo, MSc PoliMi, PhD UTN (Argentina)
2021 Diana Albarrán González, BIPD UAG, Dip KIT, MDM UPV, PhD Auck.UT
2021 Ayla Hoeta, BCom(Hons) Auck.UT
2022 Barbara Ribeiro, BArch UFRJ, MDes PUC Rio, PhD

Professional Teaching Fellows
2021 Hans Kim, BDes Well.
Faculty of Education and Social Work

Dates given are those of taking up employment. Where degrees and diplomas are shown without the name of the awarding university, the university is Auckland. ◊ Denotes a part-time, permanent appointment.

Faculty Management Team

Dean
Mark Barrow, DipTchg ACE, MSc EdD

Executive Manager to the Dean
Maree Ferens, LTCL Lond., DipTchg ACE, BMus

Deputy Dean and Te Tumu
Melinda Webber, BEd DipTchg ACE, MEd PhD

Deputy Dean and Associate Dean Strategic Projects
Camilla Highfield, MFA RMIT, DipTchg ACE, EdD

Associate Dean and Head of Initial Teacher Education
Paul Heyward, DipTchg PGDipEd ACE, BA MEd EdD

Associate Dean Academic
Barbara Staniforth, BSW Ryerson, MSW W.Laur., PhD Massey; RSW

Associate Dean Teaching and Learning
Gail Ledger, DipEd ACE, BEd(Tchg)(Hons)

Associate Dean International
Marek Tesar, TTC MA Comenius, PhD

Associate Dean Pacific
Maria Cooper, DipTchg PGDipEd ACE, BCom MEd PhD

Associate Dean Postgraduate Research
Christa Fouche, MA Rand Afrikaans, DLitt et Phil S.Af.; RSW

Associate Dean Research
Aaron Wilson, BA(Hons) Waik., DipTchg(Secondary) ACE, MEd PhD

Director of Tai Tokerau Campus
Māia Hetaraka, BEd(Tchg)(Hons) EdD

Director of Faculty Operations
Claire Phillipson, BA

Director of Faculty Finance
Bevan Iles, BMS Waik.; CA

Curriculum Development Manager
Lawrence May, BA(Hons) PhD

Research Units, Centres and Institutes

Centre for Asia Pacific Refugee Studies

Co-Directors
Rêz Gardî, LLM Harv., BA LLB(Hons)
Jay Marlowe, BA(Hons) N.Carolina, MSW PhD Flin.; RSW

Director
Peter O’Connor, PhD Griff., DipTchg ACE, DipRSADrama RSA, BA

Centre Manager
Tahnee Vo, BIHM Auck.UT

Senior Research Fellow
Joanna Ting Wai Chu, MSc PhD

Post-Doctoral Fellow
Ying (Ingrid) Wang, MDES Massey, HonMAAT Whitecliffe, PhD

Honorary Associate Professor
Jackie Kauli, MA Lond., PhD Qld.UT

Woolf Fisher Research Centre

Director
Mei Lai, MA PhD

Research Fellow
Selena Meiklejohn-Whiu BEd(Tchg)(Hons) MEd

Schools and Departments

Counselling, Human Services and Social Work

Head of School
Allen Bartley, BA(Hons) PhD Massey

Group Services Coordinator
Amanda Moller

Professors
1995 Liz Beddoe, MA Well., PhD Deakin, BA; RSW

### Critical Studies in Education

#### Head of School
- John Morgan, BSc(Hons) PGCE Wales, MA PhD Lond.

#### Group Services Coordinator
- Amanda Moller

#### Professors
- Louisa Allen, MA PhD Camb.
- John Morgan, BSc(Hons) PGCE Wales, MA PhD Lond.
- Missy Morton, BA(Hons) MEd Otago, PhD Syracuse
- Carol Mutch, BA Cant., MA N.Lond., PhD Griffith, DipTchg CTC
- Elizabeth Rata, DipEd Massey, DipTchg ASTC, BA MEd PhD

#### Associate Professors
- David Pa’avae, PGCT S.Pac., BA MProfSt PhD GradDipTchg(Sec) PGDipEdLd
- Barbara M. Grant, TTC Loreto Hall, MA PhD
- Kirsten Locke, BMus Cant., DipTchg CTC, MEd PhD
- Sean Sturm, MA PhD PGCertAcadPrac

#### Senior Lecturers
- Frances Kelly, MA PhD
- Molly Mullen, MA Lond., PhD
- Tanya Wendt Samu, PhD Cant., DipTchg ACE, BA MEd
- Ritesh Shah, BSc Stan., MA PhD
- Alexis Sibone, BA Brigham Young (Hawaii), DipTchg ACE, MEd PhD
- Jennifer Tatebe, BA MEd Br.Col., PhD

#### Lecturer
- Tim Poasa Baise, MA
- Claudia Rozas Gómez, MA PhD DipTchg

#### Professional Teaching Fellows
- Karen Finn, BCom BSc Cant., GradDipTchgLn CCE, MEd
- Fetaui Iosefo, BEd(Tchg) MProfStuds PGDipEd

#### Honorary Professors
- Ann Cheryl Armstrong, MEd PhD PGDip Special Education PGCHE Sheff.
- Derrick Armstrong, BA(Hons) Lond. MA PhD Lanc.

#### Honorary Associate Professor
- Susan Carter, PhD Tor., MA PGCertAcadPrac

#### Honorary Research Fellows
- Eve Coxon, CNZM, DipTchg Massey
- Linlin Xu, BA SISU, MA C.Lancs, PhD

#### Curriculum and Pedagogy

#### Head of School
- Katie Fitzpatrick, BEd Cant., BSpLS(Hons) PhD Waik., DipTchg CCE

#### Group Services Coordinator
- Deborah Allen

#### Professors
- Toni Bruce, BPhEd Otago, MSc PhD Illinois
- Katie Fitzpatrick, BEd Cant., BSpLS(Hons) PhD Waik., DipTchg CCE
- Janet Gaffney, BA St Louis, MEd Missouri, PhD Arizona State
- Stuart McNaughton, ONZM, MA PhD
- Peter O’Connor, PhD Griffith, DipTchg ACE, DipRSADrama RSA, BA
- Lawrence Zhang, BA Shanghai Int. Stud., MA Northwestern Normal, MA Henan, PhD PGDipELT Nanyang Technol.

#### Associate Professors
- Fiona Ell, DipTchg ACE, MA PhD
- Rosemary Erlam, DipTchg ACE, MA PhD
- Rebecca Jesson, DipTchg ACE, BA MEd PhD
- Barbara Kensington-Miller, BSc Massey, DipTchg ACE, MEd PhD
- Mei Kuin Lai, MA PhD
- Graham McPhail, MusB(Hons) Otago, MMus Well., DipTchg ACE, MEd EdD
- Alan Ovens, MEd Deakin, PhD Qld., DipTchg ASTC, DipPE Otago
- Darren Powell, BPhEd Otago, DipTchg WCE, MEd PhD C.Sturt, PGDipEd
- Aaron Wilson, BA(Hons) Waik., DipTchg ACE, MEd PhD

#### Senior Lecturers
- Blake Bennett, BSpC Cant., MSpSc OUHS (Japan), PhD Cant.
- Christine Biebricher, MA Newcastle(UK), StateExamTchg PhD PH Ludwigsburg
- Sally Birdsall, GradDipTGED Waik. Polytech., DipTchg ACE, BA MEd PhD
- Angel Chan, MEd PhD Massey, TCert Northcote CE (HK)
- Lisa Darragh, DipTchg ACE, MEd PhD
- Nina Hood, BA(Hons) Lond., MA NYU, MSc DPhil Oxf., GradDipTchg(Sec)

### Faculty of Law

*Dates given are those of taking up employment. Where degrees and diplomas are shown without the name of the awarding university, the university is Auckland.* ◇ Denotes a part-time, permanent appointment.

#### Faculty Management Team

**Acting Dean**  
Warren Swain, MA BCL DPhil Oxf.; FRHistS

**Acting Deputy Dean**  
John Ip, LLM Col., BA LLB(Hons)

**Acting Associate Dean (Academic)**  
Christopher Noonan, LLB PhD

**Associate Dean (Equity)**  
Hanna Wilberg, BA LLB(Hons) Otago, BCL MPhil Oxf.

**Associate Dean (International)**  
David P. Grinlinton, BA Massey, LLM W.Aust., MDS RMC, LLB(Hons)

**Associate Dean (Moana Oceania-Pacific)**  
Guy Sinclair, JSD NYU, BA LLM

**Associate Dean (Postgraduate – Research)**  
Arie Rosen, BA LLB Tel Aviv, LLM JSD NYU

**Associate Dean (Postgraduate – Taught)**  
Joanna M. Manning, MCompL George Wash., BA LLB(Hons)

**Associate Dean (Research)**  
Jodi Gardner, LLB B.Int.Rels Griff., LLM ANU, BCL M.Phil D.Phil Oxf.

**Associate Dean (CFT, Teaching and Learning)**  
Bronwyn Davies, MM Macq., LLB

**Assistant Dean (Academic)**  
An Hertogen, Lic Jur KU Leuven, LLM Col., PhD

**Assistant Dean (Postgraduate)**  
Robert Batty, BA LLM PhD

**Assistant Dean (Research)**  
Katherine Sanders, LLM Yale, BA LLB(Hons)

**Assistant Dean (Teaching and Learning)**  
Jayden Houghton, BA LLM

**Kaiārahi**  
Wiremu Tipuna, MA Auck.UT

### Director of Faculty Operations

Ada Marama, BA MBS PGDipBusAdmin Massey

### Director of Faculty Finance (Arts and Law)

Gary Patterson, BCom; CA

#### Law

**Professors**

1989  Michael P. Hay, BSc(Hons) PhD Cant.; FNZIC
2001  Adam V. Patterson, BA(Hons) PhD Oxf.Brookes
1994  Jeffrey B. Smaill, BSc(Hons) PhD Otago

Senior Research Fellows
2005  Amir Ashoorzadeh, MSc PhD
2002  Adrian Blaser, MSc PhD Bern
2011  Peter Choi, BSc(Hons) PhD
2022  Daniel Conole, BSc(Hons) PhD Otago
1992  Swarna A. Gamage, BSc(Hons) Kelaniya, PhD Otago
2005  Jagdish K. Jaiswal, MPharmac. Adm., PhD All India IMS
2008  Stephen M. Jamieson, MSc PhD
2012  Jiney Jose, MSc PhD Texas A&M
2001  Nishi Karunasinghe, BSc Colombo, MPhil Kelaniya, PhD Macq.
1987  Ho H. Lee, BSc Sing., MSc Waik., PhD
2004  Guo-Liang Lu, MSc PhD VU Amsterdam
1992  Dean Singleton, BSc(Hons) PhD (jointly with Molecular Medicine and Pathology)
1995  Julie A. Spicer, BSc(Hons) PhD Massey
2001  Hamish S. Sutherland, MSc PhD
1991  Moana Tercel, MSc PhD Camb.
1991  Andrew M. Thompson, BSc(Hons) PhD Cant.

Research Fellows
2014  Ivo Dimitrov, BSc(Hons) PhD
2008  Anna Giddens, MSc PhD
2014  Kimora Henare, BSc MHSc PhD
2018  Victoria Jackson-Patel, BSc(Hons) PhD
2011  Lydia Liew, BSc(Hons) PhD
2022  Emma Nolan, BSc(Hons) Otago, PhD Melb.
2016  Petr Tomek, MSc RNDr South Bohemia, PhD

Honorary Professors
Peter Shepherd, BSc PhD Massey
Nuala Helsby, BSc(Hons) Staff., PhD Liv.; FBPhS

Honorary Associate Professors
Jack Flanagan, BSc(Hons) Well., PhD ANU
Michael Jameson, MBChB PhD; FRACP FRCPed
Brian D. Palmer, MSc PhD DIC Imperial
Gordon W. Rewcastle, MSc PhD; FNZIC

Honorary Senior Research Fellows
Graeme J. Finlay, BTh S.Af., MSc PhD
Kevin O. Hicks, BSc BVSc Massey, PhD
Euphemia Leung, MSc WKU, PhD

Honorary Research Fellows
Benjamin Dickson, BSc(Hons) PhD
Francis Hunter, BSc(Hons) PhD

Centre for Addiction Research
Director
Antonia Lyons, BA(Hons) PhD Massey

Associate Directors
Peter Adams, MA PhD PGDipClinPsych
David Newcombe, BA(Hons) Flin., PhD Adel.
Natalie Walker, MSc Well., DPH Otago, PhD

Research Fellow
2023  Fiona Sing, BA LLB(Hons) Well., MSc Lond., PhD

Centre for Medical Imaging
Director
Peter Thorne, CNZM, BSc DipSc Otago, PhD

Deputy Directors
Suzanne C. Purdy, CNZM, DipAud Melb., MSc PhD Iowa
Grant Searchfield, BSc MAud PhD

Research Operations Manager
Meaghan House, MPH Emory, BA

Research Fellow
Elizabeth Holt, BHS Auck.UT, MPH PhD

Māori Research Coordinator

Group Services Coordinator
Audrey D’Souza, BCom

Manaaki Mānawa – The Centre for Heart Research
Director
Julian F. Paton, BSc(Hons) PhD Brist.

Research Operations Manager
Linda Fotherby, BA(Hons) BSc PGDipBus

Research Engagement Manager
Lisa Wong, BKin(Hons) Calg., MSc Br.Col.

Development Manager
Catherine Davies, BA LLB

Surgical and Translational Research (STaR) Centre
Directors
Anthony Phillips, MBChB
John A. Windsor, BSc Otago, MBChB MD DipObst; FACS FRACS FRSNZ
Auckland Uniservices Ltd (AUL)

Business Units

Centre for Advanced Magnetic Resonance Imaging (CAMRI)

Director
David Dubowitz, MA Camb., BMBCh Oxf., PhD Cal.Tech.; FRCR, MRCP

Growing Up in New Zealand (GUiNZ)

Director
Sarah-Jane Paine, MSc Otago, PhD Massey

Senior Research Fellows
2015 Hakkan Lai, BSc HK, MSc E.Anglia, PhD Lond.
2019 Carin Napier, MEng DTech Vaal UT
2016 Caroline Walker, BSc PhD

Research Fellows
2019 Rebecca Evans, PhD Paris X Nanterre, BMus
2022 Ben Fletcher, BSc PhD Otago
2008 Emma Marks, BSc PhD
2018 Denise Neumann, MSc PhD

Schools and Departments

School of Medical Sciences

Head of School
Paul Donaldson, BSc(Hons) PhD Otago

Academic Director
Malcolm Tingle, BSc(Hons) PhD Liv.

Postgraduate Director
Susan McGlashan, BSc(Hons) Leeds, PhD Lond.

Group Services Manager
Bruce Rattray, BA

Anatomy and Medical Imaging

Head of Department
Maurice A. Curtis, BHSc Unitec, MSc PhD

Group Services Coordinator
Emily Li, BSc RUC, MPA Miami

Director of Human Anatomy
Maurice A. Curtis, BHSc Unitec, MSc PhD

Head of Discipline, Radiology
Miriam Scadeng, MBBS Lond.; FRCR

Programme Director Medical Imaging
Beau P. Pontrè, BSc(Hons) PhD W.Aust.

Postgraduate Programme Director Medical Imaging
Sibusiso Mdletshe, NDip(Diag) NHDis(RT) MTech Durban UT, DTech Jo'burg

Undergraduate Director Medical Imaging
Andrea Doubleday, MHSc PhD Auck.UT

University Distinguished Professor
1978 Richard L. M. Faull, KNZM, BMedSc MBChB Otago, PhD DSc; FRSNZ

Professors
2007 Maurice A. Curtis, BHSc Unitec, MSc PhD
1996 Alistair A. Young, ME PhD

Emeritus Professors
Stuart W. Heap, MBBS Lond.; FRACR FRCR
Louise F. B. Nicholson, DNZM, MSc PhD DipTchg

Associate Professors
2007 Anthony Doyle, MBChB Otago, CertRad ABR, BSc; FRANZCR
2017 David Dubowitz, MA Camb., BMBCh Oxf., PhD Cal.Tech.; FRCR, MRCP
2017 Samantha Holdsworth, BSc(Hons) Cant., MSc Qld.UT, PhD Qld.
2002 Susan McGlashan, BSc Leeds, PhD Lond.
2014 Seyed Ali Mirjalili, MD Tehran, PhD Otago
2017 Miriam Scadeng, MBBS Camb.; FRCR

Senior Lecturers in Anatomy
2006 Simon O’Carroll, MSc Cant., PhD
2015 Brigid Ryan, BSc(Hons) PhD Otago

Senior Lecturers in Medical Imaging
2020 Sibusiso Mdletshe, NDip(Diag) NHDis(RT) MTech Durban UT, DTech Jo’burg
2011 Andrea Doubleday, MHSc PhD Auck.UT
2013 Beau P. Pontrè, BSc(Hons) PhD W.Aust.

Lecturer in Medical Imaging
2014 Rhonda-Joy I. Sweeney, MHSc PhD PGDipHSc Syd.

Professional Teaching Fellows
2015 Sebastien Barfoot, MA Camb., MSc Dund.
2022 Heidi Bowmast, BA NDip(Diag) MMIS Syd.
2022 Holly Brown, BHSc PGDipHSc
2021 Pippa Bresser, BSc(Eng) Jo’burg, PGDipHE Cape Town, MRad PhD Pret.
2014 Heather Gunn, MHSc
2023 Alison Kinross, BSc(Hons) AdvDipUS
2014 Catherine Lyman, PGCert Radiol., BSc(Hons)
2023 Candice Mbaïta, BSc(Hons) MSc(Rad) MSc(US) NUST Bulawayo

2021 Nethanel Murania, BSc PGDipHSc
2014 Shelley Park, Dip(Diag) MHSc
2023 Tracey Parker, NDip(Diag) MClinEd PGDipHSc
2023 Tracey Perry, BHSc PGDipHSc
2017 Tracey Pieterse, BSc(Diag, RT) MTech PhD Jo’burg
2019 Cathy Sorenson, DMU
2010 Angela Tsai, BSc(Hons) PGCertAcadPrac
2022 Darren Watts, BAppSc BSc(Pharm) MHSc PGDipHSc
2011 Adrienne Young, BAppSc MHSc PGDipHSc

Senior Tutor
1996 Peter Riordan, MSc Waik.

Senior Research Fellow
2011 Victor Dieriks, MSc KU Leuven, MSc PhD Ghent

Research Fellows
2020 Christine Arasaratnam, MSc PhD
2015 Ashika Chhana, BSc(Hons) PhD
2015 Christine Ilse, BA PhD
2021 Eryn Kwon, ME PhD
2019 Sophia Leung, BE(Hons) PhD
2017  Victoria Low, BSc(Hons) PhD
2020  Ruth Monk, BSc(Hons) PhD
2017  Helen Murray, BSc(Hons) PhD
2014  Malvindar Singh-Bains, BSc(Hons) PhD
2019  Sheryl Tan, BSc(Hons) PhD

Clinical Senior Lecturer in Radiology
Barbara S. Hochstein, MBChB Otago DRANZCR RANZCR; FRANZCR

Honorary Professors
Martin Wild, MA Cant., PhD DSc

Honorary Associate Professors
Brenda V. Dawson, BA Keele, MD Arizona; FASCP FCAP
Andrew Holden, MBChB; FRANZCR
Cynthia G. Jensen, AB(Hons) Brown, PhD Minn.
Mervyn Merrilees, BSc DSc Otago, PhD Tor.

Honorary Research Fellows
Susann Beier, BSME(Hons) DHBW, ME PhD
Sam Parrit, MD PhD Imperial
Avan Suinesiaputra, BE Bandung IT, MSc Amsterdam, PhD Leiden

Honorary Clinical Lecturers
Russel Metcalfe, MBChB DRACR; FRANZCR
Giuseppe Sasso, MBChB MD SUN; FRANZCR

Molecular Medicine and Pathology
Head of Department
Alan J. Davidson, BSc(Hons) PhD

Group Services Coordinator
Kavita Hussein

Marijana Kumerich Chair in Leukaemia and Lymphoma Research
2013  Stefan K. Bohlander, Dr.med Freiburg; FFSc(RCPA)

Professors
1989  Peter J. Browett, BMedSci MBChB Otago; FRACP FRCPA

## Centre for Medical and Health Sciences Education

### Director
Jennifer Weller, M ClinEd NSW, MBBS Adel., MD; FRCA FANZCA

### Group Services Coordinator
Debbie Beaumont

### Professor
2004 Jennifer Weller, M ClinEd NSW, MBBS Adel., MD; FANZCA FRCA

### Associate Professors
2009 Marcus Henning, MBus PhD Auck.UT, DipTchg ACE, MA
2010 Craig Webster, MSc Cant., PhD

### Senior Lecturers
2017 Yan Chen, BA(Hons) PhD Otago, PGCertAcadPrac
2013 Karen Falloon, MBChB PhD DipPaed PGDipMedSc; FRNZCGP
2023 Neera Jain, MSC Boston, PhD
2018 Mataroria Lyndon, MPH Harv., MBChB PhD
2009 Rain Lamdin, BSc MBChB PhD GradDipEd; FRNZUC

### Professional Teaching Fellow
2017 Keerthi Kumar, MBChB BMedSc(Hons) PGDipClinEd; FRNZCGP

### Research Fellows
2023 Kathryn Fahey-Williams, BSc(Hons) PhD Otago
2017 Antonia Verstappen, BHSc(Hons) MPH

### Honorary Associate Professor
Boaz Shulruf, DipTchg Zinman, BSc Open(Tel Aviv), MPH Hebrew, PhD

### Honorary Senior Lecturers
Peter Huggard, MPH MED EdD
Kim Yates, MBChB MMEdSc PGDipClinEd; FACEM

### Honorary Lecturer
Tzu-Chieh Wendy Yu, MBChB PhD; FRNZUC

### Medicine – Auckland

#### Head of Department
Nicola Dalbeth, MBChB MD Otago; FRACP FRSNZ

#### Deputy Head of Department
Matthew Dawes, BSc MBBS PhD Lond.

#### Group Services Coordinator
Jin Kyung Lee

#### University Distinguished Professor
1987 Ian R. Reid, CNZM, BSc MBChB MD; FRACP FRCPC FRSNZ

#### Heart Foundation Chair of Heart Health
1996 Robert Doughty, MBBS MD; FCSANZ FESC FRACP FRCPC

#### Neurological Foundation Professor of Clinical Neurology
2002 P. Alan Barber, MBChB Otago, PhD Melb.; FRACP

### Professors
1996 Warwick Bagg, MBChB Witw., MD; FRACP
1993 Garth J. S. Cooper, DSc DPhil Oxf., BSc MBChB DipObst; FMedSci FRCPA FRSNZ (jointly with Biological Sciences)

Honorary Lecturers
Abbas A-Murrani, BHSc MCom
Grace Lee, MBChB PGdipTravMed Otago, BSc; FRNZCGP
Carol McAllum, MBBS Syd., MGP Otago, MPC Flin.; FachPM FachSHM FRNZCGP
David J. Sorrell, MBChB; FAMPA

Honorary Research Fellows
Astrid Atlas, MBChB MMedSci
Moira Camilleri, MD MSci; FachPM
Margot Darragh, BBus MSc PhD
Derek Dow, MA DipEd PhD Edin.
Steven Lillis, MGP Otago, MBChB PhD; FAcadMed FRNZCGP

General Practice and Primary Health Care – Bay of Plenty
Senior Lecturer
2019 Emily Gill, BMedSc(Hons) MBChB DCH PGdipWHlth Otago
Professional Teaching Fellow
2023 Dane Vinoba Naidoo, BSc MBChB

General Practice and Primary Health Care – Northland
Senior Lecturer
2013 Kyle Eggleton, DIH Otago. MBChB MMedSc MPH DipPaed DipObstMedGyn; FRNZCGP(Dist.)

General Practice and Primary Health Care – Taranaki
Professional Teaching Fellows
Nadja Gottfert, MBChB Witw.; FCUCP
Marek Lang, PGdipRPHP Otago, MBChB; FRDHRMNZ FRNZCGP
Hannah Lawn, MBChB PGdipRPHP PGcertCPU Otago; FRDHRMNZ

General Practice and Primary Health Care – Waikato
Professional Teaching Fellow
2011 Stewart Wells, MBChB Otago, MPH; FRNZCGP

Goodfellow Unit
Director
Bruce Arroll, MHSc Br.Col., BSc MBChB PhD DipObst; FRNZCGP

Deputy Director
2021 Courtenay White, MBChB DipPaed PGdipHSc; FRNZCGP

Project Manager
Sathna Kanji, DipPharm CIT(NZ), GradDipBusStud Massey; MPS

Goodfellow Postgraduate Chair in General Practice
2000 Felicity Goodyear-Smith, MBChB DipObst MGP Otago, MD; FFFLM(RCP) FRNZCGP

Health Systems
Head of Department
Karen Day, MA S.Af., PhD; FHnZ FIAHSI, RN, RM

Group Services Coordinator
Michelle Scott

Professors
2022 Paula Lorgelly, BSc(Hons) Cant., PhD Otago, PGCAP Nott.
1997 Tim Tenbensel, BA(Hons) PhD ANU

Associate Professor
2010 Monique Jonas, MA PhD Lond.

Senior Lecturers
2019 Karen Bissell, DrPH LSHTM, MA
2011 Richard Edlin, BSc MCom MA Cant., PhD Sheff.
2005 Rob McNeill, MA Cant., PhD
2014 Maran Muthiah, PhD MPhil Anna, MPhil Camb., MCE
2017 Braden Te Ao, BSc MPH PhD Auck.UT
2012 Laura Wilkinson-Meyers, MSc LSE, PhD

Professional Teaching Fellows
◊ 2018 Linda Haultain, PhD PGdipSSS Massey
◊ 2017 Andrew Lynch, MSW Massey, DipMathsEd CTEFLA
◊ 2014 Monique Palaone-Smith, BHSc(Hons)

Honorary Senior Lecturer
Abbas A-Murrani, BHSc MCom
Peter Carswell, BSc MCom PhD PGdipAppliedPsych
Annette Dunham, BA MSc PhD Cant., DipnT CIT(NZ), PGCertHigherEd Deakin
Pat Neuwelt, MD McM., PhD Otago, PGdipPH; FRNZCGP FNZCPHM

Honorary Lecturers
Nelson Aguirre, BSc FU Colombia, MD MS Rosario (Colombia), PhD
Elizabeth Berryman, MBChB Otago
Adrian Field, MA PhD Massey
Janet Liang, MBChB PhD; FFFICM FCICM
David Rees, MA PhD Well.

Pacific Health
Head of Department
Vili Nosa, MA PhD

Group Services Coordinator
Kashmira Irani, BCom

Associate Professor
2002 Vili Nosa, MA PhD

Faculty of Science

Dates given are those of taking up employment. Where degrees and diplomas are shown without the name of the awarding university, the university is Auckland. ◊ denotes a part-time, permanent appointment.

Faculty Management Team

Dean
John G. Hosking, BSc PhD; FRSNZ, Mem.IEEE

Deputy Dean
Julie Rowland, DipTchg ACE, BSc(Hons) PhD Otago

Associate Dean (Academic)
Bruno Fedrizzi, MSc PhD Padova

Associate Dean (Diversity and Inclusion)
Sonia Fonua, BSc MA PhD

Associate Dean (Doctoral)
Vivien Kirk, PhD Camb., MSc; FNZMS

Associate Dean (International)
Sebastian Link, MSc TU Clausthal, PhD Massey, DSc

Associate Dean (Māori)
Jade Le Grice, BA(Hons) PhD

Associate Dean (Masters and Postgraduate Taught)
Tilo Söhnlein, DiplChem PhD TU Dresden; MNZIC

Associate Dean (Pacific)
Sina R. Greenwood, MSc PhD

Associate Dean (Research)
Jan Lindsay, Dr. rer. nat. Giessen, MSc

Associate Dean (Sustainability)
Gillian Lewis, BSc(Hons) PhD Otago

Associate Dean (Teaching and Learning)
Andrew J. Luxton-Reilly, BSc MA PhD PGCertAcadPrac; MACM Mem.IEEE

Assistant Dean (International)
Sathiamoorthy Manoharan, BTech IIT Kharagpur, PhD Edin.

Associate Dean (PBRF)
Robert Amor, MSc Well., PhD

Associate Dean (CFI)
Murray Ford, MSc PhD

Kaiārahi
Teariki Tuiono, BSc NZ, MEd CCE, GradDipLntchg Massey

Director of Faculty Operations
Linda Thompson, DipTchg ACE, BA Otago, MMgt PGDipBusAdmin Massey

Director of Faculty Finance
Louise Jones, BCom

Senior Research Fellow
2021 Belinda Loring, B.Med Newcastle(NSW), MPH; FAFPHM(RACP)

Research Fellow
2020 Claire Gooder, BA(Hons) Otago, PhD

Centres of Research Excellence

Maurice Wilkins Centre

Director
Gregory M. Cook, MSc DPhil Waik.; FRSNZ (The University of Otago)

Deputy Directors
Margaret A. Brimble, DNZM, MSc PhD S’ton; CChem, FNZIC FRACI FRS FRSNZ FRSC (The University of Auckland)
Emily J. Parker, BSc(Hons) Cant., PhD Camb. (Victoria University of Wellington)
Peter R. Shepherd, BSc(Hons) PhD Massey (The University of Auckland)

Research Operations Manager
Rochelle Ramsay, BSc(Hons) Otago, PGDipBusAdmin Massey

Te Pūnaha Matatini

Director
Priscilla Wehi, BA BSc(Hons) Cant., MSc Lincoln(NZ), PhD Waik. (The University of Otago)

Deputy Director
Michael O’Sullivan, MS PhD Stan., BSc MPhil (The University of Auckland)

Research Operations Manager
Kathryn Morgan, MSc GradDipTchg(Sec)

Research Units, Centres and Institutes

Ngā Ara Whetū – Centre for Climate, Biodiversity and Society

Hosted by the Faculty of Science and co-hosted by the Business School, Faculty of Arts and Faculty of Engineering.

Directors
Rachel Wolfgramm, MCom PhD
Julie Rowland, DipTchg ACE, BSc(Hons) PhD Otago
Niki Harré, MA(Hons) PhD DipTsec
Jacqueline Beggs, MSc PhD Otago
Maria Armoudian, BA SW Oklahoma State, PhD S.Calif.
David Noone, BSc(Hons) PhD Melb.
Saeid Baroutian, BSc Azad, MEng Shahid Bahonar, PhD Malaya, PGCertAcadPrac; AMIChemE
Rod McNaughton, BA(Hons) W.Laur., MA PhD W.Ont., PhD Lanc.

Centre for Computational Evolution

Directors
Simon Greenhill, MSc PhD
Simone Linz, MSc PhD Heinrich Heine
Anna Santure, BSc(Hons) PhD Otago

Centre for Pūtaiao

Directors
Jade Le Grice, BA(Hons) PhD
Te Kahuratai Moko-Painting, DipPReoK TwOa, BSc MMaRCOn

Future Food Research Centre

Directors
Siew-Young Quek, BSc(Hons) NU Malaysia, PhD Birm.; FNZIFST, MIFF(USA) NZNIC
Clare Wall, BSc Wales, MAppSc PhD Qld.Ut
Meng Wai Woo, BE(Hons) James Cook University, PhD NU Malaysia; CEng, MChemE

Institute for Innovation in Biotechnology

Director
Kerry Loomes, BSc(Hons) PhD Massey

NAOInstitute

Directors
Michael Witbrock, BSc(Hons) Otago, PhD Carnegie-Mellon
Gill Dobbie, MTech Massey, PhD Melb.

Te Ao Marama – Centre for Fundamental Inquiry

Directors
Kathleen A. Campbell, BSc Calif., MSc Wash., PhD S.Calif.; FRNSNZ
Richard Easther, BSc(Hons) PhD Cant.

Schools and Departments

Biological Sciences

Head of School
Allen G. Rodrigo, BSc (Hons) PhD DSc Cant.; FRNSNZ

Director, First Year Teaching
Amanda A. Harper, GradDipTchg ACE, MSc EdD

Group Services Manager
Julie Davis

University Distinguished Professor
1998 Margaret A. Brimble, DNZM, MSc PhD S’ton; CChem, FNZIC FRACI FRSC FRNSNZ (jointly with Chemical Sciences)

Professors
◊ 2010 Andrew Allan, BSc(Hons) Cant., PhD Camb.
  2003 Jacqueline R. Beggs, MSc PhD Otago
  1995 Kendall D. Clements, BSc Well., PhD James Cook, MSc

2005 Rochelle Constantine, ONZM, BSc PGDipSci
  Massey, MSc PhD (jointly with Institute of Marine Science)
◊ 1993 Garth J. S. Cooper, DSc DPhil Oxf., BSc MBChB
  DipObst; FMedscl FRCPA FRNSNZ (jointly with Medicine)
  2005 Alexei Drummond, BSc PhD; FRNSNZ (jointly with Computer Science)
  2002 P. Rod Dunbar, MBChB PhD Otago; FRNSNZ
  2014 Juliet Gerrard, DNZM, BA(Hons) DPhil Oxf.; FRNSNZ (jointly with Chemical Sciences)
  2007 Anthony J. Hickey, MSc PhD (jointly with Marine Science)
  2013 Andrew G. Jeffs, MSc PhD (jointly with Institute of Marine Science)
  2012 Gavin Lear, BSc(Hons) DPhil Oxf.
  1991 Gillian Lewis, BSc(Hons) PhD Otago
  1991 Kerry Loomes, BSc(Hons) PhD Massey
  2015 Cate Macinnis-Ng, BSc PhD Technol.Syd.
  1993 Craig D. Millar, MSc PhD
◊ 2007 Anthony R. J. Phillips, BSc Well., MBChB Otago, PhD
  2016 Anthony Poole, BSc(Hons) PhD Massey
  1994 Joanna J. Puttererill, MSc PhD
  2020 Allen G. Rodrigo, BSc(Hons) PhD DSc Cant.; FRNSNZ
  2010 James Russell, MSc PhD (jointly with Statistics)
  1999 Mary A. Sewell, MSc PhD Alberta
  2007 Russell G. Snell, MSc Otago, PhD Cardiff
  2007 Margaret Stanley, BSc(Hons) Otago, PhD Monash
◊ 2014 David M. Suckling, MSc PhD Cant.
  2007 Michael W. Taylor, BSc Otago, PhD NSW, MSc
◊ 2018 Maren Wellenreuther, MSc Hamburg, Adel., PhD
◊ 2013 ZhiQiang Zhang, BSc PhD Cornell; FRNSNZ

Emeritus Professors
Edward N. Baker, CNZM, MSc PhD; FNZIC FRNSNZ
A. Richard Bellamy, CNZM, BSc NZ, MSc PhD; FRSNZ
Michael N. Clout, BSc(Hons) Edin., PhD; FRNSNZ
Richard Gardner, PhD DSc; FRNSNZ
Philip J. Harris, MA PhD Camb.

Associate Professors
2018 Jane R. Allison, BSc(Hons) Cant., PhD Camb.
2008 Ghader Bashiri, BSc Shahid Chamran, MSc Guilan, PhD
2008 Bruce Burns, MSc PhD Colorado
2018 Emma Carroll, MSc(Hons) PhD
2008 Brendon Dunphy, MSc PhD (jointly with Marine Science)
2010 Anne Gaskett, BA BSc(Hons) Melb., PhD Macq.
2012 David Goldstone, MSc PhD
2022 Simon Greenhill, MSc PhD
2015 Kim M. Handley, MSc PhD Manc.
◊ 2008 Paul Harris, MSc PhD (jointly with Chemical Sciences)
2008 Gregory Holwell, BSc(Hons) Melb., PhD GradDipEd Macq.
◊ 2012 Klaus Lehnert, MSc PhD TU Darmstadt
1999 J. Shaun Lott, BSc(Hons) Sur., PhD Leeds
◊ 2011 Robin MacDiarmid, MSc PhD Otago
2017 Jennifer Miles-Chan, MSc PhD
2004  George Perry, MSc Cant., PhD Melb., PGCap Lond. (jointly with Environment)
2013  Anna Santure, BSc(Hons) PhD Otago
    2011  Robert Schaffer, BSc Aberd., PhD E.Anglia
2000  Christopher Squire, MSc PhD
    2011  Matthew D. Templeton, BSc(Hons) PhD Otago
    2013  Darren Ward, MSc La Trobe, PhD

Senior Lecturers
    2003  Catherine E. Angel, BSc Leeds, MSc PhD Aberd.
    2010  Augusto S. Barbosa, BA PhD Brasilia
    2010  Anna Brooks, BCA BSc(Hons) Well., PhD
    2006  Esther M. M. Bulloch, BSc(Hons) Massey, PhD Camb.

**Communications and Marketing Manager**  
Maclaurin Chaplain to the University
  Rev Tim Pratt, DipTheol MCD, MBA PhD Auck.UT

### Communications and Marketing

**Manutaki Whakawhitinga, Whakawhanaunga | Director, Communications and Engagement**  
Kiri Coughlan, BA Otago, PGDipJ Cant.

**Manutaki Whakatairanga, Rapunga Tauira | Director, Marketing and (Student) Recruitment**  
Mark Howard, BA Wolv., MEntr Otago

**Associate Director, Marketing**  
Sarah Kenny, BA(Hons) Sheff.Hallam, PGDipMarketing CIM

**Associate Director, Communications**  
Todd Somerville, MA Cant., MLitt Oxf.

**Associate Director Schools and Community Engagement**  
Liletina Vaka, BA Well.

**Web Manager**  
Jo Renfree

### Digital Services

**Chief Digital Officer**  
Jason Mangan, BCom

**Head of Platform Engineering**  
Keith Hedley, BSc

**Director, National eScience Infrastructure**  
Nick Jones, MCom

**Head of Performance and Modernisation**  
Lynette Farrell

**Director Experience Innovation**  
Jason Tutara, BSc Waik., GCertCDev Auck.UT

**Head of Digital Workspace**  
Paul Boakes

**Head of Academic Solutions**  
Aldon Hartley, ME

**Head of Strategy, Planning and Value**  
Brett Harvey, BMS Waik.

**Head of Product Engineering**  
Jo Batchelor, BBS Massey

### Financial Services

**Chief Financial Officer**  
Tim Bluett, BSc(Hons); ICAEW, FCA

**Manager, Automation and Improvement**  
David Spalding

**Group Financial Controller**  
Julian Michael, CA

**Manager, Strategic Procurement**  
David Rees, HOC Carrington, PGDipBus, CertGMP; FACHSE FNZIHM

**Head of Research and Operations Finance**  
David Jordan, BCompt(Hons) S.Af., MBA; CA

**Manager, Risk Management and Audit**  
Rachelle Miller, MCom; CA

**Head of Financial Planning and Analysis**  
Helen Cattanach

**Manager, Shared Transaction Centre**  
Sarah Gray

**Head of Business Advisory**  
Cameron Thomas, BCom; CA
Foundation Studies Programmes

New Start
Programme Manager
Rochai Taiaroa, MProfStuds
Administration Assistant
Ata Houpapa, MEd

University of Auckland Tertiary Foundation Certificate
Programme Director
Andrew Dawson, MA
Deputy Director
Rachel Passmore, BSc(Hons) Reading, PGDipTchg ACE, MSc
Programme Administrator
Astrid Tjahyono, BMus

Human Resources

Director of Human Resources
Andrew Phipps, MSocSci Waik.
Associate Director, Health, Safety and Wellbeing
Angus Clark, BSc Strath., Ch.EHO MREHIS
Associate Director, HR Advisory
Stefanie Boyer, BA Cant., MA Birkbeck, PGCertHR CIPD
Associate Director, HR Services

International Office

Director International
Martin Hookham-Simms, BSc(Hons) Hudd., MBA UC Lond., PGDip CIM
Deputy Director International
Ainslie Moore, BCom Canberra, MPP ANU

Director, Libraries and Learning Services
Sue Roberts, BA(Hons) Leic., MA Liv., PGDipLIM Liv.J.Moores
Associate Director, Learning, Teaching and Research
Nicola Rawnsley, CertITT Auck.UT, MLIS Well., MA PhD
Associate Director, Research and Collections
Hester Mountifield, MBibl PGDipHigherEd Jo‘burg; FLIANZA

Office of Research Strategy and Integrity

Director, Research Strategy and Delivery
Alexandra Thomas, BA(Hons) Essex, PGCert Lond.Met.
Executive Assistant to the Director, Research Strategy and Delivery
Christine Whyte

Associate Director – Research Infrastructure
Roger Lins, BSc(Hons) PhD Otago, PGDipArts
Research Infrastructure Manager
Laura McAllum, BSc(Hons) Columbia
Research Manager – Major Initiatives
Anne Casey, MA(Hons) Cant.

Research Impact Manager
Faith Welch, BSc PhD Brist.

Research Impact Advisor
Hannah Read, MSc PhD

Research Development Manager
Julia Vilstrup Mouatt, BSc Massey, MSc PhD Copenhagen

Research Development Coordinator
Victoria Hewitt, BSc(Hons) MSc Cant., PhD Monash, GradDipEd DCE

Research Manager – Vision Matauranga
...

Research Manager International
Mark Hurdley, BA(Hons) De Mont.

Animal Welfare Officer
Jodi Salinsky, BA Florida, BS Portland St., DVM Wash. State; MANZCVS

Clinical Services Veterinarian
Sabina Darke, Dr. med. vet. Giessen

Associate Director – Research Operations
Nicholas Kearns, BCom NSW, PGDipBus GradDipAppPsych

Research Service Improvement Manager
Josh Alden, BSc MBioEnt

Research Portfolio Manager
Simmon Hofstetter, BSc PhD Alberta

Research Portfolio Coordinator
Nina Attwood, MA PhD

ResearchHub Content Specialist
...

Senior Research Programme Coordinators
Emma Dawson, BA Otago Kosala Krishnan, BSc(Hons) Lond.Guild, MA

Ethics and Integrity Manager
Elizabeth Visser, MSc(agric) DSc(agric) Pret., MFA Whitecliffe

Senior Ethics Advisor
...

Ethics Advisors
Colleen Altagracia Fiona Cheal Madhavi Manchi, MA B'Lore, PhD Tata Inst.Soc.Scis

Regulatory Approvals Administrator
Maran Cassin

Office of the Vice-Chancellor

Vice-Chancellor
Dawn Freshwater, BA(Hons) Manc., PhD Nott.

Executive Assistant to the Vice-Chancellor
Julie Tomov

Chief of Staff
Brian Ten Eyck, BSc Virginia Tech., MA Arizona, EdD Penn.

Executive Assistant to the Chief of Staff
Ranmali Mada, PGDipBus; ACGI

Deputy Vice-Chancellor (Research)
Frank H. Bloomfield, ONZM, BSc(Hons) MBChB Manc., PhD; FRACP, MRCP(UK)

Executive Assistant to the Deputy Vice-Chancellor (Research)
Kirsty Hamel

Deputy Vice-Chancellor (Strategic Engagement)
Erik Lithander, BSc LSE, MPhil DPhil Camb.

Executive Assistant to the Deputy Vice-Chancellor (Strategic Engagement)
Viola Laban

Deputy Vice-Chancellor (Operations) and Registrar
Adrienne Cleeland, MBA Massey; CPA(Aust.), FFIN

Executive Assistant to the Deputy Vice-Chancellor (Operations) and Registrar
Heather Seal

Director of Human Resources
Andrew Phipps, MScSci Waik.

Executive Assistant to the Director of HR
Dee Chapman

Pro Vice-Chancellor (Equity)
Cathy Stinear, BSc PhD

Manager – Equity
Vicki Watson

University Committee Executive
Wendy Verschaeren, LLM FU Brussels

Event and Protocol Manager
Melissa Burnett

Office of the Provost

Provost
Valerie Linton, Bsc Sheff., MBA La Trobe, PhD Camb.

Pro Vice-Chancellor (Education)
Bridget Kool, BHS BSc Auck.UT, MPH PhD; FCNA(NZ), RN
