The MAX Programme
For Year 13 high school students

Mathematics Acceleration and Extension (MAX)

Aimed at high achieving school students throughout New Zealand who enjoy an academic challenge (relating to all things mathematical) and can handle a solid workload.

What will you gain?

- A head start in a degree in Science, Commerce or Engineering at the University of Auckland
- A taste of University life and contact with expert staff
- Insight into higher level mathematics
- Access to University resources
