

Auckland Academic Health Alliance Goldman Sachs New Zealand Foundation Clinical Fellowship in Cancer Medicine

The Auckland Academic Health Alliance of the Auckland District Health Board and University of Auckland invite applications for the Goldman Sachs New Zealand Fellowship in Cancer Medicine (the "Fellowship").

This Fellowship will be awarded to a medical graduate committed to a clinical career with a major involvement in cancer medicine. The Fellowship will aid in enhancing their practice and expertise through further clinical training and research and thus contribute to improved patient outcomes in New Zealand. The Fellowship may be combined with post fellowship training in cancer medicine, with a research component should normally of at least 30%. The expectation is that at the end of the Fellowship the successful applicant will become established in clinical practice in New Zealand.

Eligibility The Fellowship will be available to applicants that are New Zealand citizens or permanent residents who have recently completed, or are in the final stages of, a relevant specialist College training programme. The Fellowship will be available in (but not limited to) disciplines of surgery relevant to cancer, haematology, radiation oncology, medical oncology, palliative care, cancer genetics, radiology, anatomical pathology, psychiatry or public health.

Conditions The Fellowship will be tenable at an approved Sponsoring Institution either in New Zealand or overseas. Applications must be accompanied by the formal agreement of a senior member of the staff of the Sponsoring Institution (by the Sponsoring Institution executing the application form) to undertake the duties of supervisor of the Fellow's clinical work and research. There must be formal agreement by the Sponsoring Institution itself to support the Fellow, and to provide clinical access and facilities for the research. The Fellowship provides an annual NZD 30,000 stipend towards salary for up to 3 years and up to NZD 3,000 of travel costs, but the provision of equipment and working expenses for research is the responsibility of the Sponsoring Institution. Research conducted by the Fellow may be used to meet the requirements of a higher degree (e.g. MD, PhD).

Salary It is envisaged the Sponsoring Institution may provide salary in addition to the grant for clinical, research or other duties.

Reports and Publications A final report is required within six months of completion of the Fellowship, or annually if the Fellow is granted Funding for more than one year. The reports must be endorsed by the supervisor at the Sponsoring Institution.

Making Application

The closing date is 2 November 2017. Intending applicants can contact either Professor Michael Findlay mp.findlay@auckland.ac.nz or Dr Richard Sullivan rsullivan@adhb.govt.nz before the due date to discuss their proposed application.

The application form can be found on the Auckland Academic Health Alliance website

<http://www.aaha.org.nz/en/aaha-in-action/scholarships-and-fellowships/goldman-sachs-foundation-cancer-fellowship.html>

The signed original plus 6 copies of the application are required.

Completed and signed forms should be sent to

Emma Robjohns
Group Services Coordinator
School of Medical Sciences

Email: e.robjohns@auckland.ac.nz

In addition, please submit an electronic copy of the form to:

Professor Michael Findlay mp.findlay@auckland.ac.nz

Applications will be reviewed and shortlisted applicants invited to interview. Invitation for interview will be extended within 3 weeks of closure of applications. Interviews will be held at the end of November
