

LENScience Senior Biology Seminar Series Teacher Update Number 7 – May 3rd, 2011

In this issue:

- ▶ Seminar 3 Week 1
- ▶ Seminar 2 Update
- ▶ Year 11 Science National Education Event for students

Seminar 2 Week 1 March 28—April 1

- Distribute the [seminar paper](#) and [pre-seminar focus handout](#) to students
- Hold a session for your students to discuss the pre-seminar questions.
- Facilitate development of questions for the seminar from your students—encourage them to enter these on the [seminar question page](#).
- Continue to encourage students to enter [Seminar 2 Challenge responses](#) on the wiki
- Keep a watch on the wiki to see how your students are participating and the responses they are getting from the science and science education team.

Seminar 2 Update

Students have started to engage with the challenge questions on the wiki, which is great to see. We've had responses from students from Whakatane High School, Orehunga High School and Sacred Heart College, so many thanks to the teachers from those schools for encouraging and supporting your students. We'd love, however, to see some more responses this week before we make final comments so please encourage your student to have a go.

Year 11 Science National Education Event for students

A final reminder for those who have yet to register for our upcoming National Education Event for students, Diabetes – An Issue for My Community, on Thursday 5th May.

Year 11 students are invited to participate in a National Education Event, broadcast live, about a major epidemic of our times.

Year 11 Science and Society: Diabetes – An Issue for My Community

Thursday 5th May | 1:30pm | Broadcast live
from The University of Auckland's City Campus Fale Pasifika.

Supporting students to report on a biological issue (Biology 1.2) through the presentation of current data, research evidence and points of view on the Type 2 diabetes epidemic in New Zealand.

This is a free event for you and your students.
Join us in our live audience or participate through the LENScience interactive broadcast system via either Satellite TV or Ultra High Speed Internet and LiveChat.
