"Studying and gaining my degree from the University of Auckland has opened many doors. The reputation of the University contributed a lot when I applied for a Job at NZ's number one IT company DATACOM. Choosing Computer Science has been the best decision in my life. It was a stepping stone for my entry into the IT world. I now work as a Software Test Analyst. "

Prabhjeet graduated with a Bachelor of Science in Information Systems in 2007.
