

LENScience Senior Biology Seminar Series

Teacher Update Number 7 – June 13th 2009

In this issue:

- [Seminar 2 wiki discussion](#)
- [Seminar 3 – further resources](#)
- [Student lists](#) - reminder
- [TV3 Sunrise – article expected this week](#)
- [Tell us about what you are doing.....](#)

Seminar 2 Wiki Discussion

The schools that have contributed to the discussion for seminar 2 are Alfriston College, Waiuku College and Sacred Heart College Auckland. Thanks to those schools – the students have put up some good answers / answer starters.

Overall the students are contributing well to the seminar questions. Contributions to the seminar discussions are almost certainly going to need to come from the in-school workshops. If you are new to wiki editing– we suggest that you ask a student to put up a summary of the class discussion from your school. The discussion pages will be up all year. If your school is doing a module that links into the seminars later in the year it would be great to see the discussions grow.

Seminar 3 – additional resources

As well as the resources that we listed in the last teacher update – there are a number of education sites that are listed for students on the [wiki page for this seminar](#). In particular have a look at the Utah Learn Genetics link for Epigenetics.

Student Lists

A reminder that if you would like your students to be sent the student updates directly each Friday via email, please send an excel spreadsheet list of students to ligginsinfo@auckland.ac.nz using the following format: surname | Name |email

Sunrise TV

Thanks to those schools where TV3 filmed over the past month. The article is due to play this week on Sunrise.

Tell us about what you are doing.....

We would love to hear about how the seminars are going in your school. We will be posting photos and stories about the seminar events in schools around the country on the wiki. Please remember all photos must be of students who you have permission to use photos from.
