

SUMMER STUDENTSHIP 2014

Title of project:

Supervisor/s:

Supervisor 1 Imogen Bassett (AC)	Supervisor 2 Margaret Stanley (SBS)
Email Address: imogen.bassett@aucklandcouncil.govt.nz	Email Address: mc.stanley@auckland.ac.nz
Phone Extension:	Phone Extension: 86819

Key Techniques: survey design, data analysis

Aim of Project: Cats are hugely popular companion pets, but also have a range of ecological impacts. Understanding public attitudes to cats is vital in order to balance these often conflicting values. This project aims to examine spatial variation in public attitudes to cats, focussing on comparing attitudes of residents in highly urbanised areas with attitudes of residents near high biodiversity value areas.

Prerequisites: Must be comfortable working on a controversial research topic.
