

# YOU'RE A HIGH FLYER

- Share your knowledge with others: become a [SavY facilitator](#) and host workshops with high school students or get involved in [clubs](#) or community organisations in a treasurer role.

- Calculate your [net worth](#): when measured over time your net worth is like a financial report card that you track your progress with.

- Set bigger financial goals: pay your student loan off in two years? Go on a six month holiday? Retire by 30? The world is your oyster!

*Every student has their own individual experiences which contribute to their money personality. These tips are suggestions for your money style and are not a substitute for advice from a financial advisor. Speak to the New Zealand Federation of Family Budgeting Services for free budgeting advice or visit your local Citizens Advice Bureau.*
