

# Research Showcase 2019

Wednesday 12 June | Large Chemistry

On 12 June, 2019 the School of Chemical Sciences will hold its 11<sup>th</sup> Annual Research Showcase. This event provides an excellent opportunity for PhD students to showcase their research, and network with the New Zealand Chemistry community. The exciting, one-day event will feature PhD student presentations, a poster session, a high-profile keynote lecture, and will be followed with a reception to bring together students, staff, industrial partners, and researchers from other New Zealand Universities.
