By signing this consent form, I confirm that:

1. I have read and I understand the Participant Information Sheet for this study, and have had an opportunity to have my questions and concerns answered.

2. I have had sufficient time and the opportunity to discuss this study with family/Whanau or a friend to help me ask questions and understand the study.

3. I have had time to consider whether to take part.

4. I am aware that taking part in this study is voluntary (my choice) and that I may withdraw from the study at any time without giving a reason.

5. I understand that my participation is confidential and that no material that could identify me will be used in reports on this study.

6. I understand that data from this study will be stored securely and that the data will be destroyed after 6 years.

7. I know whom to contact if I have any questions about the study.

8. I do not have any health issues that affect my participation in this study, which involves MRI scanning.
9. I understand that to check my eligibility for MRI scanning, a radiologist might need to check my NHI records.

10. I understand that dilating eye drops will be used in the optometric examination.

11. I understand that these eye drops might cause temporary bright light discomfort. I also understand that I might need a driver or wait until my vision is clear before driving or using machines.

12. I understand that this study involves imaging of my eye(s) with various non-invasive clinical imaging technologies, such as optical coherence tomography (OCT) and Scheimpflug photography.

I hereby agree to take part in this research.
