

Do people of **different ages** have **similar or different** ideas about what makes us healthy, happy and well?

check ...

We have ___ periods of class time & ___ hours of homework time to complete the **WHOLE** research task.
STEP 1 needs to be finished by _____

REFINING THE QUESTION: People and Age Groups

Make a list of 3 different groups of people you could potentially test.

This is a **small** research task. We do not have as much time for this as a scientist would.

Make sure your question can be answered in the time your teacher has given you for this task. You need to survey between 5 and 10 people.

Possible Groups	Can I easily ask them questions?	What size is the group?	What age groups are included?	Is this group a good fit for my question and the amount of time I have?
My netball team	YES	10 people	13-14 year olds	No, because they are all the same age
Group 1				
Group 2				
Group 3				

Write up THREE possible research questions (one for each group) and RANK them from best to worst.

Give REASONS for your RANKINGS.

RESEARCH QUESTION	RANK	Give your REASONS why for each ranking
Do people in my netball team have similar or different ideas about what makes us healthy, happy and well?		This question would be interesting, but all the people in my netball team are about the same age. The BIG question says DIFFERENT AGES. This is NOT a good question for my research.
Group 1		

RESEARCH QUESTION	Group 2	Group 3

Give your REASONS why for each ranking		

PEER REVIEW

Researchers send their work to other researchers to get a **SECOND OPINION**.

The reviewer sends back **COMMENTS** or **FEEDBACK**.

The researcher **CONSIDERS** the comments and **DECIDES** how they might **EDIT** their work.

Collect review comments from one **STUDENT** and one **TEACHER** before **EDITING** your question.

STUDENT REVIEW COMMENTS

Question 1

Question 2

Question 3

TEACHER REVIEW COMMENTS

Question 1

Question 2

Question 3

MY FINAL RESEARCH QUESTION**MY REFLECTIONS**

Record your reflections about the process of PEER REVIEW.

How was this process **HELPFUL** for **YOUR LEARNING**?

How was this process **CHALLENGING** for **YOU**?
