**LIST B**: 30 points from MEDSCI 301, 312, FOODSCI 301, 303. Students applying for the MHSc in Nutrition and Dietetics must take MEDSCI 301 and 312.

**LIST C**: 30 points from BIOSCI 201, CHEM 240, FOODSCI 301-304, MEDSCI 301, POPLHLTH 202, 301, SCIGEN 201, EXERSCI 206.

1. At least 180 points (12 courses) must be above Stage I.
2. 30 points (2 courses) must be taken from the appropriate General Education Schedules for BSc students.
3. This planner describes the recommended order for completing courses to assist with satisfying prerequisites or core requisites.
4. Students must take at least 75 points (5 courses) at Stage III.

**NOTE**: BSc (Food Science & Nutrition) is a single major which offers two distinct pathways; Food Science and Nutrition, and a limited opportunity to mix the two. Students should follow the suggested pathways, particularly at Stage I to meet prerequisites for future courses. This applies particularly to students following the Nutrition pathway with the intention of entering Dietetics training, and students who fail to meet prerequisites and GPA requirements will not gain access to year II and III courses. Similarly Food Science students can consider adding extra nutrition skills. Please note the recommended pathways as outlined in the Planner are aligned with the skills & competencies we know employers prefer, and you must meet the full requirements of the regulations to graduate: https://www.calendar.auckland.ac.nz/en/proreg/regulations-science/bsc.html
