

LENScience Senior Biology Seminar Series

Teacher Update Number 5 – May 20th 2009

In this issue:

- [Seminar 1 wiki discussion](#)
- [Seminar 2 resources](#)
- [Student lists](#)

Welcome to week 4 of the LENScience Senior Biology Seminar Programme.

This week you should be running your pre-seminar 2 workshop.

Seminar 1 Wiki Discussion

Thanks to the schools that participated in the discussion for seminar 1. If you are struggling with how to participate – please refer to the step by step instructions that we have put together for students in today's student update.

A reminder that there is an expectation that all schools will try to contribute to the wiki – this is part of being a member of this community.

Seminar 2

As you will have realised from the resources, seminar 2 involves clinicians and scientists from Fertility Associates, as well as a number of Liggins-NRCGD scientists who have been supporting the development of this seminar. Your students may be interested in the North and South Article this month which highlights the work of Fertility Associates and the Liggins Institute in regard to Reproductive Technologies.

Nature Education is an excellent free science library which is ideal for Year 13 students. We have sited and linked a number of articles from this for extension reading. <http://www.nature.com/scitable>

Student Lists

A reminder that if you would like your students to be sent the student updates directly each Friday via email, please send an excel spreadsheet list of students to ligginsinfo@auckland.ac.nz using the following format:

Surname	Name	email
---------	------	-------
