

Before you collect data – you need to practice in your class!

TASK 1: Research Team Check List

- Meet with your RESEARCH TEAM and create a data collection CHECK LIST.
- The CHECK LIST helps make sure everyone in the TEAM collects their data the same way.

Use a new survey sheet for each person

TASK 2: Collect Data

- Collect survey data from students in your class.
- Record your data on the survey sheets.

**YOUR
OPINION**

**TASK 3: Feedback**

Work with **TWO** other people...

	Very Nervous	Nervous	OK	Confident
When I was asking the survey questions I felt...				
When I was being asked the questions I felt...				

What can you do to make people taking the survey feel OK or Confident?

What can help make YOU feel CONFIDENT about asking the survey questions?

TASK 4: Collect Data From A Different Group of People

- If your class or group have decided to collect data from a second group of people to compare the responses, organise your check list again, make sure everyone in the TEAM is using the same methods, and COLLECT your SECOND DATA SET.
