

Weekly Feedback Exemplar:

Week One

Student Teacher Progress Towards Learning Outcomes

Hoana, you have settled into the centre well and are quickly learning the children's names. You are asking questions when you are unsure and have shown professionalism in all your interactions.

It is good to see you reading policies, making notes and learning about the kindergarten.

Future Directions

I would like to see you approaching families and whānau more. You may approach the families we spoke about this week to request permission to gather assessment information.

It is good to see you beginning to notice children's interests and strengths; I look forward to seeing you recognising and responding to these in collaboration with the teaching team.

Keep up the good work!
