Welcome

Welcome to the School of Architecture and Planning

The University of Auckland’s School of Architecture and Planning is acclaimed for its high quality research and teaching. It is the only University in New Zealand offering the disciplines of Architecture, Planning and Urban Planning in one School. Architects, Urban Planners and Urban Designers fashion the world we live in. Drawing on knowledge and imagination they craft our most intimate domestic spaces, neighbourhoods and cities. They enrich human sensibility, create the infrastructure fundamental to community vitality and, as our relationship with the natural environment becomes increasingly precarious, work towards ensuring that we can all look forward to a secure and inspiring future. Graduates from the School of Architecture and Planning make a difference and many are leading practitioners in New Zealand and abroad.
Situated in New Zealand’s largest and most cosmopolitan city, the School engages with pressing local and global concerns. It includes many internationally recognised scholars whose research makes a significant contribution to contemporary practices and policy. We seek to build better cities, towns and homes in New Zealand and the world.

Research areas in the School include design and technologies, sustainable development, urban policy and implementation, digital and analogue media, history/theory, and professional practice and governance.

Our postgraduate programmes provide students with a strong intellectual foundation and the knowledge and skills needed for careers as practitioners, researchers and academics. Studio-based teaching and learning integrates knowledge and practice in all our taught masters programmes. We work closely with members of our professions and award-winning practitioners who play an important role in ensuring that teaching and learning is informed by current best practice. Our taught masters degrees in Architecture and Planning are professionally accredited.

Students have many opportunities to engage with each other, and with staff, to the benefit of the intellectual and social life of the School. We hope that you will find your studies stimulating and rewarding and look forward to getting to know you.

Best wishes for a successful year.

ELIZABETH AITKEN ROSE
Head of School

Welcome to NICAI

The National Institute of Creative Arts and Industries (NICAI) is a respected centre of learning and professional expertise in the creative sector. NICAI brings together the School of Architecture and Planning, Elam School of Fine Arts, the School of Music, the Dance Studies Programme and the Centre for Art Studies (CAS). The faculty is home to nationally and internationally recognised academics, artists, musicians and professional practitioners.

As a NICAI student you will have access to some of New Zealand’s finest resources, including specialist libraries, dedicated study areas, studios and practice rooms. Working alongside leading thinkers and practitioners, your experience at NICAI has the potential to inspire and hone your creative skills and academic pursuits. We are proud that our students leave the faculty equipped with the theoretical, practical and entrepreneurial knowledge necessary for a successful future in the creative sector.

### Summer School 2016

| Summer School begins                  | Wednesday 6 January                                             |
| Auckland Anniversary Day               | Monday 1 February                                               |
| Waitangi Day                           | Saturday 6 (observed Monday 8 February)                         |
| Lectures end                           | Friday 12 February                                              |
| Study break                            | Saturday 13 February                                            |
| Examinations                           | Monday 15 – Wednesday 17 February                               |
| Summer School ends                     | Wednesday 17 February                                           |
Degrees Offered

The undergraduate and postgraduate programmes offered in Architecture, Planning and Urban Design at the University of Auckland are:

- Bachelor of Architectural Studies (BAS)

**Professional programmes**

- Bachelor of Planning (BPlan)
- Bachelor of Urban Planning Honours (BUrbPlan(Hons))
- Master of Architecture (Professional) (MArch(Prof))
- Master of Urban Planning (MUrbPlan)

**Research programmes**

- Master of Architecture (MArch)
- Master of Architecture (March) — in Sustainable Design
- Master of Planning (MPlan)
- Doctor of Philosophy (PhD)

**Taught Programmes**

- Master of Urban Design (M urbDes)
- Postgraduate Diploma in Architecture (PDGipArch)
School information

Architecture and Planning Building 421
The following should be read in conjunction with the Studio Guidelines document (Design courses and the use of Studio Spaces: Guidelines and Requirements for 2014) issued at the commencement of the academic year. You are expected to familiarise yourself with and adhere to these guidelines. Failure to do so could lead to disciplinary action being taken.

Access to the building and studios
During the semester, studios are accessible 7.30am–11pm weekdays, weekends and public holidays, although this is subject to change. You must carry your proximity cards on you at all times for access to studios.

Proximity cards are only issued to students enrolled in School of Architecture and Planning programmes. Proximity cards will be issued to new students free of charge, with replacement cards issued at a charge of $15 (subject to change).

Access Conditions
• The access card is for personal use only and cannot be given to others.
• Unauthorised people are not to be admitted.
• Student ID must be carried at all times and be produced on request.
• Students must leave the building immediately on the request of University security personnel or NICAI staff.
• Students need to inform University Security immediately if there are people present in the building who are not eligible to have access.
• All doors and windows should be left secure when exiting a room.

• All University Health and Safety policies and procedures must be followed.
• If a card is lost or stolen, it must be reported immediately to the School Office, or if after hours, to University Security on ext 85000.
• The card must be returned to the School Office when it is no longer required.

Access rights will be denied or forfeited, if any of the above conditions are not followed.

Emergency evacuation procedures
Students and staff are required to leave the buildings as quickly as possible using fire protected stairwells only (lifts must not be used). Please be conscious of and assist people with disabilities as requested.

Assembly place: Level 3 open areas between the Conference Centre building and Symonds Street.

Equipment loan
The NICAI Helpdesk has a variety of equipment which is available to our students, including a selection of items such as cameras, camcorders, and tripods. This equipment is available on loan from the NICAI Helpdesk for limited periods of time and conditions apply.

For more information about equipment loan, contact the NICAI Helpdesk.

NICAI Helpdesk
Level 5, Building 421
(Architecture and Planning Building)
26 Symonds Street

Phone: +64 9 373 7599 ext 85543
Email: nicai.helpdesk@auckland.ac.nz
Health and safety
First Aid is available to provide emergency first stage medical and accident assistance. The Workshops and School office are provided with emergency First Aid kits and First Aid officers are appointed for various areas of the building. There is also a rest room available to anyone who is feeling unwell at the Faculty of Engineering main office. If you require First Aid you should approach any staff member at any time for assistance.

Phones
Emergency phones available for contact with University Security can be found at the following locations:

- Level 2 and 4 Studios
- Concrete Structures Lab
- Level 5 Computer Lab

University Security (Unisafe)
Phone: +64 9 373 7599 ext 85000 or
DD: 0800 373 7550 (non-emergency)
Phone: +64 9 373 7599 ext 966 (emergency)

Removal of personal materials/work at end of each semester
29 June — Ensure all private property is removed from floors and desks. This may be placed either in or on lockers over the break.

16 November — Ensure all private property is removed from the school.

No responsibility will be accepted for items lost or disposed of after these dates.

Laboratories
Materials laboratories are available for the making of models, furniture and experimental constructions of all kinds. The laboratories are managed by highly skilled and experienced technical staff that will assist you with your project and are there to care for your safety. When using the laboratories you are required to comply with Health and Safety legislation and any instructions in this regard provided by the technical staff.

Safety and security
If you need to call emergency services
- Dial 1-111 from any internal phone and ask for fire, ambulance or police.
- Tell them the building name, the street address (including the suburb and city), and the nature of the emergency.
- Phone University Security on ext 966.

If you need to evacuate a building
- In the event of a fire sound the nearest alarm — you will find them close to all building exits. Do not attempt to put out a fire yourself.
- Evacuate by the nearest exit. Move quickly but don’t run. Close doors but don’t turn off lights. Don’t use any lift. When the Fire Service arrives, let them know that the building hasn’t been searched.
- Phone University Security on ext 966.
- Follow all Fire Service, Police, Ambulance and University Security staff instructions.
- Only re-enter the building when told by either Fire Service or University Security staff that it is okay to do so.

If you become aware of an unsafe situation
- Where feasible make the situation safe by stopping any work that’s happening
or by preventing contact. Report the situation to University Security or a member of staff as soon as possible.

- If you witness any potential unsafe practices report the situation to University Security as soon as possible.

**Take responsibility for your own safety**

- If planning to work after daylight hours, arrange to move your car to a park close to the exit doors where practical, or arrange to be collected by a friend or family member at an agreed time close to the exit doors.

- If making your own way home, phone ahead to a flatmate or family member to advise them of your departure and expected arrival time, or travel with a friend.

- Carry a personal alarm in your hand when walking to your vehicle at night.

**Take some responsibility for other people’s safety and the security of the building**

- Do not admit unauthorised people in to the buildings, even if they identify themselves as being a friend or relative of another student. No access card — no entry.

- Watch to ensure that no one follows you into a building.

- Advise University Security immediately if there are people present in the building who are not eligible to have access or who are behaving in an unsafe or irresponsible way.

- Ensure that all doors and windows are left secure when you exit a space or building.

**Clubs and Societies**

**Staff-Student Consultative Committee (SSCC)**

A Committee of staff and student representatives is formed at the beginning of each year. Two Student Representatives for each year of each programme, eg, BPlan, BAS, MArch(Prof) etc. Two SSCC members from each school are elected to a faculty SSCC.

School and faculty SSC Committees generally meet four times a year — twice a semester — to discuss relevant developments or initiatives being taken by the School and to discuss issues raised by student representatives. Additional meetings can be held if required. Contact your school SSCC coordinator, WAVE or AUSA for more information. The AUSA runs training sessions and workshops for class representatives throughout the year.

www.ausa.auckland.ac.nz

**Architecture Clubs and Societies**

**Architects and Civil Engineers Association (ACE)**

ACE is a student run organisation that brings Civil Engineering and Architecture students together and equips them with knowledge so they are better prepared to work together in the industry. Run by a team of dedicated volunteers, who are passionate about providing collaborative experiences and student development through opportunities available with ACE.

www.aceuoa.org.nz

**Society of Space (SOS)**

Society of Space (SOS) is the Architecture Student Association for The University of Auckland’s School of Architecture and Planning and is an organisation run by architecture students for architecture students. The Society consists
of a multitude of committees which organise social, cultural and sporting events, as well as School publications and student advocacy. It is a society committed to the promotion, cultivation and celebration of Architecture.

The student representatives of SOS are appointed each year, and all people interested in participating and contributing are encouraged to attend the first meetings held at the start of the first semester. Times and dates of meetings vary and are confirmed on the first day of the semester.

SOS supports and promotes architecture school student events and functions. Each year the SOS student committees organise regular barbecues, a school ball and visiting speakers. The society thrives on and is always open to student suggestions for potential social, academic and other expressive events.

Affiliated to the wider Auckland University Student Association (AUSA), SOS has student representatives on all major School, Faculty and University committees. SOS maintains its ties with the wider architectural profession by having a representative at the New Zealand Institute of Architects (NZIA) Auckland Branch Committee as well as contact with the AAA / Auckland Architecture Association and SANNZ/ Student Architecture Network New Zealand. Within this strong network, SOS representatives are able to voice student concerns, queries and their innovative ideas. All students are encouraged to submit any issues or thoughts they may have to the student representatives of their respective years.

SOS notices are posted on the level 2 notice board at the School as well as within the studios on levels 2 and 4; otherwise all students should feel free to speak with any of the SOS representatives in person or via email. Names and contact details of individuals are located on the notice boards. For more information on SOS, to submit a query or to volunteer your time at an SOS event and social function, please see your student representative.

Joining SOS:
Joining SOS provides numerous opportunities and benefits for students including:

- Opportunities for students to become more involved with the School of Architecture and Planning, NICAI and the University.
- A means through which students of all years can collaborate.
- Opportunities to make friends and contacts within the greater architecture community.
- Discounts at SOS organised events including Balls, BBQs, etc.
- Provides a cohesive vehicle through which students can help better their educational environment.

Membership is strongly encouraged and consists of a one-off fee of $10. This can be done by simply approaching a representative of the SOS team.

Student Architecture Network New Zealand (SANNZ)

SANNZ was formed in response to students wanting to improve connections between schools, students, architects and the international creative community.

Its goals are to promote:

- The interests of New Zealand architecture students.
- Students taking responsibility for and ownership of their architectural education.
- The abilities, work and vision of students of architecture.
• Student community and the integration of student and professional cultures.

SANNZ organises a number of events locally and nationally throughout the academic year such as Superstudio, sTutes, BBQs, lecture series and NZIA meet’n’greets. Superstudio is an annual competition designed to encourage debate, critique and investigation into an architectural issue, particularly between architecture schools in Australia and New Zealand, outside the confines of normal architecture school education. sTute is an educational event providing an enhanced version of the tutorial that students would otherwise receive during a regular design studio. Students are afforded access to a diverse range of talented and respected architect practitioners from whom they receive feedback on their work.

SAANZ is supported by the New Zealand Institute of Architects (NZIA) and the Schools of Architecture and has strong links with their Australian equivalent, SONA. Any student enrolled in a School of Architecture in New Zealand is eligible for membership of SANNZ and also becomes a Student Member of the NZIA. Contact a SANNZ representative at the School or visit:

www.sannz.net.nz

Disclaimer

Although every reasonable effort is made to ensure accuracy, the information in this document is provided as a general guide only for students and is subject to alteration. All students enrolling at The University of Auckland must consult its official document, the current University of Auckland Calendar, to ensure they are aware of and comply with all regulations, requirements and policies.
Notes:
- The diagram above represents pathways for academic study only. Please refer to The University of Auckland Calendar for programme and course regulations.
- All programmes listed in the table above are taught at the City Campus unless otherwise noted.
- Other admission and entry requirements apply. Please contact the NICAI Student Centre for application forms and policies.

1. Professional degree recognised by the relevant national professional institute.
2. Graduates with First Class and Second Class (Division 1) Honours from The University of Auckland may apply for direct entry to the PhD.
3. Graduates with a recognised four-year degree in Landscape Architecture may apply for admission.
4. From 2012 the MUrbPlan replaces the MPlanPrac. There will be no new admissions to the MPlanPrac, however it will be available until 2017 to allow those currently enrolled in the degree to complete.
5. As approved by The University of Auckland School of Architecture and Planning.
